Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system, and restore vigour and strength to the body.

Mrs. R. J. Huffman, 268 Reid street, Peterborough, Ont., and whose husband is employed at the Canadian General Electric Company, states:

"For over a year I suffered from nervous headaches and feelings of weakness and dizziness would come over me. My nervous system seemed weak and exhausted, and hearing of the success of Dr. Chase's Nerve Food I began using it. I am now pleased to state that the headaches do no bother me any more and my system is entirely built up and restored."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

THE BALANCE OF HEALTH

Is often very much against the wife. Her strength is undermined, she loses flesh and her energy and courage slowly leak away from her. Gradually the comradeship of husband and wife is broken up. At first he takes his solitary pleasures reluctantly, but later he hardly seems to remember the old days over which his wife in her weakness mourns daily.

Women who find their health failing, and womanly ailments fastening on them, should promptly begin the use of Dr. Pierce's Favorite Prescription. It corrects irregularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. It makes weak women strong, sick women well. Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I had been a great sufferer from female weakness for about two years," writes Mrs. Emma Richardson, of Gum, Wayne Co., Ky. "Could not do my work part of the time. I took four bottles of Dr. Pierce's Favorite Prescription and felt as well as I ever did. I have also used Dr. Pierce's Golden Medical Discovery for ulceration of the throat with good results and half of one bottle cured my throat when I could scarcely swallow."

The People's Medical Adviser, 1008 pages, *free*, on receipt of stamps for customs and mailing *only*. Send 21 one-cent stamps for the paper-covered book, or 50 stamps for the cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

Impaired Digestion

Jewelers,
Yonge and Adelaide Streets,
Toronto.

Dickens and the Lost Boots.

Broadstairs was a favorite haunt of Charles Dickens. Broadstairs in Kent, is a favorite place of resort for excursionists and holiday-makers still, and whenever Dickens was out of tune with London and wanted a little change, he used to hurry down to Broadstairs for a few days. The place seemed to have great attractions for him, and an old woman who still remembers him relates the following story of her connection with Dickens, which will be new to most readers.

To give it in the old lady's own words will, perhaps, be most interesting: "When I was a girl," she says, "of about ten years of age, during a dreadful winter I was sent by my parents, who were very poor, to Ramsgate to buy myself a pair of strong winter boots. On my way home the cold was intense, and, holding the parcel close to me, I found, when nearly at my journey's end, that the boots had slipped out of the parcel, and that I only held the brown paper in my hands With my heart in my mouth. I ran back by the way I had come, and, meeting a man whom I had passed some time previously, asked him if he had seen the boots, and he answered very gruffly—"No!"

"Continuing my search I met a man in a dogcart, who inquired what was the hurry. I told him of my loss. After telling him all my story, he told me to jump up with him, and soon we overtook the man whom I had met before. My good Samaritan interrogated him very closely, and eventually it turned out that he had picked up the boots. Charles Dickens, for it was he who had befriended me, then said to him—

"If you had been an honest man I should hate rewarded you; but as you are not, a good horse-whipping is what you deserve!"

"He then turned to me and asked if I had heard of Charles Dickens, to which I answered—'No.' Then, smiling upon me, he said—

"'You will hear of Charles Dickens one of these days, and you will then be able to tell how he did a kind action once in his life.'"

The Value of a Struggle.

It is a curious fact in the history of nations that only those which have had to struggle the hardest for an existence have been highly successful. As a rule the same thing is true of men. One would think that it would be a great relief to have the bread and butter problem solved by one's ancestors so that one might devote all his energies and time to the development of the mental and spiritual faculties. But this is, contrary to the verdict of history and the daily experience of the world. The strugglers, those born to a heritage of poverty and toil and not those reared in the lap of fortune, have, with a few exceptions, been the leaders of civilization, the giants of the race.—Success.

A Straight Tip.

Little Boy—I say, mamma says you are going to take sister away.

Engaged Young Man (soon to be married)—Yes, in a few weeks she's coming to my home, and my mamma and papa will be her mamma and papa.

Little Boy—I see. Then she'll be your sister same as she was mine. But, I say, don't you do anything she doesn't like, for, if you do, she'll bang you about awfully when your mamma and papa ain't looking.

MARKET REPORTS.

Grain Markets All Strong—Wheat Higher by a Fraction and Corn by 2 Cents in Chicago—The Quotations.

Monday Evening, Nov. 17.

Liverpool wheat futures closed ¾d higher to-day than on Saturday, and corn futures ¼d to 1d higher.

At Chicago December wheat closed ⅞c higher than Saturday; December corn 2c higher, and Dec. oats 1¼c higher.

THE VISIBLE SUPPLY.

MONTREAL LIVE STOCK.

Montreal, Nov. 17.—There were about 800 head of butchers' cattle, 50 calves and 1500 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were present in large numbers and there was a fair demand for moderately good cattle, but the common and inferior beasts brought lower prices than on last week's markets. A few of the best cattle sold at from 4¼c to 4½c per lb. Medium beasts at from 3½c to 4c and the common stock at from 2c to 3c per lb. Canners paid from 1½c to 2c per lb. for small bulls and lean cows. The calves were nearly all grass-fed and these sold at from 3c to 4¼c per lb. Good veals sell up to 5c per lb. Sheep sold at from 2¾c to 3¼c, and lambs at from 3½c to a little over 4c per lb. Good lots of fat hogs at about 6c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Nov. 17.—Cattle—Receipts, 7000 head; butcher cows and heifers, steady; others generally 10c to 25c lower; fine steers, $6.25 to $6.75; shipping steers, $5.25 to $6; butchers' steers, $4 to $5; heifers, $3.25 to $4.75; cows, $2.25 to $4; canners, $1.50 to $2; bulls, $2.50 to $4; feeders, $3.75 to $4.50; stockers, $3.25 to $4; stock heifers, $2.25 to $3; fresh cows and springers, steady; good to choice, $45 to $55; medium to good, $35 to $45; common, $25 to $30. Veals—Receipts, 800 head; steady; tops, $8.25 to $8.50; common to good, $5.50 to $8.

Hogs—Receipts, 32,500 head, active; heavy, 10c to 15c higher; others about steady; heavy, $6.50 to $6.65; mixed, $6.40 to $6.50; Yorkers and pigs, $6.20 to $6.30; roughs, $5.80 to $6.10; stags, $5 to $5.50.

Sheep and Lambs—Receipts, 31,100 head; steep, easier; lambs, slow to 10c lower; top lambs, $4.80 to $4.90; culls to good, $3.50 to $4.75; yearlings, $3.60 to $3.75; ewes, $3 to $3.25; sheep, top mixed, $3.15 to $3.25; culls to good, $1.75 to $3.10.

NEW YORK LIVE STOCK.

New York, Nov. 17.—Beeves—Receipts, 4882; steers opened steady to strong, except common, which were lower; market closed slow; bulls and cows, steady; steers, $4 to $6.60; westerns, $4.60; oxen, $4 to $4.65; bulls, $2.50 to $3.50, exports, do., $4.25; cows, $1.40 to $3.75; shipments to-morrow, 700 cattle and 2520 quarters of beef. Calves—Receipts, 1902; veals, steady; grassers, slow; westerns, steady but dull; veals, $5 to $9; little calves, $4.45; grassers, $2.75 to $3.25; western calves, $3 to $4.25.

Sheep and Lambs—Receipts, 21,116; market slow; 25c lower all around; sheep, $2 to $3.40; choice to extra, $3.50 to $3.75; choice wethers, $3.87½; culls, $1.75; lambs, $4.50 to $5.25; two cars extra, $5.50; tops, $5.55; culls, $3 to $4; Canada lambs, $4.75 to $4.85; extra, $5.30.

Hogs—Receipts, 12,618, steady; state hogs, $6.50 to $6.55; outside sales, $6.60.

BRITISH CATTLE MARKET.

London, Nov. 17.—Live cattle firmer at 11¾c to 13¼c per lb. for American steers, dressed weight; refrigerator beef, 10⅛c to 11⅛c per lb.

DRS. KENNEDY & KERGAN

The Leading Specialists of America. 25 Years in Detroit. Bank Security.

Nine out of every ten men have been guilty of transgression against nature in their youth. Nature never excuses, no matter how young, thoughtless or ignorant he may be. The punishment and suffering corresponds with the crime. The only escape from its ruinous results is proper scientific treatment to counteract its effects.

The DRAINS, either by nightly losses, or secretly through the urine, must be stopped—the NERVES must be built up and invigorated, the blood must be purified, the SEXUAL ORGANS must be vitalized and developed, the BRAIN must be nourished. Our New Method Treatment provides all these requirements. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. We invite all the afflicted to call and consult us confidentially and free of charge. **Cures Guaranteed or no Pay. We treat and cure: Varicocele, Blood Diseases, Stricture, Gleet, Emissions, Urinary Drains, Spermatorrhoea, Unnatural Discharges, Kidney and Bladder Diseases.**

CONSULTATION FREE. BOOKS FREE.

If unable to call, write for a QUESTION BLANK for Home Treatment.

GOOD NEWS COMES TO THE PEOPLE OF PETERBOROUGH FROM

Gough Bros.

TO OUR CUSTOMERS WE SAY—
"WE'RE READY FOR THE FRAY AT YOUR TROUSER'S BOTTOM'S."

Our success in business is not accident or luck—it is just as we planned it, and the result of our determinations. Our Guarantee accompanies every purchase and is always your Safe Guard, and the prices are grating on the bottom.

SNAPPY CLOTHES FOR MEN.

To wear clothes with the proper shoulders, curve of back, roll of lapell, loose trousers, and other details that mark the apparel of the well-dressed man, it is no longer necessary to go to the extreme tailor, as we have them in the season's cut and design, and they cost you half as much. That's the main difference.

$3.90 UP.

FINISHED TOP COATS.

All our Top Coats have that finished appearance which characterizes the best custom work. They hold their shape, and they fit equally well whether buttoned or not. They don't spring up in the back. The collars do not bulge, and all these points are important. The seams are sewn strongly. The button holes are hand made. Matters not whether you pay **$3.90, $5.00, $7.50 or $10.** you will meet with the approval of the most exacting.

"FLYERS" IN FURNISHINGS.

We keep the very latest and best in Underwear, Hosiery, Neckwear, Collars, Cuffs and Shirts of all grades. Our purchases for this season have been heavy, but a few quotations will clearly let you understand the cut rates that prevail—

THE WALL STREET MARKET

The Board was Fairly Quiet To-day.

Rise in December Corn—Daily Letters—Quotations.

With the exception of a few stocks, to-day's market was fairly quiet, compared with the extensive operations of the past week. Although quiet, there was a welcome steadiness on the board. Manhattan and December corn were the most active stock. After yesterday's rise of 4 1-2 points, Manh. was very active, but lost only a portion of its gain. At one time it was backed down to 128 1-4, which was only three-quarters of a point below last night's closing. Sugar closed last night at 117 1-4, and opened up at 118 and reached its highest at 119 1-4. December corn continued its upward movement, opening at 53 1-4, and reaching its highest at 58 1-8. The following are the principal stocks and quotations;

	Open.	2.30 p.m
Baltimore & Ohio	99	99¼

The following despatches have been received by E. M. Pousett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 17th.—Market opened nervous and made fractional declines. It is now rallying under the leadership and steadiness of standard issues and Gould shares and coalers. Sugar higher on shorts covering.

M. & M.

We are likely to have a period of quiet in the market to-day. Developments will likely be in favour of steadiness of market on better issues, on all recessions do not warrant the belief in more than moderate advance under existing conditions. Money is not sufficiently easy to encourage commission houses in advising extended operations, and the losses of the past few days have been so decidedly against operations of large pooling, that a resumption of operations looking to bull manipulation seems to be out of the question. Sub-treasury statement shows that banks lost since last Friday $838,000. We have had quite a rally in stocks. We would rather sell than buy on any further advance. Time money is still unobtainable. I look for a dull market, and there is but little chance of anything better than a steady market before end of year.

M. & M.

The cash position in corn is strong. Pretty much all grades of old corn in this market, and the west are selling at a sharp premium over Dec. See no encouragement for short interest. It will be a long time before any stock of contract corn accumulates here, and the big short interest in May is pretty sure to be driven in by some thing before that time.

DENISON.

Nov. 18th, 12.00 p.m. — Commission house and room traders disposed to operate on short side. Their attitude was the same yesterday, and the strength of Manhattan intervened to make profit taking on short side impossible. Demand sterling steady at 487. The fact that several good steamers sail this week tends to distribute the business pretty evenly for each day, and prevents accumulation of demand from remittance on any one day. There is a very good supply of commercial bills particularly cotton.

M. & M.

New York, Nov. 18th, 1.30 p.m.—Liverpool closed. Wheat 1-8 to 3-8 higher, corn 1-2 higher. The stock market has lost its tone, and is very narrow. Traders are inclined to take short side.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc.—SAILSBURY & CO.

Material and Style united with Fit and Finish make "Jooke" Shirts the acme of shirt perfection.

LATEST IN SPORTING CIRCLES

London Rugbyists Will Visit Peterborough on Saturday.

Annual Meeting Peterborough Hockey Club To-morrow Night—Other Notes of Interest.

The London Rugby team have been ordered to play the final match for the championship of the Ontario Union in Peterborough on Saturday next. The game should draw a very large crowd as every person in Peterborough has been anxious to see the western men come here for several years past. The game will be played on the Nicholls Oval and the locals will enter the contest determined to win out. The arrangement for the final game was decided at last night's meeting of the O.R.F.U. Executive.

* * * *

The Peterborough Hockey Team, which will battle for O.H.A. honours once again this winter, promises to be as strong as that which carried off the championship of the Intermediate Series, last season. Of course there may be stronger teams in other towns; as to the outcome, we will say nothing. All that can be promised is that the club will be well organized, and the team will do its best to win out again. All of last year's seven, with the single exception of Wasson, will be available, and in addition to the players of last year, Peterborough will be strengthened considerably by the presence of Bill Cavanah, who was the lion of the Colts when they won the championship, two years ago, and who has located in Peterborough during the past summer. There may be other material loom up, and it is quite probable that such will be the case.

* * * *

There are some who declare that there should be still another series in the O.H.A. All matters being considered there seems to be some reason for arriving at such a conclusion. At the present time there is in the O.H.A. a Senior, Intermediate and Junior series. In the Junior series there is an age limit of 20 years. There can be no doubt that the age limit in the Junior series is all right. For were it not for this many juniors would become discouraged and quit the game in disgust, after playing against, what, under the old rule, were called junior teams, but which had on their strength men of all ages, whose advantage in weight counted for something if their knowledge of the game did not. But there are teams that are not fast enough for the Intermediate series and at the same time may be barred from entering in the Junior series by reason of the age limit. Peterborough, for instance, is in the Intermediate series. They are certainly too strong for such teams as Lakefield, Campbellford, Norwood, Keene, Omemee and a score of other teams that might be mentioned, which are perhaps not quite strong enough for the Intermediate series, and are not eligible for the Junior series by reason of the fact that they have, perhaps, one or two players, who are over 21 years. Of course there is a great deal of work embodied in the running of three series and this would be increased by the introduction of an additional series. At the same time there appears to be a slight discrimination against teams of the calibre above mentioned.

RUGBY.

The final for the intermediate O. R.F.U. will probably be played in Peterborough next Saturday with London and Peterborough as the opposing teams. A meeting of the Ontario Union Executive was held last night at the Rossin House for the purpose of finally disposing of the vexed question, and it was decided that the Argonauts II. were hardly deserving of another chance, and the Torontos were ordered to play in London next Saturday, and the winners to tackle Peterborough the following Saturday. The home teams in both cases to guarantee $50 for travelling expenses. Subsequent to the meeting Manager Coffee of the Torontos informed President Ballantyne that his team would default, and in that event London will be ordered to contest the final with Peterborough next Saturday.

President Ballantyne was in the chair, and the members present were:—G. S. Gibbons, London; Fred Thompson, Argonauts; A. W. McPherson, Peterborough; Geo. Ballard, Varsity, and Secretary F. D. Woodsworth. In the junior series the Wellesleys will be required to meet the Limestones in Kingston next Saturday, the latter team having consented to put up a guarantee of $50. The Wellesleys asked the union to order the game to be played at Port Hope, but this proposition did not suit the Limestones, and the local team will have to journey to Kingston. Hamilton juniors will also play in Galt on Saturday in the semi-final round.

TORONTOS DEFAULT.

Manager Frank Coffee, of the Toronto Intermediate Team, on receiving word last night of the decision of the executive of the O.R.F.U., stated to President Ballantyne that his team would default to London next Saturday. He announced that this was the official notice. The Torontos were obliged to take this action because in case of a victory it was impossible for the players to get away on two Saturdays in succession in order to play the final in Peterborough. London was notified last night that unless they heard to the contrary by Tuesday afternoon they were to play the final in Peterborough on Saturday, November 22.

HOCKEY.

The annual meeting of the Peterboorough Hockey Club will be held in the Town Council Chamber at 8 o'clock to-morrow evening. A large turn out of members is requested.

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

WHY?
Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

BITTER ARRAIGNMENT

"Perjury the Golden Rule" of "Human Devils," Union Brutes.

ORGANIZED LABOR IS SCORED.

Mr. John Kirby, Jr., President of Employers' Protective Association of Dayton, Ohio, Delivers an Address to Newly-Organized Similar Association in Toronto—Carries War Into Africa.

Toronto, Nov. 19.—Trades unionists received a scoring at the hands of John Kirby, jr., president of the Employers' Association of Dayton, Ohio, who delivered an address in the rotunda of the Board of Trade last evening before the members of the Employers' Association of Toronto, about eighty of whom were present with John P. Murray in the chair.

The speaker did not mince matters. He described some trades unionists as "human devils and union brutes," and said perjury was their golden rule.

Mr. Kirby maintained that the arbitrary, dictatorial methods used by leaders of organized labor made it necessary for employers of labor to also organize and adopt some method of protecting themselves and offset the effects of organized labor.

Continuing, the speaker said organized labor might be in some cases advantageous, but they were at present face to face with one of the most serious problems and with one of the most gigantic law-defying organizations in the world. He demanded to know if they were to bow their heads in recognition of its dignity and might.

As for the remedy, he said the only one was a thorough organization of the employers of labor, whose objects would be to instruct and encourage employes to dispose of his labor wherever he liked, and to protect them and also to void these advantages if they joined a union.

"Where will non-union men find work where unionism reigns?" was an important matter, Mr. Kirby said. Where organized labor got the better of the employers was when they stationed pickets about places of business and dictated what men the employers should or should not employ.

The duty of every employer of labor, said Mr. Kirby, was to contribute his time and money towards the utter annihilation of organized labor, with its vicious practices. He thought that if the Declaration of Independence of the United States had been enforced there would have been no coal strike, and if the ones in authority had said: "Thou shalt not" there would have been abundance of coal.

The results obtained by employers' organizations was referred to. As a result of them newspapers now published letters antagonistic to organized labor; in fact, the newspapers had been turned inside out. He then gave an account of the progress of organized labor in Dayton; of the fights between capital and labor there, and expressed the belief that the employers now controlled the situation.

Then Mr. Kirby vehemently declared that organized labor meant Socialism and Anarchy; that it repudiated the brotherhood of man and substituted therefore tyranny; that it recognized no sense of honor or moral obligation; that it put a premium on indolents and raised a barrier against energy, and that not one in 5,000 union laborers would go into a witness box and give evidence that would incriminate a fellow unionist.

In concluding, Mr. Kirby quoted from a speech delivered in Chicago by President McConnel of the Machinists Union. He had said that there was no reason why the employe should not have as many hours ployer should not have as many hours for social pleasure as the employer, and if they would only fight for it they would get it. He (McConnel) believed that no man would get into Heaven unless he wore a union card.

P. W. Ellis, in moving a vote of thanks to the speaker, explained that the Toronto Employers' Association had been organized so that disputes between labor and capital could be impartially considered.

The chairman, in closing the meeting, said it had been said and wisely said, too, that employers insured against other things and why not against labor troubles.

SUTCLIFFE'S NOTEWORTHY BLOUSES

Waists of Mercerized Satteens look just like Silk—yes, they have the same sheen of silk, but they wear better and are purchasable at about one-half the cost. Beauty, durability and economy are linked together in these waists. Sizes range from 32 to 42, well made, good fitting and well lined, front neatly tucked in clusters, tucked back, sleeve and collar, new pointed cuffs, worth $2.50,

SPECIAL $1.75.

Cashmere Waists, a well assorted range of colours and sizes, looks like French Flannel, tucked yoke,

SPECIAL 98c.

All-Wool Cashmere and Coloured Lustre waists, made up in various styles, in dark colours and evening shades, assorted sizes,

SPECIAL $2.50.

SILK WAISTS.

Three Noteworthy Lines—Noteworthy because underpriced. How we came by them is too long a story—enough to know they are new and correct in every particular. Black Silk Waists made of soft, rich taffeta, with a beautiful bright sheen, nicely made, tucked all-over, worth $4.50,

SPECIAL $3.25.

Lousine Silk Waists, in blacks and colours, tucked and hemstitched front and back, lined throughout, worth $4.00

FOR $3.25.

Black and Cream Taffeta Silk Waists, trimmed with hemstitching and tucking,

SPECIAL $3.75.

See our Unlined Skirts at $2.98, worth $4.50.

THE UNION QUESTION.

Point at Issue Before Miners' Strike Commission—Mitchell on the Stand.

Scranton, Pa., Nov. 19.—President Mitchell yesterday for the fourth successive day, occupied the witness stand during the two sessions of the Strike Commission, and was cross-examined by the attorneys for as many companies. The day was rather a quiet one. The commissioners yesterday for the first time entered into the discussion with the lawyers and the witness over disputed points, which arise from time to time.

Mr. MacVeagh, who began his cross-examination of Mr. Mitchell on Saturday, concluded at 11 o'clock yesterday. He attempted to break down the miners' reasons for asking for a yearly agreement with the companies on hours of labor, wages and other conditions, which, if formed, would be recognition of the union. Mr. MacVeagh's principal aim throughout his questioning of Mr. Mitchell, was to show that the Mine Workers' Union, because of alleged acts of intimidation, violence and the use of the boycott, by its members, proved itself unfit to be a party to a contract. Mr. Mitchell would not admit, nor even assume for the sake of illustrating points, that a reign of terror existed in the anthracite fields during the last six months. The recognition of the union is looked upon as the most important question before the commission, and it is quite evident from the trend of the proceedings thus far that the companies will oppose it to their utmost.

Francis J. Gowan, for the Lehigh Valley, and W. W. Ross, for the Lackawanna, questioned Mr. Mitchell regarding conditions existing at the collieries of the companies they represented.

For Non-Union Men.

John T. Lenahan of Wilkes-Barre, counsel for the non-union men, who want the commission to consider their case, has handed the commission a list of 2,000 names of non-union men, as his authority for appearing before the arbitrators. He did not wish the commission to make the names public at present, but as Chairman Gray said that everything filed with the commission is public matter, the names were unofficially handed in, and were not made public. He also filed a statement of the non-union's demands.

The Boycott Goes on.

Schenectady, N. Y., Nov. 19.—The boycott against the Schenectady Railway Company will continue for another week. No action was taken last night by the Trades Assembly.

Yesterday morning the cars were well patronized and unionists were inclined to laugh at the boycott. The Albany and Troy cars of the company, which daily carry hundreds of men who are employed in the city both in the General Electric and Locomotive Works, were filled with workmen. Their names were not taken by the committee designated by the Trades Assembly for this purpose—in fact, nothing was to be seen of the committee.

The representatives of the company are jubilant over the turn affairs have taken. They declare that the injustice of the boycott has appealed to thinking trades unionists, and that they have declined to ratify the action of the Trades Assembly.

Strike Breakers Are Traitors

New Orleans, Nov. 19.—Replying to the address of Mr. Edwards and other fraternal delegates to the Federation Labor Convention, President Gompers referred to the criticisms made by him in his annual address concerning the remarks of President Elliott of Harvard, "for calling a strike-breaker a hero." The strike-breaker, President Gompers declared, was as much a traitor to the cause of labor as the man who betrayed his country in time of war.

A STUBBORN BATTLE.

British Indian Frontier Force Seriously Engaged.

PINITIVE EXPEDITION FAILED.

Kabul Khel Waziris, Whose Strength in Fighting Men is Placed at 3,000 Men, Attacked the Fourth British Column —Colonel in Command of the — British Mortally Wounded and Worse Is Feared.

London, Nov. 19.—The punitive expedition against the Kabul Khel Waziris, whose country lies on the Indian frontier, near Bannu, and whose strength in fighting men is placed at about 3,000, has already led to far more severe fighting than was anticipated. The British force employed consists of four columns of Indian troops, each 700 to 800 strong, and started out on Sunday and Monday. It was thought that five or six days would suffice to bring the operations to a successful close, and that there would be no fighting of a serious nature.

To-day, however, news arrives that the fourth column is being obstinately opposed, and that the Colonel in command of it has been wounded, and has asked for reinforcements. The morning papers think that the Colonel alone is not all who are likely to be wounded in such an engagement, and it is surmised that the full extent of the British casualties has yet to be made known. The demand for strong reinforcements would seem to point to the probability of the force having been surrounded or entrapped in some way by the enemy.

Reinforcements Asked For.

Peshawur, India, Nov. 19.—The British expedition to put down the uprising of the Wazri tribesmen on the Afghan frontier is meeting with a determined opposition. Col. Tonnochy, in command of the fourth column, has been mortally wounded in an engagement with the insurgents, and Major Beresford, the next in command, has asked for reinforcements.

London, Nov. 18.—The news of the British check in the Waziri country has created some alarm here, as it is feared that the column is surrounded, and that the full details of the casualties are being withheld.

TIDE TURNS TOWARD WEST.

Increased Value of Settlers' Effects Coming From U.S. $1,567,502.

Ottawa, Nov. 19.—The importation of settlers' effects during the last fiscal year shows an increase of $1,774,044, as compared with 1899. The increase in settlers' effects from the United States alone amounts to $1,567,502. This indicates how large a movement of population has been going on from the United States to Canada. The figures for the past five years are as follows:

	Total.	United States	Great Britain
1899	$2,806,956	$2,183,361	$458,888
1900	3,065,410	2-385,724	657,244
1901	3,740,000	2.915,000	801,000
1902	4,580,000	3-751,368	802,313

Bishop Thompson Dead.

Jackson, Miss., Nov. 19.—Bishop Hugh Miller Thompson of the Episcopal diocese of Mississippi died yesterday morning. He was born in Welland in 1839.

Dr. Fiset's Appointment.

Ottawa, Nov. 19.—Dr. Fiset of Quebec has been appointed Staff Adjutant of the Army Medical Corps of Canada. His office will be in Ottawa.

Yerkes' 100 Miles of Tubes.

London, Nov. 19. — Royal assent was given yesterday to all the bills relating to Charles T. Yerkes "tube" railroad plans for London. The roads will cover an aggregate of 100 miles of underground and surface tracks.

Well Made.

Pure flour and pure yeast do not necessarily mean good bread. It may be spoiled in the making. Just so: material is not everything. Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, after a number of analyses, reports that "Sunlight Soap is a pure and well-made soap." "Well made" means more than you think. Try Sunlight Soap—Octagon Bar—next wash day, and you will enjoy the benefits of a "well-made" soap, and will see that Prof. Ellis is right. No one should know better than he. 214

Mrs. Laura L. Barnes, Washington, D. C., Ladies Auxiliary to Burnside Post, No. 4, G. A. R., recommends Lydia E. Pinkham's Vegetable Compound.

"In diseases that come to women only, as a rule, the doctor is called in, sometimes several doctors, but still matters go from bad to worse; but I have never known of a case of female weakness which was not helped when **Lydia E. Pinkham's Vegetable Compound** was used faithfully. For young women who are subject to headaches, backache, irregular or painful periods, and nervous attacks due to the severe strain upon the system by some organic trouble, or women of advanced years in the most trying time of life, it serves to correct every trouble and restore a healthy action of all organs of the body.

"**Lydia E. Pinkham's Vegetable Compound** is a household reliance in my home, and I would not be without it. In all my experience with this medicine, which covers years, I have found nothing to equal it and always recommend it."—Mrs. Laura L. Barnes, 607 Second St., N. E., Washington, D. C.—*$5000 forfeit if original of above letter proving genuineness cannot be produced.*

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

Christmas Photos.

Time now to be making your appointments at LUNDRUM'S for Photos to send friends at a distance in good time before Christmas. We have something new to show you in Platino type Art Folders. Very convenient for mailing. Only Ground Floor Studio Charlotte street.

Daily Examiner.

London (England) office—168 Fleet street, E. C., Central Press Agency Limited, Special Agents.

WEDNESDAY, NOVEMBER 19, 1902.

IMPOSING ON THE PROVINCE.

People Sent to Asylums who are not Insane.

Provincial Secretary Asks the Attorney-General to Furnish Special Legislation or Other Remedy to Prevent the Abuse.

The Provincial Secretary, Hon. J. R. Stratton, has drawn the attention of Attorney-General Gibson to an abuse which he thinks calls for special legislation or other remedy. He asks that physicians throughout the Province be made to exercise greater care in giving certificates in connection with the sending of persons to the various asylums for the insane. There have been, he points out, within the past three months five cases in which, upon the certificates of physicians, persons have been sent to the asylums who were not insane, and who were, there was every reason to believe, sent there only to relieve their friends or the House of Refuge, or some similar institution, naturally responsible for their case and maintenance. Of these patients, it was pointed out that one suffered from a rheumatic affection and another from blindness.

Mr. Stratton suggests that some steps be taken to prevent physicians abusing their power in the manner mentioned and to punish those who wilfully join with persons or officials of institutions to impose upon the Provincial charity by giving certificates in the case of persons who are improper applicants for admission to the asylums. Mr. Stratton ordered the discharge of the five inmates referred to from the asylums, and their return to the counties from which they came.

ASSESSMENT AND TAXATION.

The St. Thomas Journal, in an able editorial article on the municipal situation in that city calls attention to the high rate of taxation in force there and urges the people to take heed of it. It publishes a table which is of considerable interest as it shows the amount of taxes paid by all the cities of the province in 1901. Woodstock is at the bottom of the list in the amount raised for all purposes, $65,-399, but it is also much the lowest in the total assessed value of property, $2,761,150. The city which comes next lowest in the amount raised, is Belleville, with $67,809. Belleville's assessment is $3,902,573, and Guelph's, $3,778,060. Stratford's is just over the four million mark, while St. Thomas and St. Catharines are each a trifle over four millions and a half. Windsor reaches the enormous total of $5,305,863. In taxes raised for all purposes some of the figures are: Chatham, $90,426; Guelph, $89,-242; St. Catharines, $100,294; St. Thomas, $128,991;; Stratford, $99,578; Windsor, $142,203. The average tax rates for all the cities of the province in mills on the dollar are: Belleville, 22.5, Brantford, 20.2; Chatham, 27.6; Guelph, 23.6; Hamilton, 19.9; Kingston, 19.9; London, 21.9; Ottawa, 22.7; St. Catharines, 21.9; St. Thomas, 23.2; Stratford, 24.9; Toronto, 22.3; Windsor, 26.8; Woodstock, 23.7.

A NOVEMBER WEDDING.

Nuptials of Miss Alberta Armstrong and Mr. R. T. Williamson.

A very pretty ceremony was solemnized at the home of Mr. H. S. Armstrong, Alexander, Manitoba, (formerly an Ashburnham merchant,) on Wednesday evening, Nov. 12th, when his eldest daughter, Albertha Edna, was united in the holy bonds of matrimony, to Mr. Robert T. Williamson, of the firm of Williamson Bros., Edmonton, Alberta, (formerly of Lindsay, Ont.,) by the Rev. Mr. Bridgman, of Souris, assisted by the Rev. Dr. Talbot, of Griswold, Manitoba.

Promptly at the hour of 5.30 o'clock the bride, leaning on the arm of her father, entered the parlour to the strains of the wedding march, played by Miss Beatrice Smith, of Alexander. The bride looked beautiful in a travelling dress of pearl grey Venetian cloth, with trimmings of cream silk and applique. She was attended by her sister, Miss Ida M., who was gowned in the same material as the bride, with trimmings of grey silk, silk gimp and pearl buttons. The groom was ably supported by Mr. Will Dewart of Stockton, Manitoba.

The ceremony and congratulations over, the guests, numbering about thirty, sat down to a sumptuous wedding dejeuner, to which all did justice. The large number of costly and useful presents received from friends in Peterborough, Lindsay, Cass City, Mich., Winnipeg, Minnedosa, Souris, Edmonton, and other points in the west, testify to the high esteem in which both bride and groom are held by their large circle of friends.

The happy couple left on the midnight express for their home in Edmonton, amid showers of rice and good wishes for their future happiness.

"THE CHRISTMAS GLOBE."

In keeping with its position as the leading newspaper of Canada, the Globe is bound to remain on the same plane of excellence in regard to its special issues. It is no wonder therefore that the Christmas Globe for the holiday season of 1902 is a genuine artistic and journalistic triumph. The Examiner has been favoured with advance sheets, which permit one to confidently assert that the Christmas Globe of the present year will be in all respects the peer of, past issues, and in many ways greatly superior. The beautiful illustrations which plentifully brighten every page are forecast by the striking sub-title page, with its charming pictures of Christmas scenes, domestic and out door, respectively; while the character of the literary contents is admirably indexed by the eloquent exposition of, and appeal to, the Christmas spirit contained in the key-note article on the same page, "Christmas and its Lessons." The illustrations are all beautiful and distinctively Canadian. The scenic bits are indeed gems, and take the reader from the tides of Fundy through the most charming bits of quiet sylvan scenery to the stern grandeur of the Rockies. The other illustrations comprise many exquisite photogravures as artistic in conception as in execution and ornamental environment. The letter press includes contributions by leading Canadian writers such as Lally Bernard, Jean Blewett, Joanna Wood, J. Macdonald Oxley, etc., and a column with an illuminated setting is given the poem "A Song of the Forest," taken from Miss Alma McCollum's Flower Legends. In all respects the Christmas Globe in spirit, conception and effect is a decidedly excellent contribution to our holiday art and literature, and will make a desirable souvenir for the home or to send to friends abroad whom its presence will bring into beautiful and reminiscent touch with Canadian scenery and sentiments. To those who have not seen Canada its pages will be a revelation.

TRUSTEES INCENSED.

A Chalmers church trustee said to the Kingston Whig:—"We are incensed over the Coronation choir concert last night. The church was given for a sacred concert, but the programme was very much the opposite. We object strongly to applause at any concert in the church, yet this frequently occurred and it spoiled all good effect. In future we will not allow a concert in the church, unless it is entirely sacred and shall require that no applause be given. This has generally been the rule, but it was broken last night."

LATEST FROM OMEMEE.

Referendum Meetings—Division Court Sittings.

The weather and the roads are terribly unfavourable, and many were prevented going to the East Emily concert.

Large numbers attended the Peterborough markets last Saturday, and received good prices for the different lines of produce.

The next sittings of the Fourth Division Court is on December 5th. This is the last week for service for this Court. Notwithstanding all the efforts to have this Court removed to Lindsay, it will be held here.

The Referendum Temperance meetings are in full blast, and are creating a great deal of interest. The vote will come out largely, and some of the unpleasantness during such campaigns exists here between the Temperance and anti-Temperance people.

We never heard of the farmers enjoying such prosperous times. They all appear to have a dollar in their pocket and one to spend.

A large number of our citizens intend going to the opening of the Lindsay Hospital, on Thursday, the 20th. A long felt want for the County—a House of Refuge—will be now agitated.

Dr. Keith, with the assistance of Dr. Cameron, the two local physicians, performed a successful operation recently, removing a tumor from a daughter of Mrs. Wm. Clancey.

Rev. Mr. Taylor, Methodist minister at Norwood, preached a very impressive sermon in the interests of Temperance on Sunday last here, while Rev. Mr. Brown occupied the Norwood pulpit.

SUNDAY SCHOOL CONVENTION.

Fall Rally of Otonabee Workers was Held.

Addresses by Prominent Sunday School Workers—Reports That Were Read.

The regular fall rally of the Otonabee Sunday school Association, was held on Wednesday, November 12th, in the Zion Methodist Church. Although the weather was threatening the afternoon session opened with a good representative attendance, which kept increasing until evening, when the church was comfortably filled with an attentive and enthusiastic audience of Sunday school workers from all parts of the township.

The chair was taken by the president, Mr. John Lamoshire.

A feature of the afternoon session was the reading of the reports of the visitors appointed by the executive, to visit the several schools in the township. The reports were encouraging and showed improvement along many lines.

In the conference which followed, led by Dr. Harrison, many suggestions were brought out in discussion, whereby the schools might reach a still higher standard, and do more efficient work for the Master.

Mrs. J. W. Garvin, Primary Superintendent, of Peterborough county Sunday school Council, gave an interesting talk on Primary Work. She very clearly showed the need for Primary Workers being banded together for interchange of plans, for study of methods, and for better equipment for their work — that of winning the boys and girls for Christ.

In the unavoidable absence of Rev. W. L. Armitage, Rev. J. G. Potter, B.A., County President, gave an excellent address on Normal Training. He pointed out the necessity for Sunday school teachers being trained for their work, and urged on those present to embrace every opportunity to do so, suggesting plans that were within the reach of all.

The Normal Superintendent, Mrs. W. D. Sargent, was authorized to arrange at an early date for Normal Institutes in the several schools.

The evening session opened with a short song service, led by Rev. Mr. Secombe.

A very interesting and concise report of the Provincial S. S. Convention held at St. Thomas, was given by Miss Mary Gall, delegate from Keene Methodist, and Mr. Frank Kitney, delegate from Cold Springs.

The closing address of the rally was given by Rev. D. D. McDonald, of Keene, on "Three Essentials to Successful Teaching." They were—

1. The teacher must know whom they teach.
2. What to teach, and
3. How to teach.

The address throughout was very practical and helpful.

After singing "God be with you till we Meet Again," the seventh semi-annual rally of the Otonabee S. S. Association, was brought to a close with the benediction.

The time between sessions was pleasantly spent in social intercourse. Lunch was served by the members of the Zion Sunday school.

The temperance workers improved the time by arranging plans for a thorough canvas of our township for voters for the referendum on December 4th.

BRIDGENORTH NEWS NOTES.

Personal Mention and Other Happenings of Interest.

Mild weather.

Ducks are plentiful on the lake at present.

Eat Quaker Oats and save doctor bills.

Wm. Nicholls expects his friend back from Harvey this week.

The Rev. Bunner's sermon on Sunday, on "Sunday Labour" drew a large congregation.

Nathan Taylor threshed on Monday.

Miss Maggie Northey after spending a very pleasant week in Lakefield, has returned home.

Mr. G. H. Brown, of Chemong Park, spent Friday and Saturday in Port Hope. He says Port Hope is just about as lively at present as Chemong Park is.

Miss Eva McIlmoyle, of Buckhorn, is visiting in the village.

Mr. John Pope was down to the village on Friday for the first time since the 12th of July.

Mrs. S. Morrison is seriously ill.

Mr. and Mrs. Coleman Blewett spent Friday on the Fourth Line.

Mrs. W. Gereghty's many friends will be pleased to learn of her rapid recovery.

Mr. Will Telford, of Ennismore, spent a couple of day back in Harvey on a "dear" hunt.

Mrs. (Dr.) Morgan, of Peterborough, spent Thursday with Mrs. Percy Udy.

Mort. Quinn has taken a position with W. B. Kelly & Sons.

Tom Mann was out on Saturday breaking his broncho to the saddle.

Mr. Wm. Gillespie and wife have taken up residence in the village.

Miss Ida Mann spent Wednesday of last week visiting with her cousin, Miss Garbutt.

Mr. W. B. Kelly is having a couple of brick houses erected adjoining the old homestead.

Mr. G. Jopling and two sons attended a sale of thoroughbred cattle in Norwood last week.

Mr. W. J. Hopwood, of Toronto, spent Saturday at his island, making some improvements.

Jack Stabler is home again after the most successful hunt he has had in years. He shot everything in sight and brought home 26 ducks.

Corbett & Forsythe, who have entered into partnership as contractors have, as a start, taken the contract of cutting 550 cords of wood for Mr. G. Jopling, the west end wood dealer.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure.

H. LeBrun & Co

MOVED ACROSS THE STREET, NEXT TO BANK OF TORONTO.

Not Enough Darkness IN THIS STORE TO SELL INFERIOR GOODS

Nothing permitted to enter our doors but what we think will be satisfactory to customers. Nothing but trustworthy goods at moderate prices. For instance:—

PROVINCIAL SUNDAY SCHOOL CONVENTION.

Miss Drummond's Summarized Report of Proceedings.

A SUCCESSFUL CONVENTION.

Interesting and Practical Addresses—Necessity of Normal Training Strongly Emphasized—A Provincial Secretary Employed.

The thirty-seventh annual convention of the Provincial Sabbath School Association was held in St. Thomas on Oct. 21st, 22nd and 23rd, 1902. Altogether there were about 380 delegates present. President Mr. McInnes, of Vanleek Hill, presided throughout the convention. The first session began Tuesday afternoon at 2 o'clock, by singing "Stand Up, Stand Up for Jesus," and "Praise God From Whom all Blessings Flow," followed by the President's address. Three thoughts predominated through the convention—two bearing on Sunday School teaching and one on the church at large, namely — deeper spiritual life on the part of the teacher, more thorough knowledge of the lessons and interdenominationalism. The President spoke exhaustively on the responsibilities of the Sunday School. When we realize that the church gets more members and more help from the Sunday School than from any other source and that the hope of the future generations lies in our Sunday School, surely the best we can give the scholars is required of us. The only thing, he said, to save our country is to give the rising generation the Bible, and while it is not being taught to any extent in our public schools or as it should be in many of our homes, it increased the demand on the Sunday School to provide the Bible to the young. The greatest need to-day is to have better trained teachers. The speaker meant, he said, no reflection on the 50,000 teachers in Canada who were giving their time to this work, but those who are equal to meet the need of to-day are those who have had at least some higher education, and have been especially trained for the work and are willing to give a great deal of time to the preparation o fthe lessons, and of course, consecration is necessary.

Rev. Dr. Potts, chairman of the International Lesson Committee, delivered an address on what was done at Denver to affect the Sunday Schools of Ontario. In his opening remarks he drew attention to the rapid growth both in organization and membership of the Sunday School in the last few years. In this first decade of the 19th century he thought they were more Christian than Presbyterian, Methodist, Baptist or any other denomination. He regarded the Sunday School organization to-day the greatest evangelical organization in existence and moralized on the possibilities wrapped up in the childhood and youth of to-day. He made a strong plea for

THE SUNDAY SCHOOL

as the basis of all character. The men who will rule this continent, will be our members of Parliament, judges, etc., are yet in the primary classes. He stated that over 80 per cent of the church membership of the world had been trained in the Sunday School and he believed that the conversion of many people in after life was due to this early training in the Sunday School. While he advocated the use of graded lesson helps, he made a strong plea for the use of the Bible as the text book of the school, each child carrying his own and taught to do so with reverence. He would not advise teachers to depend largely on lesson helps for the preparation of the lesson, excepting for geographical and historical facts, but to read the verses which contain the lesson many times also reading references carefully and when thoroughly acquainted with the lesson make your own plans for teaching it, even if some of the points brought out are not as good as those found in helps. They are your own and will make more effective teaching. The Denver convention stood almost unanimously for uniformity in lessons. Plans are now being made for a party of Sunday School workers to take a trip around the world and discuss Sunday School work in every country. The committee has finished the International lessons for 1905 and are to meet in Washington next April to arrange the lessons for the next six years. Dr. Potts believed the Denver convention had an internation as well as an interdenominational influence.

BIBLE STUDY.

Rev. Dr. Johnston, of London, addressed the convention on the subject of "Better Bible Study." First of all there were two words which Dr. Johnston wished to emphasize—"authority and reverence." It is poured in on us from every side that the authority of the word of God is passing away even for moral teaching. He believed that the Bible from cover to cover is God's revelation and the supreme reason why we keep the Sabbath Day, is because He who had a right to speak has said, "Remember the Sabbath Day." The authority of the Bible should be instilled in the schools and in the home, and teachers should never question the authority of the Bible to their scholars, nor belittle the supernatural element contained in the Scriptures. We should also reverence the Word of God, even the Book itself, by our words and by our manner. In proportion to the time spent and money invested there is no part of the church work showing the results the Sunday School has. In his appeal for better Bible study the speaker made no reflection on the past, but we must not be satisfied or look back on the good old days, but we must look forward to higher ideals, to a higher level and believe that the best is yet to be. The supreme object of the Sunday School is to teach the Bible intelligently to the pupils, and

WE FIRST APPEAL

to the teachers. While the Bible is an inspired Book, there is no royal road to learning it; it must be studied just as any other book is studied, by chapters, by books, by periods, etc. To impart truths we must have knowledge and to gain knowledge we must have study. And it is not sufficient alone to fasten incidents upon the mind of the child, the underlying principle must be impressed. The speaker appealed for better equipment in our Sunday Schools, and stated that the time will come when the Sunday School will be the prominent part in the architecture of every church and better facilities will be more general for the prosecution of Bible study. He urged the use of graded lessons in the school in order to meet every stage of development. This is one way of keeping the older members in the school. If the teachers knew the Word, loved the Word, and tried to live in conformity with it they would have success in their work.

THE CHILD MIND.

Mr. Tracy, lecturer in Toronto University, gave an address on "The Mind of the Child." He said that first of all the teacher must know his subject thoroughly—must know all there is to know about it. The teacher ought to know his pupil whom he purposes imparting information to. The teacher should have some idea of the end, the purpose, the significance of it all—what he hopes to accomplish. If any workman in any sphere is ignorant of these things the less will be his chance of success, and the better he is acquainted with them the more assured his success. The pupil constitutes the raw material from which it is hoped to realize a perfect man. Character must be moulded by way of ideas. Our theories and methods should be adapted to the nature of the child. One cannot think for a child, but their mind can be aroused to put forth its own activity, and reconstruct ideas for itself. The teacher's business is to evoke energy; it is to develop ideas, to elicit, to stimulate. The ancient Hebrew sage spake more truly than the modern English philosopher when he said, "Train up a child in the way he should go." The inference was that he would go in some way, whether you trained him or not. It is the business of the teacher to see that he went in the right direction. He spoke of the great importance of guiding well the formative period of a child's life, as the tendency to conversion was greater at this period than ever thereafter.

An address was given by Mr. Merchant, of the London Normal School, on "How far can the Methods of Secular Schools be applied to Sunday School Work?" Among the points made were the necessity of good equipment, careful selection of the lesson, the careful study of one's class and more hearty support and interest from the congregation.

Addresses were also given by Rev. W. H. Hincks, Toronto, on "Our Children for Christ," and by N. W. Rowell, K.C., Toronto.

At each afternoon session, Rev. Elmore Harris, President of the Bible Training School, gave a one hour Bible reading as follows: On the Gospel of St. John, The Acts, and the Ephesians, which were exceeding valuable.

CONVENTION CONFERENCES.

Conferences were held on Home Department Work, Normal Training and Primary Work. As to the Home Department, it is reported as doing splendid work in Ontario, and was a great benefit to the home, to the church and to the individual member. There are 318 Home Departments, and over 9,000 members in the province. The Normal Conference was led by Dr. Harrison, of Keene, who urged the necessity for the teachers to have systematized course of study, and that every Christian worker, pastor, superintendent and officer should be Normal students. He asked how many in the assembly were Normal graduates, and four ladies responded. Each school can make their own plans for such a class. It was decided to place a Normal secretary in the field, whose duty will be the promotion of Normal study throughout the province, at a salary of $1200 a year. About $500 was pledged.

Mrs. Damon, of Buffalo, N.Y., President of the Primary Union, led the conference in a discussion on Primary Work. She said that every minute spent in Primary teaching was important, as it was laying the foundation of character. The key note of primary teaching was to impress the little ones with a clear conception of what worship means. The children should be educated to think that the weekly offering, the singing of the hymns, as well as prayer, is an important part of worship. Mrs. Mrs. Damon then taught the next Sunday's lesson in a practical way, treating the audience as a class of children, using the blackboard, pictures, apples, etc., to illustrate. She also gave a short talk on "The Cradle Roll."

A NEW FEATURE.

Rev. Mr. Moore, of Hamilton, dealt with the subject of "Decision Day." This is a comparatively new thing in our Sunday schools as yet, and seems to be more theoretical than practical, although the speaker claimed it to have been carried out with some success in places. It needs, however, long and careful preparation on the part of the teacher and superintendent to make it valuable. The pupils should be thoroughly prepared ed for it, and not lose interest in as soon as it is over. It is more effective among the older members of the school, say, among pupils over 14 years of age. There are many things to guard against in the scheme of a Decision Day, as the pupils are apt to look upon this deciding for Christ as a formal thing, which must be done on this day, even if no desire is in the heart, and not openly taking their stand for Christ at any other time, although in their hearts they have already decided. Every day, the speaker said, should be Decision Day, and the Decision Day is a day of deciding for Christ. The decision as to church membership will come later. The ninth of November has been set apart throughout the province as Decision Day in our schools.

DISCIPLINE.

Very little was said on the subject of Discipline. One speaker said it was just as easy to maintain discipline in a Sunday school as in a day school. Tact was the great feature, and that depended very largely on the personality of the superintendent and teachers; again, compulsion was always a source of friction, and was not necessary to obtain good results.

The report of the Central Executive Committee was a most encouraging one. There are 5,452 Sunday day schools in Ontario, with over four hundred thousand scholars, and the financial statement the best in the history of the association. A resolution favouring the attendance of children at church was adopted.

"Resolved, that we deem it of the greatest importance to teach the children the value of total abstinence," and a resolution looking to impressing the children with the sanctity of the Sabbath, and approving of the Lord's Day Alliance, was adopted.

Rev. Mr. Webb, of Toronto, the President-elect, for the coming year, was introduced.

The next convention is to be held in Smith's Falls, and this convention closed on Thursday evening by the singing of "God be with you till we meet again."

U.S. Gets $1,800,000.

Pekin, Nov. 18.—Messrs. Bainbridge and Ragsdale, the United States commissioners, have completed their award on the indemnity claims of the United States missions, commercial houses and private persons. The total amount awarded is $1,800,000, with interest amounting to $130,500. The Chinese who suffered through their connection with Americans get $17,500. All the original claims were reduced more than one-half.

Went Smart Canadians.

St. Thomas, Nov. 18.—A. E. Domville, who has been connected with the St. Thomas car wheel works for 18 years, has accepted the position of general manager of the New York Car Wheel Works with headquarters at Buffalo. The plant Mr. Domville is to manage is the largest of

Blood Disorders

Cured Without Drugs.

TESTIMONIAL.

A year ago I was unable to go out of doors without a veil covering, on account of eczema and pimples covering my face. I tried all sorts of drugs and lotions without effect. Powley's Liquified Ozone cured me. My skin is clear and healthy now. LILY HALL, 19 Sully St., Toronto, Canada.

Absolute purity of the blood stream and disinfection of all the tissues through which it passes are necessary to make the blood healthy and give the skin that clear, deep bloom so much sought after. You cannot obtain this result by taking drugs or applying lotions of ointments. You can by using Powley's Liquified Ozone, nature's blood food. Clears out all humors thoroughly and surely. Acts quickly. You do not have to take Powley's Liquified Ozone very long to know that it will cure you.

Two sizes, 50c. and $1.00 at all Druggists.

THE OZONE CO., OF TORONTO, LIMITED, TORONTO AND CHICAGO

For a Hurried Luncheon Nothing is so handy as Bovril

The evils of hurrying over or putting off one's meals are manifold: headaches, feverishness, depression, and worst of all impaired digestive powers, are nearly always the results of this irregularity. The remedy is, however, within the reach of all. Whenever circumstances compel you to postpone a meal, Take a Cup of Bovril, which can be prepared in a minute by adding a little boiling water, or may be obtained at any lunch room or restaurant.

Bovril contains all the nourishing properties of the best lean beef in the most concentrated and palatable form. It strengthens the system and gives renewed life and vigor after fatigue.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

HON. MR. BLAIR'S VISIT.

He Returned From Lakefield Last Night.

Was Greatly Pleased With his Visit to Peterborough—About the Lift Lock.

Hon. A. G. Blair, Minister of Railways and Canals, accompanied by his private secretary, Mr. Payne, Mr. Collingwood Schreiber, Deputy Minister of Railways and Canals, and Mr. R. B. Rogers, Superintending Engineer of the Trent Canal, arrived back from Lakefield yesterday evening, and left immediately for Beaverton to inspect the upper section of the Trent Waterway.

The Minister was much impressed with his visit to Peterborough, but was particularly struck with the appearance of the great hydraulic lift lock, the concreting of which has just been completed by the well known contractors, Messrs. Corry and Laverdure. Hon. Mr. Blair said that he had no idea of the magnitude of the work. In fact the Minister appeared to stand in amazement on the huge concrete structure, the largest single piece of concrete in the world, as he surveyed the country round about. Apart from the solidity of the structure, the Minister noted with interest the ornamental designs, which add decidedly to the finished appearance of the lock. The Minister was taken through many of the chambers, and down the various stairways that intersect the gigantic structure, and he complimented the contractors, Messrs. Corry & Laverdure, upon the manner in which they had accomplished such a complicated and huge piece of structural work. If the Minister of Railways and Canals was struck with the sight of the great piece of work, of which he had known so much before, how interesting should a visit to the lock prove to be to the ordinary citizen. Its construction was brought about in the face of great difficulties, by reason of the nature of the soil, which made work at times exceedingly trying, particularly after a wet spell of weather, which would almost drown out the workmen. However, with a practical knowledge of the situation, the contractors were able to cope with the difficulties encountered, and they are to-day deserving of hearty congratulations upon the successful termination of their contract. During Messrs. Corry & Laverdure's residence in Peterborough they have made a host of friends, who will wish them additional success in their future contracts.

NEWS NUGGETS.

—Rugby dance on December 2nd.

—"Ivy Leaf" in the Opera House on Thursday night.

—The 57th Band will give a concert on Friday evening.

—Additional local matter on page two.

—All Saints' choir will practice to-night. Business of importance.

—The plan for the Jessie Maclachlan concert is the largest on record.

—A report of the annual meeting of the Peterborough Protestant Home, is held over until to-morrow.

—Miss Drummond's report of the Provincial Sunday school Convention will be found on page three.

—Court Stanley, Ancient Order of Foresters, are holding an at home to-morrow evening in the Sons of England Hall. A good programme is being prepared.

—A new barber shop will shortly be opened on Simcoe street, next door to the Peterborough Hardware Company, where A. Haskill will enter business again for himself.

—The Toronto Star says: — "A beautiful specimen of a deer arrived at the Parliament Buildings today, addressed to Hon. J. R. Stratton, with the compliments of a friend."

—Miss Caroline Macklem, Sylvan Towers, Rosedale, acknowledges the following contributions to the India Famine and Orphan Fund: Miss Reid, Peterborough, $1; Mrs. Mary Walton, Peterborough, $2.

—The Board of Managers of the Kingston General Hospital have a practical way of recognizing the particularly clever graduates in nursing. To those who obtain honours in their final examinations they give a post-graduate course free.

—The seats that are as yet not reserved for the Maclachlan-Ladell Concert on Tuesday, Nov. 25, are, for a concert of this nature, almost equally as good as those taken. In any case don't miss the event as it will be the concert attraction of the season.

"C. R. Co." rubbers are the most tasty and best constructed rubber shoes in Canada. If you value comfort and wear insist on your shoe dealer supplying you with this brand.

—Patrons of St. Luke's tea in the Foresters' Hall, Simcoe street, tomorrow evening, are assured of a good tea, an excellent entertainment afterwards, and a good time generally. The hall is well suited for events of this kind, being comfortable, commodious and well seated. 1d

—The Toronto Star says that the wisdom of the city purchasing coal in England is well illustrated by the turn events have taken during the past two or three days. On Saturday the city sent an agent to Buffalo to see if a supply of anthracite coal could not be purchased for the civic fuel yards.

—A Toronto man who had sustained heavy losses by the slump in stocks on Monday shot himself, and there is no reason to doubt that other men, driven into just as tight a corner as he was, have, in the last few days, considered this tragic method of evading the consequences of unsuccessful speculation.

—Mrs. Alexander Wardhaugh, of Belleville, has, through her solicitor, W. C. Mikel, issued a writ against her husband for alimony, and also her share and interest in the business and premises conducted and occupied by Mr. Wardhaugh. An effort will be made to have the trial take place at the approaching sittings of the county High Court, at Belleville.

Do You Wear Rubbers?

If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style spark for themselves.

PAID AN OFFICIAL VISIT.

Grand Chapter Officers Were in Peterborough.

At Corinthian Chapter Last Night—A Large and Influential Gathering of Companions.

Unusual interest was given the regular convocation of Corinthian Royal Arch Chapter, held on Tuesday evening, in the chapter rooms of the Masonic Temple. The presence of the two principal Grand Chapter officers, Mt. Ex.-Comp. The Hon. Senator Gibson, Grand Z., and Rt. Ex. Comp. A. Shaw, Grand H., brought out a large representation of the local and district Companions. The efficient officers of the Chapter were afforded an opportunity of exemplifying their work, and fulfilled the expectations of the distinguished visitors, who took occasion to express their pleasure with the accuracy and fidelity in which the elaborate ceremonies of the degrees were delivered.

After the formal business of the evening was finished, the Companions repaired to the refreshment rooms where a recherche spread was prepared in honour of the Grand Officers.

Comp. W. E. Conway, the efficient Z of the Chapter, presided, and after expressing his great pleasure in being honoured with a visit from the two highest officers of the Grand Chapter, called upon the Grand Z to address them.

Mt. Ex. Comp. the Hon. Senator Gibson, delivered a highly instructive and interesting address. He took occasion to highly congratulate Corinthian Chapter on the magnificent suite of rooms they had acquired; remarking that they ranked among the handsomest in the Dominion. He congratulated them on their progressive town, the growth of its industries, and its manufacturing advantages, and was surprised at the activity and business life of the town. He then delivered an interesting description of his late visit to Great Britain and the continent of Europe. He had enjoyed personal intercourse with distinguished Masons in different portions of the old land, and awakened the interest of his hearers by narrating some of his personal experiences abroad. He said they had among them the great and the good of every clime, the rulers of the land as the humbler sons of toil—in fact, representatives in every walk of life. He was glad to visit Peterborough and would carry away pleasant recollections of his intercourse with the Companions of Corinthian Chapter.

Rt. Ex. Comp. A. Shaw, Grand H., spoke briefly, expressing his gratification with the work, and the efficiency of the officers of Corinthian Lodge. It was a pleasure to renew the friendships and acquaintances which he had formed in Peterborough during previous visits.

Companion J. Crane Contributed several pleasing vocal solos during the evening.

The catering on the occasion was personally superintended by Mr. Barry Toms, and drew compliments from all who enjoyed the delicious refreshments.

NEED OIL FOR TROUBLED WATERS.

Lakefield People Who Bought Wells in Texas are Becoming Anxious.

The subscribers for Oil Company's Stock in Lakefield are becoming somewhat excited over the affairs of the Company. Some time ago the Canadaian Osage Illuminating Oil Company was organized in Lakefield, one of the chief promoters being Mr. T. H. Benson, late manager of the Linton Bank, at that village. Two gentlemen were sent down to Texas where the oil wells which the Company had in view of purchasing, were situated. Dr. Baker, one of the gentlemen who went south on the inspection, advised the purchase of the property which was to cost $2,200. This amount was raised by Lakefield subscribers and supposed to have been paid to the owners of the oil wells. It is now alleged in Lakefield that only $1,100 of this was handed over and that the remaining $1,100 is not accounted for. Dr. Baker who will be able to throw some light on the matter, is in the back country shooting, and his arrival home is anxiously awaited, when it is expected that all matters will be satisfactorily explained.

GEORGE STREET CHURCH.

Sunday School Interests Will Receive Attention To-night.

The prayer meeting in the George street Methodist church to-night will take the form of intercession on behalf of Sunday Schools. Mrs. Lewis delegate to the Provincial convention at St. Thomas will report, Mr. Shaw, of His Majesty's Customs, Kingston, will read the lesson and Miss Clare Bellegham and Miss Chasty will sing solos.

A GOOD INVESTMENT.

As careful men aim to protect their families and provide for the future, how to do it, is an important consideration. Safety, is the first requisite of a good investment. The Building and Loan Companies hold 153 million dollars assets in this province, and for sixty years have had a prominent part in the opening and development of the country.

The reserve fund principle, whether for labouring, business or professional men is equally good. The solution of the question, "How can I better my circumstances with the greatest safety, and the least effort?" is found in the instalment plan of saving.

The District Manager of the York County Loan and Savings Company, Mr. J. R. Gauley, will answer inquiries by mail to Box 470, Peterborough, about the company's 5 per cent. bonds, (interest half yearly,) or will furnish literature to those desiring to save money regularly. ws

An Explanation.

"C. R. Co." rubbers are rubber shoes made in Canada by The Canada Rubber Company.

COUNTY COUNCIL MEETING.

A Special Session is Now in Progress.

To Pass Roads and Bridge Debentures —All the Members Present—Now in Committee Work.

A special meeting of the County Council of the County of Peterborough was held in the County Council Chamber this afternoon. There were present. Mr. T. G. Eastland, Warden, and Councillors W. H. Casement, Richard Crowe, G. W. Fitzgerald, P. Costello, Robt. Shaw, Wm. Anderson, E. A. Peck, W. H. Jeffs and J. B. Pearce.

The clerk read the resolution passed at the last meeting of the Council, authorising the calling of a special meeting of the council on the 19 day of Nov. for the purpose of dealing with roads and bridge debentures.

Councillor J. B. Pearce moved that bylaw No. 827 authorising the issuing of debentures for $10,000 for the construction of roads and bridges be read a third time.

Upon motion of Mr. Pearce the Council took up the discussion of general business.

The minutes of the last session of the Council were read and adopted.

Council then went into Committee of the Whole to discuss road and bridge matters.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc.—SAILSBURY & CO.

Beautiful Dolls

THIS WEEK FROM

22c to 99c

REGULAR PRICE OF THESE DOLLS WAS 30c TO $1.50 EACH.

This is a precursor of Christmas—a determination to sacrifice some of our present stocks in order to clear the decks for brand new Christmas Goods. Don't fail to get one of these Dolls for your little girl. Don't ask for more than one, please.

NOW IS THE TIME TO BUY

BOOKS

Because we're selling them at half price to let in our Christmas stock. If you only want one or a dozen—all we ask is a chance to quote you special prices.

Sunday School Libraries supplied at less than the wholesale city prices. Many volumes during the gift season sell at double the prices we are asking now.

Public Libraries can replenish their book shelves at a saving of twenty-five per cent. less than ever before.

PETERBOROUGH'S MODERN STORE.

Hosiery, Gloves and Underwear.

This store has made a name for itself as the store to get the best grade of goods in every department. If there is any one department that can claim still more prominence as the leader of leading departments—our HOSIERY, GLOVE and UNDERWEAR Section is that department. Quality first is everything when we place our orders for our goods. THE PRICE is a secondary consideration. It pays to buy the best. They are the cheapest in the end.

HOSIERY . . .

Our Hosiery Section comprises Ladies', Misses and Children's Cashmere Stockings in some extra good wearing qualities, both ribbed and plain, as well as the best known makes of Boys' and Girls' Heavy Ribbed Wool Stockings for every day wear. We claim to have the best at these prices: The best Ladies' Ribbed Cashmere at **35c, 40c, 50c, 60c, 75c.** The best Ladies' Plain Cashmere—**35c, 50c, 75c.** Children's sizes at corresponding prices. The smaller the size the smaller the price. The best Big Boys' Stockings at **25c, 40c** and **50c**—smaller boys at smaller prices.

GLOVES . . .

Ladies' and Misses' Kid Gloves, Cashmere Gloves and Ringwood Gloves in the best and newest styles at right prices. We take pleasure in recommending **PERRIN'S KID GLOVES FOR LADIES** as the best we can find. They are the best kid, the best style, the best fit and the best wearing goods. You can get a real French Kid in all shades and black at a dollar a pair. We think equal to any other dollar and a quarter glove. Then you have makers' guarantee, as well as ours, that they will give satisfaction.

LADIES' KNITTED UNDERWEAR

For winter wear, made by reliable manufacturers. When we say all wool you can depend on it, and a garment that will give you the best of satisfaction, or money refunded.

REV. J. BASTOW'S VIEWS.

He Writes a Letter on the Referendum.

He Urges United Action on the Part of the Temperance Men of the Province.

To the Editor of the Examiner:

Dear Sir,—I am glad to see that your columns are open to letters from your readers about the Referendum to be voted on December 4th. I would like to add my voice to the earnest appeals that have already been made to all voters to cast their ballot on that day. The time is near at hand and all the friends of temperance and of good citizenship need to bestir themselves and their friends to a sense of the value and importance of the opportunity. For it it is lost now, through indifference or neglect, it will be a great blow to every good cause in the community and a great encouragement to every form of evil, and probably no such chance to appeal for legislation will come again for a long time.

It is well known to all that the drink traffic is the greatest of all the evils that afflict humanity to-day. It is the direct cause of most of the crime and poverty, insanity and imbicility that afflict the country. Mr. Gladstone declared it to be a greater scourge than war and famine and pestilence combined. Every legitimate business is a blessing to the people. But the liquor traffic is an evil and only an evil and that continually. It blasts the home, it breaks the hearts of wives and mothers, it makes the children desolate and frequently throws them all upon the care of the Government. There is no redeeming trait about the business. There is no apology for its existence, but there are many and mighty reasons for its abolition. It is the foe of all that is good and the friend and helper of all that is evil. The saloon keeper is the most worthless, deadly and injurious member of the community. When we think of the evil that flows from the bar room to every community where it exists, it is astonishing that the people will tolerate it for an hour. And yet not to vote on Dec. 4th is equivalent to voting for the continuance of the open bar and the whole liquor traffic, with all the evils connected with it. It will give it positive encouragement and probably a long lease of life.

I hear some say that the law now offered is not the right kind—that it does not meet the needs of the hour. I wish such persons would just sit down and try to construct a law for themselves and one that would be to their liking. Perhaps they will discover that it is a hard task to frame a law that will meet the needs of the country and come within legal bounds, and at the same time satisfy over two millions of people.

The law now offered to the people is probably the best piece of legislation that has as yet been attempted. It bears careful scrutiny. Much as I appreciate the present restrictions placed upon the liquor traffic by the law and the civil officers who seek to enforce it, we must all agree that if the law to be voted upon on December 4th is enacted, it will be an immense step in advance.

It will not cost much time or effort for citizens to cast their ballots on Dec. 4th, but it will be time and effort well spent and it will be abundantly rewarded, whatever may be the result. If the number of votes required be cast it is probably safe to say each voter will find that he never before did so much good by his exercise of the right of franchise. Let every man see to it that that day he does his duty.

Yours truly,
JONATHAN BASTOW.

QUARTERLY MEETING

Of George Street Methodist Church Board Held Last Night.

At the Quarterly meeting of the George street Methodist church held last night, the following gentlemen were elected stewards:—Messrs. B. Shortley, D. W. Dumble, John Lockhart, B. F. Ackerman, Jno. Jeffreys, H. C. Stabler, S. R. Armstrong, and the following resolution respecting the pastor of the church was passed:

"The Board of the George street Methodist Church, Peterborough, while recognizing the present law of the Church, which entitles a stationed minister to remain on a circuit four years, yet deem it a duty to their minister, the Rev. J. P. Wilson, B.A., to make it known to him that they will rejoice in his continuing their pastor for the fourth year. The relationship of pastor and people has been so pleasant and satisfactory in all respects, that they are happy in the prospect of its continuance so long as the law of the Church will permit. This Board tenders to Mr. Wilson their thanks for faithful services and to his family their felicitations, and wish that he and they may enjoy all happiness in Peterborough."

SAND CONCERT,
Opera House, Nov. 21.
SPECIAL:

MISS E. T. IRONS, Toronto, Elocutionist; MR. ERT. HARVEY, Toronto, Comic Vocalist, and an entirely new programme by the Band. Tickets 25c and 15c. 2d

GENERALLY SPEAKING

A BELLEVILLE paper suggests that the rolling mills, which don't roll, be revived, and run by local capital. Local capital is—without any pun in mind—a capital idea. It might be more extensively employed in Peterborough. We are told that the capital behind the Berlin Beet Sugar Factory, now successfully launched and making barrels of sugar every day, is largely founded on local capital. The sturdy German farmers subscribed stock liberally. We might have a beet sugar factory in Peterborough, if farmers would put up the capital — they could well afford to do so for, as we have before remarked, they would be reaping a double profit — profit on their investment, and a profit on the beets they would raise and sell—practically to themselves. Yes, and a triple profit, for in addition to being a most profitable crop themselves, the raising of beets cleans the land, and leaves it in better condition for other crops.

* * *

THERE does not seem to be any truth in the rumour that the price of electric light and gas is to be lowered. The powers that control the light appear to think they have done their share in lowering the quality of the light.

* * *

THERE are times from five till six o'clock in the evening when a man with a nice sense of discrimination can actually tell the difference between the electric light and ordinary darkness.

* * *

ANTHRACITE — hard coal — is quoted at $5.35 in Oswego; that is, the long ton, 2240 lbs., which is the ton weighe dout to consumers on this side of the lake, which reduces the price to $4.78 f.o.b. at Oswego. Take the average freight per ton by water to Belleville, or to Peterborough, if we had the Trent Valley Canal open, which would be thirty cents, and to-day coal could be laid down in Peterborough—minus dealers' profits — at $5.18.

* * *

OF course this is a purely theoretical case, correct so far as it goes, but it has a practical bearing. The cost of carriage by rail of a ton of coal from Buffalo to Peterborough is $1.25 or 95 cents more than water carriage from Oswego. Assuming the price to be the same at both American ports, there is no doubt that the opening of the canal would reduce the freight cost of coal to Peterborough by 50 cents a ton, a saving of that amount on every ton.

* * *

IN round figures there are 20,000 tons of coal—hard and soft—used in Peterborough per year. Fifty cents on a ton would mean a saving of $10,000 a year to the manufacturers and citizens of Peterborough.

* * *

THIS would happen if we had the Trent Canal open from Hastings to Lake Ontario. If we did not run a boat over the route, the railway freights would drop automatically in face of water freight competition. Think how this would benefit manufacturers and the citizens of the town.

* * *

EVEN in its uncompleted condition the canal is locally growing in importance every year. Ten years ago—in 1892—the lock master's receipts, representing the volume of freight and passengor traffic, amounted to $170.47; up to last Saturday night, Nov. 15th, the receipts amounted to $480.05 and the season not yet over.

* * *

UNDER these circumstances and in face of these facts, one would think that the Board of Trade or the City Fathers or somebody with influence would push on the work of completing the Trent Canal — to Trenton at least. For goodness gracious sake let somebody wake up.

* * *

A CERTAIN local church Mission organization seems to be of the Conservative variety—nearly every member wants an office, and, unlike the Conservatives in Canadian politics these days, gets it. Including the Honourary President there are seventeen Presidents, each one taking a turn in presiding over meetings. Thus the lady's natural ambition to "boss the job" is gratified and there is less room for envy and jealousy, and less need for supplementary hair dressing. Who says that ladies have no heads for business?

* * *

THE suggestion of Water Commissioner Matthews that some attention be given to beautifying the grounds around the Water Works Station is a good one. The site is naturally beautiful, and the several acres of land on the west side of the river could be converted into a beautiful park sparkling with fountains at first cost. The east side might be planted with trees and otherwise improved. In the process of improving the Water Works prepary the works generally would be kept in better repair and a practical, as well as aesthetic gain, would result.

* * *

THERE are ten applications for the position of junior clerk in the Millbrook branch of the Bank of Toronto. This shows a laudable ambition. Though at the beginning the remuneration of back clerks is not large, yet the steadying tendency of the occupation is more than a compensate. Bank clerks are required to abstain from gambling in every form—including stock speculation, and thus is removed the temptation and danger of loss which caused a Toronto man to blow the top of his head off, through an off market. And in some banks cigarette smoking is forbidden, and a guarantee company wont carry a cigarette smoker. It is argued that if a young man has not enough strength of character to avoid so pernicious a habit, he is not a safe occupant of a position of trust.

* * *

TORONTO is a funny city. It actually objects to increase of population. A petition 13 feet long by actual measurement has been presented against the establishment of a pork packing factory on the west side of the Don.

* * *

DID you notice this morning the plastic mud scraped from the George street-Hunter crossing crowded by passing wheels over the sewer grating, and contributing its share to fill up the sewer with street offal? Our aldermen are "great heads." What do we pay taxes for? Because we "have to;" not because we get value from their expenditure. What do we build sewers for? Not to be conduits for street mud.

* * *

A CITIZEN living on Water street north, which is said to be in a particularly bad condition, says he cannot get the street authorities to make any improvements. The excuse for doing nothing is implied in this request,—"O, wait till the street railway matter is settled." How long is the Town Council going to "monkey" with the street railway matter? Does the Street Railway Company own the streets?

DIED THIS MORNING.

Miss Coty, of Hamilton, Passed Away in Peterborough.

The death occurred at the residence of Mr. Wm. Rudkins, No. 185 King street, this morning, of Miss Coty, of Hamilton, daughter of the late Mr. Louis Coty, of Oakville. The deceased who was 30 years of age, came on a visit to her brother-in-law, Mr. Wm. Rudkins. She was taken down with typhoid fever, which proved fatal. The remains were taken at noon to-day to Oakville, where they will be interred to-morrow. The funeral will be attended amongst others by Rev. J. H. Coty, rector of St. Patrick's church, Hamilton, a brother, and by Mr. Wm. Rudkins, of town.

ABLE TALENT

Secured by the Fortnightly Club for Number of Meetings.

It has been decided by the Fortnightly Club to hold a series of four lectures for men and women members of the Club. The speakers for three of these have been asked for their services, and up to date, two have answered accepting the invitation. Of these one is the Hon. F. E. A. Evanturel, Speaker in the Provincial Legislature, and well known in political circles as the representative of the French element in the local House. This speaker has lectured here previously and there are a large number who will be glad to hear him again. The Fortnightly Club wish to convey their thanks to Hon. J. R. Stratton, as it was through his efforts they were able to secure this lecturer.

Regarding the other speaker, Mr. G. M. Wrong, the Club is also very fortunate. Mr. Wrong is professor of Modern Languages in the University of Toronto and is not among the lecturers on the University extension scheme. It is therefore a source of satisfaction to all to know that he is willing to come here. As yet these are the only two heard from, but the Club is looking forward to a highly instructive and enjoyable series of lectures during the coming winter.

HOW THE BODY BREATHES.

There is a homely old saying that nobody ever dies except for want of breath. There is more truth in this than most people know. Breathing means more than is generally imagined.

The lungs are not the only organs with which we breathe. The whole body breathes. This is not a figure of speech. It is an actual fact.

What the lungs do when they breathe is to take in oxygen and give out carbon dioxide, and the same process goes on all over the body all the time in the little cells that make up the nerve-centers, tissues and blood. This is called internal respiration. It is the chief process in the work of tearing down used-up tissue and allowing new material to be built in its place.

If we could understand this process entirely we would understand life, but we can only study it through its effects. We know that Scott's Emulsion helps this process of cell and tissue-repairing to go on very rapidly. We know it very speedily produces good blood and healthy flesh, but we can only partly explain why.

The emulsion contains elements which are very sensitive to oxygen, and the inmost life cells are always hungry for oxygen. Perhaps the emulsion helps them to get it. That is how a great chemist accounts for it.

Scott's Emulsion is rich in carbon, and carbon is particularly needed in sustaining the energy which shows itself in heat and various forms of both mental and muscular activity. It contains an abundance of other properties which we know are specially demanded by the system in conditions of poor health. But no theory will entirely account for the beneficial effects of Scott's Emulsion, just as no theory will quite explain the curative effects of sunshine.

This emulsion combines the full strength of the whole cod liver oil, perfectly emulsified with the highly medicinal properties of hypophosphites of lime and soda. This combination not only makes the oil easy to take and easy to digest, but greatly increases its natural value. Scott's Emulsion is beyond doubt richer than any other known food or preparation in the nourishing properties needed when the blood is poor or the system run down.

Each package of Scott's Emulsion bears the trade mark label of a man carrying a big fish on his back.

We'll send you a sample free upon request.

ONTARIO CATHOLICS.

Bid Farewell to Mgr. Falconio at Banquet in Toronto.

TOASTS AND THE RESPONSES

His Excellency, Who Is Leaving the Dominion to Become Papal Ablegate to the United States, Expresses Love For Canada and Admiration of Canadians—Hon. G. W. Ross, Premier, Speaks for Unity.

Toronto, Nov. 19.—A cordial and feeling farewell was extended to Mgr. Falconio, Papal ablegate in Canada, by the Canadian Catholic Union, at a banquet here last evening. It was the eve of his departure for Washington, he having been appointed ablegate in the United States.

His Honor Judge MacMahon, president of the Union, occupied the chair, on his right being the guest of the evening, Mgr. Falconio. The others at the guest table were: The guest's secretary, Father Solanus; Hon. George W. Ross, Mayor Howland, Archbishop O'Connor, Bishop McEvoy of London, Father Conway of Peterboro, Eugene O'Keefe, Vicar-General McCann, J. F. White, D. T. Kelly and Senator McHugh of Lindsay.

In proposing the first toast of the evening, that of "His Holiness the Pope," Judge MacMahon remarked that the Sovereign Pontiff had always received a loyal and undivided support from the people of Canada.

When the toast had been duly honored that of "His Majesty the King" was proposed, and was enthusiastically received, the gathering arising and singing the National Anthem.

The toast of the guest of the evening was then proposed. In doing so, Judge MacMahon stated that the large attendance of the hierarchy, the clergy and the laity was an indication of the high esteem in which Catholics of Ontario held His Excellency. While regretting his departure from their midst, they would extend to him their heartfelt wishes for every happiness in his new home to the south.

Mgr. Falconio returned thanks for the expression of good-will towards him, and for their demonstration of love and fidelity to His Holy Father the Pope. The Holy Father was pleased to give him a higher position, not upon any merit of his own, and he would say from the bottom of his heart that he regretted to leave Cabada. (Applause.) "The three years I have spent amongst you," he said, "I have learned to love Canada above any other country in the world. (Applause.) I admire your beautiful country, with its great expanse of land and all the gifts that nature can bestow upon any land. I admire above all, though, the high character of the people. Although of different nationalities and creeds, yet there is a feeling of love and unity among you that must lead to prosperity and happiness to the whole country. I hope, therefore, that the blessings of God will always be upon you, and when I write His Holiness, I shall be pleased to tell him that he has such children here that perhaps cannot be found any place in the world. (Applause.) Therefore, while I bid you good-bye, I shall never forget Canada. You shall always be present in my mind; I shall pray for Canadians through all my life, and I hope that God will hear my prayers and bestow upon you his choicest blessings. (Loud applause.)

Bishop McEvoy spoke in a happy strain on behalf of the hierarchy.

"Canada Our Land" was proposed in patriotic terms by the chairman, coupling with the toast the name of Hon. G. W. Ross.

Premier Ross' Reply.

The Hon. Geo. W. Ross was received with great cheering. He said, after pleasant preliminaries, that there was not a citizen of Canada but would appreciate Mgr. Falconio's high eccomiums on Canada as they appreciated them at the dinner. "I understand his Excellency came to this country," Mr. Ross continued, "bearing a message of peace and good-will to Canada; he has completely fulfilled that duty. His kind words to-night show that he came here bearing that message, that he was a worthy messenger, and we feel that he has discharged that duty to the whole of the people of Canada, not merely to the people of his own church, to whom his message was primarily to be delivered, but to all those who bear the name Canadian, and who are interested, as he is interested, in the peace and prosperity of our beloved Dominion. We who are not of his church realize that at least two-fifths of the population of Canada belong to the Roman Catholic Church. We realize that that population is concerned in the prosperity of the country as much as we are. We do not measure the degrees of prosperity or the extent in which religious denominations are interested in the country, nor do we measure the respective responsibility of denominations. What inspires us, as his Excellency has indicated, is that, regardless of denomination, race or creed, we shall all be one in directing our energies and in consecrating whatever ability God has given us to make Canada as great and prosperous as we can."

Later on in his speech Mr. Ross said that he was glad to be able to bear testimony to the zeal of the Roman Catholic clergy—as he had found them in the various positions he had occupied in the last few years—in promoting the great interests of education in the Province of Ontario. In revising the curriculum of studies for the improvement of separate schools nothing would have been accomplished had it not been for the cordial support received from the clergy.

In concluding Mr. Ross spoke of the prominent positions that were being taken by Roman Catholics, mentioning the names of Judge MacMahon and Sir Wilfrid Laurier as striking examples. "We must leave to our successors a land of freedom, of tolerant spirit, of a high-minded, intelligent clergy, a land where the Bench was held sacred and where every position of trust was filled by men worthy of the country they belonged to, and of the obligation they had assumed. The future of Canada is bright beyond all comparison," he said, in conclusion. "We are a great people now in many respects; let us feel the responsibility in that respect and let us live up to its obligations."

Mayor Howland spoke on behalf of the city of Toronto.

Archbishop O'Connor also replied to the toast, stating that a great change for good had come over Toronto during the past twenty years in the way of religious tolerance, and the fostering of pleasant and peaceful relations among the community.

APPOINTED TO CANADA.

Pope Leo Sends Mgr. Sbarretti as Apostolic Delegate.

Rome, Nov. 19.—The Pope yesterday afternoon signed the brief appointing Mgr. Sbarretti Apostolic delegate in Canada.

Prefers Canada to the Orient.

Washington, Nov. 18.—Mgr. Sbarretti had received no official announcement of his appointment as Apostolic delegate to Canada when an Associated Press representative carried the news to him yesterday, but he expressed confidence in the accuracy of the statement. That such an appointment would be made had previously been intimated to him, but afterward there was a change of plan, with the view of sending him to India. He is much pleased with the new designation, for he prefers Canada to the Orient. Dr. Sbarretti said that he would start for his new post as soon as officially notified about it. He will live at Ottawa.

JUST ONE MORE STRIKING CURE.

Heart Disease and Kidney Complaint Banished by Dodd's Kidney Pills.

Dame Aime Moreau, Postmistress of Weedon, Tells of Her Complication of Troubles and How Easily she got rid of Them all.

Weedon, Que., Nov. 16th.—Special.—Dame Aime Moreau, Postmistress here, tells a story of her cure of a complication of ailments arising from diseased Kidneys that would be considered wonderful if similar reports were not coming from different parts of the country almost daily. However, the Postmistress' story is so well authenticated that it will prove interesting to all those who are suffering from Kidney Complaint in any form.

"I fell a victim to several Kidney maladies," says Dame Moreau, "the most severe was Heart Disease, but I also suffered from backache, Bladder Trouble and Rheumatism. I took medicine, but nothing did me any good till I tried Dodd's Kidney Pills.

"I have taken three boxes and now feel like a young woman. I feel no pain and am so well that in my advanced age I do all my own work. I say that Dodd's Kidney Pills are good for all Kidney Diseases. I recommend Dodd's Kidney Pills as the best remedy for me that I have ever used.

"All the persons who would like to get information can apply to me. I shall always be disposed to give them all the information they desire."

Dodd's Kidney Pills cure all Kidney Complaints. They make the old feel young again.

BRITISH CATTLE MARKET.

London, Nov. 18.—Live cattle firmer at 12c to 14½c per lb. for American steers, dressed weight; Canadian steers, 1c lower; refrigerator beef, 11½c to 12c per lb.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont. Hamilton's Pills are Effective.

SIR SANDFORD ON CABLE.

Advocates an All-British News Service—Wants Lower Rates.

Ottawa, Nov. 18.—At a meeting of the Board of Trade yesterday afternoon, Sir Sandford Fleming delivered a speech thanking the board for a motion passed at a previous meeting congratulating him on the completion of the Pacific cable. Sir Sandford strongly advocated an all-British news service, and said that while he was no advocate of selling the cable service at too low a cost, he thought it could be given at a lower rate than that at present decided on. He wanted to see the cable utilized to rid the public of the inconvenience and annoyance of the Eastern Extension Company.

Chamberlain's Voyage.

London, Nov. 17.—The official program of Mr. Chamberlain's voyage is as follows: Leave Portsmouth Nov. 26, arrive Port Said Dec. 3, Suez Dec. 6 (coal and leave same day), Aden Dec. 10, Zanzibar Dec. 14, Durban Dec. 20.

Nerve Disorders of Women

Accompanied by Neuralgia, Irritability, Sleeplessness and Depressed Spirits,

Dr. Chase's Nerve Food.

The feminine organism requires an enormous quantity of blood, not only to sustain the network of nerves which are found in the womanly system, but also to make good the periodical loss which so weakens the body.

Consequently it happens that just as soon as the blood gets weak and watery, or is deficient in quantity, the nervous system suffers, and in women the effects are most severely felt in the form of irregularities and weaknesses of the feminine system.

At the beginning of womanhood, at childbirth, during the nursing periods, and at the change of life, calls are made for an extra supply of blood and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system.

Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system, and restore vigour and strength to the body.

Mrs. R. J. Huffman, 293 Reid street, Peterborough, Ont., and whose husband is employed at the Canadian General Electric Company, states:

"For over a year I suffered from nervous headaches and feelings of weakness and dizziness would come over me. My nervous system seemed weak and exhausted, and hearing of the success of Dr. Chase's Nerve Food I began using it. I am now pleased to state that the headaches do no bother me any more and my system is entirely built up and restored."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

NOT A MERE PARADE

Chamberlain's Visit to South Africa a Matter of Business.

BIRMINGHAM'S GREAT OVATION.

The Colonial Secretary Optimistic—Believes That Boers Will Meet Him Half Way—Sees a United Nation—Lord Milner Still Retains Government's Confidence—Some People Injured at Reception.

London, Nov. 18.—Colonial Secretary Chamberlain received a great ovation at Birmingham, where a farewell banquet on the occasion of his departure for South Africa was held in his honor. Members of all parties joined in the demonstration, as the affair was of a non-political character. Mr. Chamberlain was accompanied by his wife and his son.

Responding to a tremendously enthusiastic welcome, the Colonial Secretary paid an affectionate tribute to his wife, who, he declared, "had sustained him by her courage, and cheered him by her sympathy. He had found in her his best and truest counsellor."

Referring to his trip, he said it was to be a matter of business, and not a mere parade. He could not expect that all the bitterness in South Africa would die out, but he could say this for the Government, that they would relieve all suffering.

He was bound on a new venture, and there was a possibility of failure. The Government's desire was to make South Africa one united nation, united in heart as well as in name. Greater differences, he said, had been healed, and he mentioned Canada as an instance.

High Commissioner Milner still retained the confidence of the Government. Mr. Chamberlain said he hoped to see the representative of every political section in South Africa. He could then learn more in three days than in a three months' study of despatches in the Blue Books.

He believed that he would be met half way, and that he would gain the friendship of the King's new Boer subjects. He took a very optimistic view regarding the future of South Africa.

On the conclusion of Mr. Chamberlain's speech, a torchlight procession and a fireworks display were held. The streets were packed with thousands of people, who at one point broke through the barrier erected to keep the crowd back. This incident created some excitement and resulted in slight injuries to a few persons.

One of the most dangerous and repulsive forms of Kidney Disease is

DROPSY

for which Dodd's Kidney Pills are the only certain cure. In Dropsy the Kidneys are actually *dammed up*, and the water, which should be expelled in the form of urine, flows back and lodges in the cells of the flesh and puffs out the skin. Remove the filth which plugs up the drain. Restore the Kidneys to health. There is only one Kidney Medicine

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency on Wall street till the year, if the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

DEVELOPMENT OF THE WEST.

Hon. Mr. Sifton Says Tide of Immigration Has Just Commenced to Flow Into Canada—$11,800 For Missions.

Toronto, Nov. 18.—Contributions amounting to $11,800 came from a comparatively small gathering in the Metropolitan Church last evening, a substantial evidence of sympathy among Methodists with the movement to raise $50,000 for missionary work in Manitoba and the Northwest Territories.

Hon. Clifford Sifton, Minister of the Interior, delivered an address of some length, which was marked by a rational optimism in regard to the future of the west that deeply impressed his hearers. Mr. Sifton indicated the actual position as follows:

In 1891 the population of Manitoba was 152,506; in 1901, 254,947. In 1881 the population of the Northwest Territories was 56,446; in 1891, 98,967, and in 1901 it was 160,000. I have no doubt that to-day the population of the Northwest Territories is 250,000, and that the increase during the last year has been more than during the decade from 1891 to 1901.

But the tide of population is only beginning to rise. We see only what the American poet so well described in speaking of his own country, as "the first low wash of waves where soon shall roll a human sea."

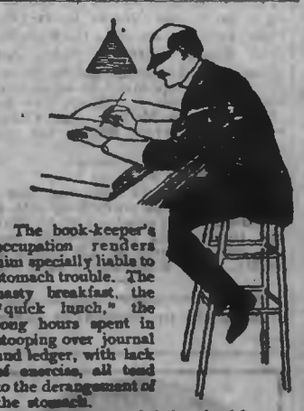
I am not one of those who are inclined to undue optimism. I am in the habit of looking at rosy and exuberant predictions in a somewhat cold-blooded way; but, having regard to the sources of information at my disposal, I should not be at all surprised if by the first day of July, 1905, there were about 750,000 people in Manitoba and the Northwest Territories, and perhaps a million.

Spectacle of Stromboli.

Rome, Nov. 18.—A fresh eruption of the volcano Stromboli occurred yesterday evening, accompanied by a terrific explosion, and a great flow of lava. It formed a magnificent spectacle, which was visible from all the northern part of Sicily, the flames rising from the volcano illuminating the surrounding sea. The situation of the few inhabitants of the Island of Stromboli is precarious.

Big Increase in Revenue.

Toronto, Nov. 18.—The receipts in the Provincial Secretary's Department show a steady increase. They are chiefly derived from newly incorporated companies. In 1898 the receipts were $28,520; 1899, $67,851; 1900, $78,997; 1901, $88,643, and for the first ten months of 1902, $89,725.



The book-keeper's occupation renders him specially liable to stomach trouble. The hasty breakfast, the "quick lunch," the long hours spent in stooping over journal and ledger, with lack of exercise, all tend to the derangement of the stomach.

When the stomach is in a healthy condition the feeling after a meal is one of satisfaction and comfort. Whenever there is discomfort after eating it is a sign of stomach derangement or disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition perfectly and permanently. The cures effected by this medicine are almost countless.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yadkin College, Davidson Co., N. C. "Have had no bad spells since I commenced taking your medicine—in fact have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine's. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Dr. Pierce's Pleasant Pellets cleanse the bowels and regulate the liver. They produce permanent benefit and do not react on the system.

FALL TO THE CITY.

St. Thomas Gets Its Street Railway and Is After Gas Now.

St. Thomas, Nov. 19.—A special meeting of the City Council was held Monday night when the street railway was taken over, the company not having operated if for sixty days and therefore by the agreement with the city forfeiting their franchise and giving the city the right to take over the property in satisfaction of the $50,000 guarantee bonds given by the city. Cars will be running again early this week, and the city will endeavor to give as good a service as possible for the present with four cars. There are no legal obstacles to the city operating the street railway, and the engineer has been granted all the necessary authority.

During the progress of the City Council meeting Monday evening a resolution was carried requesting the St. Thomas Gas Co. to furnish the council with the selling prices of the St. Thomas Gas Company's plant, together with the unexpired parts of their lighting contract; also that the Gas Company furnish the selling price of their electric plant, together with unexpired part of lighting contract.

BERESFORD ON BRODRICK.

Upholds British Navy and Says Latter Is Making Wrong Turning.

London, Nov. 19.—Some recent speeches made by the War Secretary, Mr. Brodrick, showing a tendency to belittle the importance of the navy as a national defence, have brought forth a strong attack by Lord Charles Beresford, who, speaking at Portsmouth last night, argued that 10,000,000 of the finest Britons under arms could not prevent the cutting off of Great Britain's food supplies if her fleets were beaten.

Then, after repudiating any intention to find fault or adversely criticize Mr. Brodrick, whom he said he admired for taking up a work bristling with difficulties, Lord Charles Beresford continued: "But, good man as he is, he is going the wrong way with the British army, and there is nothing in the world so dangerous as a good man going round the wrong turning."

T. H. A. Begue Appointed.

Hamilton, Nov. 19.—Word was received in the city yesterday afternoon that T. H. A. Begue of Dundas, had been appointed to succeed the late S. H. Ghent as County Court clerk, deputy clerk of the Crown and local registrar of the Surrogate Court for Wentworth. Mr. Ghent died on Nov. 10. The appointment is worth from $3,000 to $3,500 a year.

Plot Against Roosevelt.

New York, Nov. 19.—Mrs. Lena Doxheimer of Hoboken is reported to have related a story of alleged Anarchist plottings against the life of President Roosevelt. According to Mrs. Doxheimer there have been in the last fourteen months three persons assigned to the task of "removing" the President. Each of them have, however, themselves been removed by accident or poison.

Col. Pinault For Esquimalt.

Ottawa, Nov. 19.—The Deputy Minister of Militia and Defence, Col. Pinault, set out yesterday afternoon for the Pacific coast, where he is to look into the defences of the Imperial station of Esquimalt.

Fall Caused Death.

Belleville, Nov. 19.—John Henderson of Cordova, while driving a laundry rig, received fatal injuries through the collapse of the seat. He fell on his head and back. He died yesterday.

KEIR HARDIE, M. P., ARRESTED.

Brussels Police Thought He Was Connected in Attack on King Leopold—He Was Afterwards Released.

Brussels, Nov. 18.—The police have arrested an Englishman, James Hardie, on suspicion of his having been connected with the attempt made Saturday by Rubino on the life of King Leopold.

The man Hardie, who was arrested on suspicion of having participated in Anarchist intrigues, turns out to be James Keir Hardie, M. P., (the former chairman of the Independent Labor party, and well- nown labor leader). He was subsequently released, and lodged a complaint at the British Legation.

Hardie was arrested at the Hotel Waterloo, Apparently the police were ignorant of his identity, and, in spite of his protests, he was taken to a police station.

Mr. Hardie threatens to make his arrest an international affair, and will appeal to the British Foreign Office immediately after he returns to England. He says that he had a postal remittance telegraphed to him, addressed to the Maison du Peuple, and that the police through a breach of confidence, became cognizant thereof. After Mr. Hardie's arrival at the police station the officers asked him if he knew Rubino, and he was released only when he proved he was a member of the British House of Commons.

Unwell From Overwork.

Toronto, Nov. 18.—English papers just to hand state that Mr. Hardie, who had been very unwell from overwork, had, on the advice of his physician, gone to the Continent for a rest, and was paired in the House for three weeks.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Kilauea Breaks Out.

Honolulu, Nov. 11, via San Francisco, Nov. 18.—A wireless message received here yesterday from the Island of Hawaii states that the volcano Kilauea has broken out in the most violent eruption for the past twenty years. Kilauea has shown mild intermittent activity since the outbreak of St. Pierre

Killed Near Chatham.

Chatham, Nov. 18.—Stephen Corbett, an old laboring man, a resident of this city was killed by the G. T. R. east-bound limited express about two miles east of the city yesterday morning. He stepped out of the way of a west-bound freight, and in this way met his death. No inquest was deemed necessary.

90 Miles of Tubes.

St. Petersburg, Nov. 18.—An American firm was yesterday awarded a million dollar contract to construct a system of telephone conduits in this city. The contract provides for the laying of 20 miles of underground tubes in 1903.

Corticelli

Corticelli SPOOL SILK. For dressmaking and family sewing, Corticelli Silk is the best silk made. For hand or machine use it has no equal. Corticelli runs smoothly in the needle; it is always even in size, and always full length and full strength. Ask your dealer for **Corticelli.**

Corticelli BA WASH SILKS are put up in patent holders, which prevents waste by tangles or soiling; keeps each shade separate and automatically measures a correct needleful. It is recommended as the only proper way to put up filo and floss silk, and used by art societies everywhere.

Corticelli SKIRT PROTECTOR is of firm and even texture. When soiled a sponge or brush makes it clean again, and no damage done. It has peculiar wearing qualities, and perfectly straight selvage. Corticelli Skirt Protector is a great favorite with careful and fashionable dressers.

For sale everywhere.

THE WALL STREET MARKET

Just as to-day's sunny weather came after a period of depressive weather, so did to-day's markets follow those of the past week. Although the quotations of yesterday had been encouraging, those of to-day were still more so, with one or two exceptions. The opening quotations this morning were slightly lower than those of last night's closing, but the decline was only temporary. Manhattan continued its upward movement touching 151 1-2 as its highest point. C.P.R. opened 1 1-2 points below its last night closing quotation. M.R. reached 149 1-2, but did not hold it. For Dominion Coal 126 was bid, but no takers. December corn is still rising, and the other grains are feeling the effect of its gain. The highest to-day was 69 1-8. Below are the quotations;

AT THE POLICE COURT.

Juveniles in the Toils—Said he was not Intoxicated.

A man brought in last night was charged with being drunk and disorderly, and this morning he pleaded not guilty. He will be a guest of Gaoler Nesbitt until to-morrow morning, when a full investigation will be made.

On Hallow-E'en last a number of boys removed a ladder belonging to Mr. Learmouth. They were told to bring the property back, but failed to do so. At this morning's police court they were given a chance to explain why they should not restore the article in question. His Worship Magistrate Dumble gave the delinquents a week to restore the ladder or pay the equivalent to Mr. Learmouth.

DISGRACEFUL WORK.

Signs and Prominent Business Premises Disfigured.

Last night some reprobate, for it could have been none other, deliberately defaced, for a time at least, the signs at the bottom of the windows of R. Neill's boot and shoe store. It is not encouraging to a merchant to find his signs, on which a great deal of trouble has been bestowed, marked up with mud. Some boy appears to have wiped his feet on every available bit of the brass work, and this before eleven p.m. Should the offender in cases of this nature be caught, it is to be hoped that he may receive the full penalty of the law.

Very refreshing and healthy—Allen's Sweet Cider—At Henry & Co's.

HOME TO-NIGHT.

P. C. Stewart Will Arrive With Prisoner To-night.

Some days ago information was laid against a Miss Perry for larceny, and P. C. Stewart left yesterday to apprehend her. This afternoon Chief Russel received the following telegram from Golden Lake:

"Prisoner Perry in custody. Peterborough 5.10. Prisoner wants Dennistoun. (Signed) Stewart."

The articles Miss Perry is charged with stealing consist of a gold watch and chain, gold bracelets and wearing apparel.

Later on the Chief of Police received another telegram from Stewart saying he would not be able to get home to-night, and there will, for that reason, be no Police Court this afternoon.

THE NON-COMS' DANCE

Will be Held Early in the new Year—Success Assured.

For some time the non-commissioned officers of the 57th Regiment have been quietly organising for their annual meeting. At a former meeting the officials were chosen, and in their charge the promotion of the dance was left.

The following are this year's officers:

President—Staff-Sergt. Sharpe.
Hon. Secretary—Sergt. A. F. Paddon.
Committee — Colour Sergt. Cottrell, Colour Sergt. Edwards, Corp. Henderson, Corp. Gemmell.

Last night, after some discussion, it was decided to hold the annual dance on Wednesday, January 21st, 1903. All those who attended the ball given last year by the Non-Coms. were enthusiastic in their praise of the dance and the able manner in which it was managed. This year's dance, it is expected, will equal and if possible, eclipse, that of last year, and no effort willl be spared by the executive to insure success. The executive is composed of men who have had experience in this line before, and their dance will be eagerly awaited.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

LATEST IN SPORTING CIRCLES

London has Decided to Come to Peterborough.

Great Game Expected Next Saturday —Hockey Club Meeting This Evening.

The London Rugby Team have expressed their willingness to come to Peterborough on Saturday next to play-off for the Intermediate championship of the O.R.F.U. This will be the first visit the London men have ever made to Peterborough, although the locals have visited the western city on three different occasions. The match on Saturday should prove to be a big drawing card, and only good weather is required now to make the event one of the most successful in the history of the club. "Billy" Mitchell, the former Osgoode Hall scrimmage will referee the game here on Saturday. The final for the Canadian Intermediate Rugby Championship, will be played in Montreal on November 29th, when Quebec will meet the winner of London-Peterborough contest.

* * *

The decision of the T.A.S. to place a hockey team on the ice this winter, will be received with much favour from hockeyists throughout the town. Nothing helps to keep up the enthusiasm, in the game, and to develop good players better than good natured rivalry. The T.A.S. have excellent material from which to draw, and should make matters interesting for the teams in the Trent Valley League, or, in fact, for teams in whatever league they may decide to enter. The T.A.S. hockey team will be cordially welcomed by sister organizations.

RUGBY.

ANNUAL DANCE.

Invitations for the annual dance will be issued to-morrow. The affair promises to be the largest assembly ever given in Peterborough. Seven hundred invitations are being issued. The catering will be done by a competent man and the arrangements will be most complete. The date of the dance is Tuesday, December 2nd.

* * * *

HOGTOWN ANGRY.

The Toronto Star don't altogether like the way things are managed in the O.R.F.U. It says:

"The hope of the Ontario Rugby Union is the intermediate and junior clubs, but the Executive Committee apparently fail to recognize that this is the case.

"The bungling of the arrangements in connection with the intermediate series, resultant upon the expulsion of Bert Morrison of the Torontos as a professional, has done much to destroy the faith of the clubs in the organization.

"There seems a tendency to always give the outside clubs an advantage at the expense of Toronto for no other reason apparently than that this is the home of the Union.

"This phase is illustrated in the case of the Torontos who were ordered to play in London this Saturday and if successful, in Peterborough the following Saturday, but more especially so in the case of the Wellesleys in the junior series. The Wellesleys are new-comers in the Union, and were ordered to play the semi-finals in Kingston with the Limestones, an old-established club. They made a fair request to be allowed to meet the Kingston team at a half-way point, Port Hope, each club to pay its own expenses, but the O.R.F.U. Executive most arbitrarily ordered the Toronto team to make the trip to the home of the Limestones.

"This sort of treatment is enough to alienate the support of any club. The executive should use some discretion in the arrangement of games and endeavour to placate all the clubs interested instead of pandering to individual clubs."

* * * *

NOTES.

Mr. Russell Britton, the Argonauts crack quarter-back of last year, who has been living at Kingston and Gananoque this year, was suggested yesterday as referee for the Toronto Wellesley — Kingston Limestones game in Kingston on Saturday. The Wellesleys have nominated "Chaucer" Elliott of Kingston for the position.

There was a splendid practice in the drill shed last night. About 18 men were out.

HOCKEY.

TO-NIGHT'S MEETING.

Let every member of the Peterborough Hockey Club, and in fact everyone who takes an interest in the game, attend the annual meeting, which will be held in the Town Council Chamber this evening. The meeting should be one of the most important that has ever been held in the history of the club. It is said that the treasurer's report will show a slight balance on the right side.

"PICK" LILLIE ILL.

There are many Peterborough people who will sincerely regret to know that Mr. "Pick" Lillie, the well known hockey and lacrosse player, is seriously ill with typhoid fever. Mr. Lillie played hockey with Osgoode Hall, Toronto Rowing Club and the Wellingtons, and lacrosse with the Torontos. He was a little better yesterday. Mr. Lillie refereed several matches here.

O.H.A. EXECUTIVE MEETING.

Notices were issued yesterday for an executive meeting of the O.H.A. to be held at the Telegram office next Monday evening at 8 o'clock to make arrangements for the annual meeting of the association, on Dec. 6th.

REMAINS IN THE O.H.A.

The Stratford Hockey Club was yesterday evening reorganized for the season. The treasurer reported a surplus of $20 from last season. The opinion of the meeting was that the club should remain with the O.H.A. J. W. Chowen will be the club's candidate for the second vice-presidency, and also for the executive.

NOTES.

Secretary A. H. Beston, of the O. H. A. has received an application for reinstatement from J. Ernest Laing, who was expelled in 1900 for playing on the London team with Frank Winn, the Montreal professional. Laing is now in Winnipeg, and desires to play hockey with the Victorias.

CURLING.

There will be another meeting of the curlers of the town on Thursday night, when reports from the Membership Committee will be received.

A GREAT SUCCESS.

The First of a Series of Dances Held Last Night.

The first of a series of dances to be given by the "Never Learn Club," took place last night in the Foresters' Hall, Simcoe street. There were about seventy young people present, all of whom appeared to enjoy themselves very much. Music was supplied by Miss McCabe, and refreshments were served during the evening.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

The choicest cider made is Allen's of Norwich—On draught at Henry & Co's.

LADIES' AND GENTLEMEN'S

H. E. BRADLEY & CO.

BEET SUGAR CAPITALISTS WANT BONUS.

Want County Council to Take $40,000 Stock.

REPRESENTATIVES PRESENT.

Matter Referred to Finance Committee to Deal With—Councillor Pearce Objects.

The County Council met again at ten o'clock this morning, the Warden in the chair, and all the members present.

The minutes of the last meeting were read and confirmed.

Upon motion of Mr. J. R. Pearce, seconded by Dr. Jeffs, the representatives of the Peterborough Beet Sugar factory, Messrs. T. E. Bradburn, and J. W. Garvin, were heard.

Mr. Bradburn explained that they would like to get the assistance of the council in regard to the growing of sugar beets. They were before them as an organized company at the present time. As to the general question of the beet sugar industry, he need say but little, as they were all familiar with the progress the industry was now making. He made reference to the Wallaceburg and Berlin factories, and the success they had attained. He asked the council to assist the company by way of a bonus. He suggested that they take stock in the company to the extent of $40,000. He was satisfied it would be a good investment. If the municipalities around Wiarton and Wallaceburg could give bonuses of thirty and forty thousand dollars, surely Peterborough county could do likewise, besides they were getting more for the money, as they would have stock in the company.

Mr. Garvin began by saying that he was a farmer for nine years himself, and continued to take a deep interest in farming. He then went on to recite the progress of the sugar beet industry in Germany and the United States, and later in Canada. In Michigan, the average profit to the farmer on sugar beets was $40.00 an acre. He did not know of any crop that would yield such a handsome profit. We would not have to experiment in the matter, as this has been done with success in the United States and Germany. There would be no difficulty in getting the farmers to grow the beets, as they have had the successful experience of western Ontario to guide them. The Peterborough Sugar Beet Company is in the business, not so much for what there is in it for the promoters, as for the benefit it would be to the country. Mr. Garvin then went into figures to show that the interest on $40,000 of debentures would be more than met by the payment of profit on the capital of the company, which should yield ten per cent. In fact there should be a slight balance to the credit of the county. After commenting upon the prosperity of the farmers of Peterborough county, Mr. Garvin said that the one thing they needed now was a beet sugar factory. The promoters asked the council to pass a bylaw to be submitted to the electors next January.

Councillor Peck asked what the whole capital of the company would be, and was told by Mr. Bradburn that it would be $350,000, and that it was proposed to erect a factory of the same capacity as the Berlin factory.

Mr. Garvin said that he had figured it out that it would be a matter of 3 1-2 cents on every $100 of assessment.

Mr. Casement wanted to know where it was proposed to erect the factory, and was told that it would be located inside the County of Peterborough somewhere.

Mr. Pearce did not think that the council in its dying hours could pass such a by-law.

Mr. Bradburn thought that if they passed the bylaw they could have the matter submitted at the January elections. It would facilitate matters.

Mr. Pearce considered the sugar beet industry was a very important one. But thought the bylaw would be snowed under.

Mr. Bradburn rejoined with the remark that all the council was asked to do was to submit the bylaw.

Mr. Pearce—Would you pay the expense?

Mr. Garvin—What would that be?

Mr. Pearce—About $500. Although it all depends on whether there are elections in the various municipalities.

Mr. Pearce said his belief from talking with the people in his neighbourhood was that they would not listen to it at all.

Mr. Fitzgerald thought that they should pass a bylaw and submit it to the people on Jan. 1st. He thought that they should not throw cold water on the scheme. If they turned them down in the matter it would be poor encouragement for them when they went to the Peterborough Town Council for assistance.

Mr. Anderson—If the bylaw carries, is there a certainty of the factory going on?

Mr. Bradburn—There is no doubt about it.

Mr. Anderson expressed the opinion that the farmers in his district were not any too enthusiastic over the idea of bonusing a sugar factory.

Mr. Pearce said that the farmers in his district were of the opinion that they could make more money by feeding the beets to the cattle.

In reply to a question from Mr. Peck, Mr. Bradburn said that it would take a 3-5 vote to carry the bylaw.

Councillor Shaw thought that the only expense to be considered at present was that incurred in taking the vote.

Mr. Casement said that the matter should be dealt with by the municipalities that would be benefitted by the factory.

Councillor Jeffs thought that it might carry in the municipalities around about Peterborough, but outside of that it would be defeated.

Mr. Bradburn announced that the company would be willing to pay a fair proportion of the expense connected with the taking of the vote.

Finally the matter was referred to the Finance Committee.

Mr. Bradburn and Mr. Garvin thanked the council and withdrew.

A communication was read from the Reeve of Galway, re Kinmount bridge. The matter was referred to the Committee on Roads and Bridges, and Council went into committee.

SUTCLIFFE'S NOTEWORTHY BLOUSES

Waists of Mercerized Satanna look just like Silk—yes, they have the same sheen of silk, but they wear better and are purchasable at about one-half the cost. Beauty, durability and economy are linked together in these waists. DIED IN DETROIT.

Miss Lillian Donnelly Passed Away This Morning.

Mr. John Donnelly received a telegram this afternoon from his brother, Thomas, (a former resident of Peterborough,) at Detroit, announcing the death this morning, of the latter's daughter, Lillian. The young lady, who was about 22 years of age, has been ill for some time, but her death came as a sad surprise to relatives here, for a letter received a few days ago, stated that her health had improved.

The remains will be brought to Peterborough for interment, on Saturday, and interment will take place on the arrival of the C.P.R. mid-day express. The many friends of the family will learn the sad news with regret.

SENSATIONAL ARREST

American Counterfeiter Taken at "Queer" Work in Toronto.

TABLE COVERED WITH BAD COIN

Great Quantity of the Spurious Money Taken, As Well as a Complete Plant For Manufacturing the Same, Seized—Prisoner, Joseph Gentle, Has Already Done Time For Counterfeiting.

Toronto, Nov. 20:—One of a gang of a dozen expert counterfeiters, who have been sought by the secret service officers of the United States Treasury Department since May last, was captured in this city yesterday afternoon. The officers came upon their man when he was in the act of turning out bad American fifty-cent pieces. Over $300 worth of the spurious money, as well as a complete plant for manufacturing the money, were seized and taken to the Police Department.

Although the arrest came so quickly after the capture of William Stuart, there is nothing to indicate that the prisoner now in the cells at No. 1 station had any connection with the aged counterfeiter who turned out Canadian $1 bills. Nearly all the coin seized yesterday was American money, but the fact that a small amount of bad Canadian coin was found leads the officers to believe that had the prisoner not been arrested so soon he would have flooded this city with the results of his work.

The prisoner in this case is Joseph Gentle, an Italian, 35 years of age, who has already served eight years of his life in prison for counterfeiting.

The table at which Gentle had been working was covered with 240 new American 50-cent pieces, which had just been turned out. Six more coins were in the plaster paris moulds, and a pot of metal was boiling on the stove. On the floor underneath the table was located plenty of material for turning out spurious money, as follows: Six pounds of block tin; six pounds mixed metal, consisting of tin and zinc; four pounds of antimony, one pound of copper wire. Two files and table knives, used to smooth off the edges of the coin, and nitrate of silver and plating fluid, to put the proper color to the pieces, were also found. A pair of pliers used to lift the crucibles off the stove and five pounds of plaster paris were other things found in the room.

A trunk was broken open, and wrapped in a cloth were 158 50-cent American coins, two Smith & Wesson 38-calibre hammerless revolvers and an ugly-looking stiletto. In a cupboard, done up in separate packages, were 100 ten-cent pieces, all in American money. The Canadian coin consisted of the following packages: Fifty-one ten-cent pieces, 42 twenty-five-cent pieces, 49 fifty-cent pieces, 64 ten-cent pieces. The sum of $22.07 in genuine money was also found on the prisoner.

Some of the money has already been shoved in this city, but how much is not yet known.

Gentle may fight extradition, and if he does the United States officers will drop their case and allow the Toronto authorities to take the matter up and prosecute him for making the bad money here.

BRITISHERS IN CANADA.

Hope Expressed That Intimacy Will Prove of Mutual Profit.

Ottawa, Nov. 20.—The British delegates who arrived at 1 o'clock, spent yesterday afternoon visiting industries at the Chaudiere. They were shown over the E. B. Eddy Paper and Pulp Works and the Carbide Works. Last night they were banquetted at the Russell House by the Board of Trade. Mr. John Coates, president, presided, and the distinguished visitors spoke to the various toasts, lauding the loyalty of Canadians, and expatiating on the possibilities of trade. The changed attitude of Britain to Canada was also referred to, and the hope expressed that the intimacy would prove to mutual advantage and profit.

Banks to Increase Capital.

Montreal, Nov. 20.—It is now decided that the Bank of Montreal and the Molsons Bank will call a meeting of their shareholders in the near future to discuss the advisability of increasing their capital. No legislation is required. It is understood that several other Canadian banks will follow suit.

One Towel on Two Faces.

Buffalo, Nov. 20.—Judge Braunlein in the Municipal Court, has handed down a decision fining Anthony Shoreno, an Italian barber, guilty of using a single towel on the faces of two customers and imposing a fine of $3.45.

EDITORIAL NOTES

The Cubans are protesting "in the name of the sacred liberties," against the U. S. ordinance abolishing cock-fighting. Cock-fighting seems to be too small game for American ideas of permissible depravity. Now the Cubans would not have been turned down, if they had demanded some of the honoured "institootians" of Uncle Sam, such as prize fighting, roasting negroes, lynching citizens, or polygamy, under the guise of loose divorce laws.

Mulock's post-office surplus is partly accounted for, says the Hamilton Times, by his re-arrangement of postal routes and contracts. He has let the carrying of mails on business principles and has not made those contracts the means of rewarding party heelers, as was the practice for some years, when the Tories ruled. Grit or Tory a man got his job in fair competition. The treasury has not been robbed to make good election debts under Mulock.

The New York Sun, always bitterly anti-British, asks whether Britain will repeat the mistake made in making the American colonies pay a part of the expense of the Seven Years' War, by compelling the new British Colonies in South Africa pay their share of the Boer war. If Britain does this, will she make a mistake? There is no complete parallel in the two conditions. The American colonies had no share in precipitating the Seven Years' War, while the Transvaal and the Orange Free State, under the suserainty of Great Britain, not only rebelled, but actually invaded neutral British territory. The Boers cannot but recognise the justice of paying the penalty of their political transgressions. On the other hand the American colonies were treated unjustly, and resented such treatment very naturally. The most careless will not refuse recognition of the justice of paying an honest debt, while he will kick against paying a debt which he does not owe.

HUSTLING HAVELOCK.

Interesting Notes From the Railway Town—Forester's Meeting.

A public meeting was held in the Town Hall on Monday evening, under the auspices of the Independent Order of Foresters. Mr. W. L. Curtis, Reeve, was chairman. The aim and objects of the order were explained by Mr. J. A. Garrett, D.D.H.C.R., Havelock, Mr. Ingraim, Organizer, Ottawa, Mr. Elliot, D. S.C.R., Toronto, and Rev. A. McGillivary, P.H.C.R., Toronto.

The Junior Auxiliary of St. John's church intend holding a box social in the basement of the church on Thursday evening.

The Ladies' Aid of the Presbyterian church will give an oyster supper and entertainment in the Town Hall, Havelock, on Friday evening.

Mr. and Mrs. W. Thompson are visiting the latter's parents, Mr. and Mrs. McKeown.

Miss Louisa Smith left on the noon train on Tuesday on a visit to her brother at North Bay.

Mrs. Wm. Webb left on Saturday on a visit to Hamilton, Ont.

Mme. LaZelle, the palmist, is at the Graham House this week.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 294 Colborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

FROM LIVE LAKEFIELD.

Deer Hunting Party Returns—An Accident at a Threshing.

Hon A. G. Blair, Minister of Railways and Canals, and Mr. Collingwood Schreiber, Deputy Minister, were in the village on Tuesday.

Mr. J. Strickland left on Saturday for Beaton, where he has accepted a position in the Traders' Bank. John will be missed this winter, as he was an enthusiastic hockeyist.

Mr R. P. Davidson, manager of the Traders' Bank, was in Toronto over Sunday.

Mr. R. Johnson opened his new drygoods store last Wednesday with a well assorted stock and judging from the crowd that visited the store on the opening day Mr. Johnson will do a large business. We wish Mr. Johnson every success in his new venture.

Mrs. J. A. Burgess entertained a number of her friends to a progressive crokinole party on Friday evening last.

The All Saints' Rugby Football Team, of Peterborough, drove to Lakefield on Saturday, and played a game with the Grove team, which resulted in a victory for the home team, by a score of 1 to 8.

Mrs. R. Johnson, of Peterborough, is a guest at the Craig House.

Miss Etta Wade of Peterborough, is visiting in the village, the guest of Miss Nellie Cox.

The Balsdon, Young and Baptie deer hunting party, are home, but complain of hard luck. Owing to the water in the swamps the dogs could not follow the deer. The party brought home two deer.

Mr. William Crow of Dummer, had the misfortune to have his hand caught in the carrier chain of a threshing machine at which he was working, and two fingers were so badly crushed that they had to be amputated. Dr. J. R. Fraser performed the operation.

GEORGE ALFRED HENTY,

The Boys' Favourite Book-writer Passes Away.

Thousands of young people will learn with very real sorrow of the death of George Alfred Henty. Dissatisfied with the mamby-pambiness of most of the books, written for the good of boys, and recognizing the almost incalculable evil wrought by dime novel hero-worship of crime, Henty gave us year after year good clean books of deeds of daring and adventure that, if verging on the romantic, were couched in a setting of real history and thoroughly correct local surroundings. They inculcated bravery, honour, truthfulness, resource, patriotism and all the manly virtues. His characters were neither ruffians nor prigs, 'not too good for human nature's daily food,' but just manly, faulty every-day boys, yet learning the lessons of life in enviably interesting environments. The verisimilitude of Henty's books was due to the author having actually lived in the scenes he described. A Cambridge University man, he was through the Crimean war and was sent to Italy to organize the hospitals of the Italian legion. After that, and leaving the military profession, he spent some years in mining operations in Italy and Wales. Then he joined the staff of the 'Standard' newspaper and was special correspondent of the Italo-Austrian war. He was with Garibaldi in his campaigns in the Tyrol; saw the opening of the Suez Canal; accompanied Napier to Magdala with the Abyssinian expedition and Wolseley to Coomassie with the Ashantee expedition. He went through the Franco-German war and the Communal siege of Paris, and was also present in the Carlist insurrection. He accompanied the Prince of Wales on his tour through India, was with the Turkish army in the Turco-Persian war and in many other adventures and scenes of life. No man therefore could have been better equipped to write healthy stories for boys, which was the chief work of his latter years. He was born in 1832 at Trumpington, Cambridgeshire, so that he has laid down the pen for the last time at seventy. We shall expect to hear of some sort of boys' memorial being raised to this writer for he was in a very high sense an invaluable friend to them.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

HELD THEIR ANNUAL MEETING

Peterborough Protestant Home Elect Officers.

The Secretary and the Treasurer's Reports—Successful Year.

The annual meeting of the Peterborough Protestant Home was held Tuesday afternoon. The report of the secretary was submitted as follows:

In presenting the annual report of the P. P. Home the committee are grateful for the privilege of being used to do this work for the Heavenly Father. There is very little to report other than the coming and going of those who seek shelter, some for the remaining years of their life, others during a period of trouble or adversity. During the winter the Home was filled to its utmost capacity. Quite a number of old men who were too infirm to work in the winter were sheltered, but these went to work in the spring. Already applications are coming in from just such old men. Altogether twenty-seven found a complete home, the ages ranging from thirteen months to eighty-eight years. Two of the inmates died during the year, both in advanced years. Miss Fraser, the matron, continues to give satisfaction, and her task is not a light one, for it is not always easy to keep peace and harmony among so many. Our sincere thanks are due to the clergymen and physicians, who give so kindly of their time to the relief of the inmates. Also we desire to thank the editors of the papers for inserting notices of our work gratuitously and to all who in any way contribute to the welfare and comfort of the Home. Year after year we ask through the press and in other ways for more ladies to become interested in the work and be members of the Committee of Management, but as yet there has been no response. The same ladies have taken the work for many years, and some of them feel that others should be ready to take their places.

M. MILLER,
Secretary.

TREASURER'S STATEMENT.

The Treasurer's statement was as follows:

From 1st Oct., 1901 to 30th Sept., 1902.

Receipts.

	$2195 27

ELECTION OF OFFICERS resulted as follows:

President—Mrs. Vernon.
1st Vice-President—Mrs. Hall.
2nd Vice-President—Mrs. J. B. McWilliams.
Treasurer—Miss Roger.
Secretary—Mrs. Miller.

LADY SUPERINTENDENTS.

Mrs. Donavan and Miss Fahrner, Formerly of Nicholls Hospital Achieve Success in Portage La Prairie.

The Examiner has been requested to print the following:—

The Weekly Graphic of Portage La Prairie, of November 6th, contains an account of the first graduating exercises in connection with the hospital there. The event was regarded as "an era in the history of Portage hospital," and was attended by a large and interested audience. With pleasure it is noted that Mrs. O'Donavan, who was at one time Lady Superintendent of the hospital here, was the second to take charge of the Portage hospital, and the Graphic, in regard to her services, observes:

"Mrs. O'Donavan showed ability as an administrator, which was a great factor in placing the institution on a paying basis."

Mrs. O'Donavan's successor was Miss Fahrner, who graduated from Nicholls hospital some five years ago. Under her management, the Graphic says, the hospital has gone on to even greater success in every department. The following reference was made in the valedictory of the nurses to the superintendents, Mrs. O'Donavan and Miss Fahrner:—

"To our late superintendent, whose rare economic skill and financial ability you all know our hospital owes no small amount of its success. Easy and yet strict, very careful yet generous, she lives in our minds as she lives in person among you. With the present superintendent we had much to do in days before she sat on such a high pedestal as she does to-day. Who has not felt the geniality of her nature so that, as regards the hospital, friends as well as patients are being continually taken in."

Friends in Peterborough will be delighted to learn of the success of those formerly connected with the Nicholls hospital, and it is such records as these that make for the interest and encouragement of those who are following similar paths.—Com.

TOWER WAS STORMED.

Held Against the British All Day—Defenders All Ultimately Killed—Gallant Soldiers Who Fell.

Simla, India, Nov. 20.—Colonel Tonnochy, commanding the fourth column of the British expedition, engaged in putting down the uprising of the Waziri tribesmen on the Afghan frontier, found a strong tower at Gumatti, held by six outlaws, who refused to surrender. The shells from the British guns made little impression on the fort till evening, when the tower was stormed, and all of its defenders were killed.

The British losses were comparatively heavy. Colonel Tonnochy was mortally wounded, and has since died. Captain G. White of the Third Sikhs was killed while leading the storming party, and Captains Davies and Houston and Lieutenant Aairy and eight of the native troops were wounded. The tower was razed.

General Egerton arrived at Shiwa Tuesday and captured the headman and several of the villagers. Col. McRae, commanding the first column, signalled from Spinwan on Monday that he had surprised and captured the village, and had taken 250 prisoners. Some war munitions also fell into the hands of the first column.

HIS ORDEAL OVER.

President Mitchell's Cross-Examination by Coal Lawyers at Last Ended.

Scranton, Pa., Nov., 20.—President Mitchell was cross-examined again yesterday before the Coal Strike Commission. Judge Gray suggested that Mr. Mitchell be not asked to give his opinion of matters of which he had no personal knowledge.

M. Mitchell did not favor one organization for the hard coal miners and another for the soft coal men.

Mr. Mitchell declared with emphasis in the course of subsequent examination that the miners will carry out the decision of the commission to the letter "or go out of the union."

The miners president, after being under trying cross-examination by more than half a dozen lawyers for four and a half days, then left the witness stand.

Boycott That Does Not Boycott.

Schenectady, N. Y., Nov. 20.—The third day of the boycott, declared by the Trades Assembly of this city against the Schenectady Railway Company, finds the effort possessing practically no support at all. There is no diminution of traffic, and all the cars are running, as on other days, with thir full quota of passengers.

Teachers Talk of Union.

Toronto, Nov. 20.—A Teachers' Union for Ontario is one of the latest phases of unionism in Canada. Just what the definite objects of such an organization are intended to be is not known yet, but among them it is certain that the question of governing salaries will not be ignored. Miss Carruthers of King Edward School is one of the leading promoters of a union, and she has secured the permission of the executive of the Ontario Educational Association to introduce at the next meeting of the association a notice of motion asking for consideration of the subject. It had been stated that some of the teachers were in favor of affiliating as a union with the American Federation of Labor, as had been done by a teachers' union in the United States, but it has been learned that a proposition of that sort would not be entertained at all by the association.

300 BURNED TO DEATH.

Town of Resht in Persia Has Been Destroyed.

London, Nov. 20.—The St. Petersburg correspondent of the Mail telegraphs that a fire lasting three days has destroyed the town of Resht, in Persia. Fifteen hundred houses and many warehouses were wiped out, and two hundred persons perished.

Rich Women Burnd a Town.

Vienna, Nov. 20.—The Tyrolese village of Matsch was almost totally destroyed by fire yesterday. Seven hundred persons are left destitute, and 500 cattle perished in the flames. The fire was started by a woman who owns most of the village. She wished to punish the peasants for

THE CANADA MILITIA.

Its Members Praised for Patriotism by Lord Dundonald.

PLEA FOR IMPROVED CONDITIONS

Hon. Raymond Prefontaine in His Speech at the Dundonald Banquet Says He Hopes the Time Will Soon Come When Canada Will Organize the the Nucleus of a a Navy—Naval School Proposed.

Montreal, Nov. 20.—Lord Dundonald was the guest of the Montreal garrison at the Windsor last night. Lieut.-Col. Gordon, D.O.C., occupied the chair, and there were 150 present. Lord Dundonald in his speech said that he had been struck by the patriotism of the officers and men of the Canadian militia. He later in his address discussed the question of how best to organize the citizen soldiers to defend the country. To this end he urged the importance of perfect organization and good armaments. He spoke also of the value of technical education, and suggested that instead of locking up such information in blue books they should, for example, place placards of information which the citizen soldiers in their leisure moments could read. He believed also in the value of miniature ranges. He also wanted better treatment of the Common soldier.

Hon. Raymond Prefontaine.

Hon. Raymond Prefontaine, replying to the toast of Parliament,, said he hoped the time would soon come when Canada would organize at least the nucleus of a navy. If Parliament took steps in that direction it would be endorsed by the people of Canada. His department was an important one, and though some tried to belittle it, he was quite satisfied with the position. Speaking of the military school which had been proposed for Montreal, he said that the $25,000 voted for it was still in the city's coffers, and that the officers had only to agree upon a plans and it would be established. He hoped to see in Montreal not only a first-class military school, but also a naval school for the study of both inland and ocean navigation. Next session he would insist upon a school for the training of young men in the science of navigation. Mr. Prefontaine's suggestion with regard to both military schools and instruction in navigation were loudly applauded.

A Naval School Proposed.

Hon. Raymond Prefontaine, Minister of Marine and Fisheries, was waited upon by a deputation of the Chambre de Commerce and presented with the series of resolutions passed at the last meeting, in which the establishment of a naval school in Montreal was urged. The Minister promised to consider the matter and to become the patron of the National Marine School, which will be inaugurated at the Monument National this week. "I believe," said Mr. Prefontaine, "that this is only the beginning of a national marine for Canada, in fact, of a national navy, and I think the country is ready for it. I know it is favored by the French-Canadians, and it is the general belief that were more Canadian officers in charge of transatlantic and other steamers navigating the St. Lawrence there would be fewer accidents to chronicle."

NO PREFERENCE FOR CANADA.

Bond-Hay Treaty Gives U.S. Imports Equal Treatment.

St. John's, Nfld., Nov. 20.—It is understood here that the Bond-Hay Treaty includes green, or partly cured codfish, as well as dry, or fully cured, cod. It also gives a free entry into American markets of Newfoundland's crude minerals. American fishermen receive equal privileges in the Colonial waters with the resident fishers.

American imports also have equality of treatment with those of Canada, no preferential tariff being allowed. Canadian fish does not share the benefits of reciprocity.

Election in Dawson.

Dawson City, Nov. 20.—The election campaign is growing in interest. Feeling is running high in some sections, and personal encounters are not infrequent. Only two weeks elapse before polling. As far as can be judged, Ross can carry Dawson by several hundred majority, and will carry Dominion Creek by between 300 and 400 majority. Some important creeks are adverse. The feeling is that Ross' election is sure. Many prominent Conservatives will support him, and the fight is not on party lines.

Rebate on Foreign Wheat.

Ottawa, Nov. 20.—The British Consul at the city of Mexico has notified the Department of Trade and Commerce that, in order to obviate the damage that may arise from the present scarcity of wheat, a temporary rebate on foreign wheat, entering Mexico, will be granted until March 31, 1903. The former duty was $2 per 100 kilos. The temporary rate will be 50 cents.

English Mail Train Abandoned.

London, Nov. 20.—When asked about the abandonment of the special mail train in connection with the White Star Line steamers, Postmaster-General Austen Chamberlain said yesterday that it had not given a prompter service and had not proved of any postal advantage.

20 Years of Itching Piles.

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terribly from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length

"SALADA," Toronto.

SALADA Ceylon GREEN Tea is fast displacing all Japan teas.

ALLAN GILMOUR ESTATE.

Privy Council's Decision on Rights of Provinces to Collect Succession Duties—Quebec Beaten, Ontario Not Affected.

Ottawa, Nov. 20.—Word has been received of a decision by the Privy Council affecting the rights of provinces to collect succession duties. Some time ago Allan Gilmour, a wealthy lumberman, died here and his estate paid a large tax to Ontario. Because the large part of the estate was in Quebec, that province wanted a slice but was beaten in all the Quebec courts. An appeal was made to the Privy Council, and again the estate wins. The decision is that domicile and not location of the estate determines the right to collect the tax. This bowls out the Ontario Government in its claim on the Renfrew estate of Quebec, and permits of the settlement of a number of other Ottawa estates.

Ontario Amended the Law.

Toronto, Nov. 20.—The decision of the Privy Council, as the authorities at the Parliament Buildings understand it, does not affect the law of Ontario, nor will it affect any estates here. The Gilmour estate, over which there has been so much litigation, paid to the Ontario Government $130,000 in succession duties, which is the largest amount they ever received from this source.

As for the case of the Renfrew estate, the Ontario authorities will have no trouble about the duties. Some time ago there was a similar case to the Gilmour one and Judge Street decided against the province and the Government, instead of appealing the case, immediately amended the law and saved a great deal of litigation, but Quebec took the other course, and went to law with the result that they were beaten.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

Rev. Dr. Parker Dying.

London, Nov. 20.—The condition of Dr. Parker, Minister of the City Temple, is now considered hopeless. Dropsy set in Friday, since when oxygen has been administered to him. Dr. Parker himself wrote a bulletin, which was read in the City Temple Sunday, remarking that it was the last thing he would ever write.

Three Royal Hunters.

London, Nov. 20.—Both the German Emperor and the King of Portugal spent the day out shooting, the former with the Earl of Lonsdale and the latter in company with King Edward in the royal preserves near Windsor. The Emperor distinguished himself on the last day of his present visit to England by bringing down 84 rabbits in 20 minutes.

Public Is Disappointed.

Rome, Nov. 20.—A princess was yesterday born to the King and Queen of Italy. Had it been a male child, he would have been proclaimed Prince of Rome. The public is disappointed.

Many Happy Returns.

Many happy returns of the day to the Rt. Hon. Sir Wilfrid Laurier, K. C., M. P., K.C.M.G., P. C., Prime Minister of Canada, born at St. Lin, near Montreal, Nov. 20, 1841.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

There is also to be a Japanese tea room in connection. Candy will also be on sale. ws

Important Meeting.

A very interesting meeting was held in the Y.M.C.A. on Tuesday evening, attended by a number of the members of the Board, and Bible study and religious work committee men. The object of the meeting was to follow up the suggestions made by Mr. Goodman for the betterment of the work, at the recent conference. This has resulted in the adoption of a most progressive policy, which will be put into effect at once. The lines of work considered were class and personal Bible study, shop classes, the men's meetings, the personal workers' league, the foreign work, and the distribution of religious literature. A letter is being sent to each active member, giving the details.

OPERA HOUSE TO-NIGHT
The Grand Scenic Revival
"THE IVY LEAF".
Prices 25c, 35c and 50c.
First Four rows of raised, 75c.

SOCIAL AND PERSONAL.

Miss Carney, trained nurse, has returned from a three weeks' stay in Lindsay.

Miss Bertha Symonds, of Port Hope, is in town and will sing at St. Luke's entertainment this evening.

Mr. Jas. A. Tully was in Toronto Tuesday and Wednesday. He did a good stroke of business while in the city, and took in "Ben Hur" at the Princess Theatre.

Sir Wilfrid Laurier is 61 to-day. Born in 1841, he entered the Quebec Legislature at 30, and the Dominion Parliament when 33. He has sat for 28 years in the Ottawa House, and has been Premier six years and a half.

Lindsay Post: The Hon. Frank R. Latchford, Minister of Public Works in the Ontario Government, arrived in town this morning. To-night the honourable gentleman, who holds the position of Grand Solicitor in the C.M.B.A., will be the guest of Lindsay Branch, No. 77, at a banquet in the Parish Hall.

The Hastings Star says: — "His Lordship, Bishop O'Connor, of Peterborough, arrived in Hastings on Saturday and was the guest of Rev. P. J. McGuire until Monday. On Sunday morning confirmation service was held in St. Mary's church, when this sacred rite was conferred upon fifty-eight persons. High Mass was sung by the pastor, Rev. Father McGuire, and an appropriate discourse was preached by His Lordship the Bishop, who also officiated at Vespers on Sunday evening."

The final match for the Intermediate O. R. F. U. Championship will be played on Nicholls Oval, on Saturday afternoon at 3.30 o'clock, between London and Peterborough. Admission 25 cents to all.

NEWS NUGGETS.

—St. John's choir will practice to-night at 8 o'clock.

—Additional local matter will be found on pages 1 and 2.

—There will be a service at All Saints's church to-night at 8 o'clock.

—"The Span of Life," will be presented in the opera house on November 27th.

—St. Mark's church, Otonabee, will hold its annual fowl supper to-morrow night in the Foresters' Hall, Otonabee.

—Extra special meeting of the George street church choir to-night. Every member is asked to attend if possible.

—Mr. R. H. Leary, Peterborough's wide-awake liveryman, has purchased an elegant team of cab horses from Mr. Miller of Otonabee.

—The full 57th Regiment Band in uniform will also take part in the Maclachlan-Ladell concert on Tuesday, 25th. Secure your tickets.

—The Girls' Guild of All Saints' church, will give an at home in the Sunday school rooms, Monday evening, November 24th, at 8 o'clock.

—Owing to the illness of Master Cyril Morrow, Mrs. Morrow's studio will be closed for a few days. Due notice will be given of the resumption of classes.

—The Charlotte street choir will hold their rehearsal on Friday evening of this week, at eight o'clock. It is important that every member be present.

—The Ladies' Reading Circle of St. Peter's T.A.S., will meet in the lecture hall on Friday evening, November 21st. An essay on "John Boyle O'Reilly," will be read by Miss G. G. Hickey.

—The Faithful Workers' Mission Band of St. Paul's church intend holding a bazaar on Nov. 28th, in the school room. Refreshments will be served during the afternoon and evening. 3d

—Mr. W. H. Gordon has disposed of his grocery and meat business at Cobourg. Mr. N. Dell is the purchaser. Mr. Gordon, who was a partner of Messrs. Gordon and Kernegban, of town, has taken over the business of the firm at the corner of George and Brock streets.

—Miss Helen Hawthorne's gowns in her character of Marguerite in Alan Tabor's big production of Faust are the admiration of the ladies at every performance. The costume of the third act is a marvellous creation of what is possible in simple draping. It appears here on Nov. 22nd.

BEST OF NOVEMBER BRIDES.

Cupid Turns Over Three Happy Couples to Hymen.

Participants of Yesterday's Wedding in Peterborough and Vicinity.

WHATLEY—KINDRED.

Last evening at eight o'clock, another pretty home wedding was celebrated at the residence of Mr. W. A. Kindred, 65 Hunter street, when his sixth daughter, Miss Lillian M., was joined in marriage to Mr. Frederick Whatley, of the Metropolitan Insurance Company here, by Rev. C. L. Thompson, pastor of the Mark street Methodist church, Ashburnham.

The bride, dressed in a gown of white organdie, trimmed with lace applique, and chiffon, and assisted by her sister, Miss Maud, who wore a dress of white organdie, over yellow, trimmed with lace and chiffon, was escorted to the drawing room by her father, to the accompaniment of Mendelssohn's wedding march, played by Miss F. Thompson. Mr. R. Whatley, a brother o fthe groom, performed the duties of best man.

After the wedding breakfast, partaken of in the dining room, which was profusely decorated with flowers and ferns, Mr. and Mrs. Whatley left for 348 Stewart street, where they will reside in the future.

Mr. and Mrs. Whatley were both members of the Mark street church choir, and received a goodly number of wedding presents as testimonials of the esteem in which they were both held.

PANTER—CHAMBO.

A pretty home wedding was quietly celebrated last evening at No. 95 Rubidge street, at 8 o'clock, the contracting parties being Miss Minnie M., daughter of Mr. Charles Chambo, and Mr. George H. Panter.

The bride, who was given away by her brother-in-law, Mr. A. Hamilton, was dressed in a gown of ladies' cloth trimmed with white silk, and was assisted by her sister, Miss Olive Chambo, while Mr. Lewis Deyman, of Lindsay, performed like duties for the groom.

After the marriage ceremony, which was performed by Rev. E. A. Langfeldt, of St. Luke's church, Ashburnham, the company, to the number of thirty, partook of the wedding dejeuner. In future Mr. and Mrs. Panter will reside at 291 Townsend street.

McMILLAN—KEMPT.

Last evening the home of Mr. and Mrs. J. C. Kemp, of the Township of Otonabee, was the scene of a very pretty wedding, the contracting parties being their daughter, Miss Fanny, and Mr. Wilbert McMillan.

During the ceremony, which was performed by the Rev. J. P. Wilson, pastor of the George street Methodist church, Peterborough, the bride attired in a gown of white silk trimmed with chiffon and pearl passementerie, was assisted by Miss Edna Pratt, who also wore a white silk dress trimmed with chiffon and pearl passementerie, while Mr. Herbert McMillan performed like duties for the groom. Miss Etta Kemp and Master Will Pratt acted as flower girl and page respectively, with little Miss Nonna Pratt as ringbearer.

After the wedding ceremony guests to the number of one hundred partook of the wedding dejeuner. The groom's present to the bride was a cheque for a handsome amount, while on the bridesmaid he bestowed a gold brooch set with pearls. It is expected that Mr. and Mrs. McMillan will be at home to their friends on or about December the third.

St. Luke's Tea
te-night
in Forester's Hall,
Simcoe Street.

TELFORD-HAWES PARTY.

Back From the Northern Hunting Grounds—Very Successful Hunt.

The Stony Creek hunting party arrived home last Saturday. Although a little late in submitting their report, they have no reason to be ashamed of the record they made. They had excellent sport, and good luck, to boot. This party consisted of R. Latchford, A. Haynes, W. J. Haws, L. Haws, B. Parker, J. Tully, A. Bell, H. Haynes.

The party claims to have brought back the largest bag of the season—fifteen deer—almost the limit for a party of eight. Some of the deer were of unusual size. Like all the hunters this season, the party report very high water, which gave the deer a better chance for their lives, and made good captures a matter of greater merit.

Partridge were very numerous, indeed some of the oldest hunters say that they were never known to be so abundant before. In all respects this year's outing of the club was the most successful in its history, and it is safe to say that every member of the club will try to have his hunting boots on next year.

Household furniture for sale privately at 547 Water street. Suite of rooms to let. 3d

ENNISMORE.

Mr. Philip Crough's Auction Sale Postponed

On account of the wet weather on Tuesday last Mr. Philip Crough's sale has been postponed until Thursday, November 27th, commencing at 12.30 o'clock, at his residence, lot 4, concession 6, Ennismore, west of the Cross. Ten horses, thirty-five head of cattle, implements and machinery.

PETERBOROUGH'S MODERN STORE.

Hosiery, Gloves and Underwear.

This store has made a name for itself as the store to get the best grade of goods in every department. If there is any one department that can claim still more prominence as the leader of leading departments—our HOSIERY, GLOVE and UNDERWEAR Section is that department. Quality first is everything when we place our orders for our goods. THE PRICE is a secondary consideration. It pays to buy the best. They are the cheapest in the end.

HOSIERY . . .

Our Hosiery Section comprises Ladies', Misses and Children's Cashmere Stockings in some extra good wearing qualities, both ribbed and plain, as well as the best known makes of Boys' and Girls' Heavy Ribbed Wool Stockings for every day wear. We claim to have the best at these prices: The best Ladies' Ribbed Cashmere at **35c, 40c, 50c, 60c, 75c.** The best Ladies' Plain Cashmere—**35c, 50c, 75c.** Children's sizes at corresponding prices. The smaller the size the smaller the price. The best Big Boys' Stockings at **25c, 40c** and **50c**—smaller boys at smaller prices.

GLOVES . . .

Ladies' and Misses' Kid Gloves, Cashmere Gloves and Ringwood Gloves in the best and newest styles at right prices. We take pleasure in recommending **PERRIN'S KID GLOVES FOR LADIES** as the best we can find. They are the best kid, the best style, the best fit and the best wearing goods. You can get a real French Kid in all shades and black at a dollar a pair. We think equal to any other dollar and a quarter glove. Then you have makers' guarantee, as well as ours, that they will give satisfaction.

LADIES' KNITTED UNDERWEAR

THE STORE THAT NEVER DISAPPOINTS

LARGER AND BETTER

We're building bigger and bigger day by day. We've got more goods to sell—more customers to serve—more departments to manage. The addition of our Second Store marks a

Decided Step Forward

And other vast improvements are in contemplation. This has been made possible by the substantial patronage afforded us during our four years of business in in Peterborough. We covet for our customers the best shopping place in the County.

SOME OF OUR DEPARTMENTS

Dress Goods

We have what we believe is the best situated and best lighted Dress Goods Department in town. Specially fitted up and lighted with Inxfer prisms, making the surrounding conditions perfect. Then its stocked most completely. Everything up-to-date and reasonably priced.

Ready-to-Wear Dept

This Department has been a most pronounced success. It's run on strictly business principles. Everything new as it appears comes to us. Our buying connection in this line is, we believe, the most perfect of any like department in town.

Men's and Boys' Clothing

Our new Store for Men is proving what we believed it would—a success from the first. "Climax" Brand Clothing has come to stay—has come to win. It's the perfection of Clothing in Ready-to-put on Garments. Try it.

A HINT TO THE PUBLIC.

To the Editor of the Examiner.—

Dear Sir,—In the newspaper last week we saw that there was a meeting to be held in connection with the temperance work. Well it was held, and a few mothers met there to show what side they were on. But I think in all the 50 years of my life in Peterborough I never witnessed so quiet a contest before. And this is the most important of all. Do we realize what it means? If there is an election for the Upper House or the Lower House or for Mayor or Councillors, you will see the men and women rushing hither and thither to carry their influence. But where are they to-day? To my mind a good loyal subject, ought to do all he or she can in this matter. This temperance call is the greatest need in the world to-day. Look at our young men, yes and, sorry to say, women too, that have allowed themselves to be led away with drink. Some beautiful young men I could bring before your notice, inside of my time, and where are they to-day? They are gone. But when we stand before God will they point their finger of reproach at us and say, "You did not do your duty or I might have been saved from hell." Now it behoves every man and hell." Now it behooves every man and man. If we don't, God will hold us accountable for this opportunity. This is only a drop in the bucket to what it ought to be. But I hope it will touch someone's conscience and arouse them to their duty. We have no hatred towards the man that makes drink, but we do hate the drink. There are lots of other ways to make a living for such a man. God says "Seek ye first the Kingdom of Heaven, and all other things will be added unto you." I hope this may do some good.

There will be another meeting on Friday afternoon, 21st inst., at 3.30 o'clock. All women are invited.

A MOTHER.

Peterborough, Nov. 19th, 1902.

Very refreshing and healthy—Allen's Sweet Cider—At Henry & Co's.

AT THE POLICE COURT.

A Very Busy Session This Morning—The Tobacco Question.

Minors Obtain the Prohibited Article—His Worship Speaks Strongly on the Subject.

This morning there was a busy session at the police court. The man remanded from yesterday for drunkenness, pleaded guilty this morning, and was fined $2 and costs, in all $6.50, to be paid at once, and in default he was imprisoned for ten days.

Next came a case in which a local grocer was fined ten dollars and costs for selling tobacco to minors. It seems that a young lad of tender years was persuaded by older and more depraved boys, to get tobacco for them in his father's name. To ensure success the lad was enjoined to wait till the merchant was seen to leave the store. Then the youngster asked for the tobacco, and the clerk, knowing that it was often sent to the house on the boy's order, and thinking the need urgent, delivered the forbidden article to the boy.

After hearing the evidence the Magistrate said that he was afraid that the grocer came within the limits of the act, but knowing that the tobacco was not sold with the intention of breaking the law, he imposed the lightest fine permissible. In dealing with the other boys His Worship reprimanded them severely and told them that they were rapidly nearing the path that leads to ruin.

Miss Perry charged with larceny, was remanded until to-morrow morning.

BAND CONCERT,
Opera House, Nov. 21.
SPECIAL:

MISS E. T. IRONS, Toronto, Elocutionist; MR. BERT. HARVEY, Toronto, Comic Vocalist, and an entirely new programme by the Band. Tickets 25c and 15c. 3d

GOES TO MILLBROOK.

Mr. H. Grubbe to Join the Staff of the Bank of Toronto There.

Many Peterborough people will be glad to know that Mr. A. St. A. Smith, manager of the branch of the Bank of Toronto opening in Millbrook, will have as his accountant and teller Mr. Harry Grubbe. Mr. Grubbe is the son of Mr. R. W. Grubbe, of Peterborough, and was formerly a member of the staff of the Bank of Toronto here, but of late years has been in the head office in Toronto. Mr. Grubbe besides receiving this promotion will be near his old home and is therefore to be doubly congratulated.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

HOCKEY CLUB ELECTED OFFICERS.

Mr. H. R. H. Kenner for 3rd Term Elected President.

AN ENTHUSIASTIC MEETING.

Mr. A. W. McPherson Re-elected Secretary-Treasurer and Received a Beautiful Gold Watch—Satisfactory Reports Were Received.

The annual meeting of the Peterborough Hockey Club was held in the Town Council Chamber last night, when the reports of the President, Secretary-Treasurer and Auditors were received and officers were elected for the ensuing year. The reports were most satisfactory and showed that the Club had just closed the most successful year in its history. A most capable list of officers was elected and the prospects of the Club for the coming season are of a very promising nature.

The chair was occupied by Mr. H. R. H. Kenner and there were also present, Messrs. A. W. McPherson, J. E. Revell, Jas. McCabe, P. O. Dumble, H. M. Morden, F. McGill, Dr. Bradd, W. A. Sanderson, R. Brown, R. H. Kells, H. Rush, K. Watson, F. A. Clark, J. W. Metheral, Chris. Graham, Roy Armstrong, A. A. Hullingshead, R. M. Glover, Will O'Brien, Innes Hamilton, R. F. McWilliams, Reg. Thompson, Gordon Lee, F. D. Kerr, H. Morgan, V. Hamilton, E. Dillon, T. Glover, H. Edmison, Dr. Wightman, Joe Gibson, H. Armstrong, Fred Whitcroft, T. Bell, Joe Bell, George Stevens, Hal. Burnham, J. Comstock, J. Hamilton, Dickson Hall, W. Cavanah.

Mr. Kenner in opening the meeting explained that they would be called upon to elect officers for the ensuing year. He then read the following address:

To the Officers and Members of the Peterborough Hockey Club:

Gentlemen,—With considerable pleasure this evening I present to you my annual address. We are bringing to a close the most successful season in the history of our club. We have taken a step upwards and now pose as Intermediate Champions of the O.H.A. When we consider the fact that the O.H.A. is generally admitted to be the best conducted amateur sporting organization in the country and that the intermediate series was so keenly contested, we feel justly proud of our success. Though handicapped by a small rink we put up a gamey fight and from Kingston in the east to Galt in the west; from Newmarket in the north to Port Hope in the south, we showed our mettle. All honour to our Intermediate Champions, who actuated by the true spirit of sport, brought honour to themselves, to the Club they represent and to the town to which they belong.

During the past year we had an uphill fight. Some disgruntled soreheads tried their best to disrupt the Club, but I am pleased to say that owing to a faithful few and the bulldog tenacity and loyalty of our players their schemes were frustrated, and some of the loudest shouters on the night the players came from Galt were those who had had the knife in up to the hilt in the dark days after our defeat at Lindsay.

I would fail in my duty were I not to bear testimony to the very valuable work done by our secretary. He was a tower of strength and gave the greatest satisfaction to the players, his fellow officers and to the general public. While I am no tin favour of having a paid secretary I think we should recognize in a tangible way, so far as our finances will warrant, such valuable services and I have taken it upon myself, after consulting some of the Club officials to secure for him a token of our appreciation. Invaluable aid was also rendered by our manager, J. McCabe, who looked after the team when it was out of town. Ed. Dillon was also a faithful and willing worker and had his men in the pink of condition. The legal adviser of the Club—without fee—also helped us very much, especially in the junior series. Our Honourary President, Dr. Bradd and our assistant Secretary-Treasurer are also worthy of mention.

During the last season we were handsomely treated by our friends. The Hon. J. R. Stratton, who has always taken a practical interest in sport, tendered the Club and its friends a banquet. Mr. J. Alex. Culverwell, who is a good supporter of clean sport, presented the Club with some stock in the new rink, and also gave us a spread. The genial proprietor of the Oriental Hotel also joined in extending to us his best hospitality. On behalf of the Club I would like to tender to these gentlemen our warmest thanks for the interest they have taken in our success and for the very practical way in which they have shown it.

During the last year death has invaded our ranks and we have been called upon to mourn the loss of a good friend of our club, an ex-president, the late Robert J. Fife. One of our active players also met a sad death at Detroit, I refer to Ed. Miller, our erstwhile goal keeper.

I would like to bear testimony to the very generous treatment accorded us by the manager of the old rink, Mr. W. Ferguson. Since 1894 our dealings have been very harmonious and eminently satisfactory in every way.

H. R. H. KENNER,
President.

The report was, on motion, adopted.

During the reading of the report Mr. Jas. McCabe presented Mr. McPherson with a beautiful gold watch with a suitable inscription thereon.

The presentation was made amid the wildest enthusiasm, and Mr. McPherson made an appropriate reply in which he thanked the boys for their kind remembrance of him.

SECRETARY'S REPORT.

Gentlemen.—Already another year has slipped, and soon another hockey season will be here, with its ups and downs, its trials and its troubles, its expectations and its disappointments. The year just past is one that we can look back and point to with a great deal of pride and satisfaction—proud of our team and satisfied that our work has not been in vain. In every way, it has eclipsed all preceeding records. Never has the club been in a more satisfactory condition. A modest cash balance is one of the least important evidences of this. But what is the most gratifying is the wonderful revival in interest in the game in the town, and, to crown all, the championship has been added to Peterborough's long honour roll. Nor has this a mere nominal val-

(Continued on page 8.)

TO-MORROW NIGHT'S CONCERT

Band of the 57th Regiment in the Opera House.

An Opportunity for the Public Patronage.

Attention is particularly called to the concert to be given by the band of the 57th Regiment, in the Opera House, to-morrow night. An excellent programme is promised, and while there is no reason to doubt the merits of the visiting contributors to it, we can be well assured that the new programme to be presented by the band on the occasion will be a rich musical treat. It should be a pleasure, as it is the duty, of citizens, to liberally patronize this concert. A pleasure; for the entertainment will be well worth the nominal price of admission, 25 cents; a duty; because the band deserves the recognition, which a crowded house will represent. We should all remember that the park season is just over, and that we have been delighted by the splendid weekly band concerts, which we have enjoyed on Gospel terms, free of cost. We should remember that the regular attendance of the members of the band, and the practice necessary to present such excellent music as we have heard at the park concerts, involved no little personal sacrifice, and the fruits of such sacrifice have been our intense enjoyment of beautiful music, amid beautiful surroundings, and under most pleasant conditions. Therefore, at the first indoor concert — the first opportunity — we should heartily recognize the debt we owe the band, and by our presence and trifling contribution, repay, though to a very limited extent, the debt we owe. Apart from the obligations of gratitude, we should encourage and support the band, which has done so much to bring credit to the town. Wherever the band has played outside the town, they have won golden opinions by doing artistic work, which places them on a parity with any other band in the country, and infinitely superior to the average band. We have reason to be proud of the 57th Band—well organized and with the true musical spirit which permits them to respond effectively to the excellent training and direction they receive at the hands of Mr. Gliddon. Because we have heard the band so often is no reason why we should omit the concert in the opera house to-morrow night. The conventionalities of society demand that we should return a call, or answer an invitation. The obligations of gratitude are far more exacting. We all owe the band a call, and all the more reason we should make it, when, in addition to the reward of an entertaining programme, we shall have the higher reward of having discharged a personal and public duty.

The choicest cider made is Allen's of Norwich—On draught at Henry & Co's.

A NEW IRISH PARTY.

Timothy Healy Has a Following of Nine Whose Announced Policy Is Moderation and Common Sense.

London, Nov. 19.—The revolt of the Irish member, Mr. Jasper Tully, from the Parliamentary leadership of Mr. William O'Brien has led to the formation of a new Irish party under the leadership of Timothy Healy, whose policy is announced as that of common sense and moderation. Only nine members so far have joined the new section, but 18 others are reported to be ready to adhere to it.

STABBED TO DEATH.

Woman Deliberately Kills an Alleged Rival in Rochester.

Rochester, N.Y., Nov. 19.— One of the most sensational murders in the history of Rochester was committed yesterday morning at 548 Court street. The victim was Miss Florence McFarlin, a music teacher. Mrs. Lulu Young, wife of Frank Young, formerly a tobacconist, and once city purchasing agent, was arrested at the home of her father, 881 Exchange street, about an hour after the murder was committed. She is supposed to be the woman who committed the crime rang the door-bell, and when Miss McFarlin answered it, attacked her with a knife. Miss McFarlin ran screaming through the hall into the kitchen closet, pursued by her assailant. In the kitchen she stumbled, half turning, and in a flash her pursuer was upon her, and with a rapid slash had stabbed her to the heart. Another woman was in the kitchen but was too frightened to do anything.

The total number of stab wounds inflicted is five. The dead woman was about 21 years of age. She was the daughter of a railroad man, and a woman of refinement and education. The only words the woman who did the killing was heard to utter were:

"She has come between myself and my husband, and I'm glad she is dead." Mrs. Young has made no confession.

FOUR YEARS IN KINGSTON.

Sentence Imposed Upon the Aged Counterfeiter, William Stuart.

Toronto, Nov. 19.—William Stuart, the aged counterfeiter, was yesterday morning sentenced to four years in Kingston Penitentiary by Magistrate Denison. Stuart expected 10 years, and was greatly relieved at the comparative lightness of his sentence.

HE'S STILL CURED.

Ademard Coderre Used Dodd's Dyspepsia Tablets Three Years ago and has had no Indigestion Since.

These days of hurry and excitement bound to make themselves felt in the overworked human body, and on no part of it do they tell more quickly than on the stomach.

An extra strain of work, and especially brain work always must affect the appetite, and what affects the appetite must affect the stomach. And if the stomach is not cared for, rested and recuperated, Dyspepsia must result. Dodd's Dyspepsia Tablets rest the stomach and keep it in a fit condition to do its work, easily and well. They also cure dyspepsia in its worst form. Thousands who have been cured by Dodd's Dyspepsia Tablets will tell you so. Ademard Coderre, of St. Jacques de L'Achigan, is one of these. Listen to his story:

"I suffered from Dyspepsia caused by inflammation of the stomach," says Mr. Coderre. "I tried medicines without getting relief, and was almost discouraged. One day I read of the cures performed by Dodd's Dyspepsia Tablets, and I bought two boxes of them. I found relief almost at once, and was finally completely cured.

"It is three years since I was cured of Dyspepsia by taking Dodd's Dyspepsia Tablets and I am still cured."

To Teach Japs How to Bake.

Ottawa, Nov. 19.—W. Hutchison, ex-M.P., Dominion Exhibition Commissioner, has engaged W. Jamison of Ottawa to go to Osaka Exhibition in Japan next year to bake bread with a view to demonstrating the superiority of Canadian wheat flour. Wheat bread is not a staple article of diet, but as the Japanese are a wide-awake people, it probably will gain an early entrance into the educational campaign should British trade result later on. At present, however, wheat bread is used in the Japanese navy, and there is great dissatisfaction owing to the bread becoming stale inside of 12 hours.

Found Dead After Three Days.

Shelburne, Nov. 19. — Edward Small, widower, who has been living alone in his residence on Andrew street, was found dead in bed yesterday afternoon, death resulting from asphyxiation by gas from a coal stove. Deceased was last seen alive on Saturday night at 10 o'clock. Coroner Norton was notified, but did not consider an inquest necessary. Deceased was a retired farmer and is supposed to be worth about $25,000.

3 Killed and 5 Wounded.

Manila, Nov. 19.—A body of Ladrones recently attacked and defeated a detachment of sixteen Constabulary at Dolores, Island of Leyte. The latter made a desperate resistance and fought until their ammunition was expended. The Constabulary lost three men killed and had eight wounded.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honourable in all business transactions and financially able to carry out any obligations made by their firm. West & Truax, Wholesale Druggists, Toledo, O. Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood, and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

AT FIRST GLANCE

It Would Appear That Local Remedies Would be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease, and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate thousands of people seem scarcely ever free from some form of catarrh; it gets better at times, but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best, and certainly the safest, is a new remedy, composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste, and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these Tablets with absolute assurance that they contain no cocaine, opiate, nor any poisonous mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full-sized packages for fifty cents.

Dear Dust.

"You want $50 for that old suit?" asked the second-hand dealer. "Why it is full of dust." "Yes; but it is coal dust," responded the thrifty housewife.

Nine Figure in Protest.

Allegations That Liberals Bargain for Offered Big Prices For Them.

Toronto, Nov. 19.—According to affidavits filed by Dr. Allan M. Ruttan and Henry Milling of Napanee, pigs and dollars were inducements held out by the supporters of Mr. Madole, the Liberal candidate for Lennox. The Liberal bribers are alleged to be E. P. Smith, Byron Derbyshire, Homer Miles and J. S. Hulett.

Judges Moss and Maclennan at Osgoode Hall Tuesday refused the application for summonses against the four charged with bribery.

In his affidavit Dr. Ruttan says Derbyshire offered $3 to Samuel McConnell and $2.50 to Eli Emmons to vote for Madole; that he promised to cancel an account owing by Calvin Emmons; that he offered Henry Evans, Samuel Babcock and Robert Cairns $5 to vote Liberal, and in addition hired a rig from W. A. Baker to drive voters to the polls.

Mr. Milling's affidavit is that Hulett offered a pig to Thomas Smith and to Samuel, and Benjamin Davey offered $21 ostensibly for seven swine conditional upon their voting for Madole. To Benjamin and William Davey, Samuel Smith and William Patterson, Hulett is charged with offering in all six pigs.

Various other charges are made of money being offered to influence voters.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

Wheat Receipts For Two Months.

Winnipeg, Man., Nov. 20. — The amount of wheat received at Fort William and Port Arthur from the first of September to the 15th of November is as follows:

Fort William, 10,918,197.50 bushels; King's Elevator, 357,596.30; C. P. Elevator, 3,158,528.30; total, 14,426,322.30.

The amount shipped from these posts during the same period is: Fort William, 9,922,974.30; King's Elevator, 307,757.50; C. P. Elevator, 2,837,874.20; total, 13,068,596.80.

For the same period of last year, 1901, the amount received at Fort William, the only port then receiving wheat, was 6,483,833.40. It will be seen from this that the increase for the year at Fort William is about 2,500,000 bushels.

Cars For Newfoundland.

Ogdensburg, N.Y., Nov. 20.—Seventy-three all-iron flat cars have arrived here for transfer through Canada to Newfoundland. They were made at Berwick, Penn., the iron for their manufacture being imported from Newfoundland in pigs, paying a duty of $4 a ton. Now that this iron has been made into cars, the manufacturers are entitled to an export drawback of $3.96 a ton. The cars weigh thirty thousand pounds each. They are consigned to the Northumberland Railroad Company, Newfoundland.

To Prohibit English Cattle.

Washington, Nov. 20.—An expert of the Bureau of Animal Industry, reports that tuberculosis is prevalent in high-grade English cattle which are brought here for breeding purposes. He advises the prohibition of certain varieties.

Nerve Disorders of Women

Accompanied by Neuralgia, Irritability, Sleeplessness and Depressed Spirits,

Dr. Chase's Nerve Food.

The feminine organism requires an enormous quantity of blood, not only to sustain the network of nerves which are found in the womanly system, but also to make good the periodical loss which so weakens the body.

Consequently it happens that just as soon as the blood gets weak and watery, or is deficient in quantity, the nervous system suffers, and in women the effects are most severely felt in the form of irregularities and weaknesses of the feminine system.

At the beginning of womanhood, at childbirth, during the nursing periods, and at the change of life, calls are made for an extra supply of blood and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system.

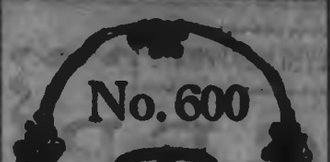
Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system, and restore vigour and strength to the body.

Mrs. R. J. Huffman, 263 Reid street, Peterborough, Ont., and whose husband is employed at the Canadian General Electric Company, states:

"For over a year I suffered from nervous headaches and feelings of weakness and dizziness would come over me. My nervous system seemed weak and exhausted, and hearing of the success of Dr. Chase's Nerve Food I began using it. I am now pleased to state that the headaches do no bother me any more and my system is entirely built up and restored."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

No. 600



We Illustrate here our No. 600 "SOLITAIRE" DIAMOND RING, which sells for $100.

ARISTOCRATIC TWINS.

Where a Few Minutes Often Makes a Very Great Difference.

Being born a twin is sometimes one of the gravest misfortunes that can overtake one. In countries where birth counts for everything the time of entrance into the world frequently plays an important part in shaping the destinies of men. When twin sons are born the gifts of peerage natdrally descend upon the first to make its entrance into the world, while the other perhaps misses the right to claim title to an earldom or some other gift of family position by the narrow margin of only a few minutes.

There are some striking example of the strange situations brought about by the birth of twins among the titled families of Great Britain. The most important of these is to be found in the case of the Earl of Durham, the most notable twin of the peerage. He happened to be born a few minutes in advance of his twin brother, Frederick William Lambton, and consequently became the first representative of a family whose pedigree is easily traced back to the twelfth century through official records, and whose residence is well proved by attestations of charters and incidental evidence from a period nearly approaching the Norman conquest. The twins were born on June 19, 1855. The elder by a few minutes succeeded to the family title and an estate of 30,000 acres, while the younger has been compelled to contest himself with a seat in Parliament for the southeast division of Durham.

So it was with Lord Malmesbury and his twin brother, Alexander Charles Harris. They were born on Dec. 18, 1872, and here again the freakish pranks of rank asserted themselves. The first born was the eldest son of the fifth Earl of Malmesbury, and in 1890 succeeded to the title and rank of his father, while the other became known merely as the "twin brother of Lord Malmesbury," who, not being married, holds the title and what it involves in trust for his twin brother. Lord Malmesbury owns about 7,000 acres of land, which reverted to him from his father's estate.

The Dalhousie twins, although not so directly victims of birth, furnish another example of this sort. The elder, Ronald Ramsay, is the younger brother of Lord Dalhousie, the 13th earl of the family, and in the event that the latter and his next successor, Patrick W. M. Ramsay, the heir apparent, dies without an heir, he will acquire the title and the family estate which embraces among other holdings about 138,000 acres of land. For the other Dalhousie twin, Charles Fox Maule Ramsay, there is no such promise. He seems hopelessly removed from a title. The twins were born on March 5, 1885.

One of the most dangerous and repulsive forms of Kidney Disease is

DROPSY

for which Dodd's Kidney Pills are the only certain cure. In Dropsy the Kidneys are actually *dammed up*, and the water, which should be expelled in the form of urine, flows back and lodges in the cells of the flesh and puffs out the skin. Remove the filth which plugs up the drain. Restore the Kidneys to health. There is only one Kidney Medicine

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

True Culture.

There are few ways in which people display vulgarity more certainly than in their talk about culture. If culture be anything worth having, it is a more than ordinary clearness of judgment and a more than ordinary correctness of taste, arising either from instinct or as the result of careful study. But knowledge is not culture, nor is education, nor is learning: for a person may have all these, and yet not be cured in the only valuable sense of the word. He may possess no clear judgment and no true taste. He may not be able to distinguish a solid argument from a showy sophistry, nor know a good picture from a bad one, nor feel, without ever being told, that Jane Austen's style is as much above that of Marie Corelli's as Ursa Major is further away than the moon. Culture is the strengthening and purifying of faculty as the effect of knowledge and education upon minds that are susceptible of this kind of response. It follows, therefore, that culture is the opening of the inner eye for seeing the truth about things, the truth—namely, as to what is the real worth in argument, real excellence in art, and real propriety in behavior. It is in consequence the direct opposite of all affectation. Affectation, indeed, is the very essence of Philistinism. The great danger of genuine culture, indeed, what goes near to asphyxiating it altogether is the belief that it is a something put on from the outside, even although the something may be in reality and an acquirement worth having. But if it come from the outside, and be placed on the outside, even as a desirable accomplishment, culture it is not. Culture comes from within, and is the efflorescence of life. It this be correct, the way to get more of it is first of all to get more common sense, to be always trying to take true views of things, and using every means for that purpose, and not by affecting a dislike for what is simply homely and honest. It was Horace Walpole who damned "She Stoops to Conquer" because it dealt only with "vulgar persons." Walpole had abundance of surface refinement; but none of the true discernment of real culture.—London Daily News.

The Old Hibernia.

The British flag has been lowered from the historic battleship Hibernia, and her figurehead—a bust of Erin—has been removed from its time-honored place, to be erected at the entrance of the Malta Docks. When in the last years of the eighteenth century the French spoke of invading England the ladies of Ireland presented the Hibernia to the British Government, as their sisters of England and Scotland had presented the Albion and the Caledonia. The gallant ship sailed to the Mediterranean and took part in several of the engagements of that glorious epoch.

The Woman

Who is discouraged by a condition of ill-health which fails to yield to the treatment of local physicians will be glad to know she can consult Dr. Pierce, by letter, *free*. In a little more than thirty years, Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., assisted by his staff of nearly a score of physicians, has treated and cured hundreds of thousands of weak and sick women. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"After being subjected for some time to an annoying female trouble," says Mrs. Minnie Tillotson, of Potosmac, Vermillion Co., Ill., Box 150, "I wrote to Dr. R. V. Pierce, who at once understood my suffering, and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery,' and also his 'Lotion Tablets' and 'Suppositories.' After using his medicines eight or nine months I was completely cured.

"I am grateful to Dr. Pierce for his advice and the kind and encouraging letters he wrote to me. I would advise any woman suffering with female disease, to consult him. Prompt and respectful attention will be given and good advice received by so doing."

The Common Sense Medical Adviser, 1008 pages in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

A WONDERFUL MEDICINE.

BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fulness and Swelling after meals, Dizziness and Drowsiness, Cold Chills, Flushings of Heat, Loss of Appetite, Shortness of Breath, Costiveness, Blotches on the skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, etc. THE FIRST DOSE WILL GIVE RELIEF IN TWENTY MINUTES. BILL AND LIZ.

The Underlying Reason Why Toronto Welcomed General Booth.

"Git out of my road, you young brat; can't you see nothing?" A slap, a wail, and a little girl ran to her mother crying, while the lord of the house staggered in and demanded his supper.

"Nothin' but bread and tea! That's a nice kind of a supper to give a fellow."

Yes, mother was pretty mad when her Bill slapped Mary. But what could she do? She had one black eye now, and the neighbors in the Ward would wonder if she got two black eyes in one week.

"Well, Bill," she said, meekly.

"Dozcha well me; I don't want to hear a word from ye; first thing and ye'll be askin' me for money."

We will drop the curtain now for two years on this home not so far from Toronto's Armories.

"Hello, ma, here comes daddy."

Mary runs out to meet her father, and mother waits at the door.

"Hello, Bill, home again; what kind of a day?" asks she.

"Oh, fine," says Bill.

Do you see that badge on Bill's coat?

That's a Salvation Army badge, and so, General Booth, Toronto welcomes you for Bill's sake, for Bill's a bit awkward, you know. Toronto welcomes you for Bill's wife's sake, for she stands behind the door afraid to come out and thank you. Toronto welcomes you for the sake of Bill's kiddies, who wear boots now and have stockings without holes in them.

Welcome, General Booth!

We don't judge your excellence by the size of your name on the billboards. Kings are made by men, and it is not hard to keep stocked up, but nature is avaricious of men like you.

Welcome, General Booth!

Because you live, Bill isn't a bum any more; because you live, Bill's Liz sings at her work and looks at the clock with an expectant eye; because you live, little Mary takes the baby carriage and wheels the babe down a block or two, "'cause dad wheels 'em bof back." It isn't much perhaps, for us, but it's an awful lot for Liz.

Welcome, General Booth!

Tramp, tramp, tramp.

The earth echoes with the footfall of many thousands of Bills and Lizes and happy little Marys running to meet dads whose hearts have been thrilled because of you.

You may be austere and despotic, but the great white light of your good and noble deeds shines with a radiance that blots out all petty faults. Those faults proclaim you human, just like Bill and the rest of us.

General Booth, Toronto welcomes you to-night for humanity's sake, for the sake of Bill and Liz and Mary and the other wee kiddies.—Charles F. Raymond, in Toronto Star.

How a Great Surgeon Died.

While Bichat, the famous French surgeon, was dying of typhoid fever, he turned to an old colleague who was sitting beside his bed and said to him:

"My friend, I am lost, but it is some consolation to know that my case is very curious. During the last few days I have noticed some odd symptoms, and I am studying them carefully."

"Oh, you may recover yet," said the friend.

"That is impossible," replied Bichat, "and if it were not for one thing I would be quite willing to die."

"What is that?" asked the friend.

"I am exceedingly sorry," answered Fichat, "that I shall not have an opportunity to perform an autopsy on myself after my death, for I know that I would make some wonderful scientific discovery."

An hour later he was dead.

THE WOODMAN.

By Charles G. D. Roberts.

When the grey lake-water rushes
Past the dripping alder bushes,
And the bodeful autumn wind
In the fir-tree weeps and hushes—

When the air is sharply damp
Round the solitary camp,
And the moose bush in the thicket
Glimmers like a scarlet lamp—

When the birches twinkle yellow
And the cornel bunches mellow,
And the owl across the twilight
Trumpets to his downy fellow—

When the nut-fed chipmunks romp
Through the maples crimson pomp
And the slim viburnum bushes
In the darkness of the swamp—

When the blueberries are dead,
When the rowan clusters red,
And the shy bear, summer-sleekened,
In the bracken mawhes his bed—

On a day there comes once more
To the latched and lonely door,
Down the wood-road, striding silent,
One who has been here before.

Green spruce branches for his head,
Here he makes his simple bed,
Crooching with the sun, and rising
When the dawn is frosty-red.

All day long he wanders wide,
With the grey muse for his guide,
And his lonely ax-stroke startles
The expectant forest side.

Toward the quiet close of day
Back to camp he takes his way,
And about his sober footsteps,
Unafraid, the squirrels play.

On his roof the red leaf falls
At his door the bluejay calls,
And he hears the wood-mice hurry
Up and down his rough log walls;

Hears the laughter of the loon
Thrill the dying afternoon—
Hears the calling of the moose
Echo to the early moon.

And he hears the partridge drumming,
The belated hornet humming—
All the faint, prophetic sounds
That foretell the winter's coming.

And the wind about his eaves
Through the chilly night-wet grieves,
And the earth's dumb patience fills him
Fellow to the falling leaves.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Promising For the Tenors.

Three tenors while strolling in Paris began to talk of their engagements for the coming season.

"Where are you two fellows going?" asked one.

"I'm going to Rio Janeiro," answered one of his companions.

"So am I," answered the other one.

"That's very queer," said the first speaker, "for I'm going there too."

They then compared notes and, finding that the same theatrical manager had engaged each of them, they called on him and asked for an explanation.

"I don't see why any of you should be dissatisfied," he replied. "I've engaged each of you because I don't want to be left without a tenor in Rio Janeiro. It is very probable that before you are acclimated there yellow fever will carry off two of you, and wouldn't I be in a nice fix then if I hadn't a third tenor on hand?"

Quick Change of Tune.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to search and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents

VARICOCELE NERVOUS DEBILITY CURED.

No Names Used Without Written Consent.

If you have transgressed against the laws of nature, you must suffer. Self abuse, later excesses and private diseases have wrecked thousands of promising lives. Treat with scientific physicians and be cured. Avoid quacks. E. A. Sidney, of Toledo, says: "At the age of 14, I learned a bad habit and at 19 contracted a serious disease. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The drains ceased, wormy veins disappeared, nerves grew strong, hair stopped falling out, urine became clear and my sexual organs vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

We Treat and Cure Syphilis, Gleet, Varicocele, Emissions, Stricture, Unnatural Discharges, Seminal Weakness, Kidney and Bladder Diseases.

CONSULTATION FREE. BOOKS FREE. Call or write for Question Blank for Home Treatment. NO CURE, NO PAY.

THE WALL STREET MARKET

Board is Still Steady—Some Advances.

Return of Confidence Shown in Market—Daily Letters—Quotations.

The Wall Street Market still held its steadiness to-day and the movement throughout the board was of a decided upward character. Manhattan still continues to gain, and at it reached 154 1-2. N.Y.C. also made though at one time touching 147 7-8 a goodly gain, amounting to 2 1-2 points. It is hoped that now the period of unsteadiness is passed, and the market will suffer no more severe declines, for a time at least. The following are the principal stocks and quotations:—

	Open.	2.30 p.m

The following despatches have been received by E. M. Poussett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 20.—In the main, opinion of Street seems to regard sharp advance in tractions yesterday from the restricted point of view of a local professional trader's battle, and while vague rumours of deals have been advanced, the one which has not been most strenuously denied, is not the least plausable, that some kind of an arrangement or agreement has been made between the company formed to operate the subway when completed, and the controlling Manhattan interest, is at least under consideration. This agreement points to 7 per cent. basis for Manhattan stock. In any event many consider yesterday's high quotation for the stock a full discount of the probability. The market is fairly strong, and there may be some further improvement to-day, and until the money situation becomes clearer, we look for nothing better than a steady traders' market.

M. & M.

New York, Nov. 20th, 10.00 a.m.—Price current says week was favourable for growing wheat, but unfavourable for drying corn. Interior wheat movement is becoming light, corn waiting for drying conditions. More cattle to feed than usual.

M. & M.

Chicago, Nov. 20th.—Bank of England rate unchanged. Rumors of purchase and transfer of Manhattan by Belmont McDonald interest. B.R.T. insiders say they know of no deal pending. Central freight lines, trunk roads and Southern roads agreed last night to advance rates from 10 per cent. to 20 per cent. Understand R.I. and Atchison interest thrown on Osgood side of C.F.I. 25 roads for 2nd week in November, increase gross 8.62 per c. Fair demand for stocks in loan crowd. Rumored W.S. Rubber will take over Rubber Goods Bankers expect little change in money situation until the return of January disbursements.

DOW, JONES & CO.

New York, Nov. 20th, 12.20 p.m.—Manhattan looks like competitive buying. Don't like the look of it.

M. & M.

Selling of May wheat has been enormous, and comes from various sources. The big commission houses disposed of large quantities. It is estimated that fully ten million of May has been liquidated in the past hour. Offerings not so liberal now.

DENISON.

New York, Nov. 20th.—Cotton—Prices hardening, mids. 448, advance of two points. Sales 7,000; receipts 22,000, all American. Futures opened from 1 to 3 1-2 points up and at 12.30 steady at 1 1 to 2 up from opening. At 2.30 p.m. futures were steady; 4 advance. These cables are better than expected, and reflect strength of southern spot markets, and also the moderate change in sentiment abroad.

M. & M.

THE LATEST NEWS FROM FIELD OF SPORT.

Mr. W. A. Bucanan Favours Paid Secretary for Peterborough Hockey Club—London Rugbyists Here on Saturday.

RUGBY.

MR. CRAWFORD'S IDEA.

"You can safely say we will go to Peterborough," said Gordon Crawford of the London Rugby team, according to the Free Press. London does not appreciate the action of the Union in requiring them to play the final game for the championship at Peterborough, but it will be a satisfaction to admirers of the team to know that they are determined to ignore the disadvantage at which they have been placed. A strong team will be taken to the Eastern town, and if London does not win the footballists of Peterborough will at least see a great game.

Mr. Crawford evidently does not realize the "disadvantage" the Peterborough team was at when they visited London on three different occasions yet London has never visited Peterborough.

O. R. F. U. ANNUAL MEETING.

The annual meeting of the Ontario Rugby Union will be held at the Rossin House, on Saturday, the 13th of December.

President A. W. Ballantyne sent out copies o fthe new Burnside rules Monday to the different clubs, and expressed the opinion that they would be adopted at the annual meeting.

The Canadian Rugby Union annual will be held in a week later.

FOR SATURDAY'S GAME.

The London News says: The London Rugby Football Team has been officially notified that the Torontos will default on Saturday next. Hence the championship of Ontario will be decided at Peterborough that day. The Londons will leave on Friday evening for Peterborough.

An effort is being made by the management to secure Dr. Scott and Ransford for the half-back line. Both are capable men. However, it is not definitely known whether they will play. Dr. Scott played with Peterborough last year and permission was granted by the executive to play Ransford.

Hugh Labatt may also be in the game. Labatt was injured last year but has been out to practice.

Capt. Crawford yesterday afternoon received word from Secretary Frank Woodworth, of the action of the meeting last evening. Secretary Woodworth stated that if no word was received before four o'clock today the Londons were to hold themselves in readiness to go to Peterborough on Saturday.

HOCKEY.

FAVOURS PAID SECRETARY.

The Toronto Telegram is recognised as one of the best authority on sport, there is in Canada. This is particularly so in regard to hockey. The Telegram endorses the Examiner's proposal for a substantial honourarium for the secretary of the local Club. The Telegram says:—

"Peterborough Hockey Club organizes to-night, and one of the propositions that will come before the meeting will be that of paying the secretary-treasurer a salary. Very few people possesses any idea of the labour this office necessitates in a live and successful club like Peterborough. The secretary-treasurer is really the manager, and all the responsibility of financing is placed on his shoulders. A. W. Macpherson, Peterborough's secretary last year, did a great deal of hard work for the town, and yet he was likely out of pocket. Flourishing organizations like Peterborough, Stratford, Woodstock, Port Hope, Toronto Wellingtons, Collingwood and Barrie, could well afford to pay their secretary-treasurer, and not spend so much money on banquets and the like."

MR. BUCHANAN WRITES.

Mr. W. A. Buchanan, treasurer of the O. H. A., who is an old member of the Peterborough club, and Peterborough's representative on the O. H. A. Executive, in a letter to Mr. H. R. H. Kenner, writes:

Toronto, Nov. 18, '02.

I wish you would tell the boys at their meeting to-morrow night, that I am very grateful for the confidence that has been placed in me in the past. Nobody could appreciate the many kindnesses of the Peterborough Hockey Club more than I do. Every member of the club is to me a personal friend, and I can safely say that no organization, controlling sport in any city or town in Canada, possesses a finer lot of fellows than is to be found in the Peterborough Hockey Club. This is not only my personal feeling, but is an opinion often expressed by the members of the O.H.A. Executive.

I have been desirous of leaving the O.H.A. Executive, not because I have lost interest in the sport, or was unwilling to serve the good old town of Peterborough, but because I felt that I ought to devote all my time to the position I now hold on the Telegram. However, as Mr. McPherson has intimated that the club would like to have me represent them again, and as Mr. Robertson is anxious that I should stay in the association at least another year, I will run again for the treasurership, provided it is the unanimous wish of the club. I do not want to stand in the way of any of the boys getting some of the honours to which Peterborough is entitled. I had my share, and probably more.

I have tried to be fair, not only to Peterborough, but to every club in the association. During my two years on the executive I have considered myself a representative of the Midland District, and not Peterborough alone, for I think it would be most unfair for a representative to be so partial to the club with which he is connected ,that he would blind his eyes to the interests of other clubs, just as deserving. My aim has been to stand by clean sport through thick and thin, and to use every effort to wipe out professionalism, and all tactics that would tend to put a game on a low plane. Hockey ought to generate high ideals of character, and manliness, as well as the physical strength of young men. As soon as a sport degenerates into the "Pay and I'll play" practise, then to my mind, the individual takes a big drop in the scale as well.

Convey to the club once again my heartiest congratulations on the splendid record of last season. The championship was fairly won, and could not have gone to a better lot of fellows than the Intermediate team from Peterborough.

I noticed in the Examiner the proposal to pay the secretary-treasurer of the club a salary. Good idea. That office is no light job, in fact it is an onerous task for any man to assume. I knew what it meant when I held it, and it is certainly a good deal heavier now.

Yours, as ever,

W. A. BUCHANAN.

stated that the accounts had been carefully looked into, and found to be correct. He recommended that some method should be adopted so that the actual receipts might be arrived at. He explained that at the present time there was no means of checking the number of tickets sold, or the amount taken in at the gate.

The election of officers resulted as follows:

ELECTION OF OFFICERS.

Patrons and Patronesses — Hon. and Mrs. J. R. Stratton, Mr. and Mrs. A. P. McDonald, Mr. and Mrs. John Crane.

Hon. President—Dr. Bradd.

President—H. R. H Kenner.

1st Vice-President—W. A. Sanderson.

2nd Vice-President—C. F. McGill.

Secretary-Treasurer — A. W. McPherson.

Assistant Secretary—H. Rush.

Chaplain—Rev. W. L. Armitage.

Executive — J. McCabe, F. A. Clarke, A. A. Hollingshead, H. B. Burnham, and E. Dillon.

Auditors — Messrs. R. F. McWilliams and R. P. Watt.

Hon. Members — Messrs. W. J. Montgomery, W. A. Buchanan, Lionel King and F. D. Karr.

Representatives to annual meeting of the O.H.A.—Messrs. H. R. H. Kenner and A. W. McPherson.

The meeting decided, amid much applause, to nominate Mr. J. Ross Robertson, as president of the O.H.A.

Votes of thanks were tendered to the retiring officers of the club, to Mr. W. A. Buchanan for his services to the club, to the press for their support, and to the Mayor, for the use of the Council Chambers.

The selection of a team committee was left with the executive to deal with, and the meeting then adjourned.

Pleasant Minutes.

HOCKEY CLUB ANNUAL MEETING.

(Continued from 5th Page.)

ue. It is no committee-room gift— it represents a championship fairly won after a fight to the death.

It was with considerable misgivings with an equal amount of determination that your executive commenced the season of 1902. Everything did not have an extremely rosy appearance. Funds were a trifle scarce, and championship players scarcer. Only three of the 1901 championship players answered the roll call. This necessitated the organizing and entering of two entirely new teams, one without any league experience. However, thanks to the individual and united efforts of players and management, all difficulties were surmounted.

Never has Peterborough placed on the ice a septette that equalled last year's. Their conduct, both off and on the ice, was such as to excite the admiration even of their bitterest opponents. Galt and Port Hope admitted it. J. Ross Robertson made particular mention of it in a letter to the club. The town recognized it in the magnificent reception tendered the champions on their trimphal return.

The main incidents are doubtless fresh in the minds of all—how we lost to Lindsay in a close game, perhaps the most fortunate incident in the early stages of the season. Then came the two exciting games against Port Hope, both close scores—5—3 in Peterborough and 5—3 in Cobourg practically won the round. The Cadets then fell an easy prey to the tune of 13—7 and 4—3. Next in turn came Newmarket, a husky team but a little behind their opponents in knowledge of puck chasing. Two hard games were played, the scores being 10—4 and 5—3, indicating the keenness of the contest.

In all these games our boys were being unconsciously trained for the finals. No over-confidence after Lindsay, close-checking was a snap after Port Hope, rough treatment was fun after Kingston, and after Newmarket they were ready for anything. It was not to be wondered at that we won at Galt.

The incidents connected with the final game are too familiar to require being dealt with at length. The record-breaking crowd to see the closest game of the season, the confidence of the westerners, the return game at Galt, and the still closer game there are still fresh in your minds.

In a short report it would be impossible to do justice to the very flattering receptions received by the champion team. No less than five were tendered them, the first by the town and Mr. Geo. Graham on the evening of their return from Galt, one by the Hon. J. R. Stratton, Provincial Secretary, then the Club's annual at which the Souvenirs from the Club and the O.H.A. were presented, and last of all was the banquet given by Mr. J. Alex. Culverwell, who, although not a member of the club, and practically unknown to the members of the team, wished to shew his appreciation of the manly and sportsmanlike way in which the boys had represented this town. Here it is but fair to mention the generosity of Mr. Lech Mr. Bradley, Mr. Barrie, and Mr. Fred Clark, as well as our Chaplain, Rev. Mr. Armitage.

Just a word as to the junior series. Unlike their elder brothers, their success lay wholly in the opening game. The failure in the later games was due to lack of experience. All the best of the junior players were drained away to fill up the senior ranks. However, they never stopped practising throughout, and this year the experience in the league games and the excellent practices with the seniors should ensure a first-class team for 1903. The material is there—all that is required is the training. The list of those to whom we are indebted is so large that it would be impossible to even mention, but before closing I wish to put on record the very valuable services rendered the club by Mr. Jas. McCabe and Mr. "King" Dillon, who, at great loss of time to themselves, looked after the training of the boys at home and accompanied them whenever they left town. To Mr. Breen is also due the gratitude of the club for the kindly efficient manner in which he handled the players during the hard season of training. Mr. Buchanan, our representative, as well as the O.H.A., deserve our thanks for their untiring efforts in our behalf. To the press and the people of the town we are deeply indebted for the unstinted support received throughout the season.

In conclusion, I wish to convey my thanks to the members of the club for the honour in electing me a second time to fill the responsible position of Secretary-Treasurer, and to the assistant Secretary, Mr. H. Rush, for his able and willing assistance at all times. Also to the members for their continued support, and to the players for the manner in which they have received all arrangements made for them. I hope that the same cordial relations may continue among the members, and that the team may have the same success in the future as it has experienced in the past.

A. W. McPHERSON,
Sec.-Treas.

TREASURER'S REPORT.

The Treasurer's report showed that $2,117.65 had passed through the treasurer's hands and that there was a balance on hand of $45.30.

The report was, on motion, adopted.

AUDITOR'S REPORT.

The auditors' report was then submitted by Mr. R. F. McWilliams. He

QUEEN'S PRINCIPAL.

Rev. Dr. D. M. Gordon Has Accepted the Vacant Position.

A DISTINGUISHED PRESBYTERIAN

Pastor, Moderator and College Professor, He Has Held Charges in Ottawa, Winnipeg and Halifax—Through the Northwest Rebellion—Traveled the West Before the Days of the Railway.

Toronto, Nov. 21.—Queen's University has at length found a successor to the Principalship in the person of Rev. Dr. Daniel Miner Gordon of Halifax. Mr. Justice Maclennan last night announced that the position had been offered to and accepted by Dr. Gordon, and that the Board of Trustees of the university would meet on December 5 to formally confirm the appointment. The Principalship of Queen's became vacant early in April by the death of Rev. Dr. Grant. Dr. Gordon's salary will be $4,000 a year and a residence.

The new Principal of Queen's is an able and many-sided man of culture and wide experience, in the prime of his life and power. Dr. Gordon is a Nova Scotian, son of a Pictou merchant. He was born January 30, 1845, and was educated at the academy of his native town and the Universities of Glasgow and Berlin. From the former seat of learning he graduated an M.A. in 1863, and B. D. in 1866. Returning to Canada, he had oversight for a year of an extensive charge, including St. Paul's Church, Truro, and several mission stations. In 1867 he was inducted minister of St. Andrew's Church, Ottawa, where he remained fifteen years. He was called to Knox Church, Winnipeg, in 1882, to succeed the late Rev. Dr. Robertson, who had been appointed Superintendent of Missions. After five crowded years of labor, his health failed, and he returned to Nova Scotia. Upon his recovery he accepted the charge of St. Andrew's Church, Halifax, and remained there till 1894, when he was appointed to the chair of systematic theology and apologetics in the Presbyterian College, Halifax, where he has continued until now.

While in Winnipeg, Dr. Gordon was chaplain of the 90th Regiment, and took the field with that corps during the northwest rebellion, and wears the medal. Dr. Gordon took an active part in promoting the Union of the Presbyterian Church in Canada, and was one of the deputation sent, on the eve of the union, to represent the views of the Presbyterians of the Dominion to the General Assembly of the Church of Scotland. In 1895 the University of Glasgow conferred upon him the degree of D.D., and the following year he was elected Moderator of the Canadian General Assembly, meeting in Toronto. Dr. Gordon was a fellow-student and close personal friend of the late Rev. D. J. Macdonnell, formerly minister of St. Andrew's Church, Toronto, and for some years sat under the ministrations of the famous Dr. Norman McLeod. In 1869 he married Eliza Simons Maclennan, daughter of a Highland minister who had settled in Prince Edward Island.

SUTCLIFFE'S NOTEWORTHY BLOUSES

Waists of Mercerized Satanna look just like Silk—yes, they have the same sheen of silk, but they wear better and are purchasable at about one-half the cost. LEADERS IN READY-TO-WEAR ... GOODS ...

A STRIKING ADDRESS.

King Leopold Tells of the Recent Plots Against Rulers—Has Ordered an Armoured Automobile.

Brussels, Nov. 21.—King Leopold has ordered an armored automobile constructed for his especial use. It will be the first one ever built.

King Leopold made a somewhat striking reply yesterday to a deputation from the Chamber, headed by the President, who presented His Majesty with an address of congratulation on his escape Saturday from the Anarchist Rubino's bullet.

After thanking the Deputies the the King continued:

"The times are very troubled. Agitators are constantly stirring up their followers to disturb that order which is the guarantee of public liberties. Without order only licence remains, which leads inevitably to despotism. These agitators find in their path firstly the heads of states. If they fail to reach them, they attack their wives, as in the case of the horrible drama at Geneva. Their blows are also aimed at Ministers as in the case of Senor Canovas, and they also blow up the houses of private individuals.

"They want to intimidate us, but they will not succeed. Even if they struck down the head of the state it would make no difference, as he would soon be replaced. In addition to revolver shots they employ the pen, which can write what calumnies they please. I am nearing the end of my life. I do not know how long I shall live—how long they will let me live. But I can assure you that all the rest of my existence will be devoted within the limits of my constitutional powers to the good of my country, and the protection of its liberties."

RESCUED BY SIR ARCHIBALD.

Lieut.-Gen. Hunter's Alertness Saved the Kaiser to Germany.

Edinburgh, Nov. 21.—Emperor William, on his way to embark on board the Imperial yacht Hohenzollern, lying in the Firth of Forth, arrived at Dalmeny yesterday and was met by Lord Rosebery.

As His Majesty's carriage was leaving the station the horses attached to it became frightened at the waving of the colors of the detachment of the Black Watch, forming the guard of honor. The postillions lost control of them, and they got mixed up in the crowd.

An accident was only averted by the alertness of Lieut.-General Sir Archibald Hunter who seized their head and managed to control them.

After lunch the Emperor boarded the Hohenzollern and sailed for Kiel.

TEN MEN DROWNED.

Petroleum Ship Wrecked on French Coast Near Cherbourg.

Cherbourg, Nov. 21.—A petroleum ship was wrecked on the French coast near here yesterday, and the entire crew lost. A gale was blowing and it was impossible to reach the vessel to learn its name until late in the afternoon, when she was identified as the Jeannette Fanny. She had a crew of ten men.

Repealed But Not Forgotten.

Pretoria, Nov. 20.—Martial law has been repealed throughout the new colonies to-day. The proclamation, however, announces that the authorities reserve the right to reimpose military rule in case of necessity. It provides for the expulsion of every one considered dangerous to the peace of the country and authorizes the arrest without warning, of any one suspected of sedition.

Battle of South African Rates.

New York, Nov. 21.—Rival steamship lines plying between New York and South Africa are waging a vigorous war in rates. To-day a ton of general cargo can be shipped to Cape Town for less money than a merchant can bring half a ton of potatoes to this city from the Carolinas. The rate on general cargo to the South African ports has been cut repeatedly, until now it is only $2.42 a ton.

G. T. R. ACROSS CANADA

New Transcontinental Line to Parallel the C. P. R.

THE CHANCES NOW SEEM BETTER

Announcement in London That Application Is Being Made to the Dominion Parliament for Power to Permit of Company Allied to G.T.R. to Construct Such a Line—Grand Trunk Complains' Relations.

London, Nov. 21.—A good deal of comment was caused yesterday by the published announcement that application is being made to the Dominion Parliament for powers to authorize a company in alliance with the Grand Trunk to construct a railway from some point on the Grand Trunk line to the Pacific coast. The Pall Mall Gazette anticipates that the Canadian Pacific Railway will succeed in killing the scheme, as it killed others before.

Changes Seem Better.

It is understood, however, in well-informed circles, that the Grand Trunk and the Canadian Pacific directorates will be disposed to give a more liberal interpretation to the present compact, which precludes either company trespassing on the ground of the other. It will be realized, seeing the enormous developments in the east and the west, that it would be unreasonable to insist on too strict an embargo, which would be liable to deprive newer Canada of the necessary expansions of both railway systems.

"VERY UNHEALTHFUL."

Verdict of Physicians Re. Miner's Life Before Strike Commission.

Scranton, Pa., Nov. 21.—The economic and sociological features of the anthracite coal industry and the effect employment in and about the mines has upon the health of the mine workers were the principal subjects brought before the arbitration commission yesterday by the attorneys of each side to the controversy.

The afternoon session was paticularly interesting because it brought out much expert testimony on the question of the health of the mine workers. Three physicians who have practiced in Scranton or Wilkes-Barre took the stand for the miners and in substance testified that the occupation of a mine worker was "very unhealthful" and shortened his life.

Will Not Interfere.

Hazelton, Pa., Nov. 21.—Miners employed by A. Pardee & Co. will go back to work, agreeing not to interfere with non-unionists.

Should Raise the Boycott.

Schenectady, N. Y., Nov. 21.—The machinery builders' section of the Trades' Assembly, representing at least two-thirds of the local trades' union men, met last night and by a practically unanimous vote decided that the assembly, at its next meeting, should raise the boycott against the Schenectady Railway Company. This practically guarantees the boycott being called off.

FORTY-EIGHT IN IRONS.

Mutiny Breaks Out in U.S. Captured Spanish Gunboat.

Washington, Nov. 21.—The Isle de Luzon, one of the Spanish gunboats captured at Manila by Admiral Dewey, is en route to New York with forty-eight of her men in irons. The vessel, which has been doing guard duty in the Philippines for about three years, started recently for New York, proceeding from Manila, via Singapore. Advices received indicate that on the trip to Singapore some of the machinery worked badly, creating a panic among the crew and causing a mutiny. The result was the placing of forty-eight of her crew in irons.

British Delegates at Toronto.

Toronto, Nov. 21.—The delegates from the London Chamber of Commerce arrived here at 7 o'clock last night. The following gentlemen are in the party: Sir Albert K. Rollit, LL.D., D.C.L., M.P.; Lieut.-Gen. J. Wimburn Laurie, M.P., chairman of the Canadian Trade Section of the Chamber; H. C. Edwards, K.C., M. P., chairman National Safety Deficit Company; James Dixon, ex-chairman General Ship Owners' Society; W. P. Wood, president of the London Chamber of Arbitration; F. Faithful Begg, chairman of the West Australian Trade Section of the Chamber; Major G. Flood Page, member of the Council of the Chamber; John Hume, chairman of the Textile Section of the Chamber; J. Y. Henderson, chairman of the British Wood Pulp Association; Kenrie B. Murray, secretary of the Chamber and of the Congress of Chambers of Commerce of the British Empire.

Perpetual Motion.

When George Stephenson was asked, "Do you believe in perpetual motion?" he replied, "Yes, if you lift yourself by the waist-band of the trousers, and carry yourself three times round the room."

Just so, and a woman would just as soon believe that she has not to pay dearly for common premium soaps, in the low quality of soap, in ruined hands and clothes. She would be kept in perpetual motion trying to do with common soap what she could so easily do with Sunlight Soap—Octagon Bar. 216

FRIDAY, NOVEMBER 21, 1902.

RAILWAY FREIGHT RATES.

The Grand Trunk and Canadian Pacific Railways have, in effect given notice of an advance of freight rates. The excuse is, that while there has been a great increase of gross earnings, the railways have not realized anything like a corresponding increase in the net profits, which is to say that the expense of operating has greatly grown. The working expenses are, it is said, absorbing all the profit material. In respect of this, the Globe quotes from returns, showing that in the case of both railways, there has been a steady increase in net earnings increases, recorded in the very issues of the papers in which appeared the managerial pessimism, which purported to show cause to justify an advance in freight rates, and the Globe adds in comment:

In January, 1901, Canadian Pacific Railway stock was selling in the Toronto market at 90. On the day on which Mr. Bosworth's discouragement and depression found voice it was selling at 129, an increase in less than two years of 39 points, or over 43 per cent. Its $65,000,000 of common stock was worth $58,500,000 in the market in January, 1901, and on November 9, 1902, it was worth $83,850,000, an increase of $25,350,000. We should not think that the original shareholders have any sympathy with the discouragement and depression which reign amongst the officials. The Grand Trunk has likewise been doing very well. The improvement in its stock quotations is a matter of common remark. It must be thought that the case for higher freight rates is not very clear.

The country has done well by both of our great lines. A vast sum of the people's money is represented in the C.P.R., and a considerable sum in the Grand Trunk, and it does seem that the people should not now be called upon to contribute to fancy profits in the shape of increased freight rates. The present rates are enough of a handicap on industrial and commercial enterprise. Speaking at the banquet at Lakefield, to celebrate the opening of the cement works, Mr. J. M. Kilbourn, president of the company, in pointing out the benefits of the completion of the Trent Canal would represent, remarked that railway freight rates absorbed 25 per cent. of the profits of the business. An advance of freight rates would cut more deeply into the profits of the company. It would seem that railways should be content with moderate profits, when the commerce and industries upon which they depend for profit at all are so seriously handicapped. The matter of freight rates, discriminatory and otherwise, is a very pertinent subject for readjustment, but certainly, one would think, not in the direction of increase.

THE METRIC SYSTEM.

Hon. M. E. Bernier, Minister of Inland Revenue, proposes to communicate with the several Provincial Governments in regard to the publication and use of charts of the metric system of weights and measures in the common schools of Canada. By this means it is hoped to have the metric system thoroughly mastered by the rising generation, thus helping to pave the way for its introduction into Canada. Mr. Bernier thinks that the Federal Government should contribute to the expenditure, and his idea is to have the matter controlled by a committee upon which the Dominion should be represented. The Minister of Inland Revenue has received a letter from a United States Senator, to the effect that he will introduce a measure into Congress for the adoption of the metric system by the officials of the United States Government on January 1, 1904, and by the general public throughout the Union a year from that date.

DOURO MARRIAGE.

Mr. Felix Lynch Weds Miss Josie Sullivan on the Bride.

A very pretty wedding took place at St. Joseph's church, Douro, on Tuesday morning at nine o'clock, when Rev. Father Kelly united in marriage Miss Josie Sullivan and Mr. Felix Lynch.

The bride was attired in a suit of blue ladies' cloth, trimmed with silk applique, and wore a picture hat to match. The bridesmaid, Miss Esther Carveth, was tastefully gowned in a similar suit. The groom was ably supported by Mr. J. E. Sullivan, brother of the bride.

The wedding party at the conclusion of the ceremony, drove to the former home of the bride, where a sumptuous repast was partaken of. The many beautiful and costly presents show the high esteem in which the young couple are held.

In the evening Mr. and Mrs. Lynch drove to their new home on Union street, town, accompanied by the good wishes of their many friends for their future joy and happiness.

ARCHDEACONRY OF PETERBORO

Ninth Annual Meeting Held at Port Hope—Redistribution of Deaneries.

(Port Hope Guide.)

The ninth annual meeting of the Archdeaconry of Peterborough, opened on Wednesday morning in St. John's church. The Venerable Archdeacon presided, and the following clergy and others were present in the course of the day: Revs. Canon Spragge, Rural Deans Warren and Marsh, E. Daniel, E. A. Langfeldt, W. L. Armitage, J. C. Davidson, R. Seaborne, J. McK. McLennan, A. J. Westmount, W. J. Reid, W. J. Creighton, W. C. Allen, H. Symonds, J. C. Fiddler, J. Scott Howard, L. Tandy, C. Brooks, E. A. Dymond, B. J. Perkins, C. J. James, R. McNamara, and Judge Benson; Messrs. F. Benson, Bannister and Handsworth.

The proceedings opened with a celebration of Holy Communion at 8.15 a.m., followed by Morning Prayer and a devotional address by Rev. Canon Spragge, which was listened to with deep attention.

The meeting then adjourned to the school house, where the Archdeacon gave his annual address, in which he referred briefly to many of the leading religious topics of the day.

The following were elected a committee to report on the redistribution of the Deaneries of Northumberland, Durham and Haliburton: — Rural Deans Warren and Marsh; Rev Canon Spragge, Langfeldt, Seaborne, Creighton, Soward and Mr. Bermister.

LABOUR PROSPECTS.

A new company has been formed in Toronto, with $1,000,000 capital to construct and navigate vessels. Another company, with Collingwood for headquarters, and also $1,000,000 capital, will put a line of steel steamers between Georgian Bay and Lake Superior ports. There is no practical limit to the possibilities of expansion in this direction. As matters stand now, a good deal of Manitoba grain is carried to Buffalo and thence to New York or Boston, because the coasting laws will not permit a United States vessel to trade between two Canadian ports, and there are not enough Canadian vessels to handle the Manitoba crop during the season of navigation. Full employment is awaiting all the vessels these companies can build or buy, and with many settlers pouring into the Northwest more vessels will be needed from year to year.

A great shortage of cars and locomotives is reported in both Canada and the United States. It is estimated that 3,000 more cars in this country and 50,000 more in the States could be profitably employed. Here is another opening for the profitable investment of capital. It pays all Canadians to have the grain carried over our own roads, for the wages of the railway employees will be spent on such things as our farmers and mechanics produce, and the profits will be widely distributed. With more railways, more cars, more elevators and more ships to be built, there should be no lack of employment in Canada.—Hamilton Times.

THE STREET RAILWAY.

(St. Thomas Journal.)

The city has taken over the street railway and will operate it. We trust that the aldermen are open to consider any proposition from a company to operate the road, if such proposal should be made in the future. It is very nice to be able to say that St. Thomas has the principle of public ownership of public utilities in effect. That sounds well. It is the popular idea inaugurated. But, after all, the running of a street railway is a matter of business, and unless it can be made to pay expenses there is no advantage to the ratepayers in having a railway on its hands.

The city is fortunate in having an offical like City Engineer Bell to manage the road. If it can be made to pay operating expenses under municipal ownership, he is the type of official to accomplish that end. And if there is to be a deficit it will be as low under Mr. Bell's management as it is possible to make it.

Our view of the matter is that the operation of the road by the city will add a mill to the tax rate. If the ratepayers of the city can stand that all right. If they consider it worth that to have it known abroad that St. Thomas has a railway, then they will pay it cheerfully. But if it is possible to have the road run without that loss to the citizens by a private company, then, as a pure business proposition; public ownership is not advisable.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 294 Ontborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

What is Going on in the East Riding Capital.

Presbyterian Church Will Hold a Tea Meeting—Referendum Campaign.

Mr. W. Cameron, of Toronto, spent Sunday in town, the guest of Mr. and Mrs. Geo. Ford.

Mr. Claude Pengelly, of Toronto Junction, and Miss W. Pengelly, of Toronto, are spending a few days in town.

Miss E. G. Brown, of Peterborough, was the guest of Mrs. W. E. Roxburgh on Sunday.

Messrs. Buck and Walsh shipped a car of hogs from here on Tuesday.

Messrs. John Knox & Son report that their sale on Tuesday last was, in spite of the disagreeable weather, a great success, and that they realized over $2,000 on live stock alone.

The hunting season is over and our local sports are back from the "happy hunting grounds." Mr. Thos. Fraser returned on Monday and reports that his party secured seven fine deer.

Rev. Mr. McQuaig occupied the pulpit of the Presbyterian church on Sunday last and delivered two very interesting addresses. He will also take charge of the services next Sunday.

The tea meeting given in the Presbyterian church on Friday evening was in every way a success, and the Ladies' Aid, under whose auspices it was given, have good reason to congratulate themselves. Tea was served from 5.30 to 8.00 o'clock, in the Sunday school room, after which all adjourned to the church, where a splendid programme was rendered, consisting of addresses, songs, solos and choruses. Amongst those who took part were the Rev. Messrs. D. A. Thompson, of Hastings, Camp, of Havelock, Atkinson, of Warsaw, McQuaig, of Port Hope, Taylor and McKee McLennan, of Norwood.

Those interested in the Referendum campaign met in the Baptist church on Tuesday evening last where addresses were given on temperance. At the conclusion of the address an organization was formed to look after the interests of the cause in this district, with Mr. John Finlay, President, Mr. Cuthbertson, Treasurer, and Mr. T. B. Finlay, Secretary.

The Norwood hockey enthusiasts met in the McNichol house on Wednesday evening last and reorganized the Hockey club for the coming season. The boys are talking of entering the Junior O. H. A. series, and we wish them every success. They intend giving an entertainment in a short time. Our people may expect something good.

BEET ROOT SUGAR.

The Industry is Over Half a Century Old.

(Brockville Recorder.)

During the past two years the beet sugar industry has been given a great impetus in this province through the encouragement granted by the Ontario Government. But in looking over the old files of the Recorder, an item was found showing that more than fifty years ago, beet sugar was made in Paris, Ont. This is copied from the Hamilton Spectator, and appeared in the Recorder of Dec. 25, 1851:—

"Dr. Nephegyi, of Paris, has sent us a package of sugar manufactured from the root of the beet, which we have much pleasure in noticing as a matter of general interest. This sugar differs a little in appearance and colour, and not at all in taste, from the ordinary cane-grown sugar. If it can be procured at a price to compete with the imported article, it must speedily command the attention of our farmers, and may in some measure make amends for the loss of a remunerative price on wheat, through the operations of Free Trade. Dr. Naphegyi certainly deserves the thanks of the community for bringing this matter so prominently before them, and we sincerely trust he may be enabled to carry out his wishes successfully."

REVENUE GROWING FAST.

Fees Collected by Provincial Secretary's Department.

A remarkable growth of revenue is shown in the return of fees collected by the Provincial Secretary's Department. As these are chiefly derived from new companies incorporated, the industrial development of the country is rapidly proceeding. In 1896 the amount was $28,520; 1899, $67,851; 1900, $88,643; and for the ten months ending October 31st of this year the amount was $89,725, which, it is estimated, will total $105,000 by the end of the year.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

BEGINNING A CAMPAIGN.

"I am not a prophet, but I venture with entire confidence upon this prediction, that if, within three years, you can remove or reduce to a revenue basis the duties upon steel, upon iron, upon lumber, upon meats, upon refined sugar, and perhaps upon two or three others, that the whole fabric of protection will be in the dust within six years after the thing is accomplished."

This is what Mr. Edward M. Shepard, of New York, told a gathering of free traders in Boston on Friday night. Mr. Shepard thinks that it is time to leave off advocating a general revision of the tariff, because there are so many schedules, and so many considerations affecting each, and so little can be done at once, that people are apt to talk of free trade as only a delightful but impracticable theory. He thinks the time has arrived to talk about high tariff evils that are obvious, about dear beef, dear steels, the trusts, the sale of articles abroad cheaper than at home. Mr. Shepard is a man of the highest order of ability, a good judge of what influences the American mind, and it is said, aspires to be President. It looks as though a tariff revision campaign had been begun in earnest.

For Long Standing Coughs.

MADILL'S EMULSION OF COD LIVER OIL.

The best remedy for long standing cough—always fresh, and made from pure oil. The most palatable of any Cod Liver Oil Emulsion on the market to-day. A trial will convince you.

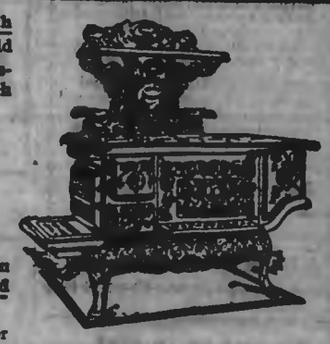
The King of Ranges— "BUCK'S HAPPY THOUGHT"

If we could only talk with you for ten minutes we would guarantee to show you conclusively so many points in which

The "Happy Thought" Range

is superior to the common run of Ranges that you would have no other.



We can't talk to you, so for your own sake get our "Happy Thought" Booklet, or better still, call on the dealer handling this Range (he will be the best dealer in your place) and can tell you about it, or still better, see the Range on his floor, or ask your neighbor who uses one.

The "Happy Thought" is so unlike any other that there is no similarity. It is so superior that there is no comparison.

DANGEROUS EVIDENCE.

In the recent Molyneaux trial four handwriting experts swore positively that the writing on the fatal poison package was that of Molyneaux, the accused. In view of the other evidence which produced acquittal in 18 minutes, what becomes of the evidence of the handwriting experts? Circumstantial evidence has often been regarded as the best sort of evidence — better sometimes than direct, as direct evidence may be produced through perjury, though, if truthful, it ought of course, to be conclusive. But the evidence of handwriting experts, though nominally billed as circumstantial, is really neither circumstantial nor direct. At the best the estimating of handwriting is but a questionable science, very largely a matter of individual opinion. There have been cases where talent has been arrayed in opposing forces in great legal cases, notably in will cases. But even though the principles of the diagnosis used by the experts were correct, there is always the gravest danger of injustice to the accused — danger for instance such as might be suggested by the operations of a clever forger. That handwriting evidence is a very questionable sort of evidence has often enough been shown, but but not often more conclusively than by the Molyneaux trial.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhosone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhosone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

It is impossible to judge the quality of Silverware by its appearance. The reputation of the maker must be the guide.

THE ACTUAL.

In Plateware, the Meriden Britannia Co., by half a century's honest manufacturing, has made its trademarks a guarantee the world over

THE CERTAIN.

If your Silverware is stamped with this trade mark you will have the best that is made in plate.

MADE AND GUARANTEED BY

NOAH HALE FOUND DEAD.

Murderer of Son Likely Died From Exposure.

Sault Ste Marie, Nov. 21.—Some parties while out hunting north-west of the town came upon the body of Noah Hale, who murdered his son, Frank, on October 3 last. Judging from appearances parties finding the body say death must have taken place some time ago, and are inclined to think the cause was exposure and want of nourishment rather than suicide. His gun was also found with his body.

Have Quit Their Lairs.

Dublin, Nov. 21.—Mr. John Redmond, M.P., reached Dublin yesterday on his return from attending the convention of the Irish League of America in Boston. He received an enthusiastic welcome. Mr. Redmond, in response to the ovations, addressed the crowd from the balcony of the League's building. Referring to the recent split in the Irish party he said it appeared that under the guise of safeguarding Catholic interests some of the enemies of the Irish League were seizing the opportunity to quit their lairs and attack the unity of the party. The men concerned in this conspiracy, however, concluded Mr. Redmond, were men who could never claim the confidence or support of any section of the Irish people.

$35,000 in Pianos Burned.

Ottawa, Nov. 21.—Shortly before 6 o'clock last evening fire broke out in some waste paper in the basement of George L. Orme & Sons' big music store on Sparks street, and in an hour damage variously estimated from $125,000 to $140,000 was inflicted. The building was one of the finest in the city. The great loss is in the stock. Besides some $35,000 worth of pianos, Orme carried an enormous stock of the finest English and European violins, band and other instruments.

Gentile Before Magistrate.

Toronto, Nov. 21.—Joseph Gentile was arraigned before Magistrate Denison yesterday morning on two charges, one of making Canadian money, and the other of making United States money. Beyond pleading not guilty and talking to his counsel, T. C. Robinette, K.C., the prisoner said nothing. Gentile, who was remanded till to-day, will fight extradition.

Governor of Australia.

London, Nov. 21.—Lord Tennyson, the temporary Governor-General of Australia, has been formally appointed to that office. The appointment, at His Lordship's wish, is for one year only. He succeeds Lord Hopetoun, whose resignation was officially announced May 14 last.

Held For Stabbing Rival.

Rochester, Nov. 20.—The coroner's inquest into the death of Florence MacFarlane finds that Miss MacFarlane came to her death as the result of stab wounds inflicted by Mrs. Lulu Miller Yo ngs. Mrs. Youngs was held for the grand jury.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

Ross Memorial Hospital.

Lindsay, Nov. 21.—The Ross memorial hospital was formally opened here yesterday afternoon. James Ross of Montreal, the donor of the splendid institution, was present accompanied by Mrs. Ross and his son, Mr. John Ross. At 1.30 o'clock Mr. Ross and party entered the building, which Mrs. Ross unlocked with a golden key, the gift of the Board of Governors, who presented Mr. Ross with an address on the steps of the building. Mr. Ross in reply confirmed the members of the board in their office and formally transferred the hospital to their control. The total cost of the building and its equipment approaches $75,000, and is wholly borne by James Ross.

Tragedy in France.

St. Lo, France, Nov. 21.—A double suicide and triple murder occurred here yesterday. A beggar named Le Honeur and his wife locked themselves and their three children, aged, respectively 7 years, 5 years and 6 months in a room and turned on the gas. All were asphyxiated.

A WIRELESS SUCCESS

The Message from Cornwall, Eng., Received at Sydney, N. S.

LONGEST EVER TRANSMITTED.

Interesting Interview With Marconi—Will Give Out Full Statement When He Has Completed His Work at the Table Head Station—Machinery Not All Installed—What Has Been Done.

Halifax, N. S., Nov. 21.—Mr. Marconi, in an interview at Sydney yesterday, said: "Any remarks that I might make now regarding my experiments would probably prove misleading, and I prefer to wait until my work is finished. The station here is not really completed yet. A portion of the machinery has not been adjusted, and some of it has not even been installed.

"The message received in Sydney harbor by the Carlo Alberto from Cornwall is the longest ever successfully transmitted by wireless telegraphy. It was received without any difficulty, but I can say no more about it, as my agreement with the Italian Government provides that they are to make public the result of all the experiments made on the Carlo Alberto.

"Since I came to Table Head a few improvements have been made in the sending and receiving apparatus, and we are now able to send at a rate of forty words a minute, while a year ago our best speed was sixteen or seventeen words a minute.

"Mr. Marconi expects to complete experiments here before he leaves for the Cape Cod station."

Best Cable in the World.

Victoria, B. C., Nov. 21.—Messrs. Dearlove and Wittrick, telegraph engineers, who have been testing the Pacific cable for the Pacific Cable Board, returned last night from Bamfield Creek. They report the cable to be the fastest in the world, having received splendid signal and sent 110 letters a minute.

GRINDING CANADIAN GRAINS.

U.S. Milling Company Bonded in $50,000 to Use Only Our Wheat.

St, Paul, Minn., Nov. 21. — The Washburn-Crosby Milling Company of Minneapolis bonded its Humboldt mill yesterday for an indefinite period, to grind nothing but Canadian wheat. The bond demanded by the customs officials and given yesterday is for $50,000. The custom heretofore prevailing was to ship the grain of the Canadian Northwest bonded through the United States to Liverpool. The grinding of the grain in Minneapolis instead of in England will create a great saving in the expense of transit to Europe.

A bond of $30,000 was also given at the customs house yesterday by the Great Eastern Elevator Company of Minneapolis for the storage in Minneapolis of Canadian oats. This grain eventually will be ground into oatmeal in this State by some mills yet to be designated and used entirely for export business.

ELECTRICITY FOR CANAL.

Four Hundred Lights Will Be Used on Welland Channel.

Port Colborne, Nov. 21.—Hon. A. G. Blair visited here yesterday. He was met by Messrs. German, Gibson, Weller, Hogan, Lawlor and Reeve Carter. He visited the Government works, the breakwater, the new elevator piers outside and inside, harbor and the other harbor improvements which will be completed as soon as possible. It is also proposed to light the Welland Canal with electricity. Four hundred lights will be used, 150 to be used in lighting the 25 locks and balance in the portions of the canal.

St. Thomas Election Case.

Toronto, Nov. 21.—An appeal was heard at Osgoode Hall yesterday against the mandamus granted by Mr. Justice Robertson ordering Police Magistrate Glenn of St. Thomas to receive the information against ex-Mayor Patrick Meehan, who was charged with voting more than once in the last municipal elections in that town. The case was adjourned indefinitely, and will likely be dropped if another complaint is not substituted.

Inheritance of $1,000,000 Involved.

Vienna, Nov. 21.—An interesting case was settled in the courts here yesterday. Leopold Weinenger, an Austrian Jew, and Elsie Sheckely, a Hungarian Protestant, were married in New York in 1892. The courts declared yesterday that the marriage was null, because of the Austrian law prohibiting the marriage of persons of different religious beliefs. An inheritance of $1,000,000 was involved in the decision.

C.P.R. Brakeman Crushed.

London, Nov. 21.—James Pembroke, a C. P. R. brakeman, was crushed between an engine and a freight car at Tilbury Station Wednesday afternoon. He was brought to London, and taken to his home in the ambulance. It will be some weeks before he recovers.

Coal $13.50 in Winnipeg.

Winnipeg, Nov. 21.—The price of coal yesterday was $13.50 per ton, and the prospects at present will warrant its remaining at that figure. The quantity received in the city since the strike was declared off is about 25,000 tons short of the supply of the province.

20 Years of Itching Piles.

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terribly from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length of time he suffered.

FARMERS' INSTITUTES.

An Increase of Over 2,500 in the Membership Last Year—Duke of Marlborough Resigns His Office.

Sir John Woodburn, Lieutenant-Governor of Bengal since 1898, died Thursday.

Dr. Kent, charged with the murder of Blanche Dingle, at Buffalo, will have to stand trial.

Twenty-eight thousand citizens in Montreal have petitioned for an increase in salaries of firemen.

R. P. Moffatt, charged with embezzling $2,075 in Hong Kong, is under arrest at Seattle, Wash.

The Duke of Marlborough has resigned the office of Paymaster-General, and has been succeeded by Sir Savile Crossley, M.P.

More smallpox is reported from Wylie Township, Renfrew County; Rockland, a place near Ottawa, and South Plantagenet, Prescott County.

A special meeting of the presbytery of Orangeville will be held at Orangeville Dec. 1 to consider the resignation of Rev. Dr. Wicher of Claude, Ont.

The Southern Pacific depot and ferry slip at San Francisco was destroyed by fire Thursday. The loss is $500,000. Several men had narrow escapes.

Mrs. Gertrude Young is dead at Minneapolis, after fasting thirty-nine days. She was taking the starvation treatment for relief from the effects of an apoplectic stroke.

Prince Edward of Saxe-Weimar, who died in London of appendicitis last Sunday, was buried at Chichester Thursday. The Prince of Wales accompanied the body from London.

A crowded gambling establishment at Columbia Heights, a Minneapolis suburb, was held up by a lone bandit Thursday night, who shot one of the attendants twice and secured $2,000 booty.

Last year was a prosperous one for Farmers' Institutes. According to the annual report just issued the membership for the first six months of this year totals 22,948, an increase of more than 2,500 over last year.

Isaac Stouffville, who has just returned from a hunting trip in Muskoka, was up at the Toronto Parliament buildings Thursday, and filled in his papers for the $15 bounty for the head of a wolf he shot in the Parry Sound district.

The Danish steamer Knud II., from Copenhagen, and the British steamer Swaleddale, from Hamburg, collided Thursday night at the mouth of the Tyne. The Knud II. foundered immediately and the master and seven of her crew were drowned.

The Commercial Pacific Cable Co. has secured a landing place in China for an independent U. S. line to be built from Manila to Hong Kong, thus giving an all-United States through line to the Asiatic continent. The company will build a line from Manila to Shanghai, a distance of about 1,200 miles within a year.

AN EASY WAY

To Keep Well.

It is easy to keep well if we would only observe each day a few simple rules of health.

The all-important thing is to keep stomach right, and to do this it is not necessary to diet or to follow a set rule or bill of fare. Such pampering simply makes a capricious appetite and a feeling that certain favourite articles of food must be avoided.

Prof. Wiechold gives pretty good advice on this subject. He says: "I am 68 years of age and have never had a serious illness, and at the same time my life has been largely an indoor one, but I early discovered that the way to keep healthy was to keep a healthy stomach, not by eating bran crackers, or dieting of any sort; on the contrary, I always eat what my appetite craves, but daily for the past eight years I have made it a practice to take one or two of Stuart's Dyspepsia Tablets after each meal, and I attribute my robust health for a man of my age to the regular daily use of Stuart's Tablets.

"My physician first advised me to use them, because he said they were perfectly harmless and were not a secret patent medicine, but contained only the natural digestives, peptones and diastase, and after using them a few weeks I have never ceased to thank him for his advice.

"I honestly believe the habit of taking Stuart's Dyspepsia Tablets after meals is the real health habit, because their use brings health to the sick and ailing and preserves health to the well and strong."

Men and women past fifty years of age need a safe digestive after meals to insure a perfect digestion and to ward off disease, and the safest, best known and most widely used, is Stuart's Dyspepsia Tablets.

They are found in every well-regulated household from Maine to California, and in Great Britain and Australia are rapidly pushing their way into popular favour.

All druggists sell Stuart's Dyspepsia Tablets, full sized packages, at 50 cents, and for a weak stomach a fifty cent package will often do fifty dollars worth of good.

Third Hospital Victim.

Montreal, Nov. 21.—Miss Gobeille's now famous sanitarium claimed its third victim yesterday morning in J. B. Van Allen of Morrisburg, Ont., formerly of Cookstown, Minn. A couple of months ago he entered Miss Gobeille's establishment and fasted for 15 days, claiming after the expiry of that period to have been much relieved. An inquest will be held.

Claim $39,643 For Extras.

Ottawa, Nov. 21.—Messrs. O'Leary and Robillard, contractors for the main drain, have presented a claim of $39,643 for extras to the city. Of this sum $38,400 is asked on account of trouble with the old sewer in New Edinburgh; $5,000 for raising wages, caused by the city paying its men more, and another large sum for unexpected trouble with water.

Do You Wear Rubbers?

If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style speak for themselves.

Stoves, Ranges and Heaters.

Allen Tabor's
"FAUST,"
Under the Manangement of Shipman Bros.
Prices 25c, 35c and 50c.
First Three rows of raised, 75c.

CHOIR ENTERTAINED

By Their Organist at the Conclusion of Practice Last Night.

After the usual choir practice last evening the members of the George street choir, on the invitation of the organist, Mrs. Mowat, remained for a social hour. A pleasant programme was contributed by Misses Parnell, Hutchinson, Detcher and the Misses Chasty, and Messrs. Bowles, Maguire, Mulligan and Herbert Mowat, with a few remarks from the pastor, Mr. Wilson, after which refreshments were served. On motion of Mr. Moore, seconded by Mr. Gardiner, a hearty vote of thanks was tendered Mrs. Mowat for her kindness, and the gathering dispersed with the singing of Auld Lang Syne.

OFFICERS MET

And Discussed Various Matters Last Night.

A meeting of the officers of the 57th Regiment was held last night in the mess rooms at the drill shed. A number of important matters were up for discussion. A proposition to give the men some sort of entertainment in recognition of their services to the Regiment during the past season was considered, but no definite action was taken thereon.

A class of instruction for officers will be commenced in the course of a week or two. Until the examinations following the class of instruction are over, the re-organization of the Regiment will not be undertaken.

NEWS NUGGETS.

Buy your furnishings at Bradley's and get a key for the money box. 2d

—A despatch from Petrolea states that Tabor's Faust was a satisfactory performance, and the scenic and electrical effects were superb.

—The Faithful Workers' Mission Band of St. Paul's church intend holding a bazaar on Nov. 28th, in the school room. Refreshments will be served during the afternoon and evening. 3d

—The Varsity students who were concerned in the prosecution of the policemen who ill-used them at the corner of College street and University avenue on Hallowe'en, have decided that they would offer to pay the fines of Policemen Ward, Ide, and Guthrie, the mounted men who were taxed three days' pay each for their part in the affair. The fines amount to $18.

—The Lindsay Post says: The Peterborough papers are agitating for the remodelling of the town post office on the ground of increasing business. While they are on that line the editors should press for a few needed alterations in their opera house; if the managers of theatrical companies speak truly, it is utterly unworthy of a progressive town like Peterborough.

ST. LUKE'S ANNUAL DINNER

Held in Foresters' Hall, Simcoe Street Last Night.

Was a Great Success—All Previous Records Eclipsed—Dr. Symonds was Present.

For a number of years the annual dinner of St. Luke's church, Ashburnham, has been gradually becoming an event of greater and greater importance, until now it is one of the events of the season waited for, and prepared for, by the majority of the people in Ashburnham, and many in Peterborough.

This year, owing to the interest taken, it was decided to hold the dinner in the Foresters' Hall, Simcoe street, but so great was the attendance that the large rooms there were filled to their utmost capacity, for it is estimated that over five hundred partook of the dinner, and the majority remained until afterwards.

The rooms used last night are admirably suited for the purpose of a church dinner. Dinner was served in the large room, that has been used heretofore as an assembly hall, and nothing better could be wished for, than the neat tables, the delectable viands and the prompt attendance accorded by those who were the volunteer waitresses. The menu was not only elaborate but was of a substantial character, and, better still, it was the acme of perfection from the epicurean point of view.

While the dinner was being served many amused themselves in the lodge rooms, where confectionery stands and "fish ponds" served as a repository for the silver of the unwary.

After the majority had quite satisfied the sense of hunger, Rev. Mr. Langfeldt occupying the chair, an entertainment of exceedingly high character was given as follows:

Chairman's address..... ....
Instrumental... ...Mrs. Achilles Turner
Recitation, (upon request) "How he Saved St. Michael's ... ...Mrs. McAllister
Song..... ....Mr. Jas. Dawson
Address... ... ...Rev. J. G. Potter
Song... ... ...Miss Bertha Symonds
Recitation, "How Rubinstein Played the Piano"... ... ...Mr. Robinson
Address... ... ...Rev. Dr. Symonds
Reading..... ....Mr. Sorsoleil
Duet ...Rev. Mr. Armitage and Mr. Legg
God Save the King.

Accompanists, Miss Lizzie Scott and Miss Bullen.

Dr. Symonds in his opening remarks, stated how pleased he was to be present again at the annual dinner of St. Luke's church. For years the dinner had increased in importance until now it had reached its present magnitude. The speaker continued by saying that when he left Peterborough he had some misgivings as to the future of St. Luke's but on learning the name of his successor all doubts had been removed. Just here Rev. Dr. Symonds paid a glowing tribute to the present incumbent of St. Luke's, and on his command, as a foreigner, of the English language. Dr. Symonds, continuing, spoke of the friendliness of the sister organizations of Peterborough, and on the source of power there, was in this friendly feeling between the churches. Just here some valuable pointers were given the people in regard to the sermons preached to them for often, when the sermon was not good, it was the congregation that was at fault, and not the preacher.

In conclusion Mr. Symonds again expressed his pleasure in being present.

The programme rendered was of an exceptionally high character and was listened to until the last selection without that uneasiness generally shown in audiences towards the close of an evening. Mr. Sorsoleil, Mr. Dawson, Mrs. McAllister and Mr. Robinson contributed not a little to the success of the evening. Miss B. Symonds was enthusiastically and deservedly encored, and her voice possesses so pleasing a richness and evenness combined with the greatest ease that she is always heard with greatest delight.

A little after ten o'clock this, the most successful dinner in the history of the church, was brought to a close and it may be rightly stated that large numbers will mark the event as one of the features of the season, and that next year it will, if possible, be a still greater success.

The final match for the Intermediate O. R. F. U. Championship will be played on Nicholls Oval; on Saturday afternoon at 3.30 o'clock, between London and Peterborough. Admission 25 cents to all.

AT THE OPERA HOUSE.

"The Ivy Leaf" Played to Large Audience—All Delighted With the Attraction.

A large and delighted audience witnessed the production of "The Ivy Leaf," by a capable company, at the opera house last night. It was one of those genuine Irish stories that was full of heart interest. The company was composed of clever artists and the scenery was the finest that has been seen on the local stage this season. The Eagle's Crag, Lakes of Killarney, by moonlight, and the Ivy Tower, were pictures which remain long in one's memory. Herbert E. Denton, as Murty Kerrigan, was a great success. He has a fair tenor great success. He has a fine tenor voice and his songs pleased the audience immensely.

NEW OPERA HOUSE.

Peterborough is to Have one Next Year Sure—Location Being Considered.

The Examiner has been authorized to make the announcement that Peterborough will have a grand new Opera House by this time next year. This is no wild assertion, but a representative of the gentlemen who propose erecting the new Opera House gave the information to a representative of the Examiner this morning. It is not yet given out whether it will be local or outside capital, but the Examiner is of the belief that it will be the latter. The promoters are now looking about a suitable location and a structure, modern in every sense, will be opened to the patronage of Peterborough theatre goers. Needless to say this will fill a long-felt want and the announcement will be received with general satisfaction. A year ago Peterborough required three important places of amusement—a rink, an opera house and an athletic ground. They will soon possess every one of these.

The plans for the new opera house have been prepared. They provide for the accommodation of 1200 people.

Read the Advertisements.

Look over the Examiner's advertising announcements before you go to do your shopping. If there is anything good to be offered to the people, the men who have it to sell are shrewd enough to invite the attention of our readers to the fact. It pays to patronize the stores that invite trade through the Examiner's columns.

MARRIED IN DENVER.

Miss Nellie Young, Formerly of Peterborough, the Bride.

Dr. Robert Wellington Frasier of Central City, and Miss Nellie Young, of Peterborough, Canada, were married on Wednesday evening, Nov. 12, at 6 o'clock at the residence of the cousin of the bride, Mrs. L. D. DuBois, 2844 Downing avenue. The witnesses were composed of near relatives and a few intimate friends. The ceremony was performed by Rev. Father Henry, S.J.I. of the Sacred Heart. The bride, who is a brunette of graceful figure and handsome features, was gowned in white organdie and Valenciennes lace. The wedding march was played by Mrs. DuBois. Master Alfred DuBois carried the ring in an Easter lily, and Mr. W. K. DuBois gave the bride away. The official witnesses to the wedding contract were Mr. Richard and F. Johnson, of Birmington, Ala., and Mrs. W. K. DuBois. After the wedding the bride cut the wedding cake and refreshments were served. The young couple are spending a few days with the parents of the groom at Alma Oaks, after which they will permanently reside at Central City. Dr. Frasier met his bride last winter during her visit to Mrs. DuBois.—Denver News.

SHEEP FOUGHT DOG.

A Rather Peculiar Incident That Occurred Recently.

A rather peculiar incident occurred at Caughnawaga recently. It appears two dogs were chasing a flock of sheep, and two of the sheep, having been separated from the rest, made as a last resort for a stone heap, which was at the trunk of a leaned balsam tree. The first sheep ran over the stone heap up the tree into the thick of the limbs, and the secon , not being able to pass, turned on the dogs for about half an hour. Joseph Maley, hearing the dogs, ran to see what they were at, and seeing the white animal in the tree went back for his gun, expecting to have a white bear for his target, but was badly disappointed, and gave the dogs a fatal dose of medicine. One of the sheep's ears was torn into strings, besides its nose bled freely. They were standing about twelve feet from the ground.

DECLARED UNSAFE.

Government Engineer Will Recommend That the Belleville Drill Shed be Torn Down.

(Belleville Intelligencer.)

Major Weatherbe, of Ottawa, Government Engineer, in company with Col. Halliwell and Major Pope, of the Fifteenth, yesterday visited the drill shed and thoroughly inspected the building in reference to the repairing of the same.

In the opinion of the engineer, we understand, it would be useless to make any repairs, as he considers it would be money thrown away. In his report to the Government he will recommend that the building, with perhaps the exception of the officers' quarters, be torn down and rebuilt either of brick or stone. He will also, in all probability, recommend that the arms and accoutrements be at once removed to a place of safety, as it is feared that, should a heavy fall of snow occur during the winter, the the roof is liable to collapse. In view of the engineer's idea, nothing will be done to the building until his report has been received and acted upon by the Department.

Whilst in the city Major Weatherbe was taken to view the ranges off the Kingston road, and he is decidely in favour of the Government acquiring more land in order that 900 and 1000 yard ranges could be established. At present there are eight targets, and the engineer's idea is to change them for the new drop target and reduce the number to four or possibly six. This matter will also be reported by him to the proper authorities.

Very refreshing and healthy—Allen's Sweet Cider—At Henry & Co's.

THE COUNTY COUNCIL HAS CONCLUDED.

Several Committees Reported This Morning.

MR. ANDERSON'S FAREWELL.

Dr. Jeffs Will not Seek Re-election—Mr. Bradburn Again Speaks re Beet Sugar Industry.

The County Council went into session at 11 o'clock this morning, after being in committee nearly all of yesterday afternoon. The Warden, Mr. T. G. Eastland, was in the chair, and all the members were present.

FINANCE COMMITTEE.

The report of the Finance Committee was submitted as follows:

Gentlemen, — The Finance Committee beg leave to report, recommending as follows:

1. That a rebate be allowed the village of Ashburnham on the amount levied from them, (subject to the sum claimed being verified by the county clerk) being the excess of the true amount that should have been levied; the village assessment erroneously including the Trent Canal lands, the House of Providence and St. Joseph's Hospital, which properties are by law exempt from taxation.

2. That the following accounts be paid:

Jacob White	$ 3 00
Dr. Carmichael	5 00
R. H. Leary, two accounts	7 50
M. Boyd, two accounts	742 46
Victoria Indus Sch., 2 accounts	78 09
W. B. Kelly, Pigeon Creek bridge	11 35
W. B. Kelly, Mud Lake bridge	26 72
Geo. Hutchinson	11 25
A. McDonald	42 29
E. D. Young	13 32
J. A. Jobe	2 75
A. H. Stratton, 2 accts, when certified	2 00
Alexander & Miller, 2 accts	7 50
County Hastings, Deer River bridge, 1-2 repairs	50 56
E. A. Tanner, (when certified)	5 75
R. C. Heard	17 65
G. Walter Green	5 99
H. S. Macdonald	40
Municipal World	2 22
J. G. Keefer, (when certified)	16 00
Review Printing Co., (when certified)	118 35
G.N.W. Telegraph Co	25
Examiner Printing Co., (three accounts)	195 50
A. McDonald	10 32
J. E. A. Fitzgerald	25 50
Peterborough Hardware Co	22 07
The Pearce Company	43 65
Wm. Nichols	29 83
J. E. Belcher	65 00
Peterborough Hardware Co. (5 accounts)	51 64
Lakefield News	2 50

3. That the communication from the Ministerial Association be referred to the January session of the Council.

4. That the pay sheets for repairs to the Pigeon Creek Bridge, amounting to $147.35, be paid.

5. That Mr. Casement, Mr. Peck and Mr. Pearce, chairman of the committee, be a committee with the Warden, with power to dispose of the debentures issued under bylaw 837, in such manner as they may deem most expedient to the county, and to report to the January session of the council.

6. After being discussed by the council and the promoters of the Peterborough Beet Sugar Company, the matter of submitting a bylaw to the ratepayers of this county, to take $40,000 stock in the said company, was withdrawn.

All of which is respectfully submitted.

J. B. PEARCE,
Chairman.

COMMITTEE ON ROADS AND BRIDGES

The Committee on Roads and Bridges reported as follows:

The Committee on Roads and Bridges beg leave to report and recommend as follows,—

1. That the report of the Joint Committee held at the Pigeon Creek bridge on October 2nd, 1902, be received and adopted.

2. That the County Engineer's report be received and printed with the minutes of the council.

3. That William O'Leary be paid $25 for extra work done by him on the Mud Lake bridge during the present year.

4. That Wm. O'Leary be appointed as caretaker of the Mud Lake bridge at a yearly salary of $240 payable monthly.

5. That the account of Alex. Fitzgerald of $30 for repairs to and care of Ashburnham bridge be paid, and that one-half be charged to the town.

6. That clause 16 of the report of the Committee on Roads and Bridges, adopted in January last, be rescinded, the township of Ennismore having failed to comply with the conditions thereof, and that a grant of $25 be made towards the repair of the road in Ennismore leading from Gannon's ferry to the Bobcaygeon road, and that Mr. Costello be commissioner for the expenditure of the same.

7. That this county pay $48.96, being one half of the extra expenditure required to be made in cutting down the large hills on the side line between lots 10 and 11 in the tenth concession of the township of Asphodel, for which purpose this council granted $150.00 by clause 15 of the January, 1902, Road and Bridge report.

8. That clause 12 of the January, 1902, Road and Bridge report be amended, so as to read that the expenditure shall not exceed $75, instead of $60.

9. That Mr. Crowe be instructed to have the necessary repairs made to Payne's bridge, in the township of Dummer.

10. That the matter of the repairs to the road on the boundary between Marmora and Methuen, at the head of Deer Lake, be referred to the local municipalities, and other parties interested, as it appears that these repairs should be made by the Cordova Exploration and Mining Company, they having caused the damage to the road through the raising of the water in Deer Lake by their dam.

11. That the application of Mrs. Henry for a raise of salary as caretaker of the swing at the Wallace Point Bridge, be referred to the January session of the council.

12. That a grant of $100 be made to the township of Galway to assist in erecting the new Kinmount bridge.

All of which is respectfully submitted.

WM. ANDERSON,
Chairman.

County Council Chamber,
Peterborough, Nov. 21, 1902.

The report was adopted.

Bylaws confirming the above reports were then passed by the council.

Mr. Bradburn on behalf of the Peterborough Beet Sugar Company, again interviewed the council and asked that a committee from the Peterborough County Council, be authorized to visit the beet sugar factories at Berlin and other points in western Ontario. He explained that the present was a very good time to make an inspection of the factories.

The council brought to Mr. Bradburn's notice the fact that there was a committee appointed to deal with the matter, and they would likely visit the places referred to.

As this was the last session of the present council, Councillors Wm. Anderson and Dr. Jeffs, who are not seeking re-election addressed the members of the council.

Mr. Anderson referred to the fact that he had seen a good many members come and go. Amongst the latter he mentioned the late Messrs. Mohor and Moloney of Ennismore, Sanderson, of Smith, and John Burnham, of Ashburnham. In all he had seen about 65 councillors elected to represent the various municipalities. His associations amongst them had been of the most pleasant nature. It had been an education for him, for he had been given much advice and assistance. During the time that he had been in the council, he had never had an unpleasant word with any of the members. He thanked them once again for the support they had given him as chairman of various committees, etc.

Dr. Jeffs said that while his connection in the council had been rather short, it had been very pleasant. He was glad that he had sought election as he had learned much by the experience. He felt that public life tends to broaden a man's ideas. He had tried to do his best, but was aware that there were others as capable as he was to take his place. He was moving to Toronto and the very first thing he would do after settling there would be to join the Peterborough Old Boys Association. He had been fifteen years in the county, so he thought that he was entitled to membership to that body. He extended a hearty welcome to any of his old friends to call on him when in the city.

Councillor J. B. Pearce said that as he was the oldest member of the council he might say a few words. He paid a warm tribute to Mr. Anderson for his services in the council. His retirement would be a distinct loss to the council, but his knowledge gained in the council would be useful to him in his new sphere to which he had been promoted. Councillor Pearce also spoke of the services that councillor Jeffs had rendered his district and the loss they would sustain by his removal.

Council then adjourned.

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

The Better Way With a Cold.

When a slight cold fastens on you in early winter you are apt to regard it merely as an annoyance—not a thing worth serious consideration. You usually feel like taking something syrupy, with perhaps a touch of spirits in it, to warm you up and stop the cough. But there is a better way.

The cough, the red eyes and uncomfortable head are not the cold. They are only the symptoms. They are like the leaves of a weed sticking above ground. The surest way to get rid of them and prevent their sprouting again is to pull up the root.

You sometimes say, "This cold is all over me." Every cold you have is, to a certain degree, all over you. It is evidence of a slight general weakness. It usually steals in on you at a time when the body is a little below its normal tone and the surest way to get rid of it is to bring the whole system up to its right level.

You may need some medicine. Your doctor will know. But a mere expectorant will do nothing toward restoring the body to a healthy standard. At the best its action is merely local and gives only temporary relief. Scott's Emulsion does this and more.

A small quantity of the emulsion taken regularly for a few days will supply the lack of proper nourishment in ordinary food. It is rich in the substances of which healthy blood is composed, and makes itself quickly felt in the throat and bronchial tubes. It starts the flow of mucous and relieves an obstinate cough sooner than any expectorant will do.

The emulsion does more than rid you of a cough. It rids you of the cold which is the root of the cough. Still more, it helps to protect you against a return of the trouble and against its going deeper.

Scott's Emulsion is aptly termed a food-medicine. It contains the nourishing properties of the whole cod liver oil, emulsified and combined with the medicinal qualities of hypophosphites, of lime and soda. It is probably more widely recommended by physicians for use in coughs and colds than any other preparation.

So-called wines, cordials and extracts of cod liver oil do not contain the value of the whole oil and are worthless in cases where a pure reliable cod liver oil preparation is needed. Scott's Emulsion has been the standard for over twenty-five years.

We will send a sample free to anyone on request.

MARCONI'S TRIUMPH.

Wireless Communication Between Sydney and Cornwall.

INVENTOR CONFIRMS STATEMENT

The Italian Warship, the Carlo Alberto, In Constant Touch With the Poldhu (Cornwall) Station During and After the Voyage to the Canadian Station—What Marconi Stands By.

Halifax, Nov. 20.—Signor Marconi yesterday confirmed the report cabled from Rome that the Carlo Alberto had been in constant communication with the station at Poldhu, Cornwall, on the voyage across the Atlantic and that a message had been received by him on the Carlo Alberto while she lay in Sydney harbor.

It was reported in Sydney yesterday morning that a message had been received at Table Head from the Cornwall station, and the fact that the Italian cruiser Carlo Alberto was gaily decorated with flags and bunting lent color to the report. A reporter telephoned to the Table Head station and asked Mr. Vivian for a denial or confirmation of the report. Mr. Vivian turned to Marconi and repeated the message. A minute or two later Mr. Vivian returned to the telephone and stated that Mr. Marconi would say nothing about report that a wireless message was received there yesterday morning, but he would confirm the report that a wireless message was received in Sydney harbor on the Carlo Alberto from the Cornwall station. "In fact," he said, "the vessel was in communication with the Cornwall station during the entire voyage."

It is not believed, however, that another message was received at Table Head yesterday.

ANGUS M'LEOD, M.P., DEAD.

Member For Ontario Died at Vancouver of Typhoid Fever.

Vancouver, B.C., Nov. 20.—Angus McLeod, M.P. for North Ontario, died here Tuesday evening. Mr. McLeod came here a couple of weeks ago on business, and shortly after his arrival was seized with an attack of typhoid fever. His condition becoming dangerous, Mrs. McLeod was notified, and she reached here shortly before his demise.

The death of Mr. McLeod will be learned with deep feelings of regret by all who knew him. He was of a kind and generous disposition, and a gentleman of sound judgment in business matters. He was born in Halton County 47 years ago, and worked himself up from a lad in the humblest branch of the business to a partnership in the well-known lumber firm of McCormick & McLeod. After a youthful experience in the lumber camps, he entered the employ of the Victoria Harbor Lumber Company, and worked himself up as manager of that concern. In 1891, he joined in partnership with George McCormick, M.P., for Muskoka and Parry Sound, with headquarters at Orillia. He married a daughter of George E. Langford, ex-local member of North Ontario, whom he leaves, with a family of four boys and one daughter to mourn his loss. In the last general election he was the successful Conservative candidate.

Toronto, Nov. 20.—Mr. McCormick will leave the city to-day to meet Mrs. McLeod with the remains at Winnipeg. Interment will take place at Bracebridge, the home of deceased.

TO RIVAL THE C.P.R.

Mr. J. J. Hill Preparing to Build Toward the Coast.

Victoria, B.C., Nov. 20.—A special from Greenwood says that engineers are laying out material in the yard at Curlew, Washington State, preparatory to building the Vancouver, Victoria & Eastern Railway, through Midway, Greenwood and the Boundary mining camps. Work will be started as soon as the Boundary system is completed on the road westward to the coast.

Fighting Canned Fruit Trust.

Toronto, Nov. 20.—The Strathroy Canning & Preserving Company are at law with the Dominion Syndicate and Arbitration Board. The syndicate consists of an amalgamation of canning companies for the upholding of quality standards and the regulation of prices, and has offices in Hamilton. It had occasion to appoint an Arbitration Committee of four persons to examine and arbitrate on the quality of the pack of the Strathroy Company. The latter moved yesterday before Chief Justice Meredith to restrain the arbitration from proceeding until after the disposal of certain questions of law involved. After hearing the evidence, the case was adjourned till Tuesday.

Rev. George Martin Pleads Guilty.

London, Nov. 20. — Rev. George Martin, the clergyman of the Church of England, who was arrested on the day of King Edward's procession through London, on a charge of threatening to blow up a grand stand in front of St. George's Church, pleaded guilty in Old Bailey yesterday. Sentence was postponed.

How's This?

Hall's Catarrh Cure is taken internally, acting directly upon the blood, and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

A SOURCE OF SURPRISE

To Physicians and Patients Alike.

Dr. Redmond, a specialist in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the recent discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him, because he had carefully analyzed the preparation and no trace of opium, cocaine, or similar poison, could be detected.

Physicians look with great favour upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations, and because it is so simple, so easily applied, and contains no mineral or other poisons, so commonly used in pile cures.

Dr. Eastbrook reports that the Pyramid Pile Cure, not only cures the various forms of piles, but never fails to give immediate relief on the first application, no matter how severe the pain or the discomfort may be.

People who have suffered from piles for years, are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation.

Mr. J. W. Rollins, of Sweet Springs, Mo., writes: "I consider the Pyramid Pile Cure without an equal; it cured me in less than 20 days. I waited 15 days or more to be sure I was fully cured before writing you; I can now say I am cured, and I shall recommend the Pyramid Pile Cure at every possible opportunity, because it deserves it.

The popularity of this remedy is such, that all druggists now sell it at 50 cents a package, and its sales exceed those of all similar remedies combined.

Write Pyramid Drug Co., Marshall, Mich., for their book on cause and cure of piles.

MATOS VERSUS CASTRO.

Former Said to Be Trying to Get Colombian Government's Aid.

Willemstad, Island of Curacoa, Nov. 20.—President Castro of Venezuela is energetically pushing operations to prevent the revolutionists in that Republic from recovering from the effect of their dissensions and the flight of General Matos. One of the objects of Matos' departure, it is reported, is to attempt to induce the Colombian Government, which is markedly unfriendly to President Castro, to send arms and ammunition to his men. Matos also relies on his wealthy friends in this island, with whom he is conferring, although sick. These persons have already contributed money in support of the Venezuelan revolution, but, under the belief that President Castro would flee from the country. Consequently inadequate preparations were made, and, hence, the present condition of the revolutionists. Matos' future plans are kept secret. Though his estates in Venezuela have been confiscated, he still has money, and can, if he chooses, continue the contest.

Not Known in Toronto.

Detroit, Mich., Nov. 20.—William W. Brady, aged 25, whose home is in Toronto, and who is a switchman employed by the Grand Trunk Railway, was crushed between two cars near the Farnsworth street crossing. At St. Mary's Hospital it was found that no bones are fractured. Brady may be severely injured internally.

Toronto, Nov. 20.—Brady's name does not appear in the city directory and the Grand Trunk officials say they know of no switchman by that name in their service.

Rioting in Rio Janeiro.

Rio Janeiro, Nov. 20.—Riotous demonstrations yesterday marked the departure from this city of the retiring President, Dr. Campos Salles. Crowds of people hooted the ex-President and stoned newspaper offices. Troops charged the rioters, at least one man was killed, a number of persons were injured and numerous arrests were made.

Canadian Methodists Mourn.

Toronto, Nov. 20.—Rev. Dr. Carman, General Superintendent of the Methodist Church in Canada, has sent the following cable to the church authorities in England: "Canadian Methodism mourns, with British Methodism, death of Hugh Price Hughes."

Bye-Election Postponed.

Montreal, Nov. 20.—The bye-election in Maisonneuve caused by the appointment of the Hon. Raymond Prefontaine as Minister of Marine and Fisheries, has been postponed until Dec. 9, owing to the returning officer finding it impossible to affix the proclamations within the legal time.

Sentenced to 20 Years.

Halifax, N.S., Nov. 20. — Morton McNutt, found guilty at Truro Tuesday for attempting to murder his wife, was yesterday, sentenced to 20 years' imprisonment in Dorchester Penitentiary. He also received five years' additional for shooting at Mrs. Hamilton, his mother-in-law.

Pleads Not Guilty.

Rochester, N. Y., Nov. 20.—Mrs. Lulu Miller Young, accused of having murdered Miss Florence MacFarlan Tuesday, was arraigned in the Police Court yesterday and pleaded not guilty.

Sworn in Monday.

Ottawa, Nov. 20.—The Supreme Court has adjourned until Monday, when it is expected that Sir Elzear Taschereau and Mr. Justice Armour will be sworn in.

Miss Balfour Weds.

London, Nov. 20. — Miss Blanche Balfour, a niece of the Premier, was married to a Mr. Dugdale at St. Mary Abbott's Church in Kensington yesterday.

Eighteen Killed in Explosion.

Cairo, Nov. 20.—A powder magazine in the citadel here blew up yesterday. Eighteen Egyptians were killed and a number of others injured.

G. R. MAXWELL, M.P., NO MORE.

Died in Vancouver, B.C., Monday After a Long Illness.

Vancouver, B. C., Nov. 19.—George R. Maxwell, member of the Dominion Parliament for Burrard, died at his residence in this city at midnight Monday, after a long illness. Deceased, who was a Liberal in politics, was returned as the first member for Burrard in 1896, and was re-elected at the last general election.

Immigrants For Canada.

Halifax, N.S., Nov. 20.—The Hamburg-American Line steamer Armenia arrived last evening from Hamburg, via Bologne, with 323 immigrants. Ninety-three are for the United States and the balance for points in Canada. The passengers left for their destinations by train last evening.

Artist of International Fame.

San Francisco, Nov. 20.—Juan B. Wandesford, an artist, with an international reputation, is dead in this city. He suffered the loss of many valuable pieces of his handiwork by the destruction of his home at Hayward's, by fire, several years ago. He was a native of England, aged 85 years.

Dr. Kent to Get Bail.

Rochester, N. Y., Nov. 14.—Leland D. Kent, the Buffalo medical student under indictment for manslaughter in advising and abetting Ethel B. Dingle in ending her life at the Whitcomb Hotel in this city several weeks ago, will be admitted to bail at the opening of court this morning. Three bondsmen have qualified in the sum of $5,000.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

Found Dead in His Room.

Toronto, Nov. 20.—The body of George Dick was found on the floor of his bedroom at 189 Church street yesterday afternoon. He had been missing for a day. Death is thought to have resulted from apoplexy, and no inquest will be held.

Vandals in Berlin.

Berlin, Nov. 20.—Vandals have again broken off parts of five of the statues on the Sieges Allee, the historical series erected by Emperor William at his personal expense. The statues themselves were not harmed.

Woman Was Mistaken.

Washington, Nov. 20.—Chief Wilkie of the United States Secret Service, in speaking yesterday of Mrs. Lena Doxheimer's story of a plot to kill President Roosevelt, said that a searching investigation proved she was mistaken.

Hall Got Four Months.

London, Nov. 19.—Edwin Hall, the laborer found guilt of fraud, was sent to the Central Prison for four months. He obtained money by false pretences on the production of a bank book.

Treatment for Mange.

Mange is caused by a small parasite (insect). Rub once a day with carbolic acid, half ounce; oil or tar, four ounces sulphur, four ounces; cottonseed oil, one quart. Wash with tar soap after three or four days.

A Pyromaniac.

A prominent citizen of British Columbia has been arrested on a charge of arson. Of course he's a pyromaniac. If he had done it in any other way than by an irresistible impulse he would have been a firebug.

The Food System the Source of Life

Any Derangements of Liver or Kidneys That Interfere With Digestion and Assimilation of Food Rob and Deplete the Body.

Dr. Chase's Kidney-Liver Pills.

It matters not how good your appetite, how you relish your food or how much you eat, so long as there is anything to interfere with proper digestion and assimilation of the food by the body, strength and vigour will gradually decline and weakness and debility take their place.

The most frequent cause of disordered digestion is sluggish action of the liver, kidneys and bowels. The whole alimentary canal, through which the food passes on its way through the body, becomes choked and clogged, and the system is poisoned and diseased.

Dr. Chase's Kidney-Liver Pills have been marvellously successful in exactly this class of disease, principally because they act directly on the kidneys, liver and bowels, regulating and invigourating their action, and restoring them to health.

Mr. R. Beach, 225 Sherbrooke street Peterborough, Ont., states: "About two years ago I became subject to cramps, which were caused, I was told, from acute indigestion. I was so bad that I would be laid up for weeks at a time. These attacks came on periodically, and distressed me greatly.

"I then began using Dr. Chase's Kidney-Liver Pills, and have found them a wonderful medicine. They have entirely prevented a recurrence of my trouble, corrected the derangement of my digestive organs, and made me feel like a different person."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 11

HE'S STILL CURED.

Ademard Cederre Used Dodd's Dyspepsia Tablets Three Years ago and has had no Indigestion Since.

These days of hurry and excitement bound to make themselves felt in the overworked human body, and on no part of it do they tell more quickly than on the stomach.

An extra strain of work, and especially brain work always must affect the appetite, and what affects the appetite must affect the stomach. And if the stomach is not cared for, rested and recuperated, Dyspepsia must result. Dodd's Dyspepsia Tablets rest the stomach and keep it in a fit condition to do its work, easily and well. They also cure dyspepsia in its worst form. Thousands who have been cured by Dodd's Dyspepsia Tablets will tell you so. Ademard Cederre, of St. Jacques de L'Achigan, is one of these. Listen to his story:

"I suffered from Dyspepsia caused by inflammation of the stomach," says Mr. Cederre. "I tried medicines without getting relief, and was almost discouraged. One day I read of the cures performed by Dodd's Dyspepsia Tablets, and I bought two boxes of them. I found relief almost at once, and was finally completely cured.

"It is three years since I was cured of Dyspepsia by taking Dodd's Dyspepsia Tablets and I am still cured."

Undertaker and Dealer in Every Description of Furniture.

HUNTER STREET WEST

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents

326 George Street.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyzes and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Reports the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments. Prospectus free upon request to-day. Published daily except Sunday by Dow, Jones & Co., 44 Broad street, New York. The oldest, best, most influential financial paper published in America. $12 per year, $6 for six months. Subscriptions and renewals taken at the Examiner office, Peterborough.

CARRIE AT THE HORSE SHOW.

Mrs. Nation Creates a Scene in New York by Harranguing Those Present—Ejected by the Police.

New York, ov. 21.—Mrs. Carrie Nation broke loose at the Horse Show yesterday afternoon. She harangued the multitude on the evils of overdress, attempted to break a bottle of champagne and finally was ejected from the building by the police.

Mrs. Nation entered the Garden quietly and took a seat in the tier. She had been there only a few minutes when her gaze rested on the box where some of the Vanderbilt family were sitting. She studied her program and then descended to the promenade. Stationing herself in front of the Vanderbilt box she delivered a tirade on overdress.

In the box were seated Mrs. Alfred G. Vanderbilt, Reginald Vanderbilt and Miss Nelson. Alfred G. Vanderbilt was leaning against the rail of the promenade and did not see Mrs. Nation approach.

"You ought to be ashamed of yourselves," the woman screamed at them. "You ought to be ashamed to wear such disgraceful clothes. Take them off, take them off at once and attire yourselves more modestly."

Alfred G. Vanderbilt hastily left his position at the rail and came over to where Mrs. Nation was standing wiping her forehead with a handkerchief.

He whispered something in her ear and pushed her away.

The outburst of the woman attracted a great crowd of people, and the occupants of the Vanderbilt box were evidently much embarrassed. Mrs. Nation then turned her attention to other boxes. Finally she started for the cafe, where she bore down on a party of gentlemen who were drinking wine. Mrs. Nation seized the bottle, and glaring at the men shouted:

"Young men, don't drink such filthy stuff. You are going straight to hell. Where is the man who sells this damnable stuff? Show him to me and I will tell him what I think of him."

Mrs. Nation's request was speedily granted by the sudden appearance of M. Villepigue, the caterer at the Garden.

"Get out of this horrible business," she shouted at him, "you are also going to hell and ruining the bodies and souls of men. You are dragging them down with you. Shame on you, shame on you."

The Frenchman, however, pounced upon Mrs. Nation and rescued the bottle, which she had repeatedly brandished in the air to emphasize her remarks. The police forced her out of the building.

Capt. Bernier's Plan.

The plan of Capt. Bernier to reach the North Pole is to sail up the Pacific coast, through Bering Straits, and northward to the ice pack, to enter it, and trust to the currents, which Captain Bernier thoroughly understands, to carry his vessel, imprisoned in the ice, past the pole towards the eastern coast of Greenland. He will cover fifty miles on each side of his course with sledge parties, make surveys, take soundings, and gather all possible information. The search for the northwest passage, then for the lost Franklin expedition, and finally for the north pole, has tempted many daring adventurers and led to many unfortunate and disastrous results. The practical benefits to follow success are as yet problematical, says The Globe, but it would be over-bold to say that any addition to the sum of human knowledge will be of no use. It is generally a sublime curiosity that prompts the patient worker to unlock the secrets of nature. Then comes the practical man, who turns the new knowledge to a multitude of uses. The secrets of the pole and the observations and soundings made there may be turned to many uses not now contemplated. And even if the demand for practical results is not met, there will be an inspiring influence in the consciousness of man's crowning triumph over nature, where her stronghold has been so long impregnable.

Another Canadian Power Project.

The development of the High Falls on the Livere River, Quebec, about 80 miles from the city of Ottawa, is being projected. There is a drop of 180 feet at the falls, and further drops between the falls and the outlet in the Ottawa River. In all, at lowest water, the Livere River, from its falls to its mouth, can probably produce 50,000-horse power of electrical energy, which can be transmitted to Ottawa and other points. Electrical energy, produced by water power, costs in the Ottawa valley, at present, about $15 per horse power per year, while the same amount of power produced by steam costs upward of $50 per annum, but with the important difference in favor of water that the steam-produced power is only for the ordinary working day, while the water-produced power is for the whole 24 hours. The Ottawa Valley is a veritable storehouse of power. The Rideau, Livere and Gatineau Rivers, the Chats Falls, Dechenes Rapids and the Chaudiere Falls are destined to make Ottawa the centre of a vast supply of electrical energy when all these water powers are fully developed.

Sir Wilfrid's Birthday.

Hot Springs, Va., Nov. 21.—Telegrams were received yesterday from all over the Empire congratulating Sir Wilfrid Laurier on his 61st birthday. Sir Wilfrid and Lady Laurier were given an informal reception yesterday afternoon by Mrs. S. Barton-French, who was educated at Oxford.

One of the most dangerous and repulsive forms of Kidney Disease is

DROPSY

for which Dodd's Kidney Pills are the only certain cure. In Dropsy the Kidneys are actually *dammed up*, and the water, which should be expelled in the form of urine, flows back and lodges in the cells of the flesh and puffs out the skin. Remove the filth which plugs up the drain. Restore the Kidneys to health. There is only one Kidney Medicine

DODD'S KIDNEY PILLS

Nervous Prostration Cured by DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

"I am an engineer by trade and the hard work and worry of running a large engine brought on nervous prostration," writes Mr. Chas. F. Dixon, of Arbuckle, Colusa Co., Calif. "A friend recommended Dr. Pierce's Golden Medical Discovery to me and I bought one bottle; thought that it helped me so continued the use of it until I had taken six bottles. I feel better than ever in my life. Am not a particle nervous, can work hard all day and sleep sound at night. I not only think so but I know that the 'Golden Medical Discovery' cured me and therefore I will recommend it to others."

Dr. Pierce's Pleasant Pellets regulate the bowels and stimulate the sluggish liver.

Regulate Your System.

You can protect yourself against chronic constipation, biliousness, typhoid fever, grippe, and all kindred complaints by using

Abbey's Effervescent Salt

It will keep the various organs of the body working smoothly and will drive out the poison that causes disease.

It is the most wonderful regulator of health, the greatest preventative of disease and the best tonic and laxative known.

Sold by all druggists.

Captain's Farewell Message.

Quebec, Nov. 21.—A bottle containing a small slip of paper was picked up at Hadlow yesterday. On the paper was written in lead pencil, "Schooner Snowbird met gale opposite Pointe Des Monts. Foundered with all on board; 4 men and myself. Lost; good-bye; Capt. Lawlor. Please communicate with my w—."

British Force a Blockade.

Port of Spain, Trinidad, Nov. 21.—The British cruiser Phaeton, which left this port for Ciudad Bolivar, Venezuela, is reported to have forced the blockade and taken in mail and provisions for the English colony, which was in a destitute condition.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalising blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

English Epigrams.

Here are some epigrams culled from speeches delivered during the week ending Oct. 18:

"Queen Victoria transformed Great Britain into a crowned republic, a nation in which the will of the people is the supreme law."—Andrew Carnegie.

"Great poetry is the surest antidote to the prevailing virus of materialism."—Alfred Austin, the Poet Laureate.

"The educational system of this country is chaotic and utterly behind the age."—Prime Minister Balfour.

"In dealing with education the first thing is to consider the children; the churches come afterward." — Austin Chamberlain.

"We want sometimes in this country a little more of the spirit of toleration."—Earl Spencer.

"This is above all a reading age, but how many people read the Bible?"—The Bishop of Manchester.

"Plenty of porridge and milk will do more for the physique of a nation than the most up-to-date physical drill."—Prof. Laurie of Edinburgh University.

"We must dispel the blight of inquisitorial oppression which stunts, distorts and withers every branch of the national life of Ireland." — The Right Hon. George Wyndham, Chief Secretary for Ireland.

"The bicycle nowadays is part of the necessary equipment of a lad"—County Court Judge Sir A. Marten.

Splendid Paupers.

Apropos of the recent speech of the Duke of Argyll, protesting against the "tremendous burden" of the death duties, the Duke has been reminded by the Liberal press of London that the Scotch peasantry pay him $250,000 a year in rents, that the Duchess receives $30,000 a year of public money, and that, after deducting his annual instalment toward the death duties on his father's estate, the Duke and Duchess will have to play the part of splendid paupers on only $215,000.

The following despatches have been received by E. M. Pousett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 20th, 3.30 p.m.—The stock market displayed better tone today than for some time past. The advance throughout the list from yesterday's low point was well sustained, and while trading has been moderate, it is as much the result of light offerings and scarcity of stocks as the want of buying orders. This last feature undoubtedly exists, and common houses are generally carrying few stocks. The feature of greatest interest to the street remains unexplained, and that is, the sustained value of traction shares. A conviction is slowly gaining ground that some important consolidation of interests is pending, and it is this conviction which has reassured the public, and broadened the confidence felt regarding the market conditions. This confidence, however, does not yet include more than tentative satisfaction with the condition of the money market. This is open for discussion and varied opinion. The efforts to postpone the actual shipments of gold are known, and the ultimate result will undoubtedly be the usual rectification of balances, by shipments of gold. Meantime there is no reason for a serious reverse in our stock market. There will doubtless be support given, as the case of tractions and Gould shares coming from those not dependant absolutely on lending power of banks, and this, we believe, will be sufficiently to at least achieve general stability.

M. & M.

New York, Nov. 21st, 10.00 a.m.—London seems to be moderately bearish on American shares, and that market shows fractional declines this a.m. We are not inclined to look for a market largely influenced by a foreign view of our affairs at this time, beyond its effect in creating a further debit balance against us abroad. The American Bankers reply to this, as noted in these despatches, has been some placing of time bills abroad at the higher rates of exchange, which it is believed will be met by credits lately established against exports. The feature of the money market yesterday was the offering of time money on four, five and six months which, with premium, calls for 6 1-2 to 7 per cent. This has been taken to indicate that the mild crisis is beginning to pass into a still less acute stage, though by no means indicative of what might be called an easy money market.

M. & M.

The market to-day will open with the principal feature of the week unexplained. Though official statement is lacking as to details. It seems to be taken for granted that the traction lines of borough of Manhattan and Brooklyn at least are to be included in a combination under one management, controlled by the new subway corporation. The course of the market to-day will largely determine whether the influence of traction deals have been paramount in leading general strength to the list or wheather the financial conditions justify a continuation of tone evidenced in yesterday's trading. We are inclined to the latter view, and while expecting no marked advance, we look for a continuation of a moderate degree of confidence, with a hardening of values of a better class of securities.

M. & M.

New York, Nov. 21st, 10.00 a.m.—Control of Manhattan by Interborough Transit Co. confirmed. Time money is slightly more plentiful. Some demand for B.R.T. in loan crowd. Bankers say immediate shipments of gold improbable. A.L.C. has more orders on their books than at any time in its history. U.S. Steels officials say the coke situation is worse than ever. Generally conceded C.F.I. control has passed through Hawley-Gould hands. Expected that Manhattan will issue 12 to 15 millions of new stock, with rights at par. Twelve industrials advanced 35 per cent. Twenty active railroads 66 per cent.

DOW, JONES & CO.

New York, Nov. 21st, 11.00 a.m.—Liverpool wheat 1-4 higher, corn unchanged. At 1.30 p.m. wheat was 1-8 to 1-4 lower; corn 3-4 to 7-8 higher. Car lots of wheat, 64; Corn 110, and oats 98. Armour was selling wheat this morning. Argentine shipments—wheat 48,000; last year 80,000. Corn 732,000; last year 493,000.

DENISON.

Stocks firm with strength in St. Paul and M.O.P. the feature. Buying in St. Paul has been by Grieset, Black, Amory, Rutter, Gross and Halstead. Strength of situation is manifest but we hardly are inclined to look for further improvement without some reaction.

M. & M.

New York, Nov. 21st, 12.15 p.m.—More encouraging developments of activity in railroad stocks than for some time past, and especially in St. Paul, and what may be called Standard Oil issues. Coppers strong on covering of shorts; sugar strong on rumors inside secured all floating stock in sight on recent break, and might advance dividend.

DOW, JONES & CO.

General tendency is to discount good bank statement, which is expected to show an increase in reserve and no increase to any extent in loans.

M. & M.

AN ENTERTAINMENT

That was Given by the A. O. F. Last Night—The Programme.

The entertainment which was given in the Sons of England Hall last evening, under the auspices of the A.O.F. was a grand success. The chair was occupied by Mr. W. J. Johnston, District Deputy, and the following programme was rendered:

Opening Chorus ..... By Members.
Chairman's Address .....W.J. Johnston
Solo ....Mr. Gerrard
Reading .... Miss Smith
Song entitled ..... "Medicine Jack."
Recitation ....Mr. James
Solo .... Mr. Weir
Reading ....Robt. Harding
Duett .... The Misses Mongraw
Reading ....Robt. Harding
Quartette .... "My Hanna Lady."
Recitation ....Miss Smith
Comic Song .... Mr. Weir
Recitation ....Mr. James
Instrumental Quartette ....
Recitation ....Lieut.-Col. Miller
Instrumental ....Mr. Williams
Song .... Mr. Stunner
Reading ....Robt. Harding
Comic Song ....Mr. Edwards
GOD SAVE THE KING.

Refreshments were served during the evening, and a highly enjoyable entertainment was brought to a close by singing the National Anthem.

An Explanation.

"C. R. Co." rubbers are rubber shoes made in Canada by The Canada Rubber Company.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID

MR. JAS. ROSS PRESENTS AN HOSPITAL

To the Town of Lindsay and County of Victoria

IN MEMORY OF HIS PARENTS.

An Address From the People of Victoria —Mr. Ross in His Reply Refers to His Early Residence in Lindsay—The Opening Ceremonies.

(Toronto Globe.)

Lindsay, Nov. 20.—An extraordinarily fine day for the month of November—even in the land of "Our Lady of the Sunshine"—greeted the ceremonies attending the presentation of the Ross Memorial Hospital to the people of Lindsay by Mr. James Ross of Montreal. Hundreds of people came from the neighbouring townships to view the hospital and to hear the address at the Collegiate Institute. Many visitors from Toronto, Peterborough, Cobourg and many of the smaller Canadian towns were also present. Mr. Richard Hall, chairman Nicholls Hospital Board, and the Lady Superintendent, of the Peterborough institution, Miss Coleman, were present.

Mr. and Mrs. James Ross, accompanied by their son, Mr. J. Ross; Mrs. Peterson of Montreal. Mr. Porteous and Mr. Wilmot Matthews arrived about noon in a private car, while a special carriage attached to the regular morning express brought a bevy of medical lights from Toronto.

At 11.30 o'clock Mr. and Mrs. Ross drove to the hospital through the gaily decorated streets and up through a line of fine-looking young cadets from the Collegiate Institute, who constituted a guard of honour for the occasion, to the doors of the beautifully designed and equipped hospital—the munificent gift of a man who designed it as a memorial to the memory of his father and mother, who were for many years respected and beloved residents of the Town of Lindsay.

Awaiting the arrival of Mr. and Mrs. Ross were the Hospital Committee, of which Mr. J. D. Flavelle chairman. The chairman presented Mrs. Ross with a small gold latch key, bearing a suitable inscription, which was delivered with a few felicitous words, and replied to with a simple yet cordial acknowledgment by the recipient, whose clear tones declared the hospital "open" to the public. This was followed by the presentation of the deed of gift by Mr. Ross to the Warden of the county, and the Ross Memorial Hospital became the property of the people.

A hasty inspection of the hospital followed the presentation of flowers to Mrs. Ross and Mrs. Peterson, and a great, fragrant bouquet of roses was put aside to send to Mrs. Grace, one of the governors of the hospital and a sister of Mr. James Ross, whose absence from the opening ceremonies was said to be due to the previous strain consequent upon her labours in connection with the furnishing of the hospital, a work so successful in its completion that the usual atmosphere of "hospital" wards was transformed into the most artistic and beautiful of domestic environments.

AN ADDRESS PRESENTED.

After a brief stay at the hospital an adjournment was made to the Collegiate Institute, where one of the rooms was tastefully decorated. Mr. and Mrs. Jas. Ross, with Mrs. Peterson, and their son, and Mrs. Dean, wife of Judge Dean, occupied the front seat on the platform.

Mr. J. Austin, Warden of the county, presented Mr. Ross with an address, after a brief opening speech from Mr. J. D. Flavelle, whose services in connection with the establishment of the hospital, are fully appreciated by those associated with him in his labour of love, to which Mr. Ross made feeling reference.

Mr. T. R. McNeillie, the secretary of the committee, read several letters of regret, one being from Hon. G. W. Ross. Hon. Mr. Latchford, Commissioner of Public Works, was present, representing the province. The letters were couched in terms of the most sincere respect and admiration for the donor of the hospital.

Brief addresses were delivered by Hon. Frank Latchford, Wm. Ross, M. P., Port Perry; Judge Dean, and other gentlemen.

Rev. Mr. Marsh opened the proceedings with prayer. Dr. Temple, Dr. Bingham, Dr. O'Reilly, Col. Ryerson, Dr. Ross, Toronto; Dr. Burroughs and Dr. Poole, Capt. Deacon, Senator Dobson, Senator McHugh; Mr. Wm. Ross, Manager Dominion Bank; Mr. Padden, Bank of Montreal; Fathers Casey and McCaul, and Mr. Stewart, were among the many well known people on the platform. The speeches of the medical fraternity were all eulogistic in tone, not only in regard to the perfection of the gift, but as to the good fortune of the institution in securing the services of Miss Scott as superintendent of the hospital, Miss Scott being a graduate of the Toronto General Hospital, superintendent of Dr. Temple's hospital in Toronto, and up to some time ago, the Royal Victoria Hospital, in Montreal.

"C. R. Co." rubbers are the most tasty and best constructed rubber shoes in Canada. If you value comfort and wear insist on your shoes dealer supplying you with this brand.

The choicest cider made is Allen's of Norwich—On draught at Henry & Co's.

A CHEAP SUBSTITUTE FOR COAL.

Instead of $15-a-ton coal, use gas for cooking—cleaner, cheaper, better.

LATEST IN SPORTING CIRCLES

London and Peterborough Play To-morrow Afternoon.

Shall There be a Ladies' Hockey Association?—Curlers Met Last Night.

There is a movement on foot to organize the various ladies' hockey clubs throughout the province into an association, and form a branch of the O. H. A. A Toronto paper suggests that Mr. W. A. Buchanan or Mr. J. A. McFadden be entrusted with the task as they are best adapted to that particular line of work.

The growth of enthusiasm in hockey amongst the ladies of the province has, no doubt, set the O.H.A. officials thinking, and there appears to be no reason why the ladies' section of the association could not be placed on a flourishing basis. Peterborough's Ladies' Hockey Club should welcome such a step, for during the past year or so they have shown wonderful knowledge of the game and have exhibited the same determined spirit as characterizes the local intermediates.

RUGBY.

Last night the last practice before the game with London was put in, and all should be in the pink of condition. Last year one of the boys was injured the night before the London game and last night Revell received a bad strain, although it is hoped that he will be around by Saturday. Deannard is also sick and it is not certain whether he will be able to play or not, but we can hardly afford to lose any one of the trio at present. The team will be chosen from the following:—Lee, McPherson, Burnham, Armstrong, Bell, Deannard, Hurtubise, Thornton, Revell, Dillon, Asselstine, Meagher, Crowley, Rickey, Noble, Cameron and Craig.

* * * *

On Wednesday the Lakefield Preparatory School sent its rugby team to play the T.C.S. juniors in Port Hope. The game resulted in favour of the T.C.S. team by the score of 23—0.

* * * *

In order to settle a controversy over the respective punting ability of Hardisty of the Toronto Argonauts, and Beatty, of Varsity, Manager Thompson, of the Argos, has declared his willingness to donate a gold medal for a kicking contest between the pair. His suggestion is that each man be allowed ten kicks, next Saturday, and the player making the greatest distance on the aggregate will win the trophy.

* * * *

Tickets for the Rugby match tomorrow between London and Peterborough, are on sale at Mr. Dickson Davidson's drug store, and at the Examiner office.

CURLING.

A meeting of the Curlers of the town was held last night, when reports were received from the various committees. The proposition to form a lady's section of the club was received with much favour.

HOCKEY.

THE STAR'S OPINION.

The Toronto Star in referring to the Examiner's suggestion that there should be a fourth series in the O. H.A. to take in teams not quite strong enough for the intermediate series, and barred from the junior series by reason of the age limit, says:—

"This is an excellent suggestion, and should find favour at the O.H.A. annual meeting. The new series would be equivalent to the present junior series in the O.R.F.U., which gave a number of smaller towns a chance to put teams in the field for the first time. The abolition of the age limit made it possible for this to be done."

AGAIN ORGANIZED.

A large and representative meeting in the interests of hockey, was held at Hotel Quinte, last evening, says the Belleville Intelligencer, and the result was that a club was formed and the following officers unanimously elected:

Hon. President—Mr. H. Corby, ex-M.P.
Hon. Vice-President—Mr. Thos. Bitchie.
Manager—Mr. H. S. Burrell.
Secretary-Treasurer—Mr. F. E. Hudson.
Captain—Mr. H. McGuire.

MISCELLANEOUS.

A horseman from Peterborough was in Buffalo lately trying to buy the outlawed trotter Dave Hughes, 2.15 1-2, to use on the Canadian Ice Racing Circuit this winter, so says a Buffalo contemporary.

* * * *

The M.A.A.A. members on Tuesday evening declined to alter the bylaws so as to admit liquor into the proposed life members club. For two years this question has been prominent before the association. It was proposed to erect beside the new clubhouse a building to be rented to a life members' club, and to allow them to have liquor, if they wished. Tuesday's vote settled once and for all that there will be no M.A.A.A. social club with liquor.

AT THE POLICE COURT.

Allowed to go on Suspended Sentence.

This morning's Police Court was long, and a number of witnesses were examined. Mrs. Perry, who was remanded from yesterday, was not found guilty of stealing jewellery, but his Worship thought it was proven that an apron had been purloined by her. She was allowed to go on suspended sentence.

G. A. DARLINGTON DEAD

Suicided, After First Shooting His Sweetheart.

HOME AT STRATHCONA, ALBERTA

Jealousy Was the Cause of the Attempted Murder—Miss Bertha Sheldon, the Victim, Will Recover—The Tragedy Took Place at Ann Arbor, Mich.—The Suicide Left a Letter.

Ann Arbor, Mich., Nov. 22.—Because Bertha Sheldon allowed another man to escort her home Thursday night from the store where she is employed, C. A. Darlington, a packer for the Ann Arbor Organ Company, and a student in the University School of Music, shot her in the arm yesterday, and then shot himself to death. Darlington and she had quarrelled over the episode. The young man came here from Strathcona, Alberta. He served with Canadian soldiers in the South African war. He was about 24 years of age.

Miss Sheldon's wound is not dangerous. Darlington took a prominent part in Y.M.C.A. work here, and was extraordinarily zealous in the cause of religion.

Suicide Left a Letter.

A letter was found in the Teufel yard, where the shooting took place, after the shooting. It was signed "Darlington," and read:

"Nov. 21. 1902.

"Notice.—Please do not send my body home. Give it to the doctors of the University Hospital. My musical instruments are to go to G. F. Gordon. My books are to be given to the Young Men's Christian Association. My clothing and other belongings are to be taken by Edward Keinschindt. My gold locket and gold watch to go home. I am insane as ever a man was and eternally lost. To all my friends and dear ones, good-bye. Love to my darling mother."

A DARING HOLD-UP.

Man Shot in the Neck by a Desperate Highwayman at Toronto Junction.

Toronto Junction, Nov. 22.—This town was thrown into a fever of excitement about 11 o'clock last night by one of the most daring hold-ups ever known in this vicinity. The scene of the shooting was on Keele street nearly in front of the police station, and within a stone's throw of Dundas street, where cars are turning every six minutes.

Charles Mutart, a clerk in the C.P.R. freight office, and John Shaw, local manager of the Standard Coal Company, were accosted by two men, at the point mentioned, and asked if they knew certain residents of Toronto Junction. Then without any further warning the taller of the two pointed his revolver and grasped Shaw. The other man, and the younger of the two, covered Mutart, saying: "You better give up."

Shaw wrestled with his man and struck him under the chin. Finding considerable resistance to his plans and fearing that a crowd would gather he ran down Keele street. The younger man then shot at Mutart, the bullet hitting him on the left side of the neck, passing along the lower side of the jaw bone, injuring it somewhat, and passing by the carotoid artery came out at the back of the neck, passing through his shirt band and the collar of his coat.

The highwayman then shot at Shaw, the bullet passing through his clothing, breaking a button of his vest and coming out through the lapel of his coat. The murderous individual then ran down Keele street, and through a lane, which runs into Union street.

Robert Patterson was driving past, and Constable Harper, who lost no time in getting after the fleeting highwayman, hailed him. Both the highwaymen had lost their hats in the scuffle, and the constable had an excellent clue. Three cars passed him when he heard a man running along the sidewalk. When the runner got within four feet of the telephone pole, behind which the constable had hidden, Harper jumped from his hiding place and sprang upon the man, grabbing him by both shoulders.

The man reached for his revolver. Harper struck it from his hand, and managed to take him to the lockup.

To Constable Harper the prisoner said his name was Mike Griffin, but to Deputy Chief Fintoff he gave the name of Hugh Johnson. Griffin is about 27 years of age. His revolver was a 38 long make, and capable of carrying 500 yards with accuracy.

Killed by a Train.

Sarnia, Nov. 22.—Thursday night the St. Clair Tunnel was the scene of a shocking accident, by which Pasquale Coticon, an Italian, whose home is in Montreal, was almost instantly killed be being struck by a train, as it was coming through the tunnel. His legs were severed from his body, close up to the trunk, and he was otherwise terribly cut and bruised. Deceased was aged 34 years.

Died of Buckshot Wounds.

Telluride, Col., Nov. 22.—Arthur L. Collins, general manager of the Smuggler Union Mining Company, who was shot by an unknown assassin Wednesday night at Pandora, died yesterday. He was born in England 33 years ago. In consequence of the murder, the mining company has closed its mines and mills indefinitely. The company employed between 400 and 500 men.

Forty Persons Hurt.

London, Nov. 22.—A collision occurred on the Great Eastern Railway at Brentwood yesterday. Forty persons were seriously injured.

Car Broke His Nose.

Hamilton, Nov. 22.—William Donald of Dundas was seriously injured in front of the Osborne Hotel last night, when trying to board a moving electric car. He was knocked down and his nose was broken.

Fell Into the Hold.

Port Arthur, Nov. 22. — William Morrison, one of the grain trimmers at Fort William, while employed loading the steamer Chili Thursday evening at elevator "A," slipped and fell into the hold. It is not expected he will survive the injuries received.

Colt Jumped on Him.

Calgary, N.W.T., Nov. 22.—Cyril Bargugh, a young Yorkshire man, received fatal injuries on the ranch of George Morton, 35 miles north of the city. A few weeks ago a colt bucked, threw him, and then jumped on him. He was buried yesterday.

He Drank Prussic Acid.

Bowmanville, Nov. 22. — James Learmouth, a paperhanger and painter by trade, committed suicide here last evening by taking a dose of prussic acid. He was about 40 years of age. He leaves a wife but no family.

Argentine Accepts British Law.

London, Nov. 22.—The President of the Argentine Republic has sent a telegram, in which he accepts the conditions named by the Right Hon. Robert William Hanbury, President of the Board of Agriculture, under which Argentine cattle may be imported into England. These conditions are that Argentina shall adopt the British Diseases of Animals Act, inspect her own flocks, and prohibit the moving of infected animals from the districts in which they are located. It is expected that this will result in the importation of cattle from Argentina within three months, and that it will materially affect the importations from America.

CASH MERCHANTS.

OWNERS AND MINERS

Negotiating an Agreement to Settle Their Differences.

OUTSIDE STRIKE COMMISSION.

Basis of an Understanding Which May Be Reached—The Proposition Is on a Compromise Basis—Wayne MacVeagh Seems to Have Deduced Something From His Cross-Examination of Mr. Mitchell.

Scranton, Pa., Nov. 22.—The Mine Workers, through their representatives, have agreed with the mine owners to attempt to adjust the differences existing between them outside the anthracite coal strike commission. The proposition was made on a compromise basis, and negotiating, it is expected, will be at once entered upon, with a reasonable hope of settlement with the aid of the arbitrators.

The rough proposition, which is to form the basis of negotiations, is a ten per cent. increase in wages, a nine-hour day, and trade agreements between the miners and the company, by whom they are employed. The only one of the four demands not touched upon is that of weighing coal by the legal ton.

While both sides have expressed a willingness to settle their differences among themselves, it is not to be construed that it carries with it the acceptance of the terms proposed. They are mentioned only as a basis, it is understood, from which a settlement is to be effected.

It is possible that the foundation already laid can be wrecked by either party holding out too strongly against some question, and thus leave the whole matter in the hands of the commissioners, who, in the meantime, will act as a sort of board of conciliation, rather than as a board of arbitration.

Few persons were aware that an attempt would be made at an outside settlement until it was practically so intimated by Judge Gray, chairman of the commission, who read a carefully prepared announcement from the "bench." The move, one of the most important in the whole history of the coal strike, created a sensation when it was known.

It is believed that the operators were the first to make the proposition. Wayne MacVeagh, who carried on the cross-examination of President Mitchell, is given credit for bringing about the present situation. He went to New York after he finished with Mr. Mitchell and had a conference with certain persons connected with the coal industry, among them, it is reported, J. Pierpont Morgan. He was in New York yesterday in connection with the matter.

The commissioners were informed of the new turn of affairs Thursday night, and acquiesced in the proposed arrangement.

Strike to Aid Mine Mules.

Washington, Ind., Nov. 12.—Sympathy for the mules that toil in the coal mines caused all the men employed in mines Nos. 2 and 3 to go on a strike yesterday. Nearly 300 men are involved. The men claim that, for some time, the company has not been properly caring for the dumb animals, that the mules are often put to work without having been curried, fed or watered. This was the condition of affairs yesterday, and all the men laid down their picks and walked out. They have notified the company that they will not return to work until the operators agree to give the animals better treatment.

I.C.R. Telegraphers Satisfied.

Montreal, Nov. 22.—The I. C. R. telegraph operators express themselves as well satisfied with their interview with General Manager Pottinger, although no details of the arrangement reached have yet transpired.

CONNECT WITH ALGOMA CENTRAL.

C.N.R. Surveying Route From Fort William to White River.

Toronto, Nov. 22.—The Canadian Northern Railway has sent out two surveying parties from Fort William to locate a route from there to White River, where, if the extension were carried out, it would meet the Algoma Central, which, running north from Sault Ste. Marie, is completed to within five miles of White River. If the C.N.R. should push its line to the White River, the work will be completed about the same time as the North Shore and Manitoulin Line. This would mean that, by the junction of the two lines, the former could get into Ontario over the Algoma Central.

PREMIER DUNSMUIR RESIGNS.

Hon. E. G. Prior, Minister of Mines, Called Upon to Form Cabinet.

Victoria, B.C., Nov. 22.—Premier James Dunsmuir has resigned and Hon. E. G. Prior, Minister of Mines, has been called upon to form a ministry.

The composition of the Cabinet will remain practically unchanged, the vacant position of Minister of Mines being expected to be filled within a few days.

The resignation of the Premier has been pending for some time.

Government Gets $26,000 Necklace.

New York, Nov. 22. — Judge Adams, in the United States District Court yesterday, directed the jury to find for the Government in the case of Mrs. Ida Harrison Dulles, from whom a $26,000 pearl necklace was taken on her arrival from Europe some months ago. Judge Adams said that Mrs. Dulles failed to comply with the requirements of the Customs Service, and to declare the pearls, and that, therefore, they should be forfeited.

FAVORS A PREFERENCE.

Mr. Faithfull Begg's Strong Speech at the Canadian Manufacturers' Banquet—Hon. G. W. Ross on Trade.

Toronto, Nov. 22.—A banquet was given last night in honor of the delegates from the London Chamber of Commerce by the Canadian Manufacturers' Association. Although the speaking commenced at a late hour an unusually large number of interesting and important addresses were given. Mr. Faithfull Begg strongly favored the granting by Great Britain of a preference to the colonies, and said that if he were again returning for the Imperial Parliament he would not hesitate to make a colonial preference the foremost plank in his platform. Sir Albert Rollit apologized Canada's resources, and made the suggestion that the British warships should be employed in transporting emigrants from the old land to her colonies. He also promised the assistance of the Chamber of Commerce in obtaining relief from insurance discrimination against the St. Lawrence route. Hon. Geo. W. Ross, in a speech of unusual eloquence, suggested as a means of improving the trade relations of Great Britain and Canada that British manufacturers should establish branches in Canada in the same manner as the American harvester makers and other establishments have done. Mr. Tarte, who rose long after midnight, repeated his arguments in favor of increased transportation facilities for Canada and a higher protective tariff, declaring that he believed more that ever in the motto, "Business is Business."

VILJOEN IN THE DUMPS.

South Africans Have Lost Hope—Kruger Did Wash.

London, Nov. 23.—Gen. Ben Viljoen, who is going on a three months' lecture tour to the United States, said yesterday: "The South Africans depend entirely upon the British. My commando, now idle, and in which were once included many Americans, offered itself to Lord Roberts for service against the Mad Mullah in Somaliland, and I would have commanded it, but Roberts declined the offer, with thanks. I am doubtful as to the outcome of Colonial Secretary Chamberlain's visit to South Africa."

With regard to a letter written by Sir Evelyn Wood, the former Adjutant-General of the British army, on Mr. Kruger's Book of Memoirs, in which the British general alleged that the Boer President slept in his clothes, and did not wash himself which rendered proximity to him unpleasant, General Viljoen characterized the statements as ungentlemanly, uncalled-for, and untrue.

Gen. Botha Very Ill.

London, Nov. 22. — Boer General Botha, who has been suffering from a severe cold for several days, passed a restless night. His condition is serious but hopes for his ultimate recovery are entertained.

TAPS FROM THE WIRES.

It is declared that 5,000 natives were killed in the volcano eruption in Guatemala.

Crown Prince Frederick of Saxony fractured his leg below the knee Thursday, while hunting near Salzberg.

Albert Bardwell, 6 years old, one of the five Guatemala volcano refugees, who arrived at San Francisco on Wednesday, has been run over and killed by an electric car.

A Danube steamer, crowded with workmen, sank off Orsova (a frontier town of Servia, on an island in the Danube), Thursday evening. Thirty of those who were on board were drowned.

The 14-year-old daughter of Michael O'Brien of Maple, Ont., was instantly killed on Wednesday evening by the Muskoka Express. She was attempting to cross the track when going home from school.

A street car pitched into a rig belonging to the Mages Walton Lee Co. in front of the Y.M.C.A. building, Hamilton, Friday evening. Moses Furlong, the driver, was thrown from his seat and his arm was broken.

The Osborne estate bill, providing for the transfer of the Osborne House estate, Isle of Wight, from King Edward, whose property it became, under the will of the lat Queen Victoria, to the nation, passed its second reading in the House of Commons, Friday, after some criticism reflecting the feeling on the subject in royal circles.

Fifty at State Banquet.

Windsor, Nov. 22.—A State banquet of fifty covers was held in Windsor Castle last night, among the guests of the King and Queen being the King of Portugal, the Duke and Duchess of Connaught, the Duke and Duchess of Fife, the Duke and Duchess of Marlborough, and Colonial Secretary Chamberlain and Mrs. Chamberlain.

Three New Factories.

Walkerton, Nov. 22.—Three bonus bylaws were submitted to the ratepayers of Walkerton yesterday, and all carried by large majorities. One was for a bobbin factory, one for a hosiery factory, and another for a biscuit factory. There was scarcely any opposition.

STRAYED.

STRAY CALF.—CAME ON THE PREMises of the undersigned, near Auburn, on the 1st of November, a Steer Calf. The owner can have same by proving property, paying expenses, and taking him away. W. C. Taylor. 1d120-w8

H. E. BRADLEY & CO.

SUNLIGHT SOAP

Unless the soap you use has this brand you are not getting the best

"Saved My Life."

"Lydia E. Pinkham's Vegetable Compound cured me when all else had failed. I suffered a long time with female troubles."

"Mrs. Pinkham's advice and medicine saved me from a surgical operation. Doctors said an operation was necessary."

Thousands upon thousands of women throughout this country are not only expressing such sentiments as the above to their friends, but are writing letters of gratitude containing just such expressions to Mrs. Pinkham until she has more than a million from women in all classes of society who have been restored to health by her advice and medicine after all other means had failed.

Women should remember that it is Lydia E. Pinkham's Vegetable Compound that is performing such remarkable cures, assisted by Mrs. Pinkham's advice.

If you are asked by a druggist to take something else, demand the medicine which you know is best—the medicine which has made the greatest number of cures—the medicine whose record is unequalled by any other medicine, exclusively for women, in the world,

Lydia E. Pinkham's Vegetable Compound.

Daily Examiner.

London (England) office—145 Fleet street, E. C., Central Press Agency Limited, Special Agents.

SATURDAY, NOVEMBER 22, 1902.

THE CONSERTATIVE PRESS AND THE POST OFFICE.

The surplus in the Post Office revenues is a "proposition" which the Conservative newspapers cannot understand. They had grown so accustomed during the Conservative regime to apologising for deficits, that they brought themselves to believe that deficits were a necessary consequence in post office administration. Those papers fail to see how there can be a surplus. But there is a surplus and it is the result of capable business like administration. The Toronto Star points out that Sir William Mulock's management of the department has had these results: Domestic postage has been reduced from three cents to two cents, postage to England from five cents to two cents, postage to the United States from three cents to two cents, postal notes have been introduced, the service improved and extended, and yet he has produced this year a surplus of $5,000, where his Conservative predecessor had, in his last year of office, a deficit of $781,000. Please remember the figures, they are both historic and colossal.

But it has been necessary to maintain a postal service for Atlin and the Yukon, which Sir William's Conservative predecessor did not have to do, and this special and necessarily unremunerative service has been conducted at a loss of over $87,000. Outside of this new burden the department has a surplus of $5,000 where the Conservative Administration had a deficit of $781,000. Or, to put it in another way, if the Conservative Administration had been required to supply a postal service for Atlin and the Yukon, and had dealt with it as economically as Sir William Mulock has done, there would have been added to the deficit of $781,000 an extra special deficit of $87,000. If this does not make matters all clear to Conservative newspapers, we are sure nothing will afford the Liberal press of the country greater pleasure than to keep on explaining the case to them.

BRITISH AND CANADIAN RELATIONS.

Speaking at a banquet to the visiting members of the London, Eng., Chambers of Commerce, Sir Vincent Barrington said he had found an undercurrent of complaint that Englishmen had not that knowledge of Canada which they ought to have. Some allowance, however, must be made for their education, as Englishmen had been accustomed to pictures of Canadians robed in furs. In England to-day sympathy and admiration for Canada were great and universal. The desire to help Canada was not the possession of any particular party or sect in England. As to meeting Canadian wishes with respect to a preference, there were great difficulties in the way. There was the strong free trade sentiment in Britain, and also the feeling that if the mother country gave a preference to her colonies it would be liable to forfeit the advantage of the most-favoured-nation clause with other countries. With respect to improved steamship service, it was only fair that Britain, having given subsidies towards steamship communication with the United States, should deal equally well with her loyal colonies. Sir Vincent spoke of the investment of British capital in foreign countries, and expressed the opinion that if investments had been made in the colonies they would have turned out equally well. The speaker strongly endorsed emigration from Britain to Canada, and warmly praised the erection of the Canadian arch in London as having tended to open British eyes to the great agricultural resources of the Dominion. He advocated carrying on a strong immigration policy in Ireland. Canada gloried in its system of government and the impartial administration of justice. These were things to cling to most firmly. The connection with Britain should be a string of roses and not fetters of iron.

MISHAP TO TRAIN.

The Coboconk train met with a little mishap Thursday evening after leaving the Lindsay station, and as a result it was delayed an hour and a half. By some oversight the switches north of the freight sheds were left in such a way that the engine and three or four cars left the rails, but immediately mounted them again.

THE "BLIND TIGER."

A Novel Mode of Evading the Law—A "Blind" way of Getting "Blind" Drunk.

The ingenuity of the dram drinker, especially when a lively thirst is on, is proverbial, and the ingenuity of the purveyors of drink is of the same versatile character. A despatch from Indiana notes a device called the "blind tiger," which seems to be something new in mode of law evasion. The despatch says:

"The anti-saloon people here are encountering an obstacle in their fight against the saloons which places them in a position where they are undecided as to what course to pursue. The saloons of the town were all defeated by remonstrances, and the town was supposed to be 'dry' for the first time in many years. But since license was refused all saloon applicants here, two have assumed undue privileges and have fitted up their saloons with all the equipment of 'blind tigers,' and the patronage of these resorts has been very liberal by the saloon element. The device is so arranged that a person seeking a drink can put his money on a wheel and it turns around behind a tight inclosure, where there is someone who fills the order, but cannot be seen. In this way it makes it impossible to prosecute the offenders, as they cannot be seen and there could be no convincing evidence as to who they are. The price of all kinds of drinks are posted over the wheel so the customer has only to place his money on the wheel, call for what he wants and the drink is soon forthcoming.

A PLAIN TALK ABOUT CATARRH.

In a late number of an Ear, Nose and Throat Journal, the editor devotes a considerable space to a very clear description of the different forms of catarrh, and of a treatment which is curing cases where other methods have failed. A large number of these cases are described so plainly as to give every hope of a cure to those who have suffered for years, especially as the new treatment can be followed at home. For deaf people there is also a report upon the successful treatment of defective hearing by external application, with a summary of some really remarkable cases cured even after operations have been performed. For the benefit of those who are interested it is announced that a free copy of the "Journal" can be obtained by addressing the Editor, 72, Regent's Park-road, London, England. With the "Journal" a special "Supplement" will be enclosed, which gives details of upwards of 40 cases cured by the new method during the past month, also a Report Form by means of which anyone can obtain full particulars and free advice as to the use of the treatment in their own case.

C. W. Lyon

This signature is on every box of the genuine **Laxative Bromo-Quinine** Tablets the remedy that cures a cold in one day.

MATTERS MILITARY

BY SENTRY.

The new rooms which have been recently furnished by the non-coms. of the 57th Regiment, are a credit to the Regiment. They are situated under the Foresters' Hall, Simcoe street, and should prove to be an ideal home for the Non-Coms. of the Regiment. They have been handsomely papered, and the front apartment has been neatly carpeted. The rooms are lighted by electricity, and are supplied with plenty of tables, chairs, etc. Literature of a military nature is always at the disposal of the boys, and the mess should be liberally patronized. Colour-Sergt. Cotterell is deserving of much praise for the energy he has displayed in getting the rooms in shape.

• • • •

The drill shed at Belleville has been condemned. This will likely mean that the 15th will have new armouries. Perhaps it would be a good thing for the 57th Regiment to cease spending money money every year on their drill shed and let it develop into such a state of delapadation that it will meet the same fate as the Belleville drill shed. Then we might get a new structure.

• • • •

The Non-Coms. of the 57th are showing commendable enterprise in putting on the dance which will be held on Wednesday, the 21st of January. The event will no doubt be very largely patronized as every one has pleasant recollection of the last assembly the boys of the 57th gave. Mr. F. A. Paddon, who has been selected as Honourary Secretary, should prove to be a capable man for the position.

• • • •

Major Neill, of the High Commissioner's Office, Johannesburg, in writing to his mother in Omemee says:—

"Johannesburg is just the same hot and dirty place, no pavements nor water system. They don't even take care of the parks. You can scarcely go off the main street for the smell of dead water, etc. Street cars are run by horses and you generally have to get out and push up every grade. Nearly all the people went off for a holiday on Saturday, to see the cricket match between the Australians and South Africans. The Australians have just come from England, where they have defeated the English teams and now it looks as if the South Africans are going to defeat them. South Africans are 423 runs for 7 wickets and they are pretty sure to make the score 500 or more. There are thousands of pounds bet on this match. Sunday evening seems to be the most popular time for concerts here. I am now boarding at a private house. Time is up, love to all."

• • • •

The annual inspection of all the Toronto infantry regiments are now over and completed, the results being as satisfactory as under all the circumstances of the case could be reasonably expected. The statistics relating to the turn out of the three regiments are as follows:—

	Authorized strength.	Members on parade.
2nd Regt. Q.O.R.	734	650
10 Regt. R. G. ...	568	534
48th Highlanders	568	456
	1870	1640

The new and increased authorized strength of the three battalions referred to above came into force on July 1st, last, it will be well to compare them with the new figures. The old authorized strength was:

2nd Regt. Q.O.R.	457
10th Regt. Royal Grenadiers	470
48th Regt. Highlanders	367
	1294

• • • •

Monday evening of this week marked the close of the summer work of the 7th Fusiliers, London, and the occasion was fittingly observed by the Regiment, which was tendered a complimentary banquet at the Armouries, by Lieut.-Col. J. W. Little.

• • • •

Monday morning Lieut.-Col. Hudon, commanding "A" Field Battery, who won renown in South Africa with his famous "C" Battery, received from England the decoration of his rank, as a companion of the Order of St. Michael and St. George. The decoration is a beautiful piece of work, in white and blue enamel set in gold, suspended from a broad ribbon of blue and red. Accompanying the decoration was a parchment certificate and a set of by-laws of the order. The friends of the gallant colonel feel as proud of his recognition as he feels honoured in being selected for so great a distinction.

• • • •

A private letter from South Africa, received a day or two ago, contained the information that troop No. 17, of Baden-Powell's South African Constabulary, consisting of 101 men and two officers, had mutinied, just previous to the writing of the letter. The writer stated that the probable outcome would be the dismissal in disgrace of the entire troop. The cause of the mutiny was not stated. Capt. Powell, of Ottawa, is in command of the troop. Unquestionable confirmation of this rumour is necessary to make its belief probable.

• • • •

The Cobourg Sentinel-Star says:—Now that there has been a change in the head of the Department of Public Works, the immediate need of a large drill shed here should be brought to the Minister's notice. Col. Montizambert, D.O.C., when here on Monday, said the Cobourg Battery drilled the best of any volunteer company of Garrison Artillery he had inspected, and promised that as soon as the drill shed was built here the Battery should get four new howitzer guns, a thing they are badly in need of here, as they are at a disadvantage, compared with other Batteries that have them. Then, too, the 14th Field Battery, whose headquarters are Cobourg, has to store its guns at Port Hope, as there is no accommodation here for them. The 40th Regiment also has its headquarters here. Thus it is seen that Cobourg is an important military centre, and the sooner a drill shed is built here the sooner will our citizens take a more active interest in military matters.

• • • •

A Rifle range of but thirty yards in length and allowing of perfect practice with the army service rifle and ammunition has recently been most successfully experimented with at Aldershot. Those who have conducted the trials are enthusiastic over the results and it is probable that at all suitable military depots the new safety rifle range will be shortly installed. No tube is used, and the shooting is wholly in the open air. The penetrative power of the Lee-Enfield rifle, when loaded with service ammunition, has hitherto rendered it impossible to give recruits that practical experience of firing, so necessary to steadiness and good marksmanship, without journeyings to the nearest rifle butts, entailing loss of time and expense. The new range, however, overcomes the difficulty. The firing end is in a sort of box "tunnel" on legs. The marksman is compelled to stand well within it in order to rest his elbows. His rifle muzzle protrudes slightly towards the target beyond the other end of the "tunnel," the four sides of which, however, check the rifle from being turned too far either to left or right, top or bottom. Some distance from the "tunnel" is a wooden shield, tightly backed by tan or shingle, and having an open "doorway." No shot can be fired from the tunnel that does not go through the "doorway" towards the target, or embeds itself in the shield. Beyond this again are wing shields to stop shots ricoheting from the "doorway" sides, and other shields, near the target ensure absolute safety towards the sides. Ninety feet from the rifle, the target is backed by an impenetrable wall. No bullet can go over the top of the target, and those that do not must be intercepted by the shield. The target bears a "bull" of about half an inch, and is equal to an 8 inch "bull" at 500 yards. It can be varied to suit other distances, as the rifle sight is corrected accordingly. The great advantage of the new range are its perfect safety, its moderate cost, and the immense value it is to recruits who accustom themselves to the weight, hang pull, report, and kick of the ordinary rifle and the ordinary ammunition before being taken to the butts.

• • • •

The hockey team of the Militia Department has been organized for the season with Sir Frederick W. Borden as Hon. Patron; Lord Dundonald as Patron, and Col. Aylmer, as Hon. President.

• • • •

The annual inspection of the 14th P.W.O.R. Regiment, Kingston, was held at the armouries on Wednesday night, and was witnessed by an immense gathering of people. The galleries were taxed to their utmost capacity. The Regiment presented a splendid appearance. A smarter and more soldierly body of volunteers, says the News, could not be found in any country. Lt.-Col. Smith, who has for many years commanded the Fourteenth said he never saw the men look so well. Lt.-Colonel Skinner was in command.

• • • •

The Kingston News says:—Among those who were present at the 14th Regiment inspection last evening was Mr. Frederick Hamilton, of the Toronto Globe, who went out to South Africa with the First Contingent as correspondent for that paper. Mr. Hamilton is at present collecting material for a biography of the late Principal Grant.

POINTER FOR BOYS.

No Demand for the Idle and Time Wasters.

Boys, and girls, too! Did it ever strike you that only busy people find time to take on extra duties? Did it ever occur to you either, that business firms never look on the street corners for people to fill vacancies that may arise in their stores or shops? They expect to find competent young men and women busy at something, and they generally act on the principle that a person who has been successful for someone else, is the one they want.—Brockville Recorder.

In London, comments the News of that city, very many young people parade the streets when they might better be at home educating themselves. As the Recorder remarks, people who require help do not look for it on the streets, and the young man should be careful lest he earn for himself the name of a street walker or loafer. With many it is but a habit. They do not realise that walking the main street, even on a Saturday night, is a reprehensible practice, indulged in only by professional gadders and the ignorant. The less people, young or old, are on the street — unless, of course they have business — the better it is for themselves.

20 Years of Itching Piles.

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terribly from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length of time he suffered.

For Long Standing Coughs.

MADILL'S EMULSION OF COD LIVER OIL

The best remedy for long standing cough—always fresh, and made from pure oil. The most palatable of any Cod Liver Oil Emulsion on the market to-day. A trial will convince you.

HALF A MILLION

Spent by Tobacco Companies on Advertising.

Apart altogether from the merits of the case which the Tobacco Commission is investigating, an interesting feature of the evidence presented has been the disclosure of the amount of money which the two companies against which complaint has been made — The American Tobacco Company, and the Empire Tobacco Company — have expended of late years in advertising. It was stated that the former had spent $267,961 in exploiting its wares, while the sister company has donated in four years $250,579 towards the same purpose. This makes a total of $518,540. It was also stated that the Empire Company, under the former management, had spent but $2,308 in two years in advertising.

Industrial companies which can spend such sums as these in attracting attention to what they have to sell, must be most formidable competitors of traders less fortunately situated, or less impressed with the value of publicity. If the American and the Empire Companies have captured a large share of the Canadian tobacco trade, their liberal expenditure in advertising must be credited with a large share of the result.

Stoned by a Mob.

Belfast, Nov. 22.—Mr. Russell, the Unionist member of Parliament, was stoned by a mob after he had addressed a meeting at Dromore Thursday night. The rioters attacked the hall where Mr. Russell had made his speech, and caused him to seek refuge in a neighboring house, whence he tried to escape in a carriage. The mob discovered him and bombarded the vehicle with stones. Mr. Russell was struck on the head, but was not seriously injured.

PNEUMONIA ATTACKS THE FIRELESS CITY.

Scarcity of Fuel and Lack of Heat Cause Grip, Colds, Bronchitis and Pulmonary Ills to Increase.

The use of "Seventy-seven," Dr. Humphreys' Specific, breaks up Colds, Grip, Influenza, Catarrh, Pains and soreness in the head and chest, Cough, Sore Throat, General Prostration and Fever, and prevents Pneumonia.

"77" consists of a small vial of pleasant pellets—fits the vest pocket.

Mrs. Darnley's Millinery.

REMOVAL OF R. J. G. SUTHERLAND,

Plumber, Gas and Steam Fitter,

No. 356 Water Street

Owing to the constant increase in my business, I have removed to more commodious premises in the Dunsford Block, next Bank of Montreal, where I will be glad to receive my patrons and friends. Having retained the services of three competent workmen, I can promise to attend promptly to all work entrusted to me.

Hot Water Heating, Water Service Supplies and Sanitary Plumbing done in a practical and skilful manner. I will also carry a full stock of Enamelled Baths, Wash Basins, Sinks, Closets, etc. Also Brass Gages, Brass Taps, Valves, and all modern Brass and Electroplated Fixtures. Phone 393.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyzes and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $15 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

In Humanity's Name

I Ask You to Tell me a Sick One Who Needs Help.

No money is wanted. I ask simply a postal card stating which book to send. I will do all the rest, and accept all the risk, to see that your friend gets well.

I will even do this:—I will mail the sick one an order—good at any drug store—for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, the cost is $5.50. If it fails, **I will pay the druggist myself.** And the sick one's mere word shall decide it.

I do that so that those who need help will accept it.

I have what those sick ones must have to get well, and I want them to have it. I make my offer so fair that no sick one can neglect it.

I do just as I say, and trust the cured ones to be fair with me. I have furnished my Restorative to hundreds of thousands on these terms, and 9 out of each 10 have paid gladly, because they were cured. I want not a penny otherwise.

My Restorative is my discovery, the result of my lifetime's work. I have personally tested it in thousands of cases as difficult as physicians ever meet. In my vast experience I have so perfected it that it does not fail, save when a cause — like cancer—makes a cure impossible.

My success comes from strengthening the inside nerves. Common treatments merely doctor the organs, and the best results are but temporary. My treatment restores the nerve power which alone makes those organs act. It is like giving a weak engine more steam. Any weak vital organ does its duty when given the power to act, and there is no other way to make weak organs well.

No other remedy strengthens weak inside nerves, and for this reason there is no other treatment for chronic diseases which any plan will offer on a plan like that.

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wis.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, not chronic, are often cured by one or two bottles. Dr. Shoop's Restorative is sold by all druggists.

NEW CHIEF JUSTICE.

Sir Elzear Taschereau Sworn in Friday—Justice Armour's Plans.

Ottawa, Nov. 22.—Sir Elzear Taschereau was yesterday morning sworn in by the Earl of Minto as Chief Justice of the Supreme Court. The ceremony, which took place in the Privy Council Chamber, only lasted a few minutes. Those present were Sir Richard Cartwright, Hon. R. W. Scott, Hon. James Sutherland, Hon. Chares Fitzpatrick, Hon. Sydney Fisher, Hon. Raymond Prefontaine, members of the Government; Sir Louis Davies and Justices Mills, Girouard and Sedgewick; Mr. E. R. Cameron, Registrar of the Supreme Court; Mr. Sheriff Sweetland and Capt Hughes, A.D.C. Mr. Justice Armour arrives on Monday morning. His commission will be read and he will take his seat at that morning's sitting of the court.

AT FIRST GLANCE

It Would Appear That Local Remedies Would be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease, and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate thousands of people seem scarcely ever free from some form of catarrh; it gets better at times, but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best, and certainly the safest, is a new remedy, composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste, and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these Tablets with absolute assurance that they contain no cocaine, opiate, nor any poisonous mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full-sized packages for fifty cents.

For Montreal Dry Dock.

Ottawa, Nov. 22.—The Government has decided on recommendation of Hon. Messrs. Sutherland and Prefontaine, to appoint a commission of three engineers to make investigations and report as to the nature and location of the proposed dry dock for Montreal. There is a sum of $250,000 available for this work, being the balance of $700,000 set apart for the improvements in the east end of Montreal. The Department of Public Works or the Department of Marine will appoint on engineer, the second will probably be Mr. Kennedy, engineer to the Harbor Commissioners, and the third will be chosen outside.

Death of Costaki Pasha.

Constantinople, Nov. 23. — The Turkish Ambassador to Great Britain, Costaki Pasha, died in the Island of Halki on Monday night from pneumonia.

SWIFT CANADIAN JUSTICE.

Joseph Gentile, the Counterfeiter of U.S. and Canadian Silver, Gets Ten Years in the Penitentiary.

Toronto, Nov. 22.—Swift justice was meted out in the Police Court yesterday to Joseph Gentile, alias Salvatore Clementi, the Italian counterfeiter. Gentile was convicted and sent to the Kingston Penitentiary for ten years.

Detective William Davis told of the arrest and the seizure of the plant. Detective Flynn, the United States secret service officer, was called next. Flynn, who is qualified in the United States courts as a coinage expert, described Gentile's plant bit by bit. "The plant," he said, "was very similar to the one he had in New York."

No evidence was offered for the defence. Mr. Robinette wanted a remand, but this was promptly refused. Then Gentile made a statement from the dock.

The Crown went on then with the charge of making Canadian money. The evidence in this case was the same as in the other.

"You found no moulds for Canadian coin?" asked Mr. Robinette of Davis.

"No."

Mr. Robinette argued that there was no evidence that the Canadian coins were the work of Gentile. The magistrate held that there was evidence, and asked for record testimony. Gentile served eight years for counterfeiting in the United States.

On the lesser charge of making foreign coins, Gentile was given the limit of three years in the penitentiary. For making Canadian coins he was sentenced to ten years, the two terms to run concurrently.

Raymonds Sent For Trial.

Magistrate Denison committed Anson Raymond and his wife, Elizabeth, for trial on the charge of knowingly having William Stuart's counterfeiting plant in their possession. The case will be heard at the December Sessions. The bail of Mrs. Raymond was renewed. T. C. Robinette, K.C., intends to make an application to Judge Morgan this afternoon for bail for Anson Raymond.

Detective James Forrest described to the magistrate what transpired at the Raymond House on the night of Stuart's arrest. The officers had been shown to a room, said by Raymond to have been that of Stuart. They found nothing that would make evidence against their prisoner, but later a remark made by Ethel Raymond led them to suppose that they were not in Stuart's room at all. A search was instituted, which resulted in the finding of the plant. Corroborative evidence was offered by Detective Duncan and Policeman Guthrie.

George W. Sinclair, an expert engraver from New York, said the printing presses and plates could be used for nothing else than the making of counterfeit notes. The photographic plates, he said, were not the usual negatives, but were positives. The ordinary negatives would print a bill the wrong way about. George Kirkpatrick of the Assistant-Receiver-General's office swore that the notes found were forgeries.

"Why" was not Ethel Raymond's evidence put in?" was asked of Crown Attorney Curry.

"She has gone away. She is in Buffalo."

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

CHARGES TOTAL 112.

Six Additional Items Filed by South Oxford Petitioners.

RAILWAY TICKETS AND LIQUOR.

Money Likewise Said to Have Been Given Voters to Cast Their Ballots For Donald Sutherland, the Conservative Candidate—Men Pressed to Refrain From Voting at the General Election.

Toronto, Nov. 22.—Further particulars have been added to unseat Donald Sutherland, M.P.P. of South Oxford, making in all 112 charges. The petitioners state that they tried to get all the particulars in time for the opening of the trial. The trial will be resumed on December 1. The late additional particulars are as follows:

That the respondent, through W. H. Nesbitt of East Oxford, agent of the respondent, and through other agents unknown, gave a railway ticket and paid the traveling expenses of W. E. Haines of East Oxford, a school teacher, to go to Burgessville and vote for the respondent or to refrain from voting.

That J. E. Weston, Tilsonburg, an agent of the respondent, forgave payment of an account due from Eli Barnum of Tilsonburg, a voter, in order to induce him to vote for the respondent or to refrain from voting.

That at the Mount Elgin House, Dereham Township, the respondent, through Basil Glyan of Mount Albert, an agent, and through other agents, names unknown, illegally furnished whiskey, drink, refreshments and other entertainment at the expense of the respondent and of Basil Glynn, and a meeting of electors treated or contributed to cost of treating John A. Morrison, Burton Hugill, Bert Miners, William Corbett, Austin Miller, Juitt Smith, Milton Pollard, John Pollard, George Frouse, Augustus Cornfoot, Wm. Daniels, George House and Josiah Miners, all of the Township of Dereham and all voters in that district, and to other voters whose names are at present unknown, in order to corruptly influence such voters to vote for the respondent or to refrain from voting.

That William Fleming promised $5 to Amos Sackrider, farm laborer, North Norwich, to induce him to drive a rig on election day for the purpose of bringing voters to vote for the respondent and to induce Sackrider himself to vote likewise.

That Stephen King of Ingersoll, merchant, an agent, gave railway tickets or money to purchase railway tickets to two electors at Beachville, whose names are unknown, in order to proceed from Ingersoll to Burgessville by electric railway to vote for respondent.

That Wm. Fleming of the Township of North Norwich, agent of the respondent, gave or promised to give money or valuable consideration to Thos. Sackrider of North Norwich, farmer, to vote for the respondent or to refrain from voting.

A TRYING TIME

Is the Period When Young Girls are Merging Into Womanhood.

Marked by Pale Faces, Heart Palpitation Loss of Appetite and General Lassitude—How to Overcome This Condition.

After babyhood, the most perilous time in a young girl's life is when she is just entering womanhood. It is then that she is subject to headaches, dizziness, heart palpitation, feeble appetite, and bloodless cheeks and lips. This condition may easily develop into consumption, and to prevent this—to keep the young girl in good health and strength, mothers should insist upon their taking a blood making tonic, such as Dr. Williams' Pink Pills. Mrs. Henry McIntyre, Port Dalhousie, Ont., gives sound advice to other mothers in cases of this kind. She says:—"About three years ago the health of my daughter, Bertha, began to fail. She grew weak and seemed unable to stand the least exertion. She suffered from distressing headaches, and fainting fits; her appetite left her and she lost flesh. I spent much money on medicines, but they did not help her. Then I took her to a doctor, and although his treatment was persisted in for a long time, she seemed to be growing worse, and I began to fear she was going into consumption. Then I took her to a specialist, but his treatment was likewise unsuccessful. Finally upon the advice of a lady friend, a doctor practising in Chicago, Bertha began using Dr. Williams' Pink Pills, and before long there was a decided improvement in her condition, and by the time she had taken nine boxes she was once more enjoying the best of health and had gained fifteen pounds in weight. I would strongly advise all similar sufferers to give Dr. Williams' Pink Pills a fair trial, as her case seemed as hopeless as could be."

All weak and ailing girls and women, sufferers from backache, headaches, indisposition to work or exercise, who show by their pale and sallow cheeks that they are in ill health, will find prompt relief, bright eyes, rosy cheeks and active health in a fair use of Dr. Williams' Pink Pills. You can obtain these pills from any medicine dealer or by mail, postpaid, at 50c. a box or six boxes for $2.50, by writing direct to the Dr. Williams Medicine Co., Brockville, Ont. Never accept anything else which a dealer may say is "just as good."

To Increase Bank Capital.

Montreal, Nov. 22.—A special meeting of the Bank of Montreal shareholders has been called for Jan. 7 next, when three propositions will be submitted by the directors for approval. The one of public interest is a bylaw, authorising the increase of the capital stock of the bank by such amount as may be determined, possibly, by $3,000,000, which would make the capital $15,000,000.

Pope's Time Not Come.

Rome, Nov. 22.—At a reception of 500 Piedmontese pilgrims yesterday the Pope jocularly referred to the unfounded rumors Thursday, of his indisposition, adding: "My time has not yet come. We have many things to accomplish before death."

WHY Not Double YOUR Money

Eastern Consolidated Oil Co. Advances in Price to $1.00 a share on or before January 1, 1903,

THIS IS AN OPPORTUNITY to put money in a safe investment where it will actually double in about 30 days. Thousands of investors have seen their stock in the Eastern Consolidated Oil Co. double in value within the past few months. The question is **WHY** don't **YOU** double **YOUR** money? The situation is this:—Eastern Consolidated Oil Co. stock is now selling at 50c a share, but the 50c allotment is almost exhausted. On or before January 1 the stock will positively go to par, $1.00 a share. If you invest $25 now it becomes $50; 100 becomes $200 and $500 becomes $1,000 before New Year's. This is the stock that has paid 20 per cent. in dividends to stockholders on their investments in the past ten months, $1,000 invested last spring is now worth $2,000 and has earned $200 in dividends! This is the company that has over 21,000 acres of rich oil lands in Ohio and California that has already expended over $150,000 in development, and that has 109 producing oil wells.

The Eastern Consolidated Oil Co. is no longer an experiment. Those who invested ten months ago took all the risks, but have been richly repaid. Those who invest NOW have a certainty—stock in a money-earning, dividend-paying company. You know the fuel situation—oil is now burned as fuel on hundreds of locomotives and steamships that formerly used coal. They will never return to coal, because oil is cheaper and better. The demand for fuel for oil has sent the price up. This company produces both fuel and illuminating oil in vast quantities. The production has increased enormously by its new wells in Kern River, Col. More oil and better prices for oil mean big dividends!

$100 Will Become $200 in About 30 Days

FISCAL AGENTS

The Eastern Consolidated Oil Co. stock is for sale only by its accredited fiscal agents—

UNION LABELED

Daily Examiner.

SATURDAY, NOVEMBER 22, 1902.

New neckwear at Bradley's. A value second to none. A key for money box with each one dollar purchase. 2d

Y. W. C. A. Notes.

The regular Gospel meeting to-morrow at 4.15 will be led by the secretary. Subject: "Faith." All young women are invited.

Reds and Blues.

The contest for new members in connection with the Y.M.C.A. which has been in progress for several months, will close at ten o'clock this evening. Get your points in before that hour.

For Men Only.

Mr. H. E. Ayers, Physical Director, will be the speaker at the Y.M.C.A. on Sunday, at 4.15. His subject will be "The House we Live in." Mr. G. W. Mulligan will sing. A meeting of "The Committee of Ten" will be held at the close of the meeting.

St. Paul's Ladies' Aid Lecture.

Rev. Dr. Cleaver, of Sherbourne street Methodist church, Toronto, will deliver his celebrated lecture on Victor Hugo's masterpiece, "The Story of Jean Valjean," on Thursday evening, December 11th. Admission 25 cents.

To-morrow's Services.

To-morrow is Temperance Sunday. In addition to the World's Temperance Lesson, to be taken up in the Sunday schools, most of the ministers of the town will devote at least one of the services to a consideration of the temperance question.

Miss Jessie N. Maclachlan.
Miss Marietta Ladell.
Mr. Robt. Buchanan.
57th Regimental Band.

Why Be Weak?

When you can be restored to strength by Dr. Ward's Nervine. Thousands have used it with wonderful success for Nervousness, Sleeplessness, Nervous Headache, Backache, Nervous Prostration, Dizziness, Fits, Nervous Debility, Impotency, Lost Manhood, Impaired Memory, Lack of Confidence, Evil Forebodings, Despondency, Melancholy, Hysteria, Neuralgia, Pain in the Side, Female Weakness, Irregularities and Suppressions. Mrs. Wm. Hall, Bridgeport, Ont., writes: "I am glad to say that the medicine is so popular with the ladies, and there is so much in our town to lead them in a different direction."

A TRIP ARRANGED.

County Council Will Investigate Beet Sugar Question.

The Committee of the County Council, which is investigating the beet root sugar question, have announced that they will visit the factories of Western Ontario on Thursday of next week. They have invited the entire County Council to accompany them, and they will also very likely be joined by representatives from the Peterborough Town Council and the Board of Trade. The delegation will leave here on Thursday morning and will return on Saturday.

JOHN BOYLE O'REILLY.

A Paper Read Before Ladies' Reading Circle of T. A. S.

The lecture hall of St. Peter's T.A.S. was last evening filled with a large gathering of the members and friends of St. Peter's T.A.S. Reading Circle, the occasion being the regular fortnightly meeting of that organization.

This O'Connell occupied the chair and a short but excellent programme was introduced before the essay of the evening was read on the subject of 'John Boyle O'Reilly," by Miss G. G. Hickey, of the teaching staff of the convent. This young lady's paper was an intellectual treat of the very highest order, and was a beautiful tribute to the many good qualities of heart and mind, and to the transcendent genius of the gifted poet patriot. At the conclusion of the paper Miss O'Connell was warmly congratulated by Dr. O'Brien and other speakers.

NEWS NUGGETS.

Buy your furnishings at Bradley's and get a key for the money box. 2d

—Rev. Mr. E. A. Langfeldt will preach in All Saint's church to-morrow evening.

—Temperance sermons will be preached in St. Paul's Presbyterian church at both services to-morrow.

—At the George street Methodist church to-morrow evening the pastor, Rev. J. P. Wilson, will take for his subject, "The Referendum."

—The regular review of the Lady Maccabees will be held on Monday evening next at 8 o'clock. All members are requested to be present.

—A platform meeting in the interests of Temperance will be held in the Mark street church, Ashburnham, to-morrow afternoon, at four o'clock.

—The steamer Alert is still busily engaged in towing wood from the back lakes. Captain White states that he has still a large quantity to bring down.

—The Faithful Workers' Mission Band of St. Paul's church intend holding a bazaar on Nov. 28th, in the school room. Refreshments will be served during the afternoon and evening. 3d

—After many years of hotel life, Mr. Thos. Bate has stepped down and out to spend the balance of his days in private life, says the Campbellford Despatch. The Windsor House is now under the management of another well-known and popular man, Mr. Geo. R. German.

—The Trusts and Guarantee Company, Limited, has been appointed administrator of the estate of the late Thos. C. Graham, proprietor of the Canada Preserving Company of Hamilton, Ont., who died last month. The estate is a very large one and consists of his business in Hamilton, life insurance, real estate, etc.

Charlotte Street Church.

The pastor will take for his subject to-morrow morning "Forgiving Injuries." In the evening the subject will be "The Referendum." All are welcome.

Coming Event.

On Thursday and Friday, December [illegible] held of the [illegible] church, in [illegible] A. a [illegible] successful ar[illegible]

Christmas Annuals.

MR. BRADBURN'S ENTERPRISE

He Will Erect a Grand new Opera House.

Plans Have Been Prepared—Seating Capacity for 1,200 or 1,400.

Mr. B. H. Bradburn, manager of the Bradburn Opera House, was interviewed to-day by a representative of the Examiner, regarding the erection of a new opera house in Peterborough. Mr. Bradburn said that he had noticed the item in yesterday's Examiner, in which it was stated that certain promoters had in view the advisability of erecting a new opera house here. "However," said Mr. Bradburn, "I am several months in advance of them." Mr. Bradburn then produced his plans, which he explained very fully. The new opera house will be up-to-date in every particular. The plans provide for the erection of a structure that will seat from 1200 to 1400 people. There will be two balconies, while the stage space will be 40 x 100. The height of the ceiling over the stage will be 70 feet. A feature of the stage will be its fire proof construction. By means of a fire proof curtain, that can be dropped down in an instant, the stage may be completely cut off from the main hall. The walls between the stage and the main hall will be of solid brick. There will be four boxes, and there will be several exits from the opera house.

Mr. Bradburn has been working on his plans for several months, and is now in a position to say that he will commence the erection of a handsome new opera house early next spring, which will be ready for occupation at the beginning of the next season. Manager Burnham is to be congratulated upon his enterprise, and Peterborough people are to be congratulated upon the prospects of a long felt want being filled at an early date.

Mr. Bradburn has not yet decided on the location for the new building.

GRACE STREET SCHOOL SOCIAL

A Very Pleasant and Successful Entertainment.

A very successful social was held last evening in the Grace Sunday School. The seating capacity of the School room was taxed to its fullest extent. The chair was taken by the pastor, Rev. Mr. Wilson. The programme opened with selections on the zonophone by Mr. Succee, following which the male quartette "Crossing the Bar," was given by Messrs. Miller, Maguire, Turner and Doidge. Master Chalmer Nicholls was then heard in a couple of recitations well given, following which another selection on the zonophone was given. Miss Mabel Pringle, always a favourite, delighted the audience with a couple of recitations also, and was compelled to respond with encores. A solo, "Massa's in the Cold, Cold Ground," with voice accompaniment by Messrs. Miller, Maguire, McClennan and Doidge, the solo taken by Mr. Frank Turner, was well received. One of the most interesting items on the programme was a talk by Mr. F. H. Dobbin on "Art in the School room," illustrated by blackboard sketches. A vocal solo by Mr. J. Miller was also well received. At the close, refreshments were served and homemade candies were disposed of. The proceeds of the social go towards replenishing the library of the School, and the committee in charge desire to thank all who so kindly contributed to make the affair a success.

Household furniture for sale privately at 547 Water street. Suite of rooms to let. 3d

THE LAKEFIELD OIL COMPANY.

Dr. Baker Satisfactorily Accounts for his Share in the Transaction.

The stockholders of the Lakefield Oil Company, the Canadian Osage Illuminating Oil Company, who were concerned as to the disposition of a considerable sum of the cash contributed as the purchase money of an oil property in Texas, are re-assured at least as to a part of it. Dr. Baker, one of the gentlemen who went south to purchase the Company has, the Examiner is informed, returned from the hunting grounds, and has paid over a considerable sum in discharge of his responsibility in connection with the transaction.

SOCIAL AND PERSONAL.

Miss Minnie Lethbridge, of Port Hope, is the guest of Mrs. S. A. Oke, town.

Mr. Chas. Davidson having disposed of his property "Fairfield," North Monaghan, has taken up residence in town, No. 95 Weller street.

Mrs. John Doyle (nee Miss Leo Adams) left on Monday morning for Peterborough where she will enter the Nicholls Hospital as nurse-in-training.—Campbellford Despatch.

The sermon by the Rev. Mr. Wilson, of Peterborough, at the preparatory services in the Presbyterian church on Friday evening last, pleased the congregation very much.—Millbrook Reporter.

Rev. J. G. Potter, of Peterborough, occupied the pulpit in the Presbyterian church on Sunday last. Both services were well attended and the reverend gentleman gave two able and inspiring sermons. — Campbellford Despatch.

Mrs. Grasset writes the Examiner from Hamilton, contradicting the correctness of a paragraph which appeared in the Mail and Empire, and was copied into the Examiner, to the effect that she and the Misses Grasset were in Toronto for the winter. She adds that she is in Hamilton, with her father and mother, and has no intention of going to Toronto, but hopes to pay a short visit to Peterborough before going to her home in Baltimore, Maryland.

ANOTHER CAR COMING.

We expect another car of those fine potatoes which have been giving such general satisfaction, on Monday or Tuesday.

W. H. HAMILTON,
Metropolitan Grocery.

Is Your Piano in Tune?

The change of seasons affects pianos as it does everything else. Mr. [illegible] piano maker and tuner, with [illegible] years experience, attends to all orders left at Mr. H. E. [illegible]'s drug store.

SAMUEL COURRIER'S GUN.

It was Found at Rice Lake by Mr. Frank Johnston.

Mr. Frank Johnston, of Hiawatha, Fishery Inspector of Rice Lake, called at the Examiner office to-day to state that he had found the gun owned by the late Samuel Courier, who lost his life by drowning in Rice Lake some weeks ago. Mr. Johnston states that the gun was recovered after a most diligent search, and that when found it was standing on end with the muzzle sticking a foot or two in the mud.

Mr. Johnston, who is a relative of the late Mr. Courrier, handed in the following communication which he asked to be published:

To the Editor of the Examiner;

In your paper of October 27th, you have a statement given by Mr. A. Talbot of how the accident occurred in which Mr. Samuel Courrier lost his life. Mr. Talbot states in the first instance that he came within a hair's breadth of being shot by the premature discharge of Mr. Courrier's gun. Now poor Sam. Courrier was drowned, and could not defend himself, but his gun has been found by myself and speaks for him, by having both barrels loaded. It was the opinion of every hunter on Rice Lake that knew Sam. Courrier, by reputation as a hunter, that it was not his gun that caused the accident, as it was only an accident that might happen to any two men in a boat; but the truth might have been told about it. Thanking you for your space, I am yours, etc.,

FRANK JOHNSTON,
Fishery Inspector,
Hiawatha.

November 22nd, 1902.

Mr. Talbot's name having been prominently used in the above letter he was, as a matter of fairness, seen in reference to the matter, and he states that his story of how the accident occurred was the impression he derived from the circumstances. He asserts that he really believed that it was not his gun but Mr. Courrier's which met the accidental explosion which led to the accident; but if the statement is true that Mr. Courrier's gun, when found was loaded, then he admits that he was mistaken and that in the excitement attending and following the accident, his recollection of details might easily have been at fault to that extent. But he asserts positively that it was not due to any carelessness or action on his part that whichever gun was accidently discharged was so discharged.

AT THE POLICE COURT.

Drunkeness Fined—An Unusual Case Coming on.

This morning a number of young men were arrested and are now in the police cells. The trouble, it is said, arose from one named Joseph Stewart refusing to join the Union, and he says his house was stoned a short time ago, and on Thursday he was waylaid on his road home and brutally used. The information as sworn to by Stewart reads as follows:—

"That Chas Gersile, Douglass Loomis, —. Mitchell, Samuel Brener, Walter Miller, Walter Tighe, Aaron McColl, P. Kempt, Thomas Brownlee, Edwin Daly, N. E. Miller and Cecil Succee, at the Town of Peterborough, in the County of Peterborough, on Thursday, 20th day of November, 1902, in pursuance of an unlawful combination or conspiracy respecting the complainant then employed by one B. F. Ackerman, Son & Co., in his business of manufacturer of harness, did assault the said complainant, in pursuance of such conspiracy with a view to hinder him from working at the said business of manufacture of harness by said B. F. Ackerman, Son & Co., contrary to the criminal code."

This morning a young man was before his worship Magistrate Dumble charge with drunkenness. He was fined $2, but given a stay of ten days.

TELEGRAM!

Petrolia, Nov. 19.

Tabor's Faust gave satisfactory performance. Scenic and electrical effects superb.

Dunlop & Hutchuch.

HURT AT THE RINK.

Brick Inflicts Considerable Damage on a Workman.

This afternoon, Mr. E. Webb met with a slight accident, which will necessitate his laying off for a few days. Mr. Webb was employed on the construction of the new rink, when by some means a brick fell from above him, and struck him on the head, inflicting a rather bad cut. Dr. Scott was called and sewed up and dressed the wound. It is expected that the injured man, will be able to resume his usual duties in a few days.

A BUSINESS MEETING.

The Eagle Lake Hunt Club met Last Night.

Last night the Eagle Lake Hunt Club, held a business meeting for the purpose of finishing the season's work, at the American Hotel, Hunter street.

President Cottingham occupied the chair, and the report of the secretary, C. Westlake, was read and adopted. Then the meeting became slightly informal, and a discussion of the past season ensued. It was the unanimous opinion of the meeting that this year's hunt was the most successful and enjoyable in the history of the club.

"The Span of Life" has been for several seasons a reigning favourite in the dramatic firmament. Its return here will no doubt be the occasion of an outpouring of those amusement seekers who prefer their entertainment spiced with a dash of realism. Nothing more realistic than the bridge of human bodies in "The Span of Life," can be conceived, and the lighthouse scene is conceded to be a marvel of stage mechanism. The play is presented by an excellent company, and the wonderful Donazetta Trio of Acrobats, have been especially engaged for the human bridge. This will be the attraction at Bradburn's opera house on Thursday, November 27th.

THE WEEKLY MARKET.

Large Number Attended the Peterborough Market.

Price for Choice Farm Produce High—Average Goes Lower.

This morning's market was, if anything, larger than last Saturday's, and the threatening weather did not seem to deter the people from the country from attending in large numbers. On the outside market there was a large quantity of apples offered at from 45 to 60c. a bag, while but few potatoes were offered at $1.15 to $1.25 by the bag and 25c. by the peck. A considerable quantity of pork was offered at prices varying from 7 1-2 to 8c. per lb. In the vegetables the prices were,—onions 15c. per peck, carrots 40c. per bag, celery 5 to 10c. per bunch, cabbage 30c. per dozen. In the butter market the attendance was one of the largest as yet this season. Much poultry was offered and buyers picked their purchases carefully so that towards noon the culls were left, and these sold at a medium price. Butter was sold all the way from 19 to 23c. per lb., the latter price being paid for choice lots. Eggs were bought at from 19 to 23c. per dozen. Poultry was bought as follows:—Chickens 40 to 75c. per pair, turkeys 85c. to $1.25 each, geese 80 to 95c: each, ducks 50 to 70c. per pair. A small quantity of honey was offered at 10c. per lb.

Murray Street Baptist Church.

To-morrow morning the pastor, Rev. J. Bastow, will preach on "God's Present Mysterious Dealings Hereafter Explained," and in the evening sermon on "Absolom, or the Fast Young Man." The evening sermon will be of special interest to all young people, especially to young men. All are cordially invited.

Very refreshing and healthy—Allen's Sweet Cider—At Henry & Co's.

A SUCCESSFUL BAND CONCERT.

A Large and Enthusiastic Audience at the Concert Under the Auspices of the 57th.

One of the most pleasant features of the concert given in Bradburn's Opera House last night, under the auspices of the 57th Band, was the large audience which assembled, testifying to the grateful appreciation by the public of the services of the band, and admiration for their splendid playing; and the programme presented last night most amply justified the interest shown by the large and enthusiastic attendance. The blaze of scarlet that greeted the eyes of the audience as the curtain rose on the grouped members of the band, was a signal for enthusiastic applause, which was renewed when the popular leader, Mr. Glidden, baton in hand, advanced to the director's dais, evidence of the pride the citizens of Peterborough feel in both the boys of the band and their leader. The band contributed four numbers, every one of which was characterized by the beautiful finish that marks the work of the band, and which were rewarded with most hearty applause. It is not literally correct to say that four numbers were played, for the demands of the audience resulted in practically doubling the programme. The concert opened with "The Flying Squadron March," the last movement of which was repeated in answer to cordial recalls. The band's next number was the descriptive fantasia, "Voyage in a Troopship," in which the vocal contributions were introduced with decidedly charming effect. And the splendidly fine performance of "Rule Britannia," which closed the selection, was worth going a long way to hear. It is doubtful if any one of the audience ever heard that grand martial hymn performed with more magnificent volume of martial melody, or more stirring spirit. This selection was excellently given, and the storm passages especially were strikingly realistic. The selection, "In a Cosy Corner," next given, while not conspicuous for its musical or melodious value, was a splendid opportunity to demonstrate the extraordinary precision and aplomb of attack and correctness of tempo that merged complicated passages that seemed to tend to a musical cul de sac, into harmonious ensemble and perfect accord. "The Honeysuckle and the Bee," an Ethiopian dance composition, was splendidly performed and gave great popular pleasure. Without any attempt at analysis of the merits of the excellent performance of the band, it may be stated that both from a musical and enjoyment point of view it was of the very high order we have become accustomed to associate with its artistic work and gave the people of Peterborough another reason for the pride they feel in one of the best bands in the province. The remainder of the programme was contributed by Miss Emma T. Irons, elocutionist, and Mr. Bert. Harvey, comic vocalist. Miss Irons, is an experienced reader and in the three selections she rendered last night she caught the favour of the audience to the extent of being compelled to respond to three encores. Mr. Bert. Harvey sung and danced and grimaced himself into the hearts of the audience, especially the younger portion, who rewarded his exceedingly funny work with repeated recalls, and if he had met the demands of his admirers he would risked having to be carried home in anambulance through sheer exhaustion. The entertainment throughout was a great delight to the hundreds who were present, and established anew the claims of the band upon the admiration of the public.

Fresh Arrivals.

Russet Florida Oranges, California Apricots, California Prunes, Layer Figs, and another consignment of prize Honey. S. A. Oke, 376 George street. Telephone 18.

All Saints' Church.

At the morning service to-morrow Rev. W. L. Armitage will give a short account of the main portion of the Archidiaconal Conference, which proved to be one of the most interesting yet held. The promotions will be made in the Sunday school to-morrow. On Monday evening the Senior Girls' Guild will give an at home in the school room.

Fur Manufacturers, No. 418 George street.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc. SAILS BERRY & CO.

GENERALLY SPEAKING

PETERBOROUGH a city. Why not? Will somebody put into concrete form the objections to and the arguments in favour of, Peterborough becoming a city in name and fact as it is in size and importance? Only in the matter of name a good deal of significance lies. Shakespere asks what there is in a name? A good deal, especially if it is a good name. We have the population, we have the enterprise, we have the material constituents, and in greater degree than most of the minor cities of the country.

REFERENCE has been made in this column previously, to the superior commercial standing of Peterborough over some cities. It was shown that the trade of this town, as shown by customs collections, was over $20,000 greater than the combined trade of the City of Belleville and the Towns of Cobourg, Port Hope and Lindsay.

AND the trade of Peterborough is increasing. For the four months—July, August, September and October, of last year the customs collections totalled $44,392.80. For the corresponding four months of this year the total is $67,851, an increase of nearly $24,000 over the figures of last year.

THE news despatches tell us of a girl in New York city who has slept continuously for twenty-one days, and cannot be aroused. Some persons think our Board of Trade can beat a little record like that.

TORONTO Board of Trade has been aroused, over the proposal of the railways to advance freight rates, and a meeting has been called to discuss the situation from a Toronto stand point. Isn't this a pointer for our local Board of Trade? And it is proposed that the various Dominion Boards of Trade should go to Ottawa and fight for the interests of their constituents. Should not Peterborough be represented in this matter? Yes. Will Peterborough be represented? That's another question.

WHILE the fine inflicted Thursday at the Police Court for selling tobacco to minors was a little hard on the dealer, who appeared to be innocent in the matter, yet some means must be adopted for lessening this growing evil among boys. A day or two ago a lad hardly eight years of age was seen straddled out in a doorway striking a match with the sangfroid of an old timer, and in turn lighting a cigarette, which he puffed with an air of custom which showed it was not by any means his first attempt. And cigarette smoking boys are so plentiful that somebody must be breaking the law directly or indirectly in supplying cigarettes to the juvenile roues.

UP to last Saturday Collector Green had received a total payment of taxes of $75,426.54, out of the $86,564.85 on the roll. This is about $4,500 in excess of the amount collected at the same time last year, showing that the ratepayers are more generally prosperous than they were last year.

PETERBOROUGH has not much to crow over other places in the matter of streets, but it is a lap or two ahead of Lindsay, where the small attendance at a meeting to promote "good roads" was accounted for by "the bad state of the roads." Nothing could more emphatically demonstrate the need of improvement in the roads of Lindsay and vicinity.

TORONTO is inaugurating a crusade against profanity in the streets There is plenty of chance for a crusade of this kind in Peterborough. Among the crowds of loafers who too frequently adorn our street corners, there may often be heard blasphemous language, blood-curdling in its profanity. In the days of Fielding and Smollett broad language and oaths were as common as another form of vulgarity — slang — is in these days. And if we go back to the days of good Queen Bess, that learned virgin was not above using a big, round, mouth-filling oath. But with the growth of refinement the practice lost cast, till now swearing and profane language are universally considered vulgar—anyway they are altogether too common.

LINDSAY is to be congratulated on its new hospital, but some explanation might be made of the omission to invite any of the physicians of the medical staff of the Nicholls Hospital, while physicians from other places were sent invitations to the opening ceremonies of the Ross Memorial Hospital. Has Lindsay forgotten that during the years she has had no hospital her sick, free and pay, have been sent to the Nicholls Hospital and treated by the medical staff free of charge and with as much care and skill as any patient from the town? Not that it matters much, but it would have been neighbourly to invite one or two Peterborough physicians.

LAST evening, while the above paragraph was being written, the electric light failed, and went dead out. Work had to be suspended for a time. Upon inquiry, the explanation was made that at the time a teamster was watering his horses from the river above the dam. The police should take action to prevent the impairment of power by lowering the head in such a reckless manner.

SERIOUSLY, citizens do not object to paying for electric light, but they draw the line at paying for darkness.

"A LADY READER" writes this column as follows: "Generally Speaking:" I would suggest that it is high time the press of Peterborough did something to waken up the police of Peterborough, and others, to their duty in suppressing some of the infamous dives of the town, and putting those who live on the proceeds of such dives in their proper places."

THIS column is trying to wake up the Board of Trade, and the additional contract of waking the police, is rather too much to have in hand at one time. No doubt "Lady Reader" has some reason for writing as she does, and if the places she refers to exist, active steps should be promptly taken to raid and erradicate them. It is stated that places of the character referred to exist right under the noses of the police — within pistol shot or so of the police station. If "Lady Reader" would give any information in her possession to the police it would doubtless be acted upon.

WHILE "Lady Reader" may have bitter cause for her feeling against "those who live on the proceeds of 'such dives,'" yet there are two sides to the affair. No matter how bad an abandoned woman may be, she has been brought to that condition by bad men, yet the weight of the law, the odium of society, the condemnation of her own sex, all come upon the unfortunate head of the erring woman, while the man, not only escapes, but, with his known depravity, is taken to the heart of the society which spurns the companion of his evil hours as an outcast.

THE lane in rear of George street, from Brock street south, and that from Water street west towards George, has long been the bete noir of the Board of Health. Two years ago the Town Engineer prepared plans for its drainage and improvement, but as some of the property owners objected to the expense, the Board, rather than risk litigation, took no further action. Now the nuisance has become acute again, and a member of the Board of Health who visited this corner this morning, was astounded to think that the gorgeous shops on George street, could have a back yard of stagnant, festering filth, worthy of a badly drained stable yard. Now it is understood that the matter of remedying the evil is turned over to the Town Council, and if in turn it could be turned over to the Board of Trade, the circumlocution office would be fully equipped, and all danger of "doing things, you know;" would be avoided.

ST. THOMAS boasts of owning its street railway, and the corporation runs it. Pshaw, that's nothing. Peterborough has had a street railway for years, but in our case the street railway runs the corporation. In St. Thomas, the street railway is a public convenience; in Peterborough it is a public nuisance.

IN St. Thomas the street railway facilitates getting about. Our street railway obstructs traffic. Where the rails project upward vehicles are endangered, and its presence furnishes the street authorities with an excuse for not making improvements.

MOCK TOWN COUNCIL MEETING

To be Held in Connection With the Y. M. Guild Next Friday Evening.

Next Friday evening the young men of the George street Methodist church intend holding their first regular meeting. The nature of this first evening's programme will be novel and very attractive. The members of the Guild have arranged for a mock town council meeting, and under an experienced trainer have prepared as complete a representation as possible. The rules and customs will be observed and a most enjoyable entertainment is assured. All the young men of the church are invited to attend, and may come expecting to enjoy a good night's fun. A short musical programme will also be given.

ST. LUKE'S CHURCH.

Holy Communion will be administered to-morrow at 8 a.m.

Rev. E. A. Langfeldt will preach to-morrow at the morning service on "Mercy for All."

Miss Bertha Symonds, of Port Hope, will sing at the evening service.

The Girls' Guild will meet at Miss Calcutt's residence on Monday evening at 8 p.m.

The rector and Rev. W. L. Armitage will exchange pulpits to-morrow evening.

The Men's Guild will hold a meeting on Monday evening at 8 o'clock in the Sunday school room to elect officers and transact other business.

A GOOD INVESTMENT.

As careful men aim to protect their families and provide for the future, how to do it, is an important consideration. Safety, is the first requisite of a good investment. The Building and Loan Companies hold 153 million dollars assets in this province, and for sixty years have had a prominent part in the opening and development of the country.

The reserve fund principle, whether for labouring, business or professional men is equally good. The solution of the question, "How can I better my circumstances with the greatest safety, and the least effort?" is found in the instalment plan of saving.

The District Manager of the York County Loan and Savings Company, Mr. J. R. Gauley, will answer inquiries by mail to Box 470, Peterborough, about the company's 5 per cent. bonds, (interest half yearly,) or will furnish literature to those desiring to save money regularly.

RUM AND REVENUE.

The Examiner has been requested to publish the following poem which appeared in "Onward," a Sunday School paper:

Good citizens, pray ne'er forget
This land is broad—its people great,
And strict must be the excise law,
To make ends meet in Ottawa.
What with our Public Works, and things,
Our upper—and our underlings,
There's every year a great ado,
To raise sufficient revenue.

Don't tell us that the time has come
When we can spare the tax on rum,
True, some of us will drink and pay
The fated price; and, in the day
Of God's Eternal Judgment, go
Down to the drunkard's dreadful woe,
But than—why make so much ado?
We must keep up the revenue.

True, hunger, cold, rags, guilt and gloom
Will be sweet childhood's certain doom;
True, many mother-hearts will break,
And wifely love, for love's dear sake,
Will love, in worse than widowed woe,
The week of the sweet long ago;
But why this troublesome ado?
We must sustain the revenue.

True, maiden modesty will yet
The blush of innocence forget,
And, rum-betrayed proved traitoress
In holy virtue's holiest place—
Yet say not that the time has come
When we can spare the tax on rum;
And cease this troublesome ado;
We must keep up the revenue.

But stay, men of the revenue!
I have a warning word for you,
I climbed, one night, an eminence,
To see midnight's magnificence;
And, as I stood, a sound came forth
From West, and East, and South, and North,
That told me, as I tell to you,
Strange things about this revenue.

In dismal discord mixed there came
The shout and jeer from haunts of shame,
The starving children's cry for food,
The mother's moan, "O God! O God!"
The maiden's cry for help—in vain,
The stifled groans of murdered men,
The maniac's howl and curse before
His fatal plunge—to rise no more.

Yet stay, men of the revenue!
For I have more to say to you,
Plaintive upon the midnight air,
I heard heart-broken woman's prayer,
Winged on by many a sigh and sob,
That made my startled pulses throb,
That prayer was born of woe and wrong;
It cried, "How long IO Lord, how long!"

Men of the revenue! still hear:
That cry went up; it reached God's ear;
It bore its witness, stern and true,
Against this foul rum-revenue,
It charged that every rum-tax dime
Is coined of human woe and crime,
Is stamped with shame, is red with blood,
Is Judas-money—cursed of God.

Men of the revenue! still hear;
My heart stood still with sudden fear,
For, hushing every other sound,
A great voice spoke, above, around—
"The Powers that be I have ordained
That evil works might be restrained,
What have ye done—men whom I sent
My majesty to represent?

"Have ye, like me, proclaimed a ban
Upon the wine cup, and the man
Who putteth to his neighbour's lips
That cup, wherein destruction sleeps?
From your high places ye have sold
My people's life for paltry gold,
My shamed sceptre in your hand,
Blushes to break my own command.

"But, hear, ye men whom I have sent
My majesty to represent!
Make haste to remedy this wrong,
This cry has filled my ear too long;
I am come down. My strong right hand
Shall stay not till I purge this land."
The great voice ceased; then rose anew
The cry against the revenue.

O men of Canada! that cry

The Beehive

"Whatever We Do, We Do It Well."

Fancy Goods

Our stock of Fancy Goods is now fully assorted for the Christmas season, and presents a most endless profusion of all the latest ideas in this fascinating department. Here you can see many of the newest ideas developed, and all the materials for development. All information cheerfully given at Art Counter.

We have a most magnificent range of Cushion Tops. They run from **15c** to **$2.00**, and comprise some of the most beautiful designs in Japanese artistic work. Our Lithographs at **75c** are exceedingly handsome.

Our Cushion Cord stock has just been replenished again with an immense variety of all the newest and most desirable shades and qualities, at **10c, 15c** and **25c.**

All the leading Art Shades, including black and white, in pom-poms, at **15c, 20c** and **35c** per dozen.

Fancy Crocheted Wool Slippers in all shades and various patterns. Ladies' sizes, **$1.00**; gentlemen's sizes, **$1.25.**

Calendars, Match Scratchers, Fancy Photo Holders, Braids, Silks and a thousand other things—all seasonable and appropriate.

Telephone 230.

HOOPER'S
North-End Confectionery.

In compliance with the wishes of my friends in the North-end, I have opened a Branch Confectionery Store on the Corner of Brock and George Streets. These very attractive and convenient premises have been suitably refitted and furnished in an up-to-date manner, where a specialty is made of HOOPER'S CONFECTIONERY ONLY. Our friends can depend upon the same Wholesome, Reliable, First-class Confections, and the same courteous treatment as in our South-end Store. "As you prove we praise us"

THOS. HOOPER. South-end Store } No. 227 George Street, near Charlotte.
North-end Store } No. 441, Cor. Brock and George Streets.

ATTRACTIVE BARGAINS!

Ten Crates of English Goods have arrived. We buy direct and save middlemen's profit, and pass it over to you. A perusal of the following list will convince you of that fact:—

Crockery

Imperial Life Assurance Co. of Canada
OFFICE—326 Market Arcade, Peterborough.
Good Opening for 2 Young Men to Learn Insurance.
Head Office, Toronto.

Shall never cease, nor night nor day,
While wreck of manhood's nobler part,
And wreck of woman's tender heart,
And wreck of childhood's joy that never
Blooms but once—then dies forever,
And wreck of man's dear hope of heaven
Each year anew, this country through
To feed the rum tax revenue.

Canadians! Rally, are ye dies?
Ring out a nation's battle cry.
It is for home, and love, and life;
It is for mother, sister, wife;
'Tis that your country's wound may heal;
'Tis for your unborn children's weal.
God leads you. Stand before His throne
And swear by Him, that site thereon,
Your country's life no more shall go
To feed that rum-tax revenue.

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

BIRTH.

DUNSLOW. — At 23 Aberdeen avenue, on November 22nd, 1902, the wife of Mr. H. Dunslow, of a daughter.

MARRIED.

MOUNT PLEASANT ONT

FLINT OF YARMOUTH.

Direct Antithesis of the Man He May Follow in the House.

There is precedent in these matters, and the clerkship in the House of Commons having long been held by a Nova Scotian, the knowing ones predict that Flint of Yarmouth will be Bourinot's successor, writes H.F.G. in Toronto Star.

Mr. Flint is in many ways the direct antithesis of Sir John. He is a tall, spare man; Sir John was portly. He wears a moustache; Sir John was clean shaven. He is well provided with grey hair; Sir John was very bald. In manner Mr. Flint is slow and formal; Sir John was nervous and alert. Mr. Flint speaks in measured tones; Sir John's utterance was rapid and jerky. Mr. Flint is a lawyer by profession, and to that extent his training will help him in the new office. He will, no doubt, be able to digest quickly that great bundle of rules and sub-rules which is known as parliamentary procedure. The legal mind will be able to distinguish the great underlying principles from the multitudinous sub-sections which often seem to contradict directly what has gone before. At the bottom, no doubt, common sense operates, but it takes an acute and discriminating intellect to fix the correlation and proportion of all these technicalities. Much of the parliamentary procedure in all countries has been contrived to give tacticians a chance. There are rules by which a ticklish question can be forced to the front; and other rules by which it can be suppressed. The adroit parliamentarian is recognized by his knowledge of these matters, and nearly every politician of any consequence prides himself on his adroitness in using that knowledge. Mr. Flint being a lawyer, and having a lawyer's thoroughness, will doubtless arm himself cap-a-pie to withstand all comers. In accepting a position which does not permit him to take part in the debates, prohibition loses a skillful and earnest advocate.

HE'S STILL CURED.

Ademard Coderre Used Dodd's Dyspepsia Tablets Three Years ago and has had no Indigestion Since.

These days of hurry and excitement bound to make themselves felt in the overworked human body, and on no part of it do they tell more quickly than on the stomach.

An extra strain of work, and especially brain work always must affect the appetite, and what affects the appetite must affect the stomach. And if the stomach is not cared for, rested and recuperated, Dyspepsia must result. Dodd's Dyspepsia Tablets rest the stomach and keep it in a fit condition to do its work, easily and well. They also cure dyspepsia in its worst form. Thousands who have been cured by Dodd's Dyspepsia Tablets will tell you so. Ademard Coderre, of St. Jacques de L'Achigan, is one of these. Listen to his story:

"I suffered from Dyspepsia caused by inflammation of the stomach," says Mr. Coderre. "I tried medicines without getting relief, and was almost discouraged. One day I read of the cures performed by Dodd's Dyspepsia Tablets, and I bought two boxes of them. I found relief almost at once, and was finally completely cured.

"It is three years since I was cured of Dyspepsia by taking Dodd's Dyspepsia Tablets and I am still cured."

An Old Dodge.

A bright-looking young fellow who lives near Hamilton, was in the city one day this week inquiring for the American headquarters of the Pinkerton Detective Agency, says The Spectator of that city. He had read the advertisement for the young men wishing to enter the detective service and had corresponded with the agent, and sent on the fee, and in return received a certificate of appointment in the Pinkerton Company and an order for his star and revolver. He invested several dollars, and is now anxiously waiting for the credentials that will make him a regular detective. This advertising for young men to enter the detective service is an old dodge, and yet scores of suckers are caught in the trap every day.

Fame.

It is largely a matter of accident. Being in the right place at the right time, and doing the right thing, or, better still, making people think you are doing the right thing, is about all there is to fame.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E.W. Grove's signature is on each box. 25c.

THE OLD ARM-CHAIR.

By Eliza Cook.

I love it, I love it! and who shall dare
To chide me for loving that old armchair?
I've treasured it long as a sainted prize,
I've treasured it with tears, I've embalmed it with sighs.
'Tis bound by a thousand bands to my heart;
Not a tie will break, not a link will start;
Would you know the spell?—a mother sat there!
And a sacred thing is that old armchair.

In childhood's hour I lingered near
That hallowed seat with listening ear;
And gentle words that mother would give
To fit me to die, and teach me to live.
She told me that shame would never betide,
With Truth for my creed, and God for my guide;
She taught me to lisp my earliest prayer,
As I knelt beside that old armchair.

I sat, and watched her many a day,
When her eye grew dim, and her locks were grey;
And I almost worshipped her when she smiled,
And turned from her Bible to bless her child.
Years rolled on, but the last one sped—
My idol was shattered, my earth-star fled!
And I learned how much the heart can bear,
When I saw her die in her old armchair.

'Tis past, 'tis past! but I gaze on it now,
With quivering breath and throbbing brow;
'Twas there she nursed me, 'twas there she died,
And memory flows with lava tide.
Say it is folly, and deem me weak,
Whilst scalding drops start down my cheek;
But I love it, I love it, and cannot tear
My soul from a mother's old armchair.

Sketch of Eliza Cook.

Eliza Cook, English poetess, was born at London about 1818 and died near London in 1889. She wrote for various English journals and advocated mental culture in "Eliza Cook's Journal." Among the best known of her pooms are "The Old Farm Gate," "Old Songs," "Home In the Heart" and "The Old Arm Chair."

The Equator Defined.

A school inspector was recently examining a class in geography.

He had previously given them a short lesson, in the course of which he had told them all about the earth's axis, and the Poles at the ends thereof, and that the equator was an imaginary line running around the earth. Wishing to see how much they had learned, he at length asked:

"Now, boys, what is the equator?"

There was a pause, and the inspector smiled triumphantly, when a fierce-looking boy growled out the answer:

"The 'quator," said he "is a menagerie lion running round the earth."

The Price Never Changes.

Customer—I think you should begin to charge me half price, Shears, there's so little to cut now. Barber—Other way on, sir, I fancy. We ought to charge double. Look at the trouble I have to find it!—Punch.

For consumption, bronchitis, weak lungs, and throat troubles, Angier's Petroleum Emulsion is unequalled. It is pleasant to take and agrees with the stomach.

It is a combination of healing Petroleum, nerve-strengthening and tissue-making hypophosphites, and other curative agents well known to physicians. Angier's Petroleum Emulsion heals diseased membranes, allays irritation and inflammation, improves nutrition, regulates the stomach and bowels, and relieves diarrhœa and night sweats.

I was told by three doctors that I had quick consumption. Angier's Petroleum Emulsion was prescribed and agreed with me perfectly. Within six months I had gained fifty-eight pounds in weight. My cough was stayed, and I had no more night sweats or hemorrhages. I am now in perfect health.—B. H. Wilbur, Medford, Mass.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and insist on getting Angier's. Large size, 50c. and $1.00. Small, 50c.

ANGIER CHEMICAL COMPANY, BOSTON, MASSACHUSETTS, U.S.A.

'TWAS A FAMOUS VICTORY."

The "Soldiers' Battle" of the Crimea—Veterans Living in Toronto Who Shared in the Honors of the Day.

Forty-eight years ago on the 5th of November took place the battle of Inkermann, the third great engagement between the Allied troops of England, France and Turkey, against those of Russia in the Crimean war.

Everyone is familiar with the old rhyme commencing "Remember, remember the fifth of November," yet everyone is not so conversant with the famous parody of those well-known lines which appeared in the London, England, weekly periodical, Punch, when the news of the great engagement reached England. They ran thus:—

"Remember, remember, the fifth of November,
Gunpowder, cannon and shot,
When General Lapradni met John, Pat and Sandy,
And a jolly good licking he got."

For years afterwards in London and Lewes in Sussex, where "Fifth of November" celebrations have until recently been very much in evidence, these lines were always vociferously shouted by the crowds assembled for the yearly carnival of bonfires, fireworks and disorder.

In Toronto there are nine survivors of the fight in "the soldiers' battle," as it has been termed. Their names are:

Lieut.-Col. Hesketh, late R. A.; George Pearce, who was a driver in the Royal Horse Artillery; he had had his horse shot under him at Balaclava a fortnight earlier, but came out of Inkermann without a scratch. J. Jenkins is another; he was in the 1st Batt. of the Coldstream Guards, was also present at Balaclava, and has the Crimean medal with four clasps. Yet another is J. Sully, late of the 28th Regiment, nick-named the "Old Brags." That famous corps in old times were allowed to wear the number plate of their regiment both back and front on their shakos, to commemorate the fact that during the fight they were attacked both front and rear. They were in line, and to meet the onslaught, the commanding officer ordered the rear rank to face about, and in that formation they met and victoriously repelled their assailants. Thos Tyler, formerly of the 30th Cambridgeshire Regiment, is the fifth on the list. That crops had the heaviest death roll in its officers of any regiment which served in the Crimea. To quote the words of a well-known song often heard forty-five years since, yet rarely now, "The Queen's Letter"—"They fell like sheaves in autumn."

Two other veterans are John McMillan and Sergt.-Major Darcy, both of the 47th Regiment, which, like the 30th, was for some time stationed in Toronto. The last two are Patrick Roach, late of the 30th and Timothy Enright, late of the 63rd. The last named is also a survivor of Balaclava and has four clasps to his Crimean medal.

A LITTLE TYRANT.

The Trouble not Due to Original Sin.

There is no tyrant like a teething baby. His temper isn't due to original sin, however; the tyrant suffers more than the rest of the family. He don't know what is the matter. They do. The trouble is they do not always know what to do for his lordship. An Ontario mother writes to tell us what is best to do. "When my baby was teething," she says, "he was so cross and restless that I hardly knew what to do with him. He had a poor appetite, and ate but very little, and was growing thin. I got a box of Baby's Own Tablets, and they made a great change. He now rests well, has a splendid appetite, and gives me no trouble at all." This is the experience not only of Mrs. D. K. Schroeder, of Hanover, Ont., but also of thousands of mothers all over the Dominion. A baby teething is cross because his blood is heated, and his little bowels constipated or unhealthily relaxed, and his system heated by the effort of getting the teeth through the gums. Baby's Own Tablets act like magic not only in this, but in all ailments of little ones. Sold by druggists, or sent postpaid at 25c a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y.

At Sea by an English Visitor.

Toronto is exceedingly beautiful. You can take a car and ride through street after street of delightful homes—simple, attractive, well built, with cosy verandahs, and green lawns, and brilliant flowerbeds. There are none of the long rows of villas, all exactly alike, that disfigure a London suburb, but every house has some distinctive feature, some beauty all its own.

Every visitor to Canada is impressed with the sober habits of the people. I did not see a public-house in Canada—that is a public-house as we understand it in England. There were one or two quiet saloons in the French part of Montreal, but that is all. Montreal has Sunday closing, and even in our hotel the bar was closed during the whole of Sunday. Go into any restaurant or hotel dining-room in Canada, and I will undertake to say that you will find 95 out of every 100 visitors drinking water.

Of course, though Canada needs men and women so badly, she only needs farm laborers and domestic servants. Professional men are not wanted; lady typists should not think of going there. Healthy, hard-working young fellows with a certain amount of capital will do well, only they must not expect luxury and ease, they must be prepared to rough it, and work hard. But, putting the question of capital on one side, it practically amounts to this—that Canada only wants laborers and domestic servants. For these there is always a great demand, and they will find plenty of work and adequate wages.—F. A. A., in the Young Woman, London, England.

Shearling Competition.

The Mark Lane Express says: "The shearling ewes, a choice and even lot were keenly competed for, the premier pen going to Mr. John Campbell, of Canada. For the ewe lambs the competition was very keen, and Mr. Campbell had to pay 50 guineas for the first pen of five, a most beautifully matched and typical bevy of lambs. The ram lambs sold remarkably well. Mr. Campbell secured four grand animals at 20 guineas, 18 guineas and 14 guineas per head. The 206 sheep averaged £6 17s 6d per head." The sheep were owned by Mr. H. Williams, of Shrewsbury, Shropshire.

OLD DAYS RECALLED.

Supper to Recall a Logging Bee Given at St. Catharines.

An old fashioned logging bee supper has just been given by Mr. George G. Bennett to fifteen pioneers of St. Catharines, who had at one time assisted in a logging bee.

Every person invited attended in his logging bee costume, and while waiting until the supper horn was blown, sat around on benches, boxes, and pails turned upside down, telling yarns about the days of logging bees in this country. The supper, which was prepared by Mrs. Bennett, reminded one in every way of the good old days of the logging bee. The table, which also reminded one of the past, was a long one, with benches on each side, in place of chairs. The table was illuminated with candles and old-fashioned lights. The candles were inserted in bottles and attached to small boards with three nails to hold them upright, as were used in those olden times.

At the sound of the supper horn the company plodded their way into the house to the table, which was well supplied in every way with the many things good to eat, chief among them being roast pork, baked beans, rice pudding, pumpkin pie, fried cakes, and home-made bread. Before partaking of their meal the whole company arose and sang the blessing to the same tune as the majority of our forefathers did before every meal.

After supper was over the benches were shoved back against the wall, the pipes and tobacco were hauled up from pockets, and filled. No matches were allowed to be used, so they all had to lift the candle to light their pipes.

Not a Respecter of Churches.

A few nights ago a Winnipeg policeman arrested a sleep walker who had wandered far away from his home in his night clothes. On arousing him from his slumbers, the prisoner enquired: "Surely you are not going to lock me up. I can't be responsible for the condition you found me in. I am a somnambulist." "I don't care what church you belong to," replied the policeman; "if you belong to every church in the city you can't walk the streets of Winnipeg in your night shirt."

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

An Ancient Custom.

Newcastle-upon-Tyne has a very ancient custom. When the business of the Assizes is ended, the Mayor makes a quaint speech to the judges of the Northern Circuit. He says:

"My lords, we have to congratulate you upon having completed your labors in this ancient town, and have also to inform you that you travel hence to Carlisle, through border country, much and often infested by the Scots. We therefore present each of your lordships with a piece of money, to buy therewith a dagger to defend yourselves."

Then, as required by custom, he gives the senior judge a jacobus, and the junior judge a carolus. It costs not little sum to buy these old coins.

A Murder Judge.

Justice Graham is called the par excellence murder judge of England. In one day at Leeds recently he tried three murder cases—two before luncheon and one after. The justice is an inveterate smoker, and in the course of the day leaves the bench four or five times to snatch a few whiffs from a stumpy little pipe which he has used for years.

The Food System the Source of Life

Any Derangements of Liver or Kidneys That Interfere With Digestion and Assimilation of Food Rob and Deplete the Body.

Dr. Chase's Kidney-Liver Pills.

It matters not how good your appetite, how you relish your food or how much you eat, so long as there is anything to interfere with proper digestion and assimilation of the food by the body, strength and vigour will gradually decline and weakness and debility take their place.

The most frequent cause of disordered digestion is sluggish action of the liver, kidneys and bowels. The whole alimentary canal, through which the food passes on its way through the body, becomes choked and clogged, and the system is poisoned and diseased.

Dr. Chase's Kidney-Liver Pills have been marvellously successful in exactly this class of disease, principally because they act directly on the kidneys, liver and bowels, regulating and invigourating their action, and restoring them to health.

Mr. R. Beach, 225 Sherbrooke street Peterborough, Ont., states: "About two years ago I became subject to cramps, which were caused, I was told, from acute indigestion. I was so bad that I would be laid up for weeks at a time. These attacks came on periodically, and distressed me greatly.

"I then began using Dr. Chase's Kidney-Liver Pills, and have found them a wonderful medicine. They have entirely prevented a recurrence of my trouble, corrected the derangement of my digestive organs, and made me feel like a different person."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 11

Don't be Deceived.

WHY?
Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay rents to the tune per cent. to rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would protect it? Why not call at Lindsay & Moyer's Real Estate and Insurance Office for any of these?

AN OUTLAW'S FATE

... By C. M. STEVANS

Copyright, 1901, by A. S. Richardson

United States Marshal Simpson was standing just back of the judge's desk in Topeka during the trial of Bill Covil when a boy brought him a telegram. He read it thoughtfully and then beckoned to Jim Thralle.

When Thralle came up, the marshal gave him the message, which read: "Casper Flugel in camp with seven men, not friends, at Willow Springs, near Guadaloupe peak."

"Thralle," said the marshal, "you're the man to take him in. It will be an easy five hundred for you."

Casper Flugel was a big German iron molder, wanted in Pittsburg for the murder of a companion. His first year's career in the territory had so added to his crimes that his description was well known to all the deputy marshals.

Jim Thralle accepted his task, and in due time he rode into the camp at Willow Springs, playing the role of a fugitive from justice. Since all renegades regard it as their prime duty to protect any one threatened with arrest his first task consisted of getting the man he wanted away from the company. He soon found that this could not be done, because the iron molder would not under any circumstances go ten feet out of camp unless accompanied by several of the men.

Flugel was thoroughly disliked. He did not know how to be companionable to the other renegades. He lacked their style of courage. His silent, sullen nature was decidedly distasteful, and it was apparent that they would gladly be rid of him. As Flugel could not be persuaded to leave the company, and as Thralle knew how to be popular with the men, the latter decided that the quickest way to get his man was to pick a quarrel with him and have him driven from the camp as an uncongenial character. But Casper Flugel would not quarrel. He stoically took all abuse without any sign of resentment further than a revengeful look out of his heavy, brutal eyes. It was a dangerous game, since even the renegades might become suspicious. Suspicion was sometimes as bad as conviction.

"Say, partner," said one of them, "Dutchy thinks you are a marshal and that you are after him. We've got a notion to fire you both."

Jim Thralle laughed good naturedly.

"I've got out of a good many worse places than this where I wasn't wanted," he answered. "When do I go?"

"Oh, I guess you're all right," was the reply, "but Dutchy's afraid, and he wants us to promise that you don't get out of camp until he's had at least a day's start."

"That's dead easy," answered Thralle. "Tell Dutchy to git at once. He's nobody's pard. Let him go."

Casper Flugel rode away at noon with a grunt that was meant to be a friendly farewell, but his late companions took no notice of him except to exclaim, "Good riddance!" Thralle noticed, however, that the rustlers kept a close watch on him all day. That night he slipped out of camp, mounted his horse and rode away.

He had no difficulty next morning in finding Casper Flugel's trail. To his astonishment it led straight northeast to the Pecos river. Thralle thought that nothing but the ignorance of the iron molder could lead him to take the chances of making his way across the Great Staked plain. The man hunter knew that it was fully three days' journey to the Pecos river, during which time not a drop of water could be found. Then, possibly, even the Pecos river would be dry as a sand hill. The hunter filled his two rubber air pillows with water and stuck like a fox hound to the trail of the fugitive leading into the great oven of the plains. As the day progressed a scorching and oppressive vapor made it impossible for him to see any object beyond a few yards. Sparingly he doled out the water to himself and horse. Most of the time he held bulbs of the sand cactus in his mouth as a preventive of thirst, and he fed them liberally to his horse. The night was inexpressibly silent. Neither whir of insect nor howl of coyote came to break the monotony of the weary hours.

At the end of the second day his water supply was exhausted, and nothing remained but a handful of coffee and a small bag of bran. Not a spear of grass was to be found, and as the horse struggled along after his master through the deep white sand he groaned with almost human reproachfulness. When the sun arose on the third day, it appeared like a redhot stove lid that had been shoved up above the horizon in the night.

The trail was less than an hour old when the exhausted pursuer reached the banks of the Pecos river. He found the bed of the stream as dry as the shores. Thralle unsaddled his horse and helped the poor creature gather the sparsely growing blades of soft salt grass. At a spot in the bed of the river where this grass was usually thrifty he spent an hour digging with his hunting knife and was rewarded with enough water to quench their thirst and to fill one of his rubber bags.

The next morning he started again on the trail, walking all the time to save his horse. In the course of a few miles he came to the worst of the desert. Here was a great sea of soft white sand, into which the horse at every step sank to his fetlocks and the man to his ankles. The horse could not endure this unceasing struggle, and soon after noon he sank down. To save him from the torture to follow the master shot him and then trudged on, convinced that he was almost in sight of the iron molder.

It was now evident that Casper Flugel had been better equipped for his task than his pursuer. He had been told that no one could follow him across the Staked plain. Thralle drank the last drop of water from the rubber bag and with indomitable will struggled on. A little later an object loomed up in the trail before him. It was Casper Flugel, seated on the body of his dead horse.

The sight of a human being in that dreadful region caused the man hunter to give a shout of joy. He forgot his object in following the iron molder. Here was a human being in that God forsaken region, and he felt that if he could grasp the man's hand in friendship it would be the happiest moment of his life.

Casper Flugel heard the shout and, dumb with amazement at the sound of a human voice, rose to his feet. Then he gathered up some articles at the horse's head and hurried on as fast as the soft sand would permit.

The man hunter ran after him, shrieking words of good will and entreaty, but the iron molder gave no heed and finally disappeared in the suffocating heat waves. When the red lid had traversed the sky and seemed suddenly to drop out of sight in the sand a few yards ahead of him, the pursuer, exhausted, fell to his hands and knees. Instinct had taken the place of reason, and he crawled on.

Presently he found himself looking over the edge of a precipice. The twilight was clearer than the day, and before him was a long valley, in which he could see several buffaloes grazing near a stream. The sight was so unexpected that he beat his forehead in the belief that it was the vision of a disordered mind.

His rifle was gone, but his two revolvers were yet in his belt. Still he looked and hesitated. Was it a dream? The reality became so clear that new life rushed through his veins, and he crept like a snake down to the herd. Crawling to a rock near which one was feeding, he leveled both guns. At the shot it fell, and his misery was at an end. In a few minutes he had a fire, and over it a bit of steak. Then he fell asleep, but some time in the night he was awakened by rifle shots, mingled with the howls of wolves. Revolver shots followed in quick succession, and the man hunter sprang to his feet. Casper Flugel was fighting wolves!

Thralle had just decided to go to Flugel's assistance when the firing ceased and a horrifying shriek echoed down the canyon. It was too late to help the iron molder. Thralle ran back to the bluff. He was gone too soon. The pack of wolves came howling down the canyon. They reached the carcass of the buffalo and fought over it so long that the man hunter was enabled to reach a place of safety. Some of the boldest tried to get at him. He emptied his revolvers at them and finally the howling pack turned up the canyon. The next morning he followed the stream to the first ranch, and a month later he reached Topeka, where he reported to United States Marshal Simpson the death of the iron molder.

BACK-ACHE ?

If you have Backache you have Kidney Disease. If you neglect Backache it will develop into something worse—Bright's Disease or Diabetes. There is no use rubbing and doctoring your back. Cure the kidneys. There is only one kidney medicine but it cures Backache every time—

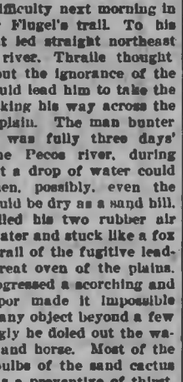
BRAIN FOOD.

Not long since there was a great run on the fish markets because it was announced that fish was food for the brain. Of course the fallacy of the fad was soon exploded. Normally the food we eat nourishes brain, nerves, muscle, bones, etc., each part of the body assimilating phosphorous salts, lime, according to its need. When the brain begins to show weakness or the nerves become sensitive it is a sign that there is a loss of the nutrition contained in the food eaten, and this loss is in general due to disease of the stomach, and its allied organs.



Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which is the source of the strength of both brain and body.

"I was troubled with very frequent headaches," writes Miss Belle Summerton, of San Diego, Duval Co., Texas, "often accompanied by severe vomiting; bowels were irregular and my stomach and liver seemed constantly out of order. Often I could eat almost nothing, and sometimes absolutely ... times. I was entirely unfit for work, and my whole system seemed so run-down that I feared a severe sick spell and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake duties attending public school life."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent *free*, on receipt of 21 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

GEE UP, DOBBIN.

By Albert Carman.

Gee up, Dobbin! Don't yer see
Yer a-plowin' 'long o' me!
Turnin' up the pilkin' soil,
As we a many times have done.
Haw, old comrade! There, jes' so,
Keep the furrer straight, an' go;
Now then, easy, git along,
Supper's call'in, work's nigh done.
That's a many year gone past,
Dobbin, since we hitched up fust.
Since we plowed that yon long furrer,
You an' I, ole friend, together.
Many a day of toil an' sweat,
Winter's storm and summer's heft,
Have we plowed an' planted, mowed,
Reapin' of the seed we sowed,
Now we're gettin' old an' played,
This of blood an' spavin kneed,
An' the collar galls us sore,
As it never yeast afore,
Makin' work a sorer drag
Nor ole farmer an' ole nag;
But that's no kick, we're had our day,
Healthy labor, happy play,
Givin' God the praise for work
You an' I have never shirked.
Now we'll take the collar off,
Bein's how we're nigh past work,
Lay aside the yoke an' plow,
Bid the world a last good-bye,
Gee up, Dobbin! Night has come;
Time we both were gittin' home.

New Table of Values.

"Now, children," said the teacher to the class in advanced arithmetic "you may recite in unison the table of values."

And the children repeated in chorus:

"Ten mills make a trust.
"Ten trusts make a combine.
"Ten combines make a merger.
"Ten mergers make a magnate.
"One magnate makes the money."

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned Druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased kidneys:—

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles effect astonishing and permanent cures. If not relieved and cured, you waste no money."

Ormond & Walsh, Druggists, Peterborough, Ont.

Too Logical.

Mr. Blank, head of the great business of Blank & Son, regularly scanned the attendance book, noting punctuality or otherwise. His son was the greatest offender, and he wrote across his entries, "Mr. George Blank keeps very bad time."

Mr. George, "bluffing," appended to this remark, "Time was made for slaves," and laughed much among the higher employees at his wit.

On the 1st of each month the cashier handed each employee his check in a sealed envelope. Mr. George was always eager for his, having expensive tastes of all kinds.

On the next payment after his rejoinder he opened his envelope and found a slip of paper on which was written: "Time was made for slaves. Time is money. But Mr. George Blank is not a slave, therefore he requires no money."

Mr. George, who was a university man, avowed that despite his former studies he found this proposition too logical for him.—London Telegraph.

What He Forgot.

Little Johnny—Can I have some more pie?

Mamma—Do not say "can;" say, "May I have?"

Little Johnny—I forgot.

Mamma—Forgot what?

Little Johnny—That I have to be particular about grammar w'en I ask for pie.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 38

The Editor on His Dignity.

The printer of this paper is of the opinion that this life is too short to go once a week to the store and stand on his toes, rub his hands, and smile at the proprietor, and humbly inquire if he wants any advertisement this week. The proprietor of the store does not come to our place and want to know if we want any socks. Perhaps we think just as much of our dignity as he does of his.—Smiff.

English Walnuts Grown Here.

Several years ago a number of English walnut trees were planted by several persons in Paris, Ont. This year one of the trees, owned by Mr. Thomas Walton, bore seven fully developed walnuts. It is said to be a very unusual thing for the English walnut tree to bear fruit in this country.

CURE SICK HEADACHE.

"BOBS."

An American Journalist's Appreciation of British Commander-in-Chief.

The New York Tribune, in an editorial entitled "Bobs," expresses the hope that Lord Roberts will accept the invitation extended him to visit the United States next year. After a whimsical reference to his long list of titles and the interest which those who "dearly love a Lord" will take in the visit, the editorial continues: "But beyond and far above all such things is the fact, which will far more strongly appeal to the judicious mind, that in Frederick Sleigh Roberts is to be seen the most illustrious soldier now living in the world. The man who won the Victoria Cross in the great mutiny, serving conspicuously under Nicholson at Delhi and under Havelock at Lucknow, who 'chivied the Naga and Lushai,' who recouped the awful disaster of Maiwand and carried his flag in triumph from Cabul to Candahar, who established peace and safety on the borders of the Indian Empire, who conquered Burmah, and who turned the tide of war in South Africa, is surely a man to be admired by all to whom deeds of heroism and the 'pride pomp and circumstance of glorious war' still make appeal. Lord Roberts has, however, a still higher title to esteem than that of his official rank and military achievements. The man is greater than the peer or the field marshal. As these latter he is to be admired, but as the former he is to be loved. In his simplicity of purpose, his integrity of character, his purity of life, and in the modesty with which he has borne his honors and the generosity which he has shown in every hour of victory, he realizes more fully than most men of his time the old poets' ideal of the 'veray parfit gentil knight.' No other soldier of his time in any army has more commanded the affection as well as the obedience of his men, or has made a surer appeal to the sympathies of all who can recognize and appreciate true manhood, and in no land, we venture to believe, is true manhood more promptly recognized and more fully appreciated than in our own. A native of India, a citizen of England and a type of the best qualities of the Anglo-Saxon race, he will be welcome upon our shores."

Henry Irving as a Speaker.

Sir Henry Irving has won a great reputation as an after dinner speaker; but, according to Harry Furniss, his speeches are carefully prepared and printed in very large block type, easily read at a distance. Herein lies the triumph of the actor. These slips are artfully placed on the table out of sight of the audience, and while one of the speaker's hands rests artistically on his hip the other toys with a fruit knife, and with it pages of the speech are turned over as they are read. So perfectly is this acted, so gracefully does the body sway and so well timed are the pauses in the speech that only those seated in close proximity to Sir Henry are aware he is reading his speech.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

Two Curious Facts.

An employer who would accept without complaint an increase of 10 per cent. in the price of some lines of raw material, would close down his business for months to resist an increase of 10 per cent. in the price of labor. Employes, too, who accept with equanimity increases in rents, taxes, and the cost of domestic supplies equal to a reduction of 10 per cent. in wages, would go on strike, and endure months of privation, rather than submit to a cut of 10 per cent. by an employer. — Toronto Globe.

Toronto's First Parliament Building.

Landmark writes: In an article describing a farewell pilgrimage through the old Parliament buildings on Front street you (The Toronto Telegram) say that Mr. Yeigh tells us "the first Parliament building in Toronto was a small log building erected on Berkeley street in 1876." It is true that the first Parliament buildings in York were erected on the south side of Palace, now Front street, south of the south end of Berkeley street, but they were of brick and not of log. That they were of brick is verified by "Heriot's Travels in 1805" and by the statemen of the late Mrs. Charles Seymour of Ottawa, who died a few days ago. She saw them burn in 1813 and informed the writer that they were of brick. It is also true that nearly every history of Toronto speaks of these buildings as being of log and wood. There can be no mistake about it that they were of brick, and red brick at that.

The Cook's Best Friend is Bovril

Bovril is invaluable in the kitchen as by its aid rich nourishing soups and tasty gravies can be prepared in a few moments. It also adds flavor and strength to stews, hashes, ragouts and every other dish for which it is employed. No cook who aims at culinary successes, at a small cost and at a short notice, can do without

BOVRIL

BLOOD DISEASED MEN

If you ever contracted any blood disease you are never safe unless the virus or poison has been eradicated from the system. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body come red and scaly, dyspeptic stomach, sexual weakness—indications of the secondary stage. Don't run your system with the old mercury treatment—mercury stands—which only suppresses the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds that the disease will never return. Thousands of patients have been already cured by our new method treatment for over 20 years. No names used without written consent.

Mr. R. A. C. writes: "Your remedies have done me more good than Hot Springs and all the doctors and medicines I had previously tried. I have not felt any of those pains or sores, ulcers or blotches for over seven years and the outward appearance of the loathsome disease have entirely disappeared. My health has been fully again and I am married and happy."

THE WALL STREET MARKET

This Week's Bank Statement is Better Than That of Last.

A Curious Feature of the Market—Daily Letters—Quotations.

To-day's stock market was a repetition of yesterday's. There were no unusual rises or slumps. The bank statement of the week is very favourable indeed, but a serious feature of to-day's market was that after the receipt of so favourable a statement the majority of quotations fell off from 1-8 to 1 1-8 points.

Reserve Increase, $1,331,625; Specie Decrease, $122,300; Loans Decrease, $2,397,600; Legal Increase, $296,600; Deposit Decrease, $2,618,200; Circulation Increase, $731,200; Deposit not U.S. Increase, $ 1,777,625.

The following despatches have been received by H. M. Poussett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 22nd, 1.20 p.m. — The close of the week finds the stock market in a very satisfactory condition as a result of the easier money conditions and absorption of stocks by the better class of operators. The presence of time money in the street at six per cent. is taken to mean that greater stringency than has heretofore been felt is not likely to occur and that provisions have been made for the annual settlement next month as well as to offset the expected shipments of gold. A resumption therefore of speculative conditions on a better basis than has existed for many weeks has been the natural outcome of precautions taken by the bankers and the conservatives of common houses. The advance is confidently looked for when profit taking shall have caused the usual market reactions. The stock market therefore promises to be a satisfactory one for the operators on the side, but without the immediate prospect of a heavy advance. While the bank statement was not up to the full expectations of the street, particularly in loan account, we are inclined to regard the moderate decrease as a result of the freedom of the banks to make loans and in this respect a favourable augury.

M. & M.

LATEST IN SPORTING CIRCLES

London Rugby Fifteen are Here To-day.

Some Notes of Interest to Hockeyists and Rugbyists—Norwood Hockey Club.

The public in general should be highly satisfied with the selection of officers for the Peterborough Hockey Club. The two principal officers are, of course, the president and the secretary. It must have been gratifying indeed, to Mr. Kenner and Mr. McPherson, to know that their services to the club were so highly appreciated that any attempt on their part to evade re-election was greeted with indignation on the part of the players and members of the club.

* * * *

Campbellford will not likely have a team in the O.H.A. this year, owing to the fact that they have no rink. This will be generally regretted, as the Campbellford team was made up of a swift lot of players. The Campbellford rink building, it might be stated, collapsed towards the close of last season.

* * * *

The Peterborough Curling Club has a membership of about eighty members at present. There requires to be a membership of 125 before the club will undertake the opening of the Charlotte street rink.

RUGBY.

The London Rugby team arrived in town last night and are registered at the Oriental Hotel. They are playing the locals on the Oval this afternoon.

IS GUY WRONG?

"Guy Curtis is wrong. There will be no United States game as long as offside interference is prohibited." So says the Toronto News, referring to Curtis' opinion of the Burnside rules. Well, Curtis long ago proved himself a true prophet in connection with the evolution of the present Canadian Rugby rules, and we prefer to accept his views as one who speaks with authority, and not as the (Toronto News) scribes. Ten years ago when the Osgoode team played their famous combination game there was little to complain about in the rules. They seemed all right then. What has occurred since? Master minds have evolved plays that a century ago were never thought of, and a somewhat rough game has been built upon very plain and innocent rules. And the same will be the fate of the snap-back system.—Kingston News.

HOCKEY.

NORWOOD'S OFFICERS.

The annual meeting of the Norwood Hockey Club was held at the McNicholl House on Wednesday evening. In the absence of the President, Chas. P. Pearce was, on motion, appointed chairman. The following officers were elected for the coming year:—

Hon. Presidents—Mr. F. Fry.
President—Mr. M. R. Knox.
Vice President—Dr. McLean.
Patrons and patronesses—Mr. and Mrs. W. A. Eaton and Mr. and Mrs. E. P. Cuffe.
Manager—Mr. F. Pearce.
Secretary-Treasurer — John F. Anderson.
Executive Committee—Messrs. J. Millar, H. Nicoll and Alex. Kempt.

The appointing of a captain was laid over until another meeting.

MR. GRUBBE WRITES.

An Interesting Letter From a Peterborough Townsman.

(Barrie Advance.)

Mr. R. W. Grubbe, formerly of the Bank of Toronto, who is now living a retired life, and is enjoying a well-deserved rest in Peterborough, writes a most interesting letter to the editor of the Advance. Many of the older residents will remember the kindly assistance which his father, Captain Grubbe, lent the English church choir some fifty years ago, when he used to lead the singing with his flute. The letter is as appended:

Peterborough, Ont., 14th Nov.

"Hazelwood Lodge," Stony Lake.

"The noble stag was passing now
Upon the mountain's southern brow,
Then dashing down a darksome glen,
Soon lost to hound and hunter's ken."
—Sir Walter Scott.

Dear Terrill, — When I arrived in Peterborough after an all-summer and autumn outing at "The Lakes," I found you had gone to the pretty town of Barrie, on Lake Simcoe, where

Little Children

can safely take this famous well-known remedy. Made entirely of herbs, warranted free from mercury, and poisonous substance, that is why everyone likes

Beecham's Pills.

Sold Everywhere. In boxes, 25 cents.

Kidney Pains Relieved.

If anything prevents the urine from being discharged from your kidneys, if germs should attack the urethra and inflame the kidney ducts so that some of the urine is retained in the kidneys, inflammations and congestions set in, and you have a sore back, neuralgic headaches, and you suffer the severe pains usual with kidney trouble.

MRS. BURKE'S HISTORY.

"I would consider myself very ungrateful if I did not give you my testimonial to the wonderful curative powers of Powley's Liquified Ozone. I have been troubled for over four years with severe kidney trouble, and suffered intense pain at times. I could scarcely straighten up after being in a stooping position. I tried every known remedy, but received little or no relief. About the middle of August I was induced to try Ozone. When I had finished one bottle I was much improved, and the pain began to leave me. After taking six bottles I was entirely cured, and to-day I am in better health than I have been for years.

"I can cheerfully recommend Ozone to all women sufferers from kidney trouble or female weakness."

(Signed) MRS. WM. BURKE,
28 Adeline St., Montreal.

THOS. P. ANTLE.

"I have suffered from kidney disease for many years and although I have tried many remedies, and have been treated by several doctors, I have never received any permanent relief. I began taking Ozone, and I am pleased to say that I feel like a new man. You are at liberty to publish this, as it may induce some other sufferer to try it."

(Signed) THOMAS P. ANTLE, 30 Church Ave., St. Verdun, Montreal, P. Q.

Powley's Liquified Ozone destroys the germ life, and by stimulating the kidneys restores their natural action. It is remarkably successful in curing kidney disorders, so successful that it is taking the place of older and less effective treatments. Ask the drug man about it—he'll tell you what it does.

50c. and $1.00 the Bottle, at all Druggists.

THE OZONE CO., of Toronto, Limited, Toronto and Chicago.

I spent part of my boyhood days, after a journey thither from India's coral strand, and wishing to let you know that we were thinking about you, let me give you this short item for your paper, if you think it worth putting in. The last time I saw your kind and genial countenance you were afloat on Stony Lake in a canoe, not far from an island where I remained right through until a few days ago. It is far beyond my power to describe the transcendent glories of dawn and sunset, or the wild billows breaking on the rocky shores, of the grand majesty of furious storms, or the Heaven-born peace and beauty of the deep dark woods with the solemn lessons they teach, but an incident or two might be related to pass a few minutes for your entertainment. After you left us, one day when we were fishing about twenty yards from the shore, white fawn sprang out of the woods swam out, as if chased, upset the canoe, swam back, and swam to the shore, and bounded off into the woods again! Another day we saw a black bear up a tree clawing lumps of honey comb, young bees and all, regardless of the many old bees around him, and stinging him too. He would roar now and again, until one of the H—— boys fired buck shot. The bear fell and lay kicking on its back, then suddenly burst through us all and escaped into the bush.

I counted the people who sailed to see yours truly and his better half, during the past summer at his lodge on Stony Lake, and they totalled 210! We got 11 deer, but although there sailed into the bay close to our island a flock of 182 wild geese, we could not get one, as darkness fell before we could get near enough to get a shot. Fred D. and Mr. Jackson of the Crown, were with me for the latter part of my stay, both good men and true in camp and out of it. The days grew short, the wolves were beginning to cry at night, the lake got rough, and the white horses capped almost every wave, so here I am at home once more, and still your friend.

R. W. GRUBBE.

WHAT FOOTBALL IS.

From Frank Leslie's Popular Monthly for December.

When a human catapult, in leather helmets and dirt-smeared canvas suits, springs suddenly and with terrific momentum at you through a hole in the line, you grit your teeth and dive in to stop it. If you bring down your man you can jump back to your place behind the line, with the bleachers rattling, and feel that you have done what was expected of you. But if you missed your tackle, and merely stopped the avalanche by rolling under it, you limp back to your position with just as many bruises and with the coaches yelling "rotten" at you. After two steaming, aching twenty-five-minute halves of that sort of thing you go back in your "special car" to the gym. and get a call-down from the trainer. That's football. It's pluck mostly. Without that no amount of mere brute muscle is worth anything at all.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

Flour Made of Fish.

Fish flour is the name of a new variety of prepared food that the ingenious Norwegians are making and shipping abroad in large quantities. The centre of the industry is Bergen, the old headquarters of the codfish and cod liver oil trade. A foreign consul at that point in a recent letter says:

A great deal is done in Norway to improve and preserve the provisions produced in that country and to procure a market for them abroad. The fisheries represent one of Norway's chief industries, and quantities of fish are sold at very low rates, particularly during the summer. One way in which these are utilized is by means of an invention which quickly dries and pulverizes the flesh of fresh fish. The resulting product, called fish flour, is easy to transport from one place to another and has great nutritive value. A new and profitable branch of industry may yet be established by utilizing fish in this way.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL—At St. Peter's Cathedral there will be three masses celebrated—at 8 a.m., low mass; children's mass at 9.15 a.m.; high mass at 10.30. Vespers at 7 p.m., with Sermon.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID

As to Cattle Trade.

London, Nov. 22.—When Rt. Hon. W. R. Hanbury, president of the Board of Agriculture, was questioned Thursday as to the rumor that the time limit between the landing and slaughtering of imported cattle was to be extended, he assumed a discreet ignorance of the matter. There is reason to believe, however, that the authorities on the Board of Agriculture have under consideration certain circumstances which may lead to an extension of the time by ten days, making twenty days in all.

In Ottawa Dec. 5.

Ottawa, Nov. 26.—D'Arcy Scott, president of St. Patrick's Society, has been advised that the Hon. Edward Blake, M.P., and John Dillon, M.P., will be here on Dec. 5, and will speak on the Irish cause.

Chamberlain Sees the King.

London, Nov. 22.—Colonial Secretary Chamberlain, accompanied by Mrs. Chamberlain, went to Windsor last night on a farewell visit to King Edward, prior to their departure for South Africa.

The choicest cider made is Allen's of Norwich—On draught at Henry & Co's.

HANGED PROFESSING INNOCENCE.

Henry Rose Dealt With in Nelson, B.C., by Radcliffe.

Nelson, B. C., Nov. 22. — Henry Rose, who murdered John Cole, near Nakusp, B.C., in June, was hanged here yesterday morning at 8 o'clock by Official Executioner Radcliffe. Rose, who was convicted on circumstantial evidence, strongly asserted his innocence of the crime, and his statement to this effect shortly before suffering the death penalty was read to the assembly by Father Alchoff of the Roman Catholic Church, who attended Rose to the scaffold. In it Rose bade good-bye to all his friends, and forgave all who had anything to do with placing him in his present position. The execution went off without a hitch.

PEACE AT PANAMA.

Rear-Admiral Casey Sailed at Once—Treaty Is Signed.

Panama, Nov. 22.—Consul-General Gudger landed from the Wisconsin at 4 o'clock yesterday afternoon, bringing the news that a treaty of peace had been signed the same afternoon by the revolutionary General, Herera, and the Government Commissioners. Rear-Admiral Casey sailed at once.

Got a Partial Defeat.

Paris, Nov. 22.—The Government sustained a partial defeat in the Chamber of Deputies last night on a Socialist proposal to grant amnesty for misdemeanors committed in connection with strikes, for which proposers demanded urgent consideration. M. Truuillot, the Minister of Commerce, in the name of the Government, opposed. The House voted urgency for the measure by 311 to 244, and referred it to a committee.

"SILVER-PLATE THAT WEARS"

THE IMPOSSIBLE.

It is impossible to judge the quality of Silverware by its appearance. The reputation of the maker must be the guide.

THE ACTUAL.

In Plateware, the Meriden Britannia Co., by half a century's honest manufacturing, has made its trade-marks a guarantee the world over

THE CERTAIN.

If your Silverware is stamped with this trade mark you will have the best that is made in plate.

CERTAIN WISE WOMEN

Have been heard to declare that they meant to do their Christmas shopping in November. We very fully endorse this in respect, particularly, to Furs. All through the store we have been making ready. Holiday Furs occupy first place in our attention now. A large staff of experienced Fur workers have been and are now busy beyond all other seasons, making goods goods to order for Christmas.

Orders for Persian Lamb and Seal Jackets, Fur Lined Coats and Fur Lined Capes need to be looked to at once, if desired for Christmas.

Scarfs, Collarettes, Boas, Muffs, Gauntlets and Capes, etc., can be selected more satisfactorily now than during the rush just before Christmas. Select now and we will lay them aside for you until wanted. Customers will get the advice and attention of salesmen, so necessary to a proper selection of Fur Garments better now than during the rushed period.

Our Fur Stock is extra well selected; Our Fur Styles are most up-to-date; Our Fur Qualities are always just as represented; Our Fur Guarantee is invariably carried out; Our Fur Customers all say "Tis a safe place to buy." Call and inspect our Christmas Stock of Furs now.

THOMAS BARRIE

MANUFACTURER OF FINE FURS, PETERBOROUGH

H. LeBrun & Co.

WORKING FOR UNITY.

Miners and Operators Seek to Adjust Their Differences.

OFFICIAL STATEMENT ISSUED.

The Strike Commission, While Insisting on Having the Final Word, Appoints a Committee to Aid the Disputants —A Private Settlement Not Acceptable—Interests of Public Will Secure Award.

Scranton, Nov. 24.—The anthracite coal strike commission adjourned Saturday to meet Dec. 3, and it is the hope and expectation of all parties to the controversy that when the arbitrators again meet an agreement on all the points in dispute will be ready for submission to and to be approved of by the commissioners. The commission was in session only 20 minutes Saturday.

C. S. Darrow, counsel for the miners, suggested that the commission adjourn until either Dec. 1 or 3, because of the inability of the miners to present additional facts at this time. He said if the suggestion was agreed to by counsel for the operators and by the commission he had the greatest confidence it would be productive of much good.

Judge Gray, as chairman of the commission, replied that he heard the suggestion with much satisfaction. He felt the adjournment would be acceptable to his colleagues. In the meantime, he hoped, both sides would confer regarding the submission of facts and they might be able to consider other matters satisfactorily. Both sides had submitted their cases, he said, and the commission could not abrogate its duty to make a final award unless the submissions were withdrawn.

Ira H. Burns of Scranton, counsel for the independent operators, then addressed Judge Gray regarding the position of the independent operators. He said that the independent operators had no objection to adjournment, but felt that they should have been consulted. He said there was a third party, the American public, who were interested in the proceedings, and they would not have any confidence in a private adjustment of the differences arising between the companies and the miners which was not permanent, and he would rather have the whole matter threshed out before the commission.

Chairman Gray in reply said that the commission was not a party to any outside arrangement and that he thought the adjournment would give all sides an opportunity to get together. He repeated that the commission did not propose to abrogate its duty, but would pass upon a tentative agreement or make a final award.

Attorney John F. Lehnan, of Wilkes-Barre, representing the non-union men, said his clients would agree to whatever was done in the way of conciliation, and abide by whatever agreement was made.

Mr. Darrow again addressed the commission, saying that the miners had no desire to take the matter out of the hands of the commission.

Chairman Gray then announced that if both sides were agreeable the commission would adjourn until Dec. 3, but speaking for the commission, he felt that the public would approve what the commission had already done. He announced that between now and Dec. 3 a committee of the commission would remain in Scranton for the purpose of taking up any matters that anyone of the parties before the commission might have to present.

After the adjournment the commission held a conference, and Commissioners Watkins, Parker and Clark were appointed the committee spoken of by Judge Gray.

After the meeting a statement was given out as follows:

"It appears that there is some misunderstanding or some lack of understanding in connection with the steps taken by the commission, and the suggestion in that connection, that possibly the complainants might be able to agree upon some of the important points involved.

"The recess was desired by counsel for both sides, because authoritative statements of hours and wages which are being prepared are not as yet ready.

"The suggestion was made that perhaps some agreement might be reached between the principals which would simplify the problem and assist in reaching proper conclusions. The chairman, speaking for the commission, stated that the commission would gladly co-operate as far as could be consistently done in furthering an effort to reach an understanding through conciliatory means and methods.

"The idea has gone out in some quarters that the matter is to be settled without further effort or responsibility on the part of the commission. This idea is entirely wrong. The commission will, as announced, cheerfully encourage conciliatory spirit, and acting between the parties to the controversy, but the commission has not surrendered, and will not surrender jurisdiction of any of the matters which have been referred to it, nor responsibility for the conclusion reached. No adjustment can be made which does not by its terms, commend itself strongly and secure the approval of the commission and its co-operation in the award.

"With a view and for the purpose of removing any misunderstanding which might exist, the sub-committee of the commission invited such of the counsel representing the several interests involved as could be reached to meet this afternoon."

There were informal conferences among the attorneys during the day but nothing definite was reached. The rough basis on which the parties in interest will work is a 10 per cent. increase, a nine-hour day, and yearly agreements between the men and the company which employs them. The matter of yearly agreements with the men, and not with the United Mine Workers' organization, will possibly be left to the commission to arbitrate.

TO BE BUILT AT ONCE

Grand Trunk Pacific Railway Cross the Continent.

THRO' NEW ONTARIO TO PACIFIC

It Will Start Between Toronto and North Bay and Will Probably Include the MacKenzie & Mann Lines—Official Announcement of the Facts by the G.T.R. Board of Directors.

Montreal, Nov. 24.—Mr. Charles M. Hays, general manager of the Grand Trunk system, made the highly important statement yesterday that Canada's [illegible] transcontinental highway [illegible] built by the Grand Trunk [illegible] Co., the stupendous undertaking involving the construction of from 2,500 to 3,000 miles of lines and an expenditure, including equipment station, bridge, shop and other facilities of from $75,000,000 to $100,000,000.

"Like our Grand Trunk Western Railway extending from Port Huron, Mich., to Chicago," the second vice-president of the Grand Trunk said, "this line will be constructed under a separate corporate name, of the Grand Trunk Pacific Railway Co., and will be of the most modern and up-to-date character, having in view extremely low grades, long tangents, steel bridges and heavy rails, as well as ample station facilities and equipment for the handling of both freight and passenger traffic; in fact, the road will be of the highest standard in every respect."

It is learned that the road will start from a point on the Grand Trunk line between Toronto and North Bay up to and across the French River, making connection with the Clergue railway at Sudbury and westward to Port Arthur.

The official statement reads as follows:

"According to the present arrangements the new system will run through that portion of Northern Ontario, familiarly known as 'New Ontario,' through Manitoba and Saskatchewan, Assiniboia and Alberta, by way of the Peace River or Pine River Pass, and through British Columbia, striking its terminus on the North Pacific coast.

"Work will begin as soon as the necessary legislation can be obtained, and it is expected that five years after the surveys are completed the big system will be in operation."

"No one who has been studying the wonderful developments that have taken place in the Northwest during the last few years," said Mr. Hays, "can fail to be deeply impressed with the growth of that extensive and rich territory, and our directors feel that in view of the apparent need of additional railway facilities and in order to guarantee to the present Grand Trunk system direct connection with that very important and growing section of Canada, the only wise policy is to take active steps toward this extension, which I may add will be commenced as soon as the necessary legislation can be obtained from the Government."

Although Mr. Hays does not mention the fact, there can be no doubt that the above project embraces the absorption of the Mackenzie-Mann interests.

PETER VEREGIN COMING.

After 16 Years' Exile, Doukhober Leader Heads For Canada.

Swan River, Man., Nov. 24.—Cable advices received here Saturday announced that Peter Veregin, the acknowledged leader of the Doukhobors had been released from Siberia after sixteen years' exile. He intends to proceed to Canada as speedily as possible Veregin has great ability and influence and favors a quiet settlement for the Doukhobors.

An Exchange of Colonels.

Vancouver, B.C., Nov. 24.—Lieut.-Col. Warsnop returned yesterday from command of Sixth Duke of Connaught's Own Rifles. He is succeeded by Major Whyte, Warden of New Westminster Penitentiary. Col. Warsnop was a former resident of Winnipeg and served as captain of the 90th in the Northwest rebellion.

Shocked to Death.

Seaforth, Nov. 24.—John Twiss, for some years in the employ of T. P. Coleman, salt manufacturer, was instantly killed Saturday morning in Coleman's stable. When found his hand was holding the electric light wire, to which was attached an incandescent lamp. Deceased leaves a widow and eleven of a family.

Behring Sea Decision Delayed.

The Hague, Nov. 24.—It was expected that Councillor Asser, the arbitrator in the Russo-American Behring Sea fishery dispute, would announce his decision Saturday.

Thoroughness.

Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, states that "Sunlight Soap has "a thorough cleansing power, with-"out danger to the clothing or skin." Women who want washing done thoroughly cannot use better than Sunlight Soap—Octagon Bar. Unlike common soaps, there is no damage to the clothing, and no danger to the skin; hence the saying: Sunlight Soap reduces expense. Try Sunlight Soap—Octagon Bar—next wash day, and you will see that Prof. Ellis is right. He should know. 218

DYNAMITE IN HOTEL.

Proprietor's Sons Were Non-Unionists and Worked During Strike.

Mahoney City, Pa., Nov. 24.— The most destructive dynamiting outrage that has occurred in the coal regions since the strike began was perpetrated here at 5 o'clock yesterday morning. The dynamite, with fuse attached, was placed on the bar of the saloon of Christopher Portland. The front part of the building was blown across the street, and the adjoining buildings on either side were badly wrecked. Windows were broken in every house in the square. Portland and the other members of the family were sleeping in the third floor and escaped without serious injury, although all were thrown from their beds. Portland's two sons are non-union men [illegible]

WHY ?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents 326 George Street.

Everything that is new and fashionable will be found here. We invite you to inspect our stock before purchasing elsewhere.

H. E. BRADLEY & CO.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells of her cure by **Lydia E. Pinkham's Vegetable Compound.**

"DEAR MRS. PINKHAM:—For some years I suffered with backache, severe bearing-down pains, leucorrhœa, and falling of the womb. I tried many remedies, but nothing gave any positive relief.

"I commenced taking **Lydia E. Pinkham's Vegetable Compound** in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman. When I commenced taking the Vegetable Compound I felt all worn out and was fast approaching complete nervous collapse. I weighed only 98 pounds. Now I weigh 109½ pounds and am improving every day. I gladly testify to the benefits received."—MRS. R. C. TUPMAN, 423 West 30th St., Richmond, Va.

When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me"?

Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Mrs. W. H. Pelham, Jr., 108 E. Baker St., Richmond, Va., says:

"DEAR MRS. PINKHAM:—I must say that I do not believe there is any female medicine to compare with Lydia E. Pinkham's Vegetable Compound, and I return to you my heartfelt thanks for what your medicine has done for me. Before taking the Vegetable Compound I was so badly off that I thought I could not live much longer. The little work I had to do was a burden to me. I suffered with irregular menstruation and leucorrhœa, which caused an irritation of the parts. I looked like one who had consumption, but I do not look like that now, and I owe it all to your wonderful medicine.

"I took only six bottles, but it has made me feel like a new person. I thank God that there is such a female helper as you."

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take. It has stood the test of time, and it has hundreds of thousands of cures to its credit. Women should consider it unwise to use any other medicine.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case—try her to-day—it costs nothing.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
Lydia E. Pinkham Medicine Co., Lynn, Mass.

Invest $300 Cash

and we will give you a good 7-roomed Brick House, within five minutes' walk of the principal workshops. Total cost only $1,100. Also a good Frame House in same vicinity for $900, and we will make any reasonable terms for balance. We are offering good value in Building Lots; also in Garden Lots and farms. Apply quickly.

MONDAY, NOVEMBER 24, 1902.

THE RETORT COURTEOUS.

The journals supporting Mr. Ross are endeavouring to break the force of the evidence of bad Provincial book-keeping by pleading the approbation expressed by the Royal Commission on the finances. The Government hoodwinked these experts by laying before them only such portions of the accounts as it deemed expedient, in spite of which the Commission reported that the surpluses, of which the Provincial Treasurer had bragged were myths. —Peterborough Review.

Has the Peterborough Review lost its table of the Ten Commandments, or has it never seen the report of the Commissioners that it should so misrepresent it? And to talk about "hoodwinking" the financial experts engaged is to show that the Review is not very particular what sort of an opinion its readers form of its common sense.—Hamilton Times.

Hall's Family Pills are the best.

VICTORIA COUNTY HOSPITAL BUILDING

Description of the Fine new Structure Opened on Nov. 20th.

A MODEL MODERN HOSPITAL.

What Mr. James Ross' Munificent Gift Represents—Minute Description of the Building and its Equipment.

The following description of the buildings of the Ross Memorial Hospital formally opened on Thursday last is taken from the special illustrated edition of the Lindsay Post:

In its general design the Ross Memorial Hospital does not copy after any other hospital in Canada, but combines several of the best features observed byy Mr. Ross during a visit to the leading institutions of the kind in England. The combination has been cleverly worked out by the competent architect who was engaged, and a handsome and well proportioned building is the pleasing result. A really lavish use of the best materials, the closest attention to even the most trivial details, and a generous disregard of the cost of furnishings and appliances, have marked the construction and completion of Victoria County's magnificent gift. The hospital is as nearly fireproof as science has yet made it possible for a building to be. The frame is of steel girders from Pittsburg, Pa., the under floors of cement laid on expanded metal, and the partitions of steel lath attached to iron studding. Where wood is used for flooring, the sleepers are of 2x4 cedars embedded in the cement covering the expanded metal, and the floors are double, the first course being matched pine and the second matched maple, oiled, shellacked and waxed.

The building stands on a little knoll about 200 feet back from Kent street and 100 from Angeline street. The gentle slope towards both roadways required comparatively little improvement at the hands of the landscape gardener, and already the lawn presents a finished and attractive appearance. A broad gravel walk, with paved gutters, curves gracefully in a half circle from the Kent street corners of the property, the deepest portion of the curve passing the hospital steps. The walls, of red brick, are secured on a massive, and deep foundation, on top of which is a five foot course of rough dressed stone from Longford quarries. The window sills, keystones and a belting course outlining the second storey, are of the same material and finish. The building has a front measurement of 142 feet, the main part being 86 x 60 feet, two storeys, with a wing or annex at the east and west ends 1 1-2 storeys high, and 28 x 32 feet in size, the connecting passages between the wings and main structure, being one storey.

Both the main building and the wings have hipshaped roofs covered with slate. The wings are octagon in shape at the back or north end, and in front of each a verandah or sun parlour of wood, octagon in design and supported on piers of Longford stone. Twelve large windows pierce the front of the main structure, the lower half being one sheet, and the upper being divided into five small panes, elliptical in form. The other windows in the building are many in number and similar in design.

The main entrance is imposing, and is covered by a wide porte cochere extending to the outside edge of the walk; it is supported on large wooden columns with Ionic capitals, resting up Longford stone pillars capped with Ohio freestone. Sidewalks of Longford stone enclose the ten steps, 12 feet in width, which lead to the wide platform, giving access to the handsome double doorway of oak, 2 1-2 inches thick, with deep panels, filled with English bevelled plate glass. The casing is of Ohio freestone, the top showing a large elliptic, the spaces above and on either side of the doors being filled in with glass cut in unique but orderly designs.

THE INTERIOR.

The entrance hall is a lofty apartment, 12 x 15 feet in size. The walls and ceilings are of white hard finish, in keeping with the rest of the building; the floor is tiled in a handsome pattern, and the wainscotting is light coloured Pasinear marble, the freize and base being of Alps green marble. Immediately inside the entrance is an electric light enclosed in a handsome cut glass globe, and in the middle of the hall is a cluster of three lights with globes of opal tint. The hall opens on the main corridor which is also tiled, and gives a clear view of the stairway leading to the second storey, alongside which provision has been made for an elevator in case one is required at a date in the future. The stairway is of Tennessee marble, and has 27 steps and risers, laid on metal strings. A white enamelled metal grill work, carrying a cherry rail, protects the face of the stairway.

To describe each room in this magnificent building would take many columns of the Evening Post, and would exhaust the descriptive powers of an artistic decorator. We must confine our efforts mainly to an enumeration of the various rooms, and a reference to the wards, operating rooms, and a few others. The ground floor corridor, 8 feet wide, extends from the men's medical ward in the west annex to the women's ward in the east annex. Each ward contains six white enamelled iron beds, six bedside tables, white enamelled frames and plate glass tops, a large double radiator with marble top, eight heavy oak chairs, oak writing desk, with student's lamp, and white folding screen to surround each bed. French windows give access to the sun parlour, where patients will find it a delight to rest in summer. Adjoining each of these ground floor wards is a convalescent's day room, furnished with comfortable lounges, invalids' chairs, etc.

To the west of the entrance hall on the front, is the Board Room for meetings of the Governors or consultations of medical men. The apartment is beautifully furnished, and is one of the most inviting rooms in the building. The room next beyond is the surgical ward for men, containing two beds and suitable equipment and furniture. The surgical ward for women adjoins their convalescent room, and the equipment is similar. Next to it is the office of the lady superintendent, Miss Scott, from whic a door gives access to the entrance hall.

On the opposite or north side of the corridor, on the east and west ends are commodious bath rooms, etc., with tiled floors, cathedral glass windows, marble wainscoting, and partitions, nickel-plated exposed plumbing, British plate glass mirrors and other conveniences in keeping. Adjoining the east bath room is a store room for ward supplies, etc., and next to it, and opposite her office, is the lady superintendent's bedroom. West of the stairway is the ward kitchen, the food being sent up by dumb waiter from the main kitchen in the basement. West of this is the dispensary room, where a large supply of drugs and medicines is stored in large cabinets with glass doors.

North of the entrance hall, and reached by a short cross corridor, skirting the elevator shaft and marble stairway leading to the basement, is situated the nurses' dining room, in an extension measuring 18x22 ft., which is carried up in octagon form from the basement to the top storey. The room is a most inviting one with its three large plate glass windows set in the octagon faces, rich serge and lace curtains, Flemish oak tables, chairs, and bookcase and rich square of carpet. Adjoining is a serving pantry, connected with the kitchen dumb waiter. The pantry contains a china cupboard and other necessary furnishings, and is lighted from the nurses' room by means of a large window of fancy glass.

ON THE SECOND FLAT.

Ascending the stairway the visitor finds a tiled corridor of the same width as below, but considerably shorter, and lighted by a large overhead skylight in the centre. At the east and west ends, overlooking the front, are private wards fitted to accommodate two patients, and immediately adjoining are two smaller wards for one patient each. They are fitted up in the best manner, and are enticing in their quiet elegance. Between these four wards, and overlooking the porte cochere over the entrance, is a large square apartment set apart as a day room for convalescing private patients; it is furnished in a most attractive style, and vies with the nurses' dining room in its bright cheerfulness. A large French window and smaller ones on either side opens upon the porte cochere, which is railed for use as a sun parlour and will be covered with an awning in summer.

On the north side of the corridor, at the east end, is a bathroom similar to those on the lower flat. Next to it is the linen room, containing stores of lovely linens, blankets, counterpanes, Huckaback and other towels, wrappers, nightshirts, bath robes, material for bandages, etc. At the west and are the nurses' bedrooms, with the ward kitchen adjoining.

HEART OF THE INSTITUTION.

In the estimation of the medical men and the staff, at any rate, the operating room is the heart of the hospital, and those qualified to judge, including the visiting physicians connected with similar institutions, unite in declaring that no hospital in Canada can boast of an operating room so well eqdipped with the best appliances for aseptic surgery. The room is situated in the octagon extension, is 18x22 ft. in size, with tiled floor, and the ceiling if 16 feet high. Light is the great desideratum in an operating room, and ample provision has been made for it by the architect of the Ross Hospital. There is a large window in each of the side squares of the octagon, and a huge sheet of best British plate glass fills the north space. The sheet is arranged to swing into a horisontal position by touching a spring, in order that it may be polished and also to afford ventilation when desired. Provision is also made for brilliant lighting by electricity.

The operating table is of heavy plate glass, with bicycle tube frame, white enamelled; it is mounted on rubber tired wheels, and surrounding it are half a dozen tube frame tables, topped with plate glass, white plate glass movable shelves are arranged on brackets about the room to hold instruments, etc. In one corner of the room is a large instrument case with glass shelves, in another a large marble washstand with various fittings, in another a large high pressure sterilizer for the operators' and assistants' white uniforms, and a smaller hot water sterilizer for the instruments. It is impossible to describe more fully this grand room, which is destined to reflect much honour on Victoria County's hospital. The room is entered through the preparation room, where anaesthetics and other acids are made ready for the operating surgeon by his assistants.

THE BASEMENT PLAN.

The basement, reached by a marble stairway, has a wide corridor similar to those above, but with a cement floor, and runs the full length of the building. In the basement are situated the commodious and perfectly equipped kitchen, servants' dining and sleeping rooms, furnace and coal rooms, trunk room, storerooms, scullery, refrigerator room, soiled linen room, (opposite a chute leading from the top storey,) large laundry, fitted with steam mangle, drying cabinet, stationary bath tubs, steam washer, rotary extractor, etc. In this room is located a 5 h.p. electric motor which supplies power for operating the laundry machinery, dumb waiter, etc.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo-Quinine Tablets. This signature on every box. 25 cents.

"1847" Rogers Bros. "Silver Plate that Wears"

The identifying stamp of the genuine "Rogers" Spoons, etc., is "1847"—the year it was first made. Full trade-mark—"1847 Rogers Bros." Others are imitations. This mark insures artistic designs and durability—the original "Rogers" quality.

The King of Ranges—"Buck's Happy Thought"

Buying a Range

There are three essential things to consider when buying a Range,—Quality, Consumption of Fuel, and the Price. The price is the least important. A good Range will last many years, and when it saves in fuel it pays for its self, while a cheap Range is constantly adding to its price in extra consumption of fuel. The

"Happy Thought" Range

is the lightest fuel consumer in the world, and the most perfect Range constructed. It is a perfect cooking apparatus.

GOOD BOARD

THE SIGN OF THE PERFECT FOOD

TASTES GOOD BECAUSE IT IS GOOD

Malta-Vita

"THE PERFECT FOOD"

FOR

BRAIN and MUSCLE

Made from Canadian grown wheat, by Canadian workmen, in the city of Toronto, Canada.

MALTA-VITA is good board for all mankind. Relished by old and young, sick or well.

MALTA-VITA is the original and only perfectly cooked, thoroughly malted, flaked, and toasted whole wheat food.

MALTA-VITA is the perfect food: perfect in taste, perfectly cooked and malted; perfect because MALTA-VITA contains all of the elements necessary to sustain life and invigorate mind and body. Perfect health, sound, restful sleep, clear complexion, bright eyes, clean, white teeth, sweet breath are the blessings that follow a regular diet of MALTA-VITA.

A week's trial of MALTA-VITA as a diet for breakfast and supper will convince the most skeptical of the superior merits of MALTA-VITA.

Beware of imitations. Insist on getting MALTA-VITA, "The Perfect Food." Requires no cooking, always ready to eat.

For sale by grocers.

MALTA-VITA PURE FOOD CO.
Toronto, Canada

DEATH OF HERR KRUPP.

Famous German Inventor of Weapons of Destruction Passes Away Very Suddenly—Employed 25,000 Men.

Berlin, Nov. 24.—Herr Krupp, the great gun maker and wealthiest man in Germany, died suddenly from apoplexy Saturday afternoon at his villa at Hugel. Herr Krupp had been ill for several days. Early in the morning he suffered the first stroke of apoplexy. According to the medical reports, his physicians succeeded in restoring him to consciousness, but he soon relapsed into insensibility. Another stroke followed at noon, and the gunmaker died at 8 o'clock.

The first question the public asked on learning the news was: "Did Herr Krupp commit suicide?" There seems to be no testimony to support this suggestion, the physicians in attendance resolutely asserting that the case was simply one of apoplexy. His friends think that an uncomplimentary article recently published in a German newspaper, which caused the gunmaker great mental distress, was primarily the cause of his death.

Baron Krupp was 46 years old. His annual income, it is said, was over $5,000,000.

Frederick Alfred Krupp succeeded his father, Alfred Krupp, as head of the family and the great industry at Essen, Germany. While engaged in making cannon and other munitions of war in one of the most warlike nations of the earth, Alfred Krupp, and, like him, his sons were lovers of peace.

In beginning the manufacture of implements of war, the elder Krupp said the underlying idea was to bring peace by creating guns so destructive to human life that war would become too horrible even to contemplate. This idea lived in Frederick Alfred, his son.

Herr Krupp was the largest employer of labor in the world. Twenty-five thousand men worked for him.

Thirty-four Governments have purchased guns from the Krupp factory. Twenty-five thousand pieces of artillery made in the plant now frown from ramparts in every port of war, contributing more to peace than to war.

The plant as it exists to-day represents the labor of three generations of Krupps. Frederick Krupp, the first, was born in 1787. To his son Alfred, born in 1812, he left the secrets he had discovered of smelting. The fortune was increased by Alfred, and when he died July 14, 1887, he left the greatest factory of its kind to his son Frederick Alfred.

Among radicals and democrats Herr Krupp was known as the man who would not accept a title. Among philanthropists he was known as the friend of wholesome conditions of life for the masses and as the friend of co-operation. In commercial circles he was known as the greatest employer of labor in the world.

The town of Essen, in which the Krupp employes live, is one of the model towns of the world, and it was planned and built under the direct supervision of Herr Krupp and his father.

Krupp was repeatedly the object of attack on the part of the socialists. Only last Monday the Vorwaerts, the socialist organ in Berlin, was seized by Krupp, and the gunmaker began criminal prosecution for alleged libelous statements appearing in the paper. Members of the Reichstag, including Herr Bebel, who were suspected of having written the offending article, had their desks forced and searched by the police.

CANADIAN CANALS.

Hon. A. G. Blair and Mr. Collingwood Schreiber Return to Ottawa After Inspecting Tour—Freight Rates.

Ottawa, Nov. 24.—Hon. A. G. Blair and Mr. Collingwood Schreiber returned Saturday morning from a visit of inspection to the works on the Trent, Welland and Galops Canals. The Minister of Railways said that at two points on the long level on the Port Colborne end of the Welland Canal the existing bridges with piers are being replaced by bridges that will swing across the channel from one bank to the other, thus giving a clear width of 100 feet. The old bridges only gave a channel of 45 feet on each side of the pier at the points referred to. Further improvements of this kind will be inaugurated as soon as the bridges now in hand are completed.

Trent Valley Canal.

"As to the Trent Canal," observed the Minister, "the season has been a very unfavorable one, and the contractors have been laboring under difficulties, so that the work in some cases has been delayed. I must say, however, that the work on the hydraulic lift locks at Lakefield and Kirkfield is particularly fine. The Galops Canal is practically completed, and has been splendidly carried out. The north channel has been strengthened, and is a marvellous improvement."

Raise in Freight Rates.

Mr. Blair's attention was drawn to the contemplated increase of freight rates by the railway companies, and he was asked what he thought of the proposal. "I am not in a position to say anything at present," was Mr. Blair's reply. "If the railways raise their rates above the maximum the matter will come before the Railway Committee of the Privy Council, and I shall then have to deal with it judicially."

Corfu to Be a Monte Carlo.

London, Nov. 24.—Despite opposition at Athens, where the press was strongly opposed to the scheme, the Municipal Council of Corfu has ratified the contract which the Mayor of Corfu made with a syndicate of European capitalists to allow the establishment at Corfu of a gambling casino on an elaborate scale.

Lost Hands and One Leg.

Nelson, B. C., Nov. 24.—At Michel Saturday a negro miner was engaged in thawing out some dynamite in a double fram? house, when an explosion took place that blew out the wall of one side and drove the partition clear across the other part of the building. The miner, who had been handling the dynamite, was badly maimed. Both of his hands and his right leg were blown off. He also received a number of body wounds.

To Get Nobel Prize.

London, Nov. 24.—It is stated that Major Ross, the principal of the Liverpool School of Tropical Medicine, will be awarded the Nobel Malaria Research Prize of $15,000. Major Ross conducted several expeditions into the mosquito-breeding districts of West Africa.

VENEZUELA'S CONDUCT

Reprisals Now in Contemplation by Great Britain.

IN CONJUNCTION WITH GERMANY

An Assurance Said to Have Been Given and an Understanding Arranged by Which the United States Will Not Intervene—Unwarranted Treatment of British Subjects and Their Property.

London, Nov. 24.—Great Britain is contemplating serious reprisals against Venezuela. The Associated Press is also officially informed that Great Britain is acting with Germany, in all matters relating to the present state of affairs in Venezuela. Whether the contemplated action will take the form of a joint naval demonstration, accompanied by or following the severance of diplomatic relations, is a matter now being discussed in Berlin and London. There is reason to believe that the British Government has been either officially or otherwise informed that the United States will not intervene in any demonstration having the object of protecting the property rights of British citizens or their interests in Venezuela. The reports that Germany and Great Britain have been urging Minister Bowen, at Caracas, to join in the combination are discredited here. It is pointed out that both Berlin and London have a thorough understanding with Washington regarding the main features of the policy involved, which, it is maintained, in no way encroaches on the Monroe doctrine.

The Venezuelan protest against the action of the British sloop of war Fantome in entering the Orinoco River in spite of the blockade has now been received by the British Foreign Office.

A Foreign Office official said to a representative of the Associated Press:

"We regard this latest publication as merely an endeavor to cover up real issues and blind the eyes of other nations to our frequent demands for an explanation of and reparation for the treatment of British subjects or their property. We have received absolutely no satisfaction. The Venezuelans appear absolutely hopeless. We see nothing for it but the most serious measures."

BODY SHIPPED HOME.

George A. Darlington's Parents at Strathcona, Ont., Claim It.

Ann Arbor, Mich., Nov. 24.—The inquest over the body of George A. Darlington, the young music teacher who attempted to murder Miss Bertha Sheldon, Friday, and afterwards took his own life, was waived. Rev. E. S. Ninde of the Methodist Church conducted the funeral at Martin's undertaking establishment Saturday morning. There was a number of floral offerings from the church and Y.M.C.A. The body was shipped to the home of the young man's parents in Strathcona, Ont., they having wired directions to that effect. In the note left by the suicide he made the request that his body be given to the doctors of the Medical Department of the university. Miss Sheldon is getting along very nicely, but the doctors will not allow any one to talk with her about the affair.

CANADIANS SEE THE POPE.

He Promises to Wait Bruchesi's Return Three Years Hence.

Rome, Nov. 24.—The Pope yesterday, gave a farewell audience to Archbishop Bruchesi of Montreal in the Pontiff's private apartments. He afterwards went to the throne room, where Mgr. Bruchesi presented to him all the Canadians now in Rome, numbering 60, including several Protestants from the provinces of Ontario and Quebec. The Pope said he was delighted to see the Canadians, and gave his benediction to all.

On leaving, Archbishop Bruchesi said: "I hope to see Your Holiness on my next visit to Rome, three years hence." The Pope replied: "I will wait for you."

THE STORY OF A PIONEER.

H. S. Barnes, of Rat Portage, Tells of the Trials of the Early Settlers.

Suffered Terribly From Kidney Complaint but was Speedily Relieved and Cured by Dodd's Kidney Pills.

Rat Portage, Ont., Nov. 23.—(Special.)—Everybody in Rat Portage knows H. S. Barnes, father of a former mayor and one of the oldest inhabitants of the metropolis of New Ontario. Though seventy-nine years of age, Mr. Barnes looks younger than many men of many fewer years, and is possessed of wonderful vitality and activity.

A pioneer of this district, Mr. Barnes tells many tales of early life in the wilds of New Ontario, but none more interesting than the following:

"I was terribly troubled with Kidney Complaint. I suffered severely with pains across my back, and with a scalding, burning sensation when urinating that was very painful.

"Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house that I had procured for my wife, and commenced taking them with good effect.

"It was not long till my acquaintances started to greet me on the street with 'Hello, Mr. Barnes, how young you are looking.' They were not astray. I felt smart too, and feel younger and in better health than I have been for years. My Kidney Complaint was completely cured by Dodd's Kidney Pills."

The Blues Win out.

There was great excitement at the Y.M.C.A. on Saturday evening at 10 o'clock, at the close of the membership contest, which has been running for the past sixty days between the Reds and Blues. As was anticipated, both sides had held back a large number of points, the total score being Blues, 257; Reds, 246 1-2. The result is very satisfactory, as it means an addition of over one hundred new members. While many men on the sides deserve special mention, yet Pearson for the Reds, put up a splendid fight for first place, and it is admitted on all sides that the Blues owe their success to Chas. Whiten, who broke all records in the matter of getting new members.

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

THE LATE MR. HARPER.

Death of a Peterborough Citizen Yesterday Morning.

The death of Mr. Thomas G. Harper, which occurred at his residence, Charlotte street, at 9.30 o'clock, on Sunday morning, came as a great shock to his many friends, as scarcely anyone outside of the family circle was aware of the fact that Mr. Harper was at all ill. The deceased was down town on Saturday evening and made no complaint of not feeling well, until about 9.30 o'clock on the same evening. Death was due to apoplexy.

The late Mr. Harper was fifty-one years of age, and was a native of Peterborough, he being a son of the late Robert Harper, an old and very highly esteemed settler of Peterborough. He married a Miss Elizabeth Fox, of town, who together with one daughter, Mrs. Clarke Earls, is left to mourn his demise. The deceased was a member of the Church of England, and was well known throughout the town and county. He was a blacksmith by trade and conducted a business on Charlotte street.

The funeral took place on Tuesday, at 2.30 p.m., to the Little Lake cemetery.

NEWS NUGGETS.

—Invitations are out for the Rugby Dance.

—The town council meets in special session this evening.

—The brick work on the new rink is now about completed.

—The Chief has a pocketbook for which he would like an owner.

—The Central Charity Board will meet at 7.30 o'clock this evening.

—The roof of the Children's Shelter on Charlotte street, has been newly shingled.

—Messrs. Henry and Gibson have made wonderful progress with the Dalhousie street sewer.

—Public spirited citizens are invited to peruse Manager H. R. H. Kenner's letter in to-day's sporting columns, especially the concluding half-dozen paragraphs.

—All interested in Missions are invited to attend the annual Thankoffering Service of the Women's Mission Circle of the Murray street Baptist church, on Tuesday evening at 8 o'clock. Miss McClanin, a missionary home on furlough from India, will address the meeting.

TO-MORROW NIGHT'S CONCERT.

The admission at the door for the Maclachlan-Ladell concert to-morrow night will be 35c. The doors will open at 7.15, and tickets holders are urged to be early.

SOCIAL AND PERSONAL.

Hon. Senator Cox was in town yesterday.

Mrs. A. H. Stratton is in Toronto spending a few days.

Mr. F. Stanley, of Toronto, was in town on Saturday.

Mr. Harold Reynolds, of Montreal, was in town over Sunday.

Miss Lottie O'Keefe, of Norwood, is visiting friends in Peterborough.

Mrs. Morrow has resumed her classes at her studio, No. 368 Brock street.

Mrs. A. L. Davis and Miss Stephens returned from Toronto on Saturday morning.

Mr. Will O'Brian, of Millbrook, has accepted a position with the Canadian Cordage Co.

Miss Mamie Roberts and Miss Violet Donaldson, of Toronto, are visiting at Mrs. M. Succee's, town.

Mr. R. N. Bell, of the Ontario Bank, Ottawa, who was in town over Saturday and Sunday, returned home last night.

Mr. Ross Cameron, of the Union Bank, Montreal, who is on a visit to his old home in Norwood, on sick leave, was in town on Saturday.

A personal paragraph received through the mail this morning cannot be used as the name of the writer is not attached. The Examiner will take no notice of personals sent in in such a manner. The name is required merely as a matter of good faith.

AT THE POLICE COURT.

A Large Attendance at the Hall of Justice.

Complainant Stewart Gives Evidence Against Fellow Employees—All day Session.

An ordinary visitor at the Police Court this morning might have supposed that every manufacturing establishment in town was closed down, judging from the number of spectators that were in attendance. The Court room was packed with men of all ages and in fact with a fair proportion of women. The number of prisoners was unusually large and any attempt to have them occupy the box would have resulted in a stampede. It was the hearing of the charge against twelve employees of the B. F. Ackerman, Son & Co., who were charged with assaulting a fellow-workman named Joseph Stewart. The charge read as follows:—"At the Town of Peterborough, in the County of Peterborough on Thursday, 20th day of November, 1902, in pursuance of an unlawful combination or conspiracy respecting the complainant then employed by one B. F. Ackerman, Son & Co., in his business of manufacturer of harness, did assault the said complainant, in pursuance of such conspiracy with a view to hinder him from working at the said business of manufacture of harness by said B. F. Ackerman, Son & Co., contrary to the criminal code."

Mr. F. D. Kerr represented the greater majority of the accused, whilst Mr. R. M. Dennistoun, appeared on behalf of at least one of the lads. The accused were for the most part boys. Complainant Stewart intimated to the court that he was mistaken in the identify of one of the prisoners, viz., Cecil Succee; young Succee was not with the other boys and his name should not have been sent in.

The boys through their counsel pleaded not guilty, and elected to be tried summarily. This was after a consultation between County Crown Attorney Wood, and counsel for the accused, in which it is understood an effort was made to expediate matters by having the boys plead guilty to common assault, pay a nominal fine, and give their undertaking for their future good conduct. However this proposition did not materialize, some of the boys claiming that they were not in the little affair at all, and would not therefore plead guilty to a charge of common assault, of which they claimed they were not guilty. The taking of the evidence was then proceeded with, the first witness being Policeman Jos. Stewart, and the second witness being his namesake, complainant Joseph Stewart. His evidence was in effect that he had been the victim of much abuse on the part of some of his fellow-employees, which terminated in an open rupture on Thursday night when he was, so he alleges, struck with mud, and accused of carrying tales between his fellow employees and their employer. He was asked by the court as to whether he was a union man, and he replied that he was not, although he had been asked on different occasions to join, but he positively refused to do so.

The evidence for the complainant occupied the time of the court all morning, and at two o'clock this afternoon the hearing of the defence was proceeded with. There is reason to believe that the trial will last all day.

The prisoners state that the fact of the complainant not being a member of the union had nothing whatever to do with the unpleasant relations that appear to have existed for some time between Stewart and the young men who are charged with abusing him.

Stewart has been in the employ of Mr. Ackerman for about five years and his employer gives him the name of being a faithful workman. His duties are those of an operator at a machine which requires him coming in contact with a number of the other employees, who appear to be for the most part boys. In some manner friction has arisen, and this, apparently, unknown to Mr. Ackerman. As a matter of fact the incident does not in any way reflect upon the organization of the shop, as it is only an occurrence that might arise at any time in any establishment—amount to nothing, and soon be forgotten.

DISTINGUISHED VISITOR.

Russian Engineer Views the Lift Lock This Morning.

S. Maximoff, Engineer to the Imperial Russian Government, was in town this morning. Mr. Maximoff was sent from St. Petersburg, on a tour of inspection of all the greatest engineering works of the world. He is now touring America, and applied at Ottawa to be allowed the privilege of inspecting the lift lock at Peterborough. This was gladly given, and this morning he was shown the principal features of the works by Mr. Francis, assistant engineer of the Trent Canal at this place. The visitor was highly interested in the works and loud in his praises of the courtesy extended him.

HON. MR. BLAIR'S TRIP.

He Returned to Ottawa After Inspecting the Canals.

An Ottawa despatch says:

"Hon. A. G. Blair, and Mr. Collingwood Schreiber, returned yesterday morning from a visit of inspection to the works on the Trent, Welland, and Galops Canal. To the Globe correspondent the Minister of Railways said that at two places on the long level on the Port Colborne end of the Welland canal, the existing bridges with piers are being replaced by bridges that will swing across the channel from one bank to the other, thus giving a clear width of one hundred feet. The old bridges only gave a channel of 45 feet on each side of the pier at the points referred to. Further improvements of this kind will be inaugurated as soon as the bridges now in hand are completed. "As to the Trent Canal," observed the Minister, "the season has been a very unfavourable one, and the contractors have been labouring under difficulties, so that the work, in some cases has been delayed. I must say, however, that the work on the hydraulic lift locks at Peterborough and Kirkfield, is particularly fine."

WHAT THE PEOPLE ARE SAYING

Peterborough Rugby team, Champions of Ontario.

That Aldermen who propose running in the coming municipal elections should announce themselves early.

That those who are dropping out of the council should let it be known so that good men could be chosen to succeed them.

That the citizens should select progressive, broad-minded men for 1903.

A good, capable business man should be elected Water Commissioner to succeed Mayor Denne, who will not be a candidate as Water Commissioner.

That Peterborough will have a better class of theatrical companies when Mr. Bradburn's new Opera House is completed.

That the slump in stocks has been causing a good many anxious hours to some people.

That Peterborough wants a first-class company to erect a large flour mill with good elevator capacity, and a large cold storage warehouse to market farmers' perishable meats and poultry.

That the business men should not allow the Agricultural Society to die out.

That the streets should be permanently settled for the winter as quickly as possible.

ANOTHER CAR COMING.

We expect another car of those fine potatoes which have been giving such general satisfaction, on Monday or Tuesday.

W. H. HAMILTON, Metropolitan Grocery.

CEMENT COMPANY.

A New Concern With Bright Prospects.

Work on the building site at the Raven Lake Portland Cement Co., is progressing steadily. The grading for the main siding is done, and the ties are being laid. It is expected that the rails will arrive this month. With this siding completed, all necessary building material can be brought in through the winter months. The line of poles to be run from the lake to Elliott's Falls will be used as a telephone line as well as for conveying the electric power.

It is said there is no cement company on the continent that has such excellent natural advantgaes as Raven Lake, and reports on the water power and marl lake, made by experts, are exceptionally good. — Lindsay Post.

CARD OF THANKS.

Ashburnham, Nov. 18, 1902.

I hereby desire to express my gratitude to the members of I.O.F. for their extreme kindness to me in my recent bereavement. The amount of my late husband's policy was promptly paid, and I cannot speak too highly of the liberality of Court Harwood, of which my deceased husband was a member, or the brotherly kindness of the members of Court Chemung, Peterborough.

MARGARET COURRIER.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc. SAILSBURY & CO.

MR. AND MRS. DAVID LEMAY

Celebrate Their Golden Wedding at Watertown, N.Y.

Guests Present From Peterborough and Toronto.

A very unusual and happy event took place at Watertown, N .Y., last Tuesday, Nov. 18. Mr. and Mrs. David Lemay, former residents of Peterborough, where Mr. Lemay conducted a confectionery business in the premises at present occupied by Mr. Harry Long, celebrated the 50th anniversary of their marriage by a re-union surrounded by their children and grand children, sons and daughters-in-law, at their residence, No. 22 Academy street. Montreal was the native place of Mr. and Mrs. Lemay, and after nineteen years residence at Watertown, they took back to Canada with loving hearts to the land of their birth. The crowning feature of the celebration was a reception from 3 till 5 p.m., after which a beautiful illuminated address was presented. The decorations were of an unique nature, the maple leaf predominating, while the Union Jack and Stars and Stripes lent enchantment to the surroundings. Among those present were Mr. and Mrs. H. LeBrun and Miss Hackett, of Peterborough; Mr. and Mrs. R. J. Gough and their children, Toronto; Mr. and Mrs. T. N. Lemay and children, Willard. N. Y.; David Lemay jr., broker Toronto; Alphonse Lemay, merchant, Syracuse, N. Y.; Sella and Albert Lemay Telegrams of congratulation were received from the two absent daughters, Rev. Sister Ste. Liliose, of the Congregation de Notre Dame, Brockville and Miss Heloise Lemay, of Montreal. Nine children of a family of twelve are living and eight grand-children were present.

Mr. and Mrs. Lemay were for several years residents of Peterborough and the many friends they formed while they lived in town, join in hearty congratulations upon living in good health to see the happy and unusual circumstance of a golden wedding.

TO-MORROW NIGHT'S CONCERT.

Owing to the extensive reserved seat plan for the Maclachlan-Ladell concert to-morrow night, the committee in charge would like ticket-holders to come as early as possible, as it will greatly facilitate the proper seating of the audience. The doors are open at 7.15, and programme commences at 8.15 sharp.

OFFICERS INSTALLED.

C. M. B. A. Standard Planted in Ennismore.

Some time ago it was decided to locate a branch of the C.M.B.A. in Ennismore, and on Saturday evening last Mr. George Ball, district deputy, assisted by Messrs. J. J. Lynch, Dr. McGrath and W. J. Devlin, installed the following officers:

President... ... ...P. Flood
1st Vice-President... ... ...J. Mahoney
2nd Vice-President... ... ...Ed. Sullivan
Recording Secretary... ... ...D. Crough
Financial Secretary ... ... M. F .Crough
Treasurer... ... ...Ed. Sullivan
Marshall... ... ...Thos. Perdue
Guard..... ....Wm. Bell
Board of trustees — D. Hickson, Jas Carroll, Jos. Quinlan, D. Crough, Thos. Perdue.

PETERBOROUGHS ARE CHAMPIONS ONCE AGAIN.

London Defeated on Nicholls Oval on Saturday.

THE SCORE WAS 12 TO 0.

A Hotly Contested Game Witnessed by a Fair Sized Crowd—Peterborough Will Likely go Down to Montreal on Saturday Next.

For many days the people of Peterborough had been looking forward to the coming of London, in order that there might be an opportunity to see a battle royal between London, champion of the west, and Peterborough, champions of the east.

After some uncertainty it became known that London was coming — London, the town which we had visited three times; London, the city that had never as yet given us a return game; yes, London was to be here on November the twenty-second.

During the dark and rainy days of the past week the phrase most often heard on the streets was one in which contained a wish for fair weather on Saturday. On Friday it seemed as though all would be well but Saturday dawned, dull and forbidding, but towards noon cleared up considerably, and although not what might be called an ideal day for foot ball, was, considering the lateness of the season, a good day. In the early morning prospects of a good day, and with it a paying gate, looked very dark indeed.

The teams lined up as follows:

Backs.
Sterling ... .Lee

Halves.
Farneri ....Burnham
McNee ....McPherson
Little ... .Armstrong

Quarter.
Sippi ... .Bell

Scrimmage.
Bice ....Deannard
S. Taylor ... .Hurtubise
Lucas ... .Thornton

Wings.
Fields ....Dillon
A. Taylor ....Asselstine
Keene ... .Meagher
Black ....Noble
Meredith ....Crowley
McKay ... .Rickey
Stephen ... .Craig

Spares
Puddicombe ... .Cameron

Referee—Mitchell.
Umpire—Ballard.

Peterborough won the toss shortly after three o'clock and took advantage of a strong wind blowing from the north-west. From the face-off it was seen that London was depending on their weight to keep possession of the ball and by so doing keep the home team from running up a score. All credit should be given them for the way they kept possession and prevented a score.

London's kick was blocked, as most kicks-off are, by Hurtubise, who punted for about 25 yards. A number of scrimmages ensued, after one of which Peterborough was awarded a free kick. The leather was secured by Rickey, who ran and passed to Crowley, who was downed close to London's line. Bell passed from the ensuing scrimmage to Hal, who kicked over the dead line. Score, 1—0, in favour of Peterborough.

Almost immediately after the resumption Bell secured the ball, and by a splendid kick put the ball over the London line and Sterling rouged. Burnham received the ball on the kick, and his return was blocked. Shortly after Lee received the ball, and kicked into touch about forty yards from the London line. A long series of scrimmages now took place, during which Peterborough and London each took 10 yards for offside play. McNee of London made a splendid run, but was downed after a gain of 25 yards. London continued bucking the line, and the checking was close, and the contestants had small arguments on the side, after one of which Stephens and his check retired for five minutes.

Just here there was a pause for a few minutes, and on the resumption of play London continued to gain ground, by continually bucking the line. By taking scrimmages, instead of free kicks, they also made ground. Deannard stopped many rushes that looked dangerous.

Peterborough secured a free kick, and got possession of the ball on London's 25 yard line. Shortly after Rickey following up brought down Farneri within a few feet of London's line. A series of scrimmages occurred just here, and from one of these Bell went over for a try, which the goal judge did not allow, but which to the majority appeared to be all right. Score, 6—0.

London secured the kick-off, and a series of scrimmages occurred, which were broken only by a free kick given Peterborough. Then there were more scrimmages, and continued bucking of the line by Sippi. At length Peterborough secured a free kick and following downed Farneri near the line. From a free kick, the Peterborough wing followed down rapidly, and the ball was accidentally kicked behind the dead line. Score 7—0.

For some time longer play continued in centre field, when half time was called, and the players received their well merited rest.

From the score in the first half the majority thought the Londons would have little difficulty in overcoming the lead, but all were agreeably surprised to see the work of the home team against the wind. Instead of playing the bolding game, running and passing was resorted to, with the result that it was London that was on the defensive. Time after time the Peterborough defence made gains, until they were well on to London's line. The visitors were given a free kick, McPherson returned into touch in goal. Score, 8—0.

Dillon secured the kick and made a number of yards and his example was followed by Bell. Following up a free kick, Rickey secured a try, but was offside and had to return, and London secured the kick. Asselstine secured the ball and ran over but was unable to get the ball to the ground, and so was compelled to pass to Meagher, who made the touch. Score, 12—0.

For some time after the kick off play continued in centre field, but London slowly and surely forced the play, and Peterborough was placed on the defensive, but was able to prevent a score by excellent work on the part of the defence. Lee, Burnham, McPherson, Armstrong, and Bell all worked hard, but their efforts would have been useless had it not been for the protection given by the wings.

London received a free kick, which Burnham caught and carried to the twenty-five yard line. Then from a series of scrimmages the visitors changed the play to within four or feet of the home goal line. In a number of scrimmages London tried to force the ball over by pure weight but the hme wings and the scrimmage held them so closely that they were compelled to try the half backs. These were unable to get over and finally Frneri was offside and free kick relelved Peterborough. The ball was secured by McPherson, and scrimmaged near centre field. London again played offside, and McPherson kicked into touch. From the throwin Hurtubise secured the ball, and after the scrimmage Mac punted, the ball being secured by Dillon, who was following up closely. Just here time was called, and it was all over, save the cheering.

FREE KICKS.

It was feared that Saturday's game would be very rough, but happily such was not the case.

Craig proved his worth in the game. It was his first game yet he held his check well and did splendid work when put in scrimmage.

Deannard deserves credit for the pluck he displayed. He practically got out of bed to play, having been sick throughout the week.

"Bunt" is all O.K. Such was the opinion expressed by the Londoners.

Mr. Black, on retiring from the field expressed his sorrow for losing his temper. Never mind, we are all prone to that failing at times.

The big "scrim." of London did not have the "walk-over" they expected. Condition told and Peterborough's trio were able to more than hold their own after a few moments' play. In fact Mr. Mitchell said the home "scrim." played fairly, but the tactics of the three big London men were questionable.

The back division was effective, but they would not have been able to work so well had they not had splendid protection.

The older players deserve all credit, but to the younger ones it is necessary to give encouragement.

London's inside men were large, but they couldn't break Dillon and Craig.

Rickey, Meagher, Crowley and Asselstine are men of whom all Peterborough is proud and the secret fear in each heart is that they will some day retire from the game. They have played the game long and faithfully and are yet far from being "hasbeens."

Comment on the back division is unnecessary.

How the Body is Nourished.

Josh Billings once said, "It is better to know less than to know so much that ain't so." You can't help thinking of this when you inquire how the human body transforms food into blood, and blood into bone, flesh and living tissue.

Ask a class in physiology what happens to a simple meal of bread and butter when it arrives in the human stomach. You will get plenty of answers, but how many will be correct? How many will tell you that the bread, if it is made of bolted flour, contains about as much nourishment as a paper collar and that its principal good is to put the butter on.

How many can explain why they are so fond of butter—with other things, but never like it by itself? Who of them will remember that the stomach can do almost nothing whatever with butter except pass it along to be digested further on?

Ask what the liver does to it. How many will tell you that the liver gives it special treatment and that all fat gets into the blood in a different way and by a shorter cut than ordinary food? How many in the class or out of it have any fair idea of what fat is really good for in the human body?

Many people imagine that fat foods are good only to make heavy and useless flesh. Few realize that fat is one of the chief elements in sustaining the nerve centers and brain and supplying the fuel for muscular power and vitality. This is one reason why Scott's Emulsion is so effective in restoring not only the fleshy tissues but active strength and mental as well as bodily vigor.

It combines the nourishing properties of the whole cod liver oil, emulsified, with hypophosphites of lime and soda, which makes the oil easy to digest and at the same time greatly increases and re-inforces its good effect.

Scott's Emulsion is known to be one of the richest preparations (food product or medicine) in the materials most needed to make good blood and repair living tissue. It is agreeable to the taste and the stomach, puts almost no work on the digestive powers and enters the blood with great readiness. It builds up the body tissues rapidly and is a true food where nourishment is needed. Its value has been well proven in 25 years' experience by the public and the doctors and it is widely recommended by the medical profession throughout the world.

Shall we send you a small sample free?

WILL NOT BE TRIED.

Six Election Petitions That Were Dismissed Saturday.

Toronto, Nov. 24.—Six more election protests fell Saturday, three on each side of the party line.

These are the Liberal seats safe:

East Wellington—Hon. J. M. Gibson.

Halton—John R. Barber.

North Wentworth—R. A. Thompson.

These are the Tories:

Glengarry—W. J. McLeod.

North Waterloo—Dr. Lackner.

Frontenac—Mr. Gallagher.

In East Wellington and North Waterloo, costs were allowed. The others were dismissed without costs.

There was the same formality in dismissing the protests as was religiously observed in the previous trials.

In each the court asked the same formal questions: "Who appears for the petitioners? Who for the respondent? Have you any evidence to offer?"

To all these Mr. Bristol, for the Conservatives, and Mr. Grant, for the Liberals, had like answers.

The argument in the East Middlesex case against Dr. Routledge, Liberal, may be heard a week from next Saturday, and the protest against Mr. Pense, Liberal, tried at Kingston on Dec. 9.

CATTLE GUARDS.

Dominion Commission at Windsor Seeking More Information.

Windsor, Nov. 24.—The Dominion Cattle Guard Commission, composed of F. W. Lolt, C. E., and George Robertson, appointed by the Dominion Government to tour Canada and the United States, for the purpose of examining the various cattle guards in use, Saturday morning held a session in the County Council Chambers at Sandwich. Nearly all the prominent politicians of Essex County were present.

Mr. Holt explained the object of the visit and called upon those present to express their views. Dr. J. O. Reaume, M.P.P., welcomed the commission.

The most interesting feature of the session was a speech by M. K. Cowan, M.P.

"The question of cattle guards for railways is not new," said he. "A great many petitions have been addressed to the Government on this subject, and many have come from Essex. The pit guard is recognized as the most effective used thus far, and it is the most successful, as far as the cattle are concerned. They drop into the pit, and there they stick. But their heads and shoulders protrude abo e the track, and many a train has been derailed and many lives have been lost through this. The question is one of moment, in that it has to do not only with the safe transportation of our products but with our very lives."

Mr. Cowan was followed by John Auld, M.P.P., of Amherstburg, who emphasized the fact that the present question is one of unusual moment in Essex, because so many trunk lines converge in the county. Ex-County Councillor N. A. Coste and a number of others also addressed the meeting.

TAPS FROM THE WIRES.

Conrad Hammer of Wellesley jumped off a train Saturday morning and broke one of his arms and one of his legs. He was unconscious for an hour.

A special despatch from Rome says that while six of the wealthiest residents of Brescia were fishing in Lake Como their boat was overturned and all were drowned.

Mrs. George W. Coppins, wife of the City Clrk of Hobart, Ind., was shaking bric-a-brac out of the window, when the window fell, striking her on the neck. She died in less than three hours.

Francis A. Burrows, aged 21, of Montreal, shot himself in the right temple while walking on Woodward avenue about midnight Saturday night in Detroit. He is dying at Harper's Hospital.

Thomas Melross, a laborer, fell a distance of 40 feet at the Conger Coal Company's yards, Toronto, on Saturday and received such severe injuries to his head that he died in the Emergency Hospital at 2 o'clock on Sunday morning.

Nicholas Swayzie, 17, of Stoney Creek, met with a painful accident while out shooting with Andrew Bloom. Swayzie stepped in front of the target and received a charge of shot right in the face. It is feared he will lose the sight of one of his eyes.

The death occurred on Sunday morning at the home of his son-in-law, J. F. Hellmuth, K. C., Deer Park, of Clarke Gamble, K.C., one of the best known and oldest barristers in the Province of Ontario. Mr. Gamble had been ill for about a week. Deceased was born in Kingston in 1808, and came to Toronto at an early age.

Edgar Koropp, eldest son of Charles A. Koropp, Toronto, is in Grace Hospital with a bullet wound in his head, and the doctors held out slight hopes for his recovery. Friends of the young man who were present at the time of the shooting say it was accidental. Young Koropp is 23 years of age. The shooting took place Sunday night.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays, inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

INTERESTING FACTS.

For Nearly Every Man Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy, have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers, and were finally induced to give Stuart's Dyspepsia Tablets a trial, were surprised and delighted at the results. In many cases a single package costing but 50 cents at any drug store, made a complete cure, and in every instance beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unsolicited testimonials, and never publishh the same one twice.

From James Yemmeisler, La Cross, Wis.: Stuart's Dyspepsia Tablets are doing me more good than anything that I ever tried, and I was so pleased with results that I gave away several boxes to my friends who have also had the same benefits.

From Jacob Anthony, Portmurray, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had dyspepsia for six years and had taken a great deal of medicine, but the Tablets seemed to take right a hold, and I feel good. I am a farmer and a limeburner, and I heartily recommend them to anybody who has any trouble with his his stomach, to use these Tablets.

From Mrs. M. K. West, Preston, Minn.: I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend, who also suffered from indigestion, and she had the same good results.

From Mrs. Agnes K. Ralston, Cadillac, Mich.: I have been taking Stuart's Dyspepsia Tablets and I have been very much better, and feel very grateful for the great benefit I have received in so short a time.

Stuart's Dyspepsia Tablets are a certain cure for all forms of Indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them to all persons suffering from nervous dyspepsia, sour or acid stomach, heartburn, bloating, or wind on the stomach, and similar disorders.

MARKET REPORTS.

Kitchener and the Mad Mullah.

Aden, Arabia, Nov. 24.—Lord Kitchener has arrived here on his way to India, and has conferred with the commandant, Gen. Maitland, concerning the campaign against the Mullah.

FOUNDS IN BROCKVILLE.

Presented Cheques For $10.50 and Got the Money.

Brockville, Nov. 21.—An unknown man in the garb of a workman made small purchases at several stores here Friday. In each case tendering a cheque for ten dollars and fifty cents and receiving the balance in cash. The cheques resembled the pay cheque of the Rathbun Co. and purported to be signed by the manager of the company. However, when the cheques were presented at the bank Saturday morning payment was refused, as the signature was a forgery. In the meantime the forger had disappeared.

Federation of Labor Officers.

New Orleans, Nov. 24.—The following officers were elected by the American Federation of Labor Saturday. President, Samuel Gompers; First vice-president, James Duncan; Second vice-president, John Mitchell; Third vice-president, James O'Connell; Fourth vice-president, Max Morris; Fifth vice-president, Thomas I. Kidd; Sixth vice-president, Dennis A. Hayes; Treasurer, John B. Lennon; Secretary, Frank Morrison; Fraternal delegates to the next labor convention in Great Britain, Max S. Hayes and Martin Lawler; Fraternal delegate to Canada, John Coleman; place of next convention, Boston.

Dr. Parkin Off For Home.

London, Nov. 24.—Before sailing for New York on the Cunard Line steamer Campania, from Liverpool Saturday Dr. Parkin, who has been at Oxford for some time arranging for the admission to the university of the Cecil Rhodes scholars, said that probably 200 students would have residence at Oxford in 1904 under Mr. Rhodes' bequest. He believed, he added, that all the provinces in Canada would eventually be included in the provisions of the bequests.

Provincial Secretary of B.C.

Victoria, B.C., Nov. 24.—Col. E. G. Prior, the new Premier, is said to have appointed Denis Murphy, member for Yale-Cariboo, as provincial secretary, and he will probably be sworn in to-day.

Evacuating Shanghai.

Shanghai, Nov. 23.—The evacuation of this city by the foreign garrisons has begun, the Japanese being the first to withdraw their troops.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

A Tale of a Smile.

Tuesday night, as she smiled, it was a contagious affair, and the audience returned it, writes Charles Raymond in The Toronto Star. Those who have heard her before thought she had never done better, and from all parts of the building came the applause demanding an encore. So she smiles and sings again, and we are sure she is happy, for who could be so blithe with her own heart not free from care? Free from care! That woman's husband loves her, and they say she loves him, but they cannot agree, some way or other, so she is supporting herself and a boy just by that smile and her voice. In her room is a letter which tells her that her husband is about to institute proceedings for the possession of the child.

The sorrow hid in the smile before the audience, but in the quite of this room she reads and re-reads the letter, and cries as she reads it.

The tears wash away the rouge.

The Food System the Source of Life

Any Derangements of Liver or Kidneys That Interfere With Digestion and Assimilation of Food Rob and Deplete the Body.

Dr. Chase's Kidney-Liver Pills.

It matters not how good your appetite, how you relish your food or how much you eat, so long as there is anything to interfere with proper digestion and assimilation of the food by the body, strength and vigour will gradually decline and weakness and debility take their place.

The most frequent cause of disordered digestion is sluggish action of the liver, kidneys and bowels. The whole alimentary canal, through which the food passes on its way through the body, becomes choked and clogged, and the system is poisoned and diseased.

Dr. Chase's Kidney-Liver Pills have been marvellously successful in exactly this class of disease, principally because they act directly on the kidneys, liver and bowels, regulating and invigourating their action, and restoring them to health.

Mr. R. Beach, 225 Sherbrooke street Peterborough, Ont., states: "About two years ago I became subject to cramps, which were caused, I was told, from acute indigestion. I was so bad that I would be laid up for weeks at a time. These attacks came on periodically, and distressed me greatly.

"I then began using Dr. Chase's Kidney-Liver Pills, and have found them a wonderful medicine. They have entirely prevented a recurrence of my trouble, corrected the derangement of my digestive organs, and made me feel like a different person."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 11

In South America and Australia pasture is abundant and oxen of the finest quality are plentiful. Bovril is prepared from these oxen and the supply is so considerable as to enable the manufacturers to use the best materials at a nominal cost. It is prepared by a special process, which ensures the retention of both the stimulating and the nourishing properties of the beef, thereby differing from ordinary meat extracts or beef tea, which merely stimulate without nourishing. The effect of stimulants is transitory; a mere flicker of energy purchased at the price of greater fatigue.

Bovril Nourishes AND Strengthens.

MEANS EDWARD VII.

'KNOLLYS," OR "FRANCIS KNOLLYS," AT THE END OF A LETTER.

The Tactful Nobleman Who Is the Chief Private Secretary to the King—There Are Yet a Few Favored People to Whom the King Still Writes by Hand, However—A Sample Letter.

You see only the terse signature, "Knollys," or at the most "Francis Knollys," but you know that it means Edward VII. For Lord Knollys (pronounce it as if spelled Knowles) is the tactful nobleman who fills the position of private secretary to the King, and who, in that capacity has to answer the many and oddly assorted communications which reach His Majesty in the course of a day.

There are a few favored people to whom the King still writes by hand—as Prince of Wales he used to do no small amount of "hand-made" correspondence—but when any ordinary communication is addressed to Edward VII., the "gracious reply" as it invariably is described, expresses the sentiments of the Sovereign over the signature of Lord Knollys.

His Lordship, who, by the way, was raised by the King from a knighthood to a barony at the time of the coronation, must have become a perfect "ready letter writer," by this time, for few things could be more varied than the missives with which King Edward's subjects see fit to assail him. Here are replies to three of them which happen to come together.

In some angling society discussion arose over the momentous question as to whether the King had ever caught a salmon, and to settle it the club's secretary wrote Lord Knollys, making inquiry, to which his lordship replied:

"Buckingham Palace.

"Sir.—In reply to your letter of yesterday's date, I beg to inform you that the King caught a salmon of 21 pounds' weight on the Floors Castle water on the Tweed in, I believe, the year 1865. The King has also fished in the river Saguenay in Canada. I am, sir, your obedient servant.

"Francis Knollys."

On the same day Lord Knollys wrote to the mayor of Southwark, one of the London slum districts, expressing the King's regret that he could not, on account of his illness, make his promised "progress" through the East End.

He wrote also to Prince Gakaef, one of the largest cattle breeders in Russia, who had wished to send several pure bred bulls to the King, again "regreting," on behalf of his royal employer, that the British law forbidding the importation of foreign cattle into England prevented his accepting the proposed gift.

Lord Knollys became King Edward's private secretary while the Sovereign was Prince of Wales. He was given a knighthood for the unusually successful way in which he managed the organization of the Colonial and Indian Exhibitions, held in 1886.

Last year his lordship's services were recognized by King Edward by the bestowal of the grand cross of the Victorian Order, and now he is a member of the peerage, with the title of Baron Knollys of Caversham. He prefers to be known, however, simply as "Lord Knollys."

It is not such a difficult matter for a King of England to provide himself with a private secretary as it was several hundred years ago. Parliament made a great fuss when George IV. wanted to appoint Col. MacMahon as his assistant in matters involving the use of pen and ink. Up to the monarch's time no English Sovereign, except George III., had had a private secretary, and the royal oppressor of the 13 colonies had been permitted the luxury only because he was blind.

The representatives of the people objected to George IV.'s having a secretary, on the ground that the office was unconstitutional—that the secretary would be a secret adviser of the King and thus the iron-clad principle that only *ministers* could give counsel to the Sovereign would be destroyed.

George IV. eventually got his secretary, but only after the House of Commons had been solemnly assured that the secretary would be "incompetent to communicate the pleasure of the King in any way that could authorize any subject in the land to attend to it or to act on it, with official responsibility."

It is rather doubtful if in the time of George IV. "loyal subjects" thought it necessary to pester their Sovereign with quite so many absurd letters on absolute inane topics as they do to-day. Unfortunate Lord Knollys has to acknowledge literally bushels of "nice little letters" written by children to the King and Queen, while inquiries as to whether this or that "touching incident" of Their Majesties' visit to such and such a place had been brought to the notice of the Sovereigns pour in by every mail.

Britons, however, are not the only offenders in this respect by any means. The writer knew an American woman who, happening to be in a little Canadian town when Queen Victoria died, laid hold of the rope which was tolling a bell for the Queen. A year later the woman was in England, and on the anniversary of the Queen's death, she made a point of going to a church where bells were being tolled, and once more was allowed to pull the rope a few times.

She then wrote a detailed account of this "interesting coincidence," and sent it to Sir Francis Knollys, asking that it might be "brought to the attention" of King Edward! In due course she received a note from the royal private secretary saying that the King had been much interested in her experience—and that letter the good lady, who ordinarily, is a sensible enough sort of person, will "show" to her dying day.

It is likely that, if Lord Knollys is gifted with a sense of humor, he has many a quiet chuckle over the epistolary oddities which reach him, but perhaps the laugh is not always on his side.

Set forms are followed to a great extent in writing on behalf of the King, and unless they are used with great care some blunders as odd may occur as that by which an American society which sent a letter of condolence to King Edward on his mother's death was thanked for its "loyal" message.

For instance, to one Smith who had given an entertainment at Windsor Castle before Queen Victoria, Sir Arthur Bigge, the late Queen's secretary, sent the stereotyped message that "Her Majesty trusts that your artists reached home without accident, and are in good health." The "artists" were a flock of performing geese!

BACK-ACHE ?

If you have Backache you have Kidney Disease. If you neglect Backache it will develop into something worse—Bright's Disease or Diabetes. There is no use rubbing and doctoring your back. Cure the kidneys. There is only one kidney medicine but it cures Backache every time—

A CONTRAST

Of the face of a healthful woman with the face of one who is sick proves that quite often a sad face is a sick face. Many a woman has credit for a sunny disposition who would soon be sad of face and irritable of temper if she had to endure the womanly ills which many of her sex have borne for years.

Dr. Pierce's Favorite Prescription cures the diseases which are the source of so much pain and suffering to women. It establishes regularity, dries debilitating drains, heals inflammation and ulceration and cures female weakness.

Mrs. Cornelia Henson, of Coalton, Boyd Co., Ky., writes: "In October 1899 I gave birth to a baby and the treatment I received at the hands of the midwife left me with falling of the uterus. I had no health to speak of for three years. I had another baby which was the third child. My health began to fail and I found myself completely worn out. I had so many pains and aches my life was a burden to me and also to all the family, for I was nervous and cross and I could not sleep. Had four doctors come to see me but at last found I was slowly dying. The doctors said I had liver, lung and uterine trouble. I was in bed for months and when I did get up I was a sight to behold. I looked like a corpse walking about. I commenced to take Doctor Pierce's Favorite Prescription, 'Golden Medical Discovery' and 'Pellets,' and ever since then I have been a well woman. I have suffered all a woman's could suffer at my monthly period until since I began the use of Dr. Pierce's medicines, but now I can say I have no pain. The dark circles around my eyes are going away and I feel better in every way. My cheeks are red and my skin is white, but before it was as yellow as saffron."

Accept no substitute for "Favorite Prescription" there is nothing just as good for weak and sick women.

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

WOODLAND HYMN OF PRAISE.

A Badger Hunt With a Most Unexpected Ending.

Some years ago during a visit to friends at Sudeley Castle, Gloucestershire, the late Sir John Stainer, the famous organist and composer, joined in a badger hunt which had a most unexpected ending, one that was undoubtedly wholesome both for the badger and his hunters.

The manager of this estate amused himself by nightly meets at certain woods where the badgers earthed, and Dr. Stainer—he had not then been knighted—having been told that there was to be a meet at a place called Pinnock Cliff, an extensive woodland in the Cotswold, expressed a desire to take part in it.

At midnight, accordingly, in company with the manager, the Rev. Robert Browne, who was then curate of Sudeley, and a few others, Dr. Stainer started to tramp to the rendezvous which was about four miles away. The beaters were left at a certain point with instructions to give them their half hour's start. This being effected, they were quietly awaiting the appearance of the badger, who, disturbed in his rambles by the beaters's dogs, would probably ere long charge at the earths. While they waited the approach of the morning was heralded by that mysterious light which at that time of the year—it was June—begins to be seen about 2 o'clock.

It was one of the finest mornings possible to imagine. There was no wind, the sky was clear, and the small patches of detached mist obliquely creeping up toward the ethereal blue overhead irresistably suggested celestial beings winging their upward way.

The birds soon began their morning songs—first the skylark with his trilling notes, then in the far distance the cuckoo, the wood pigeon and the dove cooing to his mate, and then the hosts of other birds, one after another, until all the woodland resounded with song. For a few moments the little party stood in silence; then Dr. Stainer, raising his hands, exclaimed:

"All that have life and breath sing to the Lord!" the opening words of Mendelssohn's "Hymn of Praise."

The manager caught at it in an instant and hummed the trombone part.

"Do you know it?" asked the doctor.

The manager nodded.

"Let us have the first chorus," said Dr. Stainer.

And so they sang from memory, as well as they could, the first chorus from the "Hymn of Praise," Dr. Stainer taking the treble, Mr. Browne the alto, the manager the tenor and another the bass.

Naturally, they did not get the badger. Never was badger in this humor wooed, and it is easy to imagine the dazed beast, who never could have heard such sounds in all his previous existence, giving his earth a wide berth.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalising blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Shipbuilding in Canada.

Two hundred and sixty vessels, representing a total tonnage of 28,288 were built in Canada during the fiscal year ending June 30th, an increase of 20 vessels and 6,332 tons, as compared with the previous year. Of this number 89 were steamers and 171 sailing vessels, as against 84 steamers and 156 sailing vessels built in the year preceding. The number of vessels registered was 816, aggregating 34,236 tons. In 1901 327 vessels registered, aggregating 35,156 tons. Last year 5 steamers and 22 sailing vessels were sold to other countries. The figures indicate that the wooden shipbuilding industry is by no means on the decline. Twenty steamships, aggregating 5,510 tons, were built in Toronto, and in Montreal 8 steamships of 387 tons. Most of the sailing vessels came from shipyards in the Maritime Provinces.

Equestrian Portrait of the King.

The latest portrait of the King, says Mainly About People, is an equestrian one by Mr. Stanley Berkeley, the well-known military and animal artist. It represents His Majesty in the uniform of a field marshal, seated on a bay charger, on the high ground at Aldershot overlooking the famous—infamous many a perspiring subaltern has called it—Long Valley, with a group of staff officers behind him. Spirited and lifelike, it is likely to be popular with His Majesty's people. Indeed, many papers have announced that it has been acquired by the Government for reproduction and exhibition in barracks and other military institutions, but the announcement is premature, as the matter is still awaiting the Government's final decision. Popular as he is as a painter of hunting and humorous animal pictures, Mr. Berkeley is perhaps even better known as a battle artist, though he has been successful with marine and cowboy subjects. He deals with the romantic side of war—the headlong cavalry charge, the "forlorn hope," the hand-to-hand encounter—rather than with the grim horrors of the battlefield; yet death, violent and hideous, plays an important part in many of his pictures. Thus, in "Desperate Odds"—a Royalist battling for his life against some half-dozen "Ironsides"—and in "Cornered at Last," where the lynchers are closing on their victim, there is in each case a man face to face with a sudden end at the hands of his fellow-creatures, and the savage fury and despair of such a moment is depicted with a wonderful insight and sympathy. And yet this vivisector of the death-struggle, sometimes the death-agony—this painter who seems to revel in the frenzied exaltation of man and horse in battle—is a quiet, gentle mortal, almost morbidly shy of notoriety, and passionately devoted to the gentle beauties of nature and of the countryside.

For Cramped Bedrooms.

An admirable idea for cramped bedrooms is to have a long mirror set in the closet door. Extra books on the other side and a skirt hanger or so never come amiss, and a bag below them for boots and slippers is very desirable.

If one's legs are unshapely, the calf may be finely developed by rising on the toes, then sinking again to the floor. The more times this is done the quicker the development.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

A Safe Store to Buy Furs.

William Leeb & Sons invite an early inspection of their large stock of fine furs, expressly manufactured for themselves. They have planned for even a larger season than last. The advent of the cold weather finds them prepared with a very complete display of high class furs, for ladies', gentlemen's and children's wear. Persian Lamb, Grey Lamb, and Electric Seal jackets, as well as other furs. Fur-lined cloaks, and capes, victorines, boas, scarfs, muffs, capelines, etc., also men's fur coats, fur-lined coats, children's furs, sleigh robes, etc. Any style of fur garment made to order, and guaranteed the best that can be produced for the money. Make an early visit to this safe store to buy furs.

The best and purest cider for your mince meat—Allen's Norwich Cider—At Henry & Co's.

LATEST IN SPORTING CIRCLES

Mr. H. R. H. Kenner Writes a Letter on Rugby.

He Refers to the Game on Saturday—Need of new Athletic Grounds.

RUGBY.

To the Sporting Editor of the Examiner:

Dear Sir,—Peterborough may justly be proud of its football team which has succeeded in three times winning the Intermediate Championship of the Ontario Rugby Football Union. All reports to the contrary, the match on Saturday, while hotely contested, was not unduly rough. True it is, that some hard knocks were given and received on both sides, but this happens in every game of football, as it differs materially from ping-pong. At heated moments some gentle love-taps which are not provided for by the rules, were administered and the players, who for the moment had lost their heads, were ruled off; but the offenders invariably shook hands and walked off arm in arm.

Over zealous partisans on the touch-line, some of whom had no badge to show that they had paid their way in, tried to cause trouble with a Londoner, who was somewhat obnoxious, but as in most modern prize-fights, the fighting was done only with the mouth.

So far as the officials were concerned the referee was strictly impartial, and the umpire, to put it very mildly, did not give us any marked preference. Concerning the try which Peterborough secured and which was disallowed by the referee, in my humble opinion the referee was correct. The rules give the umpire the power to stop the game when a foul has been committed and the moment the whistle is blown the ball is dead. He claims that a foul was committed by a London man and that he blew his whistle before Peterborough got over the line. If so, we were not entitled to a try. The unfortunate part, so far as the local players are concerned, is that in spite of the fact that a foul was committed against them and that London did not stop playing, we got over the line.

In open play Peterborough was decidedly the better team both in running, passing and kicking. In close scrimmage work we were at a disadvantage owing to the superior weight of the London scrimmage and inside wings, and also owing to the illegal London scrimmage, which is not according to the rules of the game; but how many times does any scrimmage heel the ball out properly?

Good generalship was displayed in the match. In the first half some were disappointed that the score was not higher, but our back division could not get the ball, as London wisely was determined to keep the ball in scrimmage and they were able to do this for reasons given above. In the second half the captain knowing the superiority of his men in speed, kicking and passing, although having a comfortable lead, and in spite of having the wind against him decided to play an open game and the last fifteen minutes especially was brilliant football and five points were added to the score.

The scrimmage fought nobly against superior weight. The quarter played a brilliant game. The captain never ran or kicked with better judgment. The president played his usual cool game and shone in bucking the line, the other half back tackled his man every time and got in some good runs and the full-back was more than equal to every demand made upon him. The wings one and all held their men, played on side and followed up splendidly. There was not a weak spot in the whole team.

After this long preamble I am coming to the principal part of my letter. It would be a pity for such a good team, as we have, not to have a chance to play off with Quebec City for the Dominion Championship. The game this year will be played in Montreal and it will cost $175 to send the team there and back. We have no money in the exchequer. We took in $55 on Saturday and our expenses were $75 which was not very encouraging to the management. There was a large crowd at the match, but a good number, not counting the boys who were allowed in free of charge, came not in at the gates. If we are not to default, our friends must come to our assistance. It is too much to ask the players and officers who are upholding the honour of Peterborough, and spending their time and money, to meet this heavy expense. It lies, therefore, with the friends of the club to say whether the team shall go to Montreal or not.

Finally what conclusions may be drawn from the contest on Saturday?

1. That we have a fast, well-balanced team.

2. That from a spectator's point of view the rules will have to be changed; the close play of the first half was not calculated to rouse any enthusiasm.

3. That Peterborough is very badly in need of an athletic ground, where a gate can be collected, which would relieve the management of the very unpleasant duty of constantly begging for money.

4. That there is a number of people in Peterborough who are very fond of sport, but only at other people's expense.

H. R. H. KENNER,
Manager Peterborough Football Club.

Mr. Kenner might, if his modesty had permitted, have pointed out that not only is the club "upholding the honour of Peterborough," but it has given and is giving the town a big advertisement. From ocean to ocean—from Vancouver to Halifax—Rugby is the theme of the hour in sporting circles. The various steps in the Canadian championship are discussed, in every city and town in this great transcontinental stretch; and the discussion will of course bring in the name of Peterborough, and besides, incidentally bring out the fact that here is the place they can get Quaker Oats, saw-mill machinery, "boss" waterwheels, cordage and binder twine, electrical supplies, etc., etc. Give the boys a "hoost" "On to Mo'real."

IT WAS TEMPERANCE SUNDAY

Special Sermons Delivered Yesterday Afternoon.

Rev. Mr. Galbraith Will Lecture in St. Paul's Church on Thursday Night—Meeting in Ashburnham.

Yesterday was temperance Sunday and in nearly all the churches throughout the town special sermons, with reference to the vote on the 4th of December, were preached. In fact it was a general campaign day, and earnest appeals were made in the cause of temperance.

At St. Paul's church in the morning Rev. J. A. Wilson spoke at some length explaining the details of the proposed act, whilst in the evening Rev. Dr. Torrance gave a stirring temperance address.

Rev. J. G. Potter occupied his own pulpit and delivered an able temperance address.

Rev. Mr. Joliffe, of Charlotte street, preached on the evils of intemperance yesterday evening as did also Rev. J. P. Wilson, of George street.

At Mark street Methodist church a mass meeting was held at 4 o'clock yesterday afternoon. The speakers were Rev. J. G. Potter, Rev. Wm. Bennett, Rev. C. L. Thompson and Rev. J. A. Wilson.

At the conclusion of the regular Sunday School services at George street church yesterday afternoon, Mr. J. W. Garvin gave a twenty-minute talk on temperance. He recited some very interesting personal experiences which led him to take the firm stand he was taking in the matter of prohibition. In the course of his remarks he said that he expected to have 100 men in his employ, and as far as he could possibly carry out his policy he would employ no man who either used liquor or tobacco.

Rev. Mr. Galbraith, of Belleville, will speak in St. Paul's church on Thursday evening in the interests of the Temperance Campaign.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 82

The Toronto Junction Shooting.

Toronto Junction, Nov. 24.—Three sets of dice were found upon the man of multifarious names who shot Charles Mutart on Friday night. All the preliminary trial on Saturday morning he did not plead or elect, and was remanded for further hearing till Friday next. The charge laid was that of "shooting with intent to rob, doing grievious bodily harm." This Michael Griffin, or Hugh Johnson, had another name when he came before the magistrate. This time it was Hugh Ferguson of Parkdale. His real name is Henry Bremner. Bremner was a little talkative after his cooling off in the cells, and what he says goes to show that a quartette of gamblers had decided to fleece the frequenters of crap joints by means of loaded dice. Failing in this, confederates would fall upon the winners after the game and hold them up for their booty.

20 Years of Itching Piles.

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terribly from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trou-

A CHEAP SUBSTITUTE FOR COAL.

Instead of $15-a-ton coal, use gas for cooking—cleaner, cheaper, better.

Soap for India.

English firms are trying to secure a market for soap in India, but up to the present time that country has remained practically soapless. Indeed, throughout Hindustan soap is regarded as rather a curiosity and rarely, if ever, kept in stock by the native storekeepers.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

The East in the West.

The Government of Ceylon has set aside $17,500 for that island's representation at the World's Fair of 1904 at St. Louis. Application has been made for space, and it is proposed to have a large Ceylon Tea House with supplementary exhibits illustrative of Ceylon and its industries.

Do You Wear Rubbers?

If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style speak for themselves.

The Russian Turban is the latest New York idea. Appeals strongly to the ladies who admire a refined shape in broad, low-crowned round Hats.

Large Black Velvet Hats, very rich, and suit the costumes of the day.

New samples of handsome Ostrich Feathers.

No. 124 Hunter Street.

Corticelli Home Needlework

"Onward" is the watchword of the Corticelli Home Needlework Magazine. Great changes and improvements are under way, and the next number will surpass all previous issues. The magazine will be increased in size to that of the regular standard publications, the dimensions of the pages being 6 7-8 x 9 3-4 inches. It will be handsomely printed from new type and on fine book paper, and will contain a vast amount of valuable information to lovers of art needlework, decore crochet, drawn embroidery, etc. The usual number of beautiful coloured plates will appear, as well as many handsome designs and patterns for holiday gifts.

Owing to the extensive improvements made in the magazine, the price, after January 1st, will be 50 cents per year for the four issues, or single copies 15 cents, but orders from now till the first of the year will be received at the old rate of 35 cents, or 10 cents for sample copy. Address Corticelli Silk Company, Limited, St. Johns, P.Q. Write for the great premium offers now being made.

No lady who desires to perfect herself in the skilful use of the needle, can afford to be without the "Corticelli Home Needlework Magazine."

Mention this paper.

"Certain good is better than uncertain hope."

Certain value, up to the Makers' price, stamped on the sole, $3.50, $5.00, is pledged in every pair of

MINISTERS' OPINIONS.

Hon. Mr. Blair On Necessity of Government Extension I.C.R.

G.T.R. MANAGER HAYS RETICENT

President of the Canadian Pacific Railway Discusses the Subsidy Question—Mr. Logan of the G.T.R. Says They Will Ask For the Usual Aid—News of the Extension in Winnipeg.

Ottawa, Nov. 25.—The announcement that the Grand Trunk line is to be extended to the Pacific coast excites great interest here. It has been expected for some time that important developments were in progress in which the Grand Trunk were primarily interested, and the recent visit to Ottawa of General Manager Hays, strengthened the surmise that his company were about to undertake the project of spanning the continent.

Hon. A. G. Blair.

Hon. A. G. Blair, Minister of Railways, said yesterday that the extension of the Grand Trunk would be a good thing for the country. "There is room for several railways in the west," said Mr. Blair, "With the business that will be created by the rapid settlement of the country I venture to say that there will be room for railways within 25 or 30 miles of each other."

"Will the extension of the Grand Trunk obviate the necessity of a transcontinental line owned by the State?"

"No, but there will perhaps, not be the same urgency for it. Personally, however, I think that the early extension of the Government system to the Georgian Bay is imperative. We shall then be in touch for eight months of the year with the grain carriers from Port Arthur and other points."

"Have the Grand Trunk Company made application for subsidies?"

"I am not aware that they have I suppose they would not object to receiving financial aid. What the policy of the Government will be I am unable to say at present."

Other Ministers.

Sir Richard Cartwright, when asked for a statement, asked to be excused from expressing an opinion as to a project which was as yet only in the air, so to speak.

Hon. James Sutherland also had no statement to make for publication.

Hon. William Paterson merely said that the proposed extension would be advantageous to the country. Until he knew more as to what was proposed he would say nothing further.

Hon. R. W. Scott thought there would be lots of traffic for both railways. The extension would be built under advantageous circumstances. Money could be borrowed at 4 per cent., and the new railway could be built probably for $25,000 a mile, or about 50 per cent, less than what the existing Grand Trunk line cost.

NO DETAILS YET.

General Manager May Reticent—Probable Route of the Road.

Montreal, Nov. 25.—The Grand Trunk Railway's extension to the Pacific coast was the chief topic of conversation yesterday in business and political as well as railway circles. Mr. Hays, the General Manager, however, is not yet prepared to go much into details about the project. It will be a separate corporation, with headquarters at Montreal, so as to facilitate business and avoid delay, such as might occur if the head offices were across the ocean. The new corporation will enter into exclusive traffic arrangements with the Grand Trunk. That is about as far as he would go explaining the scheme. The route has not been selected not even surveyed, but, broadly speaking, the road will follow the route mapped out by Sir Sandford Fleming for the original Pacific steamship fleet, but these details have not been discussed. Mr. Hays states that his company does not require the Mackenzie & Mann system, and that the new line will be independent of it.

The Usual Assistance.

Montreal, Nov. 25.—Mr. R. S. Logan, assistant to Mr. Hays, was asked:

"Is it your intention to construct the road without subsidy or Government aid?"

"We propose," replied Mr. Logan, "to apply for our charter at the next session of Parliament, and we shall expect the usual assistance."

SIR THOMAS SHAUGHNESSY.

Pleased That G.T.R. Asks For No Government Bonuses or Subventions.

Montreal, Nov. 25.—(C. P. R. Despatch.)—Sir Thomas Shaughnessy, on being interviewed with reference to the Grand Trunk extension to the Pacific coast, said:

"Yes, our Grand Trunk friends are undertaking a very big contract. There is nothing in the announcement that need cause the Canadian Pacific the slightest concern. In this vast country of ours there is room for a great many miles of railway. Twenty years ago, when the Canadian Pacific enterprise was inaugurated, the entire country from Pembroke to the Pacific coast, a distance of upwards of 2,500 miles, was a bleak, barren waste, practically uninhabited. To-day the Canadian Pacific operates in that territory over 6,000 miles of railway, main line and branches, and this mileage is being increased year by year. The construction of a line north of us will involve years of labor and millions upon millions of capital.

"A gratifying feature of the announcement is the absence of any reference to Government bonuses or subventions. The Grand Trunk has declared its determination to build, so that any aid towards the enterprise from either the Dominion or Provincial Governments is not asked for or required, and this is just as it should be. As Mr. Hays says, the conditions have changed enormously since the pioneer road was constructed, and circumstances that made Government co-operation absolutely essential to the carrying out of the original Canadian Pacific enterprise no longer exist."

OFFICIALS IN THE WEST.

Mr. Morse and Mr. Wainwright, of the G.T.R., Give Additional News.

Winnipeg, Nov. 25.—Mr. Morse of the G. T. R. said to-day: "The announcement made by Mr. Hays from Montreal, with reference to our plans for a transcontinental railway is materially correct, and we certainly intend to tap the west with our system. We have been watching the development of this part of Canada very closely, and we believe that the time has arrived when the Grand Trunk must come to the rescue and endeavor to solve the transportation problem. Our decision to build a transcontinental line has taken very definite form, as already application for legislation to that effect has been made to the Canadian federal Parliament, and will be decided at the coming session of the House. As soon as a charter has been granted our surveyors will be put on the route and construction commenced immediately. Of course, the route of the railway has not been definitely decided upon yet, except that our plans indicate a start from our present system at either Gravenhurst or North Bay in Ontario, with possible terminus at Port Simpson, B. C. From Winnipeg our course will depend entirely on the report of surveyors."

Mr. Morse would not say just what his present visit to the west had to do with the proposed extension to the west.

Replying to a question, he said "There are no negotiations on with the C.N.R. or any other line.

"It is safe to say that our road will be independent of any established system. Mr. Hanna and Mr. Sutherland of the C.N.R. visited us yesterday. In fact, we have had many callers, but it had nothing to do with Grand Trunk and Canadian Northern Railway amalgamation."

Mr. Wainwright, who accompanies Mr. Morse, is very enthusiastic over the plans for an invasion of the west. Said he: "What we have done in Ontario and Quebec we propose to do for Manitoba and the west, in the way of establishing an up-to-date railroad system. We have now a most progressive management, capable of grasping the needs of the country and adapting plans to these needs, and our running equipment is the finest obtainable. Another important factor in connection with the upbuilding of this country is the getting in of a proper class of immigrants. We have 40,000 shareholders, all in England and every one of these will act as an immigration missionary to advertise the advantages of this country when our line is established. What we intend to do is to give the west the same advantages in transportation as we have done in the east. We have there almost double-tracked our system throughout, and that will be our policy here."

Room For All.

Montreal, Nov. 25. — The Star's London cable says: So sanguine has the widespread Canadian prosperity made the average Englishman, that the most general comment on the Grand Trunk's new Pacific enterprise is that there is plenty of room for all, especially if the Grand Trunk proposes to open the new northern districts of the Northwest and British Columbia. It is not supposed that the Grand Trunk project will encounter serious opposition here or in Canada. The company will certainly have no difficulty raising whatever money will be necessary, though some cautious Anglo-Canadian magnates express fears lest Canada is inclined to mortgaging the future too heavily in the vain expectation of the present booming times becoming permanent. The papers make no comment as yet.

ENLARGING G.T.R. SHOPS.

Stratford Plant to Become the Chief Repair Point on System.

Stratford, Nov. 25.—The G. T. R. shops here are to be enlarged. From two to three hundred skilled mechanics will be added to the force. This point is to become the chief locomotive repair shops of the system in Canada. This announcement is the result of the visit here last week of General Manager Hays and other officials. Master Mechanic Patterson was instructed to visit the principal railroad repair shops of the United States at once to secure information along this line. He has already gone on this mission, and will be absent ten days. The plans will then be drawn, and after being approved by the officials at Montreal the work will be rushed. When the shops have been enlarged here it is the intention to devote the Montreal works of the company exclusively to the construction of new locomotives.

TRUSTWORTHY DRY GOODS — J. Sutcliffe & Sons — UNIFORMLY RIGHT PRICES.

FORGERS AGAIN AT WORK.

A Number of Belleville People Victimized.

Evidently the Same Gentleman who Operated in Peterborough—His Description.

For some time past a gang of swindlers appear to have been operating systematically throughout Ontario, Chatham, Peterborough and other points having been visited lately, and very recently, Brockville.

There is every reason to believe that Belleville was recently visited by the same gang, or at all events, by some slick swindlers, who have the same modus operandi, says the Belleville Intelligencer.

On Saturday night a middle aged aged man entered the grocery store of John Panter & Son and bought groceries amounting to $1.05. He was waited on by Ald. Panter, and presented in payment a cheque on the Dominion Bank, purporting to have been drawn by Geo. Walton & Co., per George Walton, the cheque being payable to Charles Evans. A rubber stamp was used with which to affix the signature of Messrs. George Walton & Co.

Mr. John Panter was rather suspicious, but it was finally decided to accept the cheque, as the fact of the cheque being signed by the rubber stamp of the firm allayed suspicion. The man took his groceries, and received the balance of the $10.50 in cash.

When the cheque was presented to the Dominion Bank, enquiries were made and the document was pronounced a forgery.

Several other Belleville people were victimized by the same man.

Mr. Panter says that the man who swindled his firm was about 35 years of age, about 5 feet, 8 inches in height, dark, even swarthy, complexion, small black moustache. He wore a dark brown overcoat, and a black stiff hat. It seems to have been the fact of a rubber stamp being used that disarmed suspicion.

"Prizes" with common soaps are dearly paid for at the expense of clothes and hands.

SUNLIGHT SOAP REDUCES EXPENSE

CONCRETE FLOORS AND WALLS

An Interesting Address by Mr. T. G. Raynor, of Rose Hall, Ont.

Read Before a Farmers' Institute Meeting at St. Johns, N. B.—As to Barn Building.

The following is a synopsis of an address given by T. G. Raynor, Rose Hall, Ont., before the St. John, N. B., Farmers' Institute:

Wherever a farmer is building new barns, or changing his stables, the question of the use of concrete for floors and walls is a live one.

In a country where lumber is comparatively cheap, concrete is not likely to come into general use for making walls of barns, but for flooring it is without question the best and cheapest substance that can be employed. Its *first great quality* is its durability. Properly put down it is practically indestructible. Then it is water tight, and will help in saving all the liquid voidings of the animals, and this in farm practice today is a most important matter. Fully 50 per cent. of the fertilising value of the manure is in the liquid portion. By having concrete floors and using plenty of absorbents this can all be saved and put on the land where it will do the most good.

Concrete is a mixture of clean gravel or pure sand and cement. There are several kinds of cement. In Ontario they have natural rock cement, which is manufactured at Queenston and Thorold, and this while not as strong as the Portland cement, is cheaper and does very well. In some sections the Portland cement will be the best to use.

Laying concrete floors, does not require skill which an intelligent farmer cannot supply. First make a solid smooth floor, 12 feet square, two-inch lumber preferred. Then a box without a bottom should be made in which to mix the gravel and cement. This can be made of such a size as to accurately measure the gravel or sand. The gravel and cement are then put into this box in the proportions required, the box taken off, and the mixing of cement and gravel or sand thoroughly done with a shovel. It should be shovelled over twice at any rate, while it is dry, and shovelled up into a cone; then before applying the water the cone should be pulled down making the mixture in the form of a ring, leaving a hollow in the centre bare to the floor. Into this water should be poured and the dry gravel and cement turned from the outside of the ring to the centre. This will be pulled out again from the centre, and more water added, until the mixture becomes of the consistency of thick porridge, so it will run down but not be soft. The proportions in which gravel and cement can be used depend somewhat on the strength of the cement. With good Portland cement, one part of cement to six or seven of gravel could be used for the lower part of the floor, but this should be covered with a veneer of one part of cement to two of clean sand. If an extra fine, hard finish is required use equal parts of cement and sand.

Before laying the stable floor a good foundation should be prepared. It should be made firm and solid by the addition of gravel or small stones thoroughly pounded down and the floor shaped as is required for the stable. It is best to have a slight slope from the manger to the gutter. The plan of cow stable which is generally preferred has a square gutter two feet wide and eight inches below the level of the stall floor. This gutter is first made and the cement laid in it. Then a board mould is put up, and the cement put in behind the boards, and the boards left there until the cement gets firm.

In laying concrete only as much as can be conveniently reached, say a piece four feet square, should be laid at one time. All the studding necessary in the construction of the stalls should be set on flat stones and the cement put around them. Great care should be taken when laying cement to thoroughly pound it down. After the floor is finished it should be sprinkled with water, especially if the weather is dry. This should be done every day for a month. It will probably take from a month to six weeks for a floor to harden properly and sufficiently to use, and it will not become thoroughly hard for six or seven months after being put in. Large stones can and should be used in the construction of a concrete wall, if pains are taken to see that they are covered with at least two inches of cement on either side. A concrete wall one foot thick is sufficiently strong to carry any barn. This makes a thoroughly warm and dry stable wall. Fine stone from a stone crusher is an excellent material from which to make concrete. A barrel of rock cement will make 55 square feet of four inch floor. Good qualities of Portland cement should do more than that.

By the use of corrugated sleepers, made like railway rails, it is quite practicable to make a good floor which would form the ceiling of the story below. The sleepers should preferably be made of iron and laid sufficiently close to make the structure solid. Such a floor prevents any leakage through to the space beneath.—F. W. Hodson.

Note.—Experience has shown that the most important part of the process is the dry mixing of the sand or gravel and the cement. Turning over the mass twice may not be enough. The point is to bring every grain of sand, or every pebble, in contact with the cement. Otherwise if there are little parts of the mass where the sand and cement do not come in contact, when a floor is laid, the bond being imperfect, there is liability to develop holes. Thorough dry mixing is most important.

YOUNG MAN'S SAD DEATH.

Harnest R. Knox, Mail Clerk on the C. O. R., Dies Suddenly.

The shocking news of the sad death of Ernest Roy Knox, the well known young mail clerk on the C.O.R., was received on every hand with genuine sorrow.

A short time ago the unfortunate young man found himself suffering from a badly ulcerated tooth, and the pain increased so much that he sought relief several days ago, by having it extracted. It is understood that he first went to a Trenton dentist, who advised him not to have it extracted for the present, in case blood-poisoning might set in. He suffered such intense pain, however, that while in Picton the same day, he resolved to have it taken out, and had a dentist in that town extract it. Blood-poisoning resulted, the swelling increased and death followed in a few days, the young man passed away on Tuesday night, November the 18th. Dr. Shurie was in attendance and did all in his power, and Dr. Gibson, (Belleville) and Drs. Farley and Farncomb were called for consultation.

OTONABEE.

At the last regular meeting of the Otonabee Township Council the following taxes were, on motion, ordered to be remitted:—Wm. Brealy, on account of his house being burned; Robert Wright and Mrs. Roach, statute labour tax. Mr. Weir reported that he had inspected the road allowance on the 7th line, between lots 19, which Mr. Goodfellow requests to be opened up, and would recommend that the road be cleared out and three culverts put in. The following accounts were ordered to be paid:—For gravel, D. Hutchison $1.54, E. P. Hair $6.90, Daniel Kelly $37.50, Wm. Hatherly $4.41, John Webster $6.80, D. McCarthy $2.56, Jas. Wood, cedar and nails, $2.25, Hugh Nelson, picking stones off roads $1.50. Engineer Cameron made his award on the Beaver Meadow ditch as follows:—His charge for work, plans, livery hire, etc., $73.00; assistance, $16.00; Township Clerk's fees, $5.00, to be borne as follows:—

	Engineer's charges, etc.	Estimated cost of work.

NORTH MONAGHAN.

The township council of North Monaghan met on Monday, November 10th, 1902, at 2 p.m., in the town hall. There were present, the Reeve, Mr. T. E. Bradburn, and Councillors G. H. May, J. Madill, J. Smith and R. A. Dobbin.

On motion the minutes of the last meeting were not read.

A communication from Mr. Geo. Stevens respecting a drain on Erskine avenue, was read.

It was moved by Messrs. Madill and Smith that the matter be referred to a committee composed of the Reeve and Messrs. May and Dobbin. This was carried.

An account for work done on Road Division No. 1, was presented by Mr. D. Galloway. This was received.

The following accounts were presented and read; D. M. Roberts, repairing culvert and ditching at corner on 10th concession, $5; W. H. Wilson, repairing grader, $1; Jos. Madill for work done on Cavan boundary by joint committee, 1-2 cost, $8.50; Jas. Davidson, shovelling snow on 10th concession line, $7.

On motion of Messrs. Smith and May these accounts were passed and ordered to be paid.

A communication was read from Mr. J. McIntosh, respecting an error in orders for gravel issued in his favour.

On motion of Messrs. Madill and May an order was issued for $3.70, one half of the amount of Mr. McIntosh's account for gravel got by Crow and Jackson on Cavan boundary. This was carried.

Mr. Jas. aDvidson was present and applied to have the ditch on the drain road cleaned from Hooper's to the watering place east of G.T.R.

The matter was referred to a committee composed of the reeve and Councillors May and Dobbin.

Moved by Messrs. May and Smith that Messrs. Dobbin, Smith and Madill be a committee to have a portion of the 12th concession opposite lot 1 repaired and gravelled. This was carried.

The council then adjourned until the statutory meeting on Dec. 15th.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo-Quinine Tablets. This on every box, signature 25 cents.

THE MANITOULIN AND NORTH SHORE RAILWAY.

Surveys for This Important Development Line Completed.

Work of Construction to be at Once Begun.

Brantford Expositor.

Mr. Clergue tells the public that the surveys for the Manitoulin & North Shore Railway have been completed, and that tenders for the construction of the road will be advertised for. The completion of the road in two years will be one of the conditions.

The railway will have three divisions. The first division will run from Meaford to Tobermory, the second from Fitzwilliam to Sudbury, and the third from Sudbury to Sault Ste. Marie, the whole covering a distance of 330 miles, through a district not now supplied with shipping facilities. The road, taken in conjunction with the C.P.R., will leave that part of the country pretty well off in the matter of railways.

Asked in respect to the ferry scheme from Manitoulin Island to the main line Mr. Clergue declared that of course it would form part of the system. There was really no difficulty in the way, and the criticism it had received was somewhat amusing. The Pennsylvania system, he pointed out, ran over 60 miles through the ice, in connection with the Grand Rapids and Indiana roads running to Manistique. The Manitoulin Railway only had fifteen miles of an exposed section. He never had any doubt as to the practicability of the scheme. The only question was, Would the traffic warrant the project? If he had thought that it would not, it would not have been proceeded with.

The chief features of this enterprise have already been pretty well outlined in these columns. It will will open up a great through route between Ontario and points in the Canadian west, its advantages in the matter of distance being shown by the fact that it is shorter between Sault Ste. Marie, Moose Factory and Winnipeg and the following points in Ontario by the mileage stated:

	Miles.
Wiarton	366
Owen Sound	325
Stratford	205
London	203
Woodstock	183
Ingersoll	183
St. Thomas	202
Berlin	170
Brantford	143
Galt	156
Guelph	170
Hamilton	103
Toronto	81
Meaford	173
Collingwood	133
Allandale	59
Barrie	67
Peterborough	77
Palmerston	245
Harriston	257
Southampton	257
Port Elgin	257
Goderich	305
Chatham	303
Windsor	293

The entire project is one that will commend itself to the people of Ontario, more especially as the Government has reserved the right to take over the line at the end of fifteen years time upon refunding to the company the money which it has expended.

AT FIRST GLANCE

It Would Appear That Local Remedies Would be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease, and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate thousands of people seem scarcely ever free from some form of catarrh; it gets better at times, but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best, and certainly the safest, is a new remedy, composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste, and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these Tablets with absolute assurance that they contain no cocaine, opiate, nor any poisonous mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full-sized packages for fifty cents.

Mr. Corning in Yarmouth.

Halifax, Nov. 25.—At the Liberal-Conservative Convention held in Yarmouth yesterday Thomas E. Corning, the defeated candidate at the last general election, was chosen to contest the county at the forthcoming election.

Dillon Can't Come.

Chicago, Nov. 25.—John Dillon, the Irish leader who became ill with grip Sunday at the Grand Pacific hotel, suffered a relapse last night. Mr. Dillon's engagements to speak in Canada have been cancelled.

WILD RICE.

About Seven Thousand Five Hundred Pounds Harvested.

Mr. Charles Gilchrist, of Port Hope, has this season harvested no less than seven thousand, five hundred pounds of wild rice, for which he paid the Indians for gathering over $300 in cash. He has sold nearly the whole of his year's crop at the wholesale price price of nine cents per pound. It has gone to Toronto, Montreal, New York, Chicago and cities on the Pacific coast. He has only about 1,000 pounds left and that is going off rapidly. This has been quite a boon to the Indians of Hiawatha.

Your Opportunity to Get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it knowing that it is bound to do you good.

REMOVAL OF
R. J. G. SUTHERLAND,
Plumber, Gas and Steam Fitter,
No. 358 Water Street

Owing to the constant increase in my business, I have removed to more commodious premises in the Dunsford Block, next Bank of Montreal, where I will be glad to receive my patrons and friends. Having retained the services of three competent workmen, I can promise to attend promptly to all work entrusted to me.

Hot Water Heating, Water Service Supplies and Sanitary Plumbing done in a practical and skilful manner. I will also carry a full stock of Enamelled Baths, Wash Basins, Sinks, Closets, etc. Also Brass Work, Hose, Taps, Valves, and all modern Brass and Electroplated Fixtures. Phone 233.

I Will Cure You of

Rheumatism

Else No Money is Wanted.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month and, if it succeeds, the cost is only $5.50. If it fails, I will pay your druggist myself.

I have no samples, because any medicine that can affect Rheumatism quickly must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk.

I have cured tens of thousands of cases in this way, and my records show that 39 out of 40 who get those six bottles pay gladly.

I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. I will send you my book about Rheumatism, and an order for medicine. Take it for a month, as it won't harm you anyway.

If it fails, it is free, and I leave the decision with you. Address Dr. Shoop, Box 47 Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

GOOD OMEN FOR IRELAND.

The New Lord Lieutenant and the Irish Leader, Though Miles Apart, Make Conciliatory Speeches.

London, Nov. 25.—Speeches, which were delivered yesterday by the Earl of Dudley, the new Lord Lieutenant for Ireland, and by John Redmond, the Irish leader, have aroused much comment as striking a more hopeful note of conciliation in the Irish question.

The Earl of Dudley, accompanied by the Countess, was making an official visit to Belfast, and, in reply to the speeches delivered at his reception, he declared that he had come to Ireland with the same spirit of impartial inquiry that animated Mr. Chamberlain in going to South Africa. The Irish Viceroy proceeding then to deal with the land question as the crux of the Irish problem, suggested that a sort of round table conference of representatives of the landlords, tenants and others interested in Ireland should be held to endeavor to arrive at a mutual understanding, and possibly some scheme for the good of Ireland and the increased happiness of her people.

Whilst Lord Dudley was speaking at Belfast, John Redmond was making an equally conciliatory speech at a demonstration of the London ranches of the Irish League at the suburb of Bermondsey. He was intensely gratified, he said, to find on returning from the United States the political situation in Ireland was more hopeful than he had known it for 25 years. While all rumors of Irish "deals" with the Government were unture, the political situation in Ireland has undergone an extraordinary and radical change, and he believed that no English Minister since the union had had such a chance as the Irish Secretary, George Wyndham, now had. The time had arrived, as it did in every struggle, when the combatants were grown tired of the contest and were taking counsel as to whether it could not be brought to a satisfactory end.

For the first time in Irish history the majority of landlords were speaking words of good sense, conciliation and reason. The tenants were united, and a moderate and quite limited use of the imperial credit will enable a settlement of the land question to be brought about. At the same time, concluded Mr. Redmond, this would not affect the aspirations of the Irish people for Home Rule, and he warned the Government that if last session's land bill were reintroduced the Irish members would "fight it line by line."

CECILIAN GOES ASHORE.

Had to Return to Quebec Because She Is Badly Damaged.

Quebec, Nov. 25.—The steamer Cecilian of the Allan Line, which arrived in Quebec from Montreal at 6 o'clock Sunday night, and left yesterday morning for Liverpool, went ashore some miles below Quebec, opposite the church of the parish of St. Valier, a dangerous spot. She remained in this position for two hours, and at high tide floated off, but made water very rapidly. Her bow was full of water, and her stern partly out of water. She was obliged to come back to Quebec, and entered the Louise basin for inspection. It is said she is badly damaged.

For a Certainty I am Cured.

Mr. James Treneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

The Kaiser Will Attend.

Berlin, Nov. 25.—The funeral of Herr Krupp will take place from the little old house where his father lived poorly while striving to cast the first steel gun. Emperor William will attend it.

Wireless Stations in Jamaica.

Kingston, Jamaica, Nov. 25.—A bill has been prepared for introduction in the local Legislature next year, providing for the erection of wireless stations here.

THE SUGAR BOUNTIES

Abolished in Common Justice to the West Indies.

BRUSSELS CONVENTION PASSED

British House of Commons Votes Down Sir William Harcourt's Amendment by 213 to 126—Party Lines Not Observed—Mr. Chamberlain Received With Marked Cordiality—His Speech.

London, Nov. 25.—After a lengthy debate the House of Commons yesterday passed a resolution approving the action of the British Government in signing the Brussels Convention by 213 votes to 126. Colonial Secretary Chamberlain, who sails on his mission to South Africa, Nov. 25, made the speech of the evening. Party lines were not observed during the debate, several Unionist members supporting Sir William Harcourt's amendment to censure the Government for its action.

Mr. Chamberlain, who on rising to make his last speech prior to his South African trip, was loudly cheered, declared that Great Britain must carry out its fiscal system in its own way without the slightest reference to the opinion of foreign countries. The abrogation of the Government's attitude at the sugar conference, he said, would be a breach of international faith. Abolition of the sugar bounties was merely a matter of common justice to the West Indies, while, at the same time, such action restored the relations between capital and labor and production and exchange to their natural phase. He maintained that even if the primary sacrifice that those in Great Britain might make in paying a trifle more for their sugar were twice as great they were still bound to abolish the bounties and to relieve the West Indies on the grounds of national honor and justice to all parts of the Empire.

CAPTURE FLOUR MARKETS.

Canada Plans to Enter Into Competition With the U.S.

Halifax, N. S., Nov. 25.—A movement is on foot by the Canadian Government to set up a serious competition with the United States for the flour markets of the United Kingdom and Continental Europe, and the plan is being pushed as rapidly as possible. Some of the foremost statesmen of Great Britain have pledged themselves to assist the plan. The plan is to subsidize American millers to establish milling plants within the borders of the Dominion. A leading official connected with the plan says: "Within the next decade Canada will be the source of British supply, and this immense business will enrich Canada, as it has hitherto enriched the United States."

A PLEASANT SURPRISE

In Store for Those Who Doubt.

When you read that a sufferer of many years standing has been completely restored to health by using Smith's Cure-all, you are inclined to doubt the statement, and in fact have no belief in it whatever. The reason of this is that so much is claimed for the Cure-all it is impossible for anyone to believe it; if the advertisor confined his claim to the curing of one disease, as do the proprietors of the Pyramid Pile Cure, readers would have more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merits may be relied upon implicitly, also that the cures brought about by its use are little short of marvellous. The genuineness of the testimonial here given is vouched for and is but one of thousands received.

"I had a friend who had used one box of 50 cent Pyramid Pile Cure that entirely cured her. I saw the good effect on her, and thought that I would try it, as I had got so that I could not sit down without extreme pain, and getting up was just as bad. The first box nearly cured me; I got the second box and have had no trouble since. Pyramid Pile Cure does all that it is claimed to do, and I never miss an opportunity to tell of its merits. I speak from observation, and personal benefit. Two boxes cured me over a year ago, and I have had no return of the trouble since." Mrs. M. Mooney, 6000 Sangamon street, Chicago, Ill.

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address upon receipt of price by the Pyramid Drug Company, Marshall, Michigan. Write this firm for this book describing the cause and cure of piles.

Ordered Chinese Flag Down.

Pekin, Nov. 24.—Sir Ernest Satow the British Minister, visited the Tongshan coal mines on Friday and found the Chinese flag flying there. He ordered the commander of the British garrison to remove ie and hoist the British flag. This was done without opposition.

Said Goodby to King Edward.

London, Nov. 25.—The King of Portugal bade farewell to King Edward at Windsor yesterday, and proceeded to Blenheim, where he lunched with the Duke and Duchess of Marlborough. The Portuguese monarch will remain in England for some time on a private visit.

Death-Dealing Hurricane.

Buenos Ayres, Argentina, Nov. 25.—A hurricane has swept over San Urbano, Province of Santa Fe. A hundred houses were destroyed, five persons were killed, a number were injured, and railroad and telegraphic communication was interrupted.

Died From His Injuries.

Toronto, Nov. 25.—Edgar Koropp, who shot himself on Sunday night, while showing his friends how people suicided with revolvers, died in Grace Hospital at 6 o'clock yesterday morning. An inquest is in progress.

MARKET REPORTS.

Grain Prices Are Easier—Increase in the Visible Supply Large For the Week—The Latest Quotations.

Monday Evening, Nov. 24.

Liverpool wheat futures closed unchanged from Saturday to-day, and corn futures ¼d lower.

At Chicago to-day, December wheat closed ⅝c lower than Saturday, December corn 1⅝c lower, and December oats ⅝c higher.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 3,689,000 bushels; corn increased 182,000 bushels; oats decreased 514,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week of last year:

	Nov. 24,'02.	Nov. 17,'02.	Nov. 23,'01.
Wheat, bu.	41,731,000	38,002,000	48,912,000
Corn, bu.	2,287,000	2,105,000	11,464,000
Oats, bu.	7,057,000	7,571,000	6,402,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 73,231,000 bushels, against 70,072,000 bushels a week ago, and 84,024,000 bushels a year ago.

MONTREAL LIVE STOCK.

Montreal, Nov. 24.—There were about 700 head of butchers' cattle, 30 calves and 1200 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were present in large numbers, and there was a good demand at about former rates for anything in fair condition, but the common cattle are very dull of sale, and prices rule low. Steers that are nearly prime sell at 4¼c to 4½c; medium cattle at from 3¾c to 4c, and the common stock at from 2c to 3c per lb. Small bulls and old cows are bought for canning at from 1½c to 2c per lb. Calves sold at from 3c to 5c per lb. Sheep sold at from 2¾c to 3¼c, and the lambs at from 3¾c to a little over 4c per lb. Fat hogs sold at from 5¼c to a little over 6c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Nov. 24.—Cattle—Receipts, 3000 head; all butcher and light killing grades strong and 10c to 15c higher; others dull and lower; prime steers, $6 to $6.50; shipping do., $5.25 to $5.75; butchers' do., $4 to $5; heifers, $3 25 to $4.75; cows, $2.25 to $4.25; canners, $1.50 to $2; bulls, $2.50 to $4; feeders, $3.75 to $4.50; stockers, $3.25 to $4; stock heifers, $2.25 to $3; fresh cows and springers steady; good to choice, $45 to $55; medium to good, $35 to $40; common, $25 to $30.

Veals—Receipts, 400 head; steady; tops, $8.25 to $8.75; common to good, $5.50 to $8.

Hogs—Receipts, 29,000 head; active; light grades steady; others 5c to 10c higher; heavy, $6.25 to $6.50; mixed, $6.15 to $6.30; Yorkers and pigs, $6; roughs, $5.50 to $5.60; stags, $4.50 to $5.

ASKS FOR RAPID DELIVERY.

Son of Toronto Counterfeiter Committed For Trial at Hull.

Ottawa, Nov. 25.—William Stuart, jr., charged with issuing counterfeit Dominion one-dollar bills, was brought before Recorder Champagne, in Hull, yesterday morning. At a previous session Stuart admitted his guilt, and was remanded. Yesterday the Recorder said the case was out of his jurisdiction. Stuart asked for a speedy hearing, and the Recorder, after hearing the testimony of Dominion Policeman Parkinson, committed him for trial. Stuart will not wait for the Court of Queen's Bench, but will elect for summary trial before Judge Talbot. Stuart is a son of the aged counterfeiter convicted at Toronto a few days ago.

The Government Loses.

Ottawa, Nov. 25.—Justice Burbridge in Exchequer Court gave judgment to-day in King v. Edward Centure of Levis, Que., granting the latter $35,890 for land, buildings, wharf space, etc., expropriated for the Levis I.C.R. station. The Government had offered $31,289, which was refused.

Aimed at the Jews.

Bucharest, Roumania, Nov. 25.—The disciplinary Council of the Roumanian bar has published a decision that only Roumanian citizens may hereafter practice law or act as clerks of lawyers. The decision is aimed directly at the Jews, who form the majority of the lawyers and law clerks.

Freights Crash Together.

Toronto, Nov. 25.—A picturesque wreck occurred on the C.P.R. at 5 o'clock yesterday afternoon, by which two long freight trains were ditched and burned. The accident occurred between Claremont and Myrtle, 28 miles west. It was a rear-end collision and Engineer Charlton and Fireman John McGill of the train were hurt by jumping when they observed their danger.

Massachusets Cattle Diseased.

Boston, Nov. 25.—Although the entire force of inspectors of Massachusetts Cattle Commission has been working hard for the past two weeks, hoping to stamp out the foot and mouth disease, it was admitted yesterday that the disease had become almost epidemic in this State.

Decline Rhodes Bequest.

Vienna, Nov. 25.—A special despatch from Golling, Prussia, says the students of the famous Hanoverian University have decided not to accept any of the scholarships founded by the late Cecil Rhodes.

FIVE BOYS WERE FINED.

Guilty of Committing Common Assault.

Case Concluded Yesterday Afternoon—The Magistrate's Remarks.

At the police court yesterday afternoon ,five of the employees of the B. F. Ackerman Company were fined $1 and costs, amounting to $5.11 each, for assaulting one of their fellow employees, Jos. Stewart. The charge against one of the boys, Cecil Succee, was withdrawn, whilst the charges against six others were not proven.

The circumstances of the little affair are well known to the readers of the Examiner. The charge that was laid against the prisoners was: "At the Town of Peterborough, in the County of Peterborough, on Thursday, 20th day of November, 1902, in pursuance of an unlawful combination or conspiracy respecting the complainant then employed by one B. F. Ackerman, Son & Co., in his business of manufacturer of harness did assault the said complainant, in pursuance of such conspiracy with a view to hinder him from working at the said business of manufacture of harness by said B. F. Ackermen, Son & Co., contrary to the criminal code."

The case lasted nearly all day yesterday. At the conclusion of the case for the Crown, the Magistrate said that there was no evidence to substantiate the charge laid against them, and intimated that the sole question to be decided was whether an assault had been committed or not. After the evidence for the defence had been concluded, the Magistrate acquitted W. E. Miller, Walter Tighe, Tom Brownlee, Aaron McCall, Douglass Loomis and P. Kempt. The following were found guilty and fined $1 and costs, amounting to $5.11 each: Chas. Gerside, M. Mitchell, Walter Miller, Samuel Brewer and H. Daly.

The boys were all apprentices, their ages ranging from 15 to 16 years. Mr. R. M. Dennistoun represented Daly, and Mr. F. D. Kerr the remainder of the lads.

The Magistrate in delivering judgment said that the boys had evidently joined in an assault upon Stewart, resenting what they considered abusive conduct on the part of that employee towards the accused. The Magistrate considered that Stewart had shown no judgment in dealing with the boys. It was clearly shown that Tighe and W. E. Miller were not present at the time of the assault.

It was also clearly brought out in the evidence, and was so declared by the Magistrate, that there was nothing to indicate in any way that the trades union, or anyone in connection in any way with the union, inspired the action of the young apprentices, who acted on their own initiative.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 32

SOCIAL AND PERSONAL.

Mr. R. English, Keene, is in town to-day.

Mr. Willis Garrow has returned from the States.

Mr. Geo. Holme, Port Hope, is a guest of the Oriental Hotel to-day.

Miss Aggie Campbell, with McQuay & Co., confectioners, paid a visit to the home of her father, Mr. J. H. Campbell, Havelock, on Sunday.

Mr. C. E. Dodds, the newly appointed station agent at Peterborough for the C.P.R., has entered upon his duties and has become a citizen of Peterborough, taking up residence at the corner of George and London streets.

After many years of active business life, Mr. Jas. Scott of Gooderham, has stepped down and out, to spend the balance of his days in private life. The Union House is now under the management of another well known and popular man, Mr. W. Robinson.

Miss Clowes of Fredericton, N.B., who is spending the winter in Peterborough, at the residence of Mr. Jos. H. Symonds, No. 291 Reid street, was pleasantly surprised last evening by the arrival of a friend from New Brunswick, Mr. R. D. Wilmot, M.P. Other friends being present the evening was pleasantly passed. Mr. Wilmot took the midnight train for Ottawa on his way home.

Capt. F. Vorschoyle Young, of the Canadian Mounted Rifles, and recently of the Army Medical Corp, South Africa, is in town the guest of his brother, Surgeon-Major Young, of the 3rd Dragoons. He is accompanied by Mrs. Young. His Honour Judge McDougal, of Toronto, who has been in town the guest of his daughter, Mrs. (Dr.) Young, has returned to Toronto much benefitted in health.

The many friends in Peterborough of Mr. Archie Stethem will be pleased to learn of his success out west. The following paragraph from the Daily Times-Journal of Fort William will be of interest to Examiner readers: "Mr. Archie Stethem left to-day for Fort Frances, to take the management of a branch business of Wells & Emmerson. Though the removal is a gain for Mr. Stethem, it is decidedly a loss to Port Arthur, because Mr. Stethem was not only a most courteous and obliging fellow-townsman, but one who in every way that he could was using his influence for good. The Times-Journal prophesies a fine and successful career for Mr. Stethem, and chiefly because he deserves the same. Last evening his fellow-employees at the store of Wells & Emmerson presented him with a reminder of their good wishes in a suitable present.

TO-NIGHT'S MEETING

Of the Peterborough Board of Trade—Beet Sugar Question.

The members of the Peterborough Board of Trade are reminded of the meeting of that body which will be held in the town council chamber this evening at eight o'clock. The chief business to come before the meeting will be the discussion of the sugar beet question, and the advisability of sending a representative to Western Ontario on the deputation that will go from Peterborough County on Thursday next.

The best and purest cider for your mince meat—Allen's Norwich Cider—At Henry & Co's.

BEET SUGAR DEPUTATION

Will Visit Western Ontario This Week.

Special Meeting of Town Council Held Last Night—Mr. Bradburn Present.

A special meeting for the Peterborough town council was held last night for the purpose of discussing the advisability of sending a delegation to western Ontario in order to obtain information regarding the beet sugar industry.

The chair was occupied by His Worship T. H. G. Denne, and there were present Ald. H. Best, J. Corkery, J. Batten, Robert Clinkscale, J. J. Turner, R. McGregor, G. M. Roger and B. Shortly.

His Worship Mayor Denne explained the object of the meeting. He expressed his hope that before long a beet sugar factory would be established in Peterborough. He felt that it was an industry with a great future, and he was willing to assist in anyway reasonable to induce capitalists to undertake the establishment of a concern of the kind here.

Upon motion of Ald. Shortly, seconded by Ald. Roger, Mr. Bradburn was permitted to address the council.

Mr. Bradburn did not go into the matter of how sugar could be produced from beets, but frankly asked the council to show their interest in the scheme of establishing a factory here by sending one or more representatives along with the deputation from the County Council, the Board of Trade, and the Farmers' Institute, to Western Ontario, to obtain information in regard to the sugar beet industry. He was present on behalf of the Peterborough Beet Sugar Company, which proposed to erect a factory in Peterborough. The establishment of such an industry would be of great benefit to the community, he contended, and it has been estimated that it would require sixteen factories ,such as that in Berlin, to supply the sugar demand in Ontario. He intimated also that after the council had had an opportunity of investigating the advantages to be derived from the establishment here of the concern, such as he proposed, his company would apply for assistance from the town, by way of asking them to subscribe for a portion of the stock.

Mayor Denne thought that if a deputation went it would be well to bring representatives of the press of the town along. This was agreed to by the Aldermen.

Ald. McGregor expressed his sympathy with the scheme. He was not however in favour of giving a bonus. If the company required assistance it should be by the town subscribing stock.

Some little discussion took place, in which all the aldermen took part, and finally upon motion of Ald. Clinkscale, seconded by Mr. Batten, it was decided that as many of the council as possible should go on the deputation, as well as Mr. Wm. Colling, Secretary of the West Peterborough Farmers' Institute, and the representatives of the press.

The meeting then adjourned.

AT THE POLICE COURT.

A Peg-leg Gets a Warning to get out of Town.

This morning a vagrant came befor His Worship Magistrate Dumble. The man had a wooden leg, but this apparently was no obstacle to his wandering propensities, for he gave as his home an obscure town Nova Scotia. He was dismissed with the injunction to "Go back to the woods," or he would become an inmate of the Central Prison for the next six months.

STEEL ARRIVING

For Peterborough's New Rink—Satisfactory Progress.

The contractor for the new skating rink has received word that the steel work for the new structure will be here by Friday. This means that the work on the rink will go on uninterrupted. The brick work is now about completed, and there is reason to believe that another month will see the building in a fair state of completion.

TO-NIGHT'S CONCERT.

The admission at the door for the Maclachlan-Ladell concert this evening will be 35c. The doors will open at 7.15, and tickets holders are urged to be early.

CENTRAL CHARITY BOARD.

Regular Monthly Meeting Held Last Night—Statements Presented.

The Central Charity Board of the Town of Peterborough met last evening with the following members present,—Mr. Innes, chairman, Rev. Father McColl, Messrs. Fowler, Yelland, Stock, Miller, Batten, Sawers and Kemp. After the minutes of the previous meeting had been read and confirmed, the following statement of orders given, was read:

	Since last meeting	During 1902.
Groceries	$340 30	$372 35
Wood	38 10	321 05
Tickets		79 30
Sundries	1 80	35 43
Aid to Nov. 25	12 00	80 00
	$90 10	$1123 53

The following accounts were presented:

Curran & Goheen	$3 00
H. P. Kennedy	1 50
W. H. Hamilton	2 00
J. T. Braund	6 00
Dickson Co	36 33
E. Brown & Co	6 00
R. C. Braund	2 50
D. Bellgham	7 00
Mrs. Wainwright	4 00
A. Allison	3 00
House of Providence	51 00

The accounts, with the exception of that of the Dickson Co., which was held over, were ordered to be paid.

Two applications for relief for the ensuing winter, were received and were left with the Relief Officer.

This concluded the business of the evening and the Board adjourned until December 29th, next.

LAST NIGHT'S ENTERTAINMENT

Pleasant Evening in T. A. S. Rooms—The Debate.

Last evening the Literary Section of the T.A.S. held one of their series of pleasing entertainments in their rooms on George street. These entertainments are a decided success and that of last night was exceptionally instructive and entertaining. The programme was as follows:

Instrumental Duet ... ...Misses Doris
Vocal Solo ... ...Mr. Frank Turner
Recitation ... .Carrie White
Debate, "Resolved that trial by jury be abolished"...Members of Society
Vocal Solo ... .James Browne
Recitation ... .Carrie White

In the debate, which was the feature of the evening, Messrs. Chas. Murty and F. McAuliff took the affirmative, and Messrs. J. and T. Bagley the negative. Many worthy arguments were advanced, but the judge, Rev. Dr. O'Brien, after ably summing up the debate, decided in favour of the negative side.

The programme was thoroughly enjoyed by all and Mr. Turner and Miss White were heartily encored. In the musical part of the programme Miss McCabe and Miss Doris performed the duties of accompanists. The next literary entertainment will, in all probability, take place some three weeks from last night and before the close of the evening it was announced that the usual social evening would be held on Thursday next. The entertainment closed with the singing of the National Anthem.

WHAT A LONDON PAPER SAYS

"The Better Team Won on Saturday," Says the Free Press.

The Officials Were Impartial and the London Team has no Complaint Whatever to Make.

That the London Rugby team was satisfied with the treatment they received while in Peterborough on Saturday is quite evident from the London Free Press' report of the game. Peterborough rugbyists are pleased to know that the series has terminated in such a friendly manner between the two teams, a result to which the Peterborough team contributed all that was in their power. The Free Press says:—

The best team won on Saturday at Peterborough, and as a result the intermediate O.R.F.U. championship for 1902 is lost to London and won by Peterborough. This time Peterborough won the game fairly and squarely on the field, as contrasted with the committee room-verdict of last year. The score was 12 to 0. The game was hard fought from start to finish, the officials square and the London team are satisfied that the easterners are entitled to the championship.

London held the Peterborough attack firmly, the local line being if anything slightly the superior. When the ball was in scrimmage Peterborough made no gains. They could not get past that bulky trio that was at the centre of London's line. The local wings, too, did their whole duty and have no reason to blame themselves for the result. Peterborough won the game and London lost it on their respective back divisions. Peterborough's backs performed splendidly, nearly all the gains being made on their excellent work. Long punts and end runs were the means Peterborough found most effective as ground gainers, and the London's backs found it impossible to effectually combat. The local backs were distinctly weaker than their opponents.

London played a rather crippled team, lining up thus:—Back, Sterling; quarter, McKay; halves, Fornori, McNee, Little; scrimmage, Lucas, "Sail" Taylor, Bice; right wing, Keon, A. Taylor, Fields; left wing, R. Black, Merodith, Stevens. Of these Keen and Stevens had never worn a uniform before in a championship game, and of course were not of as much assistance as would otherwise have been the case. Under the circumstances, both played excellent games and are deserving of credit.

Peterborough won the toss and kicked with a very strong wind, materially assisting them. The game was bitterly fought, and the casualties were in consequence fairly numerous on both sides. Of the Londons, Sippi, Lucas and Stevens were injured in the first half, and their effectiveness somewhat impaired thereby. In the first half, Peterborough scored 7 points on a touch down, a rouge and two kicks out of bounds. A rouge and a touch down netted five more points in the second half.

Of the Peterborough players it can be said they contested every inch of the ground, but there was nothing to complain of in their conduct. The spectators, however, were most aggressive, and repeatedly encroached upon the playing grounds.

The London players have nothing but praise for the officials, Referee Mitchell and Umpire George Ballard, both of Toronto. These gentlemen were the essence of impartiality, not a decision being questioned throughout the game.

A beautiful game to watch, it was a hard one for London to lose, but the Peterborough team won on their merits, and London hopes they will win the C.R.U. championship.

TO-NIGHT'S CONCERT.

Owing to the extensive reserved seat plan for the Maclachlan-Ladell concert this evening, the committee in charge would like ticket-holders to come as early as possible, as it will greatly facilitate the proper seating of the audience. The doors are open at 7.15, and programme commences at 8.15 sharp.

GEORGE STREET CHURCH.

Some Meetings That Have Been Arranged for—Guilds met.

Both the Epworth League and the Girls' Guild met last evening, the latter meeting being held last night instead of to-night, on account of the Maclachlan concert.

Prayer meeting will be held as usual in the Sunday school room on Wednesday evening at 8 o'clock.

Next Friday afternoon there will be a meeting of the lady temperance workers in the Y.M.C.A. Hall. All the ladies of the town who are anxious for the welfare of the young men and women, and who are therefore anxious for the saloons to be expelled, are invited to attend this meeting.

On Friday evening the first regular meeting of the Young men's Guild will be held at eight o'clock. The boys will put on a mock town council meeting, and will try to be true to aldermanic customs and council rules and order. All men who enjoy a good evening's fun should take advantage of this opportunity. There will be a short musical programme.

REAR END COLLISION NEAR MYRTLE.

Two Freight Cars Smashed Together.

FIRE CONSUMED WRECKAGE

Great Havoc with Cars—Relief Train Conveyed 300 Passengers to Toronto Several Hours Late.

(Toronto World.)

A picturesque wreck occurred on the C.P.R. at 5 o'clock yesterday afternoon, by which two long freight trains were ditched and burned. The accident occurred between Claremont and Myrtle. It was a rear-end collision and Engineer Charlton and Fireman John McGill of the train were hurt by jumping when they observed their danger.

The through express from Montreal, due at Toronto at 7 o'clock, arrived on the scene a few minutes after the crash. The right of way was torn up in every direction. From Myrtle information was sent to Toronto, and a train was hurriedly made up here and sent to the wreck. There were 300 passengers aboard the delayed train. They walked around the pile of flaming wreckage and were brought here by the relief train. The extra reached Toronto at 10 o'clock in the evening. Most of the passengers had missed their connections and the C.P.R. Company paid the expenses incident to the delay of all the travellers.

There were many Toronto people on the express, among whom was Thomas W. Dudgeon, publisher, of 50 Wellington-place. "It was the most picturesque wreck I ever saw," remarked Mr. Dudgeon. "As our train approached the scene a crowd of about 300 people from the country around gathered to witness the burning of the debris. Box cars were scattered in every direction, and huge columns of flame and smoke rolled skyward. The rear locomotive was standing right side up in the ditch and poised on top was a great Ohio and Missouri River Railroad Company box car standing on end. Every conceivable kind of freight was piled in confusion around the wreckage.

"There were boxes and barrels of goods in sight and several of the cars were smashed into bits of kindling wood. The two trains came together on the side of a long hill, and evidently the impact was terrific.

"As I was informed by some of the trainmen, the freights were in two sections, and the first part was stalled on the hill. Before they could get a flagman back to warn the second section the rear train crashed into the way car of the first. The train men sprang off when they saw the collision was inevitable and thus escaped death. I never saw such a complete wreck. Everything about the two trains was ripped to pieces.

"It was about 6 o'clock when our train reached the wreck, and we should have reached Toronto at 7.30. A relief train came down from Toronto, and we walked around the wreck and reached her at 10 o'clock."

* * * *

The local from Toronto, due in Peterborough at 7.33, did not get through until early this morning. A special made up at Smith Falls brought the local's passengers from the scene of wreck, arriving in Peterborough at about 11 o'clock. The midnight was delayed also and the passengers on that train were transferred to another special which had been sent out from Smith Falls, and they arrived here at 10 o'clock this morning. All the passengers speak in terms of great praise of the treatment they received from the officials of the C.P.R. The road was cleared at about noon to-day.

NEWS NUGGETS.

—Mr. Sam English is getting a "gait" on.

—The Knights of the Macabees intend holding a ball in the Labour Hall on Christmas Eve.

—As will be noticed by reference to our Lakefield correspondence, Mr. L. F. Stone, known as the "Red Man from Lakefield," is dead.

—The Childrens' Aid Society beg to acknowledge the receipt of $21.42, being half of the collection at St. Paul's church on Thanksgiving Day.

—Mr. Jimmy Tully thinks he and his running mate, Billy Merrell, are getting the grip, because they're they're "making things hum" at Gough Bros.

—Prof. O'Brien, phrenologist and palmist, and Madam Bonvini-O'Brien, who visited Peterborough about a year ago, are at present in Ottawa. The Prof. lectures in Goldsmith's Hall this evening, assisted by Madam O'Brien.

—Mrs. Thos. Symons, of South Ops, met with a rather painful accident on Saturday. She was going from the barn to the house when she slipped and fell, alighting on her right arm and breaking the wrist. Medical aid was summoned and the fracture reduced.

—Mr. W. A. Ostom, late of the Trenton Electric Light Company, has secured a position with Messrs. Alexander & Miller, Peterborough's old and reliable contracting firm. Messrs. Alexander & Miller have been badly handicapped this fall for want of wiremen. The firm will be further reinforced in a few days by Mr. Pengly, thus giving them four first-class competent wiremen.

—At an Ontario Cabinet council meeting last Friday afternoon it was decided to proclaim the 25th of May, 1903, the official day for the celebration in Ontario of the birthday of his Majesty, King Edward VII. The 24th of May will fall on a Sunday, and November 9th is not a suitable time of the year for a holiday celebration. A proclamation of this nature will probably be issued each year instead of fixing permanently upon a date.

WILL THE TITLE BE TOWN OR CITY?

To the Editor of the Examiner,—

Dear Sir,—I was pleased to see in your "Generally Speaking" column of Saturday,—which is by the way a most interesting column, too,—your inquiry in regard to making the "Town of Peterborough"—the "City of Peterborough."

Considering the fact that the Town of Peterborough itself is more than qualified for that title, and also that Peterborough and the Village of Ashburnham together have now a population of some 15,000—Ashburnham being from a geographical and business standpoint part and parcel of Peterborough. I think it is high time that our community should be entitled a city. I think its being entitled a town is a standing menace to future business possibilities of the community.

As you say—in Shakespere, the question is asked "What's in a name?" I may add that bankers are asking that question every day, and every business man well knows it behooves him to have as solid a name as possible.

In my endeavours to create a market for the Burleigh Falls and Buckhorn Falls water power, it keeps me busy in my correspondence and conversation with manufacturers—in my endeavours to induce them to locate in Peterborough—to evade the use of the words "Town of Peterborough." In fact, I use the word "community" when the word "town" is necessitated in my remarks, rather than have it supposed that the enterprising people of Peterborough have too small a community to be a city, or are too narrow-minded in their business methods to make the little additional annual expenditure which a city's expense necessitates.

How do we know that the Town of Peterborough has not been "turned down" many a time by manufacturers seeking location, without their even bothering to examine our importance, simply because they do not find it in the category of cities, and how much harder it is to impress a manufacturer or investor with this community's importance, when on the face of it we make ourselves appear "small," in more ways than the one of population.

Let some substantial candidate for municipal honours come forward and state he will advocate making the overgrown "Town of Peterborough" into the "City of Peterborough," and although I am not a betting man, I am sport enough to lay odds that we will place him at the head of the polls.

J. ALEX. CULVERWELL.
November 24th, 1902.

Our correspondent is not quite correct is assuming that the Examiner in the paragraph referred to, "advocated" the step of Peterborough becoming a city. The question was thrown out to give an opening to any citizen who might so desire to give reasons for or against the proposition which is certainly one of sufficient importance to elicit or at least, warrant, discussion. Their seems to be a feeling with many that Peterborough should prefer to continue to rank as the first town of the Dominion, rather than occupy an obscure place among the cities. There is no doubt something to be said in relation to the outside sentiment towards Peterborough in its respective roles of "town" and "city." Our correspondent is the first to accept the invitation to deal with the subject and anyone who desires to ventilate his opinions in the way of either endorsation or opposition will receive the courtesies of these columns.

LONDON'S MILK SUPPLY.

About 160,000 Gallons Delivered in the City Every Day by an Army of Over 2,000 Milkmen.

None save those directly interested in the trade have the remotest idea of the vast quantity of milk consumed in London in the course of a year, said the manager of a well-known firm recently. Within the last ten years the annual consumption of milk in London alone has increased by 18,000,000 gallons, and now stands at approximately 160,000 gallons a day.

Until 1865 London was responsible for its own milk supply, but the great cattle plague of that year made it necessary for metropolitan dealers to send to the outlying counties for their milk, thus opening up a market for dairy farmers within 150 miles of London, which has been increasing by leaps and bounds. At present more than 80,000 hands find permanent employment in providing London with milk, while over 2,000 milkmen go their rounds morning and evening delivering in pints, quarts or gallons, as the case may be.

The milk for London's breakfast is milked the evening before and churned ready for the night mail. It begins to arrive at 2 a.m., and a steady supply is kept up until 10 or 11, although the majority of dealers have been supplied by 4 a.m. At midday the morning milkings come in, and a gradual stream of churns is poured into London up till 8 o'clock, all of which have to be duly emptied, cleansed, and sent back by the late trains. To prove that this is no light task it may be said that a large firm will have 5,000 churns in use divided into three portions. Each churn therefore reaches them once in three days, costs 25 shillings, and has an average life of from two to four years, according to the length of the journey.

The metropolis is not entirely dependent upon the country for its milk, however. There are about 15,000 cows in London which produce between them 7,500 gallons of milk a day, but the capacities of the dairy farmer in or near the city are somewhat curtailed. Furthermore, the authorities are very strict as to cleanliness, and will only grant licenses for cowsheds, which are perfectly drained, roomy and well ventilated.

It is held that the milk supply of London is the best in the world as regard cleanliness. It has nearly 300 public inspectors to analyze it, while all the large firms employ private inspectors to see that the supplies are delivered by their milkmen untampered with. Every churn after being used is cleaned by steam being driven into it with the force of 60 pounds to the square inch, which cleanses the receptacle more thoroughly than anything else could do.

Without becoming too statistical, it is interesting to note that a canal 6 feet 6 inches wide, 4 feet deep and half a mile long would be necessary to hold all the milk that comes into London every day, and, as a gallon of the fluid weighs 10 pounds, its total weight would be 715 tons. Or if every milkman brought a three gallon pail of milk into the metropolis daily no fewer than 54,000 milkmen would be required, and standing in line they would form a procession thirty-four miles long.

THE STORY OF A PIONEER.

H. S. Barnes, of Rat Portage, Tells of the Trials of the Early Settlers.

Suffered Terribly From Kidney Complaint but was Speedily Relieved and Cured by Dodd's Kidney Pills.

Rat Portage, Ont., Nov. 23.—(Special.)—Everybody in Rat Portage knows H. S. Barnes, father of a former mayor and one of the oldest inhabitants of the metropolis of New Ontario. Though seventy-nine years of age, Mr. Barnes looks younger than many men of many fewer years, and is possessed of wonderful vitality and activity.

A pioneer of this district, Mr. Barnes tells many tales of early life in the wilds of New Ontario, but none more interesting than the following:

"I was terribly troubled with Kidney Complaint. I suffered severely with pains across my back, and with a scalding, burning sensation when urinating that was very painful.

"Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house that I had procured for my wife, and commenced taking them with good effect.

"It was not long till my acquaintances started to greet me on the street with 'Hello, Mr. Barnes, how young you are looking.' They were not astray. I felt smart too, and feel younger and in better health than I have been for years. My Kidney Complaint was completely cured by Dodd's Kidney Pills."

Balfour a Record-Breaker.

Prime Minister Balfour must already be placed among the record-breakers in British politics. In a recent speech he mentioned the fact that came as a surprise to nine-tenths of the public. He said he has now led the House of Commons for a longer continuous period than any other Parliamentary leader of either party since the day of the Reform Bill, of 1832.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

Dr. Wood's

Norway Pine Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Croup, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the throat, is pleasant to take and soothing and healing to the lungs. Mr. E. Bishop Brand, the well-known Galt gardener, writes:—I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found speedy relief. I would not be without it if it cost $1.00 a bottle, and I can recommend it to everyone bothered with a cough or cold.

Price 25 Cents.

THE WALKER OF THE SNOW.

By Charles Dawson Shanley.

"Speed on, speed on, good Master!
The camp lies far away:
We must cross the haunted valley
Before the close of day.

"How the moon-blight came upon me
I will tell you as I go—
The blight of the Shadow-hunter,
Who walks the midnight snow.

'To the cold December heaven
Came the pale moon and the stars,
As the yellow sun was sinking
Behind the purple bars.

"The snow was deeply drifted
Upon the ridges drear,
That lay for miles around me,
And the camps for which we steer.

" 'Twas silent on the hillside,
And by the solemn wood,
No sound of life or motion
To break the solitude.

"Save the wailing of the moosebird,
With a plaintive note and low,
And the skating of the red leaf
Upon the frozen snow.

"And," said I, "though dark is falling,
And far the camp must be,
Yet my heart it would be lightsome
If I had but company.

"And then I sang and shouted,
Keeping measure, as I sped,
To the harp-twang of the snowshoe
As it sprang beneath my heel.

"Not far into the valley
Had I dipped upon my way,
When a dusky figure joined me,
In a capuchin of grey,

"Bending upon the snowshoes,
With a long and limber stride;
And I hailed the dusky stranger
As we traveled side by side.

"But no token of communion
Gave he by word or look,
Nor the fear-chill fell upon me
At the crossing of the brook.

"For I saw by the sickly moonlight
As I followed, bending low,
That the walking of the stranger
Left no footmarks on the snow,

"Then the fear-chill gathered o'er me,
Like a shroud around me cast,
As I sank upon the snowdrift,
Where the Shadow-hunter passed.

"And the other trappers found me
Before the break of day,
With my dark hair blanched and whitened
As the snow in which I lay.

"But they spoke not as they raised me;
For they knew that in the night
I had seen the Shadow-hunter,
And had withered in his blight.

"Sancta Maria, speed us!
The sun is falling low—
Before us lies the valley
Of the Walker of the Snow!"

Sketch of Mr. Shanley.

Mr. Shanley can only be reckoned a "Canadian" poet through residence in Canada, and the fact that he simply absorbed the spirit of the land of his adoption. He was born in Dublin in 1811 and came to Canada at the age of 25. He edited "Punch in Canada." He was known as a writer of occasional verse and an art critic. He died in Florida in 1875, but is buried near London, Ontario. He was an engineer by profession, the Hoosac Tunnel in Vermont being his greatest work. The above ballad is quoted in "A Treasury of Canadian Verse," compiled by the late Dr. Theodore Rand, and is, to my mind, one of the three or four truly remarkable contributions to our poetry. The theme is highly imaginative and the treatment bold and dramatic. The suggestion of the uncanny is subtle, but powerful enough to cause an artistic chill. Some of the lines are exquisite in illustrative quality; note the picture swiftly presented to the mental vision by the following:—

"And the skating of the red leaf
Upon the frozen snow."

The form of the ballad could hardly be improved in any way; there is not a superfluous word or explanation.—Pharos, in The Globe.

Remember Grace Darling.

Grace Darling, whose death took place on Oct. 20, 1842, is still remembered as the heroine of the Farne Islands, whose bravery helped to save nine lives in a terrible storm off the coast of Northumberland. The Farne Islands, which are little more than barren and desolate rocks were so dangerous to navigation that a lighthouse was stationed upon Longstone, one of them, and there William Darling, his wife and daughter Grace, lived in almost absolute seclusion. But a day came that caused their name, and especially the name of Grace Darling, to be honored in every part of the British Isles. In the morning of this particular day a boat in distress was seen about a mile away, but the storm beat so fiercely that the boatman at Bamborough, near at hand, refused to push off, and Darling, used to such scenes as he was, shrank from the danger. But Grace's heroism asserted itself, and soon she persuaded her father to let her take one oar while he took the other. They reached the wreck and returned safely to the lighthouse with nine survivors. The news of this heroic act soon spread, and in time tourists from many countries visited the Longstone lighthouse and paid their respects to Grace Darling. Not only were Grace and her father entertained by the Duke and Duchess of Northumberland and presented by them with a gold watch, but Grace was awarded the silver medal of the Shipwreck Institution, and received as well a purse of £700 from public subscription. Not even after all these attentions did she lose her somewhat reserved disposition and modest manner. She has been described as having a fair complexion and comely countenance, with a mild and benevolent character. Notwithstanding many flattering offers to leave the island, Grace Darling remained with her parents until her death, which took place four years later at the age of 27 years.

A Little Artist.

Sir John Millais, the great painter, began when quite a child to show signs of the great talents which were later on to produce "Bubbles," "Cherry Ripe," and other pictures which are well known even to children.

At six years of age Johnny Millais lived with his parents at Dinan, in Brittany. The great delight of the little fellow and his elder brother was to watch the French soldiers who were constantly marching through the town. The roll call generally took place in a square, and on being disbanded each soldier was presented with a loaf of black bread, which he stuck on the top of his bayonet and then shouldered his rifle.

On one occasion the two boys gazed with amazement and delight at a great drum major who was covered with gold trappings and wore a huge bearskin, while he flourished a gold headed cane.

Johnny Millais at once got out his sketchbook and proceeded to jot down the giant into his book. Meanwhile, unknown to the little artist, two officers had came up behind him and were greatly surprised to find such a baby sketching so well. They patted the boy on the back, gave him some money and asked where he lived, and the boy took them to his father and mother.

Then the officers took the sketch back to the barracks with them and showed it around as the work of a boy of six. But their brother officers would not believe this to be possible, so bets were taken, and one of them went to fetch little Millais and prove their words.

In fear and trembling he came, but soon showed he really had done the drawing by making then and there a still better sketch of the colonel smoking a cigar.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

The Scottish Mother.

Mr. Carnegie, after visiting the Ladies' College in Queen street, Edinburg, the oldest educational institution in connection with the Merchants' Company, made the following entry in the visitors' book:

Surprised, delighted, impressed. Ruskin say there is nothing in the world that equals the Scottish mother in the tried perfectness of her old age. This institution does the important part of starting the future mother well—a greater service it is impossible to render—Andrew Carnegie.

Mr. Carnegie himself, of course, had a Scottish mother, and no mother, as is well known, had ever a more devoted son.

Itching Piles Most Annoying.

Cause Uneasiness and Often Keen Suffering—There is one Positive Cure—

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily endorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, labourers, all classes of men and women, use and endorse Dr. Chase's Ointment as the only actual cure for piles.

W. E. Talbot, of Talbot Bros., tobacco merchants, 382 George street, Peterborough, Ont., states:—"It is from a desire to help other sufferers that I offer a statement of my experience with Dr. Chase's Ointment as a cure for itching piles. I was for a long time troubled with this unpleasant and torturing disease, and though I tried very many treatments, remained uncured until I came across Dr. Chase's Ointment. It was highly recommended to me, and I find that every word of praise that is given to it is true. I can truthfully say that I am completely cured, and knowing the misery that this ailment produces, I am anxious for others to know of the surprising virtues of Dr. Chase's Ointment."

Mr. John Harvey, Mayor of Arnprior, Ont., states:—"Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I had tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 12

Angier's Petroleum Emulsion aids digestion, improves nutrition, and increases weight and strength. It is pleasant to take, and agrees with the stomach.

Thousands of well-fed people cannot digest and assimilate their food. They therefore get insufficient nourishment, and are slowly starving. Angier's Petroleum Emulsion with Hypophosphites of Lime and Soda is for such. It helps digest and assimilate the food, cleanses the stomach and bowels, improves nutrition, tones up and invigorates the entire system and thus increases health, weight and strength. Physicians prescribe it for persons who are recovering from any illness that has left them in a weak, "run-down" condition. Get a small bottle, take according to directions and watch results.

Angier's Petroleum Emulsion is sold by druggists everywhere. Remember the name and insist on getting *Angier's*. Large size, $1.00. Small, 50c.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyzes and reviews Industrial and Railroad reports. Has complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Reports the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $1 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

MISS MOLLIE O'BRYAN.

One of the Few Successful Mining Women of the West.

Miss Mollie O'Bryan of Cripple Creek, Colo., president of the Teutonic Consolidated Gold Mining company, is one of the few successful mining women of the west.

Miss O'Bryan is one of the conservative and substantially wealthy representatives of the enormous gold mining industry of Cripple Creek. The secret of her phenomenal success in this unique calling for women is best expressed in her own words.

"To make a success of mining," she says, "one must be patient, persistent and never without hope. What most people term luck is usually the result of having closely followed up these three attributes, which must eventually yield golden results to the faithful."

Miss O'Bryan came to Cripple Creek with her father, who was also interested in mining, in the early eighties, when Cripple Creek was yet a mere tented village.

The trip was then made by stage-coach. Miss O'Bryan, who was then an expert stenographer, did not abandon her work on coming to Cripple Creek, but at once set up an office, and with the advent of the gold excitement came such a flood of work as to overwhelm a less industrious woman.

"The very air of Cripple Creek suggested mining," said Miss O'Bryan in describing her initiation into the camp. "The atmosphere breathed it, everybody talked mining and the air was contagious with it. When the excitement first started, I invested my meager savings in a small way.

"The excitement grew with the hours, and I soon saw, to my great astonishment, my poor little investment rolling up into thousands of dollars. I

MISS MOLLIE O'BRYAN.

shall never abandon mining. As soon as I dispose of one of my claims at a good price I immediately invest in other mining properties."

This young woman has an office in one of the prominent downtown business buildings, but spends most of her time "over the hills" looking after prospective and operative claims.—Cripple Creek Letter in St. Louis Republic.

Planning a Wardrobe.

One of the chief troubles of the average woman in planning her wardrobe is that she starts out with no definite color scheme in mind and buys whatever catches her eye on the "bargain counter," with the result that her wardrobe presents an inharmonious jumble of color, and she seldom has anything appropriate to wear.

The Parisian woman's system of dress is the ideal after which Americans might well pattern. The Frenchwoman chooses one or possibly two colors as the basis of her scheme. These must be of the kind which can be easily matched and which will combine with other colors and which are not so startling as to tire one after a week's wear. Red she avoids as though it were the plague. She may, however, add touches of this color after her wardrobe is selected, but avoids it in masses. Tan, green, black and white are the basic colors for her wardrobe, and with a black and white wardrobe touches of color may be added at will. Having definitely decided upon her color scheme, the Parisienne proceeds to plan a gown for every part of the day, and, with every gown in harmony and a gown for every occasion, she is always correct and artistic in her attire. She never has to worry about what to wear or where to wear it. If she happens to pick up the wrong pair of gloves in a hurry, it makes no difference, for every article in her wardrobe matches every other one. She can do with just two hats, one parasol and half the gloves, shoes and stockings that another woman needs. She always looks charming, refreshing, artistic, is always a symphony and consequently always happy.—New York Post.

The Care of the Hair.

Woman's chief charm is her hair, demanding the most exquisite attention. It is well to lay the foundation of a good head of hair in infancy, keeping the ends clipped, hair thoroughly brushed every day and the roots carefully washed with tepid water. One of the best recipes to prevent the hair from turning gray is moderation in living and frequent washings in cold water. Constant worry and prolonged grief hasten gray hairs. The use of curling irons long kept up also hastens the ravages of time. Many persons make the sad mistake of using preparations for softening the hair containing oils or greasy substances. This is a great error, as they only obstruct the pores, preventing its growth, the oils gathering every particle of dust, thereby clogging the pores of the scalp. Too frequent shampooing the hair or washing it with soap and water is very destructive. Soap if often used changes the color and tends to fade it, although ordinary yellow kitchen soap keeps blond hair from having the usual dingy appearance. A fine way to remove dust or oil from the hair is to dissolve a small quantity of white soap in spirits of wine, rinsing well with tepid water. The hair should always be perfectly dried and well brushed. Fanning thoroughly separates the hair, rendering it soft and pliable.—Pilgrim.

Built In Furniture.

Instead of losing vogue the built in seat is gaining in favor. One reason for this is the fact that it presents so many charming possibilities for both large and small homes, writes the Detroit News-Tribune. The aspect of a long room may be entirely changed by running a side seat from one angle of the wall to the other, and in the very small apartments of a flat, where a davenport or colonial sofa would not find room, a small seat is not only a convenience, but adds to the artistic effects and makes the place much cozier. The growing fashion of having furnishing built in and to match the woodwork of the room makes these seats quite inexpensive, so they can be of soft wood, enameled to match the woodwork of the room.

Elevate the Kitchen Range.

When my hired girl left and I had to do my kitchen work again, I was taken with my old trouble, backache, says a housekeeper. Acting on a suggestion in Good Housekeeping, I had the cook stove elevated about three inches by putting blocks under the legs. This abolished the stooping position and led me to apply the same reform to the sink. The result in ease and comfort of work was almost miraculous. Since then I have investigated these little points in fifteen different kitchens, and in fourteen found both sink and stove just enough too low to require an ugly stoop in all except undersized women. The moral is obvious.

The Age of Beauty.

The physical beauty of women should last until they are past fifty. Nor does beauty reach its zenith under the age of thirty-five or forty.

The old saying about sweet sixteen is exploded by the truer knowledge that the highest beauty does not dwell in immaturity, for beauty does not mean alone the fashion of form and coloring as found in a waxen doll. A woman's best and richest years are from twenty-six to forty. No woman is passe at an earlier day.

Cut Your Blankets.

It is better when blankets are first hemmed to cut them in two and bind the edges, for in washing it is much easier to cleanse one and then the other rather than the two at once in the same tub. Then, too, there are times when only one blanket is needed on the bed, and it is easier to have a single one to use than to handle the double ones, only using half.

A Kaleidoscope Basket.

A serviceable receptacle for knick-knacks or an annex to a workbasket may be provided by painting or staining a chip or willow basket, lining it with silk or satin padded with wool, in which pockets, if desired, may be inserted. Now add a fringe to upper and lower edge; interlace the body with bands of particolored ribbon, adding here and there a bow.

Electroplated Goods.

Electroplated goods when not in constant use are apt to become tarnished. The following method of cleaning has been proved excellent: Dip a piece of flannel in vinegar and then in pipe powder, rub well and afterward polish with a leather. This treatment is very successful with discolored eggspoons and saltspoons.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalising blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Mistakes of Authors.

The London Saturday Review cites the following mistakes of authors:

Trollope makes Andy Scott come "whistling up the street with a cigar in his mouth."

At the close of "Around the World in Eighty Days" the hero arrives triumphantly at his club just as the clocks of London strike ten minutes to 12!

A Paris journal recently recorded the discovery in the Seine of the nude corpse of a man with ten sous in his waistcoat pocket. But this was scarcely more paradoxical than the case of Robinson Crusoe, who before divesting himself of his clothes to swim to the wreck took precaution to fill his pockets full of biscuits.

In "Don Quixote" Sancho continues to ride on his ass after having lamented the animal's death.

The anachronisms and errors of Shakespeare are too well known to require repetition. He speaks of cannon in the reign of King John, a century and a half before their invention; he refers to printing in the reign of Henry II., of clocks in the time of Caesar; makes Hector quote Aristotle, and Coriolanus refer to Cato. He introduces a billiard table into the house of Cleopatra, makes Delphos an island and gives a seacoast to Bohemia.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant. 34

A Pint and a Pound.

The novice in cookery who pins her faith upon the accuracy of the old time couplet that "a pint's a pound the whole world round" will sometimes find the saying not altogether reliable. A pint of granulated sugar, for instance, weighs but fourteen ounces and a pint of butter or lard only three-quarters of an ounce more. A pint of flour packed without sifting weighs eleven ounces and after sifting lightly nine ounces. One pint of rich milk weighs a little more than sixteen ounces, skimmilk is a trifle heavier, but cream is lighter than either.

Woman's Weakness

A woman's reproductive organs are in the most intense and continuous sympathy with her kidneys. The slightest disorder in the kidneys brings about a corresponding disease in the reproductive organs. Dodd's Kidney Pills, by restoring the kidneys to their perfect condition, prevent and cure those fearful disorders peculiar to women. Pale young girls, worn-out mothers, suffering wives and women entering upon the Change of Life, your best friend is

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

LINDSAY & MIGHT

Real Estate and Insurance Agents

STRENGTH

Is an attribute of manhood universally desired. Few people understand that the only source of physical strength is food, and that every one who has sufficient nourishing food should be strong. But there are thousands of puny people who have plenty of good food. How is that explained? The explanation is simple. Food does not nourish the body unless digested and assimilated. Diseases of the stomach and other organs of digestion and nutrition hinder the proper digestion and assimilation of the nutrition contained in the food eaten. Thus the strength of food is lost, wasted.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and its allied organs. It causes the perfect digestion and assimilation of food and thus it makes men and women strong.

"I had been suffering from indigestion so badly that I could not work more than half the time, but now can work every day and eat anything I want," writes Mr. Victor L. Hayden, of Blackstone, Nottoway Co., Va. "Why? Because I took Dr. R. V. Pierce's Golden Medical Discovery. It had just new life and energy in me, restored my health and made a man of me once more. I used to weigh 170 but had gotten down to 144, now am back to 170 and will soon be back at my old weight if nothing happens. Your medicine has done it all."

Accept no substitute for "Golden Medical Discovery."

The People's Medical Adviser, *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

ARE YOU A PRISONER?

THOUSANDS of men are prisoners of disease as securely as though they were confined behind the bars. Many have forged their own chains by the vices of early youth, exposure to contagious diseases, or the excesses of manhood. They feel they are not the men they ought to be or need to be. The vim, vigor, and vitality of manhood are lacking. Are you nervous and despondent? tired in the morning? have you to force yourself through the day's work? have you little ambition and energy? are you irritable and excitable? eyes restless, depressed and haggard looking? memory poor and brain fagged? have you weak back with dreams and losses at night? deposit in urine? weak sexually?—you have

Advertising in the Examiner

THE BIG SALE CONTINUES AT Gough Bros.

IT IS THE GREATEST OF ALL NOVEMBER SALES.

This annual event is arousing the utmost enthusiasm. Prices at which we are selling Clothing, Hats, Furnishings, Boots, etc., are as low as some dealers sometimes pay to sell again. But we buy for much less than regular and we share our good fortune with you.

CONSIDER THE ADVANTAGES!

The largest stock to choose from—the most complete stock for men and boys of all ages—the newest and most up-to-date garments to select from. No house can offer lower prices. In every part of the big store you note the bustle of business, the hum of the crowds, the exchanging of money, the big parcels leaving the store, etc. No sale is more prolific of extraordinary inducements. No other store comes even within the shadow of this before-winter event in the matter of value-giving.

JACK FROST HAS BEEN A LAGGARD!

Mild weather brings down the price of Winter Clothing, and the Reductions present many chances never equalled before this year. Now is the time to secure values in Winter Wear of all kinds.

HERE'S A BATCH OF THEM:

OVERCOATS.

You pay your money and take your choice of the array of new long Raglanette Coats in latest shades of grey and dark Cheviots, at $5.95, $7.00, $9.50, $11.00.

Box Back or Chesterfield Coats, in Beaver, with or without velvet collar, good linings and trimmings, at $3.50, $4.95, $6.00, $7.50 and $9.50.

MEN'S SUITS.

Elegant Tweed Suits in any shade you wish, single or double breasted, satin linings, sure to fit, at $4.75, $5.95, $7.00, $8.50.

Men's Suits, in finer goods—Imported Scotch Tweeds, English Worsteds, Plain Oxford Greys, Blue and Black Serges, in the heavy winter weights, tailored up-to-the-minute, an immense variety, at $9.00, $11.00 and $13.50.

RARE VALUES IN BOOTS.

Rare Values are now being offered in this department of our store, and we solicit your patronage on these bargains. Space will not permit of us to tell of all the bargains offered here, so we will just quote a few, and leave you to judge the others yourself.

Men's Heavy Long Boots, guaranteed solid leather, three heavy soles with extended edge, sold regularly for $2.00, $2.50, $3.00, bargain price, $1.50, $2.00, $2.50.

Men's Heavy Kip Boots, solid leather, three soles, extended edge, sold regularly for $2.25, bargain price $1.80.

THE WALL STREET MARKET

The Market was Fairly Quiet To-day.

Slight Rise in Early Quotations not Sustained—Daily Letters—Quotations.

There was nothing of note on the market to-day. In the early part of the morning there was a slight upward movement, and the indications were that some hugh quotations would be received but before noon there was a check and a slight decline, although in no case was the drop alarming, being confined, in most cases, to fractional declines. C.F.I. opened at 85 1-2 and it reached 91, closing in the neighbourhood of 87. The principal stocks and quotations were;

The following despatches have been received by R. M. Poussett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 25th, 9.45 a.m. —No confirmation for any recent Manhattan rumors. Norfolk coal tonnage increased by eight million tons from development in Pocohontas field in next three years. Believed Harriman-Gould rupture more far reaching than was at first indicated. Highest authority in N. Y. C. interest in Manhattan. 28 roads, for 2nd week in November, gross increase 3.67. Penna. has no concern with Manhattan deal. Stocks plentiful in loan crowd. Pres. Osgood says he is working independently in C.F.I. Reported in Washington that the President will call extra session if the present Congress fails to act on trusts. C.P.R. third week in Nov. increased $124,000. Dividends payable to-day. P.O., 1 1-2 per cent.

DOW, JONES & CO.

London, 2.00 p.m.—Market generally very dull and stagnant prices generally 1-4 to 1-2 below par.

M. & M.

The market closed yesterday a little ragged, and evidences were not wanting that some rather free selling had been going on during the last two hours of session. It is not unlikely that, in view of a moderate list, or rather mild depressing influences, that some further declines may take place to-day. Exchange is high, and foreign money markets are hardening. There is a revival of talk of gold exports, though none are expected before December 15. Locally there is a moderate degree of suspense, caused by continued mystery surrounding the supposed traction deal, and added to this, a certain unrest caused by the triangular disagreement in C.F.I. It appears also that the banks have lost since Friday rather heavily to treasury, and there is no freedom yet manifested in time loans. This is the list against the market, and it will be readily seen that while they count numerically, they are even in aggregate, hardly serious enough to seriously invade the great underlying conditions of strength.

M. & M.

New York, Nov. 25th, 11.30 a.m. —There is better buying now, and the market is rallying. Foreign exchange is strong, offerings being readily absorbed, and there is an urgent demand for remittances by Thursday's steamers, and the actual rate for cables has gone up to 487 3-4, while actual sales for sight bills quoted 487 1-2 and that there are few offers less than 487.65. These are highest quotations for session. Paris exchange on London is unchanged.

M. & M.

Some important announcement is expected from Washington on the coal strike arbitration before the close of the day. Pres. Mitchell went there last night to meet Wayne McVeigh, and they are now reported to be in conference. Gossip says settlement will be reached chiefly by granting a ten to 15 per cent. increase in wages, and Mitchell's waiving claim for recognition in the Union. As far as effecting coal stock is concerned, it is thought that such a settlement will have negative influence.

LATEST IN SPORTING CIRCLES

The Peterborough Rugby Club's Trip to Montreal.

Citizens are Responding to the Appeal for Finances—Hockey Notes of Interest.

The appeal of the management of the Peterborough Rugby Club to the citizens of the town for finances in order that the team might go to Montreal on Saturday next, to play off with Quebec, for the Canadian Intermediate Championship, has met with a very generous response. Many of Peterborough's leading citizens are coming forward with substantial contributions, as they appear to realize the importance to Peterborough of holding a Canadian championship. The boys are yet in need of money, as it will take about $300 to finance the team to the Canadian metropolis. Any person who is desirous of contributing to the fund may hand their contribution to the secretary-treasurer of the club, or to any member of the executive. One public spirited gentleman called on the secretary-treasurer of the club this afternoon and wrote out a cheque for $36. Who will be the next?

RUGBY.

SENDS CONGRATULATIONS.

Secretary Clarry, of the Peterborough Rugby Club, received the following message from Newmarket to-day:

"Dear Clarry, — Extend my congratulations to the team on winning Saturday's game, and championship, from little London. Hope you will win the Dominion. Yours, etc., A. E. Brundrett."

The Peterborough boys are pleased, indeed, to know that their old players are watching their progress this season. Mr. Brundrett was a valued member of the local team a few years ago.

QUEBEC'S OFFER.

The secretary of the Peterborough team has received the following telegram from Quebec:

"Would your team play in Quebec? One hundred and fifty dollars guarantee. Pretty sure get nothing in gate receipts in Montreal. Wire decision quick. C. W. Tofield, Capt."

The local club immediately wired Quebec that they could not accept the offer. The additional expenses from Montreal to Quebec would almost amount to $150, and then the boys would be tired out on the journey of over 350 miles.

HOCKEY.

O. H. A. EXECUTIVE.

An Executive meeting of the Ontario Hockey Association was held last night at the Telegram Building, with President John Ross Robertson in the chair. The meeting lasted nearly four hours, and the greater part of the time was taken up in discussing several applications for reinstatement.

An application for reinstatement from "Jack" Carmichael, who was professionalized with the Guelph Nationals, was granted. Norman Irving, of Guelph, was also reinstated. Percy Ashplant, who was professionalized with the London Club, was reinstated to amateur standing.

Applications for reinstatement from "Hookey" Dixon, Toronto; E. Howell, Paris; Harry Brown, Belleville; Harry Peel, London; and Ernest Laing, formerly of London, but now of Winnipeg, were refused.

No new evidence was adduced in the now famous "Hookey" Dixon case. E. Howell of Paris, was backed by a delegation from Paris, but as he has been playing hockey since his expulsion, the executive decided not to grant his application. Harry Brown of Belleville, played under an assumed name since expulsion, and it was decided not to garnt him amateur standing.

It was brought out during the discussion in regard to Harry Peel's application that Canadian players received $20 a week for their services in Pittsburg.

MISS DELANEY.

FROM LIVE LAKEFIELD.

Mr. L. F. Stone, Known as "The Lakefield Red Man" has Passed Away.

Mrs. Geo. J. Rathbone, of Toronto, was the guest of her daughter, Mrs. J. Harry Sherin, on Sunday.

Mr. Torrie, of McMaster University, Toronto, who had charge of the Baptist church services throughout the summer, occupied the pulpit on Sunday morning and evening.

Mr. W. E. Cox, of the Canada Life Office, Peterborough, spent a few days last week in the village on business. Mr. Cox reports business booming.

Mr. L. F. Stone, commonly known as the "Red Man" from Lakefield, died at his home on Friday evening, about six o'clock, after a lingering illness. The funeral took place on Sunday at 2.30 p.m., from his former residence. The services were conducted by Adjutant Moore, of the Salvation Army, in which the late Mr. Stone has been a faithful worker for many years.

Mr. Wetherup, of Lindsay, was in the village on Sunday to attend the funeral of the late Mr. Stone.

Miss Isbister, of Peterborough, was the guest of Mrs. J. Ridpath on Sunday.

Master E. Rathbone, of Trinity College School, Port Hope, was the guest of his sister, Mrs. H. Sherin, on Sunday.

Miss Quigley has received notice of her acceptance on the staff of St. Joseph's Hospital, London, and expects to leave shortly for London to enter the hospital.

Quite a large 'bus load from Lakefield drove out to Wesley church last Wednesday evening to attend the oyster supper and concert given under the auspices of the above mentioned church. Although the roads were in a very bad condition a most enjoyable evening was spent.

Mr. James Linton, of Oromo, was in the village Monday.

CHURCH CHIMES.

CHARLOTTE STREET CHURCH.

At the Charlotte street church on Sunday, the music was, as on all occasions, excellent. In the morning the anthem, "King of Love," was sung, Mrs. Pearce and Mr. Skitch taking the solo parts, and the offertory was "Holy Father, Great Creator," by Schney.

At the evening service "The Radiant Morn" was rendered as the anthem, and for the offertory, a quartette, "Jesus Saves," by Messrs. Mitchell, Doidge, Davis and Skitch.

GEORGE STREET METHODIST.

The referendum was dealt with on Sunday evening by Rev. Mr. Wilson, in an able manner, and all were urged to do their duty on December 4th.

In the morning the choir sang as an anthem, "Fatherland." During the evening service the anthem rendered was, "The Radiant Morn," and the offertory, "See the Church of Christ Arises."

CLOSE THE BARROOM

The Premier of Ontario on the Liquor Act of 1902.

WANTED AN INTELLIGENT VOTE

Mr. Ross Said That in Any Event the Reference of the Question to the Country Would Not Be Unproductive of Good Results—Data For the Information of the Electors.

Toronto, Nov. 26.—Association Hall was crowded to the doors last evening on the occasion of the meeting held in the interests of the liquor act of 1902.

Premier Ross presided, and among others on the platform were Dr. Oronhyatekha, Rev. Dr. Potts, Rev. Dr. Dewart, Rev. Dr. Tovell, Rev. Dr. Withrow, Rev. J. A. Macdonald, Rev. Dr. Burwash, N. W. Rowell, K. C., G. F. Marter, and Ald. Urquhart; also a number of college students.

Premier Ross Introduced.

Mr. Marter introduced the Chairman for the evening, Hon. Geo. W. Ross, whose name was received with applause. In doing so Mr. Marter said:—I can assure you it gives me the greatest pleasure to introduce Mr. Ross. I am glad he is with us. (Applause.) I am glad to know that he who is at the head of our affairs in this Province is with us in sympathy, and not only in sympathy, but in active work in the contest in which we are now engaged. (Applause.) I congratulate Mr. Ross to-night upon having the opportunity of presiding over such a large assembly as greets him this evening, and I congratulate you, ladies and gentlemen, in having with us the Hon. Mr. Ross to preside on this present momentous occasion. No meeting, I think, he has ever presided over is more worthy of his presence than the one in which he is now to be engaged. (Applause.)

The Chairman's Address.

Hon. Mr. Ross, in accepting the chairmanship, was greeted with enthusiastic applause. He trusted he would prove worthy of presiding at such a large and splendid gathering of thoughtful men and women as he saw before him. The Ontario Legislature, he pointed out, saw fit to refer to the people of the province the disposition of the liquor traffic, so far as its disposition was capable of being affected by the Liquor Act of 1902. Following the usual precedent in matters of this kind, the question was referred to the electorate—the first court of appeal. One object he had himself in seeking for that reference was that they should get an expression of the people apart from all other circumstances. In party contests various elements entered into the decisions of the people—elements where there was confusion of thought and interests; and they, therefore, decided to have the people go to the polls independent of any party question. Whether they approved of that course or not, it was not for him to say, but there was no getting away from it now. (Applause.) Whether they liked it or not, the vote was going to be taken. (Applause.) That was the position they found themselves in to-night. They were like a man who was placed in jail by a policeman—perhaps an over-zealous one (cheers)—and after consulting a lawyer was told by him that they could not put him in jail. The prisoner thereupon replied, "But I am in jail."

It was for them to have the referendum do what it could to deliver them from the evils of intemperance. They wanted an intelligent vote on the question; they wanted the people to consider what this act involved. Whether by the dispensing of liquor only for medical, or scientific purposes they were going to improve the moral condition of society, or whether in attempting that they were attempting more than could be practically carried out. No law could be enforced efficiently unless backed up by public opinion. No small majority would be sufficient, but such a large and effective vote as would indicate to all concerned that the sovereign will of the people of Ontario declared that the Liquor Act now under consideration was the best for the public morals of the people and the prosperity of the country. It was for them to give the matter their intelligent reflection. They had before them the history of such legislation in Canada that would perhaps assist them in arriving at a decision. This was in figures:

Ontario Plebiscite, Jan. 8, 1894—For prohibition 192,489; against 110,720.

Dominion Plebiscite, Sept. 29, 1898—For prohibition 278,380, against 264,690. In Ontario, for 154,498, against 115,284.

The effect of referring the question to the country would not be unproductive of good results. They should see that every elector should express his views on one side or the other. This was not a time to refrain from voting, and if there was not a good substantial vote by the temperance people the cause of temperance would be impeded very much in Canada. He intended to vote for the Liquor Act of 1902. (Applause.) He never lost an opportunity in his life to vote for such a measure, and he hoped those of his views would not refrain from expressing their opinion. And by the others voting they could see how many of them there were and, having obtained that, they could see what was best to be done.

The other speakers were Rev. Dr. Potts, Dr. Oronhyatekha, N. W. Rowell, Emerson Coatsworth, Jr., Rev. J. A. Macdonald and G. F. Marter. Each of them endorsed the act in the course of their remarks.

Give Us Time Enough.

To prevent disappointment we would respectfully suggest that you arrange for Sittings for Xmas Photos as early as possible.

FRAMING—Please bear in mind that orders for Picture Framing should be left at the STUDIO—(UPSTAIRS.)

H. G. STABLER.

A CANDIDATE'S PROFITS.

Mr. F. G. Carscallen, M.P.P., Received $700 For Election Expenses, Spent $276.76, Leaving Him $423.24.

Napanee, Nov. 26.—The hearing of the Lennox election protest against the return of T. G. Carscallen, Conservative M.P.P., was begun here yesterday afternoon before Justices Osler and Maclennan. The result of the day's proceedings was the squelching of one of the fifty-two charges brought against the member-elect.

The petition against the return of Mr. Carscallen was proceeded with first. The Conservative cross-petition enumerating 189 charges will be taken up later.

The figures of Mr. Carscallen's election finances, showing expenses of $276.76 and receipts of $500 from Conservative headquarters and $100 each from Alexander Carscallen, M. P., and Uriah Wilson, M. P., were read.

Evidence was submitted to show that Paul Paterson and George Lewis had been guilty of offering liquor to electors to induce them to vote for Carscallen. The fact of the treating was conclusively proven, but no clear evidence was give to show that Paterson and Lewis were acting as agents for Carscallen.

Their Lordships dismissed the charge, holding that agency had not been proven.

Charge 22, a personal charge of bribery against Mr. Carscallen, was being heard when the court rose at 7 o'clock.

Frederick Whisken, an Irishman from Bath, swore that he always voted the other way, but was of the opinion that Mr. Carscallen was a pretty decent sort of man, because, "when I charged him $1 for services rendered in looking after a hall at a political meeting in Bath he slipped $1.50 into my hand.

This transaction, according to Mr. Whisken's evidence, transpired when they two were alone in the hall and when the light was low, the honorarium was accompanied by a request for his vote. Mr. Madole only gave $1 for the same services rendered by Mr. Whisken.

Evidence for the defence was given regarding an interview in the garden at Bath between Mr. Carscallen and Mr. Whisken. John Murdoff swore that on that occasion Whisken told Carscallen in the witness' hearing that he, Whisken, would vote only on the receipt of $1, that amount covering the loss of salary as constable incurred thereby. Mr. Carscallen declared he was not buying votes. The hearing of the charge will be continued this morning.

A 5-Year-Old Drowned.

Ottawa, Nov. 26.—Harry Cowan, aged 5 years, fell into the waterworks aqueduct yesterday afternoon and was drowned. With companions he was throwing chips into the water, and losing his balance fell over the stone wall ten feet to the swift rushing waters. It is said that at least ten men stood and watched the body carried 200 yards before it sank, and no one moved a hand to attempt a rescue. The little fellow was a son of William Cowan.

Kicking Unionist Re-elected.

London, Nov. 25.—John Cathcart Wason, M.P., who seceded from the Unionist party owing to his opposition to the education bill and appealed to his constituents in the Orkney and Shetland division for endorsement was re-elected Monday as an independent Liberal. The polling was as follows: J. C. Wason, Independent Liberal, 2,412; Wood, Liberal, 2,001; Angier, Unionist, 740. Most of the Unionists supported Mr. Wason.

Lady Minto Wants $100,000.

Montreal, Nov. 26.—The Countess of Minto is desirous that before the present Governor-General's term of office in Canada expires $100,000 should be raised for the purpose of carrying on and extending the work of the Victorian Order of Nurses. The interest on such a sum would be sufficient to maintain a central board and leave a margin of $1,500 to be expended in yearly grants towards the erection of cottage hospitals.

Died With Line in Hand.

Utica, N. Y., Nov. 26. — James Coughlin, a lineman employed by the Telephone Company in this city, stood on the ground holding a wire, which other workmen were attaching to a pole yesterday afternoon. He suddenly sank forward and was dead. The wire he was holding had come in contact with one carrying a heavy voltage.

Three Killed in a Collision.

Havana, Nov. 26.—The street cars were running yesterday, though the strike remains general. The number of persons injured Monday was 106, of which number four were seriously hurt. Two strikers and a fireman were killed in a collision between a fire engine and an electric car.

Found Drowned.

Ottawa, Nov. 26.—The body of James Irvine, an old man, who was regarded as a tramp, and who had been up in the Police Court at different times for drinking, was picked out of the canal yesterday beneath the Laurier bridge.

Encountered Terrific Weather.

Plymouth, Eng., Nov. 26. — The Hamburg-American line steamer Deutschland from New York, Nov. 19, arrived here yesterday and reported having encountered terrific weather, during which her upper works were slightly damaged.

Reciprocity With Canada.

Boston, Nov. 26.—At the annual meeting of the Massachusetts State Board of Trade yesterday resolutions favoring reciprocity with Canada were passed.

What It Means.

Ottawa, Nov. 26.—The increase in the pay of the I.C.R. telegraphers will mean $40,000 a year.

Mrs. Dale's Narrow Escape.

St. Mary's, Nov. 26. — Monday night Mrs. Dale, wife of Prof. Wm. Dale, M.A., had a narrow escape from being killed. Her home is about four miles from here, and she was returning home from town, driving alone with a horse and buggy, when she was run into by a G. T. R. freight train at the crossing within sight of her own house. The horse was killed and the buggy was wrecked, but, marvellous to say, she escaped unhurt.

Wants Additional Subsidy.

Victoria, B. C., Nov. 26.—Norman McLean of McLean Bros., who secured a charter last session from the British Columbia Government to build the Coast-Kootenay Railway, returned last night from New York, where he has been financing the scheme. He says his company is prepared to build the Coast-Kootenay Railway if an additional subsidy is given.

New Rich Company.

Ottawa, Nov. 26.—An order has passed Council granting extensive fishing privileges in James Bay to a company of Essex County capitalists. They are given wide powers in the waters in question. The concession is for 21 years.

An Investigation Ordered.

Ottawa, Nov. 16.—Hon Raymond Prefontaine met Commander Spain in Montreal and sent him to Quebec to hold an investigation into the grounding of the Sicilian, about twenty-three miles below Quebec.

Fire in Minden.

Minden, Nov. 26. — Fire Monday morning destroyed dwelling and stock of John Boyne, merchant of this village. The loss is about $8,000; insurance in Anglo-American Fire for $1,000.

Two Steamers Collide.

St. Vincent, Cape Verde, Nov. 26. The Prince Line steamer Westminster, for Cape Town, while entering this port yesterday, collided with the British steamer Edderton. Both were damaged.

Murdered in Yukon.

Victoria, Nov. 26.—Passengers on the steamer Amur, from the Yukon, say Purser Ayres of the steamer Prospector was robbed and murdered on Oct. 21.

Smuggled Butter.

Plattsburg, N. Y., Nov. 16. — Edward Pond and J. Leach have been arrested for smuggling butter from Canada.

Monstrous Atrocities.

Berlin, Nov. 26.— Henry Seligman says the Roumanian atrocities are monstrous and startle the civilized world.

Prominent Workman Dead.

Syracuse, N.Y., Nov. 26.—Jabez H. Norton, 64 years old, died here yesterday. He was Past Grand Master of the Grand Lodge of the New York A.U.O.W. for several terms.

OWNERS KILL PEACE.

Case Throwe Back to the Strike Commission to Decide.

BREAK OFF ALL NEGOTIATIONS.

Coal Operators Had Agreed to Discuss Matters With Miners, But Changed Their Minds For Reasons Given in Despatch From New York—Mitchell Says He Did Not Ask For Conference.

New York, Nov. 26. — A serious hitch occurred yesterday in the plans for a settlement of the coal controversy by conference between the coal operators and the United Mine Workers' Union, and it is now most probable that the final adjustment of the points at issue will be again referred to the Gray commission. At a meeting between the presidents of the coal roads and a large number of independent operators, a strong protest was entered by the latter against treating directly with the miners. An invitation to meet Mr. Mitchell at Washington on Friday was pre-emptorily declined, and it was unanimously agreed that in the judgment of the operators it was best, for the present, to go on with the hearing before the commission.

The reasons given by the independent operators for declining to treat with the miners are:

1. We believe that such a settlement at this time and upon the basis suggested, would forever establish the power and perpetuate the injustice perpetrated by the United Mine Workers.

2. That such settlement would be, in the eyes of the public, a confession that we have heretofore been guilty of all the offences charged against us by the said mine workers.

3. That we have, and believe that you have, such a perfect and complete defence to the allegations made by the complainants before the commission, that any money award the commission would render would be far less than the amount we understand that it is proposed to concede, especially to miners and their laborers.

4. That this commission will make such declaration as will for many years put a ban upon unlawful practices oppression of non-union men, unjustifiable demands and ocher grievances, that we have been suffering under since 1900.

What President Mitchell Says.

Washington, Nov. 26.—All prospects for an understanding between the United Mine Workers' and the coal operators, outside the anthracite coal strike commission, came to a sudden termination late yesterday afternoon, through the receipts of a despatch to Mr. Wayne MacVeagh, representing the Pennsylvania Coal Company and the Hillside Coal and Iron Company, notifying him that at a meeting of the anthracite coal road in New York yesterday it had been decided not to grant an interview to Mr. Mitchell and his associates, which had been suggested for Friday next. The announcement, coming at it did, after an all-day's conference in this city between Mr. MacVeagh and Mr. Mitchell and his associates, attended part of the time by Carroll D. Wright in an endeavor to adjust some details of the proposed agreement between the operators and miners, completely surprised everyone here.

From a reliable source it is learned that the proposition that the operators meet Mr. Mitchell on Friday next was made at the instance of Mr. MacVeagh, who was no less surprised than Mr. Mitchell himself at the turn affairs took yesterday.

Mr. Mitchell, when shown the despatch from New York, telling of the action of the operators, simply smiled and said that he had not asked for the conference, but that when it was suggested to him if it would be agreeable to meet the operators, he said it would.

Husband Laid the Information.

Cobourg, Nov. 26.—Acting on the advice of a telegram received about noon Chief Constable Ruse met the noon express from the east and arrested Thomas Farsides and Mary Ethel Sager. On the same train was George J. Sager, husband of the woman, and upon whose information the couple were arrested. In his information, Sager charges his wife with the theft of $40. The parties give their place of residence as Deseronto, and when arrested held tickets reading through to Toronto. They will probably be remanded here for a day or, two, then taken back to Deseronto to stand trial.

From 90 Hours to 39 Minutes.

Washington, Nov. 26.—The general manager of the proposed Pacific line promises to send a cable message around the world in 39 minutes on the first of next July. The time now is 89 hours.

Shelved For the Present.

Toronto, Nov. 26.—The recent proposition of the Canadian Pacific and Grand Trunk Railway Companies to make a general advance in freight rates all over Canada has been shelved for the present.

Eve Tempted Adam.

And Adam has been tempting Eve ever since. Imagine a man selling a woman rancid butter while keeping her attention fixed on a "prize" given with the rancid butter! A woman may be tempted by "prizes" to buy common soaps, that she may not know will soon ruin her clothes and hands. But she soon finds out the difference between common soaps and Sunlight Soap. She finds Sunlight Soap—Octagon Bar—a prize in itself. Her clothes last longer, and her hands are saved from eczema.

An Ideal Woman's Medicine.

So says Mrs. Josie Irwin, of 225 So. College St., Nashville, Tenn., of Lydia E. Pinkham's Vegetable Compound.

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by Lydia E. Pinkham's Vegetable Compound, and never during the lifetime of this wonderful medicine has the demand for it been so great as it is to-day.

From the Atlantic to the Pacific, and throughout the length and breadth of this great continent come the glad tidings of woman's sufferings relieved by it, and thousands upon thousands of letters are pouring in from grateful women saying that it will and positively does cure the worst forms of female complaints.

Mrs. Pinkham invites all women who are puzzled about their health to write her at Lynn, Mass., for advice. Such correspondence is seen by women only, and no charge is made.

Invest $300 Cash

and we will give you a good 7-roomed Brick House, within five minutes' walk of the principal workshops. Total cost only $1,100. Also a good Frame House in same vicinity for $900, and we will make any reasonable terms for balance. We are offering good value in Building Lots; also in Garden Lots and farms. Apply quickly.

WEDNESDAY, NOVEMBER 26, 1902.

A SUGAR BEET FACTORY.

The proposal, as set forth in the report of the County Council proceedings, to submit a bylaw authorizing the County Council to take $40,000 stock in a beet sugar company, is one which will doubtless command the attention of the electors quite independently of their endorsation or rejection of it. Whether or not the $40,000 bylaw is ultimately submitted, the principle it involves and the interests it may affect are worthy of consideration. In whatever light the ratepayers may view the proposition, there is no denying that the beet sugar industry is one which should receive the earnest attention of the farmers of this county, especially those farmers who are so situated in relation to the location of the proposed factory in Peterborough that they can avail themselves of the opportunity of getting the beets they may raise to the factory. A farmer who is out of touch in the matter of distance, with the factory cannot be expected to develop a very lively practical interest in the enterprise. No one will deny that the beet sugar industry is in the interest of many of the farmers of the county. There is every evidence and it has often been submitted in these columns, to show that the sugar beet, is, or can be made one of the most profitable crops on the farm. The elaborate experiments conducted by the Government proved that the soil of Peterborough county is the best adapted in the province for raising beets of the highest sugar value, while the yield is equal to that of any other section of the province. Consequently there is no county in Ontario where the growing of beets can be conducted to better advantage and with a prospect of securing better prices than in this very county. It is to be remembered that the first year the beets are paid for at a flat rate of $4.00 per ton. After that payment is made according to sugar value, and judging by the results of analyses made, the price will be advanced to between $4.00 and $5.00 per ton. It is also known that the cultivation of beets necessitates the cleaning of the soil, and, at harvesting, the tops being turned under, the fertility of the field is to that extent retained. This circumstance in connection with the freedom from weeds leaves the soil in an admirable condition for another crop. Again the feeding value of the pulp after the beets have passed through the factory is very high, another important advantage in a dairying country. Then the most fertile sections of the county are exceedingly convenient for railway and water shipping. In fact all the circumstances distinguish Peterborough County, and surrounding districts, as the most favourably constituted in regard to delivery of beets, yield of roots and high percentage of sugar value, of any county or district in the Province. If the manufacture of sugar from beets can be made a success anywhere it can be done in Peterborough. Under all these circumstances, it seems that according to the phrase of the street, it is "up to" the individual farmers who can, and will, receive large benefits, in case of a factory being established, to individually assist in the promotion of the factory in question, or some other factory. They will be gainers in every way. They will receive a high price for their beets, clear their soil of weeds, etc., and if they are within reasonable shipping distance from a factory, they will stand to receive benefits which farmers in outlying townships, with soil unsuitable for beet root culture, and at an impossible distance from a factory, cannot be expected to enjoy. It is for the ratepayers to consider what advantage to a farmer of the latter class will it be to vote for the county taking $40,000 stock in a factory, which is of no immediate benefit to himself. He doubtless reflects that he will be called upon to tax himself to the extent implied for the benefit of farmers of richer and more fortunately situated townships. Besides, he may argue, that he will be asked to tax himself for the benefit of districts outside the county. It is not probable that the beet roots necessary to employ a factory in Peterborough, will all be raised within the county. By the Rice Lake water route beets will likely be brought from Northumberland County, and by the C.P.R. from Hastings on the east and Durham on the west, and by the Midland Railway from Victoria County. It is stated that in some Michigan districts beets are brought fifty miles by rail. There is no doubt that a beet sugar factory which would demand and produce the growing of thousands of tons of beets in the county per year would be an excellent thing for the farmers, who would be directly benefitted, and it is for the farmers outside of this state of things to consider whether the divine injunction to love our neighbors as ourselves, includes taxing themselves for something which is of no direct benefit to themselves. A beet root sugar factory in Peterborough would be a grand thing, but a proposition to establish one, must be dealt with as a business proposition, and the financial burdens, if any, be apportioned among those who will be the beneficiaries.

FROM SOUTH BURLEIGH.

The Steamer Majestic Took Down the Last Shipment of Cheese.

Rev. Mr. Reddick, of the Apsley Circuit, exchanged pulpits with Rev. Mr. McQuade, of Warsaw, on Sunday.

The Majestic took down the last shipment of cheese from South Burleigh and Apsley factories on the 19th. A large quantity of grain from this district went down at the same time.

Mr. Amasa Bronson, one of our oldest residents, has been seriously ill, but hopes are entertained of his recovery.

Mrs. Armstrong, of the Mount Julian Hotel, has been visiting her mother, Mrs. Darling, of Warsaw.

The road from Julian's Landing to the north is very bad owing to the heavy rains and the great amount of traffic there has been this season.

BENSFORT

(From our own Correspondent.)

Can any person explain where the fish came from on Tuesday the 18th? When Mr. H. Thompson was going to work across one of Mr. Jas. Emberson's fields, he noticed some fish about two inches long lying on the grass. On going farther north he found the field covered with them. There were thousands of them and as the field is over a mile from the nearest point of the river, the question is, "Where did they come from, or how did they get there?" One old lady said,—"Sure I would rather it had been 'praties.'"

Pleasure sleighs are selling very cheap. One gentleman bought one a few days ago at a sale for two cents. The ladies are wishing for snow as they expect to have many pleasant drives this winter.

Sometimes we hear of people painting the town red. Mr. R. J. O'Heir changed the colour and has painted his house green. Now, when he has the cage all finished we hope he will be successful in catching a bird to make it complete.

Mr. S. Higgins has moved from here to Blackwater.

Mr. Herb Perrin was badly hurt on Tuesday, of last week, by being caught in a shaft while threshing. His arm was twisted and his ankle broken. Dr. Montgomery was called on, and Mr. Perrin is now recovering.

Messrs. A. McClelland and Isaac Limmet have arrived home from the Northwest. Both of them give glowing reports of the country.

Mrs. J. J. Hicks, of Woodstock, is visiting her old home for a short time.

PRETTY CAVENDISH WEDDING.

Miss M. P. Westlake and Mr. Johnston Were the Principals.

On Tuesday evening, September 30, a very pretty wedding was celebrated at the home of Mr. and Mrs. John Westlake, the contracting parties being their eldest daughter, Ethel Payne and Mr. A. E. Johnston, of Chambly, Canton, and formerly of Peterborough. The ceremony was performed by Rev. W. Creeswick, pastor of St. Matthew's church, of Hall's Bridge.

An arch of evergreens, ferns and cut flowers was arranged for the occasion. The bride entered the drawing room escorted by her father, to the accompaniment of the wedding march, played by Miss Lottie Purser. The bride was handsomely attired in a gown of white organdie, trimmed with lace and white ribbons. Her bridal veil was fastened with orange blossoms and ribbons and she also carried a bouquet of bridal flowers. Miss Blanche Westlake, sister of the bride, was bridesmaid, and wore a gown of white organdie trimmed with pink ribbons, and carried a bouquet of pink carnations, while little Miss Edith, sister of the bride, was maid of honour. She was quite charmingly attired in a frock of white organdie, trimmed with Nile blue ribbons. The groom was supported by Mr. Walter Parnell, of Peterborough.

After the ceremony the company all sat down to a sumptuous wedding supper, after which a most enjoyable evening was spent in instrumental music, songs and games. The bride's travelling suit was of blue ladies' cloth, trimmed with white satin and applique. She wore a hat to match.

The bride was the recipient of many beautiful presents testifying to the esteem in which she is held. The groom's gift to the bride was a beautiful opal and pearl pin. There were about fifty friends and relatives of the contracting parties present, who spent an enjoyable evening with them and joined in wishing the bride and groom many happy and prosperous years in their new home. The happy couple left Cavendish on Wednesday morning and drove to Peterborough, amid showers of rice, where they left on the 9.10 G.T.R. train for Montreal. They will leave Montreal on Friday morning for their new home in Chambly, Canton.

FROM HUSTLING HAVELOCK.

The Railroad Village Prospering—Personal Mention.

The social in the basement of the English church on Thursday night, under the auspices of the junior branch of the Ladies' Auxiliary, was a decided success. Praise is due to Mrs. Barrett, the president, for the excellent decorations and programme.

The Presbyterian church oyster supper and concert in the Town Hall on Friday evening last was well attended and the audience well entertained by Rev. Mr. Camp, Havelock; Rev. Mr. McQuaig, Norwood; Miss White, elocutionist, Peterborough; Miss Brown, soloist, Peterborough; Miss M. Graham, soloist, Havelock; Mr. M. Swain, soloist, Havelock; Miss Percy, soloist, Smith Falls.

Mr. W. S. Dodds, C.P.R. agent, left on Thursday to take charge of Peterborough station. Mr. Green, agent, of Locust Hill, has been transferred to Havelock.

Mr. G. Sills, liveryman, wishes to inform the public that he has no intention of leaving Havelock, and will be found in the old stand ready to turn out a first-class equipment any hour of the day or night.

Mr. J. Wiseman and Geo. Embleton left for Manitoba on Wednesday with two carloads of cattle.

Carpenter McKay is making some repairs at the Graham House.

Miss Maud Brown, of Peterborough, is visiting at her uncle's, Mr. A. Deremo.

Miss Percy, of Smith Falls, is visiting at Mrs. Martin's.

Mr. James Andrews, of Asphodel, was in Havelock on Monday.

Dr. McLean, of Norwood, spent Sunday in Havelock.

Mrs. W. Griffin, of London, is the guest of Mrs. Hart.

Miss Aggie Campbell, of Peterborough, is spending a few days at the home of her parents.

Mrs. Wiseman, of Monkland, is visiting at the home of her parents, Mr. and Mrs. Williams.

Mr. Fred Taylor, of Blairton, has moved to Havelock.

Birth.—On Thursday, Nov. 21st, the wife of Mr. Roy Campney, of a daughter.

Fireman John McGill had his shoulder put out of joint by jumping from his engine at the railroad pitching in at Claremont on Monday.

Rev. Mr. Sandy returned on Thursday from attending a convention at Port Hope.

MOUNT PLEASANT.

(From our own Correspondent.)

An accident that might have resulted fatally through the careless handling of firearms, occurred recently at the home of Mr. J. Fee. All the warnings we hear of do not prevent people from handling guns and revolvers in a careless manner, and endangering the lives of those who may be near them.

Report says that the horses of the Jameson family ran away a few days ago, causing considerable damage to the vehicle, and came very nearly injuring the occupants.

The snow storm of the 22nd came on as unexpectedly and left us in the same way. Now we are enjoying lovely weather, so that the question of coal and wood is now in the back ground, and so far as we are concerned, coal may now be used instead of diamonds to adorn the fair sex.

The pastors of each of our town churches occupied their respective pulpits on Sunday. Their discourses were all that could be desired. Rev. Mr. Mountcer's text was "There shall be Showers of Blessing." His sermon was interspersed with the singing of that beautiful hymn. Rev. Mr Kannawin's subject of discourse was "The Safety of God's Children." His text was taekn from the 91st Psalm, verses 4, 5, and 6.

Can it be possible that water is a substitute for coal oil?

THE SOLAR CLOCK.

Marvellous Mechanism at Greenwich by Which Time Is Regulated Throughout the British Isles.

In a very wonderful way the public clocks in every corner of the British Isles are regulated from Greenwich once an hour. By a series of automatic electrical switches the many thousands of clocks in connection with the postoffice are placed under the control of the mean solar clock at Greenwich, which is kept regulated by the sun without erring even to the hundredth part of a second, and the time is thus flashed to all parts of the United Kingdom once every sixty minutes night and day.

It was in 1852 that a method of utilizing electricty for distributing time was first devised, and in that year a signal ball was put on a staff in the Strand, London, and made to drop at one o'clock daily by electric current from Greenwich. Although this method of signalling time is still preserved in many important centres on the coast, the automatic clock has become more popular, and is equally reliable.

The postoffice retails the time to some thousands of subscribers whose clocks are connected with the solar clock at the Observatory, and should these timepieces have lost or gained during the sixty minutes they are put right again as soon as the hour is registered. To accomplish this, a small slit is made in the face over the XII., and two needles controlled by electric magnets fitted into the opening. Directly the hour is reached the current is started by the Greenwich clock, and the needles in every clock in connection are closed by the magnets and bring the minute hand directly in the centre of the XII., thus regulating it to the hundredth part of a second with the great timekeeper at Greenwich.

The mechanism which regulates Britain's time is a marvel of ingenuity, and is worked by switches on the same principle as the telegraph. When the current leaves the Observatory, it is flashed to all the chief towns in the kingdom, and re-transmitted automatically from thence to hundreds of smaller centres and private subscribers without any human assistance. Thus the time can be flashed from Greenwich to a station 300 miles away, and from there transmitted to a second station 100 miles farther on without the clock at the latter place being a fraction of a second behind time.

Fifty officials are engaged in making meteorological observations all the year round at the Observatory, for, although the great solar clock works automatically, its movements have to be checked and recorded. In spite of the fact that the time is kept and signalled from Greenwich, the postoffice is nominally the distributing agent, and nets an income of over $80,000 a year from doling out the time to its subscribers.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo-Quinine Tablets. This signature on every box. 25 cents.

For Canadian Graphite.

New York, Nov. 26.—Announcement is made that a big deal in graphite has just been ended, in which the graphite interests of Canada have been absorbed by a party of capitalists from Wilkes-Barre, Pa., who will develop the Canadian property. The deal is said to involve an outlay of $4,000,000, and will include the formation of a company which will establish mills and smelters on the ground and prepare the mineral for commercial uses.

Capital of $9,000,000 Useless.

London, Nov. 26.— The Yorkshire Wool Growers' Association organized in 1889 with a capital of $9,575,000, has sent a circular to its shareholders announcing the appointment of a receiver. The association has been in difficulties for some time. It exhausted its working capital in an unsuccessful attempt to buy up important independent firms.

Oats in Australia.

Ottawa, Nov. 26.—Oats are selling in Sydney, N.S.W., at 62 cents a 40-lb. bushel. This is a drop of 18c.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 26

Female Disorders.

For the past two years I have been afflicted with female troubles. I had serious bladder disorder; inflammation would set in and I would suffer intensely. Sometimes I could not urinate and the pain was so severe I could not sleep at night. I always had heavy bearing-down back and womb pains. I went to the hospital for three months, paid two visits a week but got no relief. I was advised to try Powley's Liquified Ozone and before I had finished the first bottle I began to feel better. I have taken in all three bottles and now I am quite well.

MRS. JOHN WAY,
39 Church St., Verdun, Montreal.

There may be a better way of curing female ailments than by Ozone, we don't believe there's a quicker or safer method or one that gives such permanent beneficial results. Powley's Liquified Ozone is peculiarly adapted for disorders of the mucous membrane. If you try it once you will make use of it regularly.

Two Sizes, 50c. and $1.00. At all Druggists or from us.

IRISH CONCILIATION.

London Times Says Earl Dudley Is Not Entitled to Interfere.

London, Nov. 26.—The Times this morning, evidently fearing some yielding on the part of the Government, publishes an editorial in which it resents the suggestion made by the Earl of Dudley, the Lord Lieutenant of Ireland at his reception at Belfast Monday. The paper contends that Lord Dudley, not being a member of the Cabinet, is not entitled to interfere in matters of policy and fails to see what good can come of his intervention in a complication of which he has no first-hand knowledge. The Times concludes by saying that the Government's conduct must be clear of all shadow of ambiguity.

THE STORY OF A PIONEER.

H. S. Barnes, of Rat Portage, Tells of the Trials of the Early Settlers.

Suffered Terribly From Kidney Complaint but was Speedily Relieved and Cured by Dodd's Kidney Pills.

Rat Portage, Ont., Nov. 23.—(Special.)—Everybody in Rat Portage knows H. S. Barnes, father of a former mayor and one of the oldest inhabitants of the metropolis of New Ontario. Though seventy-nine years of age, Mr. Barnes looks younger than many men of many fewer years, and is possessed of wonderful vitality and activity.

A pioneer of this district, Mr. Barnes tells many tales of early life in the wilds of New Ontario, but none more interesting than the following:

"I was terribly troubled with Kidney Complaint. I suffered severely with pains across my back, and with a scalding, burning sensation when urinating that was very painful.

"Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house that I had procured for my wife, and commenced taking them with good effect.

"It was not long till my acquaintances started to greet me on the street with 'Hello, Mr. Barnes, how young you are looking.' They were not astray. I felt smart too, and feel younger and in better health than I have been for years. My Kidney Complaint was completely cured by Dodd's Kidney Pills."

Brakeman Fell Under Wheels.

Toronto, Nov. 25.—William Harvey, a G.T.R. brakeman, had his left leg amputated at the General Hospital yesterday afternoon. Harvey was standing on the front of his train, which was moving forward slowly and as he jumped off at Maple, he fell between the wheels and had his leg terribly crushed. Harvey lives at Rosseau, Muskoka.

92 Miles in 27 Hours.

Ottawa, Nov. 25.—Mr. Keeley, superintendent of the Government Cable and Telegraph Service, states that, with the completion of the cable between the Magdalen Islands and Anticosti, the gulf system is now complete. The 92 miles of cable between Bryon Island and Anticosti were laid in 27 hours.

Forester's Closing Boxing Bout.

Toronto, Nov. 25.—The celebrated featherweight boxers Eddie Santry of Chicago and Billy Ryan of Syracuse arrived here to-day to finish up training for their 20 round bout Saturday night at the Crescent Athletic Club. This will close the boxing season in Toronto until the spring.

Lies in 22 Feet of Water.

Detroit, Mich., Nov. 25. — The steamer Chili of Buffalo, which was sunk in the Detroit River off Amherstburg, Ont., in a collision with the steamers Owego and H. B. Tuttle Sunday night, lies in 22 feet of water just outside the channel of Ballard's Reef.

Colored Mugger Sentenced.

Windsor, Nov. 25.—Joseph Williams, 21 years old, colored, was yesterday morning sentenced by Magistrate Bartlett to four months at hard labor in the Central Prison for assaulting Mrs. J. O. Hayes on Georgia street Saturday night. Williams hugged her.

Belleville Also.

Belleville Nov. 25.—It would appear that the same person or persons who on Friday night last succeeded in swindling Brockville merchants were at their tricks in this city Saturday night. Several of our merchants accepted worthless $10.50 cheques.

AN INSPECTING TRIP.

Messrs. Morse and Wainwright Leave Winnipeg for B. C.

WEST AGAINST ANY LAND GRANT

Mr. Fowler, M.P., Advocates in Case of Any Assistance Being Given to New Grand Trunk Pacific by the Government That Its Business Must Be Through Canadian Channels—D. D. Mann Interviewed.

Winnipeg, Nov. 26.—Mr. Frank W. Morse, Third Vice-President of the G. T. R., and Mr. Wm. Wainwright, General Assistant and Controller, left at 7 o'clock yesterday morning for the west over the Canadian Pacific. They will inspect the country between here and the Pacific coast, with a view to the commencement of survey work for the new Grand Trunk transcontinental line.

The Land Grant.

Montreal, Nov. 26.—Messrs. George W. Fowler, M.P., and Rufus Pope, M. P., were in the city yesterday, on their way home from Winnipeg. Speaking of the new transcontinental line projected by the Grand Trunk, Mr. Fowler said if the road was to receive any Government assistance, the general sentiment of the west would be strongly opposed to this assistance taking the form of a grant of land. "You may say this, however, from me," said Mr. Fowler. "Personally, I am strongly of the opinion that if any public assistance is given it should be strictly on condition that the business of the road shall be done through Canadian channels. I am unable to see the sense of giving subsidies for the purpose of having Canadian products carried to United States ports."

Mr. D. D. Mann Interviewed.

Victoria, B.C., Nov. 26.—Mr. D. D. Mann was interviewed yesterday afternoon with regard to the reported connection between the Canadian Northern and the Grand Trunk with respect to the latter's decision to build a transcontinental line. Mr. Mann gave a positive denial to there being any connection between the two railway lines at the present time. Questioned as to whether there would be any in the future, he stated that that was a matter which it was impossible to answer. He could only speak for the present. The Grand Trunk, he explained, has no charter at present to build across the continent.

A Bond Guarantee.

London, Nov. 26.—(Montreal Star Cable).—The Grand Trunk officials are most reticent regarding the Pacific project. The expectation of the market authorities is that the new road will not be in direct charge of the Grand Trunk, but will be undertaken by a separate company. Naturally, the Northern of Canada is thought of, especially seeing that friendly relations are believed to exist between this line and two Canadian Cabinet Ministers. In view of the difficulties in the way of Government land grants, it is suggested as most probable that the form of Government support will be guaranteed bonds. No difficulty is expected in raising the money here in that way.

A Likely Speculation.

London, Nov. 26.—(Toronto Telegram Cable).—The Financial News takes a hopeful view of the prospects of the Grand Trunk's transcontinental line. Referring to its chances of earning the five million dollars necessary to pay a dividend of five per cent. The News says that in view of Canada's present progress it would be a bold pessimist who would say no. "Still, it is a big sum," the article continues, "and our general summing up of the scheme at this moment would pronounce it a likely speculation."

Going Into Stock Raising.

Guelph, Nov. 26. — In Elderslie Township the farmers are going more and more into stock raising, and they are extending their holdings by buying their neighbors out, the sellers in many cases going out west to secure virgin farms. In an area of 2,000 acres in one section there are only seven farmers.

Careless Shooting.

Ingersoll, Nov. 26.—As two citizens were passing along Thames street yesterday a rifle ball whizzed by them, snapping off a twig of a maple over their heads. The bullet came from across street, but the reckless rifleman was not seen. The police are investigating.

Her Death Was Accidental.

Paris, Nov. 26. — In spite of the secrecy which has been maintained re the result of the autopsy conducted on the body of Mrs. Ellen Gore, it is learned from an authoritative source that the doctors tend individually to the acceptance of the theory of an accident.

Lepore Goes Free.

Montreal, Nov. 26. — Lepore, the Italian charged with killing a neighbor of the same race, was acquitted last evening in the Criminal Court.

Played the Pope.

Loodon, Nov. 26.—Beerboom Tree Monday night in Dublin took the part of the Pope in "The Eternal City" with success.

Corn Caused Death.

New York, Nov. 26.—Broker Starbuck died yesterday as a result of having a corn removed. Gangrene set in.

Czar in Good Health.

Washington, Nov. 26.—Count Cassini has received reports saying that the Czar is in the best of health.

Refused $100,000.

St. Louis, Mo., Nov. 26.—Dr. Loring was offered $100,000 if he would stay here longer, but refused it.

Your Opportunity to Get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it knowing that it is bound to do you good.

HOPE FOR AGREEMENT

Members of Commission Think Differences May Be Settled.

OWNERS AND MINERS MAY AGREE

A Concession That the Men Make Is That Each Coal Company May Make a Separate Contract With Its Own Employes, But President Mitchell Insists That These Shall Be Identical.

Washington, Nov. 25.—Col. Carroll D. Wright, recorder of the Anthracite Coal Strike Commission, had a conference with the President yesterday. He outlined to Mr. Roosevelt the work of the commission, indicating to him that whatever might be the result of the conferences between the representatives of the operators and the miners, the commission would proceed, at least for a time, with its work, and endeavor to reach a definite conclusion which might be used in the future as a basis for the adjustment of similar controversies. Members of the commission are of the opinion that the operators and miners will reach an agreement upon all points of difference raised. It will be the purpose to arrange, if possible, that the agreement shall have some permanent form.

Union to Be Recognized.

Scranton, Pa., Nov. 25.—The most singular feature of the great contest between the companies and the men is the manner in which it is proposed to recognize organize labor. Each side makes practical concessions. The men agree that each coal company may make a separate contract with its own employes. This is the point contended for so tenaciously by Morgan and the presidents of the seven coal-carrying roads. At the same time, in making these separate agreements, the operators shall permit their employes to choose their own advisers and agents in making the contracts. This allows the United Mine Workers' Union to take a legitimate place as negotiator. President Mitchell insists that should this system be adopted the contracts shall be identical throughout the anthracite coal regions. Thus, if the present negotiations succeed, the United Mine Workers' Union will not be recognized directly or, by name, yet its vital functions in formulating terms and negotiating contracts will continue.

INTERESTING FACTS,

For Nearly Every Man Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy, have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers, and were finally induced to give Stuart's Dyspepsia Tablets a trial, were surprised and delighted at the results. In many cases a single package costing but 50 cents at any drug store, made a complete cure, and in every instance beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unsolicited testimonials, and never publishh the same one twice.

From James Yemmeisler, La Cross, Wis.: Stuart's Dyspepsia Tablets are doing me more good than anything that I ever tried, and I was so pleased with results that I gave away several boxes to my friends who have also had the same benefits.

From Jacob Anthony, Portmurray, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had dyspepsia for six years and had taken a great deal of medicine, but the Tablets seemed to take right a hold, and I feel good. I am a farmer and a limeburner, and I heartily recommend them to anybody who has any trouble with his his stomach, to use these Tablets.

From Mrs. M. K. West, Preston, Minn.: I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend, who also suffered from indigestion, and she had the same good results.

From Mrs. Agnes K. Ralston, Cadillac, Mich.: I have been taking Stuart's Dyspepsia Tablets and I have been very much better, and feel very grateful for the great benefit I have received in so short a time.

Stuart's Dyspepsia Tablets are a certain cure for all forms of Indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them to all persons suffering from nervous dyspepsia, sour or acid stomach, heartburn, bloating, or wind on the stomach, and similar disorders.

Another Hunter Shot.

St. Thomas, Nov. 25.—Charles Stanton of Port Stanley is the latest victim of the shooting accident. He was hunting on Saturday in company with Robert Graham, near Rodney, when the gun of his companion was accidentally discharged about two feet from Mr. Stanton's right leg. The charge, shot, wad and all, went through the fleshy part of the thigh. Dr. Wood, who is in attendance, says there is great danger of blood poisoning setting in.

An Explanation.

"C. R. Co." rubbers are rubber shoes made in Canada by The Canada Rubber Company.

Fearful Result of Riots.

Havana, Nov. 25.—As the result of conflicts of a serious character between police and the men on strike here yesterday two strikers are dead and eighty-two other persons are wounded. Five of the latter, one being a lieutenant of police, whose throat was cut by a striker, have injuries of a serious nature. Eight other policemen are wounded.

Thrown From a Car and Killed.

Halifax, N. S., Nov. 25.—Charles McNutt of Salmon River, who was employed in the I.C.R. coal shed at Truro was thrown from a car yesterday morning and instantly killed. He struck on the ground head foremost and broke his neck. A widow and a large family survive.

Opera House, To-morrow Night.

The Toronto Globe, Tuesday, Nov. 4th, says: "The Span of Life returned to the Toronto Opera House yesterday afternoon, and was greeted by a large audience. The sensational feature of the play is the human bridge formed by the Donnsetti trio of acrobats across a chasm. This scene arouses the usual demonstrative applause, and evidently made a hit. The cast of principals succeeded in pleasing the audience. Price 25, 35 and 50c.; first four rows of raised, 75 cents. Plan open. ld

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

ST. ANDREW'S GUILD CONCERT

A Delightful Evening's Entertainment.

A Splendid Programme Presented by Miss Jessie Maclaughlan, Miss LaDell and the 57th Band.

If the Young Mens' Guild of St. Andrew's church has reason to be gratified with the outcome and success of their fourth annual concert last night, the immense audience had equal reason to be pleased and delighted with the magnificent programme of high class music presented. The programme opened with a selection by the 57th Band — Godfrey's "Reminiscences of Scotland," whose excellence of performance struck a keynote to the high class music of the evening faultlessly presented. The playing of this selection by the band was marked by splendid finish, exquisite shading and decidedly pleasing effect. It gave so great delight to the audience that it was heartily encored, and the band responding made a long leap for the heathery hills of Scotland to the plantations of the Sunny South, responding with an Ethiopian melody, as they did in response to the hearty recall their fine performance of "A Troop Ship at Sea," with which they opened the second part, earned them. The band last night showed that it was able to hold its own in the highest and most artistic musical company, and fairly divided the honours of the evening. Never before had the band the opportunity of showing its capabilities before such an audience and under such favourable conditions, and never before, perhaps, was the realisation of what a thoroughly first-class band we possess brought home to the public of Peterborough in a more striking and pleasing manner. The delighted audience would have been no better pleased last night by any of the outside bands that have in the past come to Peterborough. Of course the highest expectations had been formed of the renowned "Queen of Scottish Song," Miss Jessie Maclachlan, and these were in no way disappointed. She was put down on the programme for five numbers, but the insistence of the audience doubled the number. Miss Maclachlan was given a most enthusiastic reception and her artistic work fully justified its heartiness. It is not necessary to particularize her work, it may be generally said she fully justified the title she has received, "Queen of Scottish Song," and in her several selections she showed her splendid ability to interpret the beautiful and stirring melodies of the land of the heather whether they be patriotic or heroic. Not only that, but she seemed equally at home in Irish music, showing that the same spirit animates the Celt, no matter where born. Miss Maclachlan's singing of "The Last Rose of Summer," was beautifully sweet and artistic, her great reserve of vocal force permitting of the most delicate effects being presented with smoothness. If anything, in this number too much sentiment was infused, and the exquisite effect was, to some minds, marred by the questionable realism implied in scattering the leaves of the chrysanthemums she carried, as an accompaniment to the words of the song. Splendidly sung was "Rory O'More," with inimitable piquancy, and with well judged dramatic effect. Her Gaelic song—Greek as to the words to most of the audience—was also a delightful number, but it was in "Rule Britannia" that her greatest and grandest singing was done. This was soul inspiring, and brought out the admirably robust but ever sweet, and never strained, or forced, qualities of her voice, while the complementary qualities of sweetness and tenderness necessary to the perfect voice and method, were admirably shown in her other selections. One could hardly tire of hearing Jessie Maclachlan's well trained, clear, full, round, and ever-sweet voice. Miss Marietta LaDell, the reader, won the enthusiastic reception she received. She gave several selections, and was invariably recalled. She seems most at home in lighter selections, and in these she was decidedly good. Her rendering of child characters was extremely felicitous, and it was no surprise that she was recalled again and again. Mr. Robert Buchanan, jr., performed his own arrangement of Scottish selections in a very artistic and effective manner. He deserves especial mention for his beautifully sympathetic accompaniments to Miss Maclachlan's songs. Altogether the concert was a most decided success, and all the contributors to the programme deserve the highest praise, and the public amassed a big debt for the delight which the concert afforded, to the Young Men's Guild of St. Andrew's. The Guild desires to make public acknowledgment of the kindness in connection with the decorations of the stage to Messrs. R. Fair & Co., Messrs. Jordan Bros., and Mr. Alf. Kingscote. The piapoforte used was a Heintzman.

OFF TO BERLIN.

A Deputation That Will Leave Peterborough To-morrow.

The best sugar deputation from Peterborough County will leave at 8 o'clock to-morrow morning for Berlin, where the sugar factory of that town will be inspected. The deputation from Peterborough will consist of the Warden and members of the County Council, the Mayor and members of the Town Council, representatives from the Board of Trade, the West Peterborough Farmers' Institute and the representatives of the local press. The delegation will leave Toronto at about 5 o'clock in the evening and will reach Berlin at about 8 o'clock. The return trip will be made on Friday evening.

SOCIAL AND PERSONAL.

Mr. Davies of H. E. Bradley & Co., spent yesterday in Toronto buying Christmas novelties.

A number of Peterborough gentlemen are in receipt of invitations to a ball to be given in the city hall, at Stratford, by the bachelors of that city. Mr. A. E. Jackson, formerly of the Canadian Bank of Commerce staff, Peterborough, is Hon. Secretary.

A CHEAP SUBSTITUTE FOR COAL.

Instead of $15-a-ton coal, use gas for cooking—cleaner, cheaper, better.

THE BOARD OF TRADE'S BUSY MEETING.

Will Send Representatives to Berlin To-morrow.

SOME RESOLUTIONS ADOPTED

Transcontinental Railways, Fast Atlantic Steamships and Other Great Problems Were Discussed.

A short session of the Peterborough Board of Trade was held last night in the Town Council Chamber, the President, Mr. D. W. Dumble, in the chair. There were also present, Messrs. Robt. Fair, E. J. Toker, T. E. Bradburn, W. H. Meldrum, T.A.S. Hay, Dawson Kennedy, J. W. Garvin, D. Hughes-Charles, W. H. Bradburn and A. P. Poussette.

COMMUNICATIONS

were received as follows:

From the Department of Public Works, acknowledging the receipt of a resolution re the early completion of the Trent Valley Canal.

From Mr. E .G. Patterson, regretting his inability to be present at the meeting.

From the secretary of the Windsor Board of Trade, enclosing a resolution adopted at a meeting of their Board as follows:—

Windsor, Oct. 1, 1902.

Copy of resolution passed by the Windsor Board of Trade, Sept. 30, 1902:

That this Board views with satisfaction the resolution recently passed by the Maritime Board of Trade at Sydney, N. S., desiring the Government to endeavour to establish closer trade relations with Newfoundland and the British West Indies. That this Board urges the co-operation of the different Boards of Trade, to induce the Dominion Government to give their early and careful consideration to the whole matter with a view to securing the trade of Jamaica for this country, and arranging a basis for confederation between Canada and Jamaica and between Canada and Newfoundland, if practicable.

SUGAR BEETS.

The President in addressing the members said that the principal reason for which they had met was to discuss the matter of a beet sugar factory in Peterborough. He invited discussion on the matter which he claimed was one of supreme importance.

Mr. T. E. Bradburn, of the Peterborough Beet Sugar Company, asked the Board to send a delegate, or more than one if they could see their way clear, to accompany the delegation from the Peterborough Town Council and the County Council, to Berlin on Thursday. He said that he would not take up their time in discussing the matter, as they were all aware of the facilities that Peterborough offered for the establishment of such an industry here.

Mr. Robt. Fair in a few words of appreciation of the benefit he felt would be derived from the establishing of a beet sugar factory in Peterborough, moved the following resolution:

That inasmuch as experiments, widely conducted have demonstrated that Peterborough county is peculiarly suited for the growth of the sugar beets, and as the railways centreing here and the Trent Waters offer very great facilities for marketing the roots, a beet sugar factory should be established at Peterborough, and this Board urges upon the Town and County representatives the expediency of encouraging and aiding the effort of any Company disposed to locate a factory at Peterborough.

Mr. D. Hughes-Charles in seconding the resolution, expressed his hearty sympathy in the project of establishing a beet sugar factory in Peterborough. It was a scheme that would tend to develop a flourishing industry in our midst.

Mr. J. W. Garvin explained to the meeting the circumstances which led up to the formation of the company. Mr. T. E. Bradburn, he said was President, and he himself was connected with the concern. They had entered into an agreement with a Construction Company to build a plant to cost $555,000. The Company had agreed to take stock in the Company to the extent of $175,00 and $275,000 in the company's bonds, so that they would have to raise only $150,000. Mr. Garvin then went into the question of the feasibility of the scheme, touching upon the matter of the excellent facilities that this district offered, and the great market there was for sugar in Canada. In referring to the question of assistance from the town, Mr. Garvin said that they had struck upon an innovation. They were not going to ask the town to give them a bonus, but they were going to ask them to take $40,000 worth of stock in the concern. He was sure that the interest on the investment would yield them a profit of $966 a year. He thought they should receive this assistance from the town, as they themselves were not in the scheme for what there was in it, any more than the interest they felt it would be for the community.

Some little discussion then ensued as to who should represent the Board on the deputation, and finally upon motion Mr. T. A. S. Hay, Mr. Hughes-Charles and Mr. John Carnegie were asked to go as the Board's delegates.

The next resolution introduced was by Mr. D. Hughes-Charles, who moved:

This Board congratulates the American Cereal Company on its splendid accomplishment in the erection of its magnificent factory at Peterborough, and now in operation. The Board hopes that the quick appreciation of Peterborough as a desirable site for its great industry may be more than justified, and that every prosperity may reward the achievement now in operation, and in course of construction. Also that a copy of this resolution be forwarded to Mr. Stuart.

Mr. Hughes-Charles paid a great tribute to the energy of the American Cereal Company's managers, and spoke of the great advertisement this magnificent establishment was to Peterborough. He understood that whilst the mills are not yet running at their full capacity still their pay sheet was $10,000 a month.

Mr. J. W. Garvin seconded the resolution. In doing so he fully endorsed what Mr. Hughes-Charles had said.

FIRE INSURANCE.

Mr. W. H. Meldrum then moved, That the insurance companies having determined to vary the rates in proportion as insurers exercise precautions against fire, this Board urges all citizens to get the benefit of the lower rates by systematic and continued efforts to keep cellars, window areas, sheds and yards clear of paper, rubbish and combustible material.

TRANSCONTINENTAL LINES.

Mr. T. A. S. Hay introduced the matter of a transcontinental railway, in the following resolution:

That the proposed construction of new transcontinental railways has the hearty appreciation and approval of this Board, as it realizes that every development of our magnificent western land, assures a corresponding development of eastern trade.

Also that this Board is satisfied that the grain trade of the west will be more largely via the Great Lakes from Port Arthur, and realizes that too much speed cannot be made in the construction of the Trent Canal, to assist this great commerce, destined to reach Midland City. And that a copy of this resolution be sent to Hon. Mr. Blair.

Mr. T. E. Bradburn seconded the resolution after Mr. D. W. Dumble had made a stirring speech in support of it.

FAST STEAMSHIP LINE.

Mr. W. H. Meldrum moved, seconded by Mr. E. J. Toker that:

This Board heartily endorses and supports the project for a fast steamship service between Canada and Great Britain and hopes the Federal Government will see that the new service may be equal to the expectations of the country, and a credit to Canada; and that a copy of this resolution be forwarded to the Minister of Trade and Commerce.

The Board then adjourned.

A NARROW ESCAPE.

An Accident on George Street Last Night.

What might have been a serious accident occurred last night, about six o'clock, on George street, between Charlotte and King streets. The light at the corner of George and King streets was not burning, and the street in the near vicinity was very dark. A cart driven by a young girl, and a buggy in charge of a boy, coming from the north and south, and not seeing each other, collided. Happily they were proceeding at a walk, and though thrown out the occupants of the vehicles were not injured. The buggy was rather badly broken. A considerable crowd was helping to unharness one horse and pacify the other, when the bus of one of the hotels appeared on the scene, and drove right into the crowd. Whether the darkness concealed the men, or what it was, there was a narrow escape from being run over.

NEWS NUGGETS.

—All Saints' choir will hold its weekly practice to-night at 7.30.

—Norwood, Lakefield, Keene and Millbrook, contributed to the attendance at the concert last night.

—A young lady was nearly run down by a horse and buggy at noon to-day at the corner of Water and Hunter streets.

—The next dance of the White Rose Club will take place on Thursday night in the Foresters' Hall, Simcoe street.

—A horse belonging to one of Mr. George Stevens' wagons ran away this morning, doing considerable damage to the vehicle.

—Mr. John Haggart will hold a sale of household goods at the residence of Mr. W. W. Daly, 805 George street, at one o'clock to-morrow.

—In giving the programme of the Literary Evening in the T.A.S., on Monday night, the name of Mr. Jas. Browne was omitted. Mr. Browne kindly gave a vocal solo, and was enthusiastically encored.

—Mr. Jas. Maitland, representing Heintzman & Co., of Toronto, will be in Peterborough on December 1st, and will remain a week. He will be pleased to tune or repair any person's organ or piano. Leave orders at C. B. Routley's store. ws

—The snow storm of to-day is a reminder that winter is fast approaching, and in fact at this date last year we had sleighing. Snow fell in sufficient amount on Nov. 25, 1901, to give fair sleighing, and at the close of the month there was six inches on the level. This however disappeared early in December. The first occasion that the thermometer went below zero was on Dec. 16. The temperature hovered around that mark several times previously, notably the last week of November.

NEXT ANNUAL MEETING

Of the Experimental Union to be Held on December the 8th and 9th.

The next annual meeting of the Ontario Agricultural and Experimental Union will be held at the Agricultural College, Guelph, Ontario, on Monday and Tuesday, December 8th and 9th, starting at 1.30 p.m. on Monday. Reports will be presented and discussed on co-operative experiments conducted throughout Ontario in agriculture, horticulture, economic botany, poultry raising, and forestry. As there were in all about 4,000 experimenters throughout Ontario in 1902, these reports should be very instructive.

Besides four general sessions, there will be two sessions on household economics, which will be especially interesting to the ladies. Miss Bessie Livingstone, Normal School, Ottawa; Miss Laura Rose, Guelph, and Mr. G. C. Creelman, Superintendent of Farmers' Institutes, Toronto, are among the speakers for the ladies' sessions.

Besides the reports of the co-operative experiments, addresses will be delivered at the regular sessions by Prof. Jas. W. Robertson, Agricultural Commissioner, Ottawa; Dr. B. E. Fernow, Director of the New York State College of Forestry, Ithaca, N. Y.; Hon. John Dryden, Provincial Minister of Agriculture, Toronto; Dr. Jas. Mills, President of the Ontario Agricultural College, Guelph; W. J. Brown, Principal of the Canadian Correspondence College, Toronto, and others.

As the Provincial Winter Show is to be held in Guelph immediately after the Experimental Union meeting, and as the excursion rates will cover the whole week, an excellent opportunity will be afforded all persons who wish to visit Canada's chief centre of agricultural education in December next.

Programmes, giving full information regarding the meeting, excursion rates, etc., can be obtained by applying to the secretary, C. A. Zavitz, Agricultural College, Guelph, Ontario.

MARRIED.

NICHOLS — SMITH. — At the Methodist parsonage of the Charlotte street church, by the Rev. W. J. Jolliffe, B. C.L., on Tuesday, Nov. 25th, Mr. Garner Nichols, of the Township of Smith, to Miss Elizabeth, daughter of Mr. Wm. Davis, of Young's Point.

AN IMPROVEMENT.

A Handsome Centre Table Placed in the G. T. R. Station.

A neat little improvement has been made to the ladies' waiting room of the Grand Trunk station. Mr. John Frame, master carpenter at the Company's shops, Allandale, came down to Peterborough and erected a neat centre table, with circular ends. The top of polished oak, is supported upon a base of oiled pine, arranged like wainscotting. The centre table is flanked on each of its long sides by high back curved seats, in white birch veneer. The little affair adds much to the appearance and convenience of the waiting room.

ST. MARK'S, OTONABEE.

Next Sunday, Nov. 30th, the Holy Communion will be administered after the service, which will hereafter begin at 3 p.m. instead of at 2.30.

During the Advent season, which begins next Sunday, Rev. E. A. Langfeldt will preach a series of sermons at St. Mark's on the following subjects:

Nov. 30th.—"Christ the Sealer of Prayer and Praise."

Dec. 7th.—"Christ the Bearer of Prayer and Praise."

Dec. 14th.—"Christ the Object of Worship."

Dec. 21st.—"Christ the Subject of Song."

Established Half a Century.

"C.R. CO." RUBBERS

are made by the Canadian Rubber Company, who are the oldest, the largest, the most reliable makers of Rubber Footwear in Canada.

"C. R. Co's" Light Rubbers are made on perfect fitting lasts, and are strictly high-class.

"C. R. Co's" Rubber Boots and Lumbermen's Rubbers have a reputation the country over. Their "Armour Proof" brand has given unbounded satisfaction.

We handle all these Rubber Goods and can conscientiously recommend them.

PRESIDENT WILL GO.

Farmers' Institute Interested in Beet Sugar Question.

At the request of the Department of Agriculture, the Directors of the West Peterborough Farmers' Institute met on Saturday, November 22, to obtain an expression of the opinion of the members as to where the School of Forestry should be established.

In the absence of the President, Vice-Prsident Dench took the chair.

On motion, Guelph was the place selected by the unanimous vote of the directors.

It was also suggested that a delegate should be sent to Berlin to act in conjunction with the delegates sent by the County Council, and other bodies, with a view of obtaining information regarding the advisability of the establishment of a beet sugar factory in Peterborough. The president was asked to accompany the delegation.

Do You Wear Rubbers?

If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style speak for themselves.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID.

Richard Hall & Son

PETERBOROUGH'S MODERN STORE.

Dress Goods Extraordinary!

Here is an opportunity to secure a genuine bargain in up-to-date Dress Goods. No culls or back numbers, but stylish new goods at a sacrifice.

OUR 35c TABLE

Comprises an enormous assortment of new goods, with all the popular colours—every one of them worth our regular selling price, 50c a yard. So they ought to be a bargain at our sale price..... **35c**

OUR 65c TABLE

Comprises many desirable materials of every imaginable shade in Friezes, Homespuns, Serges and Cloths, at genuine reductions. Not one of the lot that is worth less than a dollar a yard regular.

OUR DOLLAR A YARD TABLE

Comprises many novelties in single dress lengths as well as piece goods. Genuine reductions prevail here, too. Many materials worth in the regular way $1.50 and $1.60 per yard. Don't Miss our Dress Goods offering during this sale.

A SOLILOQUY AND A SERMON.

Two Contributions to the Literature of the Referendum.

The following has been contributed to the Examiner. The "Soliloquy" was crowded out of yesterday's edition:

A SOLILOQUY.

Shall or shall I not vote on the 4th of December? The law submitted to voters is virtually a prohibitory one. Is the principle of prohibition right? Is it right to take away the liberty so long enjoyed by our citizens? To this my soul answers, "It is right if the liberty should never have been granted. Had legislators and their constituents been able to look into the future and to see with prophetic eye the monster of iniquity which the liquor traffic has now become, they never would have agreed to the endorsing of that which has become the greatest physical curse of modern times. It cannot be wrong to forbid the continuance of that which, if all about it had been known, would never have been begun. If other prohibitory laws—which curtail the liberty of the citizen as much as this one proposes to do—are right, this one cannot be wrong. It is wrong I feel to perpetuate evil when an opportune time has come for the removal of it.

I have been told that the law cannot be enforced, and that therefore more evil than good will arise from its enactment. If the first part of this objection is true, the second must be true also. On examination I find that ample provision has been made for its enforcement. This provision can be utilized and good effects will follow. My reading makes me to know that prohibition does not prohibit to a large extent. Reliable testimony to this effect comes to me from Maine and other States under prohibition. I cannot think of any prohibitory law that is not violated, and yet it would not do to repeal them because of the disrespect shown to them. The law now regulating the traffic is often violated but no one—just on that account—asks for the repeal of it.

I cannot think that our drug stores—if the law is approved of—will become as great pests as the saloons now are, or that our physicians are so debased as that they will consent to give orders for liquor to confirmed drunkards. My present knowledge of our druggists and doctors leads me to think of them as much more honourable men than many of those seem to do who are arguing against the endorsement of this Liquor Act of 1902.

My heart says to me again that the revenue from the traffic should not reconcile me to it if it is an evil. Innocency cannot be purchased with money. The cost of poor houses, jails, penitentiaries and murder trials—many of them so closely identified with the liquor traffic—seems to me to far outweigh the revenue derived from the trade.

I hear a voice saying to me, "Don't forget the millions of dollars withdrawn from business circles to be spent on strong drink alone as compared with the thousands that come to us in the way of revenue.

My heart tells me from all these reflections that I should vote for the Liquor Act as a well meant, however imperfect, attempt to remedy the state of matters as they exist in our community at the present time. Future legislation can give us the needed improvements.

I AND MYSELF.

A SERMON ON TEMPERANCE AND PROHIBITION.

At St. Andrew's church last Sunday night the pastor, Rev. J. G. Potter, preached from the Scripture Isaiah 28, 7:—

"But they also have erred through wine and through strong drink are out of the way; the priest and the prophet have erred through strong drink, they are swallowed up of wine, they are out of the way through strong drink; they err in vision, they stumble in judgment."

After a brief exposition of this portion of Scripture, Mr. Potter spoke of the awful havoc strong drink had made in Biblical as well as in modern times, and how that, instead of remembering that God held them responsible for the betterment of the condition of His people, the very priests and prophets had erred in vision and stumbled in judgment. It made it all the more sad when they should have been the conscience to the city. We ought not to be shaken in our faith, nor turned aside from duty, because either priest or prophet erred in vision. The story is an old one.

Mr. Potter then took in order the objections urged against the Liquor Act. That any one should consider it an impediment to liberty, he viewed as most absurd. He contended that the very object was to set at liberty thousands upon thousands of drunkards annually, as well as to free the homes of these convicts from the curse resting upon them. Thousands also in asylums, reformatories and penitentiaries through strong drink — with personal liberty curtailed — but the greatest cause for attention was the fact that many merchants throughout the town and province, as well as many politicians, were living in mortal dread of the monster traffic, for fear that they would lose business or position. This was the most lamentable bondage in which a person could get.

Regarding the alleged failure of the Scott Act the facts are too well known. While the Scott Act Committee received half the fines imposed, they were able to prosecute, and with such enforcement matters would have righted, but the fines were transferred by law to the county, and it is a shameful reflection to make, yet true, that after that little was done. Public sentiment did not scorn the Scott Act. The action of the Government killed the only independent method of prosecution. The fact is that whenever the Government makes an honest effort to stand by its Inspectors the law will be observed.

With reference to a well enforced license law, we have had notable examples of the flagrant violation of the law, simply because these are winked at by the authorities. Nothing could be worse than the way in which the license system is carried on. Every provision is made in the present Act whereby it will be under proper authority. In any case, illicit drinking goes on in many places now, and will not be any worse. Far better in any case to keep back our hand from giving a Christian warrant to a business of that kind.

That the principle of prohibition has proved a failure in other places is a baseless falsehood and a perversion of the truth. It has never been denied that liquor could be obtained in Maine. Yet the extreme diminution of the sale of drink, and the consequent sobriety and prosperity of the people, and the extensive advance in business circles warrants us in believing that it is a long step in the right direction. It is an undoubted fact that if the $18,000,000 spent in liquor in the Province last year were not thus worse than wasted, it would have been very largely spread over the various business and trades houses. The best men in these countries speak in the highest terms of praise about the efficacy and benefit of the system. No business interest of any kind would suffer.

There is no weight to be attached to the assertion that it would create an army of spies. The Eye of the Almighty is ever upon every work, and if the law is being flagrantly violated men have a duty to perform. In any case even if this were necessary it is a safer experiment that the record of Ontario for the past ten years. For the years 1892—1901 there were 146,129 criminals in Ontario, while there were 220,369 throughout Canada, 115,431 of the former number were for drunkenness alone.

Referring to the number put out of employment it might be well to say that the death rate among that class of men is so exceedingly high that it is a piece of philanthropic work to give such an eighteen months' notice to find healthier employment.

To think for one moment that compensation should be made is to reveal a very foolish mind. Licenses to sell are only given from year to year. At the close of any year full value has been given for license fee, but this law gives till May, 1904 to get rid of stock, etc. It is absurd to talk of direct taxation and increased debt. In any case is it an honest thing to allow the drunkard to pay the revenue of our country by the mind, bodies and homes of such as contribute to the $555,800 revenue. Is it not a mean thing to put the matter of revenue upon the shareholders of the poor victim to strong drink. If this is our spirit then no wonder many would have more drunkards on this account, and do nothing to rid the country of the pest.

There are many who are true temperance men who would be a tower of strength in this movement were it not for the fact that they are too self-confident in their power of self-control. It is exceedingly selfish for it does not recognize the claims of the weaker brother in life's struggle. The best reforms that have ever been passed were proposed by individuals, but only found their authority, force and crystalization in law. It is but the highest will of the most considerate, sympathetic and philanthropic class of a community being made the will of the state for the welfare and not the detriment of all.

Take advantage of the important opportunity given you on December 4th, and vote to save the boys—the men of the future.

DEALERS WERE FINED

For Selling Tobacco and Cigarettes to Minors.

(Belleville Intelligencer.)

The Magistrate was upon the bench until nearly six o'clock on Saturday, investigating the charges preferred against four dealers, who were charged with supplying tobacco and cigarettes to minors. The interest in the cases was manifested by the large number of persons who remained in the court until the close. Three cases were disposed of on Saturday and the fourth one was further investigated on Monday morning.

The result of the investigation was that the parties charged were found guilty and a fine of $10 and costs in each case was imposed.

As a result of the investigation it is probable that some other dealers will be summoned on similar charges.

THE NORWOOD BUDGET.

Personal Mention From the East Riding Capital—Temperance Meetings.

Mr. D. Eason of the Trent Canal office, Peterborough, spent Sunday in town, the guest of Mrs. Wm. Eaton, sr.

Mr. R. H. Leighton, principal of the Public School, has moved into one of Mr. H. G. Buck's houses on Belmont street, and Mr. J. Doherty has taken possession of the house vacated by Mr. Leighton, on the Hastings road.

Mrs. Reid and her daughter, Mrs. McGarvin, of Toronto, are the guests of Mr. and Mrs. Geo. Niebel, this week.

Rev. Mr. McFarlane, who has been called to the pastorate of the Presbyterian church at Warkworth, arrived in town from South Mountain, on Monday evening, accompanied by his wife and four children. On Tuesday about ten members of the Warkworth congregation drove over with their wagons and conveyed the minister and his family and all their household goods to their new home. While in town they were the guests of Mr. and Mrs. W. E. Roxburgh.

A good deal of shipping continues to be done here. During the past week Messrs. J. Finaly & Son shipped a car of hubs to Hamilton; Messrs. Buck & Walsh a car of hogs to Peterborough; Messrs. Kirkpatrick & Buck, a car of poultry, consisting of over three thousand carcases, to Nelson, B.C., Mr. George Stevens, a car of ashes to Greenfort, Vermont, and a car of scrap iron to Hamilton; Messrs. Roxburgh & Sons, a car of oats to Peterborough; Mr. W. T. Buck a car of cheese to Montreal; Mr. Mr. George Patterson, a car of household goods and car of cattle to Chester, Vermont; and Messrs. Kirkpatrick & Buck, car of wood to Toronto.

Don't forget the musical evening to be given in the town hall on Friday, under the auspices of the English church.

On Sunday evening last the Methodist and Presbyterian churches united and held a mass meeting in the Methodist church. Rev. Mr. McQuaig was present and gave an address on temperance.

Small calendar pads for fancy calendars; also a varied assortment of mounting board in different weights and colours on sale at the Examiner office.

GENERALLY SPEAKING

THE County Council doesn't seem to recognize Peterborough, except when it wants to get money out of the town. The report of the Bridge Committee recommended that the "Ashburnham" bridge be repaired, and that Peterborough pay half the expense. Why not call it the Hunter street bridge, since the town pays half the expense of its maintenance, while Ashburnham, through the county rate, pays perhaps one-fiftieth part? Of course the County Fathers didn't mean anything bad, but in the way of words their report shows that Peterborough "cuts ice" in their estimation chiefly in the way of being a "milch cow."

* * *

THE County Councillors declined to submit a bylaw to the ratepayers to authorize the taking of $40,000 stock in a beet root sugar factory. They also held their last session without taking any steps to establish a House of Refuge—a proposition which it is estimated, will not only save the county from the reproach of housing its infirm and poor with criminals and rogues, but will save the municipalities expense in proportion to the difference between wholesale and retail rates.

* * *

THE attention of this column has been called to the danger to the public of the level railway crossings at the foot of Hunter street. A gentleman, who does a good deal of driving, says that the George street crossing of the C.P.R., or the several G.T.R. crossings, "are not in it," as regards danger to life and limb with the Hunter street crossings in question. Shunting is continually going on, and the narrowness of the Hunter street bridge prevents teams coming from the east from retiring in case of danger, and buildings obstruct the view of approaching engines. It is said to be a very dangerous crossing, or rather series of crossings, and the traffic, and, consequently, the danger, is increasing every day.

* * *

TAKE the other end of Hunter Hunter street, at St. Peter's Cathedral. There's another dangerous crossing there. It is by no means a level crossing, for it is worn and rough, with a deep pit in the middle, where the planks have rotted away, leaving a hole. It is in perpetual darkness. The deep shade cast by the Cathedral shuts off the light from Rubidge street lamp, leaves the crossing in Egyptian darkness, and the unwary pedestrian, is liable, as has often happened, to step into a pool of mud more than ankle deep. This crossing is perhaps the worst and most dangerous street crossing in town. One Alderman uses that crossing four or five times a day, and yet it has been in its present disgraceful and dangerous condition for weeks.

* * *

IS there any good reason why the thick layer of mud on George, Hunter, Simcoe and other business streets should not be removed before winter sets in? And is there any good reason why the streets in general should not be put in shape for winter? And finally, is there any good reason why the ratepayers have not received better value for the money spent on streets this summer?

* * *

IS our street roller an auto-mobile, running itself, or is it subject to the orders of the aldermen? What proportion of the work it could do, has it been made to do this year? The people were induced to consent to its purchase by the assurance that it would be busy all summer keeping our streets in perfect condition. How many days, not to speak of weeks, or months, has it been employed this summer?

* * *

MANAGER R. H. Bradburn has sprung a new opera house upon the people. We can stand that, but when he springs a new play like Uncle Tom's Cabin upon an unsuspecting public, he makes a large draft on our powers of admiration.

* * *

A GOOD name is better than riches. Petetborough has won a good name for fairness in sports. The next best thing to winning championships is to win them like sportsmen. Peterborough Rugby team has even won over the erstwhile implacable Londoners. The sporting element of this town, whether in lacrosse, hockey or rugby, has won a good name for fair sport and sporting hospitality. Contesting teams are received like guests, not as enemies. They are met at trains, entertained, "wined and dined." Per contra, the last trip the rugby boys made to Ottawa they never set eyes on a member of the Ottawa team except upon the field.

* * *

TO-DAY'S first taste of snow brings premonitory shivers of winter. We who are well clad and housed need not be concerned, but if our hearts are as warm as they should be, we will think of these to whom wintry blasts mean suffering. The hearts of the King's Daughters, an organization under the auspices of St. John's church, but which extends its charity to all who are in need, suffering, sorrow or any other adversity, are open, and they will hold their annual entertainment on Dec. 18th to raise funds for a charitable work, in St. John's School Room. A comedietta, tableaux, etc., will be presented. The broad and beneficient use of the funds thus secured, should lead all who wish to hasten their enjoyment with good deeds, to patronize this entertainment. Who does not sleep the more soundly at night if he makes a bedfellow of the consciousness that some poor person will be the more comfortable by some little charitable contribution or act?

THE Toronto Board of Trade last night discussed the burning question of discriminating freight rates and their remedy. Our own Board of Trade was up among the stars passing resolutions regarding a Fast Atlantic service, Trans-continental railway, beet root sugar from the deputation stand-point, but they got down to earth and to business when they urged business houses to keep down insurance rates by preventing their cellars from becoming fire-traps, by accumulation of waste paper, packing cases and other litter.

* * *

THE idea touched upon in a resolution regarding the desirability of completing the Trent Canal was all right, but something more energetic than platitudinous resolutions is needed. A big push should be made.

YOUNG'S POINT.

(From Our Own Correspondent.)

Our village this past week has been undergoing quite a number of improvements in sidewalks, buildings, etc. Our pathmaster has been repairing and extending the sidewalks, which was greatly needed, and will be much appreciated when completed.

A new driving shed is being erected at the Methodist church, and Mr. J. Reid is building an addition to his new dwelling, and several other improvements are being made in the village.

Rev. Father Phelan is absent in Keene this week.

Rev. Mr. Creswick has returned home after spending the past week in Toronto.

Miss Emma Scollard has returned home after an extended visit with friends in Rochester.

Miss Josey Phelan of Lakefield is visiting with friends here.

Miss Mary McPherson, Peterborough, spent last week here as the guest of her aunt, Mrs. Jas. Carl.

Mrs. McFarling, of Lovesick, is visiting with friends here.

Mr. P. P. Young, is rebuilding his scow belonging to the steamer Majestic, the work being superintended by Mr. Hickey, of Peterborough.

Mr. A. Smith of Buckhorn, spent Sunday with friends here.

A Safe Store to Buy Furs.

William Leeb & Sons invite an early inspection of their large stock of fine furs, expressly manufactured for themselves. They have planned for even a larger season than last. The advent of the cold weather finds them prepared with a very complete display of high class furs, for ladies', gentlemen's and children's wear. Persian Lamb, Grey Lamb, and Electric Seal jackets, as well as other furs. Fur-lined cloaks, and capes, victorines, boas, scarfs, muffs, capelines, etc., also men's fur coats, fur-lined coats, children's furs, sleigh robes, etc. Any style of fur garment made to order, and guaranteed the best that can be produced for the money. Make an early visit to this safe store to buy furs.

W. LEEB & SONS.
Fur Manufacturers, No. 413 George street.

Judging Milk.

The quantity of fat in milk is not the only standard by which it should be judged. Nearly all the cows when fed plenty of wholesome food will give milk sufficiently rich for ordinary use, but milk produced in low, damp barns, the cows fed on musty hay, soured brewery slops, moldy corn fodder, bedded with an oak plank and curried with a milking stool, is not a good food, although it may test 6 per cent. of butter fat.

Melanes Will Run.

Vancouver, Nov. 25.—D. McInnes, ex-Lieutenant-Governor of British Columbia, has announced his candidature as an independent candidate for the vacancy of Burrard, caused by the death of George R. Maxwell.

THE ASSOCIATED BOARD
OF THE ACADEMY OF MUSIC
AND THE
ROYAL COLLEGE OF MUSIC
IN CONJUNCTION WITH
McGILL UNIVERSITY.

President for Canada, His Excellency the Governor-General, Rt. Hon. the Earl of Minto, Visitor of the University.

Examinations for the year 1903-3 will be held as follows;

Theory (written) May 4th.

Practical, during the month of May. Notice of the exact dates will be duly given.

In addition to the Local Centre and School Examinations, a Teachers' Certificate Examination, for individual Teaching Certificates and title of Licentiate of the Associated Board, will—for the first time in Canada—be held on the dates above mentioned.

Entries close on April 1st.

Syllabuses, entry forms, specimen Theory papers, Music, and all information can be obtained from

What Consumption Means To-day.

There was a time when that word consumption struck terror to the stoutest heart. It need not do so now. In the light of present knowledge consumption is always to be considered hopefully.

We all know that when the little consumption germs have once gained a foothold in the lung tissue there is no one remedy which will directly destroy them or drive them out. The only thing that will eventually dislodge them is an abundant supply of rich blood throughout the whole body and particularly in the lungs. This will build up healthy tissue in which the germs cannot live.

To get this needed supply of good blood, and keep it pure, there are many things to do and you must try to do them all. Live all day in the sunshine and air. Sleep all night in a room that gets plenty of both. Keep warm. Don't use up one extra ounce of energy. Rest a great deal. Learn how to breathe. And above all take regular, abundant ***nourishment.***

Let your doctor prescribe what medicine or stimulants you need, if any, and advise you about bathing and what to eat. And with his consent add to this Scott's Emulsion.

No other form of nourishment is so rich in material for making good blood and repairing damaged tissue. It acts with peculiar directness upon the lungs and lends valuable aid in driving out consumption germs.

We do not say it is a cure for consumption. There is no consumption specific. Scott's Emulsion is simply one of the most effectual of the many good influences, any one of which may turn the scale in your favor. With right living and proper nourishment there is always good ground for hope. Men have lived to healthy old age with only one lung. The germs got the other.

If a burglar crept into your room at night and had you by the throat you would not stop to calculate how much help you needed. You would shout for all the help you could get.

This is how you must treat consumption. Summon every possible force to drive it out by getting good blood and keeping it pure. You should not neglect a single source of help. You certainly cannot afford to overlook Scott's Emulsion.

We'll send you a sample free upon request.

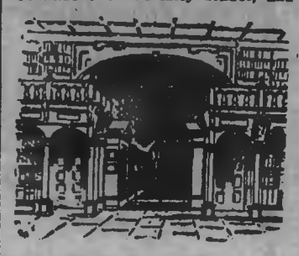
License Inspector West Peterborough

A LITERARY SHRINE

CELEBRATION OF 300TH ANNIVERSARY OF THE BODELIANA.

A Famous Link With England's Glorious Past—History of the Successful Effort of Sir Thomas Bodley at Oxford—A Reminiscence of King James I.—How the Library Has Grown and Prospered Since That Long-Gone Day.

Oxford celebrated this year with befitting ceremony the 300th anniversary of the opening in 1602 of its famous library, the Bodleian. When in 1598 the shrewd and scholarly founder of this literary shrine began the task by which he is best remembered the university was without a library. Of the noble gift of the "good" Duke Humphrey of Gloucester nothing was left but the empty room above the Divinity school, and



INTERIOR OF THE BODELIAN.

the roof of this was in decay. Even the shelves had been sold, their priceless contents having been destroyed or scattered some fifty years previously. By dint of a heavy personal expenditure and persevering appeals to the generous, Sir Thomas Bodley succeeded in his purpose. He restored the roof of the old library, and placed within it on shelves designed by himself some two thousand volumes, which were duly chained in their cases. Chains continued to be used till the middle of the eighteenth century. James I., a niggardly but withal useful patron of Bodley, whom he graciously said should be called "Godly," declared: "If it was so that I must be a prisoner I would desire no other durance than to be chained in that library with so many noble authors." Generations of poor scholars have since, and doubtless with more sincerity, echoed the words of the pedant King. The Gothic setting of the Bodleian and the beauty of the buildings around add infinitely to its intrinsic fascination. To-day its stores have over-ran into the cellars of the adjacent Sheldonian theatre, and filled all available space beneath the majestic dome of the Radcliffe. The latter was formerly the Medical Library of Oxford, founded by Dr. Radcliffe. When its books were removed, for convenience, to the new Museum the great round room was made the Camera or reading-room of the Bodleian, and its cellars repositories for the newer books of the Bodleian. Especially rich in Oriental manuscripts, the "show" features of the Bodleian include a copy of the Koran inscribed on a calico cope, rare first editions of the classics, an Ovid that once (apparently) belonged to Shakespeare, the desk of Clarendon, a chair made out of the timber of the ship in which Drake sailed round the world, the copy of Sophocles found clasped in the hands of the drowned Shelley, the MS. of Bodley's quaint autobiography, and the lantern used by Guy Fawkes at Westminster.

Bodley presents an interesting character study. Descended from the ancient Bodleighs of Dunscombe-by-Crediton, born in 1545, and educated partly at Geneva and partly at Oxford, he first won distinction as an ambassador. He married a rich widow, Ann Ball, of Bristol, and it was her money which enabled him to win the fame of a princely benefactor. When she died in 1611 he erected to her memory the monument in St. Bartholomew's Church, Smithfield. It was due to his foresight that the great library was for a long period the national library, and he framed a series of stringent rules for its preservation and improvement, among them being one enjoining celibacy on the part of the librarian, a rule to which his first librarian provided an exception, but which was for long adhered to. When he died in 1618 he left the greater part of his money to the foundation on which he had already lavished so much. His expectant relatives naturally deplored what they called his "drunkenness with the applause and vanity" of his library, and it is recorded that the grandchildren of a sister of his who had eloped with a poor minister came in their old age to petition the university for pecuniary aid.

Double.

At a London entertainment recently Sir Frank Burnand, the editor of Punch, and Robert Noble Acutt, who is well known in South Africa, had a rather awkward experience. The latter, it appears, arrived first and soon became embarrassed by people whom he never saw before smiling and bowing. The South African returned the nods. But matters went too far when an elderly lady jumped up to him and almost folded him in her capacious arms, with the remark: "How do you do, Sir Frank? Delighted to see you." When Mr. Acutt realized that he was being taken for the editor of Punch, he was perplexed. In the midst of his embarrassment he saw the real Burnand coming and resolved to ask his advice. He walked up to him and said, "Sir Frank Burnand, I believe?" The distinguished author started and said in an affected sepulchral tone. "Yes," "You'll excuse me, Sir Frank, but the fact is I wanted your advice, if you will kindly give it to a stranger. Ever since I came into this affair I have been taken for you, and"— "I don't wonder," interrupted Sir Frank. "I thought you were myself!" This was too much for Mr. Acutt, and as a result of the merriment Sir Frank and his double are now personally acquainted.

Civil Servants of Victoria.

Melbourne, Nov. 25.—In moving the reform bill, the Premier of Victoria, W. H. Irvine, declared the ministry would not continue in office if the proposal to give civil servants separate representation in Parliament were defeated. It was imperative that the state's natural resources should be relieved of the constant pressure for increase of civil servants' salaries.

TITLES WITHOUT MONEY.

Owners of Patents of Nobility on the Wages of Workingmen—Some Very Striking Instances.

It is remarkable how many people prefer to work for a living rather than be encumbered with a title and untold wealth, but there are quite a number of peers who have discarded vast fortunes in favor of £1 a week.

Several peers have displayed a liking for a seaman's life, and Lord George Drummond, who died in 1687, was one of these. He was heir to the earldom of Perth, but pining for adventure he renounced his claims and secured a berth as stevedore on a vessel bound for New York. He subsequently spent 23 years in roving about the high seas as a common sailor before the mast, till, seeking a change, he became a porter on the elevated railroad in New York at a wage of $9 per week. But the hardships he had suffered undermined his health, and, becoming a confirmed invalid, he was supported until his death by Lady Drummond from her earnings as a seamstress.

The late Earl of Aberdeen also preferred a sailor's life to one of the most renowned titles in Scotland. When quite a young man he shipped as a common sailor and by his abilities rose until he became a certified mate, and afterward captain, of a merchant vessel which subsequently foundered at sea, carrying down its aristocratic skipper with it.

Likewise, the present Earl of Lovelace had an elder brother who favored the life of a Deal shipwright above that of a British peer, and who worked in a shipbuilding yard there on a salary of £2 a week until his death a few years ago.

It is not often that man prefers his position as a turnpike gatekeeper to an earldom, but the last Earl of Kent was one of these. When his predecessor died in 1855 he was a gatekeeper near Dudley, and although his claim to the title was recognized by law, much to the surprise of everybody he stoutly declined to accept it.

His reason for this strange refusal was that, being an old man with no heir, his wage of 30 shillings a week and a cottage was quite sufficient for his needs without being encumbered with an extensive estate. Accordingly, for some years the strange sight was witnessed of an earl gathering up the stray coppers passengers threw to him for opening the gate for them, which, with his salary and a ton of coal every winter, composed his sole means of subsistence. When he died he was buried in the vault of the Kent family with all the honor due to an earl.

For a prince to aspire to the life of a railway porter is distinctly unique, but Prince Chilkow, the Minister of Russian Railways, though possessed of untold wealth, preferred to work as a railway servant at Liverpool for many years in order to gain a thorough knowledge of all matters pertaining to the iron road.

He entered the locomotive works there on a salary of 18s. a week, and worked his way up until he ultimately became a guard, and then the station master of a small station outside the city. The position he at present holds in his native land proves that the experience he thus gained has stood him in good stead.

Another prominent Russian who served in the same capacity is Count de Witte, for many years Minister of Finance.

Only one peer has wooed fame as a jockey, a distinction owned by the followed his romantic calling in pre-Earl of Buchan, who for many years ference to his earldom; and the Marquis of Normanby, though possessed of 8,000 acres and a magnificent ancestral residence, elected to labor for 15 years as a curate on £150 a year, a vocation he not long ago abandoned in favor of teaching.

The Earl of Seafield waived his title in favor of hedging in New Zealand, and is at present the owner of a lucrative business in that country, while the Earl of Cameron is now a village doctor in Virginia.

"It's a bad time to swap horses when you are crossing a stream."

That was Lincoln's famous reply to those who urged him to make a change in generals at a critical period of the Civil war.

Lincoln's saying is worth remembering, especially when you are asked to "swap" Dr. Pierce's Golden Medical Discovery for a bootless bargain, described as "just as good," at the critical time when health is at stake.

Dr. Pierce's Golden Medical Discovery is a medicine which has a record of ninety-eight per cent. of cures. It is an absolutely reliable family medicine, non-alcoholic and non-narcotic. It always helps; it almost always cures. Why should any one who is seeking a cure for sickness, and is persuaded that the "Discovery" will cure him, "swap" the substance for the shadow at the risk of health?

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. What is popularly termed "weak" stomach is the common cause of various forms of physical weakness,—such as "weak" heart, "weak" lungs, "weak" or sluggish liver, "weak" nerves, etc. The entire body and its several organs are dependent for strength upon the food prepared in the stomach. The "weak" stomach cannot provide the food-strength for the various organs, which in their turn become "weak" and unable to accomplish the work for which they were designed. "Golden Medical Discovery" cures through the stomach diseases which have their cause in a diseased condition of the stomach and the allied organs of digestion and nutrition.

It enables the perfect digestion and assimulation of food by which the body is built up into a condition of sound health. It purifies the blood, driving out the poisons which breed and feed disease.

Preferred to Die.

"Have taken Dr. Pierce's Golden Medical Discovery and it did me more good than anything I could get," writes Mrs. Jutta A. Wilson, of Cygnet, Wood Co., Ohio, Box 25. "I doctored with three different doctors for weak heart, but they did me no good. I was so tired and discouraged if I had had my choice to live or die I would have preferred to die. My husband heard of 'Golden Medical Discovery' and he bought me a bottle. I took that and the first half seemed to help me. I took six bottles before I stopped. I am perfectly well and am cooking for boarders (I have six), and am taking in washing besides. I will truly say I think your medicine will do all it is recommended to do, and more. It has been a God-send to me. I will be willing to answer any letters of inquiry that any one wishes me to. If you think this will be the means of helping any poor suffering woman to obtain relief you may print it and make any honest use of it you wish to."

Was Bedfast.

"I had been sick for more than a year with kidney trouble," writes Mrs. Lucy Harter, of Jacksboro, Jack Co., Texas. "Several different doctors treated me, but none did me any good. One doctor said I never would be cured, that I had Bright's Disease. I suffered nearly death at times; had spells the doctor called spasms. Was bedfast most of the time for six months. My mother begged me to try Dr. Pierce's Golden Medical Discovery. With but little hope I wrote to Dr. Pierce and he said he could cure me. I began to take his 'Golden Medical Discovery' and although I had given up to die, I began to improve from the start, and by the time I had taken twenty-two bottles I was entirely cured. I thank God for the 'Golden Medical Discovery.' I weigh more than ever before in my life, and believe I am entirely well."

Dr. Pierce's Common Sense Medical Adviser, containing 1008 pages, and over 700 illustrations, is sent free on receipt of stamps to defray expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper cover, or 50 cents for the book in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

—A— BRECHE A MANON LADY

TELLS OF HER EXPERIENCE WITH

DOAN'S KIDNEY PILLS

The Great and Well-Known Kidney Specific for the Cure of all Kidney and Bladder Troubles.

Mrs. P. Bertrand, Breche A Manon, Que., writes:—I think it nothing but right for me to let you know what **DOAN'S KIDNEY PILLS** have done for me. For five months I was badly troubled with a sore back, and such severe pains in my kidneys that I could scarcely walk at times. I got a box of **DOAN'S KIDNEY PILLS**, and before I had them half taken I was greatly relieved, and with another box I was completely cured. I cannot help but give them all the praise I can, and will never fail to recommend them to all kidney sufferers.

DOAN'S KIDNEY PILLS

are 50c. box, or 3 for $1.25; all dealers or The Doan Kidney Pill Co., Toronto, Ont.

POSTAL STATISTICS.

Enormous Increase of Business in the Dominion of Canada Last Year.

The report of the Postmaster-General for the last fiscal year says:

The net revenue for the year was $3,888,126, and the expenditure $3,883,016, giving a surplus of $5,109. These figures do not include the revenue and expenditure of the Yukon and Atlin districts. In 1901 the revenue amounted to $3,421,192, and the expenditure to $3,837,376. Comparing last year with the previous twelve months, the net revenue increased by $466,933, and the expenditure by $45,640. On June 30 last there were in operation 9,958 post-offices, an increase of 124 compared with the year previous. The mail matter posted during the twelve months included 218,628,000 letters, 26,343,000 registered letters, and 7,411,000 free letters. The increase in the number of letters was 21,978,000. Compared in value with the issue of the preceding year, the output of stamps represents a growth of nearly 6 per cent., the value of the output for 1900-01 having been $4,401,138, and that of 1901-2 $4,662,354, a difference of $261,215. The number of pieces issued was 263,478,150, which, compared with the previous fiscal year, indicates an increase of 18,857,110, of 7 7-10 per cent. During the year ending June 30, 1901, the number of paid postal notes was 877,599, and their aggregate value $1,459,015. For the year ended June 30, 1902, the number of paid notes was 1,012,091, and the aggregate value $1,702,469, being an increase of 134,492 in the number of transactions, and of $243,454 in the amount of money transmitted. During the year 1,446,129 money orders of an aggregate value of $23,549,402 were issued, a gain of 1,446,129 in number and $5,593,144 in amount. This is the greatest increase in both respects that has ever been known in the department. Of the orders issued during the year 1,032,417 were payable within the Dominion, and 413,712 payable abroad. Compared with the previous year there was an increase of 195,417, with an aggregate value of $4,098,745 in the former class, and an increase of 99,688, with an aggregate value of $1,494,398 in the latter class. The money order transactions with the United States show a very substantial increase over those of the previous year. The number of orders issued abroad and payable in Canada was 259,305, with an aggregate value of $3,575,803, being an increase of 77,763 in number and $983,957 in amount. The amount of deposits in the Postoffice Savings Bank was $11,882,035, an increase of $190,926. The withdrawals totalled $10,617,070, or $842,375 more than in the preceding year. The balance standing to the credit of depositors aggregated $42,320,209, a gain of $8,869,397.

Some Royal Visits.

Miss Kate Livingstone, a sister of the famous explorer, has just celebrated her one hundred and seventh birthday, at London, Eng. She is still in fairly good health, with mind unaffected beyond what would naturally be expected in normal old age.

Mystery in This Death.

Smith's Falls, Nov. 25.—A couple of boys made a gruesome find in the C. P. R. yard here yesterday morning. They were walking on a track that is little used at the back part of the yard, when they saw the body of a man lying in a culvert. He was lying on his side in a few inches of slimy water and was quite dead. The chief of police was at once notified and he in turn told the coroner, Dr. McCallum. Together they went to the place and pulled the body out of the culvert. Beyond a bruise on the top of his head there were no marks on him. His name is Proctor Moore. He was a man of about 55 years of age, and came here from Athens about a year ago. He was a painter. His friends are on their way over from Athens to take the body there for burial, and on their option will depend whether there is an inquest or not.

210,000 Acres of Timber Sold.

Halifax, N. S., Nov. 25.—The biggest lumber deal in the history of Nova Scotia has just been closed by F. P. Chaplan of New York, representing capitalists of that city, and the most valuable timber property in the province has fallen into the hands of an American syndicate. The property is situated at Bridgewater, N.S., and comprises 210,000 acres, and belonged to the estate of the late E. Davidson. The price paid is said to be a million and a quarter dollars.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays, inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

The Somalis.

The sketches herewith, made in Somaliland some years ago by John T. McCutcheon, give a good idea of the character of the natives who under the Mad Mullah, have just inflicted a most serious reverse on the

TWO SOMALI WARRIORS.

British forces operating through the region under the command of Colonel Swayne. It is believed that fully 15,000 of these natives are now under arms against the British, and most of them are armed with rifles and are well supplied with ammunition. The result of the battle fought recently was not in itself of sufficient moment to put a stop to the movements of the invaders, but the fact that a check, however slight, has been put on the operations of the British means an immense addition to the prestige of the Mad Mullah and the flocking of many thousand more natives to his standard. Most of the troops under Colonel Swayne are half-trained native levies, and the danger of any immediate attempt to continue the fighting was too apparent to overlook.

Itching Piles Most Annoying.

Cause Uneasiness and Often Keen Suffering—There is one Positive Cure—

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily endorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, labourers, all classes of men and women, use and endorse Dr. Chase's Ointment as the only actual cure for piles.

W. B. Talbot, of Talbot Bros., tobacco merchants, 582 George street, Peterborough, Ont., states:—"It is from a desire to help other sufferers that I offer a statement of my experience with Dr. Chase's Ointment, as a cure for itching piles. I was for a long time troubled with this unpleasant and torturing disease, and though I tried very many treatments, remained uncured until I came across Dr. Chase's Ointment. It was highly recommended to me, and I find that every word of praise that is given to it is true. I can truthfully say that I am completely cured, and knowing the misery that this ailment produces, I am anxious for others to know of the surprising virtues of Dr. Chase's Ointment."

Mr. John Harvey, Mayor of Arnprior, Ont., states:—"Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I had tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 12

Imparts a natural glow of warmth and health, without which, the system is always an easy prey to colds, chills and influenza, which are engendered in moments of weakness and undue fatigue. Bovril is not merely a stimulant, but a highly nourishing food, containing all the strengthening properties of beef in a most convenient and appetizing form. It can be prepared in a moment. Add a little boiling water and it is ready for use.

"THE ETERNAL CITY"

A TALK WITH HALL CAINE, WHO HAS DRAMATIZED HIS OWN BOOK.

His Manx House—How He Lives Abroad and How He Writes His Books—His Literary Workshop Is 1,500 Feet Above the Sea, and He Always Writes on His Knee—Writes With Fountain Pen.

Perhaps the most distinguished, at all events the most talked of, temporary resident of New York just at present is a nervous, active little man with a Shakespearean beard and an intellectual brow. This is Hall Caine, author, playwright, lecturer, politician and farmer. For the time he appears in the role of dramatist, since he is here to superintend the

"THIS IS MY LITTLE WORKSHOP, 1,500 FEET ABOVE THE SEA."

production at one of the leading New York theatres of his own dramatization of his latest novel, "The Eternal City." The story itself, which many critics regard as Mr. Caine's most striking work, created wide comment, but the dramatization and staging of it has cost something like a furore in some quarters. "The Eternal City" ran nearly had some weeks' run in a London theatre, and, though criticized severely on the score of bad taste, if nothing worse, the receipts at the box office have been wholly satisfactory to the managers and author. And it may be said that Mr. Caine admirably combines thrift with literary genius.

In superintending the production of "The Eternal City" in New York Mr. Caine attends carefully to all the details and is quite the busiest man in the metropolitan Rialto these days. Nothing escapes his keen and watchful eye. He personally supervised the staging of "The Christian" when it was brought out some years ago and so has had experience in this direction. He knows just what is needed to give graphic lines the most telling dramatic effect, and this he strenuously insists upon having done.

While in New York Mr. Caine, with his wife and daughter, stops at one of the big modern hotels, not far from the theatre district and is frequently seen in the corridors chatting with friends. He is altogether approachable and is not averse to talking of his books and giving his views on literature and other things. He is most willing, however, to talk of Greeba castle, his home on the Isle of Man. In fact, he is extremely proud of Greeba, and usually when he travels abroad there is somewhere in his luggage a set of photos representing various attractive nooks and corners of the unique Manx castle.

If one is permitted to examine these photographs he will hear some interesting running comment upon them by Mr. Caine. They give an excellent idea of the author and likewise shed some light upon the characteristics and personality of the man.

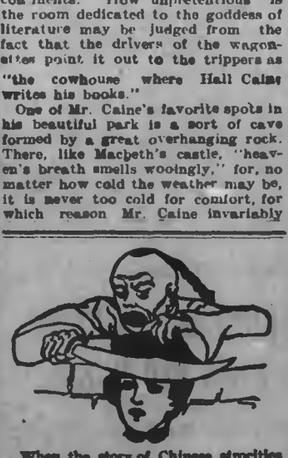
Greeba castle derives its name from the fact that it is built on the side of a hill named Greeba. In spite of the suggestion of antiquity about the name and its appearance it is a comparatively modern residence, being less than a hundred years old. It is perched only some fifty feet higher than the road, and the hill towers perhaps 1,500 feet above its roof, thus completely sheltering it on one side. Sheltered, however, it now is on all four sides by trees which are the delight of the owner and which reach half way up the hill. Thanks to their leafy screen, Greeba castle is delightfully private, for it cannot be seen from the road, while so great a love has Mr. Caine for the trees that he will not have them touched, and one practically walks through a leafy tunnel to the house, where he and Mrs. Caine dispense a real hospitality.

Every one who cares for Mr. Caine's books will naturally be interested in knowing that they have practically all been written in a secluded room built some few hundred feet higher up the hill than his house, on the edge of the plantation which extends behind the house. It is perhaps 25 feet long by 14 feet wide, and its interior is characterized by a Spartan simplicity. True, it has a floor and a great old-fashioned fireplace, with a little shelf on which lie some favorite books; but, with the

"MY WORKROOM; VERY PLAIN, YOU SEE."

exception of one chair and a deal table, it is innocent of other furniture. There is not even an inkstand, for the reason that Mr. Caine writes with a fountain pen. Here absolute quiet reigns, and the author is undisturbed while weaving those webs of romance which have made "The Manxman," "The Deemster," "The Christian" and "The Eternal City" familiar to fiction readers of two continents. How unpretentious is the room dedicated to the goddess of literature may be judged from the fact that the drivers of the wagonettes point it out to the trippers as "the cowhouse where Hall Caine writes his books."

One of Mr. Caine's favorite spots in his beautiful park is a sort of cave formed by a great overhanging rock. There, like Macbeth's castle, "heaven's breath smells wooingly," for, no matter how cold the weather may be, it is never too cold for comfort, for which reason Mr. Caine invariably



When the story of Chinese atrocities filled the papers and shocked the world, it was the women who drew the pity and sympathy of all. Doubtless many a wife who heard her husband's words of sympathy for these women thought with a pang, of the blindness of men to the suffering under their very eyes. It is true. The suffering of women in China was severe but short. Many a wife suffers for years with a daily agony of pain, her nerves shattered, her strength almost gone, and never hears a word of sympathy.

To women such as these Dr. Pierce's Favorite Prescription brings the opportunity of a new life of health and happiness. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well. Accept no substitute for the medicine which works wonders for weak women.

"I had falling of internal organs and had to go to bed every month; had irregular periods, which would sometimes last ten or twelve days," writes Mrs. Alice L. Holmes, of Coolspring St., Uniontown, Pa. "Had also indigestion so bad that I could hardly eat anything. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me. I took three bottles of the 'Favorite Prescription' and one of the 'Golden Medical Discovery.'"

Sick people are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

IS THERE ANYTHING MORE UNSIGHTLY THAN TO SEE A PERSON WITH THEIR FACE COVERED WITH PIMPLES?

IS THERE ANYTHING MORE UNCOMFORTABLE AND PAINFUL THAN TO HAVE BOILS?

BAD BLOOD

Is the Cause of Boils and Pimples.

Bad Blood can be Cured by

Burdock Blood Bitters.

Mr. Wm. O'Malley, Madawaska, Ont., writes:—I used to be terribly bothered with boils and pimples, caused by bad blood and run-down system. I took two bottles of Burdock Blood Bitters, and it made my skin nice and clear, and built up my constitution. Any person using it will never be bothered with skin diseases.

Corticelli Home Needlework

"Onward" is the watchword of the Corticelli Home Needlework Magazine. Great changes and improvements are under way, and the next number will surpass all previous issues. The magazine will be increased in size to that of the regular standard publications, the dimensions of the pages being 8 7-8 x 9 3-4 inches. It will be handsomely printed from new type and on fine book paper, and will contain a vast amount of valuable information to lovers of art needlework, decore crochet, drawn embroidery, etc. The usual number of beautiful coloured plates will appear, as well as many handsome designs and patterns for holiday gifts.

Owing to the extensive improvements made in the magazine, the price, after January 1st, will be 50 cents per year for the four issues, or single copies 15 cents, but orders from now till the first of the year will be received at the old rate of 35 cents, or 10 cents for sample copy. Address Corticelli Silk Company, Limited, St. Johns, P.Q. Write for the great premium offers now being made.

No lady who desires to perfect herself in the skilful use of the needle, can afford to be without the "Corticelli Home Needlework Magazine."

A WALKING TRIP.

Dixie Gives Some Hints on Conducting Girls' Walking Parties.

The delightful possibilities of a walking trip can scarcely be overestimated. It is more enjoyable than a two or three hours' walk, because it furnishes that spice of adventure demanded by every true walker. Moreover, it affords unlimited opportunities for broadening one's view and becoming better acquainted with one's country and its people.

In the first place, some idea should be formed as to the length of the trip. I think that for a first trip twenty miles is far enough. An ordinary girl can probably cover this distance in two or three days. From this first trip an estimate of one's walking abilities may be gained, from which the length of other trips may be computed.

The destination is the next thing to be considered. It is best to appoint this a town or village, from which a train may be taken home, as the walkers will probably be too fatigued at the end of their journey to wish to retrace their steps. Then, a map of the country through which they will walk, showing roads, may be secured. On it the roads to be followed by them should be clearly marked, and afterwards followed without deviation.

Then comes the important question of expense. If the finances of the party are wisely managed, these should not be very high. To this end, a treasurer may be selected, who shall have complete control of the common purse. Some discrimination should be used in her selection, and the girl who knows something about the expenditure of money to the best purpose should be chosen.

As for the items of expense, the most important one is that of lodging for the night, which should be procured before starting. As for provisions, if the walkers do not object to encumbering themselves with them, this item need not be considered. Railroad fare, however, must be provided. Lastly, each member of the party generally pays to the treasurer a settled amount to meet such emergencies as may arise by the way.

Then we may proceed to the choosing of members of the party. On this matter I believe the success of the trip rests. For it does not require much insight to see that the delicate girl, the girl who cannot walk far, and the girl who at certain times refuses to make herself agreeable, cannot make desirable companions. However, after passing over these, it will yet be easy to find nine or ten girls who will be glad to bear their share of the expense for the pleasure of the trip.

Then we may turn to the question of dress. With a pair of stout shoes, a walking skirt, a dark waist and a durable hat, most girls can make themselves comfortable. Waterproofs and umbrellas, however, are really necessary, and should be brought along.

Now, after all arrangements are completed and the trip begun, no one but the walker can know the delight with which she greets the yellow-brown road winding off through the valleys, over country bridges, and losing itself around some hill, whence it wanders off into a country as unknown to her as any English shire. So she cultivates a love of travel, which may some day lead her to the Antipodes.

I will give one hint as to the time for such a trip. I believe that autumn is the ideal season for walking long distances. The roads are better then than in spring and winter, and the sun less hot than in summer. Besides this consideration, there is the fact that at no other time is the country so beautiful; for, with the flaming autumn woods stretching far beyond one on all sides, the goldenrod and asters clustering around the fences, and the blue-grey haze over all, what other landscape could afford such a feast of color?

Further, if any of the party possess a camera, or a talent for sketching, it should by all means be brought along, and the landscapes and groups taken by the way will keep the memory of the trip green for years.—Dixi, in Toronto Globe.

On Supreme Court Bench.

Ottawa, Nov. 25.—Sir Henri Elzear Taschereau and Hon. John Douglas Armour were yesterday morning installed as Chief Justice and Judge respectively of the Supreme Court. The latter was sworn in by the Chief Justice in the conference room before the formal opening of the court.

Re. Election Appeals.

Ottawa, Nov. 25. — Chief Justice Taschereau announced a radical change of policy in regard to election appeals. He said that when such appeals were filed and an early sitting of the court was not pending, motion must be made for a special sitting in order to hear them.

INCOME OF THE PROVINCES.

Money Paid Out of the Federal Treasury as Provincial Subsidies.

The Statistical Year-Book of Canada gives the income of all the provinces of the Dominion. The figures include all the moneys which are paid to the provinces out of the Federal Treasury as provincial subsidies and all other receipts of those provinces. The sources of provincial revenue, in addition to the Dominion subsidies, are as follows: Crown land sales, timber sales, interest on capital held by the Dominion Government, license fees, succession duties, commercial taxes, earnings of public institutions, law stamps, and miscellaneous. The sums received from all these different sources are as stated above included in the figures in the Statistical Year-Book, which we quote below. The total revenue of the Government of Prince Edward Island is $309,445; British Columbia, $1,605,921; Manitoba, $1,008,658; New Brunswick, $1,031,267; Nova Scotia, $1,090,230; Ontario, $4,466,044; Quebec, $4,563,432. It will be noticed that the revenue of Quebec is the largest.

A few more figures are equally interesting: The Dominion pays, as stated above, subsidies to the different provinces. The totals of these subsidies are as follows: To Ontario, $1,196,873; to Quebec, 959,253; to Nova Scotia, $432,806; to New Brunswick, $483,492; to Manitoba, $483,687; to British Columbia, $242,689; to Prince Edward Island, $196,931; total, $3,995,731.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Women the World's Peacemakers.

To women especially the mere sound of "Peace" must always be dear and welcome, since it is the watchword of their social dominion, the password of their power, the master word of their interests and highest desires. And it is a curious fact to reflect upon that women, if they were so minded and resolute and united, could probably make universal peace sooner and more certainly than if all the powers had the millennium for their policy. Dr. Busby said wisely and truly when reproached for wearing his hat before the King that in the schoolroom he was the greatest man in the realm, "because," quoth he, "I govern the boys, the boys govern their mothers, and the mothers govern the men in authority."

If women were aware of their power, there is many a war which they could and would stop in some way or other. As for the methods to be employed, there is no need to enter upon these. It is enough that she who rocks the cradle rules the world, and the proverb says with truth that that which women wish the gods also wish.—Sir Edwin Arnold.

Hall's Family Pills are the best.

London's Fog.

A leading English chemist, Dr. Redwood, says that if oil were generally used for fuel in London the great institution known as the London fog would absolutely disappear. The doctor says that the fogs are caused by unconsumed carbon suspended in the air and originating from the thousands of factory chimneys belching out smoke. There is no carbon or ash from oil. The doctor points out that oil has been successfully burned as fuel on sea and land and urges its compulsory adoption by the manufacturers of the great metropolis.

THE WALL STREET JOURNAL

Gives advice and answers, without inquiries about investments. Studies underlying causes of market movements. Determines facts governing values of securities. Criticises, analyses and reviews Industrial and Railroad reports. Has a complete tables of earnings of properties. Quotes active and inactive stocks and bonds. Records the last sale of bonds and the yield on investment at the price.

One who daily consults the Wall Street Journal is better qualified to invest money safely and profitably and to advise about investments than one who does not do so. Published daily by Dow, Jones & Co., 44 Broad street, New York. The oldest news agency of Wall street. $12 the year, $2 the month. Subscriptions and renewals taken at the Examiner office, Peterborough.

SURPRISE is SOAP

Pure Hard Soap.

THE BIG SALE CONTINUES AT Gough Bros.

IT IS THE GREATEST OF ALL NOVEMBER SALES.

This annual event is arousing the utmost enthusiasm. Prices at which we are selling Clothing, Hats, Furnishings, Boots, etc., are as low as some dealers sometimes pay to sell again. But we buy for much less than regular and we share our good fortune with you.

CONSIDER THE ADVANTAGES!

The largest stock to choose from—the most complete stock for men and boys of all ages—the newest and most up-to-date garments to select from. No house can offer lower prices. In every part of the big store you note the bustle of business, the hum of the crowds, the exchanging of money, the big parcels leaving the store, etc. No sale is more prolific of extraordinary inducements. No other store comes even within the shadow of this before-winter event in the matter of value-giving.

JACK FROST HAS BEEN A LAGGARD!

Mild weather brings down the price of Winter Clothing, and the Reductions present many chances never equalled before this year. Now is the time to secure values in Winter Wear of all kinds.

HERE'S A BATCH OF THEM:

OVERCOATS.

You pay your money and take your choice of the array of new long Raglanette Coats in latest shades of grey and dark Cheviots, at $5.95, $7.00, $9.50, $11.00.

Box Back or Chesterfield Coats, in Beaver, with or without velvet collar, good linings and trimmings, at $3.50, $4.95, $6.00, $7.50 and $9.50.

MEN'S SUITS.

Elegant Tweed Suits in any shade you wish, single or double breasted, satin linings, sure to fit, at $4.75, $5.95, $7.00, $8.50.

Men's Suits, in finer goods—Imported Scotch Tweeds, English Worsteds, Plain Oxford Greys, Blue and Black Serges, in the heavy winter weights, tailored up-to-the-minute, an immense variety, at $9.00, $11.00 and $13.50.

RARE VALUES IN BOOTS.

Rare Values are now being offered in this department of our store, and we solicit your patronage on these bargains. Space will not permit of us to tell of all the bargains offered here, so we will just quote a few, and leave you to judge the others yourself.

Men's Heavy Long Boots, guaranteed solid leather, three heavy soles with extended edge, sold regularly for $2.00, $2.50, $3.00. bargain price, $1.50, $2.00, $2.50.

Men's Heavy Kip Boots, solid leather, three soles, extended edge, sold regularly for $2.25. bargain price $1.80.

THE WALL STREET MARKET

Outlook is not Encouraging at Present.

Manhattan has Leased—Daily Letters—Quotation.

The stock market opened a little below last night's closing quotations, but towards three o'clock strengthened again. Manhattan was the interesting feature, as it has been for some days. Latest advices state that the Interborough Co. have leased Manhattan for 99 years on a seven per cent. basis, and this will have some effect on the stock. But what remains to be seen. The following are the quotations;

The following despatches have been received by E. M. Poussett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 26th, 9.45 a.m.—There was undoubtedly increased short interest in the market from renewed selling by traders yesterday afternoon, but brokers report there was not much borrowing demand for stocks at close. There is considerable disappointment at late absence of any official statement from either Gould or Belmont regarding Manhattan deal. Word was passed late yesterday afternoon that, a definite statement of deal would be given after the close of the market, and that this would confirm recent reports that company had been leased to Interborough Company, on guaranteed seven per cent. dividend, with an extra issue of stock for subscription at par, which would give holders rights worth 10 to 15 per cent. Attempts to settle anthracite difference out of court fallen through. Failure to end coal controversy outside of commission; Rupture between Gould and Harriman, and condition of money, will probably give us a lower market.

M. & M.

London, 2.00 p.m.—Americans dull and heavy, 1-4 to 1-2 below parity. As a rule, sentiment depressed on continued uncertainty of money market.

M. & M.

New York, Nov. 26th, 10.00 a.m.—Grain.—Wheat 96; corn 133; oats 126, car lots. In Liverpool at 1.30 p.m. wheat was 1-8 to 1-4 higher. Corn was 1-8 to 1-4 lower. The support in Goulds is good, but expect lower prices if this fight is to continue.

J. G. MARSHALL.

Wheat is strong, but I don't look for much change either way to-day. Local crowd will even up over Thanksgiving, and outside trade too small to have much influence, but I am a great believer in wheat for a long pull, Valentine bought a little wheat just now.

DENISON.

New York, 11.32 a.m.—Toronto Rails 115 3-4 and 116; Dom. Bank, 245. Six thousand shares of new Toronto Rails will be issued at par to shareholders of December 3rd, 1902, in the proportion of one share for every ten, ten per cent. to be paid on allotment, and ten per cent. every month till fully paid. Trade in December corn very light, but holds strong. A scaling element is fighting shy of this option. Some good buying in May.

DENISON.

Banks lost $72,000 yesterday, making total since last Friday of $3,138,000. Paris exchange on London is up 1-2 per cent. to 25 franc—13 1-2 per cent. Demand sterling remians about 487 1-4. Experts say any shipments of gold this week are practically impossible, unless made at slight loss.

M. & M.

Butler Bros. and Sternburger buying Manhattan.

M. & M.

There has been good buying in both wheat and corn the last few minutes, and both are strong. Some shorts coming in, offerings light.

DENISON.

Notice—The New York Stock Exchange will be closed to-morrow, Thanksgiving Day.

McINTYRE & MARSHALL.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

Fresh Arrivals.

Russet Florida Oranges, California Apricots, California Prunes, Layer Figs, and another consignment of prize Honey. S. A. Oke, 376 George street. Telephone 18.

Bear in mind that we meet any cut rate or clubbing offer for periodicals. Bring your lists and save all bother—to SAILSBURY'S.

LATEST IN SPORTING CIRCLES

The Rugby Team and Their Montreal Trip.

The Trent Valley League and the C. H. A.—Proposed Amalgamation.

At a meeting of the Executive of the Peterborough Rugby Club, which was held last night, it was decided to go down to Montreal on Friday night to play against Quebec for the Championship of the Canadian Union. The boys, accompanied by a number of their supporters, will leave by G.T.R. 9 o'clock and will return by special train from Port Hope on Sunday morning.

* * * *

The management of the Peterborough Rugby Club is indeed much encouraged by the very hearty response in which their appeal for finances have been met. The Club has now received sufficient encouragement to undertake the sending of the team to Montreal. It must not be inferred, however, that the Club has raised the necessary amount already. It will require about $75 in addition to what is already on hand to finance the boys on their eastern pilgrimage.

* * * *

The Rugby dance which takes place on Tuesday night next, promises to be the greatest social event of the season. An additional one hundred invitations are to be run off and altogether about eight hundred invitations have been sent out. Mr. Harry Long will do the catering.

GOLF.

The final for the ladies' championship between Mrs. Campbell and Mrs. Dennistoun, was played on Friday, and was won by Mrs. Dennistoun, by 3 up and 2 to play. The golf was excellent throughout, the first round being done in 53 and 51 respectively. In the second round Mrs. Campbell began in a somewhat sensational manner, doing the first hole in three, but her opponent's steadiness in form was noticeable, and she finished a winner. The form displayed by both was splendid. The record for the links is 48, which was made by Miss Stuart, of Chicago.

TURF.

New York, Nov 21. — The second half of the horse show opened to-day with a large crowd in the Madison Square Gardens, and with many first class horses in the ring. Among the first prizes awarded was the following: Class 24, Hackney stallions, 3 years old, over 15 hands high, Gribtheorpe Playmate, ch., owner, Robt. Beith, Bowmanville, Ont.

The choicest cider made is Allen's of Norwich—On draught at Henry & Co's.

Tattooed Maori Women.

British explorers and scientists have just brought back a series of remarkable pictures of Maori tattooing from the interior of New Zealand. The most astonishing designs were found on the faces of the women, and one of the Maori belles is here pictured thus adorned.

The faces and bodies of the women are so covered with these blue marks

A MAORI BELLE.

that they look as if they had on a tight fitting chintz dress.

The instrument employed in tattooing to obtain the deep furrows is usually made of bone, having a sharp edge like a chisel, and shaped in the fashion of a garden hoe. Another style is made of a shark's teeth.

The tattooing of the women is commenced when about the age of fifteen or eighteen. Most of the masters of the art are professionals, who go from village to village and are highly paid for their services. The pattern about to be engraved is first outlined on the face by a small stick dipped in powdered charcoal, after which the skin is gashed and the coloring or pigment is introduced into the cut flesh with a stick dipped into the liquid.

The coloring material used is generally the resin of a certain tree, which is burned, powdered and converted into a fluid.

Fear of the Future.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne street, Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc. SAILSBURY & CO.

HIS CABINET COMPLETED.

W. W. B. McInnes Becomes President of Council in Prior Cabinet.

Victoria, B.C., Nov. 26. — Col Prior has finished his Cabinet, and it now stands: Col. E. G. Prior, Premier and Minister of Mines; D. M. Eberts, Attorney-General; J. D. Prentice, Minister of Finance; W. C Wells, Commissioner of Lands and Works; D. Murphy, Provincial Secretary and Minister of Education; and W. W. B. McInnes, President of the Council.

OFF TO SOUTH AFRICA.

Colonial Secretary Starts on His Journey to the New Colonies.

London, Nov. 26.—Premier Balfour, War Secretary Brodrick; Lord Selborne, First Lord of the Admiralty; Lord Roberts, Lord Strathcona, Canadian High Commissioner; Secretary Henry White of the United States Embassy, and many other notable persons were among those at the station to say good-bye to Rt. Hon. Joseph Chamberlain, Colonial Secretary, who left London yesterday to visit South Africa.

Better Wages, Greater Output.

London, Nov. 26.—The Yankee plan of paying good wages and encouraging employes to increase the daily output, which was introduced by the manager of the United States electrical works at Manchester, has been formally protested against by the Employers' Federation of that district. The latter claim that the labor market is being demoralized, and their works are being drained of their best men by the United States officials, who pay their laborers twelve cents an hour, against nine cents paid by the British employers, and get double the amount of work accomplished.

Chief Justice Moss Sworn In.

Toronto, Nov. 26. — Mr. Justice Moss was yesterday afternoon sworn in as Chief Justice of the Court of Appeal. Sir Oliver Mowat performed the ceremony at Government House. There were present: Premier Ross, Hon. J. M. Gibson, Hon. Frank Latchford, Mr. Justice Garrow and J. J. Maclaren, K.C. Chief Justice Moss will perform a somewhat similar service for J. J. Maclaren, K.C., who has been raised to the bench. The latter ceremony will take place in the Court of Appeal at 11 o'clock this morning.

Brussels "Red" Friendless.

Brussels, Nov. 26.—Rubini, the Anarchist, who attempted to shoot King Leopold a week ago, has been unable to find a lawyer. Reoyer, the greatest Socialist advocate in Belgium, and others, have refused to defend the assassin, and the court will accordingly be compelled to appoint a lawyer for him.

TO CURE A COLD IN ONE DAY

A Grand Entertainment, Vocal and Instrumental, will be interspersed with Addresses in the evening.

E. M. ELLIOTT, President. W. COLLINS, Sec.-Treas.

CERTAIN WISE WOMEN

Have been heard to declare that they meant to do their Christmas shopping in November. We very fully endorse this in respect, particularly, to Furs. All through the store we have been making ready. Holiday Furs occupy first place in our attention now. A large staff of experienced Fur workers have been and are now busy beyond all other seasons, making goods goods to order for Christmas.

Orders for Persian Lamb and Seal Jackets, Fur Lined Coats and Fur Lined Capes need to be looked to at once, if desired for Christmas.

Scarfs, Collarettes, Boas, Muffs, Gauntlets and Capes, etc., can be selected more satisfactorily now than during the rush just before Christmas. Select now and we will lay them aside for you until wanted. Customers will get the advice and attention of salesmen, so necessary to a proper selection of Fur Garments better now than during the rushed period.

Our Fur Stock is extra well selected; Our Fur Styles are most up-to-date; Our Fur Qualities are always just as represented; Our Fur Guarantee is invariably carried out; Our Fur Customers all say "'Tis a safe place to buy." Call and inspect our Christmas Stock of Furs now.

IT'S BEGINNING.

Lindsay Makes its First Shipment Direct to South Africa.

The Lindsay Post reports that the Flavelle Milling Company made their first shipment to South Africa on Wednesday. The lot consisted of 500 bags of the highest grade Manitoba flour, their well known "King of Patents" brand; 200 bags and 50 cases of rolled oats. Each case contained three dozen two pound packages of rolled oats. The flour and rolled oats were put up in double bags, a cotton bag inside of a jute bag. The shipment was sent via St. John, N.B., at which port it will be loaded on the steamship Oriana, of the Furness line for transportation to Fort Elizabeth, S.A. From that port it will be sent by rail to Kimberley.

RAPID CONSTRUCTION

Mr. Morse Promises Quick Work on Grand Trunk Railway.

PREMIER HAULTAIN'S ATTITUDE

Regina Delegations Extend Cordial Welcome to the Representatives of the Grand Trunk—Long Interview With Messrs. Wainwright and Morse —All Agree That There Will Be Plenty of Business.

Regina, N. W. T., Nov. 27.—President Young and others of the Board of Trade, Mayor Smith and others of the Town Council, Commissioner Bulyea of the Agricultural Department, and Mr. Walter Scott, M.P., had a long interview yesterday afternoon with Messrs. Wainwright and Morse of the G.T.R., who arrived on yesterday's train. The delegations all extended to the railway representatives a cordial welcome to the Territories. In reply to Mr. Smith and others, Mr. Morse said that operations on the new transcontinental line, the Grand Trunk Pacific Railway would begin as soon as legislative sanction had been obtained and the reports of the company's engineers received. Work would proceed much more rapidly than when the C.P.R. was constructed, because there was now access to the country, which there was not then, and, of course, their system in Eastern Canada gave them great advantages. The main line would, of course, not run too close to the C.P.R. To do so would not be fair, but all the great centres would be tapped. Construction would begin at many points simultaneously, and he estimated the trunk line would be completed in five years.

Mr. Bulyea assured the visitors that the area under cultivation next year would be double the area from which the last crop was harvested.

Mr. Walter Scott said that the voice of gladness at the announcement that the line was coming was an unanimous voice. Any one at all acquainted with the existing conditions could not fail to realize that it could not be otherwise. He assured the Grand Trunk representatives that if their line could be completed by next summer it would still be unable to handle next season's crop. Indeed, the development of the country was so rapid that he questioned whether railway development would be able to keep pace with the country's development for the next fifteen years.

Mr. Haultain's Attitude.

Ottawa, Nov. 27.—Premier Haultain of the Northwest Territories has just returned from England, where he was seriously ill for a couple of months. He contracted a severe cold in the territorial elections of last spring and this developed into pneumonia. He has now recovered his usual health.

Mr. Haultain was asked yesterday morning what he had to say regarding the Grand Trunk extension.

"I am delighted to hear it," he replied. "Undoubtedly it will be a good thing for the country."

"Do you think the west can stand two transcontinental railways?"

"I believe that at the end of five years, if there were two transcontinental railways, they would have all the grain they could carry, that is so far as the Territories are concerned. At present there is a serious blockade and the farmers are accordingly losing 10 cents a bushel on their grain. I have letters from the west complaining that buyers have taken advantage of the situation and reduced the price 10 cents a bushel below what it is at Fort William, leaving out the ordinary railway freight rate. I intend to see Sir Thomas Shaughnessy and ascertain whether it is not possible to obtain relief in some way."

Scheme Backed Up.

London, Nov. 27. — The Financial Times yesterday says "it must be very gratifying to the management of the Grand Trunk to find how general is the approval of the scheme for the extension of the road to the Pacific."

To Absorb C.N.R.

Ottawa, Nov. 27.—C. Drinkwater, secretary of the C.P.R., who was in the city yesterday, expresses the belief that the Grand Trunk will absorb the Canadian Northern system. As to the effect upon the C.P.R. of another transcontinental line paralleling the former, Mr. Drinkwater said it would depend upon the route of the new one and its proximity to the C.P.R.

Hon. Mr. Harty's Opinion.

Kingston, Nov. 27.—Hon. Mr. Harty, says the Canadian Locomotive Works Company, foresaw the building of transcontinental lines, and made purchases of land about its works, so that when business warranted it could extend and turn out an engine a day. His belief is that in ten years hence there will be as much demand for two additional transcontinental lines, as there is today for better service.

D. W. Folger of the Temiskaming Railway Commission thinks the new line will be a help and not an injury to the C.P.R. He thinks the G.T.R. will seek running powers over the Canadian Northern Railroad.

Boycott Wiped Out.

Schenectady, N.Y., Nov. 27. — In one of the most exciting meetings in its history, the Trades Assembly last night declared off the boycott against the Schenectady Railway Company. The vote in favor of rescinding was three to one, and the meeting lasted nearly three years.

A THRILLING RESCUE

Tug and Lifeboat Save Crew of Bleached Propellor Quinto.

ONE MAN'S GREAT JUMP FOR LIFE

Fierce-Running Seas Endangered the Lives of the Gallant Rescuers—The Quinto Is Now a Total Loss on the East Pier at Lorain, O.—Capt. Cody's Story of Her Experiences.

Lorain, O., Nov. 27.—In trying to make this port Tuesday night to escape from a furious northeast gale, which was sweeping the lake, the propellor Quinto was piled on the beach outside the piers near the harbor. The tug Cascade immediately went to the rescue, and took off 12 of the crew and a woman cook. Four men were left aboard because the tug could not stay alongside.

In response to signals from the four men left on the ship, the Cascade's crew made a more determined effort to save them. A lifeboat was secured and towed out, but it could not be brought close enough to the stranded vessel for the men to get it, and the plan was abandoned. Then the tug ran past the steamer as closely as it could, and one of the four jumped to her deck.

By this time the seas were running so fiercely that the tug was in great peril, and was compelled to give up its efforts to rescue the three remaining on the vessel. A message was sent for the life-saving crew at Cleveland, and eight surfmen, under command of Captain Motley, arrived with a lifeboat at 11.45 o'clock.

The boat was launched immediately, and was pushed out into the harbor by the Cascade. It disappeared in the darkness, and nearly two hours elapsed before it was again sighted. Anxious men were watching as it pulled back into still water, and shouted queries about the three men, which were ignored until the boat scraped the dock, when the captain, in reply to an inquiry if he "had 'em," answered, "Yep! Way there and give us a hand."

The men rescued by the Cascade were Hugh S. Cody, captain; O. J. McGraw, first mate; Mrs. W. Brake, stewardess; Joseph Knapp, second cook; A. Ammunsen, H. Sinclair, wheelman; K. Kull, J. Wertz, watchmen; G. Peters, F. Alf, H. S. Fausote, deckhands; H. Schultz and F. Meyers, firemen.

These left to be taken off by lifesavers were:

John Anderson, second mate; B. Henry, chief engineer; W. Frank, second engineer.

Capt. Cody relates the experiences of the steamer in the gale on Lake Erie as follows:

"After leaving the Detroit River and passing the dummy light, we encountered a heavy gale blowing up the lake. After battling with the wind and seas for many hours in an attempt to reach Cleveland the steamer began leaking rapidly. I knew it would be useless to attempt to reach Cleveland, and when ten miles from Cleveland I brought the vessel about and headed for Lorain. All went well, when the steamer broached, missed the entrance and went on the beach to the eastward."

The barge Quinto, which went to pieces on the new east pier some time during last night, is a total loss. She had a cargo of 1,700 tons of Escanaba ore, consigned to Cleveland. When 10 miles off Cleveland she sprung a leak, and had four feet of water in her hold when she put before the wind for this harbor.

Herr Krupp Buried.

Essen, Prussia, Nov. 27.—The remains of Herr Krupp were buried yesterday. The obsequies were impressive. Emperor William followed the hearse on foot. The entire population of Essen attended the funeral.

Bee Keepers' Meeting Postponed.

Toronto, Nov. 27.—Owing to the vote on the referendum the dates of the annual meeting of the Ontario Bee Keepers' Association have been changed from Dec. 2, 3 and 4 to Dec. 16, 17 and 18. The meeting will be held at Barrie.

Condition of Rev. Joseph Parker.

London, Nov. 27.—Rev. Dr. Joseph Parker, pastor of the London City Temple, who has been in a critical condition for a fortnight past, had a turn for the worse yesterday. He is now unable to take nourishment.

A Privy Council Decision.

London, Nov. 27.—Judgment has been given by the Judicial Committee of the Privy Council, refusing leave to appeal in the case of People's Building and Loan Association v. Stanley.

PATRIOTIC POLITICIANS.

Pure *patriotism*, high and lofty motives seems to have animated the Conservative candidates who came to the rescue of Mr. Whitney at the last Provincial General Elections. Evidence has been forthcoming that two, at least, had to be bought to become candidates. These are Dr. Snider, of North Simcoe and Mr. T. G. Carscallen, of Lennox. Both of these gentlemen have sworn that they got $500 each from the Central Conservative corruption fund, in Toronto. And both gentlemen swore that they spent less than their price and put the balance in their pockets. At least Dr. Snider put his share in his purse and Mr. Carscallen swore that he invested $200 of the corruption fund in his business. This shows what a peculiar out-come results from Mr. Whitney's lofty and chivalrous crusade against political corruption—on the part of the Grits. His corruption fund for the promotion of political purity is pocketed by the apostles whom he commissioned to preach the gospel of purity. Now if Mr. Whitney had "money to burn" in this manner he must have had a big barrel to tap, and it will take a good deal of evidence to prove to the people that the funds at his disposal were used only to bribe candidates to enter the field. If every candidate in the ninety-six constituencies got a bribe of $500 each then Mr. Whitney had a fund of between $45,000 and $50,000 to draw upon. If he had this amount to bribe candidates, who ought to have come up to the mark voluntarily, what was the amount of the fund necessary to "influence" electors, who would not naturally be supposed to be ranged on Mr. Whitney's side? Who supplied *all these funds to a party* whose leader poses as the high priest of political purity? Was it not, it is fair to ask, contributed by those who had a more than moral interest in procuring the defeat of the Ross Government? It is no wonder that the Ross Government had such a close call. It's no wonder that Mr. Whitney was mad with vexation, at the failure of his crusade. To lavish money at $500 a slap, and then lose the game, was certainly discouraging. Mr. Whitney's vexation is very excusable. He paid the price and the goods were not delivered. There is no denying the palpable justification of the belief that in the last general election, as in the preceding one, the Conservatives led by Mr. Whitney, had a big barrel of money, and that even its lavish use did not bring Mr. Whitney into power. It makes one stand aghast at the tremendous hypocrisy, of Mr. Whitney, who has been for years declaring that "these hands are clean," and that the unspeakable Grits were the only sinners, when, as a matter of fact, he has had those "clean" hands plunged into the corruption fund up to the elbows, when they were not engaged in scattering it broadcast over the province in five-hundred-dollar chunks.

EDITORIAL NOTES

"Public Opinion," an English weekly, does not think the Canadian preference has been a failure. It declares that the trade of Great Britain with Canada was on the ebb before the preference was granted and "it turned the tide, and if it were abandoned to-morrow the ebb would begin again."

"Ontario Farmers Wax Prosperous—Wealth Is Increasing, Mortgage Debt Decreasing." That is a display heading in the Mail and Empire. What with manufacturers overcrowded with orders, new shops going up in all directions, building delayed by lack of labour, wages rising, new and mammoth railway and other enterprises being undertaken and the farmers growing wealthy, there is so little excuse, the Hamilton Times thinks, left for Conservative whining for a protective tariff to get at the pockets of the earners that it is little wonder that the combine organs are sad.

The Guelph Mercury has been giving some consideration to the Tory cry that we should have a higher tariff, and to the illustrations in which the going of the Deering Harvester Company to Hamilton, is used, and it comes to this conclusion:

But a pertinent question is here in order. If the development of the country, under the Liberal tariff policy, has been so pronounced as to bring this great institution to Canada, so pronounced as to lead to the founding of scores and hundreds of new manufactures in the Dominion, where is the necessity for an increase of tariff? The duty on harvesters is among the lowest we have on finished products, viz., 20 per cent. If that was sufficient, from the protectionist standpoint, to bring over the Deerings, why should not 25, 30 and 35 per cent. advantage be amply sufficient to bring over branches of other concerns?

BOTH SIDES SHOULD VOTE.

Hon. G. W. Ross, presiding at a Prohibition meeting in Toronto last night, said:

I am not here to argue as to the merits of prohibition per se; I have settled that matter long ago. But it is a large question involved in the judgment which you are going to deliver on the 4th of December. We have not the power to stop the liquor traffic; that is beyond the power of the Legislative Assembly. The power we have we are asking the people to express their opinion upon, and when we receive that opinion, then we will know the strength of the influences which have so far been on the side of prohibition for the last twenty or thirty years. I said we want an intelligent opinion. If we, in a fit of enthusiasm, step beyond the limits of prudence and propriety, we are incurring the risk of such a reaction as might always be dangerous. That you have to consider. I believe myself that laws can be enforced by the machinery which this country has already established, provided there is a reasonable and substantial power at the back of it. And for that reason we have said that no catch vote, shall I say, no bare majority, as may represent only a small portion of the electorate, shall be sufficient, but such a large and influential vote as shall indicate to all concerned that the liquor act is the best for the public morals of the people, and is the best for all concerned in the welfare and prosperity of the country. Give, then, your intelligent attention to the organization work; give your intelligent consideration to the effects of prohibition in the United States, where it has been in force, and put into the discussion of the whole question not only the considerations from the temperance standpoint, but considerations from every possible standpoint, so that, having determined that this is a wise thing to do, then we can do it with a confidence that we are doing what is right, and that what we are doing other people will approve of when they give it the same consideration as we have.

In the next place, let me say we want a large vote. We have come, not exactly to the parting of the ways, but, shall I say it, to a crisis in the history of the temperance movement, in which we want to know exactly where we stand. Some of us have said that the people of this country are very anxious for prohibitory legislation. I am sorry they have not expressed their opinions more strongly than they have sometimes done. Those of us who believe in prohibition regret that this expression has not come earlier. At any rate, this reference of the question to the people of the whole country is not going to be fruitless or unproductive of results. We ought to see to it that every elector having the right to vote on Dec. 4th expresses his view on one side of the question or the other. This is not the time when we should halt between two opinions, or let the opportunity pass of registering ourselves on one side or the other of this question.

CORDOVA AND ITS GOLD MINES

How the Mining Industry Makes Things Hum.

GREAT BUILDING ACTIVITY.

Stores and Dwellings Being Rushed up Rapidly—Business Speedily Growing—A Mission for Travellers.

The growing village of Cordova, where the Cordova Gold Mines are located, is situated in the extreme north-eastern corner of the Township of Belmont, about three miles east of Deer Lake. The village, of course, owes its origin and growth to the valuable mines, which are situated on an elevated tract of land close to the village site. That these mines are developing a business sufficiently encouraging to warrant the very large expenditure of money on special machinery, power, and modern appliances for mining, is taken for granted. Large gangs of men, including skilled workmen, imported for the purpose, as well as hundreds of labourers, have been employed in the various extensive operations of installing and pefecting the mining plants during the past years. This does not include the gangs of miners and specialists steadily engaged in mining, several hundred of whom find constant employment in the mines the year round.

As to the future permanency of these mines, no doubts are expressed, and per consequence the future of Cordova village is considered bright and promising.

THE BUILDING BOOM.

Evidences of faith in the stability of the mines, and the growth of the village, are not wanting. Business men are flocking in, and merchants are opening new stores, and stocking them with new goods suitable for the requirements of miners and settlers. Almost every branch of business is represented, and storekeepers are pushing their wares with energy. Carpenters are rushed with work at good wages, and mechanics generally have steady employment. Cordova is a poor place for a man to go who does not want to work.

Another evidence of the mercantile importance of Cordova, is the attraction which it has become to commercial travellers. Every day last week the "knights of the road" could be seen with teams and livery wagons heavily laden with large sample trunks ploughing through the mud along the Cordova road, eager to reach the village. Judging by the swarms of these travellers passing in and out lately, one can form some idea of the amount of goods that are being sold and consumed by the increasing population of this embryo town.

Mr. Purdy is erecting a fine new building, part of which is to be used for the new post office. Stores and other new buildings are in progress throughout the village. Dwelling houses are going up thick and fast. The miners are building homes for themselves, the Company assisting them in a liberal manner to erect their dwellings.

NO HOTELS IN CORDOVA.

The thrifty and intelligent settlers of Cordova take special delight in boasting of the fact that there are no saloons or hotels in the village. Here's a spot where the supporters of the Referendum might, from their point of view, score a good point—a prosperous village in the county of Peterborough where no liquor is sold. Travellers, of course, feel the inconvenience of the want of a hotel worse than any other people. But they get there, just the same. There are several large boarding houses in the village where a good square meal can be obtained for the nominal price of 25c. Among these may be mentioned the houses kept by Mr. and Mrs. Covert and Mr. and Mrs. Young. Here a man can sit down in a commodious dining room, along side the kitchen range, roaring with tamarac, and eat his fill, while listening to the local news of the village as it is retailed by the well-developed woman of the house, or the well-fed boarder sitting round smoking his briar.

CORDOVA HAS ELECTRIC LIGHT.

That's right! Cordova is lighted with electricity. The stores, churches, public buildings and most of the residences have been wired and in the evenings are illuminated with genuine high quality electric light. The power is supplied by the Mining Company and the cost to the users is about the price of coal oil.

The people take pride in pointing to the number of fine churches in the village. Some of these buildings being capable of accommodating between four and five hundred worshippers. With a community of industrious and sober people like those now living so happily together in this new and rising village it is fair to predict that Cordova will become a much larger and more important industrial point in the near future.

The Weekly Examiner means to keep its eye on Cordova and let its readers watch the hustling village grow.

"IRON-OX
TABLETS

are by far the most attractively put up remedy I have ever seen, and the immediate favor they have found with my customers surpasses anything in my experience. I can also speak most highly of the medicine itself.

GOOD NEWS TO ALL.

Commission to Deal With Railway Companies re Cattle Guards.

The councils of many of the counties having petitioned the House of Commons, requesting that a commission should be appointed to deal with matters affecting the public in its relation with railway companies, as follows:—

"We consider that the time has arrived when the best interests of the country demand that an independent tribunal be appointed to adjust all differences arising between the people and the railway companies in reference to the freight rates, cattle guards, gates at public crossings and to enforce the provisions of the law in general."

In response to these petitions, a Cattle Guard Commission was appointed which will meet in the interest of the citizens of the counties of Victoria, Peterborough, Northumberland and Durham at the County Building, Peterborough, on 28th November, at 2 o'clock p.m. It is in the interest of the public that a large number of the citizens of Northumberland, Durham and Peterborough should attend.

The Dominion cattle guard commission is composed of F. W. Holt, C. E. and George Robertson, and was appointed by the Dominion Government to tour Canada and the United States for the purpose of examining the various cattle guards in use.

Your Opportunity to Get Well.

You are offered Dr. Chase's Nerve Food as the most *perfect* restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it knowing that it is bound to do you good.

Invest $300 Cash

and we will give you a good 7-roomed Brick House, within five minutes' walk of the principal workshops. Total cost only $1,100. Also a good Frame House in same vicinity for $900, and we will make any reasonable terms for balance. We are offering good value in Building Lots; also in Garden Lots and farms. Apply quickly.

THE WISKIN CHARGE

Judgment Reserved in the Case of Personal Bribery.

THE RESPONDENT TESTIFIED.

A Quiet Day in the Lennox Election Trial —The Maracle Bribery Charge Dismissed — Charge Affecting James Wilson, a Son of Mr. Uriah Wilson—The Case Was Not Concluded.

Napanee, Nov. 27.—The proceedings in the Lennox election trial yesterday were rather quiet. Several charges were dismissed. Judgment on the charge of personal corruption in giving $1.50 to Fred Wiskin was reserved, and a charge of bribery against James Wilson, a son of Mr. Uriah Wilson, M.P., was being investigated when the court rose. The charge that Mr. Cascallen had given $1.50 to Fred Wiskin was first taken up.

Uriah Wilson, M.P. for Lennox, left a sick-bed yesterday morning in order to testify for the defence. He entered a firm denial to parts of the evidence of the witness Wiskin, given Tuesday, to the effect that Mr. Carscallen, M.P.P., had given him $1.50 for looking after a hall at Bathurst, where a political meeting was held. Wiskin swore that though he had only asked the Conservative candidate for $1, Mr. Carscallen had given him $1.50, "at the same time making a request for his vote, said transaction taking place, according to Wiskin, without a witness and when the lights were low. Mr. Wilson swore that he was present at the time that the money was paid openly as a legitimate expenditure and that the lights were all on.

Referring to Mr. Wilson's contribution to the Conservative campaign fund, which amounted to $700, the Liberal counsel queried: "Is not $700 pretty large for a Lennox campaign fund?" Mr. Wilson replied: "Well, it cost Sir Richard Cartwright $20,000 the first time he ran here."

T. G. Carscallen, M.P.P., the respondent, was on the witness stand most of the morning. He swore that he gave Wiskin only one dollar for services rendered in connection with the hall, and not $1.50, as stated. Mr. Carscallen swore that Wiskin had previously asked for one dollar in consideration of loss of time incurred by voting and that the latter was the only man in the whole campaign who asked him for money for voting.

Mr. Cassels.—In the whole campaign, do you know of any money spent corruptly in the Conservative interest?

Mr. Carscallen.—Not one dollar.

It transpired in cross-examination that some $200 balance from the campaign fund still remained in Mr. Carscallen's hands. He declared he intended to "make it right" with subscribers to the fund. Their Lordships reserved judgment of the charge.

A charge of bribery in connection with the hiring of Samuel Smith of Napanee to drive a livery team in order to take Conservative voters to the polls on election day was dismissed, their being no evidence to show that money had been paid or promised Smith previous to the election campaign and with corrupt intent.

Abandoning corrupt charges for a while, an attack was tried on technical grounds. It was charged that Dr. A. M. Ruttan, W. H. Perry and F. W. Hart, scrutineers for the respondent, had violated the election act by being at the polls at which they acted as scrutineers without taking the required oath of qualification, said polls not being their regular voting places. Evidence was brought forward showing that the oaths of qualification had not been administered, but the sin was one of omission, not of commission, and Their Lordships held that though the votes might be illegal it was not a case of corrupt practice, and hence did not come under the jurisdiction of the present court.

Edward Maracle, a sailor, swore that on the day of the election he met John Carson, an active Conservative campaigner, who asked him to go and vote, and to call at his store the following morning. He voted, and next morning he called as per agreement and Carson handed him without comment two one-dollar bills.

John Carson, an ex-mayor of Napanee gave a flat denial to Maracle's story, and Their Lordships promptly turned down the charge.

F. W. Parkinson, who admitted he had no conscientious scruples about getting whatever there was going on election day in the shape of a bribe, swore that James Wilson, a son of the member for Lennox, had paid him one dollar in consideration of a vote for Carscallen. Wilson promptly denied the allegation and swore that Parkinson had asked for the dollar, but he had replied: "We are not buying votes." The court rose at 7 o'clock with this charge still under consideration.

AT FIRST GLANCE

It Would Appear That Local Remedies Would be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease, and any remedy to make a permanent cure must act on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate thousands of people seem scarcely ever free from some form of catarrh; it gets better at times, but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best, and certainly the safest, is a new remedy, composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste, and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these Tablets with absolute assurance that they contain no cocaine, opiate, nor any poisonous mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full-sized packages for fifty cents.

Coming From Glasgow.

Ottawa, Nov. 27.—The crew that is to take the cruiser Lady Laurier over from Glasgow to Halifax has been selected, and will leave for Halifax in a couple of days. The Lady Laurier is the new buoy and cable steamer that is to replace the Newfield. It is expected to reach Halifax about December 10.

Fire Rate Up $26,000.

St. John, Nov. 27.—Fire yesterday afternoon destroyed $26,000 worth of property at Bathurst. The principal losers are: Holden, Graber & Rosenburg, $20,000, insurance, $6,000; J. J. Roy, $1,200, and Loumsbury & Co., $2,000, insurance $600.

MINERS FEEL THEIR TURN-DOWN.

Termination of Conciliation Plans Not to Their Liking.

Scranton, Nov. 27.—Quite in contrast with the happy faces of the independent operators' committee, when it returned from New York Tuesday night, were the countenances of the miners' representatives when they returned yesterday from their disappointing trip to Washington.

How the latter views the sudden and surprising turn of affairs is set forth in a statement issued yesterday. The miners' attorneys' statement says:

"The commission adjourned for ten days, in pursuance of an arrangement between the parties to give opportunity for conciliation on account of a telegram which we understand was written by George F. Baer in the presence of and with the consent of every railroad concerned, and was signed by Wayne MacVeagh."

Thanksgiving at the Mines.

Pottsville, Pa., Nov. 27.—The United Mine Workers have decided to keep a full force of men at work at all the collieries on Thanksgiving day. The operators requested the men to remain at work, and this action is in compliance with their request.

Miners to Resume Work.

St. Etienne, France, Nov. 27.—The committee of the Coal Miners Federation of the Loire held a meeting yesterday and resolved in favor of the resumption of work at all the mines in the district next Friday. With this decision the general strike of the coal miners of France, which was declared on Oct. 9, and which at one time involved over 100,000 men, came to an end.

WILL TAKE JOINT ACTION.

Great Britain and Germany to Collect From Venezuela.

Berlin, Nov. 27.—Germany and Great Britain have determined to take joint action to collect their claims against Venezuela. The two powers are in correspondence over this form of action.

No time can be named when they will act, because the respective foreign offices have not yet agreed on the details. It is understood that only slight differences exist regarding the course to be followed.

It is confirmed here that the United States is fully instructed on the subject of the negotiations, and knows that what is meditated will not infringe the Monroe doctrine.

CENTRAL HAS RUNG OFF.

Recognition of Union at Bottom of Vancouver, B.C., 'Phone Strike.

Vancouver, B.C., Nov. 27.—The operators, the linemen and the repairers of the New Westminster and Burrard Inlet Telephone Co. went on strike at 5 o'clock yesterday afternoon, and telephone service throughout the city is temporarily suspended.

Trouble has been brewing between the management and the employes for some time, the question of the recognition of the union being at the bottom of the dispute.

The company claims that the suspension is only temporary, and that they will soon have new employes from the East.

LA SOUFRIERE BREAKS OUT.

For the Fifth Time a Big Outburst Takes Place.

Kingston, St. Vincent, Nov. 27.—A violent eruption of La Soufriere, the fifth big outburst since the catastrophe of May 7, took place yesterday. Georgetown and the village of Chateau Bellair, situated on the west coast of St. Vincent, were again evacuated by their inhabitants. Telephonic communication in those districts is interrupted, owing to fierce lightning. Subterranean rumblings can be heard and volcanic clouds are seen from this city. The crater had been smoking constantly since the terrific eruption of Oct. 16.

Given the Cold Shoulder.

Winnipeg, Nov. 27.—"The Doukhobor pilgrims did not receive a prodigal son welcome on their return to their respective villages," was the remark made by C. W. Speers, mineral colonization agent for the Dominion Government, on his return from a visit to the colony of those settlers, west of Yorkton, to a reporter. "The 75 per cent. who remained at home are giving them the cold shoulder, and the large bulk of the wanderers now see the folly of their ways and they do not hesitate to admit that they were in the wrong."

Stuart Junior Sentenced.

Toronto, Nov. 27.—William Stuart, jr., whose father pleaded guilty of the manufacture of counterfeit bank bills, and was sentenced by Magistrate Denison to four years in the Kingston Penitentiary, was taken before Judge Talbot in Hull yesterday. His appearance was at his own request. He pleaded guilty of uttering counterfeit bills made by his father in the Raymond House in Toronto, and Judge Talbot sentenced him to two years in the St. Vincent de Paul Penitentiary.

Turks Rearming.

Constantinople, Nov. 27.—Sixteen batteries of quick-firing field guns, numbering 46 guns in all, have been ordered from the Krupp Works as the commencement of the re-armament of the Turkish artillery. The War Ministry is also authorized to purchase 220,000 small-calibre Mausers, to complete the present establishment. With wagons and ammunition for the artillery, the orders entail an outlay of $3,950,000.

For a Certainty I am Cured.

Mr. James Traneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did him as much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

CANADA FIRST.

The Dominion Stands at the Head in Growth of Exports.

The growth of exports is to many economists the best test of progress. Let it then be noted that, according to a return prepared by the Canadian Customs Department, Canada stands first among the nations in the growth of her exports, while the United States stands a good way down the list. Here are the figures per head of population in dollars:

	Imports	Exports
Canada	59.89	99.82
Argentine Republic	69.56	62.49
Austria	88.88	20.07
Cape Colony	130.33	20.06
Egypt	65.64	13.35
Germany	30.61	39.55
France	1.11	16.71
Netherlands	46.08	48.73
Norway	39.29	31.16
Belgium	22.55	20.30
Britain	19.88	13.25
Italy	52.46	56.77
Japan	40.82	97.43
Mexico	25.12	63.76
Russia	58.95	2.51
Sweden	44.69	20.97
Switzerland	12.64	24.51
Australia	9.72	27.55
United States	9.13	36.45
China	15.58	1.11

The foreign trade of Canada per head of her population represents 68.84, whilst that of the United States stands at but 28.91. These figures are for the fiscal year recently closed. Canada exports to-day more per head than the people of the United States, the mother of American commerce. Canada, of course, does not expect as yet to touch the United States in aggregate trade, but the foregoing are most encouraging.

The Land of the Trout.

Mr. A. M. Dyment of the Attorney-General's Department of Ontario, who has recently been in the vicinity of Bancroft, in Hastings County, thinks that the country there knocks Muskoka out as a resort for hunters, fishermen and out-door pleasure-seekers generally. All that is needed, he says, to make the place an ideal summer country is good hotels. From Batiste there is 40 miles of navigation for steam launches, and the speckled trout fishing in all the streams and lakes is capital. It is remarked that the waters which drain to the Madawaska and Ottawa are inhabited by trout, while the streams on this side of the divide are the home of the bass.

A Grand Opening.

The Lakefield News says: On Wednesday of last week, the store formerly occupied by Messrs. Madill Bros., was formerly opened by Mr. Roland Johnson, the new proprietor. The event has been looked forward to by his large circle of friends, and in every respect was a most decided success. From early morning until late at night the store was thronged with ladies, who came, saw and went away with their purses considerably lightened as a result of the many purchases made. A genuine clearing sale of the Madill Bros. Stock is going on, and many are taking advantage of the bargains offered. New goods are daily arriving and are bepassed into stock. One of the features of the opening was the musical reception, an innovation which added zest to the opening. Mr. Johnson can now boast of having one of the most up-to-date dry goods stores in this part of the county.

A QUIET WEDDING.

Peterborough Young Lady Weds a Lorneville Gentleman.

Last evening a quiet wedding was celebrated at the residence of Mrs. John Grose, 148 Rubidge street, the contracting parties being her daughter, Miss Susan A., and Mr. Robert J. King, of Lorneville.

The marriage ceremony was performed by Rev. Mr. Jolliffe, pastor of the Charlotte street church, in the presence of about forty guests. During the ceremony, the bride, who wore a blue skirt, trimmed with white broadcloth, and a white silk waist, trimmed with chiffon, was assisted by Miss M. E. Gillen, who was attired in a dress similar to that of the bride. The groom was supported by Mr. Wm. E. Grose.

Mr. and Mrs. King left last night for Toronto and other points west, and will in future reside in Lorneville.

WEDDED AT KEENE.

Marriage of Miss Clara M. Bell and Mr. Thos. Walsh at the Village Beautiful.

In the neat little suburban church, in Keene west, St. John's Roman Catholic, was celebrated, Nov. 26, the ceremony that united in the bonds of matrimony Mr. Thos. Walsh and Miss Clara M. Bell. The popularity of the young couple, and the perennial interest inseparable from a wedding, crowded the church to the doors. Rev. Father Phelan of Young's Point, performed the ceremony, and celebrated the nuptial mass. The bride, who was given away by her father, was attired in an elegant travelling costume of castor velvet corduroy, with garniture of white lace and felt, and wore a picture hat, was attended by her sister, Miss Lottie Bell, dressed in a suit of green ladies' cloth, with harmonizing hat. Mr. F. Walsh, brother of the groom, performed the duties of best man. The wedding breakfast was served at the residence of the bride's father, and at the conclusion a very pleasing hour of social entertainment was presented. This included vocal and instrumental selections by the bride's sisters, Misses Lillian and Lottie Bell, and recitations were given by Miss Lillie Bell, of Peterborough. The fair young bride has for many years been organist of St. John's church, Keene. She was handsomely remembered by the choir, which presented her with an address, accompanied by a purse of money. The happy pair proceeded by the C.P.R. evening express to Toronto, where they will reside for the winter.

AFTER SUGAR.

Representatives go to Berlin This Morning.

Quite a formidable looking deputation left this morning via G.T.R. for the purpose of inspecting the beet root sugar factory at Berlin. Representatives from the County, the Town, Ashburnham, the Board of Trade and the Press were present, and it is expected that the essential points of the business will be discovered by them and the County and Town will be in a better position to act. Among those who went were: His Worship, Mayor Denne, Aldermen Roger, Rush, Batten, Turner, Clinkscale, Shortly, from the Town Council; Mr. Reeve Smith, of Ashburnham; all the County Councillors were present as well as Mr. Carnegie from the Board of Trade. The press was represented by Messrs Robertson, Dobbin and Clarry. It is expected that they will return on Friday evening.

BACK FROM BRITISH COLUMBIA

Mr. and Mrs. E. J. Abbott on a Visit to Ontario.

Mr. Abbott Engaged in Fruit Farming in Fraser River Valley.

Mr. E. J. Abbott, of Mission City, arrived in town last night after an absence from this county for eight years. Mrs. Abbott accompanies him and while in town they are the guests of the former's sister, Mrs. John Chasty. From here they will go to Lakefield to visit Mr. Abbott's parents, Mr. and Mrs. Wm. Abbott, Lakefield. They will remain in Ontario about five or six weeks.

Mr. Abbot is engaged in the fruit raising business at Mission City, B.C., in the valley of the Fraser River, about 40 miles from the coast. He devotes his attention chiefly to the growing of small fruits, strawberries, raspberries, etc., but grows some apples, pears and cherries but no peaches are raised in his neighbourhood. He grows exclusively for the export trade, and finds a market for his fruits in the Northwest Territories and Manitoba. For strawberries, he gets $2.00 per crate of 24 boxes, f.o.b., which is at the rate of 8 1-3 cents per box, raspberries being $2.40 per crate, or 10 cents per box, f.o.b. The climate is very mild compared with that of Ontario, and there is no need to protect vines. Mr. Abbott does no general farming but keeps a cow and a horse. He sends his fruit to Manitoba and the Northwest and gets his flour from the same sections. The land in the Fraser Valley where he lives is chiefly timbered with second growth, though the second growth in British Columbia is larger than the original first growth in Ontario. There can hardly be said to be any hard wood, no beech, and the maple is very much like our soft maple in quality and hardness. Mild climates as a rule while generally producing larger growth do not produce so good a quality. This applies not only to British Columbia woods but to apples also. While the apples Mr. Abbott grows are larger than those grown here they are not of such fine texture, quality and flavour.

DON'T FORGET

The Bazaar in St. Paul's Sunday School To-morrow.

To-morrow afternoon the annual bazaar of the Faithful Workers' Mission Band of St. Paul's Presbyterian church, will be held in the afternoon and evening, in the Sunday school room. The members have this year devoted a great deal of time and attention to the preparation of this bazaar, and it should be the most successful in the history of the band. Friends are requested to bear the date in mind—to-morrow afternoon and evening.

AN EVENING WITH DICKENS.

Mr. E. S. Williamson, of Toronto, will present "An Evening with Dickens," at the opera house on Monday evening, December 1st, under the auspices of the Ladies' Aid of St. Peter's Cathedral. The great novelist's entire life will be portrayed, the characters in his principal works brought out, and altogether a charming entertainment will be presented. Mr. Williamson has visited the principal towns in Canada, as well as many of the cities of the United States, and everywhere his unique and splendid talk has received the greatest praise. A student of Dickens for nearly fifteen years, Mr. Williamson has made a collection of nearly 150 stereopticon views of unusual excellence, which he will use in illustrating the life and times of the great author. Tickets for this rare treat may be procured at Mr. J. Lynch's drug store, or from members of the Ladies' Aid. General admission, 25c.; reserved seats, 35c.

THE FIRST OF THE SEASON.

A Small Fall of Snow Occurred Yesterday.

The snow storm which commenced yesterday morning was an extremely heavy one for the first of the season. There were 4.6 inches of snow, according to the observatory's report. The storm blew in from around the Gulf of Mexico, according to the observations of the weather man, but does not portend continued severe weather. This is quite late for the first snowfall to arrive, as for the past ten years it has come at an earlier date. The figures are as follows—This year, Nov. 26; 1901, Nov. 14; 1900, Nov. 13; 1899 Nov. 11; 1897, Nov. 7; 1896, Oct. 18; 1895, Oct. 29; 1894, Oct. 9; 1893, Oct. 28; 1892, Nov. 6. In 1891 two inches fell on Nov. 27. In 1873 no appreciable amount of snow fell until Nov. 30th, and in 1888 the date of the first snow fall was the same as this year, Nov. 26th.

In Quebec yesterday's storm was more severe than in Ontario, and high winds prevailed in the Maritime Provinces. In the northwest the weather is moderating. In Manitoba on Tuesday night the thermometer showed 8 degrees below zero.

ST. THOMAS STREET RAILWAY.

The City of St. Thomas began operating its own street car service Tuesday morning. It is now two months since the St. Thomas Street Railway Company stopped running the cars, and during that time the stand that the city would probably take in the matter has been one of the chief topics of discussion there.

The operation of this road by the city will be watched with interest throughout the Province, and the question of cheap fares is being strongly advocated.

The city has control of the system by virtue of a mortgage on the property, in which was a clause to the effect that if the cars should not be operated for 60 days the mortgage could be foreclosed. There is a great deal of difference of opinion as to ownership of the franchise, and also in respect to the operation of radial lines, which at present seems to be the key to the situation from a successful financial standpoint.

Very refreshing and healthy—Allen's Sweet Cider—At Henry & Co's.

MRS. A. N. CLARK PRESENTED

With a Watch on the Occasion of Her Departure From Town.

Last week Mrs. Clark, a prominent member of the Woman's Auxiliary of St. John's church, was presented with a handsome gold watch previous to her departure for San Francisco.

Mrs. Clark has long been identified with the congregation of St. John's church, and the gift was a small token of the esteem in which she is held. The watch presented was a handsome gold hunting case, engraved with Mrs. Clark's name, and the date, inside the cover, and her monogram on the outside.

Owing to Mrs. Clark's illness a public presentation was found to be impossible, and it was thought better to simply give her the watch in her home. On Tuesday at the Woman's Auxiliary sewing meeting in St. John's Guild Room, a letter was read from Mrs. Clark, acknowledging with "warm appreciation and thanks the beautiful gift."

COURT OF EXCHEQUER.

Special Session Being Held To-day.

At the special session of the Court of Exchequer, Justice Burbridge presiding, the case of the Crown, vs. Hull, was continued. This case, it will be remembered, arose out of the question of the value of lands expropriated for the Trent Valley Canal.

BIRTH.

THOMPSON.—On Thursday, November 27th, 1902, at No. 743 George street, Peterborough, the wife of Mr. W. J. Thompson, of a daughter.

Established Half a Century.

INTERESTING STORY OF INDIA

Told at Murray Street Baptist Church on Tuesday Evening.

The Annual Thanksgiving Service of the Women's Mission Circle.

There was a large attendance at the annual Thanksgiving Service of the Women's Mission Circle, of the Murray street Baptist church, on Tuesday evening. Mrs. Dr. Scott, president, presided.

After Scripture reading Mrs. Bastow led in prayer, after which Miss McClannin, a returned missionary from India, addressed the meeting.

Miss McClannin, in opening her address, contrasted the advantages of women in Christian countries with the despairing lives of misery under the angry rule of vicious gods. The strong prejudice against the education of women was emphasized. Only the Christian women of India receive an education. Even the high caste women are not taught to read; they know nothing of the great world; their lives are narrowed down to the gossip of their own neighbourhood. Their religion is loveless, lifeless and powerless. They fear their gods and are ready to make any sacrifices to appease their anger. The lady missionary goes to these women, leading the joyless, hopeless lives, and gives the first glimpse of a purpose and a future. As the meaning dawned on them, the question arises, have all our services to idol worship availed nothing? To persuade these women that all these years of labour are worth nothing is to strip them of their only hope. The freeness of the Gospel is at first a barrier. Nothing to do! nothing to pay! They cannot understand it. One great difficulty, Miss McClannin said, was the vastness of the field. There are two hundred and fifty villages on the field where she labours, and all are left to her care. She has been able to visit only one hundred and forty of these. She gave a most interesting description of her mode of approaching strangers. In many of these villages, being the first European lady the women have seen, she is at first looked upon with surprise and suspicion. She says that the missionary has much to endure, but the blessing of seeing souls born into the Kingdom of Christ, far outweighs any sacrifices on the part of the missionary.

Mrs. Hunter moved, seconded by Mr. Aldridge, that a vote of thanks be tendered Miss McClannin for her interesting address. Refreshments were served and a pleasant social hour was spent. The offertory amounted to $23.00.

SOCIAL AND PERSONAL.

Mr. R. P. Gough, of Toronto, was in town for the day.

Mr. C. Gordon, of Peterborough, was in town on Saturday. —Hastings Star.

Misses Alice Woods, Bella Connors and M. Kennealey are visiting Mr. B. Polson, Millbrook.

Mr. W. P. McLean, of Peterborough, representing the Geo. Matthews Co., was in town on Monday calling on customers.—Lindsay Post.

Bishop O'Connor, of Peterborough, officiated at St. Mary's church in Hastings, on Sunday, 16th inst., in confirming 58 persons. — Campbellford Herald.

Mr. H. P. Kennedy has removed from his late residence, King street, to his new home, corner of Aylmer and Dalhousie streets, purchased from Hon. J. R. Stratton.

Lindsay Post: The Pepper Twins left to-day for Cobourg to join Marks Bros. No. 1 Company. The boys have been engaged to take part in the vaudeville performance, in which they are fully qualified to appear." The Pepper Twins are well known in Peterborough, as they have appeared here many times during the past few years.

The Port Hope Guide says: —Word was received by Miss Colman from Dr. Leeming, of Winnipeg, this morning that Mr. C. C. Colman, formerly of Port Hope, was dangerously ill with typhoid fever. The letter was written last Friday, and as there has been no word since, it is thought that his condition must be improved. The doctor stated that every attention would be given him, and Charley's numerous friends here hope for a speedy recovery.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

A CHEAP SUBSTITUTE FOR COAL.

Instead of $15-a-ton coal, use gas for cooking—cleaner, cheaper, better.

ALONG THE OTONABEE RIVER

Progress of the Work at the Various Dams

From Lakefield to Rice Lake—This Year's River Trade.

That stretch of the Otonabee River lying between Lakefield and Rice Lake is gradually changing from what it was a few years ago as regards both its physical and commercial characteristics. At present there are many new enterprises in which the majority are interested and which are being pressed towards completion. Just this side of Lakefield a large dredge is at work clearing immense boulders from the river bed. Then the power house at No. 5, in which, it might be remarked, the machinery is running with a success, that in so new a plant, is exceptional, is being placed in order for the winter, and the last touches are being given the works at Nassau.

At the new dam at London street the work is coming along with incredible swiftness. The concrete work is being rushed to completion so that it may be used as part of the coffer dam to protect the wheel pit which is being made still deeper. It will be found necessary to remove the saw mill at the end of the bridge and next week the first steps in this direction will be made.

At the locks there is nothing being done on account of the high water, but when the locks are closed at the end of this week it is expected that the work will be continued.

The locks will be closed probably on Friday and will bring to an end one of the busiest seasons on the river for a number of years. During the fall and summer the amount of traffic on the river has been immense and as the Examiner has pointed out before the grain brought up the river has been, during the fall, on an average of about 11,000 bushels per week. When it is considered that there is about 150 miles open to the coasting trade from Peterborough the amount of traffic is not surprising. This distance lies between Peterborough and Healey's Falls and includes the distance around Rice Lake. It is alleged that next year the river trade will be still greater and that this is only the beginning of the era of prosperity now coming to Peterborough and vicinity.

THE POLICE COURT.

All Quiet This Morning—Boys Were Remanded.

The young boys who were remanded until this morning for Hallow-E'en pranks, were again remanded until Saturday afternoon, as His Worship Magistrate Dumble was engaged at the Court of Exchequer.

NEWS NUGGETS.

—The Court of Exchequer is being held to-day in the County Buildings.

—Rev. E. A. Langfeldt will hold his fortnightly cottage meeting in Auburn Chapel to-night at 8 o'clock.

—Murray street Baptist church choir rehearsal this evening at 8 o'clock. A full attendance is requested.

—St. Andrew's choir will practice to-night at 8 o'clock. A full attendance is requested as matters of importance will be discussed.

—Those who have not answered the last call made on rink stock will kindly do so at once. The rink can not be built with promises and good wishes.

—At a "grand rally" in St. Paul's church to-night, Rev. Dr. Galbraith, of Belleville, will discuss the Liquor Act. A general invitation is extended.

—There will be a meeting of all ladies interested in the temperance work at the Y.M.C.A. on Friday at 3 o'clock, to discuss the part they should take in the pending question.

—The "Span of Life Company" are alive. The advance agent was here, and declares that the special scenery, of which they carry a carload, will be used. "Where there's a will there's a way."

—The Young Mens' Guild of the George street Methodist church will meet to-morrow night in the basement of the church. A mock council meeting will be a part of the programme.

—A beet sugar deputation from Peterborough left the G.T.R. station this morning; a beat Quebec deputation, let us hope, leaves the G.T.R. Station to-morrow night at 9 o'clock.

—The following telegram was received this morning from Lindsay by the manager of the local opera house:—

"Lindsay, Nov. 27.

Span of Life Company gave first-class performance here last night and everyone was delighted.

(Signed) F. BURKE."

—To-day, November 27th, is Thanksgiving Day in the land of our neighbours to the south and for that reason ther will be no business transacted in the local stock markets. An absurd rumour was circulated this morning that the reason was altogether different from the one given above but it was soon disapated.

—Messrs. Buck and Stewart purchased during the past week from the farmers in this district, for shipment to Nelson, B. C., nearly 11,000 pounds of poultry, including turkeys, geese, ducks and chickens. The quality of the birds was Al, not a single bird being culled.—Hastings Star. It is evident that there is a good market for fowl this winter, both in British Columbia and Hastings.

—The business opening of the Ross Memorial Hospital, Lindsay, took place on Monday morning, when three patients entered the institution for treatment. Half a dozen charwomen were kept busy on Friday and Saturday removing the mud tracked through the building by the great crowd of visitors at the public reception on Thursday evening.

—The Point Ann quarry, near Belleville, has been sold to a number of Americans, who intend to erect a factory for the manufacture of cement. It is said that the purchase price is $8,000, and that $1,000 has been paid to bind the deal, the balance to be paid shortly. It is also stated that the same parties who are interested in this purchase, have also secured an option on the Crookston property.

LOVESICK LOCKAGES.

Record for the Year—Great Increase in Lake Traffic.

Mr. William Macfarlane, Lockmaster at Lovesick, reports that the steamboat traffic was brisk on the lakes this year. During the season, from April 21st to November 25th, the number of steamers locked through numbered 353; number of barges, 77; number of rafts, 84; total 514. The number of trips made by the steamer Ogemah through the locks during the season was 122, and her passenger traffic shows a large increase. Three years ago when Mr. Macfarlane took charge, the lockages were only 170 so that the lake trade is getting its share of Canada's growing time.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

M. O. STABLER.

DRIVING CANADA TO U.S.

Fortnightly Review Publishes an Alarmist Article on Us.

London, Nov. 27.—The Fortnightly Review for December publishes an alarmist article, entitled "The Foreign Invasion of Canada." The text of the article is the recent declaration of "a devoted descendant of the United Empire Loyalist" that England is driving Canada into the arms of the United States by neglect to supply the people with money for Canada's rising industries. The writer, who toured Canada last autumn, declares that Quebec Province is becoming more French than France, more Roman Catholic than any part of the world. He declares the suggestions that French-Canadians are most loyal subjects of the throne to be a mere fairy tale, and that no English-speaking Canadian but laughs at stories to this effect published in the Old Country. He quotes statistics specially furnished by Ottawa departments to prove the inevitable Americanization of the Canadian West, while Canada's dependence on New York channels for British news is working in the same direction.

TRADE WITH NORWAY.

Steamer Arrives With 5,200 Tons of Ore at Halifax.

Halifax, Nov. 27.—The steamer Oscar Frederick from Norway with the cargo of Swedish ore, which was shipped to America, arrived at Sydney yesterday. This cargo consisted of 5,200 tons. The captain of the steamer says that the people of Norway and Sweden are greatly pleased at the prospect of trade with Canada. Four more steamers are now on the way with ore, and they will take return cargoes of coal. During the winter the ore for Cape Breton will be shipped from a port in Norway, owing to the Swedish ports being blocked. Steamer Frederick sailed from Kirrunnavara, Norway, and brought the first cargo of ore over shipped from that port, and the first cargo ever shipped from a mine only lately developed. The captain states that Sweden could export 2,000,000 tons of ore a year for over 200 years, and take only what was on the surface. It is expected that a regular fleet of steamers will be employed in the trade.

USES NO OVERCOAT.

Sir Wilfrid Laurier Has No Organic Disease, Doctors Say.

Ottawa, Nov. 27.—Reassuring letters continue to be received here in regard to Sir Wilfrid Laurier's state of health. Lady Laurier, writing to a lady friend, states that the physicians in attendance upon the Prime Minister say he has no organic disease. All that Sir Wilfrid wants is rest and freedom from worry. Sir Wilfrid himself in a letter to a personal friend states that the air at Hot Springs is balmy and the weather very much like that of Canada in June. He goes about in the open air without any overcoat.

To Amend the Sherman Law.

Washington, Nov. 27. — President Roosevelt, in his second annual message to Congress, wishes Congress so to amend the Sherman Anti-Trust Law, that over-capitalization may be avoided, competition fostered rather than destroyed, and publicity assured. With such modifications of the existing laws, the President will give assurance that his administration, under the supervision of Attorney-General Cox, will not interfere with any corporation which respects the public and obeys the laws, but will drive to the wall all those which, by evasions of law of its defiance, seek to control the prices of food products and other necessities of life.

Knocking St. Lawrence Route.

London, Nov. 27.—The Times' Lloyds' correspondent makes the grounding of the Sicilian the text of disparaging remarks on St. Lawrence navigation. He says the important strandings of the present season number eleven, and the number of recent casualties severely strained the dock-repairing resources of St. Lawrence ports. Underwriters doubt whether special favorable terms will now be granted, in view of the recent disasters.

Planning to Back the Treaty.

Washington, Nov. 27.—The indications are that the administration will have another rejected reciprocity treaty on its hands at the end of the coming session of Congress. Senator Lodge and other New England Senators are outspoken in their opposition to the treaty recently negotiated by Secretary Hay with Prime Minister Bond of Newfoundland. This treaty, they claim, would work to the injury of the fishing interests of New England.

Blind, If Not Dead.

Detroit, Mich., Nov. 27.—F. A. Burrows, the young man from Montreal, who shot himself on Woodward avenue, a few days ago, remains in a semi-unconscious condition at Harper Hospital. The surgeons say that, if he recovers, he will be blind in both eyes, as the optic nerves are destroyed.

Three Negroes to Be Sold.

Lancaster, Ky., Nov. 27.—Two negro women and one negro man will be sold by the sheriff to the highest bidder before the courthouse on Friday, one for three months, the other two for two and three years respectively. They were convicted of vagrancy in the Circuit Court.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

Hall's Family Pills are the best.

WOULD HAVE TO STOP HER WORK AND SIT DOWN.

HOW MANY WOMEN HAVE TO DO THIS FROM DAY TO DAY?

MILBURN'S HEART AND NERVE PILLS are a blessing to women in this condition. They cure Nervousness, Sleeplessness, Palpitation of the Heart, Faint and Dizzy Spells, Weakness, Restlessness, and all troubles peculiar to the female sex.

Mrs. James Taylor, Salisbury, N.B., in recommending them says: About eight months ago I was very badly run down, was troubled greatly with palpitation of the heart and would get so dizzy I would have to leave my work and sit down. I seemed to be getting worse all the time, until a friend advised me to try MILBURN'S HEART AND NERVE PILLS. I can truthfully say that they do all you claim for them, and I can recommend them to all run-down women.

Price 50c. per box, or 3 boxes for $1.25; all dealers, or The Milburn Co., Limited, Toronto, Ont.

13 Lawyers Sent to Jail.

Vienna, Nov. 26.—During the trial of 925 peasants at Kharkoff, Russia, yesterday, on a charge of rebellion, the 13 lawyers defending the prisoners left the court room, declaring that the trial of the prisoners was a farce, and the condemnation of the peasants was a foregone conclusion. The Minister of the Interior punished the lawyers by condemning them to one year's solitary confinement, on a bread-and-water diet, for their demonstrations against the Government.

Jamaica and U.S.

Kingston, Jamaica, Nov. 27.—The newspapers, planters and merchants of Jamaica are joining in an agitation, with the view of inducing the Government to open negotiations with Washington for a reciprocity treaty.

Died Aged 109.

Fredericton, N. B., Nov. 27.—Thomas Clayborn died at Lower St. Mary's, aged 109.

A GREAT CANADIAN.

Sir Sandford Fleming's Tribute to the Late Rev. Dr. George Monro Grant of Kingston.

Addressing the audience at the recent laying of the corner-stone of the Grant Memorial Hall at Queen's University, Kingston, Sir Sandford Fleming said in part: "By the wish of the students, by the request of the council by the resolution of the trustees, we are assembled here today to perform an important function in which we are deeply interested. As Chancellor of the university the duty has devolved upon me to take a prominent part in laying the corner-stone of a building to be erected in loving memory of our late Principal. The building, to be raised on the site upon which we now stand is to be used as a convocation hall and always to be associated with his name. Twenty-five years ago, on the 2nd of last month (October), the Rev. George Monro Grant was appointed Principal of this university. On May 10th of the present year (1902) he passed to his reward. Between these dates he performed faithful services and endeared himself to every one connected with Queen's. He gave unstintedly a quarter of a century of his best years. He labored with untiring activity and increasing zeal to place on a broad and permanent foundation a great seat of learning in eastern Ontario. He steadily aimed to complete the establishment of a university where the Canadian youth of this generation and of all coming generations would reap the advantages of higher education in its most perfect form. We see evidences of the success which has attended these efforts in the stately buildings erected around us, in the many eminent professors who have been gathereh together from many sources of learning, and in the yearly increasing numbers of students who flock to this university. He was a man of many gifts, a man of strong intellect, a scholar, a teacher, a preacher and a theologian. He was a man of affairs of singular resourcefulness. He was endowed with broad patriotism and statesmanship. He was a man of hopeful courage and of high principles. When occasion required he was fearlessly outspoken. And withal he was of deep sympathy, of tenderness and singular unselfishness; no soul more gentle, not one amongst us with a heart more noble, not in all Canada one more steadfast or more true. We do well to cherish the memory of a man who has long been, and who will long continue to be, an inspiration to the students of the university.

"While the death of Principal Grant is a private loss to individuals innumerable, it has been a calamity to the university. His death has been a national as well as an individual loss. But should we mourn that our beloved friend has found rest from his labors and entered on his eternal jubilee? If in his absence we find the university face to face with grave difficulties, let us recall his hopeful spirit and follow the example he always set us. Let us be patient, and let our patience be combined with faith. His was the mind of high resolve, of lofty ideals and penetrating insight. On this occasion I may fittingly repeat a sentence to which he gave utterance when he addressed the students in Convocation Hall a short time before his death. He spoke of a vision of the future which had been given him: 'I see our university strong in love, an ever-increasing power for good; our country purging itself of dross and passing forward to be in the van of the world's battle, an empire as of old, dispenser of justice to all under its flag, and champion of liberty, civil, religious, intellectual and commercial; and our common humanity struggling up into the light, slowly but surely, realizing its unity and accomplishing its mission to establish the Kingdom of God upon earth.'"

NERVOUS HEADACHE.

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

Dr. Chase's Nerve Food.

Headache powders relieve headaches, but they have never cured them, and they are not intended to make a lasting cure. Besides the risk run in using a drug that is strong enough to instantly stop pain, you may be sure that the reaction on the nervous system is most trying and injurious.

Mrs. Clancy, whose letter is quoted below, was subject to headaches for nineteen years, and in spite of all the headache remedies she used she could get no lasting benefit. She suffered so severely when the attacks would come on that she could not go about the house. She has restored her nervous system by the use of Dr. Chase's Nerve Food, and her headaches have entirely disappeared.

Mrs. Jhs. Clancy, 714 Water street, Peterborough, Ont., writes: "I have used four boxes of Dr. Chase's Nerve Food, and found them an excellent medicine. I was troubled more or less for nineteen years with severe headaches, which made me useless as far as accomplishing my work was concerned.

"The Nerve Food seemed to build me up generally, and so made a thorough cure of my old trouble. I would not think of being without Dr. Chase's Nerve Food in the house and would strongly recommend anyone suffering as I did to give it a trial. It succeeded in my case after a great many remedies had failed."

To the thousands of women who are victims of nervous headaches this latter should prove of inestimable value. If they will but follow the advice of Mrs. Clancy they can be certain of great and lasting benefit.

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 1

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to earn and buy when a $2000 policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

TALK ABOUT AUDITS

AUDITOR-GENERAL OF THE DOMINION ADDRESSES CANADIAN CLUB.

Safeguards Surrounding Disbursements From the Public Treasury—Interesting Reminiscences of Early Days in Auditor-General's Department—Stories of Former Premiers and Their Methods—"A Quarter of a Century's Audit."

Mr. J. Lorn McDougall, Auditor-General of the Dominion of Canada, recently before the Canadian Club, Toronto, gave a most interating and instructive talk upon the topic "A Quarter of a Century's Audit." Mr. McDougall related several interesting anecdotes respecting Sir John Macdonald, Sir Mackenzie Bowell, Sir John Thompson and other prominent figures in the political history of Canada.

As indicating the lightness of the touch of Sir John, Mr. McDougall related his experience when he went to him to get his aid in preventing some expenditure. "Sir John, that will not do the Government any good," he remarked, and Sir John immediately replied, "No, no, you are quite right. It would only give radically Grits like you a ground to run up and down the concessions abusing us. You can always count upon me helping you. Be sure to call upon me when anything like that occurs." (Laughter.) Mr. McDougall related other anecdotes of interviews with Sir John, who, he said, was, he knew, turning him inside out, but there was something pleasant to feel that he was operated on by so skillful a surgeon that there was not a scar felt. (Loud laughter.) Mr. McDougall said he was also warmly assisted by Sir Mackenzie Bowell, who was his personal friend, although a political opponent when they were in Parliament together.

Dwelling upon the responsibilities of auditing the accounts of the Dominion, Mr. McDougall said: "A public servant, like any other servant, although engaged for a special duty, is a faithful servant only when his eyes are open to the general interests of his master as well as to the special." He explained the routine of expenditure of the public money of the Dominion, concerning which the general public have but a dim and hazy idea. There are, he said, two general methods of making payments: First, by Receiver-General's cheques, and, second, by cheques drawn under letters of credit. Receiver-General's cheques are, as a rule, confined in their issue to payments for contracts of magnitude on monthly estimates, and to repay the banks, chiefly the Bank of Montreal, for letter-of-credit cheques issued by the departments at Ottawa, or their servants in remote parts of the Dominion. Cheques of all kinds are made payable to the order of the public creditor. Why? Because his endorsation shows better than any special receipt that he has received the amount, and because no one through whose hands it might necessarily pass could withhold any part of the amount.

There is much more use of the letter-of-credit system that would at first sight seem consistent with a careful safeguard of the public purse from improper payment. The public mind is greatly startled when information reaches it that there is a payment before audit. But anyone can see that a most important step has been made if payment without delay accompanies a process which removes the most important dangers of irregularity. Credits are never issued to a single person, except when there is a choice only between issuing a credit to him for advances to himself, as may be required, and issuing a direct cheque at once for the whole amount of the credit. The credit is in the name of two public servants of prominence, generally the deputy of the department and the accountant, or such substitutes as may be entrusted with the performance of their duties under order-in-Council, generally during their absence. Credits are issued where payments are required to be made at distant points, and without delay, to permanent officials. Now, it seems manifest that we cannot hol it seems manifest that we cannot hold the bank on which the credits issue for any improper amount unless its neglect were most palpable. You will, therefore, inquire what is the justification for giving so much latitude.

The credits being to men of prominence, who are presumably intellectually and otherwise reliable, the first source of confidence is secured. To bring about misappropriation it would be necessary that both should be dishonest, and that one of them should suggest the dishonest action to the other, and therefore put himself in the hands of the latter. A cheque once drawn, the amount of it cannot be refunded, and therefore the amount of a cheque cannot be simply borrowed. At the end of the month a statement of cheques drawn, giving the number of each and the amount is sent to the audit office for repayment to the bank. Under this system there is no money to be accounted for by the disbursing officers. They have the means of paying without having any money to handle. There is, therefore, no fear that if a statement of vouchers is not sent in, it is because the holders of the credit have to account for money which has been used by themselves. The best evidence of the success of the method in the one respect of its security against defalcations is that none has occurred, so far as I can recollect.

The probability of differences between the department and the Ministers respecting the practice to be followed, and the desirability of adopting definite rules were touched upon by Mr. McDougall, who spoke also of amendments which he deems necessary to render his work more perfect. Incidentally, he remarked that it is not generally known that a Parliamentary audit owes its origin in Canada to Hon. Edward Blake, "that wonderful man, who works like a slave on every detail of anything which he takes up, and yet grasps a subject with the greatest quickness."

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

Almost Racked to Pieces.

MISS SADIE E. RUSK, OF RUSKVILLE, ONT., HAS A TRYING EXPERIENCE.

Ruskville, Ont., March 1st, 1902.—It affords me much pleasure to testify to the excellency of DR. WOOD'S NORWAY PINE SYRUP. About a year ago I was attacked by a hacking cough. It was so distressing that I was almost racked to pieces by its violence. I saw DR. WOOD'S NORWAY PINE SYRUP highly recommended for coughs like mine, so I purchased a bottle, and it completely cured me. I find it equally beneficial for colds in the head, and any obstruction of the nasal passages. It is an excellent preparation, and too much cannot be said in its favor.—Sadie E. Rusk.

DR. WOOD'S NORWAY PINE SYRUP contains all the essential lung healing principles of the pine tree, and is a wonderful cure for Coughs, Colds, Bronchitis, Hoarseness, Pain or Tightness of the Chest, and all Throat and Lung Troubles. Price 25c. Bottle, at all Dealers.

Jeweled Brooches.

THE Brooches here mentioned may offer a desirable suggestion for Christmas buying.

Each one is of artistic merit as well as surpassing value.

No. 13320, at $5, is a Star and Crescent design of fine Pearls and solid Gold.

No. 13317, at $10, is a roseate scroll design in solid Gold, mounted with a fine Amethyst surrounded with Pearls.

No. 13369, at $24, is a Pearl "Sun Burst" of exquisite beauty.

No. 13408, at $42, is a Clover Leaf, payed with fine Pearls, having for its centre a beautiful Diamond.

We guarantee safe delivery, and cheerfully refund the full price if a selection is in any way unsatisfactory.

HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskilfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Pattos, of Clarks, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. With my Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the paper covered book, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

WHERE UNCLE TOM LIVES.

Tomstown, a Newly-Established Settlement on the Blanche River, in the Temiskaming District—Tomstown's Founder Is Now Crowded.

Settlement has recently proceeded very actively along the Blanche River, says the correspondent of The Globe at Liskeard. This is a considerable stream, which, commencing at the head of Lake Temiskaming, extends in a northerly direction some forty miles. It has branches running north and south, and is the main water supply in a district where the numerous rivers, streams and small lakes make it exceptionally well watered. The Blanche River is navigable for a distance of nearly eighteen miles for small steamers, to the newly-established settlement of Tomstown, and a trip up the Blanche reveals the country under very favorable auspices. It is fine rolling land, well timbered, and the timber here is valuable, owing to its proximity to the river, and the comparatively small cost of getting it into the water. Of course all the land along the river is taken up, and, what is better, it is pretty nearly all being worked, clearing going on rapidly. There is going to be in a very few years a most prosperous community along the stream.

The present head of navigation on the Blanche River is Tomstown, so called after Uncle Tom. Who Uncle Tom is none of the settlers round here know, although there are few who are not acquainted with him. All the information that is definite about Uncle Tom is that he is an Englishman, and his name is supposed to be Henry Thomas. Four years ago he paddled up the river in his canoe, and landing, put up a shack about fifty yards back of the high bank of the river. There he has resided ever since, the shack being replaced by a comfortable log cabin, where Uncle Tom lives and receives his visitors, for nobody who goes to Tomstown neglects to call on Uncle Tom.

An old man, possibly 65 years of age, a venerable figure, with a long white beard, kindly face and benevolent eyes, stands on the bank and greets the steamer as it ties up at Tomstown. That is Uncle Tom, and he welcomes the visitor to his domain, for, though living so long alone, he is exceedingly sociable, and an evening with Uncle Tom in his cabin, talking by the light of a candle or lantern, is not to be forgotten. Of the country and its future he will speak with enthusiasm, but of himself very little, yet he will sometimes tell of a winter night when he started down the river on the ice and fell through and of the terrible time he had before he succeeded in getting out of the water. He finally reached his destination, half frozen and nearly dead from exhaustion.

Uncle Tom at present lives in the midst of a little colony that is growing up around Tomstown. It is expected to be a considerable centre after a time, and when the road now building west meets the road running north from New Liskeard communication between these two points will be more easily kept up in winter. There is, too, a water-power on the river two miles above Tomstown, which may be made available in the future.

In the meantime, however, taking time by the forelock, Uncle Tom has had Tomstown surveyed into building lots, and there is a land boom on a small scale going on there, quite a number of lots having been disposed of. Into these real estate transactions Uncle Tom himself has entered with some zest, and those who know him are pleased to think quite profitably. But it is said that Uncle Tom contemplates another move. He is getting crowded. There are too many people around Tomstown, sometimes a dozen or twenty arriving in a day. Out of this whirl of civilization Uncle Tom is believed to wish to escape, and it would not surprise anyone if some morning he took his canoe and pack and set out again, to pitch his tent in some spot where he will not be incommoded by the passing throng. These days, however, as the traveler takes the boat out from Tomstown he will always see Uncle Tom waving a farewell, and his cheery voice calling, "Good-bye, boys; come again. You are always welcome."

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

Buried on Horseback.

Lord Dacre, who died fighting for the Lancastrians at Towton, England, in 1461, directed that if he were killed in the battle his favorite war horse should be buried in the same grave with him. According to his wishes, when his interment took place in Saxon churchyard after the battle a tremendous grave was dug and in it the warrior was buried, seated upright on the horse. For centuries reflections were cast upon the accuracy of this tradition, but a few years ago while excavations for new graves were being made close by the reputed burial-place of Lord Dacre the pick of a digger struck into a great bone and upon further search being made the skull of a big horse was brought to the surface. As this was found almost at the very spot under which the body of Lord Dacre was said to lie it was accepted as confirmation of the tradition, prticularly as the skull was found to be standing vertically in the soil. The skull was replaced carefully in its original position and the excavation filled up.

ARE YOU A PRISONER?

THOUSANDS of men are prisoners of disease as securely as though they were confined behind the bars. Many have forged their own chains by the vices of early youth, exposure to contagious disease, or the excesses of manhood. They feel they are not the men they ought to be or used to be. The vim, vigor, and vitality of manhood are lacking. Are you nervous and despondent? tired in the morning? have you to force yourself through the day's work? have you little ambition and energy? are you irritable and excitable? eyes sunken, depressed and haggard looking? memory poor and brain fagged? have you weak back with dreams and losses at night? deposit in urine? weak sexually?—you have

Grandest and Proudest Day in Our History

DECEMBER 4th, 1902.

ONTARIO'S CHARTER OF EMANCIPATION

Freedom From a Most Cruel Slavery.

LIBERTY—HAPPINESS—PROSPERITY.

Joys of home, wife and children given to 16,268 suffering in the coils in this Province, and sound mind and bodies to thousands more in the asylums, reformatories and hospitals.

What a freedom from heavy taxation to support all this — all these kept in cruel and bitter bondage by our licensed bar-rooms. To stay at home will be to give the benefit and support to the liquor traffic.

Let every man get out and vote in favour of the Liqour Act on **Dec. 4th** and

SAVE THE BOYS.

This is your opportunity—don't let it pass.

Don't listen to appeals of men or agents who spend their days in sucking the character, life and virtue out of your fellowmen.

Don't be misled by the foolish arguments of men who make their money out of the degradation of men and women and the destruction of home.

Don't be led astray even by the opinions of priest or prophet who, through strong drink, errs in vision and stumbles in judgment.

212,723 Votes are Required to Carry the Act.

Vote for the Liquor Act of 1902, which closes the bar-rooms and will save the boys. Mark your ballot thus—

	YES	NO
Are You in Favour of the Liquor Act of 1902 ?	X	

Which means that you are in favour of this Act which proposes to banish the bar-rooms.

See your duty to your God, to your Province, your family and its future—then do the right on December 4th.

Do not be frightened into doing injury to your conscience and to the lives of your fellow citizens by cries of compensation, for the drunkard makers will have till May, 1904, to sell off their poison and get into better employment. There will be no compensation.

LATEST IN SPORTING CIRCLES

HOCKEY.

THE TRENT VALLEY LEAGUE.

For some time past the secretary of the Trent Valley Hockey League has been in correspondence with the Executive of the O.H.A. regarding the amalgamation of these two bodies. The general belief is that it would stimulate interest in the game in this district, and if a reasonable arrangement is offered by the larger body ther eis no reason why the amalgamation could not be accomplished. Concerning the chief objections, Mr. W. A. Buchanan, treasurer of the O.H.A., writes to the secretary of the Trent Valley League as follows:

I am very glad that you are interesting yourself towards th eadvancement of the O.H.A. in the Midland District. I anxious to do all in my power to bring in the Trent Valley League, but the proposition of another series for teams that are too old for the junior and too slow for the intermediate would not relieve the present difficulty. No matter how many series existed there would always be a certain number of teams outclassed and eager to get into a series where there would be more chance of victory. Again, now, it is a heavy task to conduct the three series with many degree of satisfaction and finish the season before the ice leaves. A fourth series would to my mind burden the Association unnecessarily.

There is no necessity for any of the teams you mentioned being grouped with the Peterborough intermediates in the first round. In fact I will guarantee that they will not be. We could place Bobcaygeon, Fenelon Falls and Omemee in one district, T. A. S. Millbrook, Keene and Lakefield in another, and Norwood, Campbellford and Marmora in another. Then the winners of these could play off and the winner from the three districts would step into the semi-finals. This would certainly give them lots of hockey as well as an opportunity to participate in the contest for the O.H.A. championship.

. . . . . Regarding the O. H. A. fees, you must remember that the ten dollars is only paid the first year. After that the fee is only five dollars a year, which is certainly not excessive, especially in an association that is so well conducted as the O.H.A.

You need not worry about the rink specifications as long as the clubs are satisfied, we'll not enter any protest. If your League intends holding a meeting at an early date I wish that you would let me know. I think that it might be possible that a representative from the executive would be sent down to discuss the question of affiliation, with your teams.

Any further information you want in reagrd to this matter will be gladly furnished. I will write to you again in the course of a day or so. . . . . I don't see why the clubs down there can't pay ten dollars the first year. Clubs in much smaller places have done so without the slightest exertion.

* * * * *

In Port Hope the game will, in all probability, flourish mightily. There are at present seven teams in that town preparing for winter.

* * * *

Canadians are now playing hockey in the United States and the members of the football team that is going to England are to take their sticks and skates. Where next?

* * * *

It is stated on the best authority that the iron work for the new rink will be shipped to-day from Toronto. This should remove all cause for delay. With this weather skating should soon be here.

RUGBY.

The following notice has been sent by the secretary of the O.R.F.U. to the different clubs in the union:—

The annual meeting of the Ontario Rugby Football Union will be held at the Rossin House, Toronto, on Saturday, Dec. 13, at 2 o'clock sharp. The attention of clubs is called to the following rules governing such meetings:—

At all general and annual meetings each team which has not defaulted a union match in the previous season shall be entitled to representation as follows—Clubs having a senior or two teams shall be entitled to two representatives; and clubs having only an intermediate or junior team, one representative, exclusive of the members of the executive. Each delegate, and each member of the executive shall have one vote. Delegates must be members of the club which they represent, and must be residents of the town or city to which their club belongs, or bona fide students of a college which he or they represent.

The constitution of the Union shall not be amended except at an annual meeting, and notice of the proposed amendemnt shall be given the secretary, in writing, two weeks before the day of the meeting.

* * *

The report that the two Ottawa teams had sent $150 to the Canadian Union as its share of the receipts from the Canadian championship match in Ottawa on Nov. 15 was confirmed by Secretary J. D. McMurrich yesterday morning. This peace offering by no means settles the trouble, however, as Mr. McMurrich, in acknowledging the receipt of this sum, will not give the Ottawa teams a clear receipt. The money will be forwarded to the Union at its annual meeting, and the matter will be left in the hands of the full meeting as to the amount due. Meanwhile Mr. McMurrich says that the Ottawa teams will have to answer to the Union for their action in the seizing of the gate and freezing the representatives of that body out. This is entirely apart from the question as to the amount of money due the Union. It is a matter of dignity.

CERTAIN WISE WOMEN

Have been heard to declare that they meant to do their Christmas shopping in November. We very fully endorse this in respect, particularly, to Furs. All through the store we have been making ready. Holiday Furs occupy first place in our attention now. A large staff of experienced Fur workers have been and are now busy beyond all other seasons, making goods goods to order for Christmas.

Orders for Persian Lamb and Seal Jackets, Fur Lined Coats and Fur Lined Capes need to be looked to at once, if desired for Christmas.

Scarfs, Collarettes, Boas, Muffs, Gauntlets and Capes, etc., can be selected more satisfactorily now than during the rush just before Christmas. Select now and we will lay them aside for you until wanted. Customers will get the advice and attention of salesmen, so necessary to a proper selection of Fur Garments better now than during the rushed period.

Our Fur Stock is extra well selected; Our Fur Styles are most up-to-date; Our Fur Qualities are always just as represented; Our Fur Guarantee is invariably carried out; Our Fur Customers all say "Tis a safe place to buy." Call and inspect our Christmas Stock of Furs now.

SIMPLY A CONCESSION.

C. R. Munro Writes About the Socialists' new Contagious Diseases Rules.

The Examiner has been requested to print the subjoined:—

"C. R. Munro writes The News as follows:—'There has been so much adverse criticism in the press recently of Christian Science, that Christian Scientists will read with pleasure the broad and generally fair editorial in The News of Friday, regarding the recent advice of Mrs. Eddy to Christian Scientists, to refrain for the present from treating contagious diseases. We are glad to note that Mrs. Eddy's wise counsel is meeting with approbation by the public; but while this is so, I would like to call attention to a statement made in your editorial, which, though written with good intent, and in the kindest way, is nevertheless based on a misapprehension of the facts. It is stated that 'The order has caused great excitement and even consternation among the members of her church in the United States, many of whom regard it as an illogical departure from the basic principles upon which, in physical matters, at least, their organization has been founded.' Permit me to say that such is not the case. Mrs. Eddy's advice caused very little surprise among Christian Scientists who have followed the recent agitation in the press, and the unjust attacks upon their system, and they recognize that this seeming retreat is in reality only a concession, for the time being, to the fears and anxieties of that part of the general public who do not as yet understand the great curative power of this science. Christian Scientists themselves know, through practical experience, that they can successfully handle contagious diseases, and their remarkable success along this line is well known to many; but until the public are willing to tolerate, and even welcome, its use, as they will in a very short time, when they understand its value, it is best that the advice of Mrs. Eddy be followed out, as it will be. As to the reporting of contagious diseases to the health authorities, Mrs. Eddy's advice for years past has been to obey the laws, and to report such cases as the law requires. Christian Scientists do report contagious cases regularly, and there is no fault to find with them in this connection. In a recent case a Christian Scientist was condemned for being late in reporting a contagious disease, while every day there occur cases of mistaken diagnosis among physicians, and tardy reports as a result. In the same case the Christian Scientist was censured for going to and from a diphtheria patient, while it was admitted by the President of the Health Board that this was the common custom among physicians. In an able article in The Montreal Star recently, the editor says: 'The Christian Scientists of today may be condemned, but we do not think the condemnation will long hold good. The principle of liberty must prevail in the end.'"

DOURO.

During the month of November, there were married in St. Joseph's church, Douro:

Nov. 4th. — Mr. Michael Kennedy and Miss Julia Coughlin.

Nov. 18th. — Mr. Felix Lynch and Miss Joanna Sullivan.

Nov. 25th. — Mr. Stephen Grisdale and Miss Margaret Boland; Mr. Daniel McKenty and Miss Susan Smith; Mr. Wm. O'Toole and Miss Margaret Leahy.

In each case the officiating priest was Rev. Father Keilty.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

THE VOLUNTEER RIGS.

Charged for in Advance Made Livery Hire High in Lennox.

THURSDAY'S EVIDENCE AT TRIAL

Horse Owners Deliberately Overcharge Conservative Candidate Carscallen in Order to Recoup Themselves For Free Rigs on the Day of Election — Several Charges of Treating Fail.

Napanee, Nov. 28.—A goodly number of charges were investigated in the Lennox election trial yesterday, and it is expected that a conclusion will be reached to-day. Judgment in the Wilson-Parkinson charge in the Lennox case was reserved.

In an interesting livery case judgment was also reserved. Two livery men swore that they had systematically overcharged the respondent for rigs, to recoup themselves for supplying rigs on election day. About half a dozen charges were dismissed, and eight, including personal charges of treating, were dropped.

In the Wilson-Parkinson charge P. H. Baker, who drove Wilson and Parkinson to the poll, swore that he did not see any money pass between Wilson and Parkinson in the buggy, although he admitted that it might have occurred.

Two liverymen, R. H. Potter and G. H. Williams, swore that they had systematically charged Mr. Carscallen more than their usual tariff during the weeks preceding the election, in order to recoup themselves for supplying horses free on election day. Potter's account was $37 and Williams' $65.

Richard Fraser, who was Conservative financial agent, both in Lennox and Addington; G. F. Ruttan, Mayor of Napanee, and one of the solicitors for respondent, swore that he was Secretary of the Conservative Association, but had no knowledge of any overcharge in the livery accounts. He knew that Mr. Carscallen was to get the $500 from Toronto, but had not known of the $200 until the protest was on.

Judgment was reserved, Judge Osler saying it was rather a delicate point.

Thomas Smith, a young man, denied that he had been paid $1 for driving a rig on election day, or that he had received any money. Mr. Watson was proceeding to question the witness as to who had seen him about his evidence, but Judge Osler stopped him sharply, saying that he must not go on a fishing expedition. "I think, if your Lordship knew the circumstances as they are known to counsel, you would not think I was on a fishing expedition. A great many difficulties have been put in the way of getting evidence."

Judgment on the charge that John Smith had been paid $1 to procure votes was reserved. Smith was hired by Lapan to drive a rig on election day, but was kept busy as a messenger between the polling places and Mr. Morley Wilson's office at the committee room. Judge Osler appeared to think that the charge was not an offence.

In the afternoon R. T. Jones swore that he was paid for carrying messages to the Conservative Committee rooms on election day.

A charge that John Carscallen, a brother of the respondent, had lent $5 to Lewis Hall corruptly was dismissed.

Ferdinand Grimshaw swore that he asked Ed. Long for something for his vote. Long promised to get him something, and after the election witness asked him for payment, but Long said he could not get it for him yet. Long contradicted Grimshaw's evidence, and the charge was dismissed.

A charge that Alex. Hewitt had bribed Paul McCauley was dismissed.

Wm. Reynolds of Adolphustown swore that he had been in Manitoba during the harvest of 1901, until some time in November. When he went to vote his vote was challenged, on the ground that he had been living out of the Province during the preceding months. Davis said it was all right. Witness took the oath and voted. He took the oath on his own judgment. Harry Clapp stated that Davis was scrutineer for Mr. Carscallen. Clapp, as Liberal scrutineer, objected to Reynolds' vote, and Davis said: "Don't try to scare the boy; he has a good vote." The charge was dismissed.

Thomas McNeil swore that on election day in Fleming's hotel, Napanee, some time after he voted, W. J. Wilson put down $5 in payment for his lunch and some drinks. McNeil and Fleming grabbed the bill. McNeil got it, and afterwards gave Fleming $3.

The witness had some rather hard passages with Mr. Watson, whom he addressed repeatedly as "my learned friend" and "my good man." When he called Mr. Watson "my learned friend" even the Judges laughed.

Mr. W. J. Wilson entered the box and explained the occurrence to the satisfaction of the court. He had been scrutineer, and handed the $5 to Fleming in payment for his lunch. McNeil grabbed the money and ran off with it. McNeil was working in Fleming's hotel, and the same night witness got from Fleming the change that was due to him out of the $5. Mr. Watson did not argue the charge, allowing it to drop.

Eight charges, including one of treating by the respondent, were dropped.

WILL THERE BE A TRIAL?

The Dates For Hearing the Petitions in West York and Addington.

Toronto, Nov. 28.—The politicians appear to have not yet decided what is to be done with the West York and Addington Dominion election petitions, but efforts are being made to come to some arrangement and have both petitions dismissed.

The West York petition against Archibald Campbell comes up for trial in the common pleas chamber to-day. The Judges will be, probably, Chancellor Boyd and Mr. Justice MacMahon. No particulars have been filed in this so far, and if it is not dismissed an adjournment will be asked for.

The trial of the Addington protest against Melzer Avery is down for Saturday at Napanee. No particulars have been filed in this either.

In the North York Provincial protest Mr. James Baird has been appointed solicitor for the petitioners in the place of Bristol, Bayley & Armour.

WANT DAMAGES FOR BOYCOTT.

A Suit of Peculiar Interest to Grain Men Entered at Winnipeg.

Winnipeg, Man., Nov. 28.—A sensation was sprung in local grain circles yesterday when Alfred Andrews, acting on behalf of Farquhar B. McLennan, and William McLennan, of the firm of McLennan Bros.; the firm of Riley, Parker & McVickar, and Joseph P. Graves, all prominent in the grain business of Manitoba, instituted an action for damages against twenty-two individuals and firms engaged in the grain trade, and comprising among their number the leading members of the Winnipeg Grain and Produce Exchange.

The defendants named in the plaintiffs' statement of claim are: Thomas H. Metcalfe, K. B. Stoddart, the R. D. Martin Co., Limited; Lindsay and Parrish, S. Spink, James Carruthers & Co., E. O'Reilly, F. Phillips, Samuel P. Clark, E. Thompson & Sons, John Love, George R. Crowe, W. W. Willan, McBean Bros., Robert Muir, Hugh Baird, the Northern Elevator Co., the Dominion Elevator Co., Capell THt. H. S. Patterson and Alex. Hargraft.

The plaintiffs allege that since Oct. 1, the defendants have conspired and agreed to boycott the plaintiffs, and to refuse to have any dealing with either the plaintiffs or any firms or individuals who do business with them, and, that owing to such conspiracy the plaintiffs suffered large losses, the direct cause of the boycott. The plaintiffs asked that damages to the extent of $5,000 be granted to each of the two firms, McLennan Bros. and Riley, Parker & McVickar and a like amount to Joseph Pearson Graves. They also ask that an injunction be issued by the court restraining the defendants from continuing the boycott or continuing to conspire to injure the trade of the plaintiffs.

How to Clean Decanters.

Decanters or dulled glass bottles may be made literally as bright as new by cleansing with raw potatoes and water. Scrape the raw potatoes into the bottles, fill with cold water and allow this cleansing solution to remain in them for several days.

RELIEF OF BOHOTLE.

The Flying Column Reaches the British Garrison.

THE MAD MULLAH IS NEAR MUDUG

General Manning Found Thirty-Five Per Cent. of the Men Composing the Garrison Suffering From Malarial Fever—Enemy Is Preparing to Contest the Advance of the British.

Aden, Arabia, Nov. 28.—General Manning's flying column relieved Bohotle, Somaliland, Nov. 19. He found 35 per cent. of the men, composing the garrison, suffering from malarial fever. The Mad Mullah is in the vicinity of Mudug, preparing to contest an advance of the British.

Tetuan Surrounded.

Madrid, Nov. 28.—A special despatch received here from Tangier, Morocco, announces that the Benidir Kabyles have again taken up arms, and that they have surrounded Tetuan and occupy all the approaches to that place.

Slaughtering the Ladrones.

Manila, Nov. 28.—The constabulary are carrying out an aggressive campaign against the ladrones and fanatics in the northern part of the Island of Leyte, and in the island of Biliran. Inspector Crockett, with a force of constabulary, engaged the ladrones six times near the Village of Ormac on the south coast of Leyte and killed 39 of them. Corporal Montague, at the head of another detachment of constabulary inflicted a defeat on a band of ladrones near Talabaugh, on Biliran Island, killing 13 and capturing 86 of them. There were no casualties among the constabulary.

CONVENTIONS AT GUELPH.

Some Sectional Agricultural Meetings During Winter Fair Next Month.

Guelph, Nov. 28. — Arrangements have been made for the holding of several meetings here during the progress of the Provincial Winter Fair, as follows:

Annual meeting, Poultry Association of Western Ontario, December 11, 1.30 p.m.

Meeting of the Turkey Club, December 10, 7 p.m.

Canadian Barred Plymouth Rock Club, directors, December 9, 8 p.m.; annual meeting, December 10, 2 p.m.

Canadian White Wyandotte Club, organization meeting, December 10, 10 a.m.

American Leicester Breeders' Association, annual meeting, December 11, 9.30 a.m.

Conference of Farmers' Institute workers, December 10, 9.30 a.m.

Not After Canadian Northern.

Toronto, Nov. 28.—Basal M. Rey, attorney for the Northern Pacific Railway, with headquarters at Minneapolis, is at the Queen's. Discussing the report that the Hill railroad interests are attempting to secure a controlling of the Canadian Northern, Mr. Rey said: "There can't be anything in this report. I know the Northern Pacific has some very close traffic relations with the Canadian Pacific, but I am sure this is as far as that extends. Of course the Hill lines appreciate the importance of getting a share of the volume of grain traffic originating in Southern Manitoba and the adjacent sections, but as to controlling the Canadian Northern or trying to, I am sure the Hill company have not figured on such a proposition. The efforts of American corporations to get a slice of the public transportation in Canada have not been sufficiently successful in the past to encourage them in the belief that they will ever be permitted to do so. We find that the Canadians have a way of financing their own lines and keeping the profits of the deals at home."

Stories From London.

Montreal, Nov. 28.—The Star cable from London says: The heavy fall of Grand Trunk is attributed to provincial liquidation, which is taken to mean unloading on the part of shareholders who doubt the wisdom of the extension to the Pacific. Canadian Pacific's friends here say the Grand Trunk's extension is not necessarily to throw the two roads into hostility. It is confidently expected that a rate agreement will be reached, affecting competitive points.

No Offer From G.T.R.

Toronto, Nov. 28.—Premier Ross said yesterday that the Government had not received any communication from the Grand Trunk regarding the sale of the new provincial road to that company. He said that the line was not being constructed with any such intention, and that the province did not intend to part with it.

Complaint From Veterans.

London, Nov. 28.—The War Office is receiving bitter Australian complaints because the army orders deny the war medal and gratuity to troops landed in South Africa after May 31 last. The Canadian contingent is also affected.

Canadian Pears the Best.

The Ottawa Department of Agriculture has been informed by W. A. Mackinnon, who has been watching Canadian fruit shipments in London, that much second and even third rate fruit is being shipped in expensive cases, causing loss to the shippers and arousing suspicion as to subsequent shipments of the kind. With respect to Canadian pears Mr. Mackinnon states that if they are of the right quality and properly packed they excel any California pears he was able to get last summer. Too much variety in packing, however, prevents them becoming known as a distinct brand.

DECOY LETTER CAUGHT ROMANO.

Accomplice of Counterfeiter Gentile Arrested at Niagara Falls.

Toronto, Nov. 28.—Andrea Romano, a supposed accomplice of Joseph Gentile, who was sent to Kingston Penitentiary last week for 10 years for making counterfeit money, has been arrested in Niagara Falls, New York. Romano, it is said, has been circulating silver coins turned out by Gentile. It was noticed that he had stopped his business of peddling, and remained at home. Detectives sent a decoy letter to him, and Roman was seen to get the letter. He answered it, and the reply was intercepted. It contained enough evidence against Romano to warrant his arrest. Romano, it is said, bought counterfeit halves and quarters from Gentile in lots of $100, paying $25 for them. Romano is wanted in New York. He is now in jail at Buffalo.

TAPS FROM THE WIRES.

Only 1,300 miles of the Cape to Cairo Railway remain to be built.

The Sardinian damaged a steampipe after leaving the New York dock Thursday and had to return.

Two persons were fatally injured and six seriously hurt in a street car collision at Des Moines, Iowa, Thursday.

Sentences Aggregate 37 Years.

Montreal, Nov. 28.—Five persons received sentences yesterday in the County Court King's bench aggregating 37 years. William O'Hara, found guilty of highway robbery, was sentenced to ten years in the penitentiary. Michael Mead, charged with theft and found guilty of receiving stolen goods, was given a five-year term in the penitentiary. Albert Trempe and John Hennessy, for robbery, with violence, were sentenced, the former to nine years and the latter to ten years. Hennessy was once a Government detective. Josephine Beaudry, who had been convicted of theft from the person, was sentenced to three years in the penitentiary.

Funeral Largely Attended.

Bracebridge, Nov. 28.—The funeral of the late Angus McLeod, M. P., here yesterday was very largely attended not only by citizens of the town and community, but by many friends from a distance. A special train was chartered from Orillia, from which town were many prominent citizens. A short service was held in the Methodist Church, conducted by the pastor, Rev. J. J. Ferguson, B. A., assisted by Rev. Mr. Bremner of the Presbyterian Church. Short addresses were delivered by Mayor Shier of Bracebridge, Col. Hughes and Mr. A. Miscampbell.

The Temiskaming Railway.

Toronto, Nov. 28.—The Temiskaming Railway Commissioners met yesterday and discussed a number of routine matters. It was expected that the location of the southern terminus of the road would be decided upon, but this was left over until next Wednesday. North Bay people are pressing the commissioners hard for the decision, but Nipissing Junction is also being considered. Work on the railway is being pushed rapidly. A good deal of rock-blasting is being done all along the line and about 1,000 men are on the pay roll of the contractors.

Question Is Not Settled.

Montreal, Nov. 28.—"The school question in Manitoba is not settled. It will be settled only when right will be done—right such as was promised to the Catholics of the province in 1870 by the Imperial authorities." This was the announcement made yesterday by His Grace Archbishop Langevin of St. Boniface, who left for the west on the transcontinental express, after spending two months visiting the different parishes of the Province of Quebec, trying to get the French-Canadians interested in the Northwest.

Head of Sulpician Order.

Montreal, Nov. 28.—Rev. Abbe Colin, superior of the Sulpician order in Canada, died last evening at the Seminary, aged 67 years. He had been in Canada since 1862.

Three Additional Cruisers.

Berlin, Nov. 28.—Three additional cruisers, the Niobe, Ariadne and Amazon, have been ordered to leave Kiel and proceed to Venezuela. They will sail next week.

In Memory of Krupp.

Essen, Prussia, Nov. 28.—Frau Krupp has given $750,000 to establish a benefit fund for the workmen here in memory of her late husband.

Future Newspapers.

What will the newspaper of the future be like? asks The London Express. Mr. Victor Murdoch, addressing the Kansas Editorial association, declared that within forty years the daily newspapers in larger cities would be issued in a series of editions, each being devoted to one kind of news. In each city there would be only one paper, and a single corporation would control the papers everywhere. Political information would be given mainly in the form of authentic interviews with public men. But the paper as a whole would have no political bias.

No Danger.

Prof. W. Hodgson Wills, Official Analyst to the Dominion Government, has proved by analysis that "Sunlight Soap is a pure and well-"made soap, and has a thorough "cleansing power, without danger to "the clothing or hands."

Clothing is well more in this wash than in use where common soaps are used, and the hands are liable to eczema. Try Sunlight Soap—Octagon Bar—next wash day, and you will see Prof. Wills' [illegible]. No one should [illegible] be.

Stoves, Ranges and Heaters.

I have pleasure in calling your attention to my very large stock of Stoves, Coal and Wood Ranges, Heaters and Furnaces, comprising the following favourites:

Empire Souvenir Steel Range, for Coal and Wood.
Champion Souvenir Range, for Coal and Wood
Domestic Souvenir Range, for Coal and Wood
Surprise Steel Range, for Wood only.
Adam Hall Steel Ranges. for Shanty, Hotel or Boarding Houses.
Banner Wood Cook, in four sizes.
Good Cheer Wood Cook in two sizes.
Art Souvenir Base Burners, in four sizes.
Wood Heating Stoves, from the best makers.
Our Furnaces are found in the best residences in town and give entire satisfaction.

Sanitary Plumbing and Heating. Best American and Canadian Coal Oil.

ADAM HALL,

407 GEORGE STREET, PETERBOROUGH.

Daily Examiner.

London (England) office—149 Fleet street, E C., Central Press Agency Limited, Special Agents.

FRIDAY, NOVEMBER 28, 1902.

EDITORIAL NOTES

The flushness of Mr. Whitney's election campaign funds provides a double conundrum. "Where did all the money come from?" and "Where did all the money go to?" Go to! almost anybody can tell generally where it went—to promote purity in political methods.

Some of our Conservative friends are professing to fear the invasion of Canada by "Yankee" capital. There is, however, greater reason to fear the results of the work of Mr. Whitney and his Conservative friends in importing "Yankee" toughs and election thugs to help to purify Ontario political methods.

The Chicago Record-Herald very sensibly says that it does not think the Americans entering Canada will hasten the annexation movement, because there is no appreciable movement of the kind to hasten, and because the settlers have no desire to be proselytes and revolutionists. "If they find," says our contemporary, "that they have the fullest enjoyment of civil liberty, that they may count on an impartial administration of justice, that they are secure in their persons and property, it would certainly be natural if they were to follow the usual course of immigrants and identify themselves completely with their adopted country."

The Winnipeg Free Press neatly counters on the Telegram, which has been daily ridiculing Hon. Mr. Mulock's Post-office surplus, and alleging that there is a deficit. Accepting the Telegram's figures for the purpose, the Free Press presents this statement of the close of the Tory period and of Mr. Mulock's 1902 account:

1896 — Domestic letter rate, 3 cents. Rate on letters to United States, 3 cents. Rate on letters to Great Britain, 5 cents. Deficit, $781,000.

1902 — Domestic letter rate, 2 cents. Rate on letters to United States, 2 cents. Rate on letters to Great Britain, 2 cents. Deficit, $82,000.

The showing is, the Hamilton Times points out, one of which even the Telegram can hardly feel proud. But then, the Free Press has not deducted from the Tory bill the enormous sums paid in excess of business.

TO RECLAIM INEBRIATES.

The Prisoners' Aid Association, as a result of a conference with Premier Ross and Hon. J. R. Stratton, drafted a bill last year embodying the recommendations of the association regarding the treatment of pauper inebriates. This bill was presented to the Premier, but for some reason was not brought down last session. An effort will be made to have it put into effect at the next meeting of the Legislature. The bill provides for the following:

1. Placing all cases of drunkenness, excepting the confirmed "jail rounder," experimentally on probation on suspended sentence, and under the supervision of a probation officer. 2. Imposing a fine, and permitting the fine to be paid by instalments to the probation officer. 3. In cases in which the inebriety has become a disease, the probation officer given authority to place the dipsomaniac for a few weeks' treatment in a cottage hospital, or in an inebriate department in a general hospital. 4. The cost of treatment to be considered as a loan, to be repaid after treatment and while still on probation. 5. Cases of able-bodied inebriates, not reformed or not reformable by these simple and inexpensive methods, to be sentenced to prison on cumulative sentences. 6. Old and feeble confirmed inebriates to be provided for in county or city poor houses. 7. A special per capita Government grant made to hospitals to promote the treatment of dipsomaniacs. 8. A medical officer appointed by Government to organize inebriate wards in general hospitals, and special cottage hospitals for the treatment of dipsomaniacs in Ontario, where such hospitals are necessary, to provide for and supervise the medical treatment in such hospitals, and also to provide for home medical treatment for probationers in proper cases. 9. Three physicians of standing in the province to be provided as a committee of consultation to co-operate (without salary) with the medical officer.

THE TRANSCONTINENTAL G.T.R.

(Montreal Herald)

The first step towards the establishment of the new Grand Trunk Pacific Railway, will be the appointment of a provisional board, who will make the formal application to Parliament for a charter of constitution.

This will not necessarily be the permanent board, and may indeed indeed consist of Grand Trunk officials, and whoever outside that organization may be selected.

That Mr. Hays will be president of the new company seems to be taken for granted by those who are familiar with railway procedure. It is true that some Toronto organs mentioned the name of Hon. Senator Cox in this connection, but what may be described as the better informed opinion, inclines to the belief that at a later stage he will figure as chairman of the board.

Experienced railway men who have a knowledge of the origin of the movement and the forces that are behind it, assert with great assurance and confidence that the Canadian Northern will form the nucleus of the new scheme.

THE CANADIAN NORTHERN.

The real owners of the Canadian Northern are, it is said, Senator Cox, of Toronto, and Mr. Jas. Ross, of Montreal, and their associates, who have financed the system through the Canadian Bank of Commerce.

The firm of Mackenzie and Mann were the constructors, but they were contractors, and not the owners, although they hold an interest in the road.

They are not practical railway operators, but builders merely, and they have very few railway men in their employ. No reflection whatever is cast upon their business sagacity or upon the manner in which they have conducted the system up to the present point, so far as it has been opened; but Mr. Ross and Mr. Cox are said to feel that their financial interests in the corporation is now so great that it must be put into the hands of the most enlightened management available.

This is why the Grand Trunk was approached by these magnates, and not by Messrs. Mackenzie and Mann, who have had, as all parties are agreed, nothing to do with the negotiations with Mr. Hays.

There is really very little more behind the movement, but any one can see how strong the new road will be with all the subsidies received and to come that the Great Northern nucleus carries with it from the Dominion and Provincial Governments.

With the Canadian Northern as the basis and with Grand Trunk management, the new company could put a scheme before the British public very far removed from the speculative thing that some English financial journals have begun to see in it should there be no subsidies and land grants, and no already existing line to work upon.

A SUBSTANTIAL REDUCTION.

(The Farmer's Sun.)

While condemning unjust and unequal rates imposed by the railways, we have always endeavoured to give them full credit for any reductions they make.

On Nov. 15th, both the Grand Trunk and Canadian Pacific Railways introduced a new tariff of local rates, from which shippers will receive a substantial advantage. The rates are now fixed upon a mileage basis, as follows:

Up to 10 miles, 2 1-2 cents per 100 pounds.

From 10 to 25 miles, 3 cents per 100 pounds.

From 25 to 50 miles, 4 cents per 100 pounds.

From 50 to 75 miles, 5 cents per 100 pounds.

From 75 to 100 miles, 6 cents per 100 pounds.

From points where the old rate on shipments to Toronto was 7 cents per 100, it is now 4 cents. From points where it was 9 cents, it is now 6 cents. The average reduction is between 30 and 40 per cent.

The Sun has frequently called attention to the high rates levied on shipments between local points as compared with the rates charged on through shipments. We are perhaps entitled to flatter ourselves that our course on this subject has not been without direct advantage to our readers.

A DESERVED SENTENCE.

Steps in the Right Direction in Kingston.

In Kingston, at the Police Court, before Magistrate Farrell, two young men were tried and convicted for a breach of the statute in loitering on the street corners. Both pleaded guilty and a penalty of $3 and costs was imposed. The News says that in connection with the trial His Worship in the most emphatic language at his command, and which he evidently wished to be published in every part of the city, said he determined to stop now and for the time to come the abominable practice now becoming so general, so vile, so degrading, so offending against the laws of decency, public health, and morality.

This is a step in the right direction. Could not the same be done in Peterborough?

KEENE.

(From our own Correspondent.)

The Citizens' Committee on Improvements has entered into a worthy project. It will arrange, by its sub-committee, Messrs. A. Shearer, Wm. Campbell and T. J. Wallace, a series of entertainments for the winter season. These entertainments will fill a long felt want by affording amusement, instructive and enjoyable, and at the same time the money paid for such will be devoted to a purpose that will be a source of constant pleasure—that of lighting and paving the village. The first entertainment will be given very shortly. Look out for posters. It is hoped that all liberal minded citizens will patronize the worthy cause.

Curling is by no means dead in the village, and our local lovers of the "stane and bison" intend to keep up our reputation as Keen(e) curlers. At a recent meeting the following officers were appointed:

President—Robt. English.
Vice-President—Will G. Read.
Representatives to Association—J. S. Russell, Dr. Shaw.
Secretary-Treasurer — T. J. Wallace.

Managing Committee — Ex-officio members, together with R. J. McCamus and J. R. McIntyre.

Mr. J. H. Cruikshanks, of Toronto, was here last week to attend the funeral of his mother.

Miss Wilson, of the parsonage, is visiting friends in Kingston.

Mrs. (Rev.) Seccombe is ill.

Mrs. Katharine Roache with her daughter, Miss Flora, and niece, Miss McLaughlin, left this week for Buffalo, where they will reside for the winter.

Mr. T. J. Wallace drove to Peterborough on Saturday to see the rugby game. He reports the Peterborough boys as playing a great game and cannot understand why the town, now budding into cityhood, does not stand by the boys more warmly, (financially.) (Good for Keene.)

Real estate is again moving, so to speak, in local circles.

Mr. Thos. McIntyre has disposed of his property on Front street to Mr. Thomas Browne. More deals are to follow.

The local hockey enthusiastst held a bumper meeting on Saturday evening, when the season's prospects were discussed, and the following officers were elected:

President—Fred Eason.
Vice-President—Fred Walsh.
Fin. Secretary and Treasurer — J. McCarthy.
Rec. Secretary — J. R. McIntyre.
Rep. to Trent Valley League — J. R. McIntyre and T. J. Wallace.

The election of captain was held over till a later date. The boys indulge in rosy prospects for the season, and will throw in their lot with their old love—The Trent Valley League.

Dog poisoning is becoming a fad with some fiend in our village. Four inoffensive and valuable dogs have been poisoned within the last three weeks. Mean detestable coward! Why not take vengeance on the owner if he or she must vent their spleen? To submit a dumb creature to an agonizing death by poison, is a barbarous act fit for a felon.

A PLEASANT SURPRISE

In Store for Those Who Doubt.

When you read that a sufferer of many years standing has been completely restored to health by using Smith's Cure-all, you are inclined to doubt the statement, and in fact have no belief in it whatever. The reason of this is that so much is claimed for the Cure-all it is impossible for anyone to believe it; if the advertiser confined his claim to the curing of one disease, as do the proprietors of the Pyramid Pile Cure, readers would have more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merits may be relied upon implicitly, also that the cures brought about by its use are little short of marvellous. The genuineness of the testimonial here given is vouched for and is but one of thousands received.

"I had a friend who had used one box of 50 cent Pyramid Pile Cure that entirely cured her. I saw the good effect on her, and thought that I would try it, as I had got so that I could not sit down without extreme pain, and getting up was just as bad. The first box nearly cured me; I got the second box and have had no trouble since. Pyramid Pile Cure does all that it is claimed to do, and I never miss an opportunity to tell of its merits. I speak from observation, and personal benefit. Two boxes cured me over a year ago, and I have had no return of the trouble since." Mrs. M. Mooney, 6000 Sangamon street, Chicago, Ill.

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address upon receipt of price by the Pyramid Drug Company, Marshall, Michigan. Write this firm for this book describing the cause and cure of piles.

Under Sealed Orders.

Halifax, Nov. 28.—The British warship Charybdis sailed yesterday afternoon under sealed orders. The impression prevails here that she has gone to Venezuela. The dockyard officials decline to give any information as to her destination.

Your Opportunity to Get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it knowing that it is bound to do you good.

VILJOEN'S LECTURE.

BOER GENERAL'S MANLY WORDS TO A BRITISH AUDIENCE.

Tribute to British Commanders and Soldiers in Perfect English—Lord Kitchener's Word Once Passed to the Enemy Was Always Kept—Boers Are Really Anxious for Peace.

Assistant Commandant General Ben Viljoen, of the late burgher forces, delivered a lecture recently, says The London Times, at the Queen's Hall on his experiences during the South African war. He met with a cordial reception from a sympathetic audience. General Viljoen, who is an erect, soldierly-looking man in the prime of life, presents a great contrast to the Boer type as the illustrated papers have made it familiar to English people at home. He wore a suit of black clothes resembling undress military uniform, and in appearance is more like a French officer than a typical Boer commandant. He speaks perfect English, and his lecture, which was brightened by frequent touches of humor, partook more of the nature of a causerie than of a formal, set address.

Mr. Ben Nathan, who introduced General Viljoen to the audience, said the General was not there on any political mission. He had not endeavored to have the terms of peace varied in any way. (Cheers.) He had sought no interview with the Colonial Secretary, and he was not even desirious of being received by the Emperor William. (Laughter and cheers.) He had lost everything in the war, and while passing through this country, having been to Holland to fetch his wife and family, whom he was about to take back to South Africa, he thought it was his duty to try to make, some money by lecturing, so that he might make a fresh start in South Africa.

General Viljoen, who was received with cheers, said that he had never in his life endeavored to address an audience in English before. He had been surrounded by English forces before and had got into some pretty tight corners, but he never felt more uncertain about his future than he did at this moment. (Laughter.) He had inspected carefully all the exits from that building, so that he was, at least, certain of his escape if emergencies should arise. (Laughter.) After a tribute to Gen. French and a kindly reference to Lord Methuen, and Gen. Gatacre, he said:— Lord Kitchener—(cheers)—was respected by all on the Boer side as a strong, fine soldier, and they praised him in South Africa for one thing, and that was for always keeping his word. The only time when he departed from his word was when he withdrew the proclamation he had issued by which the lecturer was banished for life — and he was very glad Lord Kitchener broke his word that time. (Laughter and cheers.) Lord Kitchener had carried out his orders in what he had done in South Africa, he, as a soldier, served in his profession, the Boers made it no personal question, and what he had done did not in the least detract from the admiration that was felt by the Boers for Lord Kitchener. He was sure that if Lord Kitchener went to Africa at any time there was no other Englishman who would be better received. (Cheers.) The Boers rather differed from the British about General Buller, feeling that if they had had a voice in the matter they would have voted him part of the grant that was given to Lord Roberts. (Cheers.) As regards Tommy Atkins, his chief defect was his helplessness when deprived of the guidance of his officers. When a number of Tommies were captured and a bullock was shot and given to them for their rations they did not know how to skin it or cut up the meat, and simply looked blankly at the carcase, whereas a Boer had only to smell it and he would soon have it ready for food

General Viljoen went on to speak of various fights in which he had been engaged, and related his capture by the Royal Irish Regiment, whom he had encountered in desperate conflict and worsted shortly before. When he was captured by that fine regiment they did not disguise that they thought it a good way of wiping out an old score; but he had no reason to complain of the officers, who were very gentlemanly to him, and the men also showed him the greatest kindness. After describing his chagrin at being sent to St. Helena, and the way in which he consoled himself by saying to himself that, if it was fit for Napoleon, it ought not to be too bad for him—(laughter)— the lecturer spoke of the future of South Africa. It was very difficult to say what the future of a country would be while military law was in force. The population were at a very low ebb financially, actually in poverty, and the very least sign of friendship now would go very much further than it would go in other circumstances. He thought that just now was the very time for the new Government to make use of that opportunity.

He could assure them that they were anxious for rest, for peace. They were tired of fighting. They did their best, they thought their cause was right and just—(cheers)— they thought they must fight as long as it was possible, hoping against hope to retain their independence, and they kept up the war as long as they possibly could, and, therefore, they felt that they had no reproach and that they need not be ashamed. (Cheers.) To say that the bitter memories of this conflict were forgotten would be hypocrisy. Civilized people should not have gone to war at all, in the first place: in the second place, as we were civilized people and Christians, he thought if we tried from both sides it was not impossible that Britons and Boers might succeed in living together in South Africa, and that they would see prosperous times in the near future. All the talk about another rising, or about dissatisfaction among the Boers, was nothing but a nightmare.

Santry and Ryan.

Toronto, Nov. 28.—Bets were freely made to-day at 5 to 4 that Ed Santry would defeat Billy Ryan at the Crescent Club's final show of the year on Saturday night. Both men have trained here and are said to be in perfect condition.

The King of Ranges— "BUCK'S HAPPY THOUGHT"

One Hundred and Fifty Thousand Canadian Women have decided for

The "Happy Thought" Range.

Common Ranges were not good enough—why should they be for you?

Don't be imposed on by "just as good" talk. The construction of The "Happy Thought" is patented, its design registered, it is totally different in every respect to any other. There is none like it. There can be none so good. If you only knew the time, the trouble, the labor it would save you, how little fuel it uses, you would not be one single day without one.

Sold by THE BEST STOVE COMPANY.

NOTABLE SAYINGS.

Remarks Made by Men of Affairs in London in Recent Speeches.

Some of the bright remarks made by public men during the week ending Nov. 8, 1902, were as follows:

"The greatness of a nation is made by its greatest men."—Colonial Secretary Chamberlain.

"Unless a nation is morally healthy as well as physically, there is but little hope for its future."—Sir William Blake Richmond, the painter.

"Uneducated nations like uneducated individuals must be content to do the rougher work and take the lower places in the world."—Lord Avebury, president Central Association of Bankers.

"Landlordism in Ireland must go."—Thomas Wallace Russell, Unionist M. P. for Tyrone.

"Drunkenness should be treated primarily and throughout as a sin."—Sir Thomas Barlow, King Edward's physician.

"I think precedent has been the curse of this country."—Lord Rosebery.

An Explanation.

"C. R. Co." rubbers are rubber shoes made in Canada by The Canada Rubber Company.

May Have Been Murdered.

St. Thomas, Nov. 27.—The inquest into the death of W. H. Brown, carrepairer, who was found dead Tuesday on the G.T.R. tracks, has been adjourned till Friday night. Much doubt is thrown on the theory of accidental death. He may have been murdered and placed on the rails afterwards.

Mr. Latchford at Hamilton.

Hamilton, Nov. 26. — Hon. F. R. Latchford, Commissioner of Public Works, was the guest of St. Lawrence brethren of the C. M. B. A. last evening and delivered an address on the aims and objects of the association.

A LIFE FOR A LIFE.

Murder of a Christian Fijian Woman Revenged by Shells.

Victoria, B. C., Nov. 28.—According to advices received from Sydney by the steamer Aorangi, H. M. S. Sparrow has returned from a protracted cruise through the South Sea Islands. During her cruise the warship's officers annexed Suwarrow, Ysabel and Choiseul Islands for Great Britain. At Malieta Islands five villages of the natives were shelled to punish the islanders for having killed a Fijian woman because she embraced Christianity. With a view to impressing the natives with the seriousness of the crime committed by them, and of warning them against a recurrence of such acts, the Sparrow visited five places in the Island of Malieta, namely Auki, Sio, Uras, Kwi and Port Diamond and at each place the villages were shelled and partially destroyed.

TO SHUT OUT YANKEE CATTLE.

Experts in Britain Believe They Are Suffering From Contagious Disease.

London, Nov. 28.—British experts believe that American cattle are suffering from a species of foot and mouth disease. A number of these cattle imported to England, have been examined and the result has substantiated the belief of the experts. The discovery may lead to the Board of Trade refusing to permit the importation of American cattle for the time being.

Sweeping Order Issued.

Washington, D. C., Nov. 28.—Secretary of Agriculture Wilson issued a sweeping order yesterday directed to the managers and agents of transportation companies of the United States, stockmen and others, notifying them of the establishment of a quarantine of cattle, sheep and other ruminants and swine in the New England States, and prohibiting the transportation of such animals from the port of Boston until further orders.

Argentina Conforms.

London, Nov. 28.—In the House of Commons yesterday Mr. Hanbury, President of the Board of Agriculture, announced that the Argentine Government had within the last day or two introduced a bill bringing the live stock law of Argentina in correspondence with the British law governing the inspection of cattle.

Morgan Offers Bonds.

London, Nov. 28.—It is reported that the Morgan shipping combination has issued a circular offering 1½ per cent. mortgage bonds in lieu of cash payment to the shareholders of the White Star line.

Born in New Brunswick.

Newburgh, N.Y., Nov. 28.—William S. Wands, president of the Board of Education, died here yesterday. He was born in New Brunswick, Canada, in 1830.

Convicts Seek Death.

Victoria, B.C., Nov. 28.—The convicts in the Siberian convict settlement have gone on strike. They will refuse all food until they are more humanely treated. These convicts are all educated men sentenced for political offences. They are heavily chained and seldom see the light of day.

Twenty-Two Were Drowned.

The Hague, Nov. 28.—A despatch from Achin, Sumatra, announces that Lieut. Dibbok and 15 troops on board a barge on a river in the interior were recently attacked by Achinese, with the result that the barge sank and the lieutenant and 21 men were drowned.

Three Boys Drowned.

Moncton, N.B., Nov. 28. — Three boys were drowned at the mouth of the Nepisiquit River, near Bathurst, yesterday while skating. The ice was too thin. Two of them were brothers named Bertram, while the third was named Couture.

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Welsh's.

Hamilton's Pills are Effective.

WHOLE IRISH SITUATION.

Tim Healy Looms Up as a Possible Cementer of Factions.

London, Nov. 28.—An authority on Irish affairs puts the case thus: "The whole Irish situation is in the melting pot. Mr. O'Brien's movements received a check by the interposition of Archbishop Walsh, when he denounced Mr. O'Brien's approval of boycotting, which Chief Baron Walls has just penalized in the Dublin courts. He also demanded that, when called on, the Irish members should return to Parliament to support the education bill, which gives the church control of religious teachings in its schools, which are now to be state aided.

"Mr. Redmond, the official leader of the Nationalists, stands between Mr. O'Brien's movement and Mr. Healy's enmity, but to succeed Mr. Redmond needs to be a second Parnell, and he is not this. The whole weight of the church has been given to the side of Mr. Healy, who combines more staunch Catholicism than any other leader, with not less Nationalism and more ability. It is probable the outcome will be to further break up the Nationalist party. He stands the best chance of at least gaining the leadership of the most influential section."

INTERESTING FACTS.

For Nearly Every Man Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy, have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers, and were finally induced to give Stuart's Dyspepsia Tablets a trial, were surprised and delighted at the results. In many cases a single package costing but 50 cents at any drug store, made a complete cure, and in every instance beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unsolicited testimonials, and never publishh the same one twice.

From James Yemmeisler, La Crosa, Wis.: Stuart's Dyspepsia Tablets are doing me more good than anything that I ever tried, and I was so pleased with results that I gave away several boxes to my friends who have also had the same benefits.

From Jacob Anthony, Portmurray, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had dyspepsia for six years and had taken a great deal of medicine, but the Tablets seemed to take right a hold, and I feel good. I am a farmer and a limeburner, and I heartily recommend them to anybody who has any trouble with his his stomach, to use these Tablets.

From Mrs. M. K. West, Preston, Minn.: I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend, who also suffered from indigestion, and she had the same good results.

From Mrs. Agnes K. Ralston, Cadillac, Mich.: I have been taking Stuart's Dyspepsia Tablets and I have been very much better, and feel very grateful for the great benefit I have received in so short a time.

Stuart's Dyspepsia Tablets are a certain cure for all forms of Indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them to all persons suffering from nervous dyspepsia, sour or acid stomach, heartburn, bloating, or wind on the stomach, and similar disorders.

Peter Is Released.

London, Nov. 28.—Peter Verigein, the venerable head of the Russian Doukhobors, who has just been released from Siberia, in an address to the Tolstoian Society, referred to his co-religionists in Manitoba. He said that the Canadian Government had acted with all possible good-willingness and consideration.

One Suit Located.

Berlin, Nov. 28.—The authorities have been at work since the Cressman-Hallman store was burglarized, and two suits of clothes stolen. One of the suits has been located in Guelph, and a man named Hornbusch, arrested in Guelph on another charge, is alleged to be implicated.

Union of Potato-Peelers.

Chicago, Nov. 28.—Organized labor has entered the kitchens of the hotels and restaurants of this city and enrolled among its members 200 of the men and women who spend from five to six hours a day peeling potatoes. They want shorter hours and better pay.

MISSING FOR A WEEK

Bannockburn Last Sighted by Algonquin on Friday.

MACY LOST WITH HER CREW OF 15

Steamer Suddenly Went Down on Sunday Off Port Burwell—Found Up With a Load of Coal—Her Tow, the Mabel Wilson, Arrives at Amherstburg With News of the Disaster.

Chicago, Nov. 28. — Marine underwriters were inclined yesterday to give the Canadian steamer Bannockburn up for lost on Lake Superior. It was reported to them that the steamer was passed last Friday by the steamer Algonquin 50 miles southeast of Passage Island and northeast of Keewenaw Point. That would bring the Bannockburn well out into Lake Superior and right into the track of vessels. Since that time nothing has been heard of her. It is supposed the steamer stranded on Caribou Island.

Kingston, Nov. 28.—Tugs were sent out from Sault Ste. Marie yesterday morning to search Lake Superior for the Montreal Transport Company's steamer Bannockburn, which is overdue for some days. The company's officers here think the boat has been detained by a snowstorm.

SUNK OFF PORT BURWELL.

Str. Sylvanus J. Macy Lost With Her Crew of 15.

Buffalo, N.Y., Nov. 28.—A special to The Express from Detroit, Mich., says:

News has just reached this port that the steamer Sylvanus J. Macy was sunk off Port Burwell, on the north shore of Lake Erie, in the furious southwester that raged on Sunday night. It is believed that her crew of 15 men perished.

The steamer had left Buffalo the day before with her consort, the barge, Mabel Wilson, loaded with coal. The weather was heavy and thick on Sunday, and the Macy had a hard time creeping up on the north shore. Off Burwell she sprung a leak.

The tow line of the barge was cast off by the crew of the Macy. That was the first that Wilson knew that the Macy was in trouble. Sail was got on the schooner and she headed up the lake. The Macy was heading for shelter and making very heavy weather. As the crew of the Wilson watched the steamer through the gloom they saw her suddenly disappear. She had plunged under the waters.

The suddenness with which the end came precluded the possibility of the crew getting away in the boats. Even if they had, it is doubtful that boats could have lived in the sea that was running. The fact that no word has been reported from Canadian ports shows that none were saved.

The Mabel Wilson arrived at Amherstburg yesterday afternoon with tidings of the disaster. It was also reported by the captain of the Albright that he passed through five miles of wreckage off Port Burwell. There were parts of the cabin, boats, life preservers and doors.

WITH BOW BENEATH WATER.

Crew Rescued When Death Was Within a Few Feet.

Liverpool, Nov. 28.—The British steamer Brinkburn, Captain Edmunds, New Orleans, Oct. 30, for Manchester, has arrived here bringing the crew of the American three-masted schooner Lucy A. Davis, Captain McKeown, Brunswick, Oct. 28, for Boston, which sprung a leak and was abandoned in a waterlogged condition off Cape Hatteras Nov. 11. The Brinkburn rescued all the schooner's hands when her bows were beneath the water. The men have lost all their belongings. The Lucy A. Davis was sighted by the steamer Sicilia, which arrived at New York from Genoa, Nov. 20, on Nov. 18, in latitude 42.22; longitude not given. The Sicilia reported that the schooner was then waterlogged and abandoned and constituted a very dangerous obstruction to navigation.

Met Terrific Weather.

Ferrol, Spain, Nov. 28.—The British steamer Chicklade, Captain Sanderson, bound to Hamburg, from Fernandina, Fla., via Norfolk, and 19 days out from the latter port, put in at this place yesterday in a badly damaged condition, having encountered terrific weather on the passage. The vessel had her bridge and boats carried away, and all moveables on deck were swept off by the heavy seas.

Steamer Runs Aground.

Kingston, Nov. 28.—The steamer Aletha, in a big snowstorm, broke a wheel and ran aground off Adolphustown at midnight. She was released yesterday morning by the Calvin Wrecking Company's tug Frontenac, and taken to Deseronto.

Switchman Killed.

Chatham, Nov. 28.—Erastus Williams, aged about 25 years and unmarried, employed as a switchman in the yard of L. E. & D. Railway here, was run over on Colborne street near the Manson-Campbell switch about 8 o'clock yesterday morning. He was alive when picked up, and a physician was summoned, but he was past all human aid, and died in half an hour.

Seven Charged With Murder.

Fort William, Nov. 28.—Seven Galicians were placed under arrest last night, charged with the murder of Stevan Roebak, a Polander. The fight occurred Wednesday night in the foreign district, near the mills. Roebak was found yesterday morning with his head and neck frightfully cut from injuries inflicted by clubs and pieces of iron, and died about noon.

Revolt in Santo Domingo.

San Domingo, Santo Domingo, Nov. 28.—The political situation has been complicated in Santo Domingo by revolutionary disturbances, which have broken out in the northern part of the Republic. The Government has adopted severe measures to suppress the movement. Many arrests have already been made. Gen. Wos Gil and J. D. Pichardo, a former Minister, are prisoners here.

Exporters and Butchers' mixed—Load of mixed butchers' and exporters sold at $4.35 to $4.60.

Feeders—Feeders, 1000 to 1100 lbs. each, are worth $3.75 to $4.25, and light feeders, 800 to 900 lbs. each, $3.50 to $3.75 per cwt.

Stockers—Stockers, 500 to 700 lbs. each, of good quality, are worth $3 to $3.25 per cwt. Off colors and poor quality of the same weights are worth $2.25 to $3 per cwt.

Milch Cows—Milch cows and springers sold at $30 to $50 each.

Calves—Calves sold at $3 to $10 each, or from 3c to $5 per cwt.

Spring Lambs—Spring lambs are worth $3.50 to $4.

Sheep—Prices, $3.40 to $3.65 per cwt., for ewes, and bucks at $2.50 to $2.75.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $6.12½ per cwt.; lights, at $5 87½; sows, $4.50 to $5 per cwt., and stags, $3 per cwt.

MONTREAL LIVE STOCK.

Montreal, Nov. 27.—There were about 400 head of butchers' cattle, 20 calves and 400 sheep and lambs, offered for sale at the East End Abattoir to-day, and considerable numbers of cattle and lambs were sold here yesterday. Slightly higher prices were paid for all the better kinds of cattle, but there were not any choice animals among the offerings to-day, and 4c per lb. was about the highest price paid for medium beats to-day, but sales were made lately at from 4½c to 4¾c per lb., for prime cattle. The common stock sells at from 2c to 3c per lb., and the canners pay from 1½c to 2c per lb. for their supply. Calves sold at from $3 to $15, or from 3c to 5c per lb. Sheep sold at from 2¾c to 3¾c, and the lambs, at from 3¾c to 4¼c per lb. Good lots of fat hogs sold at from 5¾c to 6c per lb., weighed off the cars.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Nov. 27.—Cattle—Receipts, 100 head, strong; veals, receipts, 60 head; steady; tops, $8.25 to $8.50; common to good, $5.50 to $8. Hogs—Receipts, 3300 head; active, 5c to 10c higher; heavy, $6.35 to $6.45; mixed, $6.25 to $6.30; Yorkers, $6.10 to $6.15; pigs, $6.10; roughs, $5.50 to $5.85; stags, $4.00 to $5. Sheep and lambs—Receipts, 3500 head; sheep, steady; lambs, 5c lower; top lambs, $5.15 to $5.20; culls to good, $4 to $5.10; yearlings, $3.75 to $4; ewes, $3.50 to $3.75; sheep, top mixed, $3.25 to $3.35; culls to good, $1.75 to $3.15.

"C. R. Co." rubbers are the most tasty and best constructed rubber shoes in Canada. If you value comfort and wear insist on your shoe dealer supplying you with this brand.

Lord Salisbury in England.

London, Nov. 27.—The Marquis of Salisbury returned to London yesterday from the French Riviera, greatly improved in health as a result of his stay at Beaulieu.

Milner to Visit Basutos.

Johannesburg, Nov. 27.—Lord Milner is on a three-weeks' tour of the Orange River Colony and will visit the Basutos. There are 100,000 acres under cultivation.

Cotton in West Africa.

London, Nov. 27.—Britain and Germany are sending experts to West Africa to experiment with growing cotton.

For a Certainty I am Cured.

Mr. James Treneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

SILVERWARE OF THE HIGHEST GRADE. THE QUESTION 'WILL IT WEAR'? NEED NEVER BE ASKED IF YOUR GOODS BEAR THE TRADE MARK 1847 ROGERS BROS. AS THIS IN ITSELF GUARANTEES THE QUALITY. BE SURE THE PREFIX > 1847. < IS STAMPED ON EVERY ARTICLE. THESE GOODS HAVE STOOD THE TEST FOR OVER HALF A CENTURY. SOLD BY FIRST CLASS DEALERS.

DOAN'S KIDNEY PILLS CURE BACKACHE LAME BACK RHEUMATISM DIABETES BRIGHT'S DISEASE DIZZINESS AND ALL KIDNEY & URINARY DISEASES ARE CURED BY DOAN'S KIDNEY PILLS

Are Not a Cure-all But a Pill for Kidneys Only.

They go straight to work at the right spot and set the kidneys working properly, stimulate their action, and enable them to carry off the impurities which would otherwise circulate through the system, breeding disease.

Miss B. M. Croom, Seal Harbor, N.S., writes: I was all the symptoms of kidney disease—my back was so lame some days I could hardly walk, my urine was scanty and highly colored. After taking only two bottles of Doan's Kidney Pills I was pronounced cured by my medical adviser from kidney trouble. They are the best pills I ever took.

Price 50c. per box or 3 for $1.25. All Dealers or The Doan Kidney Pill Co., Toronto, Ont.

Daily Examiner.

FRIDAY, NOVEMBER 28, 1902.

For new Members.

The Social Committee of the Y.M.C.A. met last evening and arranged for a social for new senior members to be held in the parlours on Friday evening, December 5th.

"Homely People"

Mr. Thomas McGillicuddy, the popular humorous lecturer, will appear in the Y.M.C.A. Hall on Monday evening, December 15, under the auspices of the Ladies' Auxiliary. The proceeds will be in aid of the piano fund. Reserve the date.

Christmas Annuals.

Now is the time to subscribe for Christmas Annuals, Boys' Own, Girls' Own, etc. Christmas Globe will be ready on December 1st; order now. When you are in town, come, we have lots to show you. A. H. Stratton & Co., Peterborough Bookstore.

"Consequences."

The Men's meeting at the Y.M.C.A. on Sunday will in future begin at 4 o'clock sharp. The meeting on Sunday next will be one of special interest. Rev. E. D. MacLaren, D. D., of Vancouver, will be the speaker, his subject being "Consequences." Mr. Wildgust of St. Paul's, will sing.

Mock Council Meeting.

The Young Men's Guild of the George street Methodist church, will hold their regular monthly meeting to-night, and the programme will be of unusual interest. A mock council meeting will be held and interesting local problems will receive due consideration. All young men of the church are cordially invited to be present as well as other young men.

SMALL BLAZE.

Fire Brigade had a Short run Last Evening.

Last night what might have been a disastrous and costly fire, was narrowly diverted at the National Hotel. During the early part of the evening smoke had been coming into the lower flat in small quantities, but as it was supposed to be from the furnace, no notice was taken. Still the smoke became thicker and thicker, until about eleven o'clock it was plainly seen that something more than the furnace was smoking. A rapid search revealed the fact that the floor above the furnace was on fire, and that it was working between the floors and partitions. An alarm was sent in, and the fire brigade answered promptly, but it was found unnecessary to turn on the water, as the blaze was extinguished with water brought in pails. For a short time the guests were alarmed, and some went to the extent of packing trunks, and preparing for flight, influenced, no doubt, by the remembrance of the New York hotel catastrophes. However, they were soon calmed, and are loud in their praises of the coolness of Mr. Conroy. The damage was slight and will soon be repaired.

FOOT CRUSHED.

Another Victim of Frequenting Railway Tracks.

This morning the small son of Mr. Cawthorne had his foot very badly crushed by the wheels of a railway car at the corner of Perry and Aylmer streets. The level crossing is always dangerous, and children should be carefully coached in regard to its perils.

MORE COUNTERFEIT BILLS.

Two Dollar Bills in Circulation This Time.

Counterfeit $2 Dominion of Canada notes are in circulation in Ottawa. The workmanship of the bills is not clear. The cut of the King is also blurred and an expert would not have the slightest difficulty in detecting that they are not genuine. Let our merchants and others look out for them.

PLEASANT EVENING.

Victoria Club Make a Presentation.

A very pleasing entertainment was given by the Victoria Club for their friends last evening. A short musical programme, opening and closing with the club song, was most efficiently rendered by the club members. The chief event of the evening was the presentation of a dainty volume to their president, Miss Gussie Daly, who is leaving town, as a small token of the loving esteem in which she is held by the club.

Refreshments were served during the evening.

ST. JOHN'S GIRLS' GUILD.

Members Invited to Collaboration of Literary Opinion.

This society has increased largely in membership, and mush interest is being taken in the work. Last Tuesday a social was held, and next Tuesday the meeting will be of a literary character. The subject will be "Books and Reading," and each member is asked to bring in written answers to the following questions:

1. Tell in your own words what is to be gained by reading—(a) Books of History; (b) Books of Biography; (c) Books of Science; (d) Books of Poetry.
2. Give three examples of each of the above classes.
3. "Novel reading is pernicious." Is this statement true? If not, substitute for it what you believe to be the truth about this matter.
4. If some novels are of a healthy character, how would you distinguish them from others?

"An Evening With Dickens."

Mr. Williamson's "Evening with Dickens," to be presented at the Opera House on Monday, 1st of December, is not a lecture in the ordinary sense, but a beautifully illustrated talk, combining humour and pathos, entertainment and instruction. The stereopticon pictures numbering nearly one hundred and fifty, are of unusual excellence and and reproduced from rare sources in Mr. Williamson's unique collection of Dickensiana. Tickets 25c. Reserved seats 35c. Plan of hall at J. Lynch's drug store.

CAPTURED IN PETERBOROUGH

Bad Characters Rounded up This Morning.

Chief of Police Rossel's Prompt Action has Results

Last night a man was brought into the local police station in a state of intoxication. This morning when he was sober Chief Rossel questioned him in order to find out his antecedants and character.

He said his name was Wm. Flood and that he came from Port Hope originally. He said he was married and that he was walking towards Peterborough with his wife a short time ago when a farmer overtook them about six miles out and gave her ride to town. Since then he had not seen her. This was his story but the Chief suspected that all was not as it should be, and telephoned to Chief Douglas, of Port Hope, concerning him. The latter said that Flood was a bad character, but that the Cobourg police could give better and more authentic information. Telephone enquiry there revealed the fact that he was an ex-convict and that he was wanted in Cobourg for helping an inmate of the jail there, Emma Simpson, to escape.

Chief Rossel immediately surmised that the wife Flood referred to was none other than Emma Simpson, so P. C. Adams was sent out to look her up. With a poor description the task was difficult, but she was found in the Commercial Hotel, where she had been employed in the character of a domestic. The two claim to be man and wife, and after the escape from jail they went from Port Hope to Toronto and thence to Lindsay. From there they walked to Peterborough.

Appended is an account of the escape:—

"A female prisoner named Emma Simpson escaped from the Cobourg gaol last Wednesday evening. It appears that she was working in the kitchen between 6 and 7 o'clock when she took quick advantage of the momentory absence of the matron's assistant, who had charge of her while the gaoler's family were at tea, and by raising a small back window six or seven inches high she managed to squeeze herself through the aperature and escape in the darkness. The night was so dark that all attempts to find her proved futile, although her flight was discovered immediately. She had served ten months under a conviction for theft. She is described as 26 years of age, height about 5 feet 3 inches, weight 140 lbs., stout build, features round, complexion dark, hair black and cut short. The sheriff is offering a reward for her capture and the police have been notified to hunt her up. This is the first escape from the womens' ward in Cobourg gaol for 15 years."

The local police are to be congratulated on their shrewdness and quickness, and it is to be hoped the reward will be substantial.

THE SPAN OF LIFE.

A Good Play Well put on in the Opera House Last Night.

The Span of Life Company played to a large and delighted house last night. The production was an excellent one, the various actors interpreting their parts in a highly satisfactoty manner. Some of the scenes were indeed thrilling, and the "Human Bridge" fairly brought down the house. Mr. Wallace Hopper and Misses Frankie Frances and Pearl Young were especially good, all being assigned prominent parts. The scenic effects were splendid and the Donasetta trio of acrobatic actors were far above anything, in their line ever seen here whether on the vaudeville stage or in the circus arena. The Span of Life is a most realistic melodrama and it deserved the hearty support and large audience that greeted it here last night. A sufficient comment upon the way the play was received is the statement of the frequent re-raising of the cutain demanded by the audience.

NEWS NUGGETS.

—Operations at Lily Lake marl bed have been suspended fort he winter.

—The Cattle Guard Commission meets to-day in the Court House, here.

—Don't give up all hope of getting a servant, of finding what you have lost, or of securing a position, but insert a small advertisement in the Examiner, and the chances are pounds to pennies, that you will get what you are looking for.

—John Henderson, of Cordova, while driving a laundry rig home from Havelock on Saturday, 8th inst., sustained fatal injuries through the collapse of the seat, he falling on his head and back. He died on Wednesday.

—Our new citizen, Mr. Wm. Fisher, blacksmith, says the Millbrook Reporter, late of Peterborough, having purchased Mr. Wm. Langton's business, is ready to meet everybody who has work in that line. He has not yet moved his family here, but will do so shortly.

—At the annual meeting of the Millbrook Conservative Association, Mr. T. B. Collins was re-elected President. He predicts that Mr. Whitney will be in power before long. While every respect is due Mr. T. B. Collins' veracity, the prediction would have been no more ludicious if it had been made by the popular and genial "John Collins."

ACCIDENT ON G.T.R. YESTERDAY

Train Jumped Track Near Port Hope.

An accident occurred on the line of the Grand Trunk Railway at Port Hope, at an early hour yesterday morning, but it is understood that no person was injured. A freight train, known as a "manifest train," was proceeding eastward, when the engine left the rails followed by some cars. The authorities at Belleville were notified of the accident, and the auxiliary was despatched as soon as possible to the scene. Owing to the accident the line was blocked for some time.

WINTER SUPPLY.

CATTLE GUARD COMMISSION

Consulting With Farmers re Stock Protection.

Chairman Robertson's Opening Remarks—A Standard Guard Required.

The Cattle Guard Commissioners met the farmers of the surrounding country this afternoon. Messrs. G. Robertson and F. Holt, C.E., are the members, and their object is to gather information concerning cattle guards, and the opinion of the farmers regarding them.

Mr. Robertson, the chairman, in addressing them, said in regard to the commission that the object of the commission was to report to the Department of Railways the best catguards in use in Canada and the United States. Last session a bill was brought in which caused a great deal of interest, and it was felt that the railways had the best of the position as regards the farmers. The commissioners first examined the guards in the patent office, where the number exhibited showed the interest taken in the matter. No guard had as yet been invented which was perfect. Then they went to the G.T.R. and C. P. R. officials at Montreal, and there it was that they realised the importance of the commission, and the difficult work that was ahead of them. The commissioners then went to Brandon and the great cattle districts in Dakota and Chicago, and studied the workings of cattle guards in New York and other states. Then came an inspection of the Grand Trunk in Ontario. During their tour they met here and there some farmers but owing to the significance of report it was decided to communicate still further with farmers, and the County Clerks were notified and dates set so that it would be possible for farmers to meet at central points. They began their tour at Sandwich and all the meetings since were of great success, and a great deal of information was gained.

Mr. Robertson expressed himself as impressed with importance of commission from their interviews with railway foremen and employees. It was not to be expected that farmers would be able to give information but that the commission should give information.

One thing was certain and that was that there should be a standard guard. This would enable a man to gain his suit against railway corporations where the proper guard was not in use.

At present there are thirty different cattle guards and if it were possible to get one guard established the road towards success would be practically ascertained. The railroad companies were anxious for this, and the commission had always been most anxious for some steps toward this end, and would help by all means in their power.

This closed Mr. Robertson's address and the commission is still in progress at the time of going to press, and a report will be given tomorrow of the proceedings.

SOCIAL AND PERSONAL.

Mr. J. J. Roberts, of Port Hope, was in town yesterday.

Mr. G. Walter Green, of Peterborough, was in town on Tuesday.—Millbrook Reporter.

Mrs. T. H. Hooper, of Peterborough, spent Friday as the guest of Mrs. W. A. Russell, John street. — Port Hope Times.

Messrs. Jack McCabe and Jack McFadden, Peterborough, were in town to-day shaking hands with old friends.—Port Hope Guide.

Mr. Geo. H. Pope, of Belleville, Arbitrator of Claims for the Government, is in town attending the Court of Exchequer now in session.

Mr. R. W. Grubbe, of Peterborough, father of Mr. H. H. Grubbe, teller in the Bank of Toronto, here, says the Millbrook Reporter, spent a few days with his son here last week.

Mr. W. C. Switzer has sold his farm in Bethel for a handsome sum to Mr. Henderson, of Manvers. His intention is to move to Peterborough in the near future.—Omemee Mirror.

Mrs. John Andrews, of Cincinnati, Ohio, is visiting friends in town, and is the guest of her sister, Mrs. John Wallace, Water street. Mrs. Wallace has not been in Peterborough for fifty years, and consequently notices a wonderful change.

Mr. and Mrs. J. A. MacPherson, Miss K. MacPherson, Miss M. MacPherson, Mr. J. W. Young, Mr. J. J. MacPherson and Mr. W. J. MacPherson, of Peterborough, were in town Tuesday attending the MacPherson-MacGeough wedding, which took place in St. Mary's church that morning.—Lindsay Post.

This morning the Examiner received a postal card containing two personal paragraphs. As no name was signed as a guarantee of the genuinness of the information the paragraphs cannot be used. Time after time the public is informed that newspapers must be furnished with the authority for the matter sent in for publication. Not that the name need be printed, but there must be some authority that will prevent being imposed on by false information.

CHANGES OF ADVERTISEMENTS

Advertisers whose contracts permit of changes in the DAILY EXAMINER, are requested to send in their copy the evening previous to the day on which they wish their advertisements to appear.

THE EXAMINER cannot guarantee that changes will be made unless this request is complied with. A little attention to this matter will save disappointment.

J. R. STRATTON.

ON OUR INLAND WATERS.

Vessels Plying on the Waters of Lower Kawartha Lakes.

Tonnage and Passenger Capacity is Rather Large.

The report of the Minister of Marine in dealing with the inspection of steamboats gives the following list of vessels as being registered in the County of Peterborough: — Mudine, Esturion, Maple Leaf, Beaubocage, Greyhound, Comet, Waterwitch, Marie Louise, Stranger, Lady of the Lake, Majestic, Empress, Flash, Sunbeam, Victoria, North Star, Water Lily, Beaver, Rainbow, City of Peterborough. It will perhaps be a surprise to many to know that these boats represent a carrying capacity of 1,567 people, and have a tonnage in the neighbourhood of 1,104. This includes many tugs that are not permitted to carry passengers and may give some idea of the traffic on our inland lakes. This list does not include some vessels plying in Lindsay waters, such as the Omegah, which alone made some 122 trips this year.

FEARED THE REFERENDUM.

Discovered he Could not get wet Goods in a Dry Goods Store.

This morning a young man who, it is supposed, was partaking freely of the cheering fluid in view of the possible prohibitory measures of the 4th of December, wandered into a local drygoods store in search of wet goods. Not receiving any, he refused to go out, until one of the younger clerks, assuming a pugilistic attitude, challenged him to combat, but the wary clerk departed, and left the would-be "John L." in the hands of Chief Rossel. The offender will be given a chance to explain at an early date to His Worship Magistrate Dumble.

Established Half a Century.

"C.R.CO." RUBBERS

are made by the Canadian Rubber Company, who are the oldest, the largest, the most reliable makers of Rubber Footwear in Canada.

"C. R. Co's" Light Rubbers are made on perfect fitting lasts, and are strictly high-class.

MISS COBBY'S MARRIAGE.

A Brilliant Event Celebrated in Belleville Which Greatly Interests the Social World.

(Belleville Ontario).

A wedding of very great interest to social circles not only in Belleville but throughout the Province, took place at 10.30 this morning at St. Thomas' church, when Miss Helen R. Corby, second daughter of Mr. Henry Corby ex-M.P., was united in the holy bonds of matrimony to Mr. Francis T. O'Hara, nephew and private secretary of the Right Hon. Sir Richard Cartwright, G. C. M. G., P.C. The event was a very brilliant one, about sixty guests being present to do honour to the two families interested. The chancel of the church was beautifully decorated with chrysanthemums, ferns and smilax, arranged in charming order by the bands of the ladies of the church, with whom the fair bride had been associated all her life in parish work. Rev. G. R. Beamish, M.A., performed the ceremony. Mrs. Campbell presided at the organ and as the wedding party entered the church the full strains of Mendelssohn's grand wedding march pealed out. The bride was gowned in white duchess satin, trimmed with real lace and sprays of white satin rosebuds studded with sequins. She wore the regulation bridal veil and crown of orange blossoms. She also carried a shower bouquet of white roses. Miss Barker, of New York, was maid of honour. Her gown was of pale blue chiffon over cream silk, trimmed with pale blue velvet baby ribbon. She wore a large black velvet hat. Miss Alice Corby, sister of the bride, and Miss Kathleen O'Hara, sister of the groom, were bridesmaids. They were gowned in cream dotted French net over blue chiffon and white silk trimmed with pale blue velvet baby ribbon and were large black velvet hats. They carried bouquets of pink roses, tied with pink satin ribbon. Mr. J. D Hood, of Montreal, was groomsman. The ushers were Mr. Brenner, Mr. R. Tannahill, Mr. R. Thompson and Mr. A. Gillen. Mrs. Corby's dress was black French net over figured silk, trimmed with real velvet lace. She wore a toque of black and white. After the ceremony the wedding pair repaired to the residence of the bride's parents on George street where a wedding breakfast was partaken of. The happy couple left on the afternoon train for the west. After their visit in the west they will return to Ottawa where they will reside. The bride's going away dress was blue panne broadcloth appliqued with pale blue and linen and hat to match. The bride was the recipient of many handsome and costly presents. The groom's gift to the bride was a set of sables. To each of the bridesmaids a brooch in the design of a lover's knot, set with pearls.

LINDSAY'S NEW HOSPITAL.

Board of Governors Adopt Rules and Regulations.

The Board of Management of the Lindsay hospital have adopted the following rules and regulations:

Visitors to public ward patients will be admitted on Tuesdays and Thursdays from 2 p.m. to 4 p.m.; on Fridays from 7 p.m. to 8 p.m.; and on Sundays from 2.30 p.m. to 3.30 p.m. Patients in private wards may be visited by their friends at any suitable hours from 10 a.m., to 9 p.m. Others will be admitted on the request of a governor or physician, or in the discretion of the Lady Superintendent. Clergymen will be admitted at all times. For reasons that are obvious visitors must see the nurse before entering any ward.

The charges will be: In public wards, 40. per day; in semi-private wards $1 per day; in private wards, $2 per day.

MUNICIPAL BETTERMENT.

Prof. Shortt Addresses the Twenty Club of Lindsay.

Lindsay, Nov. 27.—One of the institutions of Lindsay is called the Twenty Club, of which Mr. J. D. Flavelle is President and Mr. E. A. Hardy Secretary. At the last meeting, which was held at the residence of Dr. W. H. Clarke, it had as its guest Professor Shortt of Queen's University, who spoke on "Municipal Betterment in Ontario." The Club extended invitations to the members of the Town and County Councils, Board of Education, Separate School Board and Public Library Board, and from each body there was a good representation. The evening was thoroughly enjoyable and profitable, and the Twenty Club has to its credit another distinct service to Lindsay and neighbourhood.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc. SAILSBURY & CO.

Is Your Piano in Tune?

The change of seasons affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

APPLES.

Any quantity of good Winter Apples for sale by the barrel. Lots of good apples for present use. Prices moderate. Best's old stand, Market Buildings.—JOHN KINCAID.

LAST EVENING'S MEETING.

Rev. Mr. Galbraith Lectures in St. Paul's.

Not a Large Audience but it was Enthusiastic.

For some reason the lecture delivered in the interests of temperance in St. Paul's church was not as largely attended as was expected, although those present made up in enthusiasm what they lacked in numbers. The speaker of the evening was Rev. Dr. Galbraith, of Belleville, and his address was not only earnest but very interesting.

In the course of his remarks the speaker said that the human race has its curse; in heathen lands it is idolatry and in Christian countries—drunkenness. Drink was the cause of all evil, sorrow and wrecked homes, and the majority of the misery and crime which is so prevalent at the present time.

As an illustration of the amount of liquor used in civilized countries, Europe and America, he said it would fill a canal 28 feet wide, by 8 feet in depth for a distance of 100 miles and that it cost over four billions of dollars every year to purchase this amount.

Continuing the doctor said that there were over 4000,000 people engaged in the manufacture of liquor which was directly responsible for over 300,000 deaths every year. Drink is not content with the weaklings, but must have men of strong minds and wills, as these men have strong appetites. In Canada drink had set its standard in nearly every home, and, the reverend gentleman continued, should be torn and destroyed for it not only affects the present generation but will sap the vitality and leave its baneful influence on coming generations. At present the Canadian people were every year paying $7,000,000 for the support of pauper and penal institutions and lunatic asylums that are to a large extent filled with the victims of strong drink.

The speaker touched upon the methods used to create the desire, and spoke bitterly of the practice of filling confectionery with liquor in order to deprave the taste at an early age. Moreover God had said that no drunkard should enjoy the pleasures of Heaven, and that there were a number of things to be done for the redemption of humanity and these were as follows:—By cleansing the church, and educating the young to see the evil of strong drink. Then, too, efforts should be made to save the drunkard as well as the young, and, lastly, by the enactment of prohibitory legislation. The last was the best solution possible, and the temperance people should do their duty on December 4th, and banish the liquor curse from Ontario.

This concluded Dr. Galbraith's remarks, and he was tendered a hearty vote of thanks, after which the meeting closed with the National Anthem.

LINDSAY C. I. LECTURES.

Prominent Canadians to Deliver Addresses This Season.

The Lindsay Collegiate Institute has almost completed its programme for the lecture course of the coming winter. This will be the sixth of the series of courses given by the institute. The first lecture will be on December 5th by Dr. W. H. Drummond of Montreal on "An Evening With the Habitant." In January the University of Toronto Glee Club Orchestra, Banjo and Mandolin Club, will give an entertainment, and later in the month Hon. J. W. Longley, M.P.P., of Halifax, Attorney-General of Nova Scotia, will lecture upon "Moral Heroism" (with special reference to Canadian life.) In February Sir Charles Hibbert Tupper, K.C.M.G., M.P., of Vancouver, will give an address upon the subject, "Has Canada Done Her Duty to the Empire." In March Mr. F. D. Monk, K.C., M.P., of Montreal, will give an address upon a subject to be announced later.

SIR WILFRID'S HEALTH.

Reassuring Letters Were Received by Friends at the Capital.

Ottawa, Nov. 27. — Reassuring letters continue to be received in Ottawa in regard to Sir Wilfrid's health. Lady Laurier, writing to a friend, states that the physicians in attendance upon the Prime Minister say there is nothing organically wrong. All that Sir Wilfrid wants is rest and freedom from worry.

Sir Wilfrid himself in a letter to a personal friend, states that the air at Hot Springs is balmy, and very much like that of Canada in June. He goes about in the open air without an overcoat.

—Uncle Tom's Cabin, the old but evergree drama, which is to appear in the opera house on Saturday — matinee and evening — comes very highly recommended for its special scenic effects. Two Topsies, a saintly Uncle Tom, and an angelic Eva, are promised.

Dying by Slow Degrees.

Although not always aware of it yet thousands die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrhozone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the Inhaler kills thousands of germs, clears the throat and nose, aids expectoration, and relieves the pain across the eyes. Catarrhozone eradicates every vestige of catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price, $1; trial size, 25c.; all druggists. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

The Bear and the Child.

The London Graphic obtains from a correspondent at Sebastopol an interesting bear story. A huge bear approached near to a village and carried off a young child. The inhabitants formed a cordon around the tract of forest where the bear had taken refuge, and on the third day after the child was carried off they closed in on the beast. The child, unharmed, was reclining on a deep mossy couch made for her by the bear. She had subsisted on the nuts and forest fruit brought her by the bear. One almost regrets to learn that the bear was summarily killed.

AT HOME.

The Ladies' Auxiliary of of the Y. M. C. A. Enjoy a Social Evening.

There was a very pleasant gathering of ladies at the Y.M.C.A last evening when the members of the auxiliary held an at home in honour of Mrs. Jas. A. Hall, who has retired from the presidency of the Auxiliary after five years of faithful service.

Despite the unpleasant weather there was a goodly number present. The arrangements were very successfully carried out under the supervision of Mrs. Wm. Hamilton, assisted by Mesdames Frost and Collins, of the Social Committee. Refreshments were served, and at a certain stage of the programme Mrs. Hall was presented with a handsome bouquet.

Misses Donnistoun and Hall presided at the piano in a very pleasing manner.

IS DEER SEASON TOO EARLY?

A Perplexing Difference of Opinion Prevails.

The impossibility of having the open season for deer arranged to meet the individual views of every hunter, keeps up the controversy. Sportsmen from all parts of the province have expressed the belief that it would be wise to have the season two or three weeks later than it is at present, as the weather was generally so warm that many deer killed the first two or three days, were never brought out, the meat "going bad." This view of the matter is now further strengthened by the reports of Provincial Detectives Joseph Rogers and William Greer, who were on the hunting grounds to see that the laws were being observed by the small army of hunters who have infested the regions since the first of November.

Detective Greer says that the open season ought to be made two weeks later, and run from November 15 to November 30. He also says that all the deer shot during the first few days this year, spoiled, and were never brought out. Lots of hunters, he said, killed four deer this season, the two they had killed first having gone bad, and the law allowing them to bring out two. One objection to making the season late is that the deer are more easily killed later in the fall, as they stick to the runways closer. Mr. Greer would remedy this by limiting the deer to be shot to one per man. "One deer is all any man wants anyway," he said.

Chief Game Warden Tinsley on the other hand, says that there are many requests to have the season earlier. Last year, for instance, the weather became so stormy and rough in the woods that the hunters lost the last few days of the season. "So what are you going to do about it?" asks Mr. Tinsley.

ROOSEVELT TALKS OF MASONS' AIMS.

Their Teaching of Brotherhood is Needed Between Employer and Employe, He Says.

President Roosevelt was the guest of the Grand Lodge of Masons of Pennsylvania on the occasion of the one hundred and fiftieth anniversary of George Washington's initiation as a Mason. This celebration took place in the Masonic Temple.

About seven hundred Masons attended the exercises. One of the guests was Bishop Henry C. Potter, of New York.

President Roosevelt spoke for half an hour. He said, in part:

"No man can be insensible of the honour of addressing a body like this on an occasion like this. I can speak with a freedom here that is impossible anywhere else, and with a certainty of not being misunderstood.

"One thing which attracted me so greatly to Masonry that I hailed the chance of becoming a Mason was that it really did live up to what we, as a government, are pledged to, of treating each man on his merits as a man. When Brother George Washington went into a lodge of fraternity he went into the one place in the United States where he stood below or above his fellows according to their official position in the lodge. He went into the one place in the United States where the idea of our government was realized, as far as it is humanly possible for mankind to realize a lofty idea.

We must realize that the indispensable prerequisite of success under our institutions, is genuineness in

THE SPIRIT OF BROTHERHOOD.

Masonry should make and must make each man who conscientiously and understandingly takes up his obligations, the best type of citizen, because Masonry teaches him his obligations to his fellows in a practical fashion.

"The lesson of brotherhood—that is the lesson that has got to be taught and got to be learned and applied to us as a people if we are to solve the great industrial and social problems of to-day. If we could get wage-workers and employers in any given occupation or in any given district in a lodge together, I guarantee the result. I guarantee what will happen. Is not that true? Do you not think so? (Cries of Yes, yes.) Exactly, and I will guarantee it.

"If that thing could happen we would come always into the lodge, each respecting his brother and each wanting to do what was good for his brother; each recognizing that in our government every man of us has to be his brother's keeper. Masonry not only bids us and teaches us in this direction, but makes us care for the brethren that stumble and fall and for the wives and little ones of those who are beaten down in the harsh battle of life.

TEACHINGS OF MASONRY.

"Masonry teaches and fosters in the man the qualities of self-respect and self-help; the qualities that make man a man fit to stand by himself, and yet it must forestall every one who appreciates as it should be appreciated the beautiful and solemn ritual; it must foster in him a genuine feeling for the rights of others and for the feelings of others.

"Help given in a spirit of arrogance does not benefit anyone. Help must be given rationally with a feeling of cordial good will.

"It is not possible to present the idea that I would like to bring out—to have all the best of all classes represented in Masonry in every district; but it is possible for each of us to go out into the world trying to apply in his dealings with his fellows the lessons of Masonry as they are taught in the lodge and as they are applied in the brotherhood. And so we can practically learn from Washington how to deal with the problems of to-day."

All Ready for Early Christmas Shoppers

AT

W. A. SANDERSON'S

JEWELLERY STORE

You will not take long to make up your mind to begin your Christmas Shopping Early when you see our handsome and attractive Holiday Stock now ready for your choosing.

RARE AND NOVEL GIFTS

that delight old and young—Most Acceptable Gifts for Christmas—A Storeful of Good Hints and Good Values. **Suggestions in Jewellery, Watches, Clocks, Silverware, Cut Glass, Ebony, Leather Novelties and High Class Fancy and Ornamental Marvels of Beauty.** The things that Ladies admire—that Gentlemen prefer—that Children love. This will save you the trouble of ordering out of town, you will have no express charges to pay, and you run no risk of dissappointment and delay.

MONEY IN FRUIT-GROWING.

Instances of "Little Farms Well Tilled."

Peaches Grown Successfully in Georgian Bay Region—Work at Fruit Experiment Stations.

The Board of Control of the fruit experiment stations held their annual meeting for reception of reports at the Parliament buildings on Wednesday. President James Mills, Guelph, presided. The others present were:—Prof. H. L. Hutt, O.A.C., Guelph; L. Woolverton, Secretary, Grimsby; W. M. Orr, Winona; A. H. Pettit, Grimsby, and W. H. Bunting, St. Catharines. There are now fourteen stations, covering the principal fruit sections of Ontario, and extending as far north as Joseph's Island. Mr. A. M. Smith sent an interesting account of his experiments at Powassan, Parry Sound District, where, among other things, he had secured good results with the Burbank and other plums. This station will probably be taken over by the board. The board made general experiments in the use of a variety of encircling tree protectors, and though it operated against canker worms, their report was that on the whole it was unsatisfactory, and in some instances injurious.

Prof. Hutt, the visitor to the experiment stations, reported in detail. He recommended that the results of the tests and experiments now shown at the Industrial Exhibition should also be exhibited at county and township Fairs, and suggested that the revision of the prize lists at those Fairs, in accordance with the results at the nearest experiment station, would have the desired result of bringing out the varieties best suited to that locality. Mr. Sherrington, the experimenter at Walkerton, is reported to have "a little farm well tilled," for from five acres he sold $500 worth of apples, and from his ten acres of land he netted $900. In the plum belt of Ontario, at Clarksburg, Mr. John Mitchell has 170 varieties of that fruit, and he is now getting successful results from eight varieties of peaches. The fruit-growers at Leamington are reported to be replanting their lands where the peach trees were destroyed by the "freeze" of February, 1899. At Smithland, in the St. Lawrence section, Mr. Harold Jones got 700 barrels of apples from five acres, and at Trenton Mr. W. B. Dempsey grew 2,500 barrels of apples this year, of which he has no less than 200 varieties.

Do You Wear Rubbers?

If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style speak for themselves.

Family Grocers and Wine Merchants, Opposite the Opera House, George Street

RHEUMATISM.

Some of the most valuable discoveries in medicine had their origin in remote countries among strange people. Quinine came to us from the Indians of Peru; opium from the barbarous races of Asia, and cod liver oil was given to us by ignorant whalers who, because it softened leather, thought it would soften joints stiffened by rheumatism. They were right. It only remained for science to work out the idea, and today cod liver oil is one of the best-known remedies for the treatment of chronic rheumatism. As early as 1754 cod liver oil was recognized as a cure for rheumatism, and a few years later it was found that the same remedy could be used for the cure of skin diseases due to this complaint.

The first step in the cure of rheumatism is to supply the blood with nourishment and to make up the deficiency in red blood corpuscles. These corpuscles convey oxygen to the various tissues in the body and play a very important part in the process of combustion which is constantly going on within the body and which is called the "fires of life." Cod liver oil is an excellent fuel for these fires and they burn more brightly when supplied with it.

The faster the blood is made rich and plentiful in red corpuscles the sooner the rheumatism is driven from the system. In Scott's Emulsion the full value of cod liver oil is combined with hypophosphites of lime and soda, and, being perfectly emulsified, is best suited for the treatment of rheumatism where everything depends upon nourishing the blood quickly and effectually.

Scott's Emulsion differs from any other preparation in that it passes into the system without tax on any of the organs with which it comes in contact. By reason of its immediate action it is enabled to make rich blood faster than disease can consume it, hence it is not long before sufficient headway is gained to drive out the trouble and restore the body to a normal condition. It is in this way that Scott's Emulsion disposes of rheumatism and rids the body of the lingering symptoms that so often threaten a return of the disorder.

So-called wines, cordials and extracts of cod liver oil are worthless as they do not contain the value of the whole cod liver oil and hence cannot furnish the desired benefits. Scott's Emulsion has been the standard cod liver oil preparation for over twenty-five years.

We'll send you a sample free upon request.

AUSTRALIAN WOMEN

ALL WOMEN OF AUSTRALIA 21 YEARS OR OVER HAVE THE BALLOT.

New Zealand Hung Back as a State in Enfranchising Its Women, But the Action of the Federated Parliament Had Its Effect—800,000 Women Now Vote in the Antipodean Colony—Miss Catherine Spence.

Some time ago the national Parliament of the federated states of Australia passed a bill giving at one stroke the ballot to all its women citizens twenty years old and over. They are now, therefore, precisely on the same political footing as men. New Zealand, the independent province had previously enfranchised its women.

New South Wales, however, still remained out in the cold, so far as giving full citizenship to its women went, but when the federated Government gave national suffrage to women New South Wales had to swing into line and let them vote at state and local elections, completing the full enfranchisement of 800,000 wo-

MISS CATHERINE SPENCE.

men. The reason New South Wales was behind her sister provinces in this forward step is to be explained by the statement that her upper legislative house, like the British House of Lords, is not elective. Naturally, therefore, it is full of old fogies. Year after year the elective lower house passed the woman suffrage bill, year after year the reactionary body voted it down, till the ruling of the national Parliament made their antique voice of no avail.

Sir Henry Parkes, the Gladstone of England's south Pacific possessions, called the "grand old man of Australia," was the active and persistent friend of feminine balloting, but he died before it was accomplished in New South Wales. His woman suffrage mantle fell upon the shoulders of Miss Rose Scott, who fought shiningly for it till it came. So that now the only real republic, in which all adult citizens have a voice in the Government, is not a republic at all, but some colonies belonging to one of the oldest monarchies in the world.

This forward lead which Australia has taken is largely owing to the agitation of one woman of loyal heart and brain, Miss Catherine Spence. The Australian ballot was largely the work of Catherine Spence. She agitated it and pressed it upon her countrymen in Australia till they adopted it. Then other nations followed. Miss Spence was sole author of the plan by which a minority party secures representation in a legislature. Besides showing me how they could vote in an improved way, she at the same time advocated constantly as she went along suffrage for women too.

To her influence among intelligent men is also probably to be attributed the fact that Australian women have been made full citizens without any long and bitter fight for it. The younger, up to date politicians and statesmen of Australia are almost to a man in favor of woman suffrage. They helped to win it for their sisters. As a body the Young Men's Christian Temperance Union worked for the women. The political organization that now holds the balance of power in Australia is the Labor party, and that very generally favored woman suffrage. Some there were, indeed, who objected to enfranchising women on this very account, because it would give the Labor party more power than ever. Among these, rather strangely, were many college women in New South Wales. They were so afraid of the Labor party that they would rather give up the right to vote than see this party come into power.

In Victoria it was the educated women who were foremost in the effort to obtain the ballot. In Melbourne, Victoria, Miss Vera Goldstein, publishes her paper called Woman's Sphere. In West Australia titled women took hold of the movement. Lady Forrest worked for it, and Lady Onslow was president of the Woman's Franchise League. After all, however, this fact is significant and to be remembered: It was the women of the Australian laboring classes, those who actually cook, wash and iron and personally rear their families, that were most eager to get suffrage, that worked most faithfully for it and that exercise their new right more generally than any others of her sex.

Novelty for Bathrooms.

A novel idea for the bathroom, coming originally from Germany, is finding an increasing vogue on this side. This is the use of glass tubs. They are translucent, about two and a half inches thick and annealed, so as to be durable. The effect produced is an appearance of greater cleanliness and purity.

Where Rhodes Was Born.

A slab has been fixed to the front of the house where Mr. Cecil Rhodes was born at Bishop's Stortford, bearing the inscription, "The Right Hon. Cecil John Rhodes, the founder of Rhodesia, was born in the room within, 5 July, 1853."

Practical Arithmetic.

"See how I can count, mamma!" said Kitty. "There's my right foot. That's one. There's my left foot. That's two. Two and one makes three. Three feet one yard, and I want to go out and play in it."

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal. 24

BRITISH JOKES.

Some Newspaper Squibs Perpetuated by the Newspapermen.

Lady (engaging a maid): Was your last mistress satisfied with you? —Maid: Well, mum, she said she was very pleased when I left!—Punch.

He: I nearly had a spill just now. The motor ran right up a bank.—She: Dear me! Then you are what one might call a mountebank, I suppose. —Judy.

The Difference?.—Henry: If I were rich, darling, would you love me any more than you do?—Clara: I might not love you any more, but I know I would look forward to our wedding-day with a degree of impatience that never seems to possess me at present.—Illustrated Bits.

Right You Are, Dontcherknow.—Mother: I don't know what to make of my daughter, she is always quarrelling and finding fault with everybody.—Friend (who is in the operatic line): She would make a fine "PrimaDonna," I should think.—Ally Sloper's Half-Holiday.

Fee—One Guinea, Please.—Jimson: Yes, the doctor has put me on the strictest kind of diet.—Jamson: Indeed; what is it?—Jimson: Well, he says I mustn't eat anything I don't like, and not any more than I want of what I do like.—Pick-Me-Up.

"I am so glad to see you about again after your long illness, Jakes." —"Thankee, marm, thankee! But I be that old, 'twarn't 'ardly wuth the trouble o' gettin' well."—Punch.

A Far Worse Punishment.—"Did your husband shoot the burglar he found in the house?"—"No! Much worse than that. He made the man walk up and down with the baby till daylight!"—Sketchy Bits.

Tourist: But you must find it very lonely living right out here all by yourself!—Native: Lonely! Lor', no zur! There was a boy an' a dog come by last week, an' there's you, to-day!—Judy.

She was Brave!—Uncle (on a visit): Come along, Effie; you're not afraid of me, are you?—Effie: Oh, dear, no! Not a bit! I patted an elephant yesterday at the Zoo!—Comic Cuts.

Cornered.—Hardup: I'm very sorry, but I can't pay you to-day. You see, the butcher's man has just been here, and ——.—Butcher (interrupting): Yes, I just met him, and he said you put him off because you had to pay me, so here's the bill.—World's Comic.

He Got Kicked.—She: You must not be discouraged, George. Papa may be abrupt, but his heart is as warm as a July day.—He: Yes; I have noticed that his manner is very summary.—Colored Comic.

Tommy's Logic.—"How do you like school, Tommy?" —"Pretty well, mother, but it's such a waste of my play time."—Halfpenny Comic.

Another Miracle.—"Say, Billy, I went to the fishmonger's and bought four mackerels, two were good 'uns, and two were bad 'uns. 'Ow many fish did I 'ave?"—"Why, four."—"No, I 'ad six; 'cos there were four mackerels, and two smelt."—Funny Cuts.

Australian.

Goldringski (the rich pawnbroker): No, mein young freint, I can'd be your fader-in-law, but (suavely) I will be an uncle to you.—Melbourne Weekly Times.

Head of the Firm: That's a pretty ancient-looking office coat you are wearing, Mr. Travers.—Travers: Yes, sir; I got this with the last rise in my salary.—Sydney Town and Country Journal.

Church: I see Andrew Carnegie began business as a telegraph messenger boy.—Gotham: Well, it's comforting to hear of one messenger boy who "got there."—Melbourne Weekly Times.

Boarder (warmly): Oh, I know every one of the tricks of your trade. Do you think I have lived in boarding-houses twenty years for nothing? —Landlady (frigidly): I shouldn't be at all surprised—Sydney Town and Country Journal.

Lady (engaging cook): Do you understand French cookery?—Applicant: Oh, yis, mum; Oi cook French beans, an' Spanish onions, an' Jerusalem artichokes.—Melbourne Weekly Times.

Workhouse Visitor: I am afraid you find the days terribly wearisome here?—Pauper: Not always; we don't have visitors every day, you know! —Sydney Town and Country Journal.

NOT FOUND YET

The Case of Indigestion That Dodd's Dyspepsia Tablets Cannot Cure—Haliburton Man Tells How His Sufferings Were Relieved.

That bloating that gives you such pain and discomfort after eating is caused by gas generated by the fermentation of undigested food. It bulges out the walls of the stomach, and this frequently interferes with the action of the heart.

The cure is to have your food properly digested. Dodd's Dyspepsia Tablets will properly digest the food. Hear what A. D. Miller, of Pusey, Haliburton county, has to say about it:

"I had been troubled with Dyspepsia and Indigestion, and during the summer of 1900 my doctor treated me for Liver Complaint," says Mr. Miller, "but instead of getting better I gradually grew worse. My appetite was irregular and I would bloat very much after eating. I also had palpitation of the heart and sometimes I could not sleep at night on account of my heart beating so hard.

I was hardly able to get round when I commenced using Dodd's Dyspepsia Tablets. After using half a box I felt much better and was soon well and felt like a new man."

Dodd's Dyspepsia Tablets rest and recuperate the stomach. They have yet to find the case of indigestion that they cannot cure.

Booker T. Washington in Toronto.

Toronto, Nov. 27.—Yesterday the colored orator, Booker T. Washington, of Tuskegee, Ala., addressed the Canadian Club and told the story of his life and in the evening lectured on "Race Problems" in Massey Hall to a very large audience. His reception here was all that could be desired, and he, himself, made a splendid impression.

General Resumption of Work.

Havana, Nov. 27.—There was a general resumption of work yesterday morning, except in the case of the cigarmakers, who still have a few minor points under discussion.

Risked His Life.

Ingersoll, Nov. 27.—Robert McDonald caught a runaway team here at the risk of his life yesterday.

KING AS A BUSINESS MAN.

He Has Reformed Many Things and Adopted New Methods—The Product of His Time.

There is fortunately nothing in common between the King of the Belgians and the King of England. Instead of making a ridiculous pretension that his daughter should be driven from her mother's coffin because of a marriage of love with a subject, the King of England, as is known, gave his hearty consent to the marriage of his daughter with a subject. But in this respect the two monarchs can be compared—that they are both eminently the children of their times, and are both essentially in accord with the spirit of their century. The changes which the King has introduced in Balmoral and elsewhere are among the proofs of this. It is difficult (writes our London correspondent) to realize how much there was of the eighteenth century in all that surrounded the late Queen; and this state of things in many cases was a pathetic reminder of how times changed between her accession and her death. She belonged to the period when the court was still regarded as the rightful asylum of any number of people of the better class who had fallen on evil days—which again was a survival of the still earlier times, when the court was the source and fountain of nearly all forms of public employment. And when the present King came to the throne he found, accordingly, a condition of things that required the pruning knife of the modern man.

This is not, however, the only change in the survivals of eighteenth century manners which is to be observed at court. There has also been a revolution in the manner of receiving guests. In the old court, even very distinguished visitors were treated in a fashion which only the traditions of ancient times could explain—perhaps it might even be said, extenuate. The illustrious guest who was received at dinner and treated there with the utmost distinction was allowed to leave the next morning without again seeing the gracious lady who had been his hostess. I remember General Grant was once a guest at Windsor Castle. He was then full of honors and glory, had been twice the chief ruler of his nation; and, indeed, he was going to be put forward for candidate for office a third time. But, though General Grant got a warm reception from the Queen, he had to go away the next morning without seeing her. The Queen would have been the last person in the world to have done anything that was not the essence of politeness; but she was the slave of the traditions in which she had been brought up; and doubtless this was the etiquette prescribed.

It is reported in some of the newspapers that the King has made considerable changes in these rules, and that he performs the duty of a host more after the manner of the modern private gentleman. Indeed, I heard Mr. Broadhurst, shortly after his visit to Sandringham, declare that the Prince of Wales, as the King then was, was far simpler than the Mayor of Boston.

Apparently, too, the King does not cherish the same curiously reverential attitude towards the Stuarts which was one of the characteristics of the late Queen. "After all, I have Stuart blood in my veins," the Queen said herself on a memorable occasion. So well known was her secret love for the Stuarts that Sir John Pope Hennessy, who had extraordinary instinct and tact, once put on a tie in Stuart colors when he was invited to Balmoral; and the Queen—who was very observant—signified that she saw and was pleased.

"Cape Boys" and Their Ways.

In South Africa the mail carts convey passengers for long distances. The drivers of these vehicles are usually "Cape Boys," men of mixed parentage, Hottentots, Griqua, Korrana, with a dash of the white man superadded. They are first-rate drivers, and manage their teams of six, eight, and even ten, horses with extraordinary skill and dexterity. Another colored boy sits alongside the driver, wielding an enormously long whip, which implement he manages as deftly as a first-rate fly-fisher does his rod and casting line. Nevertheless, these Cape boys are reckless folk, much addicted to drink and inordinately vain of their performances as Jehus. It is the fashion with them to start away from and make the approach to the village inns or halting places, where they make their halts, at a hard gallop. In this way, owing to the drivers' drinking habits and the ordinary risks of bad roads, accidents often happen, the cart and its passengers are occasionally turned over, and broken bones result. The cart itself is a two-wheeled tented carriage, having two or three seats placed one behind the other, the passengers invariably looking toward the horses. Luggage and mails are strapped on behind, or, if a regular coach is used, upon the top.

Advertising in the Examiner brings the best results.

THE MILLER OF THE DEE.

Isaac Bickerstaff.

There dwelt a miller hale and bold
Beside the River Dee;
He worked and sang from morn till night;
No lark more blithe than he,
And this the burden of his song
Forever used to be:
"I envy nobody, no, not I,
And nobody envies me."

"Thou'rt wrong, my friend," said old King Hal,
"Thou'rt wrong as wrong can be;
For could my heart be light as thine,
I'd gladly change with thee.
And tell me, now, what makes thee sing,
With voice so loud and free,
While I am sad, tho' I am King,
Beside the River Dee?"

The miller smiled and doffed his cap,
"I earn my bread," quoth he,
"I love my wife, I love my friend,
I love my children three;
I owe no penny I cannot pay;
I thank the River Dee,
That turns the mill and grinds the corn
To feed my babes and me."

"Good friend," said Hal, and sighed the while,
"Farewell, and happy be;
But say no more, if thou'dst be true,
That no man envies thee;
Thy mealy cap is worth my crown,
Thy mill my kingdom's fee;
Such men as thou are England's boast,
O, miller of the Dee!"

Sketch of Isaac Bickerstaff.

The above song, The Miller of the Dee, in its present form was either written or adapted by Isaac Bickerstaff, who was born in Ireland about 1735; died in 1812. As a boy he was page to Chesterfield, the Lord Lieutenant of Ireland. He attained a position in the society of men of letters, but, suspected of a capital crime, fled, in 1772, to St. Malo. He afterwards returned to London, wrote comic operas, in one of which, "Love in a Village," "The Miller of the Dee" was sung. Just when or how he died no one knows.

The old mill at Chester, Eng., on the River Dee, where the legendary miller is said to have uttered his sententious wisdom, was burned down in May, 1895. The mill was established in the 11th century.

Sure Cure for Sick Stomach

Such maladies as Nausea, Sick Stomach, Cramps and Colic, yield instantly to Polson's Nerviline, and if you suffer periodically from any of these complaints just keep Nerviline handy and take a few drops in water for quick relief. A large 25c. bottle of Nerviline is a comfort and safeguard in any household, and will save great suffering and big doctors' bills every year. Do you use Nerviline? Try it.

Hamilton's Pills don't gripe.

O'Grady-Haly's Testimony.

London, Nov. 27.—Major-General O'Grady-Haly, former General Officer Commanding the Canadian militia, yesterday gave evidence before the War Commission concerning the raising, equipment and despatch of Canadian soldiers to South Africa. He also referred to suggestions that had been made for the improvement of the military service in Canada.

No Message From the King.

Sydney, N.S., Nov. 27.—It was reported here that Mr. Marconi was preparing to receive a message from King Edward to the Governor-General of Canada yesterday. The inspector, however, denied the rumor. "It will be several days before I am ready to receive transatlantic messages at this station," he said.

Health of the Province.

Toronto, Nov. 27.—The provincial health report for October was issued yesterday. There were 307 deaths from contagious diseases, compared with 319 last year. The deaths from contagious diseases were as follows: Scarlet fever 18, diphtheria 60, measles 1, whooping cough 8, typhoid 54, tuberculosis 166.

Contest Will Be Close.

Montreal, Nov. 27.—At the nomination of candidates yesterday at Lachute, Argenteuil County, Hon. Messrs. Paterson, Bernier and Fisher spoke for the Government candidate. Mr. Christie, while Messrs. Monk and Bergeron and Risder championed Mr. Perley's cause. The contest will be a close one.

NERVOUS HEADACHE.

The Cause of Much Suffering to Women is Permanently Cured When the System is Built up by

Dr. Chase's Nerve Food.

Headache powders relieve headaches, but they have never cured them, and they are not intended to make a lasting cure. Besides the risk run in using a drug that is strong enough to instantly stop pain, you may be sure that the reaction on the nervous system is most trying and injurious.

Mrs. Clancy, whose letter is quoted below, was subject to headaches for nineteen years, and in spite of all the headache remedies she used she could get no lasting benefit. She suffered so severely when the attacks would come on that she could not go about the house. She has restored her nervous system by the use of Dr. Chase's Nerve Food, and her headaches have entirely disappeared.

Mrs. Jas. Clancy, 714 Water street, Peterborough, Ont., writes: "I have used four boxes of Dr. Chase's Nerve Food, and found them an excellent medicine. I was troubled more or less for nineteen years with severe headaches, which made me useless as far as accomplishing my work was concerned.

"The Nerve Food seemed to build me up generally, and so made a thorough cure of my old trouble. I would not think of being without Dr. Chase's Nerve Food in the house and would strongly recommend anyone suffering as I did to give it a trial. It succeeded in my case after a great many remedies had failed."

To the thousands of women who are victims of nervous headaches this letter should prove of inestimable value. If they will but follow the advice of Mrs. Clancy they can be certain of great and lasting benefit.

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

BBB

Cannot be Excelled by any preparation on the market to-day as

A Cure For Dyspepsia, Boils, Pimples, Headaches, Constipation, Loss of Appetite, Salt Rheum, Erysipelas, Scrofula,

AND ALL TROUBLES ARISING FROM THE

Stomach, Liver, Bowels or Blood.

It has been in general use for over a quarter of a century, and every person who has used it has nothing but words of praise as to its curative properties.

Mr. R. J. N. Hoss, Sunderland, Ont., writes:—After having suffered for nearly two years with indigestion and severe headaches, and getting no relief from the numerous doctors I consulted I decided to try Burdock Blood Bitters. After having taken a few doses my head began to ease from the continual aching, and by the time one bottle was taken I was completely cured of both the indigestion and headaches.

Office of DR. McKERCHER, Veterinary Surgeon and Dentist. Calls promptly attended to day or night. Horse and Cattle Medicines always in stock.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrub and beg when a life policy would prevent it? Why not call at Lindsay & Hunt's Real Estate and Insurance Office for any of these?

FITZGERALD'S

YA HONK! YA-HONK!

The Flying Squadrons of Canada—Honking Thousands in the Air in the Spring and Fall.

When we think of migratory birds going "north" or "south," there is one mental picture which most of us have clearly in view—a long line of large grey birds against the sky, with necks extended, and with wing-beats as strong and regular as the strokes of a piston-rod. Later we may think of the swallows and of the waves or warblers which pass in the night, but our first thought will probably be of the flying squadrons of Canada geese, whose trumpet voice heralds the spring, and six months later announces the dying of the year.

A few days ago I was walking along the shore of a lake, trying to count a flock of black ducks which were bobbing like corks in the shining water a hundred yeards off shore, when I heard to the north of me the honking of geese. They were flying quite low and were headed for the lake, so I hid myself that they might approach without alarm.

As they came over the water they wheeled and passed above me like a cloud, for a moment shutting out the sun. Then they circled toward the lake, descending every instant, the light flashing from the whiter parts of their plumage, until they swept fearlessly into the water, which hissed and seathed and sparkled as they launched their blunt-prowed bodies.

There were 38 of them in all, and for some time they were busy plashing and tipping and preening their feathers, meanwhile honking with great animation. Presently they passed from view around a bend in the shore, and next morning they left the lake to continue their journey southward.

The Canada goose is the largest of our wild geese, measuring sometimes more than 43 inches from the tip of its bill to the end of its tail. It is a very handsome bird and both its plumage and its carriage make it an attractive feature of any collection of native water fowl.

The Canada goose has a white patch on either side of the head and another white patch at the throat: the rest of the head and neck, including the bill, is black. The back and wings and sides are greyish brown, the tail black, the breast grey and the belly greyish, fading to white.

Hutchin's goose, which is smaller, and the cackle goose, which is smaller still, both resemble the Canada goose in color and markings, but as the last named is the only one of the three species which we are likely to see in the East, we need have no fear of confusing them.

When the geese pass over us in the spring they are going to their breeding grounds in Canada and on the northern border of the United States. They make their nests of sticks, lined with down, usually on the open prairies or by the shores of rivers. Sometimes, however, they build on an old tree stump, or utilize the deserted nest of a fishhawk, in a tree. They usually lay four or five gull eggs, about three and a half inches long by about two and a half inches wide.

Great numbers of geese are shot every year during the migrations, by gunners who use various methods of luring them within gunshot. Some shoot them from "blinds," erected in the swamps frequented by the birds Here a gunner will kneel, with cocked gun, until he sees a flock approaching.

If they are not coming well within gunshot, he calls to them, mimicking very cleverly, sometimes, the honking of the geese themselves. The latter will usually answer, and wheel nearer to the blind, and before they can see their mistake some of their number fall at the discharge of the gun. Sometimes the same results are obtained by tethering wild birds of the same species, which call to their passing brethren, and unconsciously lure them to destruction.

Wounded geese are quite easily domesticated, but they soon become heavy and ungainly in captivity. But they never forget their wild state, and in the spring it is very pathetic to see them raise their heads and call to the passing flocks, as though to call attention to their helpless plight.

Instances have been known where captive birds have recovered from their wounds and joined the northward-bound squadrons in the spring, and I have heard, from seemingly reliable sources, of two cases in which geese have returned in the autumn to the places of their former captivity.

The only other wild goose we are likely to see near the Atlantic coast is the brant, a much smaller bird than the preceding, measuring about 26 inches in length. It is not so active a bird as the Canada goose, and flies more slowly. Brants, moreover, fly in closer order; not strung out in a long line or a V.

The head and neck of the brant are black, with the exception of white specks on the sides of the neck. The back is brownish grey, the upper breast black and the lower breast grey, fading to white on the belly. It is a bird of the far north, breeding within the Arctic circle. Its nest is made of grass and moss, and lined with down. The eggs are four in number and of a creamy white color.

The principal food of the brant is said to be eel grass, which it tears from the mud at low tide and allows to float on the surface. When the water has risen so high as to compel it to stop work, it swims about among the floating eel grass, which it feeds upon at its leisure.—Ernest Harold Baynes.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

THE LAST SLEEP.

By Phillips Stewart.

"My love, the dawn is flushing thy cheek,
And the sunlight creeps high;
I have watched thee all night, till the first faint streak
Of dim light in the sky.

"Thou hast lain so quiet, my love, not a word,
I have watched so long,
And bird hath begun to answer bird
In gladness of song.

"Slowly the moon and the stars have burned low
In the dawn of the day;
My love, my love, awake! let us go
To the fields that are gay.

"The trees are dreaming, their shadows float
By the musical shores;
The white swan is paddling his feather-sailed boat
With lazy oars.

"The fields are with emerald memories strewed
Where our first love grew;
And the golden-haired flowers are awake in the wood,
Bathed in scenting dew.

"All night I have heard the ringing of bells—
One was so wild and glad;
All night I have heard the ringing of bells—
One so solemn and sad.

"I have missed the ivy of hands on my neck,
Dove-white face on my breast;
I have madly longed to see thee awake
From thy quiet rest.

"O, kindly light of thine eyes in the morn,
Smiling up at my own!
O, the joyful voice to the heart forlorn,
With its love-laden tone!

"O, the wild-rose blush 'neath the trailing tress,
Hung freshly on thee,
When thy lips in tremors did confess
Thou wert dreaming of me.

"The streamlet sings to his flowery throng,
Where the green stones lie;
The grasses and leaves have waited so long;
Then come ere they die.

"Though thou couldst not come, sadly I went
Alone on the lea;
I culled these flowers thou didst love, all bent
In sorrow for thee.

"No joy nor gloom can ever wean
Thy pallid brow
From my heart. Thank God, how true thou hast been!
I have kept my vow.

Sketch of Phillips Stewart.

In the year 1866 a village in the County of Peel saw the birth of Phillips Stewart, our Canadian Keats, writes Pharos in The Globe. His father was a physician and he an only child—how dear to his mother we know from the young poet's beautiful and stately elegiac dedicated to her. He early manifested uncommon mental gifts, and in due time came up to Toronto University, where he won the Blake Scholarship and took honors in classics. At the end of his second year he departd on a European tour, which extended over a year and a half, a good part of which was spent in Italy. It was during a visit to London in 1887 that he published with Kegan Paul, Trench & Co., the volume of verse extraordinary in its substance and spirit, that is the only remains we have of his vital poetic faculty and instinct. Mr. Kegan Paul, himself a scholar and man of cultivated tastes, took a great liking for the young Canadian. Returning to Toronto, Mr. Stewart decided to study law—of all things incompatible with his genius! He graduated with the degree of LL.D., but paid with his life for his resolution. He died in February, 1892, at the age of twenty-six. He left three notable bequests—one to the Sick Children's Hospital for the foundation of a cot, one to Toronto University and one to Osgoode Hall. The latter foundation had no precedent and an act of the Legislature was necessary to its acceptance by the Law Society. This bequest provided for the furnishing of a library for law students unable to purchase text-books. The Phillips Stewart room adjoins the library at Osgoode Hall.

The poetry he has left is part promise and part fulfilment. His poetic style was not really formed, though singular for its unconventional freshness, ease and charm. What we know of his conception of the function of poetry, through that poetry itself, is that its proper organ is the imagination and its aim the creation of beauty. This is not the place for an extended appreciation of one who might have been a great poet—who had the feeling, the art and the ineffable touch to become one—but I must refer in passing to the lyric "Hope," in this volume, one of the most exquisite things in poetic literature, and extract one passage from the "Corydon and Amaryllis," incomparable in its instinct for poetic diction and throbbing in every line with the glory of nature and the life of beauty:

". . . . . And then,
O robin, with the mellow flute so full
Of melody, 'twas almost to forget
That this fair world of ours could know one pang
Or tear, it was so beautiful, so full
Of joy. How my young heart did wildly bound
With thee in warbling greenness of glad spring!
My youth had been attuned to the sweet song;
We have together roamed by mossy streams,
Whose gladness mingled with our own, through fields
Where buds and berries ripened into bloom,
And by the leafy greenness of cool woods,
Our lives were like a merry dream, serene
And shadowless; passion and apathy
Were far away, when thou wert breathing forth
Thine ecstasy . . . ."

In still another respect did Phillips Stewart resemble John Keats—in inspiring affection; and what Haydon said of Keats many say of Stewart: "He had a kind, gentle heart, and would have shared his fortune with anyone who wanted it."

Growing Peas in Pods.

Growing peas in pots is a new wrinkle where expense is not considered. Seed is sown in November or December and the pots are kept in frames or low houses free from frost. Heat is given after the plants are well rooted.

The Cause of Deafness.

Deafness and impaired hearing are due almost entirely to catarrhal inflammation of the eustachian tubes. Permanent cure is guaranteed to all who inhale Catarrhozone as directed. This vegetable antiseptic is inhaled at the mouth, and after traversing all the air passages of the respiratory organs is exhaled through the nostrils; it completely eradicates catarrh from any part of the system, clears the ears, nose and throat, and allays, inflammation, congestion and soreness. For Deafness, Earache, Ringing in the Ears, Head Noises, Catarrh, Asthma and Bronchitis, medical science can devise nothing as beneficial as Catarrhozone. Complete outfit for two months' use price $1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

Hamilton's Pills are Effective.

A Canadian Railway Man.

D. Blythe Hanna, who has been appointed third vice-president of the Canadian Northern Railway at Toronto, was born Dec. 20, 1858, at Thornliebank, Scotland, and his railway service is as follows: 1874 to 1879, clerk and ticket agent with the Glasgow, Barrhead & Kilmarnock Railway of Scotland, at Kinnishead, Pollokshaws and Barrhead stations; 1879 to 1882, cashier, Stobcross station, Glasgow, Caledonian Railway of Scotland; 1882 to 1884, clerk in auditor's office and traveling auditor, G.T.R., Montreal; 1884 to 1886, clerk, general auditor's office, New York, West Shore & Buffalo Railway at New York, N.Y.; 1886 to 1892, chief accountant, Manitoba & Northwestetn Railway, at Winnipeg; 1892 to 1896, treasurer and land commissioner, in addition to the duties of chief accountant with the same company. In 1896 he was appointed superintendent of the Lake Manitoba Railway & Canal Company, and subsequently the Manitoba & Southeastern Railway was added to his jurisdiction. In March, 1899, these lines were amalgamated under the title of the Canadian Northern Railway. In February, 1900, he was appointed general superintendent.

Counterfeiter Stuart.

Stuart, the self-confessed counterfeiter of Dominion one-dollar bills, held in Toronto, is a very kind looking, fatherly old character. He has a full face, shaggy grey hair and beard and high forehead. It is said that he has been around Toronto for the past twenty years. He is a very shrewd, intelligent old man, quite temperate and with few close friends. It is said that at one time he worked for A. E. Kemp Co. on River and Gerrard streets, engraving plates, which are placed on coffins. He is given credit for the invention of the art of photography on tin. Certain it is that he is a fine chemist and an expert engraver.

BAD BABIES

Are often only hungry babies. They cry and fret because they are ill-fed. The healthy mother is sure to have good babies; babies that coo and sleep and grow. Mothers who use Doctor Pierce's Favorite Prescription, are generally healthy and happy, and have healthy, happy children. "Favorite Prescription" prevents nausea, soothes the nerves, promotes the appetite and causes sleep to be sound and refreshing. It gives a great physical vigor and muscular elasticity so that the baby's advent is practically painless. It is the best tonic for nursing mothers, restoring strength and promoting an abundant flow of nutritive secretions.

"I can cheerfully recommend Dr. Pierce's Favorite Prescription as one of the best medicines for women," writes Mrs. Mary Murdock, Murdock, of 1149 Woodard Ave., Topeka, Kan. "I elder it the best medicine made. I know it has no equal. I am the mother of ten children and only nine living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, one lived to be one year old, but she was always feeble. I tried different doctors, but none of them could tell me what my trouble was. They said I was well and strong. I was examined by surgeons but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what to do so I thought this time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now have a fine baby girl, and I cannot praise your medicine enough for the good it did me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative.

SUB-ATOMIC PLANE.

An Important Scientific Discovery at McGill University, Montreal.

A result of great scientific value has been accomplished by Prof. Rutherford and Mr. Soddy since the air liquefying machine was installed in the physics building at McGill University, Montreal. The real importance of their work cannot be accurately gauged yet, but it has already attracted the attention of the scientific world, which is now eagerly awaiting further results of their experimental researches. Without entering into technical details, it may be said briefly that Messrs. Rutherford and Soddy have practically established a sub-atomic plane in the composition of matter. This means that they have succeeded in resolving matter into particles smaller than an atom, which physicists have hitherto regarded as the ultimate indivisible particle of matter. Should they succeed in firmly establishing this sub-atomic plane the scientific effect of their researches will be so far-reaching as to entirely revolutionize the fundamental principles of chemistry and physics. Further than this, Prof Cox says there is little doubt that that they have discovered a new kind of matter as a result of the same experiments with thorium emanations. The rare metal, thorium, gives off emanations which never could be liquefied until McGill received the machine for liquefying air. The experiments seem to prove that there emanations have some of the characteristics of ordinary gases, but, as Prof. Cox said, they seem to be a new kind of matter.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

Joke Upon Graphic Readers.

There was quite a run on The Daily Graphic of the last Tuesday in October, some jokes having caused the price of copies to go up to a shilling or more. They pointed out to hundreds of their friends the following paragraph;

"The thanksgiving service itself lasted from 12.30 to 3 o'clock p.m., and was of imposing impressiveness. It was noted that, with one solitary exception, the behavior of the congregation assembled was decorous. The exception was the Prince of Wales, who strove to make a cad of himself, in which he succeeded."

This paragraph, however, was not so disloyally preposterous as appeared on the surface. People read the article in such a casual way they they were easily taken in, and thought they were reading a description of the thanksgiving service in St. Paul's on Thursday last, whereas it appeared on a more careful reading of the paragraph that it referred to one which happened in 1789.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honourable in all business transactions and financially able to carry out any obligations made by their firm. Grandest and Proudest Day in Our History

DECEMBER 4th, 1902.

ONTARIO'S CHARTER OF EMANCIPATION

Freedom From a Most Cruel Slavery.

LIBERTY—HAPPINESS—PROSPERITY.

Joys of home, wife and children given to 16,268 suffering in the coils fo t is Province, and sound mind and bodies to thousands more in the asylums, ... ntories and hospitals.

What a freedom from heavy taxation to support all this — all these kept in cruel and bitter bondage by our licensed bar-rooms. To stay at home will be to give the benefit and support to the liquor traffic.

Let every man get out and vote in favour of the Liqour Act on **Dec. 4th** and

SAVE THE BOYS.

This is your opportunity—don't let it pass.

Don't listen to appeals of men or agents who spend their days in sucking the character, life and virtue out of your fellowmen.

Don't be misled by the foolish arguments of men who make their money out of the degradation of men and women and the destruction of home.

Don't be led astray even by the opinions of priest or prophet who, through strong drink, errs in vision and stumbles in judgment.

212,723 Votes are Required to Carry the Act.

Vote for the Liquor Act of 1902, which closes the bar-rooms and will save the boys. Mark your ballot thus—

	YES	NO
Are You in Favour of the Liquor Act of 1902 ?	X	

Which means that you are in favour of this Act which proposes to banish the bar-rooms.

See your duty to your God, to your Province, your family and its future—then do the right on December 4th.

Do not be frightened into doing injury to your conscience and to the lives of your fellow citizens by cries of compensation, for the drunkard makers will have till May, 1904, to sell off their poison and get into better employment. There will be no compensation.

WATCHES

Our new stock of Watches has arrived and now is the time for you to make a selection for Christmas. We have Watches for Boys, Watches for Ladies and Watches for Men at Prices that are simply bound to please. *Split.

The following despatches have been received by E. M. Possessett & Co. from McIntyre & Marshall, of New York and Chicago:

New York, Nov. 28th, 9.45 a.m.— The principal news yesterday was the official announcement of lease of Manhattan to the subway system. Manhattan stock holders for the next three years are to receive their own net earnings, but these are to be limited to seven per cent. It is a foregone conclusion that seven per cent. dividend will be begun at once. The lesser will come in from the first for a handsome surplus for the new stock issues cover all betterments, and there is no need of deducting from extraordinary expenses. The value of the rights being six per cent. It follows that the present investor gets seven per cent. guaranteed stock at about 106 yielding well over four per cent.

M. & M.

London, 2.00 p.m.—The late cables report London markets all better because of improvement in general sentiment as result of bank of England in not increasing its discount rate from four per cent., as expected. Consols are up to 90 against 89 5-8. General sentiment is somewhat more favourable to the market here, and we would not be surprised to see some rally, but nothing better than a trader's market is expected the balance of the week. There is evidence of some increased short interests from active demand for U.P., Man. and several other stocks in lean crowd. Wheat 1-4 lower; corn 1-8 higher at the Liverpool opening.

M. & M.

New York, Nov. 28th, 10.30 a.m.—The best thing we have in news this morning is Paris announcing a rise in exchange on London. This is a further check on gold shipments from this country. Demand sterling quiet at 4.87 1-4.

M. & M.

Armour has bought about all the May wheat for sale this morning. May corn strong on general demand. Firm cables and small receipts. Very little doing in December offerings. Armour continues to buy wheat. Locals taking on offerings light. Price Current says wheat maintains fine appearance. Fly reports numerous early sown, but few regarded as serious. Corn drying slowly. No special change in conditions, mere inclination in the interior to hold wheat. Weather map shows light rains in Ohio valley, killing frosts in Ala. and Ga. Car lots of wheat 199; corn 186, and oats 175.

DENISON.

Identification by Finger Print.

The value of finger prints as means of identification was recently called in question in a London court. It was ascertained that an erroneous print had been forwarded in the case of a particular prisoner, and the charge of inaccuracy therefore fell to the ground. Mr. Francis Galton and Dr. Bertillon have elaborated this system to a high degree of accuracy, and taken in conjunction with certain physical measurements it may be regarded as unique in its power of settling identities. The Chinese ages ago adopted a similar system. They were apparently aware of the fact that no two persons have the skin lines at the ends of the fingers developed in precisely the same way. The system which is in use in English police practice, has had a long and extensive trial in France. It is now employed in America and in several of our own colonies.—London Chronicle.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 3t.

LATEST IN SPORTING CIRCLES

"Dirty London" Ghost Stories Exposed.

Something About the Burnside Rules —General Notes.

"NOT FROM SPOTLESS TOWN."

The London News says:—The people in Peterborough apparently did not take any too well to the locals. The first thing that the boys heard when they arrived in that town, was "Dirty London! Dirty London! You'll get yours, you'll get yours," intermingled with a hoarse chorus, "I got mine, boys." The last sound that struck their ears as they left the place was "Dirty London." The sound throughout the game was, "Dirty London." It is said that the proprietor of the hotel at which the locals stopped told the members of the club that he was glad that they were leaving, when they had gathered together their things, as he had feared that they would be mobbed if they remained in Peterborough much longer. The Londons also received rough treatment at the hands of the spectators. Pokes with umbrellas were no uncommon occurrence.

Petrborough has this much to say: President Kenner and Assistant-Secretary Morden met the London team at the midnight train, and no one said anything of a nature such as the News reports. After the game, when the team was coming from the field, some unkind remarks were made by some very small boys, the eldest of whom were not more than seven years of age, whose knowledge of facts was perhaps superior to their courtesy. As for the proprietor of the hotel at which they stopped, he said nothing of the kind. In fact, they were used in a way they appreciated, as witness the reports of the London Free Press.

There was only one unfortunate interference on the field on the part of a spectator, but the offender was promptly taken in hand. No umbrellas were used on the players, and everything possible was done for the players. Moreover, London received their guarantee on the field, instead of having to wait many months. It is unfortunate that after the amicable feeling that had apparently been established, that an article should appear that might cause hard feelings.

• • • •

The Hamilton Spectator says: — The Young Tigers are having a hard fight for the junior O.R.F.U. Championship. They defeated Dundas twice and had to play three games with the West End Pleasure Club team, winning two of them. On Saturday they scored more points than Galt, but as the time was not up when the game was called the teams will have to play over again at Dundas tomorrow. The winners of this game will have to meet the Limestones, of Kingston, in the finals. The Limestones must have a strong team to give the Wellesleys such a severe trouncing.

Since the age limit was abolished pretty husky teams have entered the the junior series, and a comparatively light team like the Tigers have their work cut out for them. The old rule was abolished because it was violated by several teams, the Tigers being among the offenders, and false declarations were made as to ages, and the union made a new regulation for juniors. Now there is no bar as to age, and weight, and some of the "juniors" sport beards and weigh almost a ton.

Football has gone back ever since the teams have gone in for big, husky players, sacrificing speed and activity for weight. If the teams were lighter there would be less scrapping and close scrimmages and more open play. Now the wings are selected for their size and strength. They are successful in marking the wings opposed to them, but most of them are slow in following up, and about all they do is to scrap. In the American game there is some excuse for big players because interference is allowed, but the Canadian game would be much improved if the teams were lighter. Football is supposed to be a game of skill and speed, not a succession of scraps and wrestling matches between big, husky players.

THE BURNSIDE RULES.

Two sturdy opponents of the adoption of the Burnside rules are to be found in the Queen's team in the Inter-Collegiate Rugby Union and the Rough Riders in the O. R. F. U. Speaking for the Kingstonians, the veteran Guy Curtis says that ten years ago, when the Osgoode team played their famous combination game, there was little to complain about in the rules. They seemed all right then. What has occurred since? Master minds have evolved plays that a decade ago were never thought of, and a somewhat rough game has been built upon very plain and innocent rules. And the same will be the fate of the snap-back system, he says. As for Ottawa, at a recent executive meeting, a discussion ensued over the snapback system, or the Burnside rules, and the decision was unanimous against the adoption of these by the O.R.F.U. At the annual meeting of this union the club will be represented by President Hal McGiverin, and Secretary Tom Godfrey, both of whom will strongly oppose the adoption of the system by the union.

ANOTHER FOOTBALL VICTIM.

Newark, N. J., Nov. 24.—Robert McKinney of East Orange, was killed during a game of football at Lyon's Farms, last Saturday afternoon. McKinney was playing half back on the Bloomfield Y.M.C.A. eleven against the Lyon's Farm's athletic club. He received the ball and started to run when he was tackled and downed and the players piled on him. In the scrimmage McKinney was kicked on the head. He died several hours later of concussion of the brain.

• • • •

Before London went to Peterborough, they should have had Prof. Boulton R. Kean of Orillia, lecture on "Easy Methods of Winning in Peterborough," illustrated by moving pictures of his own footwork from the Peterborough lacrosse grounds to a box car. If the London players got poked with umbrellas in Peterborough when they lost, wonder what would have happened to them if they had won?—Toronto Telegram.

The above is the result of the article in the London News. The Telegram should read the Free Press for a while.

• • • •

Peterborough has decided to go down to Montreal on Saturday and bring back the intermediate championship. They will have little or no trouble, as they do not have to meet either the Rough Riders or Ottawa College, and there is nothing else in the east that could make any trouble for anything in the football line.—Toronto Telegram.

We hope so. If not, it will be the hand of the President of Nebraska or his confrere.

BASKETBALL.

To-morrow night at the Y.M.C.A. after the two basketball matches, there will be chosen by ballot, a first team to represent the Association. A full list of players will be arranged according to their positions, and members will vote for each position, viz., forward, centre and defence. All senior basketball players have equal chance for a place. Only senior gymmen have a vote.

• • • •

The Brownies and the Harriers will play a match to-night at 9.30 p.m. after the senior class. This will be the last game the Brownies will have with Harold Daly, their centre player, who is leaving town.

CURLING.

The Immigration Department has arranged that one of its staff is to accompany the twenty odd Scottish curlers who are coming to this country in December. A good many of the team are farmers and the Canadian agent will be with them to furnish particulars in regard to the country's resources. The curlers will spend about a fortnight in Ontario and Quebec and another fortnight in Manitoba.

LACROSSE.

Herb. Brown, the secretary of the M.A.A.A., shipped yesterday fifty lacrosse sticks and a number of balls to South Africa per steamer Mellville. It will be remembered that Col. Steele, of the South African constabulary, asked for them. The M. A.A.A. has donated the sticks and in the near future the constabulary will be playing the Canadian national game before the admiring Hottentots, who will no doubt find the netted sticks more effective than their own clubs.

SIR EDWARD BRADFORD.

Impending Retirement of the Head of England's Metropolitan Police.

Sir Edward Bradford has been for so long at the head of England's metropolitan police that the news of his impending retirement gives rise to a sense of the disappearance of a familiar landmark. For the one-armed, grey-haired veteran, in his picturesque uniform of blue and silver, has been one of the most familiar figures in metropolitan life for twelve years past. He has controlled some of the biggest crowds that London, the biggest city in the world, has ever seen, and has engineered several most impressive public pageants, such as the two jubilees and the funeral of Queen Victoria and the coronation and State visit to London of King Edward. He had a distinguished career in the army before he became Chief Commissioner of the London police. So far back as 1853, when "John Company" still swayed the destinies of the India peninsula, he joined the Madras army, took part in the Persian campaign and in the mutiny, and afterwards, as the General Superintendent of the Thuggee and Dacoity department at Calcutta, virtually suppressed those roving bands of professional murderers who at that time infested the entire Indian Empire, spreading terror in all directions by the extraordinary mystery with which they accomplished their crimes. Subsequently he became chief of the political secret department of the Indian Office, and it was while thus employed that he lost his arm during a tiger-shooting expedition. One day while out after this fierce game, which he had stalked on foot instead of hunting it from the relatively safe eminence of an elephant howdah, he shot at a tiger, which, only wounded, charged upon him and bore him to the ground. Never losing his presence of mind for a moment, Bradford, with a view of preventing the infuriated animal from attacking his head or throat, thrust within its jaws his left arm. The tiger simply gnawed it off. But the life of the cool Nimrod was saved by his companions, who arrived in time to shoot the creature before it could inflict any still more serious injury upon Sir Edward.

You spend a good deal of your life in your shirts.

If you wear "Jooke" Shirts you will certainly live more comfortably than in inferior makes.

JUDGMENT RESERVED

Six Charges Not Yet Decided in the Lennox Election Trial.

TAMPERING WITH WITNESSES.

Judgment Charge by the Counsel of the Petitioners—Some Evidence Tendered—Mr. Herrington's Statement—A Tie Between Lawyers Agreeably Settled—Crow-Petition Stands Without Date.

Napanee, Nov. 29. — The trial of the protest against the election of Mr. Carscallen, Conservative, to the Legislature concluded yesterday morning, judgment being reserved on six charges by Mr. Justice Maclennan and Mr. Justice Osler. Yesterday's evidence was not of special interest.

The charge that J. W. Ball, a scrutineer for Carscallen, had promised payment to Lionel Rix for going to bring a voter by boat was dismissed. A personal charge that Mr. Carscallen offered to forgive Charles Wagar an account of $13, funeral expenses for the burial of Wagar's grandchild, on condition that Wagar would vote for Carscallen was also dismissed.

During Mr. Cassel's examination of a witness Judge Osler requested him to "cut out" all superfluous questions.

A charge that a man was bribed by R. H. Baker was dismissed. The witness Kelly, who was examined the other day, was put in the box in connection with the case. Mr. Watson at once pointed to R. H. Baker and a man named George Greer, who were just entering the court, and asked if they had spoken to him in the corridor a moment before. Kelly denied this, and gave evidence adverse to Mr. Watson.

Mr. Herrington, Mr. Watson's assistant counsel then entered the box, and swore that he had seen Baker and Greer taking Kelly into him. "I was very much annoyed," Mr. Herrington continued, "as I had warned Greer I would report him if he tampered with my witnesses any longer, and I have observed it during the whole of this trial."

Judge Osler directed Mr. Watson to adhere to the case.

Charles Pearson was then called in connection with charge 35, but the constables returned word that he had gone down town. Mr. Watson then rose and said: "I am instructed and I desire to say to your Lordships upon instructions that the petitioners' witnesses have been tampered with throughout the whole of this trial, and have been taken off repeatedly, soon after they got here, and that sort of thing is occurring constantly."

Mr. Cassels—All I can say is that that is an untruth.

Judge Osler—It is a pity to make these charges, because they are not charges that can be substantiated.

Mr. Watson — The only excuse for my learned friend making that statement is his ignorance.

Judge Osler—It is a great pity, Mr. Watson, that statement was made. The witnesses ought to be in court. That is the duty of the petitioner. If the statements are all like what Mr. Herrington has made just now—he is not able to say anything; it is just mere suspicion.

Mr. Watson (to Mr. Cassels)— Did you mean that was an untruth by me. I want you to explain that.

Mr. Cassels—I will do so most gladly. I did not mean to say that Mr. Watson was telling an untruth, but that whoever was informing him was telling an untruth.

After hearing another charge Mr. Watson announced that he would rest his case. The Judges said they would reserve judgment on the six charges which they had not dealt with, saying that one or two cases required further consideration, and on the whole they would postpone them all.

On the cross-petition Mr. Bristol said he did not think it would be convenient to go into it, as the main organizer for the Liberal party, and the most important witness for Mr. Carscallen, Mr. George [illegible] though they had applied to Mr. Grant.

Mr. Watson replied that the chief organizer of the Liberal party, Mr Alexander Smith was present in court as a witness, and pointed to Mr. Smith, who was seated in one of the jury boxes. He left the matter of proceeding with the cross-petition or postponing it entirely in their Lordships' hands.

Judge Osler intimated that no summonses would be issued until after the disposal of the cross-petition. He was himself opposed to giving summonses pending an election trial.

The court adjourned at noon.

Arch. Campbell, M.P., Safe.

Toronto, Nov. 29.—The petition against Arch. Campbell, M. P., for West York, was dismissed at Osgoode Hall yesterday without costs by Chancellor Boyd and Judge Britton. James Baird appeared for the petitioner, T. F. Wallce, and J. H. Moss for the respondent. No particulars in the case were filed.

The petition against Avery of Addington comes up at Napanee today, and will also be dismissed.

Justices Street and Britton granted an order to add two new charges to the 113 already made against Donald Sutherland, M.P.P.-elect for South Oxford.

MR. WILLISON'S RESIGNATION.

The Evening Globe and Mr. Willison Make Statements About It.

Toronto, Nov. 29.—(Evening Globe, Nov. 28):—Mr. Willison's letter of resignation was brought before The Globe Board of Directors this morning. To remove any misapprehension caused by outside news reports, it may be definitely stated that the relations between the board and their editor-in-chief have always been, and still are, of the most cordial nature, and no conflict of authority has ever taken place, as erroneously stated.

Mr. Willison has issued the following statement: "My resolution to leave The Globe is due to a determination to enter independent journal[illegible] with The Globe during [illegible] of my editorship have been agreeable and harmonious, and, [illegible] as I know, I leave the paper on the best of terms with the board and the staff. In entering the field of [illegible] journalism, I will be associated only [illegible] J. S. Flavelle. He will supply the capital, and all the [illegible] new venture. No money will come from any other source. It is my distinct and clearly expressed understanding that the paper to be acquired or established shall not be the organ of any political party, but of any organized interest, and shall be absolutely independent of party business and corporate enterprises. The only objects in view are fair and frank discussion of public questions in a spirit of hostility to any party, and without regard to the rights upon any party to debate public questions only upon public grounds, to further in a sane, rational and national way all movements which seem to me calculated for the public [illegible] above all things, not to employ the paper for the promotion of the private interests of any individual or group of individuals."

VENEZUELA TO SETTLE.

Britain and Germany Will Have No Cause to Take Vigorous Action.

London, Nov. 28.—It is learned that important steps were taken in London to-day, with the view of satisfying all the financial and diplomatic claims by foreign powers and bondholders against Venezuela. It is maintained that if the contemplated action meets with approval, Germany and Great Britain will have no cause to take the vigorous steps now contemplated.

The details of the suggested settlement have not yet been communicated to the European governments. Their gist will first be made known to the United States government, probably to-morrow. The medium of such communication is one of the most important Anglo-American bankers.

It is explained that President Castro has hitherto had no opportunity of taking up the question of national finances, but, while he was himself engaged in suppressing the revolution, he sent to Europe the secret delegation referred to, with the view of accomplishing what was regarded as impossible of execution at Caracas. Secrecy was also regarded to be imperative, in view of President Castro's belief that, if it had been known that Venezuela contemplated a new financial settlement, he would have been inundated with claims of every description, and the dealings with the bondholders would have become twice as difficult.

The details of the plan which will be communicated to the State Department are carefully guarded, but the Associated Press is in a position to announce that the main features are a unification of all the outstanding government and government guaranteed loans upon a basis of security much greater than has been hitherto offered. It is strenuously denied that the present movement is due to any desire on the part of Venezuela "to spar for time" with Great Britain and Germany, and, in proof of this, it is pointed out that the secret mission left Venezuela before her relations with Great Britain and Germany had assumed the present acute aspect.

SUSPENDED THROUGH DISORDER.

German Reichstag the Scene of an Unprecedented Occurrence.

Berlin, Nov. 29.—There were stormy times again yesterday in the Reichstag. After a quiet afternoon Dr. Bachem, Centre Party, took the tribune and threatened the Socialists with more strenuous parliamentary measures, whereupon the Socialist members rushed forward as if intending to storm the tribune, and President Von Ballestrom put on his hat and left the chair, suspending the sitting. The session was resumed later. It is an unprecedented occurrence for the Reichstag to suspend a sitting owing to disorder.

The compromise on the tariff bill is, according to the Germania, generally accepted as correct, and is as follows: Minimum duty on malting barley is raised to $1. The minimum duty on cattle and meat is abandoned under conditions to be hereafter announced, and certain duties on manufactures reduced. The motion of the members of the Centre Party, applying the surpluses derived from the duties on foodstuffs to the insurance fund for widows and orphans, and the abolition of the urban Octroi duties were agreed to. Apart from these the most noteworthy point is that the increases in duties decided on by the Tariff Committee shall be the basis of the next general tariff.

Dean Tremch's Clever Snub.

Dean Trench's clever snub to an impudent young subaltern deserved high rank as a piece of repartee. The youngster had asked the dean what was the difference between a dean and a donkey. To which the reply was that while one had a cross on his back the other wore it on his breast. "And what," returned the dean, "is the difference between a subaltern and a donkey?" "I don't know," was the response. "Nor do I," was the dean's prompt reply, as he turned away.

Struck Broken Rail.

Indianapolis, Ind., Nov. 29.—The St. Louis flyer on the Big Four was wrecked early yesterday on a high embankment, one-half mile west of Avon. Three passengers were seriously injured, and a dozen or more were slightly hurt, but none fatally. The train was running at high speed and struck a broken rail.

No Wireless to the King.

Sydney, Nova Scotia, Nov. 29. — Arthur Guise, private secretary to Lord Minto, Governor-General of Canada, in response to an inquiry as to the truth of a despatch published stating that it had been announced in the British House of Commons that a wireless message was about to be sent from Lord Minto to the King and Postmaster-General of England, when from Montreal, where the Governor-General is now stay[illegible]

BIG FIRE AT NORMAN.

Rat Portage Lumber Company's Mill Wiped Out.

LUMBER AND VESSELS BURN[illegible]

Twenty-Five Million Feet of Lumber Up in Smoke—Six Steamers, Including the Presbyterian Supplier Into Mission Boat, Burned—Eleven Dwellings and a Stable Also a Total Loss.

Rat Portage, Nov. 29.—[illegible] disastrous conflagration that [illegible] or visited this district [illegible] started about 8.30 yesterday morning in the Rat Portage Lumber Co.'s lumber-yard, No. 4, [illegible] and was aided by a stiff wind from the southeast.

The fire started from a spark being blown into a pile of cedar behind the planing mill, and, fanned up by the wind, soon got into the lumber piles, and beyond the control of the fire appliances.

There have been burnt 25 million feet of lumber, Lemay's shipyard, six steam boats, two barges, eleven dwellings, one stable.

Steamer Rambler was hauled up on the slip for the winter, and would have been burned had not Capt. Kendal hitched a line to her propeller and with her sister boat, the Clipper, pulled her back into the water with her cabin burning, which was soon extinguished with the Clipper's hose.

The boats burned were: Daystar, belonging to Presbyterian Indian Mission, valued at $400; Phantom, owned by Capt. Lewis, valued at $2,000; Kenina, owned by L. R. MacKay, valued at $8,000; Spicer, owned by B. Knight, valued at $6,000; Pearl, owned by Gardiner & Co., valued at $700; Midge, owned by Dominion Fish Co., valued at $500. No insurance on steam boats.

Lemay's house and shipyard are a total loss. Insured in the Hartford Insurance Co.

The other buildings consumed were: L. Demarias, loss $2,000; H. H. Snider, occupied by J. E. Arbuckle, loss $1,000; E. L. Hourez, $700; S. Lavary's, $200. Balance were vacant houses. Insurance small.

The Lumber Company's insurance is said to be from eight to ten dollars per thousand.

LINTON'S BANK AFFAIR AGAIN

Assets Transferred to a Board of Seven Trustees.

Creditors of Jas. Linton & Co. may Receive More Money.

Lakefield News: The affairs of Messrs. James Linton & Co., [illegible] bankers are being brought into shape, and in a short time the creditors may expect another dividend. Mr. Linton has transferred his assets into the hands of seven trustees, viz., Messrs. W. H. Osborne, A. E. Kennedy, W. Young, W. J. Bullock, I. Church and W. Shorts, subject to the approval of the creditors, in consideration of their giving him a release from all further obligations. In the event of the creditors accepting the proposition, Mr. Linton's family agree to abandon claims which they have against the estate amounting to about $1200. A general meeting of the creditors is called for Friday, December 5th, at 2 o'clock p.m., in the town hall, when this proposition will be submitted to them. If this arrangement is consented to by the creditors, a dividend will at once be declared of 20 cents on the dollar. It is expected that the balance of the assets will realize a dividend of about 15 cents on the dollar. We understand that the Traders' Bank is advancing money on the assets, and are doing all in their power to help Mr. Linton in his efforts to satisfy his creditors.

HIS HAND WAS CRUSHED.

An Accident in the Township of Dummer.

A few days ago Mr. William Crowe of Dummer, met with a severe accident. He caught his hand in the carrier chain of a threshing machine at which he was working, and two of his fingers were badly crushed. Dr. J. E. Fraser amputated the injured members.

A PLEASANT EVENING.

Members of St. Luke's Choir Entertained.

Last night a very pleasant and social evening was spent at St. Luke's Rectory, when Rev. Mr. and Mrs. E. A. Langfeldt and Mr. and Mrs. R. B. Rogers, entertained the members of St. Luke's choir. The evening was spent in games and music, and refreshments were served at the close.

Choir practice will be held to-night at 8. The Christmas music is to be practiced, therefore a full attendance is requested.

SUNLIGHT SOAP REDUCES EXPENSE

$5,000 Reward will be paid by [illegible] Limited, Toronto, [illegible]

Free Medical Advice to Women.

All Letters Are Strictly Confidential

Every sick and ailing woman,
Every young girl who suffers quietly,
Every woman who is approaching maternity,
Every woman who feels that life is a burden,
Every woman who has tried all other means to regain health without success
Every woman who is going through that critical time — the change of life — is invited to write to Mrs. Pinkham, Lynn, Mass., in regard to her troubles, and the most expert advice telling exactly how to obtain a CURE will be sent absolutely free of cost.

The one thing that qualifies a person to give advice on any subject is experience — experience creates knowledge.

No other person has so wide an experience with female ills nor such a record of success as Mrs. Pinkham has had.

Over a hundred thousand cases come before her each year. Some personally, others by mail. And this has been going on for twenty years, day after day, and day after day.

Twenty years of constant success — think of the knowledge thus gained! Surely women are wise in seeking advice from a woman with such an experience, especially, when it is free.

Mrs. Hayes, of Boston, wrote to Mrs. Pinkham when she was in great trouble. Her letter shows the result. There are actually thousands of such letters in Mrs. Pinkham's possession.

"DEAR MRS. PINKHAM:—I have been under doctors' treatment for female troubles for some time, but without any relief. They now tell me I have a fibroid tumor. I cannot sit down without great pain, and the soreness extends up my spine. I have bearing down pains both back and front. My abdomen is swollen, I cannot wear my clothes with any comfort. Womb is dreadfully swollen, and I have had flowing spells for three years. My appetite is not good. I cannot walk or be on my feet for any length of time.

"The symptoms of Fibroid Tumor, given in your little book, accurately describe my case, so I write to you for advice."—MRS. E. F. HAYES, 253 Dudley St. (Boston), Roxbury, Mass.

"DEAR MRS. PINKHAM:—I wrote to you describing my symptoms, and asked your advice. You replied, and I followed all your directions carefully for several months, and to-day I am a well woman.

"The use of **Lydia E. Pinkham's Vegetable Compound**, together with your advice, carefully followed, entirely expelled the tumor, and strengthened the whole system. I can walk miles now.

"Your Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors, or any female trouble, to write you for advice, and give it a faithful trial."—MRS. E. F. HAYES, 253 Dudley St. (Boston), Roxbury, Mass.

Mrs. Hayes will gladly answer any and all letters that may be addressed to her asking about her illness, and how Mrs. Pinkham helped her.

$5000 FORFEIT if we cannot forthwith produce the original letter and signature of above testimonial, which will prove its absolute genuineness.
Lydia E. Pinkham Medicine Co., Lynn, Mass.

SATURDAY, NOVEMBER 29, 1902.

"MY LITTLE ONES."

If there is one public charity more than another which appeals strongly to public sympathy and support it is the Sick Children's Hospital, Toronto. Those who know of the beneficient work this grand institution is doing acknowledge this, and will recognize the appeal of Mr. J. Ross Robertson, chairman of the Trust, for contributions to the funds necessary for the hospital to exercise to as full a degree as possible its pain relieving and health restoring functions. Mr. Robertson is in one sense the father and founder of this splendid charity. His heart is in the work and he has earned a name for charity in action that is nobler than the reputations founded upon slaughter and achievement in the accursed field of war. He has used his means liberally and has personally, hundreds of good deeds to his credit. The work of the Sick Children's Hospital has assumed a large importance and in addition to the thousands of children of squalid homes, crippled, diseased, neglected and suffering, which have been treated in the hospital, there are thousands more ripe for reception, and funds are needed to help and continue the work. For in this hospital the poor and the suffering are treated, with as great care, with as much refinement of skill in medication, surgery and nursing as the children of the highest in the land. Every means required to restore them to health and strength is employed. It goes without saying that funds beyond the resources of any individual are required, and in view of the noble work this hospital is doing in view of the suffering it relieves, which would otherwise be unrelieved, [illegible] for [illegible] the text of Mr. Robertson's [illegible] eloquent appeal on behalf of the Hospital for Sick Children and the Lakeside Home for Little Children, which is as follows:—

"It is for the sake of the little children that I venture this appeal to the good hearts of the friends of the Hospital for Sick Children.

"You will never know, you cannot know how much of good, how much of mercy your money means to the sick and suffering boys and girls whose sore need cries to the Hospital for the help which it could not give, if there were no true friends who could be reached by these words.

"Think of the little hands stretched out for help, the anguish of the white, drawn, childish faces, the crippled limbs, the tortured lives of the helpless children—all these are miseries in the growing and heavy burden of the Hospital's daily, yea, hourly, duty.

"The needs of the sick and crippled children must be relieved. The Hospital cannot close its ears to the cry of suffering childhood in every part of the Province. These needs cannot be shirked, for the Hospital ministers to the little ones who have no other friend this side of Heaven, and appeals to you for the money which saves and brightens the little lives and straightens the crippled limbs of children.

"Misery, deformity, disease and suffering among little children are unceasing in their appeals to the Hospital for help and strength and healing. Day after day, night after night it listens to the eloquence of human misery pleading for the help, the life, the happiness which your money can give.

"Once a year the Hospital must appeal in the feeble words of human language to the friends whose money has proved a friend in need to many a sick and ailing child. It transmutes your money into mercy for thousands of children every year.

"The Hospital's need of money is measured by the children's need of help, and you can judge how great that need must be when nearly eight hundred children, representing homes in every part of Ontario, were treated within our walls last year."

Yours sincerely,
J. ROSS ROBERTSON,
Chairman of the Trust.

Canadian Soldier Retired.

A well-known soldier and Canadian has just returned from active work abroad. This is Major Sir Henry Elliott, K.C.M.G., C.B., who is a son of Major Elliott, for many years collector of customs at Windsor, Ont. Sir Henry was born in Perth, Ontario, and served in the Crimean war, commanding a company in the attack upon Sebastopol. He had attained the rank of major in the Royal Marines when he went to South Africa for his health, where he has been for the last twenty-five years in the service of the Cape Colony Government as commander-in-chief and magistrate of the Transkai territories adjoining the Orange River Colony. He has resigned recently and is living in retirement at Durban, Natal.

Down from cattails is, some persons claim, excellent for filling cushions, because no insects infest it and it does not gather mold or dampness.

6 Th[illegible] ... this specimen is on every box of the genuine Laxative Bromo-Quinine ...

MATTERS MILITARY

BY SENTRY.

An Imperial army order received at Ottawa recently says that a medal is to be awarded to officers of the British mercantile marine serving in chartered troop transports in recognition of the extreme efficiency with which the trooping service has been performed in the recent South African and China Wars. The medal is also to be granted in future wars to officers of the mercantile marine serving in troop transports, whenever a war medal may have been granted to the troops engaged. The new order will apply to the officers of the transports which carried the Canadians to the Cape.

* * * *

Upon the abandonment of the special service battalion, raised to do garrison duty at Halifax during the war in South Africa, it was the expectation of many of the officers that they would be able to obtain commissions in the Imperial regiment sent over from England to take the place of the Canadians. It appears, however, that in this they are to be disappointed, as an order issued from the Militia department says that 'applications from officers of the Canadian militia for commissions in the Fifth Royal Garrison Regiment, stationed at Halifax, cannot be entertained, the establishment of the officers being complete.'

* * * *

A despatch has been received at Ottawa from Right Hon. Joseph Chamberlain, which makes it plain that the 3rd, 4th, 5th, and 8th Regiments of Canadian Mounted Rifles will not be given the South African or the special war gratuity. It says that the Secretary of State for War has decided that no relaxation of the date limiting the grant of the medal or gratuity can be made, and that this rule is applied equally to Imperial and Colonial troops.

* * * *

Commenting on the attitude of the colonies towards the Imperial defence question, the Army and Navy Journal of New York, has the following:—"There is a lack of harmony among the British colonies respecting the ambitious scheme of Imperial defence which is rather significant. In Australia, for instance, where a measure is under consideration, which pledges the Australians to contribute $1,000,000 annually for ten years to the support of the British navy, a considerable party has grown up which holds that if Australia can afford such an expenditure, she should use it in building an up-to-date navy of her own. Canada, on the other hand, takes just the opposite position, and when the British Navy League appealed some time ago to the Montreal Chamber of Commerce to endorse the formation of a branch league in the Dominion, the reply was a flat refusal, the explanation being that Canada has no fear of foreign invasion and wants no navy. That two of Great Britain's most important colonies should manifest such marked indifference to the naval policy of the Empire does not necessarily imply anything approaching disloyalty to the Crown, but it shows rather that the colonies are becoming more and more disposed to look out for themselves first and Imperial enterprises afterward."

* * * *

A Toronto Evening Telegram's special London cable says that Major-General O'Grady-Haly, former general officer commanding the Canadian Militia, to-day gave evidence before the War Commission concerning the raising, equipment and despatch of Canadian soldiers to South Africa. He also referred to suggestions that had been made for the improvement of the military service in Canada.

* * * *

The Minister of Militia has decided to have one man from each military district take a three months' gymnastic course at the Royal Military College to qualify as gymnastic instructor for the troops of the district.

* * * *

It is always a matter of pride to Canadians to see that the ground in which the heroes and prominent military men are buried, taken care of. The military burial grounds in Montreal, which contain the bodies of many men prominent in Canadian history, have fallen a little into decay, but will now be improved. The Montreal Daily Witness says:—"The military burial ground, all old soldiers will be glad to know, is in much more orderly condition than it has been for many a day. This, of course, would not be considered great praise, except by comparison, with the disgraceful condition into which it had lapsed for so many years, without a caretaker. There could yet be great improvement; there could be repairing of some of the stones and railings, but it is pleasant to see that the grave of Lieut. Weir, murdered near St. Denis during the rebellion of 1837, is neatly cleared of cobwebs and rubbish. The grave of Lieut.-Gen. D'Urban, G.C.B., which is very conspicuous, is another that has been well looked after, while that of Lieut.-Col. Lavicount and his two sons and the grave of Col. Mackenzie Fraser, Q.M.G., who died on October 29th, 1848, are only fairly well in order.

THE AVERAGE MAN.

Thoughts Inspired by Viewing a Mammoth Squash the Other Day.

On exhibition in the north window of The Star business office is the heaviest squash grown in Canada this season, writes Charles F. Raymond, of that Toronto paper. It tips the scales at 301 pounds, and is a monster. The vegetable came from the ground of W. O. Wilcox, Brussels, Huron County. Because it is a squash, they call it a mammoth. If it were a man, he would be dubbed a genius, and his photograph would be in the papers. It is dollars to doughnuts that when Mr. Wilson dropped in that seed, he didn't expect 301 pounds of squash to result, and it is more dollars to more doughnuts that Mr. Wilson will not raise another squash like this in 20 years, so he falls back on the average plant to help him out in making a success of the yield. Genius is all right, but, after all, it is not so much as it first appears. Genius merely emphasizes the worth of the average.

There was much envying in that squash bed of Mr. Wilson's and when the monster grew to be a hundred, the little fellows turned their light upon him, and found fault with his shape, and when he reached two hundred pounds, the Canada bets that he had a hollow chest, and when he reached the three hundred mark, they were sure that he stood on with the sun, and that his roots were in better earth than their's, that they did this without reason. They were the salt of the earth themselves and not the mammoth that to-day is looking out of The Star window on Yonge street.

A friend, ex-Warden Lyons of Peel County, raised a few extra long sheets of corn of the regular jackand-the-beanstalk variety on his farm at Terra Cotta, but he doesn't depend on the big fellows for his fodder for the average stalk is what he feeds his cattle on.

There is a chap in Toronto who is a rip snorter on addition, and can go up two columns at once, but the bookkeeping that is done in most offices is done by the single column fellows, the ordinary chaps who wear a "Don't bother me, I'm adding," look on their faces.

Harry Williams, a hen fancier friend of mine who lives out near Davisville, says that it isn't the hen that lays the big, double-yolked egg once in her life and then quits for a while that is the most satisfactory bird, but the one that lays an egg a day of fair average size. The other hen may cackle louder at the time, but the satisfactory one cackles oftener. It is the average horse that pulls the load, and it is the average cow that supplies Toronto with milk, and it is the average man that makes up the bone and sinew of this city, of Ontario, and of the Dominion. There is no disgrace in being a good average.

So, as I looked at the monster squash I said to myself, "Well, if we had to digest a hundredth of your size, it would be a long time before we would have many pies."

Eleven pumas and 16,000 deer killed is the record of the hunting season in the Adirondacks for 1902.

KIDNEY TROUBLE.

A Disease That Often Terminates Fatally.

Mr. L. Lussier, of Sorel, Tells how he Overcame the Trouble After Repeated Failures.

There is no trouble more dangerous to life than disease of the kidneys, for the reason that before any special symptoms have made themselves manifest, the disease has usually assumed a formidable character. The symptoms that first manifest themselves are usually weakness in the small of the back, pains in the region of the loins. The urine is sometimes highly coloured, while in other cases it is extremely pale, frequently depositing a sediment. As the trouble progresses these symptoms grow more severe, and frequently terminate in dropsy, Bright's disease or diabetes. Dr. Williams' Pink Pills are a specific for all kidney troubles, and have cured many cases after all other medicines have failed. Mr. L. Lussier, a well known navigator of Sorel, Que., gives his experience for the benefit of other sufferers. He says: "For several years I suffered very much from kidney trouble. The symptoms usually made themselves manifest by severe pains in the back and kidneys, and sometimes they would be so bad that I would be confined to my bed for several days at a time. I tried a number of different medicines, recommended for the trouble, but got no relief, and finally became so discouraged that I thought a cure was impossible, and stopped taking medicine. Shortly after this I read in our local paper of a case of kidney trouble cured by the use of Dr. Williams' Pink Pills, and this induced me to try this medicine. I soon felt that these pills were not like the other medicines I had been taking, for in the course of a few weeks I began to experience great relief. I continued taking the pills for a couple of months, by which time all symptoms of the trouble had disappeared, and I have not since had the slightest return of the disease. These pills also strengthened me in other ways and I believe them to be the best of all medicines."

Dr. Williams' Pink Pills enrich and nourish the blood and strengthen the nerves. It is thus that they cure such troubles as dyspepsia, kidney ailments, rheumatism, partial paralysis, heart troubles, St. Vitus' dance and the ailments that make the lives of so many women a source of misery. Do not take any pills without the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around the box. Sold by all medicine dealers or sent post paid at 50 cents a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Bertha Gets a Factory.

Essen, Prussia, Nov. 29.—The late Herr Krupp's will leaves the factory to his eldest daughter, Bertha, to be administered by his widow until the daughter attains her majority. Besides the $750,000 given for the benefit of the employes, Frau Krupp, in behalf of Fraulein Bertha, has given $250,000, to be devoted to the improvement of Essen.

Grandest and Proudest Day in Our History

DECEMBER 4th, 1902.

ONTARIO'S CHARTER OF EMANCIPATION

Freedom From a Most Cruel Slavery.

LIBERTY—HAPPINESS—PROSPERITY.

Joys of home, wife and children given to 10,268 suffering in the cells in this Province, and sound mind and bodies to thousands more in the asylums, reformatories and hospitals.

What a freedom from heavy taxation to support all this—all these kept in cruel and bitter bondage by our licensed bar-rooms. To stay at home will be to give the benefit and support to the liquor traffic.

Let every man get out and vote in favour of the Liquor Act on **Dec. 4th** and

SAVE THE BOYS.

This is your opportunity—don't let it pass.

Don't listen to appeals of men or agents who spend their days in sucking the character, life and virtue out of your fellowmen.

Don't be misled by the foolish arguments of men who make their money out of the degradation of men and women and the destruction of home.

Don't be led astray, even by the opinions of priest or prophet who, through strong drink, errs in vision and stumbles in judgment.

212,723 Votes are Required to Carry the Act.

Vote for the Liquor Act of 1902, which closes the bar-rooms and will save the boys. Mark your ballot thus—

Are You in Favour of the Liquor Act of 1902?	YES X	NO

Which means that you are in favour of this Act which proposes to banish the bar-rooms.

See your duty to your God, to your Province, your family and its future—then do the right on December 4th.

Do not be frightened into doing injury to your conscience and to the lives of your fellow citizens by cries of compensation, for the drunkard makers will have till May, 1904, to sell off their poison and get into better employment. There will be no compensation.

STRUCK OIL

MR. LeBRUN has returned after a successful visit to the wholesale houses, where he secured large quantities of New Goods from manufacturers who were stock-taking and cleared out their winter lines to him at Half.

WORTH DOUBLE!

The following are a few of the lucky snaps which Mr. LeBrun picked up:

	WORTH DOUBLE
Heavy Wedding Socks	10c. 15c
Fine Heather Mixed Socks	15c. 25c
Fine Cashmere Socks to Clear	15c. 25c
All-Wool Heavy Undershirts	25c. 40c. 50c
Heavy Working Pants	90c, $1.00, $1.25, $1.50
Fine Tweed and Worsted Pants	$1.50, $1.75, $2.00, $2.50
Holiday Neckwear only	15c. 25c
Heavy Wool Underwear	50c. 75c 85c
Fleece Lined Underwear	25c, 35c, 50c

ALL WORTH DOUBLE.

Opportunities like these come only to customers of a store whose ambition is to give you all the price advantages coming to itself.

SUITS AND OVERCOATS ABOUT HALF.

Special Value in Tweed Suits at ... $4.50, $5.00
Extra Value in Beaver and Raglan Overcoats at $6.50, $7.50, $8.50

Portland Cement

"[illegible] on a Rock"

R. J. HUGHES & CO.

[illegible] Street, Peterboro, Ont.

One Penny

Will Aid a Sick Friend. Will You Spend It?

Write me to-day. Just tell me who needs help. Tell me the best [illegible] trifle if your part—all the rest is mine. Write it to-day.

I will [illegible]—I will mail the sick one an Order good at any drug store—for six bottles Dr. Shoop's Restorative. They may take it a month at my risk. If it succeeds, the [illegible] will pay the druggist myself. And the sick one's mere word shall decide it.

Could I meet you I would forever convince you that I have what these sick ones need. More than that, they must have it, for most of them can never get well without it. I would overwhelm you with evidence.

But I can meet only a few, so I say to all who need help—"Try my Restorative one month at my risk. Learn by a test just what it can do. If it succeeds, you are well. If it fails, it is free." I know that no sick one can neglect an offer like that.

I fail sometimes, but not often. In rare cases, there is a cause—like cancer—which medicine cannot cure. But I have furnished my Restorative to hundreds of thousands of these cases, and 80 out of each 100 have gladly paid, because they got well. I am willing to trust the sick ones to be fair with me.

It is a remarkable remedy that can stand a test like that. It is my discovery, and I spent a lifetime on it. My Restorative is the only remedy that strengthens the inside nerves. Those nerves alone operate every vital organ of the body. When an organ is weak it means that its nerve power is weak. It is like an engine that needs more steam. To doctor the organ is useless. The weak organ will do its duty when given the power to act and no other way can cure it.

My success comes from the fact that my remedy always restores that nerve power. My book will explain it. Please write me to-day who needs it.

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wis.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, not chronic, are often cured by one or two bottles. Dr. Shoop's Restorative is sold by all druggists.

DR. JOSEPH PARKER DEAD.

Minister of the City Temple of London Has Passed Away.

London, Nov. 29.—Dr. Joseph Parker, minister of the City Temple, who had been seriously ill for some time past, died yesterday afternoon.

The eminent divine had been ill only two weeks at his home, 14 Lyndhurst Gardens, Hampstead, N. W. At first some hopes for his recovery were entertained, but a few days ago dropsy set in and all chance of his rallying was gone.

For more than thirty years Dr. Parker had held the pastorate of the City Temple. The vigor and eloquence of his utterances had made him honored and far-famed, and he had never hesitated in his sermons to criticise the highest in the land. At times his censure had been directed even at the reigning sovereign.

During the preliminaries for the coronation that was delayed by King Edward's illness Dr. Parker created a sensation by his condemnation of the extravagance and pomp that marked the preparations. On other occasions his powerful voice had been raised in denunciations of national errors or wrongs.

The divine, who was 72 years old, was a native of Hexham-on-Tyne. Previous to his pastorate at the City Temple he was in charge at Banbury, Oxford, and at Cavendish Chapel, Manchester. He stood high in the London and National Congregational Unions.

Among his published works are "Ecce Deus," "The Paraclete," "The People's Bible," "Well Begun," "A Preacher's Life," "None Like It," "Christian Profiles in a Pagan Mirror," and many others.

Killed by a Freight.

Halifax, Nov. 29.—Daniel H. McDonald, an I.C.R. brakeman, was instantly killed by a freight train at Sydney yesterday. He fell between the moving cars, and his body was frightfully mangled. He was 26 years of age and unmarried.

SHOT AT HIS PURSUER.

Galt Constable Arrests William Pepper After an Exciting Chase.

Galt, Nov. 29.—Two burglary suspects were sighted on Samuelson street, in the outskirts of the town, about 6 o'clock yesterday morning. On being challenged by Policeman Gorman they immediately took to their heels, going in the direction of Hespeler. Gorman and Special Constable Thomas Caldwell sprinted after them. Caldwell, who was unarmed, outran one of the men, who turned and fired twice at his pursuer, but Caldwell grappled with the highwayman and overpowered him after a short struggle.

In the meantime his companion, who is said to be none other than the well-known "Foxy Smith," and who has given the police many hot chases and as many slips, got away, as usual. The prisoner, who gives his name as William Pepper, aged 18, occupation painter, and residence Stratford, was charged before the police magistrate yesterday afternoon with shooting with intent to kill, and was remanded until this morning.

Your Opportunity to Get Well.

You are offered Dr. Chase's Nerve Food as the most perfect restorative, blood creator and system builder that was ever prepared. The name of the discoverer, Dr. A. W. Chase, is enough to guarantee this, and besides you have the testimony of scores and hundreds of cured ones in every part of Canada and the United States. You can use it knowing that it is bound to do you good.

Killed by a Bridge.

Kingston, Nov. 29. — Yesterday morning Frederick Days, a brakeman on the Kingston and Pembroke Railway, was struck by an overhead bridge at Colton Mill and instantly killed. Missing him and starting a search the train hands found him extended lifeless on the top of a car.

AN IMPORTANT ORDER

British Authorities Close Ports to United States Cattle.

TO STAMP OUT CATTLE DISEASE

Vigorous Methods Adopted in the New England States—Ravine Will Be Mostly, But the Safety of the Herds in the U.S. Demanded This Radical Action — Canada's Action.

London, Nov. 29.—The Board of Agriculture has closed the ports of the United Kingdom against the importation of animals from Maine, Massachusetts, Connecticut and Rhode Island. The order takes effect Dec. 5. Cargoes arriving in the meanwhile will be the subject of special investigation.

The announcement that the United States Department of Agriculture had given notice of the establishment of a quarantine of cattle and sheep, etc., in the New England States, and prohibition of the exportation of such animals from Boston until further orders, caused excitement in Liverpool.

The Mersey Dock Board derives a large revenue from the slaughter of Boston cattle at Birkenhead. Manager Lathages of the board says the restrictions will have far reaching consequences, and that possibly the cargoes of cattle now on their way to Liverpool from Boston will be quarantined.

The exclusion of American cattle has caused a feeling almost amounting to consternation in the shipping and meat trades. Fears are expressed that the interdiction may be extended to imports from other United States ports which would result in a great rise in the price of meats, as only a few steamers have large refrigerator spaces for dead meat. The Board of Agriculture is exercising the utmost precautions. The steamer Sachem, which arrived in the Mersey from Boston yesterday with a cargo of cattle and sheep, was not allowed to discharge. The animals were all scrutinized by experts, and no disease was found among them, but they will all be re-examined after an interval of 48 hours.

U.S. CABINET RUST

Secretary Wilson Believes Disease Has Been Concealed For Some Time.

Washington, Nov. 29.—At the Cabinet meeting yesterday Secretary Wilson discussed the measures he has taken to suppress the epidemic of foot and mouth disease among live stock in New England. From such information as he has obtained, he believes that the disease has existed in that section for some time, but has been concealed. Every effort will be made to stamp it out. The quarantine measures taken Thursday, it is thought, will prove effective to prevent the spread of the disease to other states. Dr. Salmon, chief of the Bureau of Animal Industry, will be sent to New England at once.

Quarantine in New England.

Boston, Nov. 29.—The cattle bureau of the State Board of Agriculture has received about 100 individual reports up to date of the presence of the foot and mouth contagion which has caused the Secretary of Agriculture to prohibit the exportation of cattle from Boston, and to establish a quarantine of cattle, sheep and swine in New England.

It is admitted that the action of Secretary Wilson in closing the port of Boston to cattle shipments is a matter of great importance to transportation companies, but in view of the serious nature of the infection and the difficulty in exterminating it, the step is considered the only safe one. Concerning the highly contagious character of the disease, Dr. Austin Peters, chairman of the State Cattle Bureau, says:

"Cattle passing over the same road traversed by infected animals will contract the disease. Only the most stringent quarantine will prevent a scourge hitherto unknown in this country."

The closing of the Brighton stock yards, the principal ones in New England, by the State Board of Agriculture will cause an interruption to traffic, which, under ordinary circumstances, aggregates 500 to 700 head of cattle a day. The cattle bureau have strong hopes that the halt in business at this point will enable them to trace out the disease and materially reduce the prevalence of it.

Disinfect the Cars.

Ottawa, Nov. 29.—The serious situation in the Eastern States, caused by the outbreak of the foot and mouth disease, and the order of the Agriculture Department, Washington, prohibiting the exportation of cattle, sheep and hogs from Boston, has been taken note of by the Agricultural Department here.

Dr. Rutherford, chief veterinary inspector for the Dominion, when asked last night what was being done in the matter, said that in the absence of the Minister he was unable to go as far as he would like, but in the meantime, pending Mr. Fisher's return to the capital, instructions had been issued by the department that all stock cars entering Canada from the States shall be cleansed and disinfected at the border.

INSTRUCTIONS TO SHARRETTI.

New Apostolic Delegate to Devote Attention to School Question.

Rome, Nov. 29.—The Vatican's instructions to Mgr. Sharretti, Apostolic Delegate to Canada, recommended that he devote great attention to the school question, on the ground that the Pope spoke earnestly on the matter to Sir Wilfrid Laurier, when he received him on Sept. 9. Sir Wilfrid Laurier, on that occasion, promised the Pope that he would give the question his greatest personal thought.

SIX THOUSAND LAND GRANTS.

First Batch to the Veterans Under the 1900 Land Grant.

Toronto, Nov. 29.—There were sent out from the Crown Lands Department yesterday afternoon over six thousand certificates to veterans entitled to land grants under the act passed for that purpose in the session of 1900. Accompanying each certificate is a circular giving full information as to the mode of procedure for the selection of lots, as well as a statement showing the townships in which locations can be made, with the name of the Crown Lands agent, under whose direction each of these townships is. In reality, however, the area from which selections can be made, will be even larger than the list of townships named as, by Order-in-Council, under authority of the act, all unlocated lands that are now open for settlement anywhere in the province will be available for the veterans to select from.

The six thousand certificates sent out yesterday do not comprise all who will be entitled to land, as a good many cases in connection with which there may be some question as to whether they come within the provisions of the act have yet to be dealt with.

Many new applications are still coming in, sometimes as many as 15 or 20 a day being received. The time specified by the act in which application can be made expires on Dec. 31.

THE BRENNER SHOOTING.

Prisoner Found Guilty of Shooting Shaw—Will Be Sentenced Friday.

Toronto Junction, Nov. 29.—Police Magistrate Ester Ellis took up yesterday forenoon the case of Harry Brenner, alias Hugh Ferguson, alias Hugh Johnston, alias Mike Griffin, charged with having on November 21 shot Charles Mutart with intent to rob him. Crown Attorney Bryant conducted the prosecution. J. M. Godfrey appeared for the defence. The prisoner admitted that his right name was Harry Brenner, and his address was 265 Church street, Toronto.

He was also charged with shooting at John Shaw with intent to do grievous bodily injury. To both charges he elected to be tried summarily, and pleaded not guilty.

The evidence given was simply the story which appeared in the papers the day after the shooting, with the exception of that of the prisoner himself. He maintained that he had not shot Mutart, nor had he shot at Shaw.

The magistrate, after hearing some argument, recorded a verdict of guilty, and remanded the prisoner until Friday next for sentence.

Past a Certainty I am Cured.

Mr. James Treneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

To Regulate Libraries.

At an interview between Hon. Richard Harcourt, Dr. James Bain, Prof. Macallum and H. H. Langton, of Toronto University, the latter made a number of suggestions as to the management of the libraries in the province. Attention was drawn to the systems prevailing in other countries. A central library in the larger towns, from which the smaller libraries could be supplied, was recommended, and the appointment of a library commission, which would control the library system of the province. Hon. Mr. Harcourt was favorably impressed, and promised to give the matter careful consideration.

Big Oil Strike in Kern River, Cal

THIS is where oil property has advanced in price from $10 an acre to $5,000 an acre in two years—the richest fuel oil section in the whole world!

The Eastern Consolidated Oil Company's holdings in this tract alone should pay the present dividends, to say nothing about over 1,500 acres of choice oil lands and over 100 producing wells in Ohio!

Production has increased at one jump at the rate of nearly 25,000 bbls. of oil monthly.

Stockholders from all parts of Canada are doubling their holdings in anticipation of the almost immediate rise in price of the stock.

ACT AT ONCE

If you wish any part of the present 50c allotment of stock in the Eastern Consolidated Oil Co. you must act at once.

Write to-day for prospectus, if you have not already seen one.

Stock goes to $1.00 a share the moment present allotment is exhausted. It may come any day!

GOOD REASONS FOR GIVING THANKS.

Montreal, Canada, Nov. 28, 1902.

C. B. HEYDON & Co., Toronto, Canada.

Gentlemen—One year ago, after thoroughly sifting all the oil companies I decided to invest in Eastern Consolidated and have never had occasion to regret it. I own 4,000 shares of this stock, which has already doubled in value, and I understand will double again before January.

I have carefully watched the company's management and have been well pleased. Therefore, taking into consideration the additional fact of the big oil strike on our property in Kern River, Cal., I have decided to increase my holdings to 10,000 shares in this company, check to cover the same is enclosed.

In less than one year I have received $200 in dividends on my present holdings, which is about six times as much as I could obtain from any other safe investment in the same time. Yours Respectfully,

NOTE—This is the kind of letters we are receiving from all over the country. Stockholders are doubling their subscriptions so fast that over-subscriptions seem inevitable.

C. B. HEYDON & CO.

Rooms 401 and 402 Manning Chambers Building, 72 QUEEN STREET, WEST, Corner Queen and Toronto Streets, Court House Square, TORONTO, ONT.

WHY should you invest in Eastern Consolidated Oil Co. stock NOW?

BECAUSE of the absolute certainty that you will DOUBLE your money within the month?

BECAUSE you can buy now at 50c a share and the price goes to $1.00 a share before New Year's.

BECAUSE this company has 100 producing oil wells and over 21,000 acres rich oil land.

This is the stock that has paid 20 per cent. in dividends on the investment, in ten months.

Why shouldn't YOU make money in a good oil stock as thousands now living in affluence have done before you?

THIS OPPORTUNITY

is one you cannot afford to let slip!

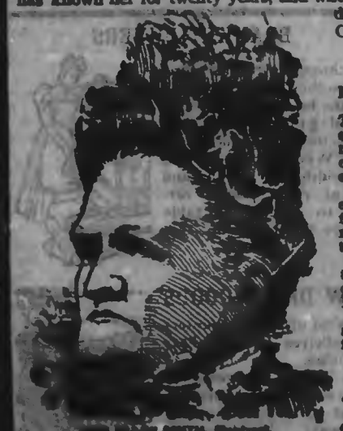
$50 invested now becomes $100 within 30 days; $200 becomes $400; $500 becomes $1,000, and so on.

No oil company whose stock is on the market can equal this record. We challenge comparison!

Are you ready to grasp this opportunity?

Eczema Cured by Ozone

Mrs. Ellen Smith of Montreal, was a fearful sufferer from eczema for many years. She was tortured so severely at times she contemplated putting an end to her existence. Thanks to Powley's Liquified Ozone, she did not do so because it cured her completely and for all time. She is a great believer in Ozone now, and so is her pastor, the Rev. J. Frederick Renaud, who has known her for twenty years, and who is quite conversant with her cure by this drugless product. He vouches for the latter in her case and gives Ozone great praise.



Mrs. Ellen Smith Writes:

"Having been greatly benefited by Powley's Liquified Ozone, I feel it my duty to allow it to be known to the public at large.

"I had been a fearful sufferer from eczema for many years. The disease centered in both limbs, below the knees. The left especially, was swollen to alarming dimensions, while the inflammation, irritation, and hard, scaly condition, induced a degree of suffering which only the mercy of God prevented me from ending in suicide.

"I spent the best of three years on my back, besides different periods in three hospitals. Then at home I could not go as far as the next room without the aid of crutches, and altogether my case was considered past help, for I had had the best skill in the country to no purpose.

"I have now used five bottles of Ozone, and I rejoice to say that both limbs are reduced to their normal size, the burning is entirely gone, and I can walk alone with perfect ease, although I am now sixty years of age.

"The Ozone also cured an advanced stage of liver disorder, and I am willing at all times to tell my experience to other sufferers.

(Signed) MRS. ELLEN SMITH,
21 St. Andre Street, Montreal.

The Rev. J. Frederick Renaud's Corroboration.

"To Whom it May Concern:

"I beg to state that I have known Ellen Smith for over twenty years, and for the past nine years she had suffered from eczema, but was unable to obtain any permanent relief until she tried Powley's Liquified Ozone, to the [illegible] effect of which she bears most grateful testimony."

(Signed) Rev. J. Frederick Renaud, 28 St. Herbert Street, Montreal, P. Q.

There is no other way of proving the value of a preparation, so valuable, so positive, than by investigating the statements made about it and finding out if the facts are just as they are represented. We always [illegible] investigation of the claims we make for Ozone, and to widen the scope of such an undertaking by you, we suggest that you make enquiries of your druggist. Oftentimes cases come under his notice that he can refer you to. As these cases may not have had our attention, you will get an absolutely unbiased opinion of this great drugless preparation—Powley's Liquified Ozone.

Tickets, 25c, reserved seats 35c. Plan of hall at Lynch's drug store.

NEWS NUGGETS.

—Additional local news on first page.

—Chief Boswell has two shop door keys for which he would like owners. One has dog tag attached.

—The Jordan Bros. are making especial preparations to supply their customers with flowers for the Rugby dance.

—This year's Rugby dance promises to be the most successful in the history of the Club. No expense is being spared to make it worthy of the championship team.

—Mr. Chas. Maitland, representing Heintzman & Co., of Toronto, will be in Peterborough on December 1st, and will remain a week. He will be pleased to tune or repair any person's organ or piano. Leave orders at C. B. Routley's store.

—The Young Men's Guild of St. Andrew's Presbyterian church will hold their regular meeting on Tuesday, Dec. 2nd. A full attendance is requested. A very interesting debate will be the feature of the evening.

—Anyone who is seeking a trustworthy and efficient executor and trustee to appoint in a will cannot do better than name The Trusts and Guarantee Company, Limited, Toronto, whose business standing and experience in the handling of estates and estates moneys insures satisfactory results. Will forms and suggestions will be forwarded free to those desiring information about wills.

All Saints' Church.

Rev. W. L. Armitage will preach at both services to-morrow. The subject in the morning will be "St. Andrew," and in the evening "Malachi and his age applied to the present," which will be the first of a series on the Book of Malachi.

Special Service at St. Andrew's.

The services at St. Andrew's church to-morrow should prove most helpful. The pastor, Rev. J. G. Potter, will occupy the pulpit in the morning, and Rev. E. D. MacLaren, D.D., of Vancouver, one of the most prominent men in the Presbyterian Church, in the evening.

St. Paul's Church.

Rev. E. D. McLaren, D.D., formerly of Vancouver, B.C., has recently appointed to succeed Dr. Robertson, as Superintendent of Presbyterian Missions in the Northwest, will preach in St. Paul's Presbyterian church tomorrow morning.

Murray Street Baptist Church.

In the Murray street Baptist church, to-morrow, Rev. Mr. Bastow will preach in the morning on "Searching the Scriptures," and in the evening will deal with "Our duty with regard to the coming referendum."

Closing Campaign Rally Dec. 3rd.

Arrangements have been made for a large temperance meeting in the interests of the Ontario Liquor Act, to be held in Bradburn's opera house, on Wednesday night next, December 3rd, at 8 o'clock. It will be an exceedingly interesting meeting, and public speakers will give undivided attention to the explanation and defence of the Ontario Liquor Act. Keep this date open, Wednesday, December 3rd.

OPERA HOUSE TO-NIGHT.

One Night Only

"UNCLE TOM'S CABIN."

Prices 15c, 25c and 35c.

FIRST REAL WINTER WEATHER.

The Thermometer Spent a Very Cold Night.

Last night was the coldest we have experienced as yet this winter. The thermometer registered 12° above zero during the night, but upwards somewhat moderated considerably, and stood at 15 above. The corresponding week of last year was very similar to this. Hicks, the St. Louis weather "prophet," in his almanac for 1902, says that North America would have one first snowfall on Nov. 27th, and that the snow would remain with us until the spring of 1903. Will he be right?

STUDY MUNICIPAL COUNCILS.

Young Men of George Street Guild Hold a "Mock Council.

Last night the Young Men's Guild of the George street Methodist church held an interesting and well-attended meeting, the chief attraction of which was the "Mock Town Council Meeting." No hit was intended at any special town councillor but it was merely used as the means for educational purposes.

The first business of the council was the hearing of communications and petitions. These were all received and referred to the proper committees. A number of accounts were then read and all ordered to be paid with the exception of one, which was laid over in order that further particulars might be gathered.

Next the Municipal coal and wood yard was dealt with. The question thoroughly discussed and a number of telling speeches were made.

Then a bylaw was introduced, the purpose of which was to bonus the Mansfield Manufacturing Company. The procedure of the regular council was followed in dealing with it. First the bill was read in council, then read a second time by the council as a committee of the whole. Then it was moved that the committee rise and report the bill read a second time. The bill was then read a third time, after which it was moved that the mayor and clerk sign and seal the by-law. This completed the business of the council, and it adjourned.

At the close of the Guild meeting it was decided to meet on the third Tuesday of each month, instead of as heretofore.

SOCIAL AND PERSONAL.

Miss Jennie Isbister is spending a few days with friends in Lakefield.

Mrs. J. McCracken of Warkworth is visiting relatives in town this week.

Mr. E. A. Froom, of Port Hope, is the guest of Mr. and Mrs. S. A. Oke.

Miss Josie Phelan of Lakefield, is visiting friends in Peterborough for a few days.

Mr. O. Hartley and Mr. J. C. Kinsella, of Peterborough, were in Lindsay yesterday.

Miss Lethbridge spent Sunday in Peterborough the guest of Mrs. S. A. Oke.—Port Hope Guide.

Mrs. J. W. Madill and Dr. D. Fraser of Lakefield, were in town on Thursday of last week visiting friends.

Miss Mary McPherson of Peterborough, spent last week at Young's Point, as the guest of her aunt, Mrs. Jas. Carl.

Miss Myrle Fitzgerald, of Lakefield, spent a few days in town last week, the guest of her friend, Miss Maud Kindred.

Master E. Rathbone, of Trinity College School, was the guest of his sister, Mrs. H. Sherrin, Lakefield, last Sunday.—Port Hope Guide.

Mr. Albert Chambers, who has been a resident of town for some time past, left on Thursday to accept a position with Harry Webb, Toronto.

Miss Waller, Peterborough, who has been enjoying a few days with her friend, Mrs. Russell, John street, has returned home.—Port Hope Guide.

Mr. Chas. F. MacGill left town this morning for New York. While in the city he will attend the annual meeting of the American Society of Mechanical Engineers.

Mrs. J. C. Grant and daughter, Serauran avenue, Toronto, after spending a few days with her father, Mr. J. L. Hughes, Park Place, have returned home.

Mr. J. P. Shevlin has returned from Grafton, where he has been engaged for the last two months in painting and decorating the interior of St. Mary's Roman Catholic church.

Rev. D. O. Crossley, of Bowmanville, will come to Peterborough on Wednesday evening next to record his vote in favour of prohibition early on Thursday morning.

Mr. J. T. Tuckey, who resigned his position with Jas. A. Ogilvy & Sons, of Montreal, in June last, and who spent the summer in Peterborough and vicinity, left for Montreal a few weeks ago, where he has received an appointment in the Draperies with Henry Morgan & Co.

Y. W. C. A. Notes.

The Gospel meeting to-morrow afternoon at 4.15, will be led by Miss McPherson. There will be special music. All young women are cordially invited.

Special Notice.

Keep in mind the Bazaar in connection with the Girls' Guild of the George street Methodist church, on Thursday and Friday afternoon and evening of next week. Call at the Japanese tea room and have tea and biscuits for ten cents, or an oyster stew for fifteen cents. Candies will also be on sale.

Diaries for 1903.

Select your pocket diary now. If the one you have suits you look at the number on the first page, and get another one just like it. We invite you to call this evening and inspect our stock of books and Christmas novelties, annuals, etc. Our [illegible] and fashion [illegible] are [illegible] We will have just what is required for pretty Christmas presents. Call [illegible] George street.

The Evils of Constipation.

This dangerous condition causes sick headaches, abdominal pains, piles and in severe cases, insanity and apoplexy. The most agreeable and satisfactory remedy is Ferrozone, which makes the bowels act well, ordered that natural and healthful action is established. It is mild and certain in action and never causes distress or inconvenience, and may be taken as long as desired. Pains in the stomach, indigestion, piles, drowsiness and headaches disappear at once when Ferrozone is used. Recommended and sold by druggists. Price 50c. No pills like Dr. Hamilton's.

GENERALLY SPEAKING

WHEN THE BITING FROST comes; when the days take on a chilly glitter; when the white snow falls, when the chilling winds fiercely assail our extremities, and purse and garments alike we put on our strong threads and furs, set our storm windows, stoke the coal stove or furnace, and bid snug defiance to old Boreas and all his blasts.

WHILE MOST OF US can do this, there are others who must shiver in discomfort, in homes of scarcity and cold, which the hottest fire would not heat, so crazy and open they are, not to speak of insufficient fuel. And the inmates are as badly provided with clothing. We who sit happily at cosy fireSides, with a full coal bin or wood house, or lie snug under warm blankets—do we ever or practically think that others may at the moment be suffering, and starving, with cold and hunger? We may pray, "God pity the poor; be they clothed and fed," but God works through human instruments, and we are "our brothers' keepers."

WE CAN HELP the suffering and the destitute without the expenditure of a penny directly. We need spend only a little thought. In every home there is abundance of cast off and [illegible] clothing, garments, still warm and wearable. These are often thrown aside, stored in the attic and forgotten. There are homes where these have been known to accumulate for years, and when the owners passed away there were found bales of them, moth-eaten and worthless which might, had they been thoughtfully distributed, have given comfort and even life to scores, who for lack of them suffered and maybe were chilled into a consumptive [illegible]

LET US THINK—we are not heartless—only thoughtless. Let each of us in his or her place, think of some poor family and ransack our wardrobes and attics and send their otherwise unemployed contents to the poor. If given in the right spirit they may prove "robes of righteousness" that will be a better passport to the Kingdom of Heaven than loud professions of piety, long and loud prayers in the synagogues, and flaunted phylacteries on street corners.

IF YOUR INTEREST in the suffering of your neighbours doesn't go the length of personal distribution, hand them over to the King's Daughters, who will gladly undertake the duty of distribution. Only don't forget in your comfortable and happy homes the shivering and half clad.

THE EXPERIENCE of Montreal is that stone pavements pay the best. They have in the past built hundreds of miles of wooden walks, all very nice when new, but they have grown old. They have collected filth of all descriptions. They have rotted. They have bred disease. They have made them ashamed of the city before strangers. They have broken Montrealer's legs. They have offended their noses. They have insulted their eyes. And finally, when the limit of human endurance has been reached, the rotten remains have been removed and more new wood walk has been laid in its place. And this has in turn rotted, and broken more legs, and been replaced. The process has been repeated a good many times. It is still going on.

THIS HAS BEEN the experience of Peterborough in degree. But our City Fathers have come upon a wiser policy, and the days of the wooden sidewalk are past, as many of the walks are past service. The money which has been spent on wood walks in Peterborough for the past twenty or thirty years, would have put granolithic pavements on nearly every street. But there was no cement cheaply available for the purpose then, and we did the best we could and put down wooden walks, one after another.

NOW THAT WOOD has become as gold for cost, and as cement has become as stones for abundance, we can build to advantage walks of concrete, which, while their first cost is a little greater, have a permanence which makes them cheaper in the end.

BUT IN THE MATTER of new granolithic walks, the present council, or the incoming council, should begin their operations promptly. In the past we have begun to lay walks, put in sewers and extend the water mains at a time when the work should have been finished. Consequently, we have inferior work done in respect to sewers, we have the streets left, necessarily almost, in a rough condition for the winter. Let the council make it known that petitions for sewers or walks must be sent in in time, or they will not receive attention. Ratepayers will soon take the hint, and we should have the work done in good time, and will have our streets in better condition for the winter.

BY THE WAY, isn't it about time that the ratepayers began to concern themselves about the council for the coming year? Peterborough needs a first-class council all the time, but especially this coming year. In 1903 the electric light contract ends, and in 1903 the monopoly franchise of the Bell Telephone Company terminates. We want a strong council to deal with these two matters. The people should provide, in renewing the light contract, some means which will ensure the people value for what they pay for. It may be local and temporary conditions which are accountable for the miserable light service the people are getting at present, but a citizen, content to pay for a certain quality from the grocer, he expects to receive what he is to pay for. The contract should in some way provide for effective service.

IF THE FRANCHISE is renewed with the Telephone Company stringent precautions should be taken to ensure effective service here also. Telephone and telegraph companies enjoy absurdly liberal statutory privileges, beyond the power of municipal restriction or legislation. If they can with impunity, slash our shade trees, and disfigure our streets with poles, all the more reason that the local conditions are made as binding as possible, in the interests of the town. We hear strong complaints of the unsatisfactory nature of the telephone service. It's contrary to rules to talk "swear words" into the telephone receiver, but that does not prevent a tremendous amount of inward profanity and passion over the vexations that subscribers claim they are subjected to.

WHEN IT IS STATED that we want a good strong council next year, that is not to say that the present council does not fill the bill. There may be strength in the present board of Aldermen, but in some cases, one is tempted to think, that, in many respects, this strength is latent, and very modestly held in reserve. It is for the people to say. They pay the taxes, and they elect the Aldermen. A strong council can be elected, if men of public spirit can be induced to enter the field. The office should, as a rule, seek the man, not vice versa.

St. Lukes Church.

Bazaar in St. Paul's Church Yesterday Afternoon and Night.

Faithful Workers' Mission Band Receive Splendid Evening.

Yesterday afternoon the Faithful Worker's Mission Band of St. Paul's Church held their annual bazaar in the Sunday school room of that church.

The Mission Band is composed of the younger girls and is one of the most prosperous organizations in the church.

The tables, which were loaded with a quantity of needle work and confectionery, were presided over by the members of the circle as follows—

Work tables—Misses A. Hamilton, M. Hall and V. Hunter.

Doll table—Misses A. Mark, M. Dunne, and M. [illegible].

Candy table—Misses H. Sanderson and F. Cameron.

During the bazaar a tasty luncheon was served to the patrons by Misses L. Sanderson and M. Robertson. Take it throughout, the girls are highly pleased with the result of their efforts and desire to thereby tender their thanks for the generous patronage received.

The Guelph Winter Fair.

For the above the Grand Trunk will issue special trip tickets at single fare from points in Canada west of Kingston, good going December 7th to 12th inclusive, and valid returning until December 13th. Further particulars from agents. The Provincial Winter Fair at Guelph this year should be visited by every farmer and stockman, and by every farmer interested in the advancement of agriculture and the breeding of live stock and poultry. $7,000 are offered in prizes. The new buildings give increased facilities, both for exhibits and visitors. Daily lectures by well known and expert authorities on the different subjects will be found both instructive and interesting. The Grand Trunk Railway will issue round trip tickets at single first class fare, from stations west of Kingston, good going December 7th to 12th inclusive, and valid returning until December 13th, 1902. Further particulars from agents.

Bear in mind that we meet any cut rate on the trading offer for periodicals. Bring your lists and save all bother.—
o SAILSBURY'S.

THE TEMPERANCE PROBLEM.

The Examiner has Been Requested to Publish the Following.

The most appalling factor in the untemperate drink problem is that of alcoholic heredity; for if anything is proven regarding heredity, it is proven that alcoholic degeneration descends through the second and third, yea, the fourth generations, and there we find that by means of this poison the spiritual and mental growth of the race is impeded, while the physical powers are limited and weakened and impaired; and hence as the years roll on we get moral and spiritual inertia in increasing ratio. Surely if there is anything that ought to appeal to us, it is this fearful truth. Vote to banish this evil, for the sake of our children. The higher possibilities of the human race depend upon the proper solution of the drink problem. Will not the electors wake up and really treat this question as of supreme interest, both for Christianity and for the national welfare?

From the "Drink Problem"—"Let us hold firmly to this, that our duty is to act for and with truth, not troubling about results that lie beyond the province of human action. Obedience to duty, that is for us. What shall result? That is for God."

What will the working man have to pay for his drink? First, and always, the money which buys it; next, more or less slowly, and half unconsciously, he must pay away his health, his energy, his clearness of mind, his natural ambitions, his better hopes, his honesty, tenderness, manliness, the rights of his family, the claims of his God.

Finally the drink crave sets in and he completes the sacrifice, adding himself and his poor family to the pauper or criminal list, and his end in the grave of the drunkard.

THE BOYS SAY GOOD-BYE.

The Y. M. C. A. Will Lose two Valuable Members.

At the close of the Boys' meeting at the Y. M. C. A. yesterday afternoon, which was ably addressed by Mr. Harold Daly, both he and his brother Edwin [illegible] with [illegible] and handsomely bound hymn books, to mark the occasion of their departure for Kingston, where they will reside for the winter. Mr. Murray Miller, President of the Intermediate Department, made the presentation, and Mr. Melville Robinson, of the Boys' Department, read the address. Both of the boys responded with appropriate words.

Later in the evening the Brownie Basketball Team, of which Harold has been centre player, met in the parlour and presented him with a pair of brushes with silver monograms. Mr. W. D. Campbell made the presentation on behalf of the Brownies.

The Association will miss the Daly brothers [illegible] Harold was [illegible] member and Ed. the fifth. They have grown up in the work, and are interested in every department of the boys' branch. In the ball [illegible] Harold won the Intermediate championship and Edwin [illegible] the Junior.

Is Your Piano in Tune?

The Mason & Risch [illegible] affects pianos as well as everything else. Mr. Geo. Gumpricht, [illegible] piano tuner and tuner, with twenty-eight years experience, attends to all orders left at [illegible] Mr. [illegible] Dyer.

THE BERLIN BEET SUGAR INDUSTRY.

Factory Visited by Peterborough Delegation.

THE BUILDINGS DESCRIBED.

The Factory Buildings and Equipment Cost $600,000—Interesting Information—Regarding a new Industry in Ontario.

The deputation which left Peterborough on Thursday morning to inspect the new beet sugar factory at Berlin was a large body composed of prominent men from the Town and County. Their pilgrimage to the Western Ontario town was the result of an agitation that has been going on for some time in Peterborough County, with a view of establishing the beet sugar industry in this locality. The desire to learn from the farmers of Waterloo County, the results of their experience, led to the County Council, the Town Council, the Board of Trade, and the Farmers' Institute, joining in sending representatives from their respective bodies so that they might be in a position to report the exact condition of affairs as they saw them in a beet sugar community. That the expedition will be profitable and that the action of the various corporations and societies in sending such a deputation represents money wisely spent appears to be generally conceded, especially in view of the fact that it cost the county of Waterloo $8,000 and the Town of Berlin $500 in educating the people up to the wonderful possibilities of the industry before even the by-law was carried which granted the company a liberal bonus.

The question of sugar supply and its universal requirement, add importance to the beet sugar industry. Every year the world consumes ten million tons of sugar, about one-third of this, or 3 1-2 million tons are cane sugar and the rest beet sugar. Of this the United States makes 100,000 tons and soon several million tons will be produced in Canada, and there is room for much more. For we in Canada consumed, or at least we imported, 340 million pounds last year, and it will, at this rate, require 15 or 20 factories like that at Berlin to supply our domestic sugar needs.

COMPOSITION OF THE CONTINGENT.

When the G. T. R. train pulled out of Peterborough on Thursday morning the delegation occupied a special car. There were thirty-five in the party made up as follows: Warden T. G. Eastland, County Councillors Wm. Anderson, M.P.P., E. A. Peck, G. W. Fitzgerald, P. Costello, R. Shaw, J. B. Pearce, Dr. Jeffs and W. H. Casement; His Worship Mayor T. H. G. Denne, Aldermen G. M. Roger, H. Rush, Jos. Hattan, J. J. Turner, B. Shortly and Robert Climkscale; John E. Belcher, County Engineer; R. P. Watt, County Clerk, E. M. Elliott and Wm. Collins, President and Secretary respectively, West Peterborough Farmers' Institute; R. Fair, John Carnegie and D. Hughes-Charles, representing the Peterborough Board of Trade; George W. Bennett, Wm. Galton, T. M. Hunter, J. F. Lundy, Wm. Langford, E. H. D. Hall, Town Solicitor; John Smith, Reeve of Ashburnham; John McDonald, T. E. Bradburn, J. W. Garvin, W. H. Robertson, of the Times, F. H. Dobbin, of the Review and E. S. Clarry, of the Examiner.

PERSONALLY CONDUCTED.

The party was accompanied as far as Toronto by Mr. Wm. Burton, G.T.R. agent, who looked very carefully after the comfort of the delegates. Toronto was reached at about 12.30, and the party had dinner at the Walker House. The start for the Teutonic town was made at 5.30 o'clock, it was reached at about 9 o'clock. By an excellent street railway which connects Berlin with its sister town of Waterloo, the Peterborough party were conveyed up town, and registered at the Walper House. Here they were met by a number of the leading citizens of Berlin, including W. R. Eden, Mayor; R. Smith, President Board of Trade; John Fennell, President Economical Life Insurance Co., Geo. Lang, President Lang Tanning Co.; and W. V. Uttley, editor and proprietor of the News-Record.

Next morning at 10.30 o'clock, the party board d one of the electric cars and started for "Sugarville," which is a name that has been given to the settlement, about two miles out of Berlin, where the factory of the Ontario Sugar Company is situated. The members of the party were at once struck with the magnitude of the works as they alighted from the cars, and surveyed the huge pile of white brick buildings before them. Smoke belched forth from tall chimneys, and great piles of frozen beets were to be seen on every hand, there not being sufficient store room accomodation at present, and there was a genuine hum of industry. The roads to the factory were lined with wagons laden with beets. Men were busily engaged in dumping their wagons, others were busily engaged in the process of weighing, whilst again might be seen the farmers returning with their wagons laden with pulp, which, it is said, is an excellent fodder. Such was what was at a glance seen at a sugar beet factory. The deputation was

MOST CORDIALLY WELCOMED

by Mr. S. J. Williams, the managing director of the Company, and by Dr. R. A. Shuttleworth, chief agriculturist of the company. After exchanging courtesies, the deputation was taken through the factory from the point where the beets were delivered to where the beautiful white granulated sugar comes spouting out of tubes into brand new barrels.

THE BUILDINGS.

A view of the Ontario Sugar Company's 600 ton beet sugar refinery shows it to be, what it really is, a mammoth and architecturally handsome group of buildings. It cost the company $600,000 and is the best, it is said, that money will buy. It was erected by Messrs. E. H. Dyer and Co., of Cleveland, Ohio. Mr. E. H. Dyer, the head of the firm, now seventy years of age, has taken as closely and prominently identified with the introduction of the beet sugar industry on this continent as any other individual and has made it his life's work. He grappled with the subject when it was problematical whether sugar beets could be successfully grown in America as profitably converted into sugar afterwards. He became a grower himself and having demonstrated that they were cultivatable, took up the task of designing and constructing of machinery that would produce the highest grade of white granulated sugar from the beet. Success crowned his efforts and he won lasting renown for the skill and pluck with which he carried on his long experiments against great odds. To-day he is head of the leading sugar construction company in the United States, and though he has lost his sight is as bright mentally and as [illegible] as ever. He had all his [illegible] the business from the [illegible] to the manufacture of [illegible] machinery and to [illegible] sugar refinery. One of his sons, Mr. E. C. Dyer, built, superintended the Berlin refinery as first [illegible] and has been there for eight months making preparations for the campaign of manufacturing sugar.

The work accomplished by the Construction Company, since taking hold in March last, has been phenomenal. [illegible] has been delay in getting [illegible] supplies, owing to an inability to have the G.T.R. switch completed as early as required by a change in the plan, increasing the size of the plant, and by an unusually wet summer; yet notwithstanding all this finished the refinery on nearly schedule time. It is difficult to adequately convey a proper idea of the immensity of the work. A few facts however will assist in forming an estimate of the big contract undertaken. The first sod was turned on the D. Fries farm on March 21th, 1902. Superintendent G. M. Brodrick was the "man behind the gun," who engineered the work throughout. On June 6th, the first piece of machinery was set, after months of labour expended on the concrete foundations; on June 19th, the first structural steel on the main building was erected; there were 4,000 barrels of cement used in the concrete foundations and beet sluices; the buildings are fire proof and 22 carloads or 400 tons of structural steel were required; as much material as possible was purchased from local men. The brickmakers of the county sold the company 1,350,000 brick; it took 123 cars, whose total weight was 1,700 tons, to bring in the machinery which entered into the refinery; an average of 215 men were employed during the period—May 1st to November 1st; the sugar refinery was practically completed on October 1st, last.

The Berlin factory is unique in having its pumping station detached, being situated on the bank of the Grand River. It has a capacity of 5,000,000 gallons per day; when in operation a departure was made by having three shifts of men working eight hours each, instead of two working twelve. This furnished 225 men with employment instead of 160 under a twelve hour shift. Less than 10 per cent of the 225 men employed are required to be skilled workers, the sugar campaign will extend until next February.

The sugar factory plant covers about ten acres. The plant and room required for yards, etc., together takes up about 40 acres. The main building is 314 feet long and averages 64 feet in width. It is partly two and partly three storeys in height. Connected with it is the warehouse and the two buildings have a total frontage of 460 feet. The main building contains all the complex and massive machinery required to convert the raw beet into the purest granulated sugar. The warehouse is a building 145x56 feet, two storeys high and is connected with the building at the northern end. Here the sugar will be stored. It has a capacity of from 12,000 to 15,000 barrels. Separated from the main building and warehouse by a space of 20 feet on which the Grand Trunk is laid, is the annex building. This is 258x41 feet and contains, beginning at the southern end, the kiln house, the pump room, and the boiler house. The kiln house is one storey, except the cupola, and is 70x41 feet. It contains two lime kilns, the lime slacker and mixer, and gas washer. The Company burn their own lime, large quantities of which are used. The pump room is 12x41 feet and contains the boiler, feed pumps and the engine for running the lime slacker and hot water heater. The boiler house is 41x761 feet and contains 18 boilers each 16 feet long and 5 feet in diameter. These furnish steam for running the engines, pumps and machinery in the manufacturing building and also for mechanical purposes such as condensation. They are 70 horse power each. It is from the boiler house that the great brick chimney springs. This is 24x24 feet at the base 150 feet high.

In line with the annex building is the cooper shop, a brick building 34x66 feet, fitted with all the latest machinery for the manufacture of barrels of which it will turn out 800 a day. The machine shop is next to the cooper shop. It is 34x66 feet and contains all the facilities for making necessary repairs to machinery, etc. The seed house is 30x60 feet and as the name indicates, is intended for the storage of beet seed. An office building 24 feet square and two storeys and basement is to be erected in front of the main building. In it will be located the offices of the Manager, the Agriculturist, the Accountants and Board Room. It will be thoroughly modern in every respect. The magnitude of the work may be gathered from the fact that the amount of labour expended on the plant, represents the work of one man steadily engaged for fifty-two years. The beet shed, where the farmers deliver their crop is 800 feet long. The total length of frontage from beet shed to sugar house is 1080 feet. The pumping station at river is 1000 feet distant. The water is pumped through a 12 inch, wrought iron pipe. The capacity of the pumping station at the river is between five and six million gallons in 24 hours. In this altitude water can only be lifted 32 feet. There is an elevation of 91 feet between the river and the factory. The wells are on the riverside of the building and are 4x12 and 20 feet deep. One is situated in the centre of the river and is connected by an 8 inch tile with the well on the bank. The sewer, to carry away the waste from the factory, is laid with 20 inch tile. The silo for the pulp is 258x120 feet and 10 feet deep. It has a plank bottom. When fermentation begins, the pulp works about like quicksilver. A drain runs from the bottom of the silo and is intended to carry off the water. The plant will require about 5,000,000 gallons of water per day. The capacity of the farmers' and railway sheds is 8,000 tons of beets.

THE MANAGEMENT.

Now that Berlin's sugar refinery is an accomplished fact, and excellent

NEW OIL FIELDS OF ONTARIO.

Our Mr. Fox has just returned from a trip of personal investigation of the Wonderful Oil Gusher Field in the Townships of Raleigh, in the County of Kent. His report is—that the whole country is literally

ON FIRE

WITH EXCITEMENT.

Chatham—respectable, easy-going old Chatham—stands amazed, while oil operators from Pennsylvania, Ohio, Texas, California and from the big refineries at Petrolea and Sarnia fill her hotels and attend to everything—all seeking OIL, OIL, OIL—offering figures that would have been considered sheer madness a few weeks ago. The roads to the oil fields are lined with all kinds of carriages, wagons and loads of machinery and derricks. Several drilling rigs are already partly erected, and contracts have been made for the sinking of at least Fifty wells within the next thirty days.

Lands have quadrupled in price within the last two weeks. Outside of the Gurd & Co. Syndicate—

The Ontario and California Oil Co.
(LIMITED)

were the first on the ground, and have the largest holdings—amounting to about One Thousand Acres, Right in the Big Gusher Zone in Raleigh.

While at the scene of operations our Mr. Fox closed negotiations with the representative of two of the largest oil refineries in Canada to sink a number of wells immediately, and at least five wells must be completed within Sixty Days.

At Northwood, about ten miles from Chatham, our eighteenth well is down about three hundred feet. Here the Company is operating on about Sixteen Hundreds Acres of great promise. Every well sunk so far has been a paying oil producer. Watch this field also very closely—but advertising space is limited. Send for O. & C. Oil Co.'s Report for November and see for yourself. The volume of enquiries to this office shew that our people are becoming alive to the great possibilities lying right at our own doors.

The stock is going rapidly, and at any time may be withdrawn.

BANNOCKBURN CREW MAY BE SAFE.

Steamer Reported Ashore Near Michipicoten Island—Unconfirmed.

Kingston, Nov. 28.—Chicago underwriters have notified the local office here that the steamer Bannockburn is ashore on the north shore of Lake Superior, near Michipicoten Island, and it is thought the crew are all safe.

Repairs Denied.

Detroit, Nov. 29.—A News special from Sault Ste. Marie, Michigan, says: The rumors that the steamer Bannockburn has been reported by a down-bound vessel to have been sighted ashore on Michipicoten were disproved yesterday morning by the arrival of the steamer Strathcona. Her captain said that he had passed within four miles of the island, but saw no boat ashore.

NOT FOUND YET

The Case of Indigestion That Dodd's Dyspepsia Tablets Cannot Cure—Haliburton Man Tells How His Sufferings Were Relieved.

That bloating that gives you such pain and discomfort after eating is caused by gas generated by the fermentation of undigested food. It bulges out the walls of the stomach, and this frequently interferes with the action of the heart.

The cure is to have your food properly digested. Dodd's Dyspepsia Tablets will properly digest the food. Hear what A. D. Miller, of Pusey, Haliburton county, has to say about it:

"I had been troubled with Dyspepsia and Indigestion, and during the summer of 1900 my doctor treated me for Liver Complaint," says Mr. Miller, "but instead of getting better I gradually grew worse. My appetite was irregular and I would bloat very much after eating. I also had palpitation of the heart and sometimes I could not sleep at night on account of my heart beating so hard.

I was hardly able to get round when I commenced using Dodd's Dyspepsia Tablets. After using half a box I felt much better and was soon well and felt like a new man."

Dodd's Dyspepsia Tablets rest and recuperate the stomach. They have yet to find the case of indigestion that they cannot cure.

Natives Deserting the Matoppos.

According to the Bulawayo Chronicle, the natives living in the Matoppos continue to desert the hills for the Mopani veldt to the south. They assign as a reason for this, the depredations of the baboons and the exhaustion of the light sand loam of the hills. The baboons have been increasing rapidly, and are a source of considerable loss and almost daily annoyance. It is thought, notwithstanding that the real reason for the exodus is that the soil in the Mopani veldt is far richer than in the Matoppos, while the climate is possibly somewhat healthier. The harvests were particularly abundant on the banks of the Shashani, the Ovi, and Malema Rivers. This large and fertile tract of country, it is interesting to note, was uninhabited until the European occupation, apparently because it was accessible to raids from the south, and perhaps because it was once raided about fifty years ago. It is anticipated that a large native population will soon spread far down the larger tributaries of the Crocodile, and the Matoppos will then be more desolate and lonely than ever.

"Is Dickens Played Out?"

The best answer to the question "Is Dickens played out?" is given by his original publishers, Messrs. Chapman & Hall, who have been looking into figures and taking a "box of 6s" estimate of the author. For many years their edition of his books have averaged over a quarter of a million copies, and to these must be added the innumerable issues of the majority that are now out of copyright. So there seems every justification for the new biographical edition. As most people would guess "David Copperfield" comes second in favor, while the publishers have been able to trace Mr. Martin Harvey on his tour with "The Only Way" by the booksellers' orders for the "Tale of Two Cities." First in favor, of course, comes "Pickwick." (which is not the title of the book).—London Globe.

A Loyal Steward.

Once while Sir Charles Wetherell, an English Tory, who afterward obtained notoriety by his uncompromising, not to say truculent, speech as against the reform bill, was talking vehemently in the House of Commons a bit of his shirt appeared between his waistcoat and his trousers. Daniel O'Connell, who was seated opposite, saw his opportunity and cried out, pointing to the silver: "I am glad to see that for one moment my opponent has a lucid interval!"

HEARD ALL THE EVIDENCE.

Judge McTavish Will Prepare Report on Tobacco Combine.

Montreal, Nov. 29.—Argument in the alleged tobacco combine was heard yesterday before Judge McTavish, the Royal Commissioner, and at the conclusion Judge McTavish intimated that he would prepare his report at once, and hoped to hand it to the Governor-General-in-Council before Parliament met.

Accident on T.H. & B.R.

Hamilton, Nov. 29.—An eastbound freight train on the T., H. & B. R. met with an accident early yesterday morning, near Waterdown. A car containing general merchandise jumped the track, and three other cars followed it. One car contained live hogs. The regular train service was not affected much, only one train being delayed a short time.

Mont Pelee Erupting Violently.

St. Thomas, D.W.I., Nov. 29.—The royal mail steamer Yare, which arrived here yesterday, passed Mont Pelee, Island of Martinique, Wednesday morning, and she reports that the volcano was then erupting violently.

Value of Somaliland.

Geographically the position of Somaliland is decidedly important. Its people are commercial and pastoral, as well as warlike. Its harbors export the produce of the Galla races, in addition to those of the pastoral inland Somali tribes. Ten years ago our consul at Aden, says Lloyd's Weekly, considered that there was in the Somali territory a good field for the introduction of Lancashire cotton goods, and that it was essential these should be of good quality, as the natives are quite capable of discriminating between better and inferior articles. The country supplies cattle and sheep to Aden, besides gums, coffee, and the products of the chase. In the interior, beyond Burao, is the Wadi Nogal, or Happy Valley, which forms a great highway for trade and is said to be extremely fertile, being rich in minerals, ivory, and forest products. Large quantities of gum arabic and myrrh are collected at some of the sea-coast villages. Enormous flocks of sheep are raised in some parts of the country. As gold is the great civilizer in Africa, it may be mentioned that gold dust is one of the commodities on sale, together with ivory, gums, cattle, ostrich feathers, coffee, ghee, and grain, at the annual fair at Berbera, where as many as 30,000 people gather from all quarters of the East.

Tooting Hall to Be Sold.

Tooting, Hall, at Tooting, England, the well-known residence of Daniel Defoe, where he is believed to have written "Robinson Crusoe," is to be sold at public auction.

Physicians say nothing is so helpful for throat and lung troubles, whether acute or chronic, and for wasting diseases, as Angier's Petroleum Emulsion with Hypophosphites. It is pleasant to take and agrees with the stomach.

It relieves congestion and irritation, soothes and heals the bronchial tubes, makes breathing easy, changes the character of expectoration, and cures the cough. Its effects are rapid. It aids digestion, helps assimilate the food, and has a healthy action upon the bowels. Pills and aperients are unnecessary.

[illegible] was troubled for ten years with eczema on one leg. The itching was terrible, and when scratched the blood would come. Fortunately I heard of [illegible] Ointment, and its persistent use has completely cured me. There is now no trace of the disease left.

"My little girl, two years old, has also been cured of Eczema by Dr. Chase's Ointment. Her face was a mass of sores and we had to bandage her hands to keep her from scratching it. To-day her face is clear of even the scars which the ugly sores made, and she is thoroughly cured. I am glad of an opportunity to let people know what a blessing Dr. Chase's Ointment has proved itself to us."

Miss Lovina Diotte, Clarence Creek, Ont., writes: "I suffered with eczema for over a year and a half and tried all the remedies I could hear of, some of them costing considerable money, and not doing me any good. I was enduring great tortures when I read an advertisement of Dr. Chase's Ointment, and resolved to give it a trial.

"I began using Dr. Chase's Ointment, and it has completely cured me. Though I do not send it any more I keep a box in the house in case of emergency. I hope that people who suffer as I did may read this testimonial and for this reason have my permission to publish it. It is only just that such a good remedy for eczema and itching skin should be made known to those who suffer."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

No. 124 Hunter Street.

A TRIO OF GOOD ONES.

Three Stories of More Than Usual Newspaper Merit.

A few years ago one of the military chaplains at Aldershot hit on what he thought was a singularly happy idea for inducing his congregation to subscribe more liberally to the offertories than was their custom. This was that the men, instead of putting their pennies into the bag—or, rather, refraining from doing so—should be permitted to deposit sheets of note paper stating the amounts that they were willing to have deducted from their weekly pay for the benefit of the church. The soldiers appeared to be greatly impressed with the idea, and the following Sunday the offertory bags literally overflowed with their notes of hand. The chaplain was most jubilant at the sight, and prior to dismissing the troops, openly thanked them for their generosity. When, however, in the privacy of the vestry he examined the harvest shortly afterward, his jubilation somewhat evaporated. This was because practically every paper he unfolded ran as follows: "T. Atkins promises to pay the Rev. —— ten millions when he is made a field marshal."

King George III., of England, who made Weymouth fashionable by going there to reside, occasionally used frequently to make excursions into the rural neighborhood about the town. On one of these rambles he passed a field where only one woman was at work, and asked her where the rest of her companions were. With much naivete the woman replied: "They have gone to see the King." "And why did you not go with them?" rejoined His Majesty. "I would not give a pin to see him," replied the peasant. "Besides, the fools that are gone to town to see him will lose a day's work by it, which is more than I can afford to do, for I have five children to work for." "Well, then," replied George, putting some money into her hand, "you may tell your companions who are gone to see the King that the King came to see you."

Admiral Sir William Kennedy of the British navy tells a story of a boatswain, who, when he left the navy, paid a boy sixpence a week to wake him every morning at 4 o'clock. "What did you do that for?" asked Sir William. "Well, sir," said the boatswain, "it's for a bit o' satisfaction. I gets the boy to tell me 'The captain wants you,' and I says: 'Go and tell the captain to be d——.'"

Is Your Back Lame?

Does it hurt to stoop or bend down? Have you a heavy dull pain at the base of the spine? If so the best remedy is Nerviline; it will invigorate the tired, soft muscles, make them supple and strong. Nerviline will drive out the pain and make you well in no time. Nothing so good as Nerviline for Lumbago, Stiff Neck, Rheumatism, Neuralgia and Sciatica. Buy a 25c bottle of Polson's Nerviline today and try it.

Dr. Hamilton's Pills cure Constipation.

History Repeated.

In the latest Australian mining news, says The London Daily Chronicle, there is an account of the discovery of a valuable golden reef in a curious fashion. A dog out walking with his master, a farmer, chased and caught a kangaroo. In the struggle the ground got torn up, and when the farmer arrived on the scene his eye detected some exposed specimens of golden quartz. Further search revealed a rich reef, and the farmer's bank balance has been considerably increased by his dog's fight with the kangaroo. Thirty years ago a long productive Australian goldfield was discovered through a short tempered settler seizing the nearest stone and throwing it at his dog. Returning good for evil, the dog brought the stone back to its master in his mouth. The man looked at it. It was a lump of quartz thickly studded with gold.

Eczema and Itching Skin

Defied Many Expensive Remedies but Were Thoroughly Cured by

Dr. Chase's Ointment

It is a mistake to judge Dr. Chase's Ointment by the results obtained from the use of ordinary salves and ointments. It is not to be compared with any preparation on the market to-day.

Some of these remedies give temporary relief but they do not strike deep enough to eradicate disease. You need not be alarmed if Dr. Chase's Ointment causes a little irritation at first; this is necessary in order to root out the disease. When the cure is brought about the skin will be left smooth and clear, without scar and blemish.

Mr. Hiram Frey, Norwood, Ont., states: "I was troubled for ten years with eczema on one leg. The itching was terrible, and when scratched the blood would come. Fortunately I heard of Dr. Chase's Ointment, and its persistent use has completely cured me. There is now no trace of the disease left.

"My little girl, two years old, has also been cured of Eczema by Dr. Chase's Ointment. Her face was a mass of sores and we had to bandage her hands to keep her from scratching it. To-day her face is clear of even the scars which the ugly sores made, and she is thoroughly cured. I am glad of an opportunity to let people know what a blessing Dr. Chase's Ointment has proved itself to us."

Miss Lovina Diotte, Clarence Creek, Ont., writes: "I suffered with eczema for over a year and a half and tried all the remedies I could hear of, some of them costing considerable money, and not doing me any good. I was enduring great tortures when I read an advertisement of Dr. Chase's Ointment, and resolved to give it a trial.

"I began using Dr. Chase's Ointment, and it has completely cured me. Though I do not send it any more I keep a box in the house in case of emergency. I hope that people who suffer as I did may read this testimonial and for this reason have my permission to publish it. It is only just that such a good remedy for eczema and itching skin should be made known to those who suffer."

THE GREATEST BALL

NATURE'S ANNUAL DANCE NOW IN FULL AND RUSTLING SWING.

Never So Many Guests at Any Ball Room—Many Costumes, Superb—Some of the Ribbys to Be Worn—Of What the Dresses Are Made—Nature's Great Ball-Room—What Is It All About?

Nature is holding her grand annual dance. Never were there so many guests at any other ball. Every gust of wind is an invitation to thousands and thousands of little folks to break away from the parent hand that has held them captive from the moment they were born. From stately oaks, from sprawling maples from lofty elms, from towering poplars, and even from weeping willows, the guests are hurrying to the great festivity.

All through the summer they have been learning to dance in the warm sunlight. Sweet sap has fed them. Cool dew has bathed them. They have seen the buds burst into blossoms, and the blossoms swell into fruit. They have watched the birds come from the South to build nests in secret places that only the leaves knew, and they have kept the secret well. They have learned the offices of the myriads of flattering insects which passed away in almost the same hour that they were breathed into being. They know the whole story of Nature's unfolding, but they tell it not. They are sworn to secrecy.

In anticipation of the great ball the little folks have dressed themselves in the gayest attire. Such colors! So brilliant and yet so delicate. So gorgeous and yet so soft. Only a divine painter could successfully blend them contradictory tints. No human canvas could hold them. And the variety; it is simply endless. In all the gay dresses that have been turned out of nature's workshop for the occasion, in such numbers that life is too short to begin to count them, no two are alike. Nature repeats herself, but never exactly in the same way. Yet still more marvelous is the harmony of it all. There are no discords. It is all combined into one sublime note, like the Lost Chord that thrilled a human ear never to sound again, but unlike it because the work is repeated every autumn with the same approach to perfection.

Such a scramble to be there. It is positively unbecoming. At the welcome invitation the giddy young things break away from their parents with scarcely a word of farewell. They are off, they know not where. All they know, and care to know, is that there is a great throng, greater than they had ever supposed the world could contain, carrying helter skelter to the grand dance Nature is giving. How the impatient wind chases them along. It lifts them off the earth and carries them flying through the air.

In every tree there is an orchestra. Long limbs keep time while the wind whistles a lively tune. The same air serves for any dance. Some of the guests waltz to it, making graceful circles in mid-air, and descend to the floor of the great ballroom unharmed. Others who prefer to gallop pass with rapid glides clear out of sight in the ecstasy of the dance. Here and there groups of heavyweights indulge in a set dance that taxes their energies to a less extent. They dance alone, by couples, by threes, and by fours, and by fifties, just as the fancy strikes them. There are wall flowers, too. Some stupid guests get caught in the most absurd places, and are positively unable to move one way of another until a sudden gust of wind lifts them out of their predicament.

And so the great ball goes on all through the night and all through the day. There are extras without limit. The chaperons have long since gone home, tired and out of patience. Often the dancers fall down quite exhausted, but they soon rise again and join the general jubilation with undiminished enthusiasm.

In the narrow city streets there is no room for these festivities. Stern policemen tell the dancers to move on, and careless people tread them under foot.

How the great oaks in the Queen's Park shake with merriment as the thousands of gay dancers crowd around their sparred trunks. They have seen the ball many a time before, and hope to see it many a time again.

But this is only the antechamber of Nature's ball-room. Toronto is hemmed in by it on all sides, says The Mail and Empire. To the south the gaiety on the Island is almost delirious. Eastward at Munro Park and Scarboro' Heights, deserted by minstrels and by swains, Nature holds high carnival in more stately but not less contagious joy. Up the valley of the Don, around Castle Frank, and the Rosedale ravines, the fun is at its height. In High Park, the beautiful, with its broad, grassy spaces, its shapely trees, its picturesque hills, the dance is unrestrained. Further west in the valley of the Humber, stretching from the sounding lake far back into the shade of mysterious forests, the echos of sweet music, and the quick tread of countless little feet tell that Nature's dance is at its height, that the world is full of pleasure, feasting, and love.

It would be a wise head, indeed, that could tell what it is all about. The invitations make no mention of it. They are not printed, but are simply passed along by word of mouth. Possibly it is the joy of Nature over another year well spent. As the prelude to a time of rest and seeming death, it is perhaps, her way of telling us that all is not lost when the leaves drop and decay. Whatever is the meaning of it all the guests will not tell. They are profoundly secret, so that the interpretation of it is open to all. Yet everyone may see Nature's annual dance and take from it whatever inspiration is sought for and desired.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating, and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The originals safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

BRAINS AND POLITICS.

The Former at a Discount as Compared With Blind Devotion—Colleagues Mr. Gladstone Loved.

"Coming down to the common race of men, we assert that brains, by themselves, are a positive disadvantage to a political aspirant. In the first place clever men are more prone to miscalculate their chances than their less imaginative compeers. To drop into stock exchange slang, they will not take small profits, but always gamble for big stakes, and so they must often lose. Sixteen years ago Sir John Gorst, refused the Solicitor-Generalship with the certainty of a judgeship a few years later he refused the post of Governor of the Cape and High Commissioner of South Africa. Whether are profits which in life's speculation most men would take thankfully, but our man of talent had something bigger in his head, and now it has dwindled down to the Isle of Man, which is, of course, angrily rejected. Then in the greatest place, each of these cannot easily acquire the habit of subordinating their judgment to that of their official chiefs. Nothing is more unpleasant, or injurious to one's self-respect, than the compulsion of speaking or voting for something which one is clever enough to know to be nonsensical or mischievous. And yet unquestioning obedience to superiors is the first duty of the aspirant for, as Swift observed, 'dunces are generally preferred in the same latitudes.' The reason why brilliant men like Mr. Labouchere and Mr. Gibson Bowles, who combine tact and industry and courage, never get office is that they will not take their orders from other people, and that they prefer the luxury of thinking and speaking freely; to that of sitting on the front bench. It is astonishing how intolerant party leaders are of anything like independence or originality in their associates, and how fond they are of supple mediocrities and cheerful drudges. Mr. Childres and Mr. Dodson were the colleagues whom Mr. Gladstone loved, and Sir William Harcourt and Mr. Lowe those whom he distrusted and disliked. Lord Beaconsfield indeed was jealous of rivals, but that was because he had such a perfect contempt for his own party. Mr. Balfour and Mr. Chamberlain are like all the rest; they do not love the criticism of their friends a bit better than their predecessors, and they end up the mockery of blind and dumb Cerberus placed there to gratify

[illegible] the fact of their clever, but not the fact that your then of wit Will condemned to take a back

We often hear it said that these clever men have failed because they are "disloyal," and this is much harped upon. But in this respect a [illegible] the world hates the "spretae injuria formae" is apt to be somewhat bitter, and how can a man be loyal to chiefs who do not conceal their distrust of his brilliancy and who constantly allow him to do the merest routine? It is not difficult, but understand why so many clever men fail in politics, but the understanding of the reason does not make the fact less pathetic. The wear which we should recommend to all who are setting out on their journey across the plain of politics is a material soft to the touch, impervious to weather, and of so sober a pattern as to escape attention.—London Saturday Review.

A Top Literal Translation.

A missionary lately returned from India complains of the slow progress made out there in converting the natives on account of the difficulty in explaining the teachings of Christianity so that the ignorant people will fully understand them. Some of the most beautiful passages in the Bible are destroyed by translation. He attempted once to have the hymn

Rock of Ages, cleft for me,
Let me hide myself in thee,

translated into the native dialect so that the natives might appreciate its beauty. The work was done by a young Hindoo Bible student. The next day he brought his translation to the missionary for approval, and his rendering as translated back in English read like this:

Very old stone, split for my benefit,
Let me abscot myself under one of your fragments.

Often Used Without Credit.

A happy example of French wit was the reply of Voltaire, when, having extolled Haller, he was told that he was very generous, since Haller had said the very contrary of him. "Perhaps both of us are mistaken," said the wit, after a short pause. We doubt, however, if any French mot or repartee ever surpassed in delicacy the reply made by an East Indian servant of Lord Dufferin, when he was Viceroy of India: "Well, what sort of sport has Lord —— had?" said Dufferin one day to his "shikarry," or sporting servant, who had attended a young English lord on a shooting excursion. "Oh!" replied the scrupulously polite Hindoo, "the young Sahib shoot divinely. But God was very merciful to the birds."

Dying by Slow Degrees.

Although not always aware of it yet thousands die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrhozzone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the Inhaler kills thousands of germs, clears the throat and nose, aids expectoration, and relieves the pain across the eyes. Catarrhozone eradicates every vestige of catarrh from the system, and is highly recommended also for [illegible] Asthma, Deafness and Lung [illegible] Price, $1; trial size, 25c.; all druggists. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

Geography of Northern Canada.

Mr. W. J. Wilson, of the Dominion of Canada Geological survey, returned a short time ago from the country lying to the south-west of James' Bay. Mr. Wilson was accompanied by Mr. Owne O'Sullivan, and had been instructed by Dr. Bell to work along a heretofore unsurveyed river lying between the Albany on the south and the Ottawapiskat on the north. This proved to be a large river having a course of at least 300 miles. At no great distance from the sea it divides into two almost equal branches. Mr. Wilson made an instrumental survey of the northern branch, while Mr. O'Sullivan made a similar survey of the southern for a distance of about 200 miles in each case. After exploring the upper waters beyond the surveyed portions and discovering a number of lakes, both gentlemen returned to Moose Factory, making a survey of the intervening coast of James' Bay as they went along.

A Sick Liver

Can work havoc with human happiness. It can change the cheerful philanthropist into a morose misanthrope and the optimist into a pronounced pessimist. The liver has a great deal to do with the removal of the waste of the body. When it is sluggish in its action the whole body must suffer by reason of clogging accumulations.

The excretory organs in general promptly respond to the action of Dr. Pierce's Golden Medical Discovery. It restores the liver to healthy activity, purifies the blood, and cures diseases of the organs of digestion and nutrition.

Mr. Richard Beatty, of Marengo, Crawford Co., Indiana, says: "After three years of suffering with liver trouble and dyspepsia I gave up all hopes of ever getting well again, and the last [illegible] was to try your medicines. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his 'Pleasant Pellets,' I am glad to say I was entirely cured. It is due entirely to your wonderful medicines."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. Still gaining you know. Therefore, accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery." They are easy to take, agree with the weakest constitution, and do not beget the pill habit.

LOCAL DRAMATIC TALENT.

Sir Henry Irving Speaks a Good Word in Favor.

Sir Henry Irving was entertained recently at Edinburgh by the Pen and Pencil Club, and in response to the toast of his health referred to a speech made by Mr. Andrew Carnegie at the opening of the Tenth Library, in the course of which he said he was in favor of such buildings being used not only for the original purposes, but for the purposes of dramatic entertainments, discussions and other purposes which serve to bring out local talent." "That," said Sir Henry, "was on the practical side of things; but going on Mr. Carnegie gave a reason for his view which came with remarkable force. He showed the value of imaginative work, fiction and the drama, in the life of the people and in the general advancement of human good. Hear his words: 'One of the problems which those responsible for the maintenance of libraries had to face was the extent to which fiction should be admitted, and at one time his own view had been unfavorable to this. He had changed his views, however, and was of the opinion that it was no use to provide a ladder for the aspiring to climb if they made the first step too high and difficult. He therefore, hoped the committee would be chary of not admitting fiction, because if they could induce a working man or woman to take home a book of fiction to read there was every reason to believe that the literary habit might grow and the reader might develop into a student of some more important branch of literature." In this remarkable life," continued Sir Henry, "Mr. Carnegie has done many big things, including the making of the biggest fortune ever made by human industry. But in all his building he had never built better, or bigger than in that little speech."

A GUARANTEED CURE For all Forms of Kidney Disease.

We the undersigned Druggists are fully prepared to give the following guarantee with every 50 cent bottle of Dr. Pettingill's Kidney-Wort Tablets, the only remedy in the world that positively cures all troubles arising from weak or diseased Kidneys:—

"Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles effect astonishing and permanent cures. If not relieved and cured, you waste no money."

Ormond & Walsh, Druggists, Peterborough, Ont.

Westminster's Stained Glass.

The great rose-window in the south transept of the abbey, which has just been dedicated to the memory of the late Duke of Westminster, reveals the poverty in the matter of stained glass of our national Valhalla. The Puritan iconoclasts made short shrift of the magnificent and priceless glass of the thirteenth, fourteenth and fifteenth centuries. Fragments alone could be found to form "the extraordinary patchwork" of the great east window, where scarcely any figure is distinguishable. The great west window belongs to the reign of George II., whose arms are in the centre. From the same period dates the window in the south transept. Then there is a window in the south-west tower given by Mr. Shields of Philadelphia to the memory of the two religious poets, George Herbert and William Cowper, both Westminster scholars. True, the chapter house close by is not so badly off. Its windows, setting forth various incidents in the abbey story, were presented by the late Queen and by American and English subscribers. But as the space available for monuments diminishes the stained glass window seems an appropriate commemoration for men of more national importance than the late Duke of Westminster.—London Daily Chronicle.

Subscriptions and renewals taken at the Examiner office, Peterborough.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to scrab and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real estate and Insurance Office for any of these?

THE BERLIN BEET SUGAR INDUSTRY.

(Continued from 5th Page.)

granulated sugar is being made for the first time in Canada, and from home grown beets, the man at the head of the industry is brought before the public's eye very prominently. The whole country is interested for several reasons: The novelty of the enterprise; the significance of the fact that sugar is being made here and what its successful production may mean to Canada in the future.

A year and a half ago Mr. Williams was seized with the importance of Canada making its own sugar from beets grown on Canadian soil by Canadian growers. The thought of being able to eventually retain the $10,000,000 that annually goes out of the country for the staple commodity appealed to him strongly, and he urged his friends to get local farmers to experiment with beet seed, believing Waterloo had the best farms and the best farmers for the purpose to be found anywhere. When it was demonstrated that sugar beets could be successfully grown there, he enlisted the support of the Board of Trade, of which he was the capable head, and inaugurated a campaign of education. Delegations visited the sugar centres of Michigan, and reported favourably. Upon the enlightening of the public as to the value of having a beet sugar industry located at Berlin, in getting capital interested, and contracts from the farmers for the growing of [illegible] acres of beets this year, Mr. Williams entered with enthusiasm. He received valued assistance from active members of the Board of Trade and prominent citizens.

Late in December the company definitely decided to locate in Berlin. This shortened the time for letting the construction contracts and erected a new and formidable difficulty. Some of his colleagues counselled delay for another year, but Mr. Williams saw the advantage of being first in the field so as to earn a portion of the bounty of half a cent a pound offered during 1902—3—4 by the Provincial Government. His advice prevailed and the contract was let and the work put through in record time by the successful contractors.

THE FUTURE.

The sugar beet crop has, despite an unusually wet season, turned out well. Though the land was not fall-prepared, the yield has been good, and on the whole, it is believed, the growers are satisfied. It is too early to speak authoritatively of the amount of profits averaged, yet the growers as a general rule seem cheerful, and with the experience gained this year will enter upon future campaigns with confidence.

Farmers who sowed the seed on good clean lands are now harvesting heavy crops of beets. Like any other crop, this requires intelligent preparation and handling. If any grower has not made quite as much money as he expected, he should make due allowance for it being a new crop, and that there was no time in which to prepare the land that fall. Each chose land that was most convenient and did his best. Sufficient results have been gained to show that with due preparation beet growing will become the most profitable farm crop the farmer can raise. One of the drawbacks that was experienced this year was the obtaining of help in the fields. To overcome this the Ontario Sugar Beet Company brought in several hundred Indians from the Reserves.

The company's efforts this year in assisting and instructing the growers must convince every unprejudiced person that it is desirous of making beet raising a profitable occupation for the farmer as well as a permanent one in this country. It is worthy of note that in Germany where the industry is a national one, and has assumed very large proportions, a mechanic has invented a machine to lift and top the beets. It is said to work well. If so, it will not be long before it is placed on the Canadian market, and prove a boon in the harvesting of the crop.

The company acts on the principle that its and the farmers' interests are identical. An industry that will expend $400,000 per annum among the growers and its staff is one worth encouraging.

On Monday the report will be continued, dealing with other features of the sugar refining industry as found in Berlin.

AT FIRST GLANCE

It Would Appear That Local Remedies Would be Best for Cure of Catarrh.

It would seem at first glance that catarrh being a disease of the mucous membrane, that salves, sprays, etc., being applied directly to the membranes of the nose and throat, would be the most rational treatment but this has been proven not to be true.

The mucous membrane is made and repaired from the blood and catarrh is a blood disease, and any remedy to make a permanent cure must get on the blood, and when the blood is purified from catarrhal poison, the secretions from the mucous membrane will become natural and healthy.

In this climate thousands of people seem scarcely ever free from some form of catarrh; it gets better at times, but each winter becomes gradually deeper seated, and after a time the sufferer resigns himself to it as a necessary evil.

Catarrh cures are almost as numerous as catarrh sufferers, but are nearly all so inconvenient and ineffective as to render their use a nuisance nearly as annoying as catarrh itself; anyone who has used douches, sprays and powders will bear witness to their inconvenience and failure to really cure.

There are a number of excellent internal remedies for catarrh, but probably the best, and certainly the safest, is a new remedy, composed of Red Gum, Blood Root, and similar antiseptic remedies and other valuable catarrh specifics.

This remedy is in tablet form, pleasant to the taste, and sold by druggists under the name of Stuart's Catarrh Tablets, and anyone suffering from catarrh may use these Tablets with absolute assurance that they contain no cocaine, opiate, nor any poisonous, mineral whatever.

A leading druggist in Albany, speaking of catarrh cures, says: "I have sold various catarrh cures for years, but have never sold any which gave such general satisfaction as Stuart's Catarrh Tablets. They contain in a pleasant concentrated form all the best and latest catarrh remedies, and catarrh sufferers who have used douches, sprays and salves, have been astonished at the quick relief and permanent results obtained after a week's use of Stuart's Catarrh Tablets." All druggists sell full-sized packages for fifty cents.

AT THE POLICE COURT.

This Morning's Business Confined to Two Drunks.

His Worship Magistrate Dumble was at the police court this morning and disposed of a case in which two men were charged with being drunk and disorderly. One Harris, of Belleville, paid $2, and a local man, aged about twenty, also contributed $2 to the police court.

For Men Only.

Rev. E. D. MacLaren, D.D., of Vancouver, will be the speaker at the Y.M.C.A. Men's Meeting, to-morrow, which will begin at 4 p.m. His subject will be "Consequences." Mr. Wildgust of St. Paul's will sing.

Basket-ball.

The Basketball tournament which has been in progress at the Y.M.C.A. for some weeks will be continued this evening, when two games will be played,—The Colts vs. Pastimes; Warriers vs. Lilies. To-night's play will finish the first half of the tournament and every game counts. During intermission a short programme will be given.

CUT S. KOORY'S THROAT

Caiill Abraham Murders a Compatriot at Chesterville.

BOTH THE MEN WERE ASSYRIANS

Abraham Captured With Blood on His Clothes—Story of a Young Nephew of the Murdered Man, Who Witnessed the Deed—The Prisoner Bailed and Hooted—Koory a Good Citizen.

Chesterville, Dec. 1.—Salem Koory, an Assyrian, aged 35, lies dead in this village with a gaping wound, into which several fingers could be thrust, on the left side of the throat. Caiill Abraham, a compatriot, is in the lock-up, charged with murder. When captured there was blood on his clothes, and his compatriots baited and hooted him at the lock up. The motive for the crime has not been ascertained, but it may have been due to a sudden outburst of insanity on the part of the prisoner, who is of a low order of intelligence. The scene of the tragedy was a supply store conducted by Koorby, who provided about twenty or thirty peddlers of the same nationality as himself with articles to peddle about the country. The building was a low, squat structure of wood. It faces on Main street on the south side of the Nation River. It was in front of the counter to the right on entering from the street that Koory received his death wound about 11.30 Saturday morning. The only persons present at the time was Koory, Abraham and an eight-year-old nephew of the former. On the flat upstairs were Koory's mother and a couple of other women.

The murdered man's nephew is a bright little fellow, who unfortunately cannot speak a word of English. His story, as interpreted is as follows:—"My uncle was sitting down on a chair in front of the counter reading a newspaper when Abraham walked behind him. He placed one hand on my uncle's head and with the other drew a razor across his throat. Then he ran out of the shop. My uncle put his hand to his neck and said, 'That man has killed me; run after him, catch him.'" Koory had been in Canada seven years, and had taken out naturalization papers. He had only lived in Chesterville for six months, however. He left large orders for dry goods with a Montreal firm, and was prompt in his payments.

CASH AND ONE PRICE ONLY.

Shot by His Friend.

Tweed, Dec. 1.—Albert Skelton, a cheesemaker, was shot through the head by a man named James Oliver, living near Belleville, Saturday. It seems that they were driving to Oliver's place when he demanded Skelton's money, and drawing his revolver fired, the bullet passing through Skelton's head. He fell out of the buggy, and Oliver jumped on top of him and in the scuffle lost his revolver. A man named Lockwood drove up in the darkness and Skelton got into his rig, while Oliver made off with Skelton's buggy. A warrant is out for the arrest of Oliver, who secured only about $25. The revolver was picked up in the road during the day. Skelton may recover.

Belleville, Dec. 1.—High County Constable Duffin, who went in pursuit of Oliver, arrested him yesterday at his home in Ameliasburg. The constable, with his prisoner, arrived at 4.45 yesterday afternoon and lodged him in the county jail. Oliver has not made any statement as to the cause of his shooting Skelton, who is physically greatly inferior to him.

Murder Near Sydney.

Halifax, Dec. 1.—With his face battered in and his gold watch missing, the body of John O. Brookman, aged 25, who had been murdered, was found in an old carriage shed at Whitney Pier, near Sydney, late Saturday night. So far no arrests have been made.

Highway Robberies in Toronto.

Toronto, Dec. 1.—Two daring highway robberies and one case of tilltapping were reported to the police by the victims on Saturday, and two arrests were made. "Curby" Tytler was caught after he had snatched a chatelaine bag in Queen's Park, and Adolphe Laplante was arrested in connection with the tilltapping. The robbers who held up Stephen Joyce, a laundryman, 92 Major street, on Saturday night and took more than $11 from him are still at large.

Worked Bogus Cheques.

Kingston, Dec. 1.—Last night a man named Lee, or Carter, was arrested while trying to pass a forged cheque on Daniel Cooper, grocer. It was on the Rathbun Company Cooper got the cheque and parleyed till the police arrived. Lee admits having worked the game in many places. He is 28 years of age. On him were found numerous cheques, said to be all made out by the Rathbun Company. Canter says he is a Toronto clerk, but will give no address.

Arm Caught in Cog Wheel.

Bowmanville, Dec. 1.—A painfully sad and fatal accident occurred here between midnight and Sunday afternoon, by which Mr. John M. Jones lost his life. During the high wind Saturday night the windmill on the barn at Retreat Dairy Farm, the home of the Joneses, became unfastened, and, hearing it, Mr. Jones arose shortly after midnight and went out to shut it off, when in some way his arm was caught between the cog wheels and he was unable to extricate himself.

The barn being some distance from the house, all efforts to make the family or anyone else hear were unsuccessful. He was not found till between 7 and 8 o'clock yesterday morning, when his son, Frederick, who lives in town, went down to assist with the chores.

Deceased had suffered seven hours of terrible torture and suspense, pinioned by his arm in the machinery. Every revolution of the windmill caused the most intense pain. He retained consciousness, however, and was able to call for help when he heard his son arrive. The arm was not badly mutilated, but the severe shock occasioned by every revolution of the wheel in the high gale that prevailed was too much for his system and he lapsed into unconsciousness about noon yesterday and passed away at 3 o'clock.

Mr. Jones was one of the most active directors of the Agricultural Society and Farmers' Institute. A widow, three sons and three daughters survive him.

An Engineer Beheaded.

Toronto Junction, Dec. 1.—Joseph Barnes, fireman on the G.T.R. and a son of Conductor J. J. Barnes of the C.P.R., residing on Hook avenue, met instant death at Lindsay Saturday by having his head taken off. What is known as a double-header was standing at Lindsay. Barnes went under one of the engines to clear out cinders from the firebox and while in that position the other engine moved. Barnes evidently endeavored to crawl out and was decapitated. The young man was very highly respected here.

Presentiment Came True.

Halifax, N. S., Dec. 1.—Daniel O'Hanley, a brakesman, in the employ of the Dominion Iron and Steel Company, was killed by a train at McKinnon's Siding on Saturday night. O'Hanley was a room-mate of Dan H. McDonald, the brakesman, who was killed by a train on the previous night, and before he started to work O'Hanley told some of his friends that he had a presentiment that he would meet with the same death as McDonald, and he did.

Thirteen Lives Lost.

Chicago, Dec. 1.—With a deafening report a boiler in Swift & Company's plant exploded shortly after 10 o'clock Saturday morning. Thirteen lives were sacrificed and scores of employes, visitors and others were injured. Huge boilers were sent through the roof of the structure and hurled hundreds of feet. Nobody within the boiler room survived to tell the story of the accident, and it may never be known what caused the explosion. A careful investigation yesterday, however, convinced the experts the explosion was the carelessness on the part of the employe whose own life also was sacrificed. Five minutes after the explosion nothing of the building remained but a pile of twisted iron, bricks and mortar. The loss to Swift & Co. will amount to $50,000.

Dropped Dead in Church.

Ottawa, Dec. 1. — Ottawa was shocked yesterday by the sudden death of Dr. J. A. McCabe, principal of the Normal School, and one of the leading educationists of the Dominion, who dropped dead in St. Patrick's Church during high mass. Dr. McCabe was standing during a portion of the service requiring that attitude, and dropped to the floor. He was picked up by three or four men from adjacent pews and carried to the sacristy, where medical aid was summoned. He required no attention, however, as death had come. Dr. McCabe was 70 years of age. He was born in Ireland. Mr. McCabe was a member of the Board of Examiners of the Royal Military College, and a vice-president of the Dominion and the Ontario Educational Associations.

Death of a Millionaire.

Philadelphia, Dec. 1.—In an attempt to save the lives of himself and three companions in a runaway accident last night, James B. Markoe, a member of the New York and Philadelphia banking firm of Brown Brothers & Co., a society leader and millionaire, was instantly killed. He was dashed headlong against a trolley pole.

Struck by a Train.

St. Catharines, Dec. 1. — George Reece, who was running a steam shovel for the Grand Trunk Railway on the double-tracking operations between here and Merritton, was, perhaps, fatally injured Saturday by being struck by a train. His skull was badly fractured.

Fell Into a Well.

Glencoe, Dec. 1.—Jennie Kelly, 11 years of age, who formerly lived with Mr. M. Goulding, Glencoe, but lately lived on a farm three miles south, met with a fatal accident Friday. She went to the well to draw a pail of water, having on new shoes, and when about to draw the pail up she slipped and fell into the well and was drowned.

Revenue on Increase.

Ottawa, Dec. 1.—The customs revenue for the five months ending Saturday amounted to $15,058,746, an increase of $1,763,069 over the same period of last year. For the month of November only the increase was $171,376.

The figures in detail are as follows: Five months, 1902-3, $15,058,746; five months, 1901-2, $13,295,676.

Increase, $1,763,069.

November only, 1902-3, $2,747,127; November only, 1901-2, $2,575,751.

Increase, $171,376.

Dates For Election Trials.

Toronto, Dec. 1.—At Osgoode Hall on Saturday, Tuesday, Dec. 16, was fixed as the date for the hearing of the election protest against Hugh Clark, the Conservative member-elect for Centre Bruce. The trial will be held at Walkerton.

The protest against E. J. B. Pense, Liberal member for Kingston, will be held in Toronto on Dec. 15; the one against Andrew Miscampbell at the "Soo," on Jan. 6, and the one against W. H. Hoyle, Conservative, at Toronto on Dec. 18.

Landlords Reject the Proposal.

Dublin, Dec. 1.—The committee composed of the Earl of Mayo, Lord Dunraven and others interested in the Irish agrarian question, which proposed to call a conference of the Irish landlords and tenants, with a view to the sale of the land to the latter, met and sent an invitation to the convention of Irish landlords to join the movement. The convention has explicitly declined the invitation.

New Revolt in Morocco.

Tangier, Morocco, Dec. 1.—The Zemmour tribesmen have attacked the Sultan of Morocco, who was marching at the head of an army of 30,000 men to suppress the rebellious Kabyles, commanded by a pretender who was recently reported to have submitted. The Sultan's forces dispersed the tribesmen, but the attack delayed the march against the Kabyles.

Defiant Mad Mullah.

Aden, Arabia, Dec. 1.—A despatch from Berbera in regard to the trouble in Somaliland, says the Mad Mullah has returned to the British the stores he captured in the recent engagement between his forces and the British troops under Col Swayne. The restoration of the stores by the Mullah was accompanied by a defiant message.

The Hunters Hunted.

Milwaukee, Dec. 1.—The season for hunting deer in the northern woods closed yesterday. Fatalities have been unusually frequent in the woods this season, fourteen men having been killed while hunting deer in the States of Minnesota, Wisconsin and Michigan. At least eleven others have been shot and seriously wounded.

Rebel Tribe Punished.

Peshawar, India, Dec. 1.—The four punitive expeditions against the rebellious Waziris on the Afghan frontier have resulted in the destruction of 59 towns and 3 villages. Twenty-five Waziris were killed and 202 captured. These operations have had a salutary effect on the rebellious tribesmen.

Provincial Secretary Resigns.

Victoria, B. C., Dec. 1. — Dennis Murphy, member for Yale, who was appointed Provincial Secretary by Col. Prior, the new Premier, has resigned, and his resignation has been accepted.

A SAD RAILWAY FATALITY

G. T. R. Fireman Killed at Victoria Junction.

The Enterprise Man was Underneath the Engine Endeavoring a Poker From the Fire-box When the the Engineer Pulled Ahead.

(Lindsay Post.)

A most distressingly sad accident happened about 6.30 this morning at Victoria Junction, on the outskirts of the town, which resulted in the death of a young man named Jas. Bauna, of this town, formerly of North Toronto Junction, lost his life. The unfortunate man was a fireman in the employ of the G.T.R. Early this morning he was called to go on a double-header train bound for Midland. This train pulled out at 6.35 in charge of Conductor E. Greenbury, Mr. J. Storey being engineer on the first engine, No. 114, and Mr. J. Costello, the engineer of the second, No. 207. Victoria Junction is a stop for meals for the conductor and he took the time of his arrival at that point. While waiting, Bauna, who was firing for Engineer Storey, informed the latter that the poker had got caught in the grate of the fire-box and it would be necessary for him to go under the engine and get it back. It is reported that Storey told Bauna to go and tell the engineer of the second engine that was standing under the engine, and that he, Bauna, would get the poker. It was underneath his engine the train moved and the poor fellow was run over the large wheels passing over his head, one leg and one arm, amputating the latter two and killing him almost instantly. Deceased was only about twenty-two years of age and has been in the service of the G.T.R. for about five months coming to Lindsay from Allandale.

Coroner Burrows summoned a jury at 8 o'clock, but on account of several of the witnesses being out of town, the inquiry was adjourned till 2 o'clock Wednesday afternoon next.

MR. HAYS' STATEMENT

General Manager Speaks Regarding Grand Trunk Pacific.

G. T. R. WILL ASK FOR A SUBSIDY

Wherein Some of the Public May Have Been Mistaken—Mr. Hays Disabuses Their Minds—Canadian Northern Not Essential to the Success of the Project—A Canadian Port.

Montreal, Dec. 1.—"If anyone thinks we are not going to ask Government assistance for our Pacific Railway project, the sooner his mind is disabused the better," was the emphatic statement made yesterday by Charles M. Hays, general manager of the Grand Trunk, who also expressed great satisfaction at the very favorable manner in which his vast project, as outlined just a week ago, had been received by the press and people of Canada.

It was observed to the general manager that public opinion was considerably exercised over the probable relations of the new enterprise with the Canadian Northern system. In reply, he said that the business public would understand that in all projects of this kind there were certain matters that could not be worked out in a day, but he added, "the securing of the Canadian Northern is by no means essential to the success of the project which we now have on hand."

It was then suggested that the question of Canadian and American ports would be made a vital one as soon as the matter reached the House of Commons, and Mr. Hays made the highly important announcement that they had this transcontinental project in mind when they made their recent terminal arrangements with the Government and harbor commissioners, and he expressed confidence in their facilities at this port.

DALEY BACK IN JAIL.

His Father Persuaded Him to Return and Serve Out Sentence.

Leskport, Dec. 1.—John Daley, son of a Toronto educator, who broke jail here Thursday night by sawing a steel bar and climbing down a rope, improvised out of a call blanket, returned to prison Saturday night accompanied by his father.

Daley said he was seized by a fierce longing to be home with his family as Thanksgiving drew nigh, and planned an escape, which was successful. His father persuaded him to return and serve out his sentence, as he would always have the punishment for breaking jail, as well as for forgery hanging over him otherwise.

The father and son bade each other an affectionate and touching farewell at the jail portals.

Lord Kelvin and Coal.

Apropos of Lord Kelvin's assertion that in 400 years the coal of the world will be used up, Mr. Cartieux, chief engineer of the Northern Railway of France, says that in ten years, between petroleum and alcohol, coal mining will not pay.

Result of New York Expert's Analyses of Canadian-Made Soaps.

Dr. Deimel Linen-Mesh Co. writes: "We sent samples of the leading "soaps made in Canada to an expert "in New York, and had them thoroughly analyzed. As a result of "this analysis, we find your 'Sunlight Soap' to thoroughly cleanse "without danger to the clothes, and "we are therefore pleased to recommend wearers of the Dr. Deimel "Underwear to use Sunlight Soap "for washing."

Try Sunlight Soap—Octagon Bar—and you will see for yourself.

STRUCK OIL

MR. LeBRUN has returned after a successful visit to the wholesale houses, where he secured large quantities of New Goods from manufacturers who were stock-taking and cleared out their winter lines to him at Half.

WORTH DOUBLE!

The following are a few of the lucky snaps which Mr. LeBrun picked up:

PERFECT THE MACHINERY NOW.

The Secretary of the Provincial Board of Health, in his quarterly report, strongly emphasizes the fact that the law providing for the appointment of public vaccinators by municipalities and local Boards of Health throughout the province is in a great majority of instances wholly neglected. He suggests, as a remedy, the appointment of a public vaccinator to whom local Boards of Health and clerks of municipalities should be compelled by law to send monthly lists of all registered births of children, so that this official could visit the homes and offer free vaccination. Where free vaccination thus offered is refused, Dr. Bryce suggests a provision in the law making the production of a vaccination certificate compulsory before a child is allowed to attend public or private schools.

There is no doubt the amendments to the law suggested by Dr. Bryce would render it much more effective and would, especially in country districts, greatly reduce the present danger of serious epidemics. There is, however, another feature which deserves serious consideration, and that is some uniformity in the laws enacted upon this subject by contiguous provinces in the Dominion. For instance, when the smallpox epidemic broke out in Montreal district last spring, it was shown that the epidemic was carried into the Province of Ontario by persons affected with the disease traveling upon trains from infected districts in Quebec, and starting the infection in the cities and towns of this province. It ought to be possible to secure some uniformity in the laws on this subject in contiguous provinces, and an arrangement by which co-operation could be secured between the health authorities, which would prevent the spread of an epidemic from one province to another.

Because dangerous epidemics come only once in a long while, is no good reason why the perfection of the legal machinery to prevent their spread should be left until the danger presses, and the lack of proper machinery is a menace to public safety.—Toronto News.

A SAD STORY.

The body of the late G. A. Darlington, who committed suicide after shooting and wounding Miss Bertha Sheldon, at Ann Arbor, Mich., last Thursday, arrived at Tweed on Monday. The funeral service was conducted by a Methodist clergyman before the remains were removed to the home of the parents of the unfortunate young man at Straitsone. A friend of his in this city says the deceased was as fine a young man as one would want to meet. He served in South Africa and after his return from the war gave several interesting lectures on his experience at the front. The relatives of the deceased, who are highly respected by all who know them, have the sympathy of a large section of the community. The funeral took place on Monday and was largely attended. Many beautiful floral offerings were placed on the casket, showing the esteem in which the deceased was held. The friend of the dead man says he must have been insane when he shot himself. He was a young man who was well liked by all who knew him and was an energetic worker in the cause of religion. The tragedy was the result of one of those freaks to which human nature is sometimes subject and cannot be accounted for. Two of the sisters of the unfortunate young man are seriously ill. The news of the sad ending of their brother may hasten the end of one of them and cause more sorrow in the household.

Excursions to Guelph.

The Provincial Winter Fair at Guelph this year should be visited by every farmer and stockman, and by every farmer interested in the advancement of agriculture and the breeding of live stock and poultry. $7,000 are offered in prizes. The new buildings give increased facilities both for exhibits and visitors. Daily lectures by well known and expert authorities on the different subjects, will be found both instructive and interesting. The Grand Trunk Railway will issue round trip tickets at single first class fare, from stations west of Kingston, good going December 7th to 12th inclusive, and valid returning until December 15th, 1902. Further particulars from agents.

RANNOCKBURN ON THE ROCKS.

Majestic Reports It For a Certainty—Tug Gone to Rescue.

Sault Ste. Marie, Mich., Dec. 1. — The steamer Majestic, bound down has reported for a certainty that the wreck previously reported on the rocks above Michipicoton is the Bannockburn. The Majestic did not run in close enough to learn much concerning her, but the captain stated that unless the wind should shift there is no danger of her breaking up immediately. She is now rather high out under the ice of the north shore, and a wind from across the lake would break her up rapidly. The tug, Boyton of the Great Lakes Towing Company's fleet has been sent to her aid.

PARALYZED COMMERCE.

Stokers' Strike at Marseilles Is Practically Complete Now.

Marseilles, Dec. 1.—The strike at this port, which was started last week by the stokers to obtain an increase of wages, is now practically complete as regards the steamers here. As ships arrive the hands desert and the harbor is now so crowded with empty vessels that it is difficult to find room for newcomers.

The strike has practically paralyzed commerce along the coast, as it is spreading to other ports. Six hundred passengers are now waiting at Marseilles for transportation to Algiers.

New Manitoba Railway.

Winnipeg, Dec. 1.—In The Manitoba Gazette this week notice is given that application will be made at the next session of the Legislature for an act to incorporate a company with power to construct, maintain and operate a railway and a telegraph, commencing at Portage La Prairie and running in a southwesterly direction to a point at or near Belmont Station on the Morris-Brandon branch of the C.N.R., and also for a line commencing at Portage La Prairie and running westerly to Brandon.

Kronprinz Wilhelm Solely to Blame.

London, Dec. 1.—In the Admiralty Court Saturday afternoon the judge handed down a decision to the effect that the North German Lloyd steamship Kronprinz Wilhelm was solely to blame for the collision off Beachy Head last month with the steamship Rebert Ingraham, through which the latter vessel was lost. The judge held that the Kronprinz Wilhelm was proceeding at an excessive rate of speed in a dense fog at the time of the collision.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E.W. Grove's signature is on each box. 25c.

Off For India.

London, Dec. 1.—The Duke and Duchess of Connaught, who are to represent King Edward and Queen Alexandra at the Coronation Durbar, started on their journey to India Saturday. They will go by way of Egypt, where they will be present at the opening of the Assouan Dam. Colonel "Jack" Leslie (who is a member of the Duke of Connaught's staff) and Mrs. Leslie accompanied the Duke and Duchess.

Eight Shipwrecked Men Picked Up.

New York, Dec. 1.—The Quebec Company's Fontabelle, which arrived yesterday from the West Indies brought eight shipwrecked mariners, who were picked up at sea in an open boat on Saturday evening. The shipwrecked men were Captain W. G. Kneeland and the crew of seven men of the American schooner Pendleton Bros. They had been 19 hours in the small boat when picked up.

Artist Syndon Sentenced.

Rouen, Dec. 1.—The artist Leon Syndon, who shot and killed a stock broker of the name of Lucien David, while the latter was walking along the shore at Etretat with his wife, was sentenced to serve 10 years' imprisonment at hard labor and pay a fine of one franc damage. The judgment will be contested.

"C. R. Co." rubbers are the most tasty and best constructed rubber shoes in Canada. If you value comfort and wear insist on your shoe dealer supplying you with this brand.

THE CATTLE DISEASE

Imports from Infected States to Canada Prohibited.

FIGHTING HOOF AND MOUTH EVIL

Canadian Minister of Agriculture Gives the Reasons Which Led Up to the Order Being Issued—Halifax Ready to Profit by Probable Increased Canadian Trade—Prices to Go Up in England.

Ottawa, Dec. 1.—The Minister of Agriculture has taken prompt action to prevent Canada's cattle trade with Great Britain, a trade that amounts to about ten million dollars annually, being jeopardized by the outbreak of disease among the flocks and herds of the New England States.

Hon. Mr. Fisher, when asked about the matter yesterday, said that in the first place it had been ordered that all empty cattle cars returning to Canada from New England ports, shall be stopped and thoroughly disinfected before being allowed to cross into the Dominion.

"In the second place," continued Mr. Fisher, "we have forbidden absolutley any entry of cattle from the six infected New England States into this country. We have also communicated, through the High Commissioner in London, with the Imperial authorities, informing them of what steps we are taking. We have, further, telegraphed to the Department of Agriculture at Washington, to ascertain what they are doing there to prevent spread of the trouble in the United States."

Hon. Mr. Fisher, was asked if, ordinarily, many cattle from the Eastern States, came into Canada, either for consumption or in transit. His reply was: "No, very few. But if exportation be forbidden by way of Portland and Boston an attempt might be made to run cattle from the infected districts into St. John for shipment, so we must guard against bringing the disease into Canada or having ships sailing from Canadian ports infected, which would ruin our cattle trade with Great Britain very much, as this outbreak is ruining the cattle trade from the New England States."

Halifax Is Ready.

Halifax, N.S., Dec. 1.—The Halifax Board of Trade, on receiving inquiry on Saturday from the agents of the Leyland Line Steamship Company of Boston as to the facilities at this port for the shipment of cattle, took prompt action. The agents were notified that there was ample accommodation at Halifax and no difficulty will be experienced at Maritime ports in handling all the cattle sent along. The Exhibition grounds have been secured and between 2,500 and 3,000, head of cattle can be housed there.

The I.C.R. will provide increased accommodation, and the trains will run right into the grounds.

Temporary sheds will also be erected at Richmond. Canadian shippers of cattle need have no fear about the facilities at this port, as the business can be handled without great difficulty.

Prices to Go Up.

London, Dec. 1.—The closing of British ports to animals exported from the New England States, on account of the prevalence there of the foot and mouth disease, taken in connection with the already high price of beef, has alarmed consumers here who look forward to a dear Christmas market.

There is some mention of stock being available in Holland and Denmark, and even a possibility of some benefit accruing to the English raiser.

It is estimated that the price of a good Christmas joint will now probably be about a shilling a pound. Several cattle ships which are now on the way from the infected New England ports with consignments for the Deptford market will be watched closely on their arrival. The men and beasts will be carefully quarantined. Before the men who have been working among these cattle are allowed to enter any other part of the market their clothes will be fumigated, and they themselves will have to sit in a disinfecting vapor bath.

May Help Canada.

Montreal, Dec. 1.—According to the best authority there does not appear to be much danger of the cattle disease of New England being communicated to Canada. Professor Duncan McEachren, honorary veterinary adviser to the Government, stated yesterday that the embargo placed on American shipments would probably give Canada a temporary advantage. This, he added, is not the first time the foot and mouth disease has been introduced to the States without its being thence imported into Canada.

Last For Some Time.

Boston, Dec. 1.—With the departure of a drave of cattle on the steamer Sylvania for Liverpool yesterday the Boston export market of cattle on the hoof officially closed for an indefinite period. Permission to ship these cattle had been given by the Bureau of Agriculture at Washington, as they had been pronounced physically sound and free of any infection from the foot and mouth disease. The vessels in this port at present that were to have carried cattle freights to Europe will have to seek some other kind of freight. Dr. Bennett, the representative of the Bureau of Agriculture here, says that not another live animal will leave this port until the department is satisfied that the foot and mouth disease has been stamped out.

200 Feet of Dam Torn Away.

Montreal, Dec. 1.—Some 200 feet of cross dam of the Chambly Power Works were carried away yesterday morning, entailing the stoppage of the works, although a coffer dam will be built at once and the full supply is promised in two months' time.

For a Certainty I am Cured.

Mr. James Treneman, butcher, 536 Adelaide street, London, Ont., writes that for two years he was laid up with kidney disease and urinary troubles. He became dropsical and his legs would swell so that he could scarcely go round. He never used any medicine that did him so much good as Dr. Chase's Kidney-Liver Pills and knows for a certainty that this treatment cured him. One pill a dose, 25 cents a box.

TEN BOERS GOLD BARS.

Great Mystery After Dr. Leyds and Kruger for $2,500,000.

Berlin, Dec. 1.—The British Government is telegraphing to all German ports, making inquiries concerning a number of Boer gold bars worth $650,000, which it is supposed have been brought to this country from South Africa within the past fortnight. The bars are destined for former President Kruger and Dr. Leyds, and, as it is presumed, had been concealed in the Northern Transvaal.

Great Britain will endeavor to legally attach the gold if it can be located on the ground that she is entitled to all the assets of the Transvaal because she has assumed responsibility for the debts of that country, including the bonds issued prior to the war.

Gen. Botha's reply to Colonial Secretary Chamberlain, that the late Boer government had no assets, was strictly true, as far as he knew, but since receiving Mr. Chamberlain's letter Gen. Botha learned, according to seemingly trustworthy information here, that Mr. Kruger and Dr. Leyds have in their possession $2,500,000.

Gen. Botha requested them to turn over this gold for the benefit of the Boer people, but Dr. Leyds refused, averring that the money was to be used in upholding the Boer nationality in the future. Gen. Botha has notified Dr. Leyds that unless the gold is given up legal proceedings will be brought against him.

Kruger Wants to Go Back.

London, Dec. 1.—General Schalkburger and Messrs. Wessels and Wolmarans, the former Boer delegates, sailed for South Africa. The general is the bearer of a letter from Mr. Kruger to Colonial Secretary Chamberlain asking that Mr. Kruger be allowed to return to South Africa. Messrs. Wessels and Wolmarans had been refused permits to proceed to the Transvaal Colony, but they hope the prohibition will be rescinded after their arrival in Cape Colony.

Thinning Out Emigrants.

London, Dec. 1.—The Government has thrown further difficulties in the way of intending emigrants to South Africa. The colonial office announces that after Dec. 1 no permits to proceed to the Transvaal or to the Orange River Colony will be issued in England or anywhere except at South African ports. Intending passengers are advised to ascertain before hand by writing whether they are likely to obtain permits.

New Diamond Field.

Johannesburg, Nov. 30.—A diamond discovery, which is probably the most important since that at Kimberley, has been made at Elandsfontein. Seven diamonds were found in three shallow holes.

INTERESTING FACTS.

For Nearly Every Man Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy, have been abundantly sustained by the facts. People who were cautious about trying new remedies advertised in the newspapers, and were finally induced to give Stuart's Dyspepsia Tablets a trial, were surprised and delighted at the results. In many cases a single package costing but 50 cents at any drug store, made a complete cure, and in every instance beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unsolicited testimonials, and never publishh the same one twice.

From James Yenmeisler, La Cross, Wis.: Stuart's Dyspepsia Tablets are doing me more good than anything that I ever tried, and I was so pleased with results that I gave away several boxes to my friends who have also had the same benefits.

From Jacob Anthony, Portmurray, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had dyspepsia for six years and had taken a great deal of medicine, but the Tablets seemed to take right a hold, and I feel good. I am a farmer and a limeburner, and I heartily recommend them to anybody who has any trouble with his his stomach, to use these Tablets.

From Mrs. M. K. West, Preston, Minn.: I have received surprisingly good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend, who also suffered from indigestion, and she had the same good results.

From Mrs. Agnes K. Ralston, Cadillac, Mich.: I have been taking Stuart's Dyspepsia Tablets and I have been very much better, and feel very grateful for the great benefit I have received in so short a time.

Stuart's Dyspepsia Tablets are a certain cure for all forms of Indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them to all persons suffering from nervous dyspepsia, sour or acid stomach, heartburn, bloating or wind on the stomach, and similar disorders.

Grandest and Proudest Day in Our History

DECEMBER 4th, 1902.

ONTARIO'S CHARTER OF EMANCIPATION

Freedom From a Most Cruel Slavery.

LIBERTY—HAPPINESS—PROSPERITY.

Joys of home, wife and children given to 16,268 suffering in the coils in this Province, and sound mind and bodies to thousands more in the asylums, reformatories and hospitals.

What a freedom from heavy taxation to support all this—all those kept in cruel and bitter bondage by our licensed bar-rooms. To stay at home will be to give the benefit and support to the liquor traffic.

Let every man get out and vote in favour of the Liqour Act on **Dec. 4th** and

SAVE THE BOYS.

This is your opportunity—don't let it pass.

Don't listen to appeals of men or agents who spend their days in sucking the character, life and virtue out of your fellowmen.

Don't be misled by the foolish arguments of men who make their money out of the degradation of men and women and the destruction of home.

Don't be led astray even by the opinions of priest or prophet who, through strong drink, errs in vision and stumbles in judgment.

212,723 Votes are Required to Carry the Act.

Vote for the Liquor Act of 1902, which closes the bar-rooms and will save the boys. Mark your ballot thus—

	YES	NO
Are You in Favour of the Liquor Act of 1902?	X	

Which means that you are in favour of this Act which proposes to banish the bar-rooms.

See your duty to your God, to your Province, your family and its future—then do the right on December 4th.

Do not be frightened into doing injury to your conscience and to the lives of your fellow citizens by cries of compensation, for the drunkard makers will have till May, 1904, to sell off their poison and get into better employment. There will be no compensation.

BRITAIN IS ROUSED

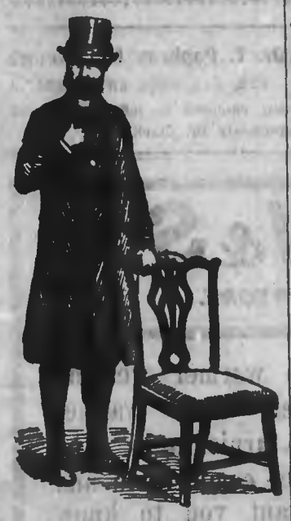
EDUCATION BILL DISPUTE GROWS KEENER DAY BY DAY.

Prediction Made That Revolution Will Follow Passage of Law by Parliament—Country Split Into Factions—Controversy Ranges Nonconformists on One Side and English Clergy With Premier On the Other.

The adoption by the Commons of Mr. Balfour's motion to apply automatic closure to the consideration of the Educational bill will bring this great controversy to an end by Nov. 28. The bill must be passed by that date or lapse.

Free non-religious education is said by opponents of the bill to be on trial before the people of England, and it is predicted that should this bill—which proposes to tax the nation in order to teach the state religion in the schools—be passed by Parliament its passage will be followed by a revolution of extraordinary vigor and deep-seatedness.

The measure, which is openly favored by the Premier, is said to have been drawn up by Right Rev. Edward Stuart Talbot, Bishop of Rochester. He is the grandson of the



BISHOP OF ROCHESTER.
Right Rev. Edward Stuart Talbot, real Author of the Education Bill.

second Earl of Talbot and of the first Earl of Wharncliffe, and he stands for the aggressive party in the Anglican clergy, who would place the State religion before the very throne and the Parliament themselves.

In brief the bill provides as follows:

"In the county boroughs which comprise all the great towns of the country, the power and duty to provide public instruction of every kind are vested in the municipal councils. In the county areas (with some exceptions) the power is vested in the county councils. All these councils are composed of persons directly elected by the ratepayers and of aldermen, whom the elected members afterward choose. The bill requires that a special committee for education shall be appointed. The majority of the committee must be directly appointed by the council."

The clause affecting the elementary schools provides that in all council or public schools two-thirds of the board of managers shall be appointed by the council and one-third by the people; in the private elementary schools two-thirds of the board shall be appointed by the religious body to which the school belongs and one-third by the municipal council.

The tremendous importance of this last clause will be understood when it is stated that in 8,000 parishes of England and Wales there is no public school, the whole of the educational work being done by religious schools, the vast majority of which are ruled by the Church of England clergy.

Such is the situation which has stirred up the people of England as they were never stirred before since the day of Mr. Gladstone's Reform bill.

The controversy has split the country into two factions. Both sides have strong leaders. The Nonconformists are ranged in solid phalanx against the bill. The English clergy and their friends are arrayed solidly for it.

The four statements following fairly places the arguments of both sides to the controversy. Mr. Balfour, the Premier, says:

"When I find Nonconformists really hurt and apparently suffering under a sense of wrong over this bill I quite honestly admit that it gives me great pain. Though I am told every day of my life that I am trampling upon their rights that they are being deprived of their privileges as citizens, that their consciences are being outraged, I can most truly say that I cannot understand how it is that they can find this particular class of objection can weigh upon their mind. What is the system that this bill introduces?

"The typical case will be that whereas the clergyman of the parish is at present sole manager of the education of his parish, under the bill he will be one of six. They (the Nonconformists) wish to see the difficulty of raising subscriptions grow and grow, and with the growth of the difficulty the voluntary schools one by one extinguished like lamps at the end of a feast in order that when that happy consummation is reached they may have what they call a national system of education."

Most Rev. Frederick Temple, Archbishop of Canterbury and Primate of all England:

"The proposal to put the cost of maintaining these elementary schools upon the rates sets the clergy free from the pressure, at present almost intolerable in many places, to raise sufficient money to carry the schools on in any sense whatever for the purposes for which they were built. The present system imposes on churchmen a kind of instruction which they do not recognize in any sense as their own.

"The bill gives them guarantees for the character of the religious instruction, and no system can be just which refuses such guarantees. The schools provided independent of the church have no guarantee whatever that the religious instruction will be satisfactory or sufficient. The children of the church are to be taught, in many cases are taught, the doctrines of the Unitarians, and the church is called upon to be content to have it so. The Nonconformists call this justice; the church does not. On the other hand, I am bound to say that the Nonconformists have a right to complain that the bill is not absolutely just to them."

Mr. Asquith (Liberal)—The position of the Nonconformist child in many village schools is that the profession of teaching is practically closed against them, and, so far as his parents are concerned, there is the absolutely inefficient and shadowy protection of that which is called the "conscience clause." I share to the full the sense of grievance, of gross injustice, which that state of things must produce in the mind of every man who is worthy to be called an Englishman. Dr. John Clifford, the well-known Baptist, declares that the country would have welcomed any measure which would have unified the machinery for dealing with secondary education or that would have made it possible to step from primary to secondary and to the highest form of education in the university without any break. This was a great crisis in the nation's life, and the primary rights of English people—liberty of conscience, constitutional law and order, the efficiency of their educational system and the control of the state education—were at stake.

The sense of the Congregationalists is expressed in the adoption of the following resolution by their recent convention:

"That this assembly protests most strongly against the Education bill now before Parliament, inasmuch as (1) it sacrifices educational efficiency to sectarian and priestly ends; (2) by the summary abolition of the school boards of England and Wales it has seriously impaired the direct control of the people over schools supported by public funds, while it also tends to withdraw such schools out of the range of their immediate interests * * * (4) it violates the principles of civil and religious liberty—(a) by placing the entire support of denominational schools on public funds without providing for public control in all respects of such schools, and (b) by confining the appointment of teachers in denominational schools to members of the denomination."

These extracts show the acerbity if not the bitterness with which the controversy is being carried on. Whichever way the issue is thrown the most important effects must follow in the national life of England.

How to Prolong Life.

The following rules for warding off death have been compiled with great care for the Modern Miller by experts, and meet with the indorsement of the most competent medical authorities in the world:

Never step into an elevator hatchway when the car is not there.

Do not permit yourself to be run over by a street car or railroad train.

Under no circumstances allow a brick to drop from the top of a building on to your head.

Be careful not to be in a place when a bolt of lightning strikes it.

Never fall from the top of a high building.

Do not take hold of an live electric wire. Both you and the wire cannot remain alive.

John L. a Bankrupt.

New York, Dec. 1.—John L. Sullivan went into bankruptcy Saturday in the interest of the drama and Boston. If he had not done it he could not have gone to Boston next week to fill a theatrical engagement without risking the indignity of arrest for a little matter of $4000 for clothes.

Able to Get Up.

London, Dec. 1.—Andrew Carnegie, who has been lying ill here for the past fortnight, was able to get up for the first time yesterday.

WIRELESS SERVICE THIS YEAR.

Marconi Hopes Soon to Be Sending Messages Across the Atlantic.

London, Dec. 1.—The St. James' Gazette says that the Marconi Company is not prepared at the present time to indicate the probable date when it will be ready, but it is fully expected that a service will be in operation before 1903.

A new magnetic detector is now being tested with a view of increasing the speed of transmission. It is answering the purpose admirably. With the ordinary coherer, the guaranteed speed is only ten words a minute, although twenty words have been sent. According to the inventor, the magnetic detector will enable him to send 40 words a minute with comparative ease, and he thinks there will be little difficulty in increasing it to sixty words a minute.

MARKET REPORTS.

The monthly tea for strangers in connection with the Strangers' Social Evening Club, was held on Saturday evening in the Y.M.C.A., about being a goodly number present, including new comers from Scotland, New Brunswick, Campbellford, Woodstock and other points. The tea was presided by the ladies of St. Andrew's church.

Diaries for 1903.

Select your pocket diary now. If the one you have suits you look at the number on the first page, and get another one just like it. We invite you to call this evening and inspect our stock of books and Christmas novelties, annuals, etc. Our stock is bigger and better than ever. We will have just what is required for pretty Christmas presents. Come and see. A. H. Stratton & Co., 417 George street.

As Seen in Montreal.

When the Peterborough Rugby Team was in Montreal, they were pleased with the sight of a unique advertisement. Several large vans, closely followed by half-a-dozen strangely dressed men, passed up and down the principal streets. The large vans were lettered: "Quaker Oats. Manufactured by the American Cereal Company, Peterborough, Canada." The men in the procession represented Quakers.

Obituary.

The death occurred yesterday evening at No. 24 Parnell street, of Miss Georgina Lasure, daughter of Mr. Arthur Lasure. The deceased was 14 years of age and has been ailing since July last. She was a promising young lady and general sympathy is extended to the bereaved family in the sad loss they have sustained. The funeral will take place to-morrow morning at 9 o'clock to St. Peter's Cathedral, and thence to the Roman Catholic Cemetery for interment.

PETERBOROUGHS WERE BEATEN BY QUEBEC.

The Canadian Championship Goes Down East.

THE SCORE WAS 8 TO 0.

The Boys had an off day—The Same as Montreal on Saturday—A Pleasant Trip.

The Peterborough Rugby team came, saw, but conquered not.

It was rather disappointing news that was flashed across the wires from Montreal on Saturday evening, and when the announcement was posted in front of the local newspaper offices that Peterborough had been defeated at Montreal, by the Quebec team, there were many who could scarcely believe that it was true. However, it was a fact that the locals were outplayed by the aggregation from the Lower Province, by a score of 8 to 0, and the Intermediate championship of the C.R.U. will not come to Ontario this year, at least.

No one feels more keenly the unfortunate turn of affairs than the members of the 15, who scarcely realise yet that they were beaten by the same men whom Peterborough so grandly trimmed one short year ago. There is reason in all things, however. Peterborough cannot win always — fate must be against them once in a while, and they were truly "up against it" on Saturday. There are no excuses to offer, other than it appeared to be an off day with the boys. They had not become warmed up to the work before time was called, and the big event was over. The officials were impartial; the game free from roughness and good natured throughout. Peterborough was outplayed at every point, but had they played the game of a week ago there would have been a different story to tell. The Quebec men won on their merits, and are justly entitled to the glory attached thereto, whilst Peterborough may find consolation in the contention that the next glorious thing to a victory is a gallant defeat.

The Peterborough team left here per special Pullman sleeper attached to the G.T.R. express on Friday night. When they awakened they found themselves in the Canadian metropolis. The boys registered at their old quarters, the Queen's. Their opponents, the Quebecers, stayed at the St. Lawrence Hall. The day was fine, although the appearance of so many sleighs gave an impression of winter. The condition of the Rugby field at the M.A.A.A. grounds, more than confirmed this impression. About 2 1-2 inches of snow, in which to play sent a cold chill through the spectators, if not through the players.

It was about 2.30 o'clock when Referee Mackenzie, of Montreal, assembled the men of both teams in one of the dressing rooms, and made his little speech. He told them the same old story, of course, in regard to how they should conduct themselves, and in a minute more they were on the immaculate white field. The Union had commissioned Mr. Christmas, of Montreal, to act as umpire. He was appointed to the position by reason of his ability, and not by reason of the appropriateness of his name to the climatic conditions that prevailed.

When the teams lined up on the field, it was quite apparent that the Quebec men had the advantage in weight. This was more in evidence as the game proceeded. The Lower Province representatives won the toss and elected to kick with the wind, which, as a matter of fact, was only slight. For the first ten minutes the ball was in Quebec territory, and it looked as if Peterborough would soon score. A change of events came, however, and for the remainder of the game, Peterborough was decidedly out of it. Captain McPherson seemed out of condition; President Burnham couldn't kick—he had a game leg; Revell was put out of business by a kick in the muscles, and Cameron took his place. Fate seemed to be against the boys, and just before half time Quebec scored a touch in goal.

A short intermission, and the boys were at it again, and the little band of Peterborough backers shouted words of encouragement from the grand stand. However it appeared that the boys were out to lose. A rouge by the Quebec team made the score 3—0.

Then a touch down, which was very prettily converted, ran up 6 points for Quebec, and Peterborough realised that they were now out of it. Nevertheless during the last fifteen minutes Peterborough forced the play to a considerable degree, and it was thought that they would make at least one point. The timekeeper's whistle blew, and Peterborough felt blue, while the only thing that was blue about the Quebec men was their sweaters.

It must be admitted that Peterborough was handicapped by the condition of the field. It was so slippery with snow that the locals could not run to the same degree as they usually do. But the day was over, the championship won by Quebec, and Peterborough took satisfaction in the fact that they themselves carried it off twice in four years.

A feature of the boys' trip to Montreal was the hospitable manner in which they were entertained by many Peterborough old boys, now resident there. Mr. Bert Thompson presented each one of the boys with a handsome little bouquet, whilst Messrs. Frank Paisenhall, Clarence Ball, Bert Thompson, and others, dined with the boys and saw them off at the depot.

The team was conveyed by special train from Port Hope yesterday morning.

The Quebec team is composed of fine big fellows. They are a fine gentlemanly lot of men, and the two teams parted on the best of terms. Strange to say that whilst the champions hail from Quebec there is not a Frenchman on the 15. Many of them are battery men and in fact, it is said that at least seven of them are heroes of Pearl Harbor. They can attach another bar to their medal, viz. "Heroes of Westmount."

The teams lined up as follows:

Quebec—Pugh, full-back; Drouin, Tofield, Stocking, halves; McWilliams, quarter-back; Cook, Lindsay, Carter, scrimmage; Cook, Rose, Poker, McGillivray, Rattray, Wetmore, Watson, wings.

Peterborough—Lee, full-back; McPherson, Burnham, Richey, halves; Bell, quarter-back; Craig, Hurtubise, Thornton, scrimmage; Dillon, Revell, Asselstine, Meagher, Crowley, Deannard, Noble, wings.

Referee—Phil McKenzie, Britannia. Umpire—Hy. Christmas, Britannia.

THE CHURCHES YESTERDAY.

Rev. E. D. McLaren Preached in Peterborough Yesterday.

Services in the Various Churches—The Music.

Rev. E. D. McLaren, Superintendent of Missions for the Presbyterian church, preached in St. Paul's church yesterday morning, and at St. Andrew's church in the evening. The reverend gentleman delivered two very able discourses, dealing with the state of missions in the Northwest.

In the evening Rev. Dr. McLaren delivered an exceptionally interesting discourse. He dealt with the matter of immigration, and expressed the opinion that foreigners coming into Canada should be distributed over the Dominion in sections of 200 or so, in each, instead of being placed in one large settlement. He also dwelt upon the alleged immorality of the west, contending that it devolved upon the older provinces to see that the standard of morality was on the same level throughout our country.

GEORGE STREET METHODIST.

Epworth League will be held to-night as usual.

The Girls' Guild will meet to-morrow evening to make final arrangements for the bazaar to be held in the Y.M.C.A. on Thursday and Friday of this week.

Rev. Mr. Jolliffe occupied the pulpit at the morning service at the church yesterday, and Rev. Mr. Rae, formerly of the Charlotte street church, in the evening.

The following music was beautifully rendered at the services yesterday: Morning — "Conquering Kings their Titles Take," "Though Your Sins be as Scarlet." Evening — "Softly now the Light of Day," "The Mellow Eve is Gliding."

ALL SAINT'S CHURCH.

Yesterday was St. Andrew's Day and Rev. W. L. Armitage gave an interesting and telling address at the morning service on "The Call of St. Andrew." In the evening the first of a series of sermons on the "Book of Malachi" was preached and from the attendance and interest the series will be much appreciated throughout. The series will be preached at both morning and evening services.

It was announced at the evening service that the Annual Sunday School treat would be a Christmas tree and cantata, to be held January 6th, 1903. The first practice will be on Thursday afternoon after school.

ST. JOHN'S CHURCH.

At the evening service there was a large congregation. At the offertory Mr. Pereira sang with very pleasing effect the solo, "A Dream of Paradise," and at the conclusion the choir gave a fine rendering of the hymn, "Hark, Hark, My Soul," Mr. Wesley taking the solo in good voice and Mrs. Seward and Mrs. Winch, soprano and alto respectively, the duet.

ST. LUKE'S CHURCH.

Large congregations were present at both services yesterday, and a large number partook of their Advent Communion. The choir, under the able leadership of Mr. Greenslade, sang well. In the morning Turner's "Benedicite" was sung in the place of the "Te Deum." At the evening service Simper's anthem "Rejoice Greatly, O, Daughter of Zion" was splendidly rendered, Miss Edith Burnham taking the soprano solo very effectively. The Rector began his two series of Advent sermons.

"An Evening with Dicken's" presented by Mr. E. S. Williamson in the Opera House to-night. Tickets 25c, Reserved Seats 35c.

RECEIVE THEIR MEDALS.

Those Who Were on the Coronation Contingent.

Those who went from Peterborough on the Coronatiion Contingent have just received their medals. Regimental Sergt.-Major Goldy, of the 3rd Dragoons, this morning showed his medal to the Examiner. It is of bronze gilt, and has a neat little red white and blue ribbon attached to it. The inscription, "June 28th, 1902," is on one side of the medal, while the picture of the King and Queen is on the other side.

Those from here who received the medals were: Regimental Sergt.-Major Goldy, Sergt. Trumpeter Goldy, Sergt. Hooten, Squadron Sergt.-Major Cleghorn and Sergt. Duffus.

JUDGEMENT DELIVERED.

In the Case of Rex vs Hull in the Exchequer Court.

Hon. Justice Burbidge, of the Exchequer Court, has handed out judgment in the case of Rex. vs. Hall. This is an action that has been pending for some time, and was brought on by the Dominion Government to compel Mr. John Hull, of Lakefield, to accept a certain sum of money as compensation for certain lands in the village owned by Mr. Hull but expropriated by the Dominion Government for canal purposes.

Judgment has been given in favour of Mr. Hull for $10,500, and he was also granted the absolute right in fee simple of a lot known as the "Davis lot," which cost the Crown $1,100, together with certain rights of way and privileges. This gives Mr. Hull complete control over lands, buildings and general injury by reason of the expropriation. It includes costs to the amount of $450 allowed by the judge, and $2000 interest.

G. F. Shepley, K.C., Toronto, and R. R. Hall, Peterborough, for the Crown; D. W. Rumble, K.C., Peterborough, and G. H. Watson, K.C., Toronto for defendant.

Subscriptions are being renewed every day. We save you all writing, cost of money orders, etc. SAILSBURY & CO.

ST. ANDREW'S NATAL DAY.

An Anniversary Sacred to Scotchmen.

QUIET IN PETERBOROUGH.

Who and What St. Andrew was and is—Scotchmen Have no Monopoly of the Saint—The First Christian Missionary.

Yesterday was St. Andrew's, and it was observed in the churches. This day is usually observed in an especial manner by Scotchmen, wherever Scotchmen are found and that covers the globe pretty well. In Peterborough, however, this year the festival received no set observance. St. Andrew's local society is not in a very lively condition here; it is not dead, only dormant. Why it is so, is not a matter of public enquiry, though those who have in former years attended the annual celebration of the day under the auspices of the society, and noted the extraordinary enthusiasm that marked such occasions, naturally wonder why this year an exception is made. The society has, however, a corporate existence, and a few bawbees in the treasury. This morning Mr. Menzies, the secretary, received the following greeting from the far West—Rossland, B.C.:

"Rossland, B. C., Nov. 30th.

"President St. Andrew's Society, Peterborough,—

"Rowth o' brose, and bannock glypses o' barley, kail tas lika Scot, glenlivet hot, an' a fu' dinner pail."

Although there was not, nor will be, a set celebration of St. Andrew's anniversary, a little reminder of the history of the Saint, will not be uninteresting:

In Chambers' Book of Days, the following history of St. Andrew's is given:

St. Andrew was the son of Jonas, a fisherman of Bethsaida in Galilee, and was the brother of Simon Peter, but whether elder or younger, we are not informed in the Scriptures. He was one of the two disciples of John the Baptist, to whom the latter exclaimed as he saw Jesus pass by, "Behold the Lamb of God." On hearing these words we are informed that the two individuals in question followed Jesus, and having accosted Him were invited by the Saviour to remain with Him for that day. Thereafter Andrew went in quest of his brother, Simon Peter, and brought him to Christ, a circumstance which has invested the former apostle with a special pre-eminence.

After the ascension the name of St. Andrew is not mentioned in the New Testament, but he is believed to have travelled as a missionary through Asiatic and European Scythia, to have afterwards passed through Thrace, Macedonia, and Epirus into Achaia and at the City of Patra in the last-named region, to have suffered martyrdom about 79 A.D.

The Roman proconsul, it is said, caused him to be first scourged and then crucified. The latter punishment he underwent in a peculiar manner, being fastened by cords, instead of nails, to the cross, to produce a lingering death by hunger and thirst, whilst the instrument of punishment itself, instead of being T-shaped, was in the form of an X, or what is termed a cross decussate.

We are further informed that a Christian lady of rank, named Maximela, caused the body of St. Andrew to be embalmed and honourably interred, and that in the earlier part of the fourth century it was removed by the Emperor Constantine to Byzantium, or Constantinople, where it was deposited in a church erected in honour of the twelve apostles.

The history of the relics does not end here, for we are informed that about thirty years after the death of Constantine, in 368 A.D., a pious Greek monk, named Regulus, or Rule, conveyed the remains of St. Andrew to Scotland, and there deposited them on the eastern coast of Fife, where he built a church, and where afterwards the renowned city and cathedral of St. Andrew's was built. Whatever credit may be given to this legend, it is certain that St. Andrew has been regarded from time immemorial as the patron saint of Scotland, and his day, the 30th of November, is a favourite occasion of social and national reunion amid Scotchmen residing in England and other places abroad.

The commencement of the ecclesiastical year is regulated by the Feast of St. Andrew, the nearest Sunday to which, whether before or after, constitutes the first Sunday in Advent, or the period of four weeks which heralds the approach of Christmas, the first and sometimes the last festival in the Christian year.

St. Andrew was a native of the Galilean town of Bethsaida, and with his brother Peter was a fisherman. He was not only a hearer of John the Baptist, during that prophet's so popular ministry, but became identified with him as a disciple. It was while in the company of his master, that he was directed by him to Jesus, the Lamb of God. The story of his interview with the Saviour is well known, and his brotherly action on the following day in finding his brother Simon and imparting to him the glad news of a Messiah, news that had rejoiced his own heart and made him long to share it with others. St. Andrew in this act has often been compared to a small river steamer, towing out from her moorings into mid-stream a huge ocean-going vessel. Peter became by far the more conspicuous character of the two, and appears to have moved in more stirring scenes, but for that first news of the Master, Whom afterwards he so devotedly served, Peter was indebted to the quieter Andrew.

Andrew comes before us again in the Gospel story with his suggestion, in the presence of the hungry multitude of the presence of a lad who had five barley loaves and two small fishes, and once again when some Greeks—fore-runners of the multitudes of Gentiles who should yet come into the Kingdom—desired to see Jesus; he with Philip led them to the Christ.

SCOTLAND'S CLAIM TO THE SAINT.

Scotland's claim to a special interest in St. Andrew rests upon the tradition that a certain abbot, Regulus, in 369 A.D., carried from Constantinople to Scotland some relics of the saint, and deposited them in a church built in St. Andrew's honour, and named after him on the spot where the city of St. Andrew's now stands. The monastery connected with the church became a place of popular resort for pilgrims from many lands, and as early as 800 A.D., was endowed with very great wealth by one of the early kings in thanksgiving for a victory obtained. The history of the church of that historic town, of its part in the early evangelization of Scotland, of the sense in which it played so large a part at the Reformation, or the great university that has had so conspicuous a place in the educational system of the Scots, all this belongs to another subject, rather than the life and labours of the saint. It is not too much, however, to say that as St. Andrew was, as Bede called him, "The introductor to Christ," Scotland has in no small measure emulated the example of her patron saint in playing the part of the pioneer in paths of political, educational and religious reform for the world, and so has opened the way into the Kingdom of Christ for the sons of many lands besides her own.

Now is the Time.

To have your fern dishes filled, and remember that we have the finest stock of ferns in town. It is a pleasure to show you our stock. We can always supply your wants from the smallest button-hole bouquet to the largest table design. Decorative plants for balls, parties and weddings. Funeral designs made up promptly. All parcels delivered. Prices moderate, at the Aylmer street Greenhouses. Jos. H. Cobb. 'Fone 132.

PETERBOROUGH'S MODERN STORE.

DECEMBER WEATHER

Means warmer wearing apparel and warmer house furnishings. You must be comfortable and we want you to know that this store has the things to make you comfortable at Prices within the reach of everybody. There's one satisfaction in buying goods at this store, and that is you can depend on getting the best that can be procured and our guarantee of perfect satisfaction. It will pay you to buy the best, and our prices are not any higher than for the ordinary goods.

There's more genuine comfort, as well as protection to health, in combination suits than in garments of any style. We offer this week Ladies' Woollen Combination Suits at $1.00, $1.50 and $1.75—the best values you will see for some time to come. The price has shrunk considerably, but we guarantee that the goods will not.

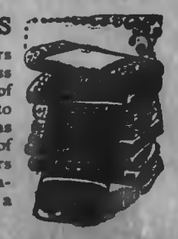
FIXED FOR WINTER

is the woman who comes here early and secures one of these snug, stylish, handsome Jackets, made of Kersey, Melton, Beaver, and other good stuffs, some with storm collars and others with the gentlemen's ordinary coat collar, other styles, all sizes, suitable for all ages, and all wonderful values at the special prices we quote in them. But do not forget to call early.

BLANKET BUYERS

are thronging to this store, where they know they can get the best. A huge stock of all grades await their inspection. Blankets of Pure Wool, closely woven, full width and length, and and at right prices, certain to give comfortable service through many seasons.

NEW DRESS GOODS



are piled up on our counters and shelves in boundless profusion. So many of them that we are going to make some special bargains to get part of them out of the way. No left-overs among them—all this season's productions, and a fine stock.

RICHARD HALL & SON

THE STORE THAT NEVER DISAPPOINTS

December Campaign

WHAT IS IT?

Our December Campaign means much—it means to our customers BRIGHT NEW GOODS at VERY MODERATE PRICES, and in many instances

DECIDEDLY LOW PRICES.

It means to us the largest month's trade we have ever had in Peterborough.

It has been PLANNED FOR—WORKED FOR and WILL BE A SUCCESS. Very special preparations have been made in our two stores, and now we are ready. The incentive of QUICK ACTION and BRISK BUYING has characterized this business as never before, and we're reaching out after LARGER and better things in the future.

CLIMAX CLOTHING.

Our newest Department has been steadily and surely going ahead. CLIMAX BRAND CLOTHING has come to stay. It's the best Ready-to-Wear Clothing for men and boys—at the most moderate prices. THEN IT'S GUARANTEED.

PUBLICATION OF THE ASSESSMENT ROLLS.

Typographical Union Endorses Alderman McGregors Action in This Direction.

At the regular meeting of Peterborough Typographical Union, held last Saturday evening, the following resolution was adopted:

"That the Secretary of Peterborough Typographical Union No. 461 be instructed to send a letter of commendation to Alderman McGregor for his timely efforts in a recent Town Council meeting to have the assessment rolls of the town published, as this Union is firmly of the opinion that there are great irregularities existing in over and under valuating properties. We believe the rolls should be published so that we may be able to learn what our neighbour's assessments may be. It is but justice to every citizen. Also that a copy of this resolution be sent to the daily papers for publication.

MINISTERIAL ASSOCIATION.

Regular Monthly Meeting Held This Morning. Rev. Dr. Torrance's Paper.

The regular monthly meeting of the Peterborough Ministerial Association was held in the Y.M.C.A. this morning. In the absence of Rev. J. P. Wilson, the chairman, Rev. J. Bastow presided. The feature of the meeting was the paper which was read by Rev. Dr. Torrance, a resume of "Ecce Homo."

A special meeting of the Association will be held on Dec. 16th to make arrangements for the week of prayer.

IN CIVIC CIRCLES.

Meetings of the Various Committees and Boards.

The Town Council will meet to-night in Committee of the Whole at 8 p.m.

To-night the Board of Works will be in session.

The Finance Committee will convene to-night at 8 p.m.

The regular meeting of the Town Council will be held on Wednesday evening in the Council Chambers.

OFFERED A CHEQUE TOO MANY

And is now Behind the Bars in Kingston.

Swindler of Ontario Merchants Caught at Work in the Limestone City.

Kingston, Ont., Nov. 30th.—Saturday evening the man who has been passing forged cheques on the merchants in a number of towns and cities in Ontario and securing money in exchange was secured, and is now under lock and key at police headquarters. It was about 5.30 o'clock when he entered the store of Daniel Couper, grocer. He bought $1.04 in goods, and handed out a cheque on the Rathbun Company, per Chadwick, issued to Joseph Graham. He had endorsed it. Mr. Couper, knowing about the work of the forger, was suspicious, and said he could not cash it, but would go out and try and get the change. He telephoned the Rathbuns and was advised that no such cheque had been issued, and asked that the man be detained. The police were advised, and Sergeant Snodden took the man in charge. At police headquarters he was registered as Charles H. Carter. He had over 20 cheques on him, made payable to Graham, and signed by the Rathbun Co., Manager Chadwick being represented as the issuer.

Carter, who is about 28 years of age, admitted his guilt, and said he had been passing the forged cheques in many places in Ontario. He told the police that his home was in Toronto that he frequently cleared up $100 in a town he worked. Ordinarily he is a fine-looking man, well dressed, and quite business-like in appearance, but when at his work he dressed as a working man in overalls, peaked cap, black shirt, and shabby overcoat. He had $9.15 on his person.

Carter, who registered at the British-American Hotel as Charles Lee, had all the apparatus on hand to aid him in his business. The rubber stamps in making up a name were all secured, as well as dyes for fixing his complexion. He said that in Belleville and Peterborough he walked the railway station platforms while the police searched for him. His disguise was so good that he deceived the constables. He had Standard Bank cheques made out, and a big bundle of blank Bank of Montreal cheques. In other places he had gone under the name of Evans. He will be held here for trial.

Carter declined to give his address, in Toronto, as he did not want his friends to know about his incarceration, and it is thought the name he gave is a fictitious one. His mother and sister reside, he said, in the United States. He is quite cheerful, saying that he is ready for punishment. He had enjoyed the fun resulting from the way he made money, and having been caught, there was no need for crying. He said he frequented the Toronto theatres, and had good company, but his expenses were small and pleasures quiet. He "up the pasty" he made by his dishonesty.

These high-grade English jellies, "Khoosh," [illegible] by a young lady at Mason & Co's branch Store, 338 George street, every day this week. We want you to try them. W. H. Dwyer, Manager. 1d

Bear in mind that we meet any cut rate or clubbing offer for periodicals going from this date to all other—to SAILSBURY'S.

THE BERLIN BEET SUGAR INDUSTRY.

Factory Visited by Peterborough Delegation.

THE BUILDINGS DESCRIBED.

The Factory Buildings and Equipment Cost $600,000—Interesting Information Regarding a new Industry in Ontario.

Having dealt in as concise a manner as possible with a general description of the sugar factory at Berlin, to-day's article will be an attempt to convey as clearly as possible an idea of how the beets are transformed from the crude state, as taken from the ground, to the beautiful granulated sugar that is in daily consumption:

The beets, freed from tops and adhering dirt, are delivered at the factory in wagons and cars. They are then weighed. After being weighed and sampled, the wagon is driven on to a platform, unloaded into storage shed, with V-shaped bottoms, at the apex of which is a covered trough extending the entire length of the shed. The trough has a movable covering and contains a stream of running water. Starting at one end of the shed, part of the covering is removed, and the beets are allowed to fall into the water, which conveys them into the factory. Here they are carried by an elevator to the washer, which consists of a tank kept constantly full of fresh water, where they are subjected to a thorough washing by means of propeller arms, which convey them from one end of the washer to the other, keeping them constantly agitated. When thoroughly cleaned they are ejected by an automatic device and fall into a vertical iron basket elevator, which carries them to the weighing machine on the upper floor. The beet scale is an automatic machine, which weighs 900 or 1100 pounds at a time, as the case might be, and dumps them into the slicer, while at the same time the counter of the scale automatically adds up all quantities weighed and records the same. No mistakes are made in calculation and it is absolutely impossible for any of the working men to tamper with the record, the counting and adding mechanism being enclosed in a locked box. The slicer cuts the beets into triangular pieces, like shoestrings, about one-quarter of an inch wide, one-sixteenth of an inch thick, and of greater or less length. They are cut into such shape to avoid their lying too closely together as to prevent the circulation of the diffusion liquors when placed in the cells of the battery. The slicer consists of a rapidly revolving disk, about three feet in diameter, which is provided with a set of knives, cutting a large number of slices off the beets at every revolution.

DIFFUSION BATTERY.

By means of a revolving chute the fresh beet slices (technically called cossettes) are conveyed into the large cylindrical closed tanks or cells of the diffusion battery on the floor below. These cells (each holding about 2 to 2 1-2 tons) are arranged in a circle, connected by piping and valves, to facilitate filling with fresh sliced beets, and discharging the pulp or slices exhausted of sugar. Each cell has adjoining it a so-called "heater," filled with brass tubes, and so arranged that the juice may be heated by the admission of steam, without bringing it in contact with the juice. The cells and heaters are so connected with piping as to allow of water and juice being admitted to any individual cell or being circulated through them all. It is in the diffusion battery that the sugar held in solution in the cells of the beets is extracted. The object of the diffusion process is to obtain sugar juice containing as few impurities as possible. The sugar is held in solution in the cells of the beet, but these cells also contain the impurities (salts, albuminoids, etc.,) and, whereas it is only the crystallizable bodies, that have the property of diffusing through the cell membrane, it is desirable to have the cells remain intact and the slicer is therefore arranged to cut the beets in such a form as to rupture as few cells as possible, at the same time giving as large a surface as possible for the leaching, or action of the hot water, without preventing rapid circulation of the diffusion liquors. Care must also be exercised to prevent bursting the cells by overheating during the process of diffusion. The temperature at which diffusion takes place is from 70 to 80 degrees Centigrade, 158 to 176 degrees Fahrenheit, according to quality of beet.

By the methods formerly in use, the beets were ground into a fine pulp. Thus the cells were torn and the entire contents of the cells, sugar as well as salts, and other impurities, carried into the juice, which was obtained from the pulp either by pressing, by means of hydraulic presses, by maceration, or by centrifugal force. In all these methods of extracting the juice a great deal of foreign matter was obtained outside of sugar, which made the purification of the juices very difficult and hindered the manufacture. The diffusion method now generally in use differs from the old one in that the juice is no more separated in a mechanical, but in a purely physical way. The hot water acting upon the protoplasmic lining of the sugar cells, will allow the sugar in the cell to diffuse with the water outside, until the water outside the cell contains the same percentage of sugar as that on the inside. The water being drawn off and replaced by fresh water, the same process takes place and be continued until the sugar has been extracted. The juice so obtained would of course be very weak in the diffusion battery, therefore the juice obtained in the first leaching is used for the second, etc.

THE PROCESS OF DIFFUSION.

The operation is proceeded with as follows: First one cell is filled with fresh cossettes and hot water (at 80 degrees Centigrade) admitted till the cell is filled. Assuming now that the beets contain 12 per cent. of sugar, an interchange takes place, the cossettes giving up their sugar until only 6 per cent. remains, the other 6 per cent. having been taken up by the water. Meanwhile the next cell has been filled with fresh cossettes, and the water containing 6 per cent of sugar is now forced into it, having been heated in transit to 80 degrees Centigrade. In this second cell again an interchange takes place, but the water containing already 6 per cent. sugar, will extract but half of the difference between the sugar in it and the cossettes; this water will now contain 9 per cent. of sugar and if forced into a third cell, where it will again absorb half the difference between its own sugar and the cossettes. The same process is continued until the water has become sufficiently rich in sugar for evaporation. In the meanwhile fresh water has again been forced into the first cell; from there into the second, and so on. When the cossettes in the first cell have become exhausted of their sugar by the passage of fresh water the contents are discharged through a trap door and replaced by a fresh charge. The second cell is next to be exhausted and recharged, in its turn and thus every following cell continuously.

The juice now passes through a measuring tank, is accurately measured and a record taken of time, number of cell and density, and is then ready for the first carbonation.

CARBONATION PROCESS.

The juice as it comes from the diffusion battery is a dark, ill-smelling liquid, when it passes into the first carbonators, large closed tanks with valves and appliances for admitting juice, lime and carbonic acid gas. Slaked lime in the form of milk of lime are introduced in the heated juice for the purpose of having the lime unite with the impurities in the juice, both chemically and mechanically. In combining with the greater part of the impurities this lime forms an insoluble precipitate, viz., carbonate of lime. The lime also combines with the sugar, forming a sucrate of lime. In order to free this, in other words to separate the lime and sugar, carbonic acid gas is injected. This is done by allowing the gas to bubble through the limed juice, whereby a union of calcium and carbonic acid gas is effected forming Calcium Carbonate. Great care must be taken not to admit more gas than is necessary to break up the combination of lime and sugar, for after this is accomplished the carbonic acid attacks other compounds of lime, and if allowed to operate too long would again set free all impurities. The process must therefore be closely watched and samples taken with a test tube every few seconds, when the operation approaches completion. The gas is instantly shut off, as soon as by the formation of a granular precipitate, showing clear liquor between the particles, the completion of the process has been established. The object in burning the limestone in the factory in a specially arranged kiln, instead of buying the prepared lime, is to make sure of fresh burned lime, and furthermore, to secure the carbonic acid gas, which is needed in the manufacturing process, as well as the slaked lime, as just explained. The juice from the carbonators is removed and forced by means of pumps at a pressure of 60 lbs. per square inch through filter presses consisting of a series of frames and screens which remove the precipitates and other mechanical impurities. The purpose of the frame, a hollow iron square, is to receive and hold the lime percipitate. After being forced into the frames of the press, it passes through a finely woven cloth filter into the screen and from there the filtered juice passes through a cock in the screen to a trough. When the frames are completely filled with lime precipitate, the flow of juice into the presses is stopped. Hot water is then forced through the presses to wash out of the lime cake and cloths any juice left; the press is then opened and the lime cake removed.

Second Carbonation.—The juice and the wash water from the filter presses is now passed in a second set of carbonators and submitted to the same process previously described, however, very little lime if any being added. The carbonic acid gas is passed through the juice until only a trace of lime remains in it, which is determined by testing. In order to precipitate the double carbonate that may be in solution the juice is then boiled and forced through another set of filter presses. The clear strain-

Subscriptions and renewals taken at the Examiner office, Peterborough.

WHY?

Why hunt in vain for cheap houses to rent when it is easier to buy? Why pay seven to ten per cent. in rent to be turned out, when five to six would pay interest on investment and own your house? Why look for farms to rent when we have lots of them for sale? Why run your own risk of fire when you should be insured? Why run all risks without protection when you should have an accident policy? Why trouble your friends when you can get a guarantee policy? Why leave your wife and family to search and beg when a life policy would prevent it? Why not call at Lindsay & Might's Real Estate and Insurance Office for any of these?

Residence and workshop, 233 Water street. Telephone 217. Post Office box 213. 288-1y

FACTS CONCERNING SLEEP.

Even a Midday Nap Is Better Than the Noon Meal.

The scholar and professional man, like the anxious housewife, is apt to carry his cares to bed, and insomnia becomes a curse. Men and women who are busied in getting and gaining, the merchant, the banker, all alike, fail to secure that self control which can manage the mind as well asleep as awake.

Normal sleep should be purely a physiological repose similar to the rest of animals, who go to sleep with the darkness and awake with the light. Some one has said that sleep is like hunger and thirst, representing a diminution of energy throughout the entire body. I hardly think this can be true, but in my judgment sleep rather suggests the diminution of the energy of the brain, and he is a wise man who takes the hint when brain fag sets in of an evening and goes comfortably and properly to bed.

Of course it goes without saying that night is not the only time for sleep. Men and women who are busy could steal just a few minutes before or after the noonday luncheon to catch a little nap, and, indeed, I am nearly sure that the noonday nap is worth far more than the nonday meal, for the digestive processes are surely hindered during the periods of mental activity, and it is the exceptional person in this busy world of ours who is not called upon to use all his brain and brawn to make a living. It has been my habit to advise mothers to steal a while away from every "cumberous care" and, even if sleep fails to be wooed, to take about twenty minutes every day in absolute peace and quietness, diverting the mind from all anxieties and relaxing all the muscles. A habit of this kind is easily acquired, and we might have fewer neurasthenic women, whose nerves make life hideous to their families, if a word like this, spoken from considerable experience, were heeded.—Pilgrim.

CURED ONCE AND FOR ALL.

Dodd's Kidney Pills Make No Halfway Work of Kidney Disease.

J. J. McDonald had Rheumatism and Dropsy, was Cured by Dodd's Kidney Pills, and has had no Return of the Trouble for Five Years.

Windsor, Ont., December 1. (Special.).—It has been acknowledged for some years that Dodd's Kidney Pills would cure any case of Kidney Disease and of late those interested in medical science have been watching those cures to convince themselves that they were permanent. Gradually the conviction is forced that Dodd's Kidney Pills cure once and for all. One more proof of this is furnished by John J. McDonald, a well known farmer ,now residing at 130 Langlois avenue. Five years ago he was troubled with Rheumatism and Dropsy. For two years he suffered terribly and the different medicines he tried failed to relieve him. His legs were swollen and the pains he suffered were most acute. He used Dodd's Kidney Pills, was cured, and his cure caused quite a sensation at the time.

Mr. McDonald, speaking of his cure recently ,said:

"I have had no return of my trouble up to the present, and I am not anxious for any. It is with pleasure I acknowledge that Dodd's Kidney Pills cured me. I found them just as represented, and they did for me more than I expected that they would."

Newport's Architecture.

The cottages of Newport afford a strange commentary upon the contrasting tastes of the American nation. Their heterogeneity were impossible in a race of settled culture, in a race of common blood, in a country of limited extent. But the United States is a nation of nations. Its people are not Americans, but Englishmen and Scotsmen, Frenchmen and Germans, Italians and Spaniards of the third or fourth or tenth generation, says the Smart Set. Their taste in architecture is a taste that was born on the sunny Mediterranean shore, in cosy Normandy orchards, in chaste Spain and Italy, in baronial Scotland and England. It is revealed in the chateaux, the castles, the villas, the loggias of Newport. Seville and Welbeck, Florence and Falaise, here stand side by side on the same strip of grass, separated only by a grille from Venice or Antwerp.

Noah Left the Ark on April 20.

Saturday, April 20, is the day marked in all ancient calendars as being the one upon which Noah and his family quitted the [illegible] withstood the siege of the great deluge. The day is marked in all ancient calendars, especially Parthian, the supposed Mesdarcs, the 17th of March, the day upon which Noah, his family and their great floating collection of animal history specimens set sail, being designated in the same class of early printed literature as introitus Noe in arcam, "the day of Noah's entrance into the Ark." Why these days were chosen by the men upon which the supposed gathering and debarkation take locale are subjects which the antiquarians have not yet solved.

Instincts That Lead to Death.

Professor Mivart proved that there are "instincts" that lead to death by failing to adapt themselves to a change of circumstances. Migratory quail by thousands perish in the deserts of northern Africa, where their ancestors used to find a comfortable winter resort, abounding with [illegible] and even with grainfields, if we shall credit Pliny's account of the Numidian coast lands. The forests are gone, but myriads of quail still follow in the same route to the risk of starvation.

Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

JINGLES AND JESTS.

One Word.

"Oh, dearest, just one word!" he pleaded,
But not a single one was needed.
So warm her blush, so swift her smile,
So radiant her look, the while
Her soft head sank upon his shoulder.
Away! They want no grave beholder,
These two, for at his shy caress
The darling girl has whispered, "Yes!"
—Margaret E. Sangster in Everywhere.

Sick and Discouraged.

"He used to be so optimistic—always smiling and full of hope."

"I know it. But that was before he found out that he was getting $3 a week less than the man at the next desk."

The Bliss of Ignorance.

"Were you ever unconscious?" asked the wise guy of the cheerful chump.

"Not," replied the cheerful chump airily, "that I was ever conscious of."

Perhaps You've Met Him.

There's a little boy I know
Who never seems to go
Downstairs in just the regulation way;
He will roll or slide or crawl,
Go backward, jump or fall,
But walk? Oh, no! Not once the livelong day.

The Sleep Doesn't Come.

"He suffers from insomnia, doesn't he?"

"Yes, so much so that he never says 'Now I lay me down to sleep' any more."

What Women Like.

He—I love you, darling, more than words can utter.

She—Utter them just the same, Harry. I like to hear as much as I can.

The Season.

There once was a fullback who hunted
For trouble and got all he wanted,
For he started to fool
With a government mule;
His tombstone reads simply, "Outpunted."

Separation Needed.

"Hamfatte declares that he is wedded to his art."

"Well, it's a wonder a long suffering public doesn't appeal to the divorce court."

Time Required.

First Doctor—Have many died of that new disease of yours?

Second Doctor—No, but then it isn't generally known yet.

Changed His Luck.

Then there is Zephaniah Ware,
Who wishes he'd never been born.
He made a fortune in liquid air
And spent it for liquid corn.

Tough.

Chauncey—Does she return your love?

Algernon—No. Neither will she return the presents I gave her.

Secret of His Success.

"Has he any natural gifts?"

"Well, if you could hear the artistic way he flatters the boss you'd surely think so."

The Fall Trade.

Pretty books, with golden looks,
May each one be a winner
And bring, when the returns are in,
Expectant scribes a dinner!

Her Best Play.

"How do you like Miss de Sole in her new play?"

"I think it is the best thing in her wardrobe."

Religion.

Attention of unwonted kind
The Bible now receives.
It is a splendid thing, we find,
For pressing autumn leaves.

One Didn't Play.

He—Will you teach me how to make love to you?

She—I will if I can get up a class.

Real Wealth.

He dabbled in stocks and won,
For he was a lucky feller.
Not only did he make his pile,
But he has it in his cellar.

On to Him.

"Why, Willie, you didn't take off your cap to the minister!"

"To him? Great Scott! I'm his caddie!"

Cheer Up.

Ere long we'll hear the wintry blast,
And by some strange device
The mercury will drop so fast
An coal goes up in price.

Real Cassie.

"Is she pretty?"

"Why, man alive, her father's worth $40,000. Of course she's pretty!"

A True Nerve Tonic.

Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however, be restored and strengthened by assimilated food. The marvellous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful, ready for work, because you have the strength to do it. No tonic for the brain, blood or nerves compares with Ferrozone. Price 50c., at Ormond & Walsh's.

Hamilton's Pills are Effective.

Hasty Inference.

Hamlet—How did you come to start in business as a floorwalker?

Jewett—Twilight.

Equalized.

Stranger—Go slow, ye fast young men.
You can't change nature's ways.
You're lengthening your nights, but then,
You're shortening your days.

In Other Words, Consequently.

"Add up his's deserted he ah actress?"

"Yes. For the [illegible]."

And It Is Hard to Match the Price.

The richest pride of human art
The price of life has its equal.
—Baltimore Herald.

A BAD CASE OF KIDNEY TROUBLE CURED BY DOAN'S KIDNEY PILLS.

Kidney Troubles, no matter of what kind or what stage of the disease, can be quickly and permanently cured by the use of these wonderful pills. Mr. Joseph Leland, Alma, N.W.T., recommends them to all kidney trouble sufferers, when he says:—I was troubled with dull headaches, bad frightful dreams, terrible pains in my legs and a frequent desire to urinate. Noticing DOAN'S KIDNEY PILLS recommended for just such annoyances as mine, it occurred to me to give them a trial, so I procured a box of them, and was very much surprised at the effectual cure they made. I take a great deal of pleasure in recommending them to all kidney trouble sufferers.

Price 50c. per box, or 3 for $1.25; all dealers or The Doan Kidney Pill Co., Toronto, Ont.

GEORGE STREET.

THE PIANO TUNER.

Why He Left in a Hurry After Finishing His Job.

A lady stepped into a piano warerooom recently to engage a tuner, but before doing so insisted upon the strongest assurance that the tuner was responsible. She was so determined that the manager became curious to know the reason for her disbelief in the reliability of tuners. She gave her experience with the last tuner she had, and this is the story as she told it:

He had finished tuning the piano when he looked up and said:

"Your instrument was in awful condition. You ought to have sent for me sooner."

"It was tuned only three months ago."

"Then the man who did it certainly didn't know his business."

"No?"

"No, ma'am. He had better be doing street cleaning than tuning pianos. Why, my dear madam, a delicate instrument like a piano needs fingers equally delicate to handle it, combined with an ear of unerring accuracy. The individual who attempted to tune this instrument last evidently possessed neither of these. In fact, I am free to say he did it more harm than good."

"Indeed."

"Indeed he did. May I ask who it was who so abused your instrument?"

"It was yourself."

"Madam, you are wrong. I never tuned a piano in this house before."

"Probably not, but you tuned that instrument nevertheless, or made a botch of it in attempting to do so. It belongs to Mrs. Jones, who sent it here while she is out of town. She told me you always had tuned it and to send for you when"—

But the unhappy man fled with such haste as to make his coattails a good substitute for a card table.

Difficulties of Our Language.

A Frenchman came to England to learn English, and the following sentence was given him:

"The rough cough and hiccough plough me through." The teacher told him the first word was pronounced ruff. He thereupon said this: "The ruff cuff and hiccuff pluff me thruff."

"No, no, the second word is pronounced 'kof.'"

"Then," said the Frenchman, "it must be the ruff coff and hiccoff plof me throff."

The third, fourth and fifth words were explained with the same result, which the reader may repeat for himself.

A Long Green One.

"Erbom's interested in that bill you voted for," said the first councilman.

"Sure," replied the other. "Don't you suppose I know that?"

"Did he ask you personally to vote for it?"

"Well—er—he just handed me a note."

Respectful.

"Where did that child get her manners?"

"Not from my side of the house."

"Why not?"

"Because she hasn't any."

In writing a letter the great genius is the one who remembers what should be left out.—Exchange.

There is no crime. All crime is ignorance. Its remedy is education.—Frederick.

HIS ONLY REGRET.

The Great Sorrow That Consumed Bichat When He Was Dying.

One century ago died Xavier Bichat, the famous physician and anatomist, author of "L'Anatomie Generale." He probably dissected more human corpses than any other man in the world's history. He established a record when he opened 625 bodies during one winter. He was not a vivisectionist and was wont to say, "I would rather dissect two dead people than kill one chicken."

Of his nerve a tale is told. When he lay on his deathbed, he called his colleagues to him and said: "Dear friends, I am done, but what comforts me is the fact that my case is a remarkable one. I have had unusual symptoms for some days which I have analysed. They have greatly surprised me." The doctors sought to reassure him. He answered that he was under no illusion with regard to himself. "I shall die fairly satisfied with my life and go to the grave with only one regret, one great sorrow."

"What is that?" he was asked. "I am distressed that after death I cannot dissect my own body. I could, I am certain, have made some beautiful scientific discoveries." Then he sank back, murmuring: "I must not think about it. It won't bear thinking of."

Birds' Nests and Poetry.

Birds' nests have attracted the attention of inquisitive genius from the days of Aristotle down to the present time. This is not wonderful, because the nests are invariably curious and often beautiful, besides offering a cradle, as it were, for a host of romantic speculations and poetical theories. Imagination has taken hold of birds and their nests with singular affection, drawing forth meantime some beautiful legends to enrich romance withal and to add to the sum of what is most persistent in the song of mankind.

The ancients told that the halcyon, a beautiful aquatic bird, had its nest on the sea's breast, a little floating palace around which the water was always calm and sweet. Halcyon, or alcyon, was the kingfisher, it is supposed, but we now know every species of this bird, and none of them builds its nest to drift about on the sea. Indeed, as if to make the contrast of fact with fancy as great as possible, most of the kingfishers dig deep holes in the ground for their homes.

Is Your Back Lame?

Does it hurt to stoop or bend down? Have you a heavy dull pain at the base of the spine? If so the best remedy is Nerviline; it will invigorate the tired, soft muscles, make them supple and strong. Nerviline will drive out the pain and make you well in no time. Nothing so good as Nerviline for Lumbago, Stiff Neck, Rheumatism, Neuralgia and Sciatica. Buy a 25c bottle of Polson's Nerviline today and try it.

Dr. Hamilton's Pills cure Constipation.

The Women of Langrum.

Woman supreme—without the ballot! And this feather which London Answers sticks in the cap of woman is no less brilliant because she is allowed to wear it only in the town of Langum.

In that little Welsh village man neither is nor pretends to be. In other villages he sometimes pretends to be, but in this sequestered nook on the Pembrokeshire coast he is simply Annie Williams' man or Mary Jones' man and recognises himself as such.

In Langum woman is the dominating force in the market; she is the household financier, the family accountant, and in fact fills all the positions which in any other community, civilised or barbaric, are established by precedent given to man. Whether he of Langum has resigned or been divested of all responsibilities of life is no part of this story.

There is another important fact in Langum life—oysters. The place is famous for them. But Langum oysters are in no sense rivals of Langum womankind; their proverbial dumbness precludes that.

Do You Look on the Dark Side?

Are You Blue, Discouraged Irritable and Depressed?—It may be Your Nerves are Exhausted and You Need

Dr. Chase's Nerve Food.

Irritability and mental depression, sometimes amounting to melancholy and despondency, are marked symptoms of nervous exhaustion.

In the beginning you feel languid and tired, find it impossible to concentrate your thoughts. The tasks of the day are put off till the morrow, little things worry you, you forget your blessings and look on the dark side of things.

At times there may be nervous headaches, spells of dizziness, indigestion, sleeplessness and general weakness of the body. You dread what the future may bring to you and feel the work and responsibilities of life more than you can bear.

Mrs. M. A. Sharp, 305 Dublin street, Peterborough, Ont., states:

"For many years I was troubled with indigestion which developed into nervous dyspepsia and besides suffering from nervousness, strange, dizzy spells would come over me. Hearing of the good results obtained from Dr. Chase's Nerve Food I decided to try it. After a pretty thorough test of this medicine I can say that I never used anything that did me so much good. It seemed to be the very treatment that I needed and as a result of its use I am quite restored to health."

The wonderful medicinal power of Dr. Chase's Nerve Food has been demonstrated in thousands of cases. Gradually and certainly it creates new nerve cells, builds up the system, and overcomes the weakness which gives rise to nervous ailments and feelings of depression and despondency. New hope, new confidence, new vitality are instilled into the body and health and strength take the place of disease.

Dr. Chase's Nerve Food, 50 cents a box, six boxes for $2.50. At all dealers or Edmanson, Bates and Co., Toronto.

For a Hurried Luncheon Nothing is so handy as Bovril

The evils of hurrying over or putting off your meals are manifold: headaches, irritableness, depression, and worst of all impaired digestive powers, are nearly always the result of this hasty habit. The remedy is however, within the reach of all. Whenever circumstances compel you to postpone a meal, Take a Cup of Bovril, which can be prepared in a minute by adding a little boiling water, or may be obtained at any lunch room or restaurant.

Bovril contains all the nourishing properties of the best lean beef in the most concentrated and palatable form. It strengthens the system and gives renewed life and vigor after fatigue.

AS SEEN BY A BRITON

HOW THE LONDON EXPRESS MAN SAW THE DOMINION OF CANADA.

Fruitfulness of the Country and Her Great Future for the Enterprising Worker—Great Western Wheat Fields and Their Surroundings Described in Friendly Fashion—Struggles and Successes.

The London Express' journalist, who was with the recent touring newspaper men through Canada, writes as follows:

Brandon was christened a city when it was a collection of tents and wooden shanties. To-day it is one of the biggest town in Manitoba, possessing half a dozen hotels and 5,000 people. Our train drew up with that rumble and roar of wheels and ringing of bells that only the Canadian Pacific Railway can make, and in another minute the Mayor and the Board of Trade of Brandon City were trying to grasp the various names of the party.

* * *

They tell you out here that no one can help being prosperous and happy who will work. "Come along in your thousands," is the cry of the Northwest to the little island across the seas, which its broad territories could swallow up many times. "Work, land, futures for you all, and there are millions of untrodden acres out West."

We drove out across the wheat fields where the harvest hands make £2 a week, with food and board besides, and where many a struggling farmer of the Old Country reaps a field of half a mile square. We heard great stories not only of farmers who came out with some capital, but of laborers who emigrated from England with a few dollars in their pocket, and now own hundreds of acres. There are no small farms in Manitoba. A section of land is a mile square, and a man who does not possess half a section is not considered at all; and 160 acres is the smallest amount worked.

The air was filled with the wh-r-r, wh-r-r, of the reaping and binding machines. Far as the eye could reach to the horizon—and in Manitoba you can see a long way—lay a great ocean of wheat stirred into gentle waves by a cool wind. Wooden farmhouses and barns seemed almost engulfed in this sea of grain, and the only relief for the eye was the black loam of a sunned fallow, where the rich soil was resting from its labor. Down the stubble a mile away a reaper was turning his team of four horses, carving a slice eight feet broad from the solid block of gold.

He showed a white gleam of teeth in a face bronzed almost black with the sun as he came near, and we hailed him a cheery greeting.

"Where from?"

"Zummerset," came back the answer.

And in another minute he was explaining to us in the soft-tongued dialect of Wessex how he came out to Manitoba ten years ago with two dollars in his pocket. His story is typical of many others. The first four years, he said, were a hard time; and if he had been able to do so he would have gone home again in his first year, home to the dairy farm at Yeovil where he tended cows for eighteen shillings a week.

Fortunately for him, he "stuck it," and after four years of work on other men's farms he had saved enough to buy a quarter section of his own. He built his log cabin, and plowed thirty acres in the fall. But in the winter he worked in the lumber woods with his team of horses; then flitted back to his land and sowed his wheat in the spring, working as a hired hand again during the summer.

But in September he reaped his own harvest, and his thirty acres of wheat brought him in eleven dollars for every acre. In the autumn he plowed sixty acres, and paid down the first instalment for another quarter section of land; till by degrees he came to his present prosperity—the proud owner of 480 acres of land, with 360 acres of the finest wheat that a man could wish to see.

The average cost of plowing, sowing, and harvesting an acre of land amounts to seven dollars; the average yield in Manitoba this year will be at least twenty-five bushels to an acre, and that means the farmer nets nearly seven dollars profit on each acre. If English farmers could make twenty-eight shillings profit on twenty-five bushels of wheat, we should see twice as much wheat grown in our little island.

This year Manitoba and the Northwest have two million and a half acres in wheat and another million and a half in oats and barley. As the yield is high there will be over fifty million bushels of wheat to export. And this can be shipped at the average price of twenty-five cents—or a shilling—a bushel to Liverpool.

But a great deal of nonsense is talked about free grants of land in Manitoba. All the best land is occupied, or in the hands of land companies, and any immigrant who comes to Winnipeg on the idea that the Government of Manitoba will give him a profitable free grant of 160 acres had better remain at home. In the neighborhood of Brandon—the centre of the wheat belt which extends some three hundred miles west of Winnipeg into Assiniboia—good land costs from twenty to nearly thirty dollars an acre, a dollar being four shillings. But twenty miles and more from the railway there is still land to be had at six to ten dollars an acre; and labor is so scarce and wages so high that a hard-working man will, like our "Zummersetshire" friend, save enough in a few years' time to buy 160 acres, and farm it by degrees till he can set up on his own.

If you want your free grant of first-class land you must go into the Far West, into Assiniboia, Saskatchewan, and Alberta; and even there you will with difficulty escape the American. Vast tracts of land have been bought by the Yankee speculators, who are earning it over at an immense profit; and the genuine American farmer is following in their wake.

Canada is, in fact, booming; and in twenty years' time there is no reason why she should not produce a billion bushels of wheat. She grows, after all, a mere bagatelle to-day, not more than could be, or, indeed, was but recently produced between the Thames and Carlisle. Manitoba alone could produce ten times as much, and the only reason that the wheat fields seem vast to-day is that they are massed together in one small belt of territory. Even more than labor, capital and brains are needed in Canada to-day. And if English capital and brains do not come soon, the richest agricultural heritage that the Empire possesses will pass into alien hands.

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

The Best Medicine for Mothers

Dr. Pierce's Favorite Prescription

"Words cannot express how grateful I am for your kind advice and your 'Favorite Prescription,'" writes Miss [illegible], of Barracks, of Perrows, Campbell Co., Va. "I feel that it has cured me. I had been in poor health for four years. Suffered greatly with my right side, also with bearing down pains, and my nerves were in a dreadful state. After using four bottles of your 'Favorite Prescription' I am now well. I am the mother of two children. With the first child I suffered almost eight hours, and with the second I used your medicine and was sick only three hours. I believe Dr. Pierce's Favorite Prescription to be the best medicine in the world for suffering females. I wish you great success, and hope that God will bless you in your noble work."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAD OVER 500 BOILS.

This may seem an exaggeration to you, BUT IT IS TRUE.

All sufferers from Bad Blood should read about this miraculous cure by

BURDOCK BLOOD BITTERS.

CURED IN 1895.

Mr. David F. Mott wrote us from Spring Valley, Ont., in 1895. He said:—I suffered from impure blood and had over 500 boils, but since taking BURDOCK BLOOD BITTERS I am entirely cured, and can recommend it to any person troubled with bad blood.

CONFIRMED IN 1901.

Mr. Mott writes us from 62 Broad St., Utica, N.Y., under date of Dec. 31st, 1901. He says:—Some time ago I received a letter from your firm, saying that some years ago you received a testimonial from me, stating that I had over 500 boils. Yes, sir, I had, and I must say that I have never had the reappearance of one since I took the course of your BURDOCK BLOOD BITTERS. I thank God that I have had good health ever since, for I was a great sufferer. I wish B.B.B. a world of success, which it surely deserves.

For sale at all druggists or dealers.

THE T. MILBURN CO., LIMITED, TORONTO, ONT.

Corticelli Home Needlework

"Onward" is the watchword of the Corticelli Home Needlework Magazine. Great changes and improvements are under way, and the next number will surpass all previous issues. The magazine will be increased in size to that of the regular standard publications, the dimensions of the pages being 6 7-8 x 9 3-4 inches. It will be handsomely printed from new type and on fine book paper, and will contain a vast amount of valuable information to lovers of art needlework, decore crochet, drawn embroidery, etc. The usual number of beautiful coloured plates will appear, as well as many handsome designs and patterns for holiday gifts.

Owing to the extensive improvements made in the magazine, the price, after January 1st, will be 50 cents per year for the four issues, or single copies 15 cents, but orders from now till the first of the year will be received at the old rate of 35 cents, or 10 cents for sample copy. Address Corticelli Silk Company, Limited, St. Johns, P.Q. Write for the great premium offers now being made.

No lady who desires to perfect herself in the skilful use of the needle, can afford to be without the "Corticelli Home Needlework Magazine."

COLONIAL TROOPS.

Dr. Brodrick's Scheme to Raise 20,000 Men—What Canada Is to Supply—Question of Naturalization.

In his address to the Colonial Conference, Mr. Brodrick, Secretary of State for War, suggested in general terms the raising of 20,000 men by the colonies to be trained with a liability to oversea service in case of Imperial emergency. Mr. Brodrick did not go into detail on the proposition, but a memorandum produced by Lieut.-Col. E. A. Altham, C. M. G., Assistant Quartermaster-General at headquarters, embodies the views of the militia advisers as to what should be the action of the colonies. The proposals made in this memorandum contemplate the organization of the following troops for general Imperial service in war.

Australia—Two mounted brigades, one infantry brigade; approximate strength, 9,000 men.

New Zealand—One mounted brigade, two infantry battalions; approximate strength, 3,000.

Canada—One brigade division field artillery, one infantry brigade; approximate strength, 3,000.

Total, 16,500 men.

Col. Altham quotes from the report of the general officer commanding in Canada the statement that the city corps have absolutely no training whatever in the field duties of a soldier and that the rural corps will never be made even fairly fit to take the field with the limited period of annual training that they receive under existing conditions. Col. Altham goes on to say: "In the event of war with the United States, it is on this Canadian militia that must depend the entire safety of Canada until reinforcements arrive from England. It may, therefore, be concluded that the best way in which Canada can co-operate in Imperial defence is by making her militia as efficient force.

"It is more important that the Canadian Ministry should be urgently pressed to take this reasonable precaution than that they should maintain contingents for general Imperial service." Nevertheless the services rendered by Canadians in South Africa, as well as the history of the last Anglo-American war, show that the Canadians are excellent fighters, and would be a valuable addition to the Imperial forces. It is reasonable to assume that Canada will desire to co-operate with Australia in any steps that may be taken for creating a permanent organization of colonial Imperial forces, and if such a desire be felt there are strong political reasons for encouraging it. Moreover, it is possible that, by the example of a Canadian Imperial force, the militia in general might be worked up to a higher standard of efficiency. The strategical position of Canada makes it, however, unwise that any large contingent should be drawn from her defence force, unless the strength of that force should in the future be increased. It is suggested, therefore, that if a Canadian Imperial force be organized it should be limited, for the present, to a brigade division of field artillery and a brigade of infantry."

The blue book on the Colonial Conference contains a minute of council adopted by the Canadian Government in reply to a circular despatch from the Secretary of State for the Colonies asking whether, in view of doubts and difficulties which have arisen in connection with the interpretation and administration of the naturalization acts, legislation for the amendment of these acts is desirable, and, if so, what scope and direction such legislation should take Lord Minto, in transmitting a copy of the minute, says: "It will be observed that Ministers express their concurrence in the principle that residence in any British possession should qualify for full naturalization equally with residence in the United Kingdom, but suggests that in harmony with the amendment by which it is proposed to substitute 'the King's dominions' for 'the United Kingdom' in the declaration by the alien as to his place of future residence, it should also be provided that part residence for a period of five years within 'the King's dominions' instead of within 'the United Kingdom' should satisfy the condition of residence required by the naturalization law."

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Noted Educator Dead.

A letter has been received at the Ontario Education Department announcing the death of Mrs. Dorcas Clark, one of the most noted educators of California, who passed away in San Francisco at the advanced age of 97 years. Until the last she was mentally alert and physically able to direct her little household. More than half a century ago she took the Lord Elgin medal in Toronto for chemistry, mathematics, and agriculture, a noted achievement when educational opportunities for women were limited. Mrs. Clark was appointed first head mistress of the girls' department of the Provincial Model School, Toronto, which position she resigned to go to California in 1865. Her first appointment in California was that of associate principal of the Baptist College, Petaluma. In 1868 she was made teacher of history and mathematics in the State Normal School of San Jose, and in 1888 was elected vice-principal of the Girls' High School in San Francisco, which she held until she retired, having devoted fifty-five years to educational interests.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

Too Much.

Mrs. Marryat—Mamma is talking of closing her house and coming to live with us. Do you think you could support both of us?

Mr. Marryat—My dear, I can support you very nicely now, but I'm afraid your mother would be insupportable.

Added Attraction.

"No, indeed," said the crafty agent to the bride and bridegroom. "Our company does not prohibit kissing on the platforms, and, besides, I would call your attention to the fact that we have more and longer tunnels than any other railway in the world."

No Comparison.

"That New York girl was awful mad when I asked her if she was from Boston."

"I'll bet she wasn't half so mad as the Boston girl whom I asked if she was from New York."

CURE SICK HEADACHE.

DENY THAT HAZING KILLED HIM.

Diabetes Caused Death of a Young Student From Lakefield.

Woodstock, Nov. 29.—Denial is given to a statement in the Toronto Presbyterian that severe hazing at Woodstock College caused the death of a youth in Lakefield. The lad referred to is Harry McKibbon, and he entered the college last September. Principal McCrimmon says the student was suffering from diabetes, which troubled him shortly after he came to the school. Dr. Sinclair treated him for the disease, and the boy was confined for some time in the college hospital. He went to his home in Lakefield and died there Nov. 1. Principal McCrimmon says there is no foundation for the rumor that McKibbon died from the effects of hazing. Dr. Sinclair's statements in regard to the case concur with those of the principal. The boy never told him that he had been hazed, but it appears that his grandfather, with whom he lived, suspected that the illness was brought on by hazing. The doctor says the disease was coming on before the unfortunate student entered the college.

Insurance of $210,000.

Winnipeg, Nov. 29.—At the local offices of the Rat Portage Co. nothing had been learned of the conflagration as the manager here could not get into communication with Rat Portage. No. 4 yard, which was destroyed, is one of the largest belonging to the company. The Commercial Union Insurance Company placed all the insurance, which amounts to $210,000. Norman is a town of about 800 souls, situated between Keewatin and Rat Portage, about two miles from the latter town. Its chief industry is lumbering, the Rat Portage Lumber Co. carrying on an extensive business.

Big Fire at Halifax.

Halifax, Nov. 29.—The J. S. Henderson Larrigan Factory at Parrsboro, N.S., was destroyed by fire last night, together with 20,000 pairs of larrigans, and throwing 100 men out of employment. The loss is $40,000, partially covered by insurance. The factory was one of the largest of the kind in the provinces, and supplied much of the product to Western Canada.

Dying by Slow Degrees.

Although not always aware of it [illegible] die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrhozone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the inhaler kills thousands of germs, clears the throat and nose, kills expectoration, and relieves the pain across the eyes. Catarrhozone eradicates every vestige of catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price, $1; trial size, 25c.; all druggists. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills cure Biliousness.

Negro's Kicking Hair.

A boy big enough to have reached the subject of races of men—not horses—in his geography class was asked to describe the negro. His answer, "The negro has kicking hair and producing lips," showed that he had at least heard the teacher when she spoke of the "kinky" hair and "projecting" lips characterizing his dark skinned brother. His answer really was not so funny as the remark made by a woman who in speaking of her sister said feelingly, "Oh, she's all misconstrued, so we had to take her to the hospital for a performance."

Her Saving Way.

Mrs. Scale Downie—I will have to get another girl, though only temporarily, perhaps a month or so.

Mr. Scale Downie—Three dollars more a week and board! What do you want an extra girl for?

Mrs. Scale Downie—I have found out how to make just the loveliest little hanging cabinet you ever saw at a cost of only $2, but it will take me several weeks to do it.

A Discouraging Position.

"Do you think a literary woman ought to marry?"

"Not if she is a novelist. Her ideas of manly perfection as depicted in her books would be enough to make any conscientious husband give up in despair and leave home to look for work as a truck driver."

Time.

Time is the most paradoxical of all things; the past is gone, the future is not come, and the present becomes the past while we attempt to define it.

When a man has difficulty in finding a chance to propose, he can make up his mind that the girl doesn't want him.—Chicago Record-Herald.

CUSTOMS COLLECTION.

Large Increase Over Last Year—Last Month Nearly 100 per cent Ahead of the Same Month Last Year.

By courtesy of the collector, the Examiner is able to state that the customs collections for the port of Peterborough for November shews a remarkable increase, indicating a great quickening in commercial operations.

The collections for the month of November, 1902, amounted to $16,140.33, as against $8,235.69 for the month of November, 1901, an increase of $8,912.76, or nearly 100—96 1-2—per cent.

The collections for the three months ended November 30th, 1902, were $51,627.69, as against $31,272.88, for the corresponding three months of 1901, an increase over last year of $20,351.31, or over 60 per cent.

NEWS NUGGETS.

—The Peterborough Board of Education will meet in regular session tomorrow evening.

—The annual dance of the Peterborough Rugby Club takes place tomorrow evening.

—Loyal Orange Lodge, No. 69, will meet to-night in their hall, Simcoe street, at 8 o'clock.

Copies of the new rules, which it is proposed to discuss at the coming annual meeting of the C.E.F.U., are to hand.

—Tickets for the Rugby dance may be procured at the drug store of Ormond & Walsh's, the Examiner, or from members of the club. Those not attending this year's dance will miss the event of the season.

APPLES.

PRESENTATION AND ADDRESS.

Friends Remembered Them Prior to Their Removal to Peterborough.

A number of the members of the W. M.S. of the Methodist church, accompanied by their husbands, called at the home of Mr. and Mrs. J. J. Lang, on Wednesday evening, Nov. 19th, to bid them good-bye before their removal to Peterborough. A presentation was made to Mrs. Lang, of a sterling silver salad fork and spoon, accompanied by an address.

Mrs. Lang was completely taken by surprise, but Mr. Lang replied for her in a few well-chosen words.

Rev. Mr. Brown and some of the gentlemen present made short speeches, all expressing their regret at the loss of Mr. and Mrs. Lang and their family to the church and the community. Refreshments were partaken of, and a pleasant, social hour spent.—Omemee Mirror.

SOCIAL AND PERSONAL.

Mr. Wm. Miller is home from Detroit for a short visit.

Messrs. J. S. and J. L. Madill, of Napanee are guests at the Oriental to-day.

Mr. David Conroy, jr., of Peterborough, has been around the last few days buying horses and large steers. He has picked up quite a number.—Bobcaygeon Independent.

Rev. Dr. Robert Campbell, and Rev. Rev. Dr. R. D. McLaren, General Secretary of Presbyterian Missions, preached morning and evening in St. Andrew's yesterday.

1000 Miles for $20.

By purchasing the Grand Trunk mileage books you can save time and money, and it is the most convenient and satisfactory method. On sale by any agent of the Grand Trunk. Further particulars cheerfully given by calling at the city office or station ticket office.

THE BERLIN BEET SUGAR INDUSTRY.

(Continued from 5th Page.)

ed juice from the second carbonators, which is then of a light straw colour and almost pure, is now forced by pumps to the so-called "sulphiters," similarly constructed as the carbonaters. By means of an air compressor sulphurous acid gas obtained by burning sulphur in a muffle, is forced through the juice, decolourizing it and precipitating the remainder of the lime. The gas generator has two compartments, one being used at the time, so as to allow of cleaning without interrupting the process. The juice, now of a water white colour, undergoes another filtering in mechanical filters (consisting of iron boxes, provided with a cover for removing the bags on the inside) whereby any mechanical impurities which might be in the juice are removed. This process completes the purification or clarification and the now pure juice is passed to the multiple evaporating apparatus for the purpose of concentration.

EVAPORATOR.

This evaporator or so-called quadruple effect consists of four bodies, each containing two sections or chambers; the lower or steam chamber for the steam and the upper chamber, occupying about two-thirds of the space, for the juice and the vapors arising from the boiling. The upper or vapor chamber of each effect, is connected with steam chamber of the next effect, so that vapors of the boiling liquor can pass from one steam chamber to the next. The process is as follows: Steam is turned into the steam chamber of the first effect and boils the juice in that effect, the vapors arising from the steam chamber of the second effect go over and boil the juice in the third effect, and so on until the boiling process goes on in all. By means of a vacuum pump attached to the condenser of the fourth effect a vacuum of different degree is created in each, and the juice can readily be drawn from one to the other. By carrying on the process under vacuum, loss of sugar by excessive heat is prevented. When the juice in the last effect has reached the required point of density, it is pumped out and carried over to the vacuum pan, where it is boiled to a grain. The vacuum pan in which the concentrated juice is boiled to a thick crystallized mass, the so-called massecuite, consists of a large hollow cylinder made of cast iron put together in sections. The process of boiling is conducted as follows: By means of a pump vacuum is produced, the juice is drawn into a certain level and steam is admitted into the copper coils placed at the bottom of the pan causing the juice to boil. As soon as the juice has boiled down to a certain density small sugar grains appear, and when these have accumulated in sufficient quantity more juice is admitted. This addition instead of starting new grains, deposits upon the first. The process of admitting fresh juice and boiling down is continued until the pan is full, when it is passed into the mixer by means of a large valve situated in the bottom.

THE MIXER.

This apparatus consists of a large V-shaped trough. A shaft runs through it provided with arms for the purpose of keeping the boiled juice or so-called "massda" from solidifying. This boiled juice, of the appearance of a thick paste, passes to the centrifugals directly below, through short spouts, which are regulated by means of a tight fitting gate.

A charge of boiled juice of about 200 lbs. is admitted into the centrifugal machine, which is set revolving at the rate of 1,000 revolutions per minute. At the expiration of about 10 minutes, the molasses is thrown off and the sugar adhering to the sides of the centrifugal removed. Thus the operation is completed and the pure white sugar now left, falls through a trap door situated in the bottom of the centrifugal and is taken by means of a conveyor to the dryer or granulator. The granulator consists of a circular shell provided with steam pipes that give the heat for drying. This apparatus is slowly revolving and small shelves attached to interior sides cause the sugar to pass through its entire length without staying too long in any part, thus preventing the danger of burning. After the slight moisture is thus removed the sugar falls through a chute to a hopper and is placed in bags or barrels for shipment.

AFTER PRODUCTS.

The syrup or molasses obtained from the first product as above described is collected in tanks and when a sufficient quantity has accumulated, is sent back and boiled again in the vacuum pan (so-called second pan,) but not boiled to a grain. When it has reached the desired consistency, it is run into crystallizers of the same capacity as the vacuum pan, which consist of large boiler-shaped vessels, supplied on the outside with a water jacket to allow of cooling when necessary. A slowly revolving shaft on the inside, provided with arms keeps the mass air in constant motion, whereby the cooling is effected. By this process a brown sugar, the so-called section product, is obtained.

The syrup or drains left from this operation are again sent back and reboiled in the vacuum pan, and run into crystallisers, whence they emerge as brown sugar, the so-called third product.

All this brown sugar, which is very unpalatable, is melted in a mixer and worked in with the green juice in the first pan. The molasses now left is of a very low grade and in most instances is allowed to go to the sewer or is run into the pulp. It might be used for vinegar, alchol or blacking. Some factories, when finding on analysis that the molasses contains sugar that will crystallize, store it in tanks and let it remain there until the next season, when such sugar as has settled to the bottom is taken out and worked over. The substances in question amounts to about 3 to 4 per cents of the sugar content of the beet. By certain additional installations, representing different processes, such as the Osmose, Ransom, Strontain processes, Steffen and others, part of the sugar can be recovered.

PULP.

A vexing problem which has confronted many factories in the past was what to do with the pulp, which amounts to about 90 per cent. of the tonnage of beets worked up in a factory. Our farmers are just now beginning to appreciate the value of this pulp as a stock food. Experiments along the line have shown that for fattening hogs and cattle, feeding lambs and the dairy cow, this pulp offers a valuable and cheap food. At on dollar a ton it would be cheap, and in such parts of the country where there are large dairy or stock feeding industries the factories have found no difficulties in disposing of the pulp at from 35c. to $1 per ton, the farmers furnishing the beets to the factory as a rule being glad to take such share as represented by the total of their beet deliveries at an agreed upon price to be deducted from the price they received for their beets. The pulp may be siloed with sprinkling of salt and loses none of its virtue for a couple of years after it is siloed. It has been claimed on basis of tests that better results are obtained from siloed pulp than from the fresh pulp, i.e., when fed coming direct from the mill; furthermore that such pulp fed to cattle makes a firmer, tenderer and better coloured beef. The value of the dairy may be better understood from the following figures: Calculating the value of a basis of units of feeding value, allowing three units for proteine, two units for fatty substances and one unit for substances free from nitrogen, this pulp would represent 44 units of feeding value.
